"(a) The Attorney General diligently shall investigate a violation under section 3729 of this title. If the Attorney General finds that a person has violated or is violating section 3729, the Attorney General may bring a civil action under this section against the person.

"(b)(1) Except as provided in subsection (e), a person may bring a civil action for a violation of section 3729 of this title for the person and for the United States Government. The action shall be brought in the name of the Government. An action may be dismissed only if the court and the Attorney General give written consent and their reasons for consenting.

"(2) A copy of the complaint and written disclosure of substantially all material evidence and information the person possesses shall be served on the Government under Rule 4(d)(4) of the Federal Rules of Civil Procedure. The complaint shall be filed in camera, shall remain under seal for at least 60 days, and shall not be served on the defendant until the court so orders. The Government may elect to intervene and proceed with the action within 60 days after it receives both the complaint and the material evidence.

"(3) The Government may, for good cause shown, move the court for stays and for extensions of the time during which the complaint shall remain under seal. Any such motions may be supported by affidavits or other submissions in camera. The defendant shall not be required to respond to any complaint filed under this section until 20 days after the complaint is unsealed and served upon him pursuant to Rule 4 of the Federal Rules of Civil Procedure.

"(4) Before the expiration of the initial 60-day period or any stays obtained, the Government shall—

"(A) proceed with the action, in which case the action shall be conducted only by the Government; or

"(B) notify the court that it declines to take over the action, in which case the action shall be conducted by the person bringing the action.

"(5) Where a person brings an action under this subsection, no person other than the Government may intervene or bring a related action based on the facts underlying the pending action.

"(c)(1) If the Government proceeds with the action, the action is conducted solely by the Government and it shall not be bound by an act of the person who initiated the action. If he so requests, the person bringing the action shall be served with copies of all pleadings filed in the action, shall be supplied with copies of all deposition transcripts (at his expense), and shall be permitted to file objections with the court and petition for an evidentiary hearing to object to any proposed settlement or to any motion to dismiss filed by the Government. The court may grant such an evidentiary hearing only upon a showing of substantial and particularized need. The person bringing the action may move the court for leave to conduct the action in the name of the United States if, after making its election to take over the suit, the Government does not proceed with the action with reasonable diligence within six months or such reasonable additional time as the court may allow after notice.

"(2) If the Government elects not to proceed with the action, the action shall be conducted by the person who initiated the action. If the Government so requests, it shall be served with copies of all pleadings filed in the action and shall be supplied with copies of all deposition transcripts (at its expense). Where a person proceeds with the action in the name of the United States pursuant to subsection (b), the court may nevertheless permit the Government to intervene and proceed with the action by its own attorneys at a later date upon a showing of good cause.

"(3) Notwithstanding subsection (b), the Government may elect to pursue its claim through any alternate remedy available to it, including, but not limited to, any administrative civil money penalty proceeding.

"(d)(1) If the Government proceeds with the action, including any proceeding pursuant to subsection (c)(3), the person bringing the action may receive an amount the court decides is reasonable. The amount may not be less than 10 percent, nor more than 20 percent, of the proceeds of the action or settlement of a claim and shall be paid out of those proceeds.

"(2) If the Government does not proceed with an action, the person bringing the action or settling the claim may receive an amount the court decides is reasonable for collecting the civil penalty and damages. The amount may not be less than 20 percent, nor more than 30 percent, of the proceeds of the action or settlement and shall be paid out of those proceeds.

"(3) The amount awarded under this section shall be in the discretion of the court, taking into account—

"(A) the significance of the information provided to the Government;

"(B) the contribution of the person bringing the action to the result obtained; and

"(C) whether the information which formed the basis for the suit was known to the Government.

"(4) Where the persons brought an action based primarily on disclosures of specific information relating to allegations or transactions in a criminal, civil, or administrative hearing, a congressional or Government Accounting Office report or hearing, or from the news media, the court may award such sums as it deems appropriate, not to exceed 10 percent of the recovery and taking into account the significance of the information and the role of the person in advancing the case to litigation.

"(5) In addition to any other amounts awarded by the court, the court may also award the person bringing the action reasonable attorney fees and other expenses. The Government shall not be liable for the expenses or legal fees a person incurs in bringing or defending an action under this section.

"(6) If the Government does not proceed with the action and it is litigated by the person bringing the action, the court shall award to the defendant its reasonable attorney fees and expenses if the defendant prevails in such action and the court finds that the claim of the person bringing the action was clearly frivolous, vexatious, or brought for purposes of harassment. In cases where it appears that the person is bringing an action which is frivolous, vexatious, or brought for purposes of harassment, the court shall require such assurances that payment of legal fees and expenses will be made, if such are awarded, as it deems appropriate before allowing the action to proceed.

"(7) After any final judgment is issued in any action brought under this section, or any alternate remedy available to the Government, any person who brought an action under subsection (b) shall have 60 days to petition the court for any award to which he is entitled under this section.

"(e)(1) No court shall have jurisdiction over an action brought by a former or present member of the armed services under subsection (b) of this section against a member of the armed forces arising out of such person's service in the armed forces.

"(2) No court shall have jurisdiction over an action brought against a member of Congress, a member of the judiciary, or a senior executive branch official if the action is based on evidence or information known to the Government when the action was brought.

"(3) For purposes of this subsection, 'senior executive branch official' means those officials listed in section 201(f) of Appendix IV of title 5.

"(4) In no event may a person bring an action under this section based upon allegations or transactions which are the subject of a civil suit or an administrative civil money penalty proceeding in which the Government is already a party.

"(5)(A) No court shall have jurisdiction over an action under this section based upon the public disclosure of allegations or transactions in a criminal, civil, or administrative hearing, a congressional, administrative, or Government Accounting Office report, hearing, audit or investigation, or from the news media, unless the action is brought by the Attorney General or the person bringing the action is an original source of the information.

"(B) For purposes of this paragraph, 'original source' means an individual who has direct and independent knowledge of the information on which the allegations are based and has voluntarily informed the Government or the news media prior to an action filed by the Government.

"(f) The district courts shall have jurisdiction over any action brought under State law for the recovery of funds paid by State or local governments where such action grows out of the same transaction or occurrence as an action brought under this section.

"(g) The Attorney General or his designee is authorized to make payments from Department of Justice appropriations for information or assistance leading to a civil or criminal recovery under this section, section 3729, or sections 3731 through 3734, known as the False Claims Act or under section 286, 287, or 1001 of title 18. Any such payment shall be at the discretion of the Attorney General or his designee.

"(h) In civil actions brought under this section by the United States, the provisions of section 2412(d) of title 28 shall apply.".

SEC. 3. Section 3731 of title 31, United States Code, is amended by—

(1) inserting before the period at the end of subsection (b) the following: "or within three years after the date when facts material to the right of action are known or reasonably should have been known by the official of the United States charged with responsibility to act in the circumstances, whichever occurs last"; and

(2) inserting after subsection (b), the following new subsections:

"(c) In any action brought under this section or section 3729, 3730, 3732, or 3733, the United States shall be required to prove all essential elements of the cause of action, including damages, by a preponderance of the evidence.

"(d) Notwithstanding any contrary provision of law, the Federal Rules of Criminal Procedure, or the Federal Rules of Evidence, a final judgment rendered in favor of the United States in any criminal proceeding charging fraud or false statements, whether upon a verdict after trial or upon a plea of guilty or nolo contendere, shall estop the defendant from denying the essential elements of the offense in any action brought by the United States pursuant to this section or section 3729, 3730, 3732, or 3733.".

SEC. 4. Subchapter III of chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following:

"§ 3732. False claims jurisdiction

"(a) The district courts of the United States, including such courts for Puerto Rico, the Virgin Islands, Guam, and any territory or possession of the United States, shall have jurisdiction over any action commenced by the United States under this section, or under section 3729, 3730, 3731, 3733, or 3734. Venue of any such action shall be proper in any district in which any defendant, or in the case of multiple defendants, any one defendant can be found, resides, transacts business, or in which any act prescribed by such sections is alleged by the United States to have occurred. A summons as required by the Federal Rules of Civil Procedure shall be issued by the district court and served at any place within the United States, Puerto Rico, the Virgin Islands, Guam, any territory or possession of the United States, or in any foreign country.

"(b) The United States Claims Court shall also have jurisdiction of any such action if the action is asserted by way of counterclaim by the United States. The United States may join as additional parties in such counterclaim all persons who may be jointly and severally liable with such party against whom a counterclaim is asserted by reason of having violated this section, or section 3729, 3730, 3731, or 3733, except that no cross-claims or third-party claims shall be asserted among such additional parties unless such claims are otherwise within the jurisdiction of the United States Claims Court.".

SEC. 5. Subchapter III of chapter 37 of the title 31, United States Code is further amended by adding at the end thereof the following:

"§ 3733. Civil investigative demands

"(a) For purposes of this section, the term—

"(1) 'False Claims Act law' means—

"(A) this section and sections 3729 through 3731 of this title, commonly known as the False Claims Act; and

"(B) any Act of Congress enacted after this section which prohibits, or makes available to the United States in any court of the United States any civil remedy with respect to any false claim, bribery, or corruption of any officer or employee of the United States;

"(2) 'False Claims Act investigation' means any inquiry conducted by any False Claims Act investigator for the purpose of ascertaining whether any person is or has been engaged in any violation of any provision of the False Claims Act law;

"(3) 'False Claims Act investigator' means any attorney or investigator employed by the Department of Justice who is charged with the duty of enforcing or carrying into effect any False Claims Act law or any officer or employee of the United States acting under direction and supervision of such attorney or investigator in connection with a False Claims Act investigation;

"(4) 'person' means any natural person, partnership, corporation, association, or other legal entity, including any State or political subdivision;

"(5) 'documentary material' includes the original or any copy of any book, record, report, memorandum, paper, communication, tabulation, chart, or other document, or data compilations stored in or accessible through computer or other information retrieval systems, together with instructions and all other materials necessary to use or interpret such data compilations, and any product or discovery;

"(6) 'custodian' means the custodian, or any deputy custodian, designated by the Attorney General; and

"(7) 'product of discovery' includes without limitation the original or duplicate of any deposition, interrogatory, document, thing, result of an inspection of land or other property, examination, or admission obtained by any method of discovery in any judicial or administrative litigation or action of an adversarial nature, any digest, analysis, selection, compilation, or any derivation thereof, and any index or manner of access thereto.

"(b)(1)(A) Whenever the Attorney General has reason to believe that any person may be in possession, custody, or control of any documentary material, or may have any information relevant, and not otherwise reasonably available, to a False Claims Act investigation, he may, prior to the institution of a civil proceeding, issue in writing and cause to be served upon such person, a civil investigative demand requiring such person to produce such documentary material for inspection and copying, to answer in writing written interrogatories, to give oral testimony concerning documentary material or information, or to furnish any combination of such material, answers, or testimony. Whenever a civil investigative demand is an express demand for any product of discovery, the Attorney General shall cause to be served, in any manner authorized by this section, a copy of such demand upon the person from whom the discovery was obtained and notify the person to whom such demand is issued of the date on which such copy was served.

"(B) Notwithstanding the provisions of section 510 of title 28, the Attorney General may not authorize the performance of any function of the Attorney General vested in him pursuant to this paragraph, by any other officer, employee, or agency.

"(2)(A) Each such demand shall state the nature of the conduct constituting the alleged violation of a False Claims Act law which is under investigation, and the applicable provision of law.

"(B) If such demand is for production of documentary material, the demand shall—

"(i) describe each class of documentary material to be produced with such definiteness and certainty as to permit such material to be fairly identified;

"(ii) prescribe a return date for each such class which will provide a reasonable period of time within which the material so demanded may be assembled and made available for inspection, and copying; and

"(iii) identify the False Claims Act investigator to whom such material shall be made available.

"(C) If such demand is for answers to written interrogatories, the demand shall—

"(i) set forth with definiteness and certainty the written interrogatories to be answered;

"(ii) prescribe dates at which time answers to written interrogatories shall be submitted; and

"(iii) identify the False Claims Act investigator to whom such answers shall be submitted.

"(D) If such demand is for the giving of oral testimony, the demand shall—

"(i) prescribe a date, time, and place at which oral testimony shall be commenced;

"(ii) identify a False Claims Act investigator who shall conduct the examination and the custodian to whom the transcript of such examination shall be submitted;

"(iii) specify that such attendance and testimony are necessary to the conduct of the investigation;

"(iv) notify the person receiving the subpoena of the right to be accompanied by an attorney and any other representative; and

"(v) describe the general purpose for which the subpoena is being issued and the general nature of the testimony, including the primary areas of inquiry, which will be taken pursuant to the subpoena.

Any such demand which is an express demand for any product of discovery shall not be returned or returnable until twenty days after a copy of such demand has been served upon the person from whom the discovery was obtained.

"(E) The date prescribed for the commencement of oral testimony pursuant to a civil investigation demand issued under this section shall be a date which is not less than seven days after the date on which demand is received, unless the Attorney General or an Assistant Attorney General designated by the Attorney General determines that exceptional circumstance are present which warrant the commencement of such testimony within a lesser period of time.

"(F) Any official before whom oral testimony under this section is to be taken shall exclude from the place where the testimony is to be taken all persons except the person giving the testimony, the attorney and any other representative for the person giving the testimony, the attorney for the Government, any person who may be agreed upon by the attorney for the Government, and the person giving the testimony, and any stenographer taking such testimony.

"(G) The Attorney General shall not authorize a second demand for oral testimony to a person unless such person requests otherwise or unless the Attorney General, after investigation, notifies that person in writing that an additional demand for oral testimony is necessary. The Attorney General may not authorize the performance of any function vested in him under this subparagraph, by any other officer, employee, or agency, notwithstanding section 510 of title 28.".

"(c)(1) No such demand shall require the production of any documentary material, the submission of any answers to written interrogatories, or the giving of any oral testimony if such material, answers, or testimony would be protected from disclosure under—

"(A) the standards applicable to subpoenas or subpoenas duces tecum issued by a court of the United States to aid in a grand jury investigation; or

"(B) the standards applicable to discovery requests under the Federal Rules of Civil Procedure, to the extent that the application of such standards to any such demand is appropriate and consistent with the provisions and purposes of this section and sections 3729 through 3731.

"(2) Any such demand which is an express demand for any product of discovery supersedes any inconsistent order, rule, or provision of law (other than this section) preventing or restraining disclosure of such product of discovery to any person. Disclosure of any product of discovery pursuant to any such express demand does not constitute a waiver of any right or privilege which may be invoked to resist discovery of trial preparation materials to which the person making such disclosure may be entitled.

"(d)(1) Any such demand may be served by any False Claims Act investigator, or by any United States Marshal or Deputy Marshal, at any place within the United States.

"(2) Any such demand or any petition filed under subsection (k) may be served upon any person who is not found within the United States, in such manner as the Federal Rules of Civil Procedures prescribe for service in a foreign country. To the extent that the courts of the United States can assert jurisdiction over such person consistent with due process, the United States District Court for the District of Columbia shall have the same jurisdiction to take any action respecting compliance with this section by such person that such court would have if such person were personally within the jurisdiction of such court.

"(e)(1) Service of any such demand or of any petition filed under subsection (k) may be made upon a partnership, corporation, association, or other legal entity by—

"(A) delivering an executed copy thereof to any partner, executive officer, managing agent, or general agent thereof, or to any agent thereof authorized by appointment or by law to receive service of process on behalf of such partnership, corporation, association, or entity;

"(B) delivering an executed copy thereof to the principal office or place of business of the partnership, corporation, or entity to be served; or

"(C) depositing such copy in the United States mails, by registered or certified mail, return receipt requested, addressed to such partnership, corporation, association, or entity at its principal office or place of business.

"(2) Service of any such demand or of any petition filed under subsection (k) may be made upon any natural person by—

"(A) delivering an executed copy thereof to the person to be served; or

"(B) depositing such copy in the United States mails by registered or certified mail, return receipt requested, addressed to such person at his residence or principal office or place of business.

"(f) A verified return by the individual serving any such demand or petition setting forth the manner of such service shall be proof of such service. In the case of service by registered or certified mail, such return shall be accompanied by the return post office receipt of delivery of such demand.

"(g) The production of documentary material in response to a demand served pursuant to this section shall be made under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person having knowledge of the facts and circumstances relating to such production and authorized to act on behalf of such person. The certificate shall state that all of the documentary material required by the demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the custodian.

"(h) Each interrogatory in a demand served pursuant to this section shall be answered separately and fully in writing under oath unless it is objected to, in which event the reasons for the objection shall be stated in lieu of any answer, and it shall be submitted under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person or persons responsible for answering each interrogatory. The certificate shall state that all information required by the demand and in the possession, custody, control, or knowledge of the person to whom the demand is directed has been submitted. To the extent that any materials are not furnished, they shall be identified and reasons set forth with particularity for each.

"(i)(1) The examination of any person pursuant to a demand for oral testimony served under this section shall be taken before an officer authorized to administer oaths and affirmations by the laws of the United States or of the place where the examination is held. The officer before whom the testimony is to be taken shall put the witness on oath or affirmation and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed. When the testimony is fully transcribed, the officer before whom the testimony is taken shall promptly transmit a copy of the transcript of the testimony to the custodian. This subsection shall not preclude the taking of testimony by any means authorized by, and in a manner consistent with, the Federal Rules of Civil Procedure.

"(2) The False Claims Act investigator conducting the examination shall exclude from the place where the examination is held all other persons except the person being examined, his counsel, the officer before whom the testimony is to be taken, and any other stenographer taking such testimony.

"(3) The oral testimony of any person taken pursuant to a demand served under this section shall be taken in the judicial district of the United States within which such person resides, is found, or transacts business, or in such other place as may be agreed upon by the False Claims Act investigator conducting the examination and such person.

"(4) When the testimony is fully transcribed, the False Claims Act investigator or the officer shall afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine the transcript and the transcript shall be read to or by the witness, unless such examination and reading are waived by the witness. Any changes in form or substance which the witness desires to make shall be entered and identified upon the transcript by the officer or the False Claims Act investigator with a statement of the reasons given by the witness for making such changes. The transcript shall then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the transcript is not signed by the witness within thirty days after his being afforded a reasonable opportunity to examine it, the officer or the False Claims Act investigator shall sign it and state on the record the fact of the waiver, illness, absence of the witness, or the refusal to sign, together with the reason, if any, given therefor. A refusal to sign or an unreasonable absence shall be deemed to be an acknowledgment of its accuracy and an affirmation of its contents.

"(5) The officer shall certify on the transcript that the witness was sworn by him and that the transcript is a true record of the testimony given by the witness, and the officer or False Claims Act investigator shall promptly deliver it or send it by registered or certified mail to the custodian.

"(6) Upon payment of reasonable charges therefor, the False Claims Act investigator shall furnish a copy of the transcript to the witness only, except that the Attorney General, the Deputy Attorney General, or an Assistant Attorney General may, for good cause, limit such witness to inspection of the official transcript of his testimony.

"(7)(A) Any person compelled to appear under a demand for oral testimony pursuant to this section may be accompanied, represented, and advised by counsel. Counsel may advise such person, in confidence, with respect to any question asked of such person. Such person or counsel may object on the record to any question, in whole or in part, and shall briefly state for the record the reason for the objection. An objection may be properly made, received, and entered upon the record when it is claimed that such person is entitled to refuse to answer the question on grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. Such person shall not otherwise object to or refuse to answer any question, and shall not by himself or through counsel otherwise interrupt the oral examination. If such person refuses to answer any question, the False Claims Act investigator conducting the examination may petition the district court of the United States pursuant to subsection (k)(1) for an order compelling such person to answer such question.

"(B) If such person refuses to answer any question on the grounds of the privilege against self-incrimination, the testimony of such person may be compelled in accordance with the provisions of part V of title 18.

"(8) Any person appearing for oral examination pursuant to a demand served under this section shall be entitled to the same fees and mileage which are paid to witnesses in the district courts of the United States.

"(j)(1) The Attorney General, or his authorized designee shall designate a False Claims Act investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section, and shall designate such additional False Claims Act investigators as he determines from time to time to be necessary to serve as deputies to such officer.

"(2) Any person upon whom any demand under subsection (b)(1) for the production of documentary material has been served shall make such material available for inspection and copying to the False Claims Act investigator designated therein at the principal place of business of such person, or at such other place as such False Claims Act investigator and such person thereafter may agree and prescribe in writing, or as the court may direct pursuant to subsection (k)(1) on the return date specified in such demand, or on such later date as such custodian may prescribe in writing. Such person may, upon written agreement between such person and the custodian, substitute copies for originals of all or any part of such material.

"(3)(A) The False Claims Act investigator to whom any documentary material, answers to interrogatories, or transcripts of oral testimony are delivered shall take phys-

ical possession thereof, and shall transmit them to the custodian who shall be responsible for the use made thereof and for the return of documentary material pursuant to this section.

"(B) The custodian may cause the preparation of such copies of such documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by any authorized official or employee of the Department of Justice or any authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation, under regulations promulgated by the Attorney General. Notwithstanding subparagraph (C) of this subsection, such material, answers, and transcripts may be used by any such person in connection with the taking of oral testimony pursuant to this section.

"(C) Except as otherwise provided in this section, while in the possession of the custodian, no documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, so produced shall be available for examination, without the consent of the person who produced such material, answers, or transcripts, and, in the case of any product of discovery produced pursuant to an express demand for such material, of the person from whom the discovery was obtained, by any individual other than an authorized official or employee of the Department of Justice, or an authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation. Nothing in this section is intended to prevent disclosure to either body of the Congress or to any authorized committee or subcommittee thereof, or to any other agency of the United States for use by such agency in furtherance of its statutory responsibilities. Disclosure to any other agency of the United States shall be allowed only upon application, made by the custodian to a United States district court, showing substantial need for use by such agency in furtherance of its statutory responsibilities.

"(D) While in the possession of the custodian and under such reasonable terms and conditions as the Attorney General shall prescribe—

"(i) documentary material and answers to interrogatories shall be available for examination by the person who produced such material or answers, or by an authorized representative of such person; and

"(ii) transcripts of oral testimony shall be available for examination by the person who produced such testimony, or his counsel.

"(4) Whenever any attorney of the Department of Justice has been designated to appear before any court, grand jury, or Federal administrative or regulatory agency in any case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony may deliver to such attorney such material, answers, or transcripts for official use in connection with any such case, grand jury, or proceeding as such attorney determines to be required. Upon the completion of any such case, grand jury, or proceeding, such attorney shall return to the custodian any such material, answers, or transcripts so delivered which have not passed into the control of such court, grand jury, or agency through the introduction thereof into the record of such case or proceeding.

"(5) If any documentary material has been produced in the course of any False Claims Act investigation by any person pursuant to a demand under this section, and—

"(A) any case or proceeding before any court or grand jury arising out of such investigation, or any proceeding before any Federal administrative or regulatory agency involving such material, has been completed, or

"(B) no case or proceeding in which such material may be used has been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of such investigation,

the custodian shall, upon written request of the person who produced such material, return to such person any such material (other than copies thereof furnished to the custodian pursuant to paragraph (2) of this subsection or made by the Department of Justice pursuant to paragraph (3)(B) of this subsection) which has not passed into the control of any court, grand jury, or agency through the introduction thereof into the record of such case or proceedings.

"(6) In the event of the death, disability, or separation from service in the Department of Justice of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced under any demand issued pursuant to this section, or of the official relief of such custodian from responsibility for the custody and control of such material, answers or transcripts, the Attorney General or his authorized designee shall promptly (A) designate another False Claims Act investigator to serve as custodian of such material, answers, or transcripts, and (B) transmit in writing to the person who produced such material, answers, or testimony notice as to the identity and address of the successor so designated. Any successor designated under this subsection shall have, with regard to such material, answers or transcripts, all duties and responsibilities imposed by this Act upon his predecessor in office with regard thereto, except that he shall not be held responsible for any default or dereliction which occurred prior to his designation.

"(k)(1) Whenever any person fails to comply with any civil investigative demand served upon him under subsection (b) or whenever satisfactory copying or reproduction of any such material cannot be done and such person refuses to surrender such material, the Attorney General, through such officers or attorneys as he may designate, may file in the district court of the United States for any judicial district in which such person resides, is found, or transacts business, and serve upon such person a petition for an order of such court for the enforcement of this section.

"(2)(A) Within twenty days after the service of any such demand upon any person, or at any time before the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, such person may file, in the district court of the United States for the judicial district within which such person resides, is found, or transacts business, and serve upon such False Claims Act investigator a petition for an order of such court, modifying or setting aside such demand. In the case of a petition addressed to an express demand for any product of discovery, a petition to modify or set aside such demand may be brought only in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending.

"(B) The time allowed for compliance with the demand, in whole or in part, as deemed proper and ordered by the court shall not run during the pendency of such petition in the court, except that such person shall comply with any portions of the demand not sought to be modified or set aside. Such petition shall specify each ground upon which the petitioner relies in seeking such relief, and may be based upon any failure of such demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of such person.

"(3) Within twenty days after the service of any express demand for any product of discovery upon, or at any time before, the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, the person from whom such discovery was obtained may file, in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending, and serve upon any False Claims Act investigator named in the demand and upon the recipient of the demand, a petition for an order of such court modifying or setting aside those portions of the demand requiring production of any such product of discovery. Such petition shall specify each ground upon which the petitioner relies in seeking such relief and may be based upon any failure of such portions of the demand to comply with the provisions of this section, or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of such petition, the court may stay, as it deems proper, compliance with the demand and the running of the time allowed for compliance with the demand.

"(4) At any time during which any custodian is in custody or control of any documentary material, answers to interrogatories delivered, or transcripts of oral testimony given by any person in compliance with any such demand, such person, and in the case of an express demand for any product of discovery, the person from whom such discovery was obtained, may file, in the district court of the United States for the judicial district within which the office of such custodian is situated, and serve upon such custodian, a petition for an order of such court requiring the performance by such custodian of any duty imposed upon him by this section.

"(5) Whenever any petition is filed in any district court of the United States under this section, such court shall have jurisdiction to hear and determine the matter so presented, and to enter such order or orders as may be required to carry into effect the provisions of this section. Any final order so entered shall be subject to appeal pursuant to section 1291 of title 28. Any disobedience of any final order entered under this section by any court shall be punished as a contempt thereof.

"(6) To the extent that such rules may have application and are not inconsistent with the provisions of this section, the Fed-

eral Rules of Civil Procedure shall apply to any petition under this subsection.

"(7) Any documentary material, answers to written interrogatories, or oral testimony provided pursuant to any demand issued under this section and sections 3729 through 3731 shall be exempt from disclosure under section 552 of title 5.".

SEC. 6. (a) Subchapter III of chapter 37 of title 31, United States Code, is further amended by adding at the end thereof the following:

"§ 3734. Whistleblower protection

"Any employee who is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms or conditions of such employment by his employer because of the good faith exercise by such employee on behalf of himself or others of any option afforded by this Act, including investigation for, initiation of, testimony for, or assistance in an action filed or to be filed under this Act, shall be entitled to all relief necessary to make him whole. Such relief shall include reinstatement with full seniority rights, backpay with interest, and compensation for any special damages sustained as a result of the discrimination, including litigation costs and reasonable attorney fees. In addition, the employer shall be liable to such employee for twice the amount of backpay and special damages and, if appropriate under the circumstances, the court shall award punitive damages.".

(b) The table of sections for chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following new items:

"3732. False claims jurisdiction.

"3733. Civil investigative demands.

"3734. Whistleblower protection.".

SEC. 7. (a) Section 286 of title 18, United States Code, is amended by striking out "$10,000" and inserting in lieu thereof "$1,000,000 notwithstanding the provisions of section 3623,".

(b) Section 287 of title 18, United States Code, is amended by striking out "$10,000, or imprisoned not more than five years" and inserting in lieu thereof "$1,000,000, or imprisoned for not more than ten years, or both, notwithstanding the provisions of section 3623".

SEC. 8. This Act and the amendments made by this Act shall become effective upon the date of enactment.

Mr. GRASSLEY. Mr. President, the False Claims Act is the Government's primary weapon against fraud, yet it is in need of substantial reform. A review of the current environment is sufficient proof that the Government needs help—lots of help—to adequately protect the Treasury against growing and increasingly sophisticated fraud.

We have spent a considerable amount of time in the Judiciary Subcommittee on Administrative Practice and Procedure examining different types of frauds which steal away much needed taxpayer funds. In the face of our current Federal debt crisis, it is more important than ever that we maintain an efficient, fair, and most of all, effective enforcement system to protect our Federal dollars from fraud and abuse.

No single piece of legislation can absolutely guarantee an efficient, fair, and effective enforcement system. We would be deluding ourselves to assume that security. However, to the extent we can strengthen weaknesses in the law which allow frauds to go undetected or unaddressed and fraudulently obtained funds uncollected—that is the type of legislative remedy we should enact without delay.

There is no question that the current state of affairs begs for reform. Fraud allegations are climbing at a steady rate while the Justice Department's own economic crime council last year termed the level of enforcement in defense procurement fraud inadequate.

No one knows, of course, exactly how much public money is lost to fraud. Estimates range from hundreds of millions of dollars to more than $50 billion per year. Sadly, only a fraction of the fraud is reported and an even smaller fraction of the funds recovered.

Part of the solution—something I consider essential to any meaningful improvements in cutting down fraud—is the establishment of a solid partnership between public law enforcers and private taxpayers. The Federal Government has a big job on its hands as it attempts to ensure the integrity of the nearly $1 trillion we spend each year on various programs and procurement. That job is simply too big if Government officials are working alone.

The concept of private citizen assistance is embodied in S. 1562, the False Claims Reform Act which was unanimously approved by the Senate Judiciary Committee last December.

This bill, which I sponsored along with bipartisan cosponsors including my colleagues Senators DECONCINI, LEVIN, HATCH, COHEN, and METZENBAUM, is strongly supported by the administration and its amendments have received endorsements from both the Packard Commission and the Grace Commission's committee against Government waste.

S. 1562 will enhance the Government's litigative and investigative tools under the False Claims Act, as well as increase the fines and penalties assessed against those who cheat the Government.

I have worked together with my colleagues Senators HATCH, THURMOND, and HAWKINS, as well as others, to arrive at a consensus on S. 1562, the False Claims Reform Act. This final language addresses various concerns raised by those Members as well as a broad-based business coalition led by the chamber of commerce and including the Aerospace Industries Association, the Electronic Industries Association, and the Professional Services Council. I am pleased that this group has produced a comprehensive anti-fraud bill that will enhance both the effectiveness and the fairness of our fraud law enforcement effort.

I would like to take this opportunity to thank my colleagues who have worked with me to produce this very important and comprehensive legislation. I would especially like to thank Senator HATCH as well as Senator HAWKINS for working in a cooperative manner to resolve the concerns that they raised.

The agreed-upon amendments which are incorporated in the committee modification are as follows:

KNOWLEDGE STANDARD

While throughout consideration of this bill there has been general agreement that liability should attach to one who "knows or has reason to know" of the falsity of his claim, debate has focused on the specific standard to be used to define "reason to know" or constructive knowledge.

The fundamental issue in designing a standard of knowledge is to reach not only defendants with actual knowledge of a false claim, but also defendants who insulate themselves from that knowledge which a prudent person should have before submitting a claim to the Government, It is this problem of defining constructive knowledge, or of dealing with the "ostrich"—the individual who ignores or fails to inquire about readily discoverable facts which would alert him that fraudulent claims are being submitted—that has led to various formulations of the standard of knowledge.

S. 1562 as considered by the Subcommittee on Administrative Practice and Procedure, contained a "reckless disregard" standard which the sponsors as well as the Department of Justice believed would cover those persons who insulate themselves by design from knowledge about the truth of falsity of a claim. The concern was raised, however, that some case law exists in which reckless disregard is construed as requiring an intentional, deliberate, or willful act—a considerable escalation of the scienter requirement. To avoid the risk of such a misconstruction, the full Judiciary Committee then adopted a "gross negligence" standard which would appear to be less susceptible to this misinterpretation. The committee was aware that the two standards are very similar and in fact are often used to define each other; that is, reckless disregard often is defined as gross negligence and gross negligence frequently is said to require a reckless disregard.

While the committee expressed in its report accompanying S. 1562 that mistake, inadvertence or mere negligence in the submission of a false claim would not be actionable under the bill, concerns, stemming mainly from the Government contracting community, were raised that such examples of

mere negligence might be construed as grossly negligent acts.

To address those concerns, I, along with the other sponsors of this bill, have agreed to return to a "reckless disregard" standard, but only with the express qualification that "no proof of specific intent is required." Our intent in returning to the reckless disregard standard is only to assure that mere negligence, mistake, and inadvertence are not actionable under the False Claims Act. In doing so, we reconfirm our belief that reckless disregard and gross negligence define essentially the same conduct and that under this act, reckless disregard does not require any proof of an intentional, deliberate, or willful act.

The constructive knowledge standard proposed by some has required a "conscious culpability." See, testimony of representatives of the Aerospace Industrial Association before the Committee on Government Affairs, Hearing on Program Fraud Civil Penalties Act of 1985, Senate Hearing 99-202, page 106. Under this formulation, "no duty to ascertain facts" may be imposed unless "deduced as inferences from facts already known." Id., page 119. Such conceptualizations of the standard exceed the committee's intent and leave unaddressed the "ostrich" problem which it is in agreement must be included.

QUI TAM

Several minor changes will be made in the qui tam section of S. 1562. Specifically, jurisdiction for qui tam actions based on information that has been publicly disclosed will be limited to those people who were "original sources" of the information. "Original source" is further defined as "an individual who has direct and independent knowledge of information on which the allegations are based and has voluntarily informed the Government or the news media prior to an action filed by the Government."

This amendment seeks to assure that a qui tam action based solely on public disclosures cannot be brought by an individual with no direct or independent knowledge of the information or who had not been an original source to the entity that disclosed the allegations.

In the definition of "original source," the requirement that the individual "voluntarily" informed the Government or news media is meant to preclude the ability of an individual to sue under the qui tam section of the False Claims Act when his suit is based solely on public information and the individual was a source of the allegations only because the individual was subpeonaed to come forward. However, those persons who have been contacted or questioned by the Government or the news media and cooperated by providing information which later led to a public disclosure would be considered to have "voluntarily" informed the Government or media and therefore considered eligible qui tam relators.

The use of the term "Government" in the definition of original source is meant to include any Government source of disclosures cited in subsection (5)(A); that is, Government includes Congress, the General Accounting Office, any executive or independent agency as well as all other governmental bodies that may have publicly disclosed the allegations.

The amendments also limit the possible portion of the judgment recoverable by a qui tam plaintiff to 10 percent or less when the action is based primarily on public information. This limitation will affect those persons who have brought a qui tam action based almost entirely on information of which they did not have independent knowledge but had derived from a public source.

The bill as reported by the Judiciary Committee contains a provision for the award of attorneys fees to prevailing defendants if the court finds that the plaintiff's action was clearly frivolous, vexatious, or brought for purposes of harassment. Additionally, the bill provides that the court at any time, may make certain assurances the plaintiff will be able to pay such costs if it appeares an action is being brought in bad faith or is clearly frivolous.

The committee amendment makes consistent the standards for both attorney's fees sanctions and the court-required assurances. While the standards are meant to be consistent, concern was raised that a court would find it impossible to rule any action "appeared" "clearly frivolous." Because the court could be making a judgment of apparent frivolity at an earlier stage of the case, as opposed to concluding the action's frivolity at the end of the proceedings, the conclusive term "clearly" was removed.

These amendments also make clear that no jurisdiction will lie for qui tam actions based on allegations upon which the Government has already initiated administrative civil money penalty proceedings.

CONSEQUENTIAL DAMAGES

The committee amendment limits consequential damages to those that are reasonably foreseeable to the defendant at the time the alleged fraud was committed or at the time of the submission of the claim or statement.

CIVIL INVESTIGATIVE DEMANDS

The committee amendment requires that only the Attorney General can authorize issuance of a Civil Investigative Demand. Second, these amendments make clear that prior to issuing a Civil Investigative Demand, the Justice Department must make reasonable efforts to obtain the same information through other, less burdensome sources. These other sources would include the material already in the possession of the agency investigative office which has made the referral of the fraud case as well as information which the Department could obtain through an informal request to the person who might otherwise be the target of the Civil Investigative Demand.

However, this amendment would not require the Department to seek a court order for access to grand jury material—under rule 6(e) of the Federal Rules of Criminal Procedure—in cases where such information might be available. Some circuits interpreting rule 6(e) have concluded that the Department should use other investigative techniques, including CID's, before seeking a 6(e) order. See, *In Re Grand Jury Investigation*, 774 F.2d 34 (2d Cir. 1985, cert. granted. This amendment would mirror the trend in that caselaw, by authorizing the Justice Department to issue a CID without requiring it to first attempt to obtain a 6(e) order.

In addition, this amendment would not require the Justice Department to justify why it had not prevailed upon agency investigators to utilize their subpoena powers, either under the Inspector General Act of 1978 or any investigative powers associated with any civil money penalty authority.

Finally, these amendments should not be construed to allow the recipient of a CID to argue that the Justice Department should be required to file suit and use ordinary civil discovery. The term "not otherwise reasonably available" refers to presuit investigative techniques only.

STATUTE OF LIMITATIONS

The committee has added a tolling provisions to the False Claims Act which is adopted directly from 28 U.S.C. 2416(c). While section 2416(c) is a provision of general applicability, the committee intends that the False Claims Act tolling provision be liberally construed because the conduct addressed here is so inherently deceptive and carefully concealed. Thus, courts should be leary of finding that the Government had knowledge of the existence of a possible cause of action based merely upon the discovery of irregularities that fall short of a concrete suspicion that fraud has occurred. Some corroborative information to support that suspicion should be required. Similarly, care should be taken to assure that the information has reached an official in a position both to recognize the existence of a possible violation of this act and to take steps to address it.

SELF-POLICING INCENTIVE

The amendments add a provision intended to provide incentive for self-policing among those who conduct business with the Government. Under this

new provision, the court in its discretion may limit damages to an amount between double and treble and the civil forfeiture between $5,000 and $10,000 if the defendant satisfies certain criteria. Given the deceitful nature of fraud, courts should construe narrowly the requirements defendants must satisfy in order to be eligible for liability limitations. Particularly, courts should guard against defendants attempting to take advantage of this provision once they realize Government or public discovery of violations are impending.

SMALL BUSINESS FINE LIMITATION

Under the committee amendment, defendant businesses or organizations meeting a certain size standard may be eligible for a reduction in fines if the court finds assessment of a $10,000 fine to that particular defendant would result in substantial hardship for the defendant.

The applicable size standard—gross annual receipts of $1 million or less and 800 employees or less—is adapted from statistics compiled by the National Federation of Independent Businesses. Based on its statistically representative sampling of the small business community, approximately 80 percent of such businesses would fall within this size standard.

EQUAL ACCESS TO JUSTICE ACT APPLICATION

The committee amendment clarifies that the Equal Access to Justice Act applies to actions brought by the Government under the False Claims Act.

Thank you, Mr. President.

Mr. President, I ask unanimous consent that Senator HAWKINS be added as a cosponsor to S. 1562.

Mr. President, I ask unanimous consent that the statements of Senators HAWKINS, THURMOND, and DECONCINI, be inserted as if read.

Mr. President, I urge adoption of the committee amendment.

Mrs. HAWKINS. Mr. President, I would like to join with my colleagues to commend Senator GRASSLEY for his sponsorship of S. 1562 and national leadership in efforts to combat contract fraud.

As a cosponsor, I have had an opportunity to work closely with Senator GRASSLEY and his staff to assure that S. 1562 is as effective as possible in addressing this problem. I believe that it will increase the ability of our agencies to investigate and prosecute frauds without depriving individuals of the right to a jury trail.

I am also pleased with the assurances that I have received from the sponsor and proponents that S. 1562 will be defended in conference.

Senator HATCH and Senator THURMOND also deserve to be recognized and applauded for their vision and tireless efforts to fight fraud while defending due process and individual rights. I call on my colleagues to join me in supporting and promoting the swift passage of S. 1562 in the Senate and urge that conferees fight for adoption of the Senate-passed version.

Mr. DECONCINI. Mr. President, I want to state my strong support for these amendments to the False Claims Act and my admiration for Senator GRASSLEY for having so tenaciously and successfully pursued their adoption. These amendments will substantially enhance the Government's ability to recover losses sustained as a result of fraud and corruption.

Several years ago, I developed, introduced, and attempted to process legislation similar to today's amendments. I was only partially successful. Senator GRASSLEY has picked up this issue and done an outstanding job of making the necessary adjustments and compromises that have enabled us to bring this bill to the floor tonight. The essence of the bill remains: to tighten the Federal laws as they apply to persons who violate the False Claims Act. The Government will now have several new legal weapons in its arsenal with which to pursue and prosecute incidences of fraud against the Government. I applaud the changes increasing the penalites, modifying the standards of proof, and modernizing the jurisdiction and venue provisions. Numerous other provisions of the bill will also prove of benefit.

The country and its taxpayers are the beneficiaries of this bill. I am pleased to have been the lead in Democratic cosponsor of this bill and to associate myself with the principles of law enforcement and responsible Government oversight for which this bill stands. I certainly urge our colleagues on the House side to process this legislation with the urgency it deserves.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2701) was agreed to.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed as follows:

S. 1562

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

That section 3729 of title 31, United States Code, is amended by—

(1) inserting "(a)" before "A person";

(2) striking out "$2,000," and inserting in lieu thereof "$10,000, unless the court finds:

"(A) the defendant furnished officials of the United States responsible for investigating false claims violations with all information known to such defendant about such violation within 30 days after the date on which the defendant first obtained the information;

"(B) the defendant fully cooperated with any Government investigation of such violation; and

"(C) at the time the defendant furnished the United States with the information about the violation, no criminal prosecution, civil action, or administrative action had commenced under this title, with respect to such violation, and the defendant did not have actual knowledge of the existence of an investigation into such violation;

in which case the court may assess not less than $5,000, or unless the court finds that the defendant is a partnership, corporation, association, or organization, the annual gross receipts of which did not exceed $1,000,000 at the time the action was brought, and which had not more than 80 employees at the time the action was brought, and the court finds the assessment of $10,000 will result in substantial hardship under the circumstances for the defendant, in which case the court may assess not less than $5,000;

(3) striking out "2 times the amount of damages" and inserting in lieu thereof "3 times the amount of damages unless the court finds the provisions of paragraphs (A) through (C), in which case the court may assess not less than 2 times the amount of damages, in addition to the amount of the consequential damages";

(4) striking out "not a member of the armed forces of the United States" the first place it appears;

(5) striking out "or" at the end of clause (5);

(6) striking out the period in clause (6) and inserting in lieu thereof "; or"; and

(7) adding at the end thereof the following:

"(7) knowingly makes, uses, or causes to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the Government.

"(b) Consequential damages as used in subsection (a) shall include damages which the United States would not have sustained but for—

"(1) the doing or commission of any of the acts prohibited by subsection (a); or

"(2) having entered into or made any contract or grant as a result of any material part of any false statement,

and which were reasonably foreseeable to the defendant at the time the alleged fraud was committed or at the time of the submission of the claim or statement.

"(c) For purposes of this section, the terms 'knowing' and 'knowingly' mean the defendant—

"(1) had actual knowledge;

"(2) acted in deliberate ignorance of the truth or falsity of the information; or

"(3) acted in reckless disregard of the truth or falsity of the information;

and no proof of specific intent to defraud is required.

"(d) For purposes of this section, 'claim' includes any request or demand whether under a contract or otherwise for money or property which is made to a contractor, grantee, or other recipient if the Government provides any portion of the money or property which is requested or demanded or if the Government will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded.

"(e)(1) The Attorney General or his designee may apply for provisional relief to any district court having jurisdiction pursuant

to section 3732 whenever he has reasonable cause to believe this section or section 3730, or 3731 may have been violated. If the court finds there is a reasonable likelihood that the United States will prevail after trial on the merits of its claims, the court shall enjoin the defendant from taking any action which the court, in the exercise of its discretion, finds reasonably likely to hinder or delay the United States in the collection of any judgment which may be obtained in such action.

"(2) In addition, the court may from time to time make such other orders as it deems appropriate, including requiring the defendant to post security for judgment, to seek the prior approval of the court before making any transfer without adequate and full consideration, paying an antecedent debt which has matured more than thirty days prior to the date of payment, or otherwise engaging in any transaction not in the usual and regular course of the defendant's business. Except as provided in this section, such application and proceedings by the Attorney General shall be governed by Rule 65 of the Federal Rules of Civil Procedure.

"(f) Any information furnished pursuant to clauses (A) through (C) of subsection (a) shall be exempt from disclosure under section 552 of title 5.".

SEC. 2. Section 3730 of title 31, United States Code, is amended to read as follows:

**"§ 3730. Civil actions for false claims**

"(a) The Attorney General diligently shall investigate a violation under section 3729 of this title. If the Attorney General finds that a person has violated or is violating section 3729, the Attorney General may bring a civil action under this section against the person.

"(b)(1) Except as provided in subsection (e), a person may bring a civil action for a violation of section 3729 of this title for the person and for the United States Government. The action shall be brought in the name of the Government. An action may be dismissed only if the court and the Attorney General give written consent and their reasons for consenting.

"(2) A copy of the complaint and written disclosure of substantially all material evidence and information the person possesses shall be served on the Government under Rule 4(d)(4) of the Federal Rules of Civil Procedure. The complaint shall be filed in camera, shall remain under seal for at least 60 days, and shall not be served on the defendant until the court so orders. The Government may elect to intervene and proceed with the action within 60 days after it receives both the complaint and the material evidence.

"(3) The Government may, for good cause shown, move the court for stays and for extensions of the time during which the complaint shall remain under seal. Any such motions may be supported by affidavits or other submissions in camera. The defendant shall not be required to respond to any complaint filed under this section until 20 days after the complaint is unsealed and served upon him pursuant to Rule 4 of the Federal Rules of Civil Procedure.

"(4) Before the expiration of the initial 60-day period or any stays obtained, the Government shall—

"(A) proceed with the action, in which case the action shall be conducted only by the Government; or

"(B) notify the court that it declines to take over the action, in which case the action shall be conducted by the person bringing the action.

"(5) Where a person brings an action under this subsection, no person other than the Government may intervene or bring a related action based on the facts underlying the pending action.

"(c)(1) If the Government proceeds with the action, the action is conducted solely by the Government and it shall not be bound by an act of the person who initiated the action. If he so requests, the person bringing the action shall be served with copies of all pleadings filed in the action, shall be supplied with copies of all deposition transcripts (at his expense), and shall be permitted to file objections with the court and petition for an evidentiary hearing to object to any proposed settlement or to any motion to dismiss filed by the Government. The court may grant such an evidentiary hearing only upon a showing of substantial and particularized need. The person bringing the action may move the court for leave to conduct the action in the name of the United States if, after making its election to take over the suit, the Government does not proceed with the action with reasonable diligence within six months or such reasonable additional time as the court may allow after notice.

"(2) If the Government elects not to proceed with the action, the action shall be conducted by the person who initiated the action. If the Government so requests, it shall be served with copies of all pleadings filed in the action and shall be supplied with copies of all deposition transcripts (at its expense). Where a person proceeds with the action in the name of the United States pursuant to subsection (b), the court may nevertheless permit the Government to intervene and proceed with the action by its own attorneys at a later date upon a showing of good cause.

"(3) Notwithstanding subsection (b), the Government may elect to pursue its claim through any alternate remedy available to it, including, but not limited to, any administrative civil money penalty proceeding.

"(d)(1) If the Government proceeds with the action, including any proceeding pursuant to subsection (c)(3), the person bringing the action may receive an amount the court decides is reasonable. The amount may not be less than 10 percent, nor more than 20 percent, of the proceeds of the action or settlement of a claim and shall be paid out of those proceeds.

"(2) If the Government does not proceed with an action, the person bringing the action or settling the claim may receive an amount the court decides is reasonable for collecting the civil penalty and damages. The amount may not be less than 20 percent, nor more than 30 percent, of the proceeds of the action or settlement and shall be paid out of those proceeds.

"(3) The amount awarded under this section shall be in the discretion of the court, taking into account—

"(A) the significance of the information provided to the Government;

"(B) the contribution of the person bringing the action to the result obtained; and

"(C) whether the information which formed the basis for the suit was known to the Government.

"(4) Where the persons brought an action based primarily on disclosures of specific information relating to allegations or transactions in a criminal, civil, or administrative hearing, a congressional or Government Accounting Office report or hearing, or from the news media, the court may award such sums as it deems appropriate, not to exceed 10 percent of the recovery and taking into account the significance of the information and the role of the person in advancing the case to litigation.

"(5) In addition to any other amounts awarded by the court, the court may also award the person bringing the action reasonable attorney fees and other expenses. The Government shall not be liable for the expenses or legal fees a person incurs in bringing or defending an action under this section.

"(6) If the Government does not proceed with the action and it is litigated by the person bringing the action, the court shall award to the defendant its reasonable attorney fees and expenses if the defendant prevails in such action and the court finds that the claim of the person bringing the action was clearly frivolous, vexatious, or brought for purposes of harassment. In cases where it appears that the person is bringing an action which is frivolous, vexatious, or brought for purposes of harassment, the court shall require such assurances that payment of legal fees and expenses will be made, if such are awarded, as it deems appropriate before allowing the action to proceed.

"(7) After any final judgment is issued in any action brought under this section, or any alternate remedy available to the Government, any person who brought an action under subsection (b) shall have 60 days to petition the court for any award to which he is entitled under this section.

"(e)(1) No court shall have jurisdiction over an action brought by a former or present member of the armed services under subsection (b) of this section against a member of the armed forces arising out of such person's service in the armed forces.

"(2) No court shall have jurisdiction over an action brought against a member of Congress, a member of the judiciary, or a senior executive branch official if the action is based on evidence or information known to the Government when the action was brought.

"(3) For purposes of this subsection, 'senior executive branch official' means those officials listed in section 201(f) of Appendix IV of title 5.

"(4) In no event may a person bring an action under this section based upon allegations or transactions which are the subject of a civil suit or an administrative civil money penalty proceeding in which the Government is already a party.

"(5)(A) No court shall have jurisdiction over an action under this section based upon the public disclosure of allegations or transactions in a criminal, civil, or administrative hearing, a congressional, administrative, or Government Accounting Office report, hearing, audit or investigation, or from the news media, unless the action is brought by the Attorney General or the person bringing the action is an original source of the information.

"(B) For purposes of this paragraph, 'original source' means an individual who has direct and independent knowledge of the information on which the allegations are based and has voluntarily informed the Government or the news media prior to an action filed by the Government.

"(f) The district courts shall have jurisdiction over any action brought under State law for the recovery of funds paid by State or local governments where such action grows out of the same transaction or occurrence as an action brought under this section.

"(g) The Attorney General or his designee is authorized to make payments from Department of Justice appropriations for information or assistance leading to a civil or criminal recovery under this section, section 3729, or sections 3731 through 3734, known as the False Claims Act or under section 286, 287, or 1001 of title 18. Any such payment shall be at the discretion of the Attorney General or his designee.

"(h) In civil actions brought under this section by the United States, the provisions of section 2412(d) of title 28 shall apply.

SEC. 3. Section 3731 of title 31, United States Code, is amended by—

(1) inserting before the period at the end of subsection (b) the following: "or within three years after the date when facts material to the right of action are known or reasonably should have been known by the official of the United States charged with responsibility to act in the circumstances, whichever occurs last"; and

(2) inserting after subsection (b), the following new subsections:

"(c) In any action brought under this section or section 3729, 3730, 3732, or 3733, the United States shall be required to prove all essential elements of the cause of action, including damages, by a preponderance of the evidence.

"(d) Notwithstanding any contrary provision of law, the Federal Rules of Criminal Procedure, or the Federal Rules of Evidence, a final judgment rendered in favor of the United States in any criminal proceeding charging fraud or false statements, whether upon a verdict after trial or upon a plea of guilty or nolo contendere, shall estop the defendant from denying the essential elements of the offense in any action brought by the United States pursuant to this section or section 3729, 3730, 3732, or 3733.".

SEC. 4. Subchapter III of chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following:

**"§ 3732. False claims jurisdiction**

"(a) The district courts of the United States, including such courts for Puerto Rico, the Virgin Islands, Guam, and any territory or possession of the United States, shall have jurisdiction over any action commenced by the United States under this section, or under section 3729, 3730, 3731, 3733, or 3734. Venue of any such action shall be proper in any district in which any defendant, or in the case of multiple defendants, any one defendant can be found, resides, transacts business, or in which any act prescribed by such sections is alleged by the United States to have occurred. A summons as required by the Federal Rules of Civil Procedure shall be issued by the district court and served at any place within the United States, Puerto Rico, the Virgin Islands, Guam, any territory or possession of the United States, or in any foreign country.

"(b) The United States Claims Court shall also have jurisdiction of any such action if the action is asserted by way of counterclaim by the United States. The United States may join as additional parties in such counterclaim all persons who may be jointly and severally liable with such party against whom a counterclaim is asserted by reason of having violated this section, or section 3729, 3730, 3731, or 3733, except that no cross-claims or third-party claims shall be asserted among such additional parties unless such claims are otherwise within the jurisdiction of the United States Claims Court.".

SEC. 5. Subchapter III of chapter 37 of the title 31, United States Code is further amended by adding at the end thereof the following:

**"§ 3733. Civil investigative demands**

"(a) For purposes of this section, the term—

"(1) 'False Claims Act law' means—

"(A) this section and sections 3729 through 3731 of this title, commonly known as the False Claims Act; and

"(B) any Act of Congress enacted after this section which prohibits, or makes available to the United States in any court of the United States any civil remedy with respect to any false claim, bribery, or corruption of any officer or employee of the United States;

"(2) 'False Claims Act investigation' means any inquiry conducted by any False Claims Act investigator for the purpose of ascertaining whether any person is or has been engaged in any violation of any provision of the False Claims Act law;

"(3) 'False Claims Act investigator' means any attorney or investigator employed by the Department of Justice who is charged with the duty of enforcing or carrying into effect any False Claims Act law or any officer or employee of the United States acting under direction and supervision of such attorney or investigator in connection with a False Claims Act investigation;

"(4) 'person' means any natural person, partnership, corporation, association, or other legal entity, including any State or political subdivision;

"(5) 'documentary material' includes the original or any copy of any book, record, report, memorandum, paper, communication, tabulation, chart, or other document, or data compilations stored in or accessible through computer or other information retrieval systems, together with instructions and all other materials necessary to use or interpret such data compilations, and any product or discovery;

"(6) 'custodian' means the custodian, or any deputy custodian, designated by the Attorney General; and

"(7) 'product of discovery' includes without limitation the original or duplicate of any deposition, interrogatory, document, thing, result of an inspection of land or other property, examination, or admission obtained by any method of discovery in any judicial or administrative litigation or action of an adversarial nature, any digest, analysis, selection, compilation, or any derivation thereof, and any index or manner of access thereto.

"(b)(1)(A) Whenever the Attorney General has reason to believe that any person may be in possession, custody, or control of any documentary material, or may have any information relevant, and not otherwise reasonably available, to a False Claims Act investigation, he may, prior to the institution of a civil proceeding, issue in writing and cause to be served upon such person, a civil investigative demand requiring such person to produce such documentary material for inspection and copying, to answer in writing written interrogatories, to give oral testimony concerning documentary material or information, or to furnish any combination of such material, answers, or testimony. Whenever a civil investigative demand is an express demand for any product of discovery, the Attorney General shall cause to be served, in any manner authorized by this section, a copy of such demand upon the person from whom the discovery was obtained and notify the person to whom such demand is issued of the date on which such copy was served.

"(B) Notwithstanding the provisions of section 510 of title 28, the Attorney General may not authorize the performance of any function of the Attorney General vested in him pursuant to this paragraph, by any other officer, employee, or agency.

"(2)(A) Each such demand shall state the nature of the conduct constituting the alleged violation of a False Claims Act law which is under investigation, and the applicable provision of law.

"(B) If such demand is for production of documentary material, the demand shall—

"(i) describe each class of documentary material to be produced with such definiteness and certainty as to permit such material to be fairly identified;

"(ii) prescribe a return date for each such class which will provide a reasonable period of time within which the material so demanded may be assembled and made available for inspection, and copying; and

"(iii) identify the False Claims Act investigator to whom such material shall be made available.

"(C) If such demand is for answers to written interrogatories, the demand shall—

"(i) set forth with definiteness and certainty the written interrogatories to be answered;

"(ii) prescribe dates at which time answers to written interrogatories shall be submitted; and

"(iii) identify the False Claims Act investigator to whom such answers shall be submitted.

"(D) If such demand is for the giving of oral testimony, the demand shall—

"(i) prescribe a date, time, and place at which oral testimony shall be commenced;

"(ii) identify a False Claims Act investigator who shall conduct the examination and the custodian to whom the transcript of such examination shall be submitted;

"(iii) specify that such attendance and testimony are necessary to the conduct of the investigation;

"(iv) notify the person receiving the subpoena of the right to be accompanied by an attorney and any other representative; and

"(v) describe the general purpose for which the subpoena is being issued and the general nature of the testimony, including the primary areas of inquiry, which will be taken pursuant to the subpoena.

Any such demand which is an express demand for any product of discovery shall not be returned or returnable until twenty days after a copy of such demand has been served upon the person from whom the discovery was obtained.

"(E) The date prescribed for the commencement of oral testimony pursuant to a civil investigation demand issued under this section shall be a date which is not less than seven days after the date on which demand is received, unless the Attorney General or an Assistant Attorney General designated by the Attorney General determines that exceptional circumstance are present which warrant the commencement of such testimony within a lessor period of time.

"(F) Any official before whom oral testimony under this section is to be taken shall exclude from the place where the testimony is to be taken all persons except the person giving the testimony, the attorney and any other representative for the person giving the testimony, the attorney for the Government, any person who may be agreed upon by the attorney for the Government, and

the person giving the testimony, and any stenographer taking such testimony.

"(G) The Attorney General shall not authorize a second demand for oral testimony to a person unless such person requests otherwise or unless the Attorney General, after investigation, notifies that person in writing that an additional demand for oral testimony is necessary. The Attorney General may not authorize the performance of any function vested in him under this subparagraph, by any other officer, employee, or agency, notwithstanding section 510 of title 28.".

"(c)(1) No such demand shall require the production of any documentary material, the submission of any answers to written interrogatories, or the giving of any oral testimony if such material, answers, or testimony would be protected from disclosure under—

"(A) the standards applicable to subpoenas or subpoenas duces tecum issued by a court of the United States to aid in a grand jury investigation; or

"(B) the standards applicable to discovery requests under the Federal Rules of Civil Procedure, to the extent that the application of such standards to any such demand is appropriate and consistent with the provisions and purposes of this section and sections 3729 through 3731.

"(2) Any such demand which is an express demand for any product of discovery supersedes any inconsistent order, rule, or provision of law (other than this section) preventing or restraining disclosure of such product of discovery to any person. Disclosure of any product of discovery pursuant to any such express demand does not constitute a waiver of any right or privilege which may be invoked to resist discovery of trial preparation materials to which the person making such disclosure may be entitled.

"(d)(1) Any such demand may be served by any False Claims Act investigator, or by any United States Marshal or Deputy Marshal, at any place within the United States.

"(2) Any such demand or any petition filed under subsection (k) may be served upon any person who is not found within the United States, in such manner as the Federal Rules of Civil Procedures prescribe for service in a foreign country. To the extent that the courts of the United States can assert jurisdiction over such person consistent with due process, the United States District Court for the District of Columbia shall have the same jurisdiction to take any action respecting compliance with this section by such person that such court would have if such person were personally within the jurisdiction of such court.

"(e)(1) Service of any such demand or of any petition filed under subsection (k) may be made upon a partnership, corporation, association, or other legal entity by—

"(A) delivering an executed copy thereof to any partner, executive officer, managing agent, or general agent thereof, or to any agent thereof authorized by appointment or by law to receive service of process on behalf of such partnership, corporation, association, or entity;

"(B) delivering an executed copy thereof to the principal office or place of business of the partnership, corporation, or entity to be served; or

"(C) depositing such copy in the United States mails, by registered or certified mail, return receipt requested, addressed to such partnership, corporation, association, or entity at its principal office or place of business.

"(2) Service of any such demand or of any petition filed under subsection (k) may be made upon any natural person by—

"(A) delivering an executed copy thereof to the person to be served; or

"(B) depositing such copy in the United States mails by registered or certified mail, return receipt requested, addressed to such person at his residence or principal office or place of business.

"(f) A verified return by the individual serving any such demand or petition setting forth the manner of such service shall be proof of such service. In the case of service by registered or certified mail, such return shall be accompanied by the return post office receipt of delivery of such demand.

"(g) The production of documentary material in response to a demand served pursuant to this section shall be made under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person having knowledge of the facts and circumstances relating to such production and authorized to act on behalf of such person. The certificate shall state that all of the documentary material required by the demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the custodian.

"(h) Each interrogatory in a demand served pursuant to this section shall be answered separately and fully in writing under oath unless it is objected to, in which event the reasons for the objection shall be stated in lieu of any answer, and it shall be submitted under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person or persons responsible for answering each interrogatory. The certificate shall state that all information required by the demand and in the possession, custody, control, or knowledge of the person to whom the demand is directed has been submitted. To the extent that any materials are not furnished, they shall be identified and reasons set forth with particularity for each.

"(i)(1) The examination of any person pursuant to a demand for oral testimony served under this section shall be taken before an officer authorized to administer oaths and affirmations by the laws of the United States or of the place where the examination is held. The officer before whom the testimony is to be taken shall put the witness on oath or affirmation and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed. When the testimony is fully transcribed, the officer before whom the testimony is taken shall promptly transmit a copy of the transcript of the testimony to the custodian. This subsection shall not preclude the taking of testimony by any means authorized by, and in a manner consistent with, the Federal Rules of Civil Procedure.

"(2) The False Claims Act investigator conducting the examination shall exclude from the place where the examination is held all other persons except the person being examined, his counsel, the officer before whom the testimony is to be taken, and any other stenographer taking such testimony.

"(3) The oral testimony of any person taken pursuant to a demand served under this section shall be taken in the judicial district of the United States within which such person resides, is found, or transacts business, or in such other place as may be agreed upon by the False Claims Act investigator conducting the examination and such person.

"(4) When the testimony is fully transcribed, the False Claims Act investigator or the officer shall afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine the transcript and the transcript shall be read to or by the witness, unless such examination and reading are waived by the witness. Any changes in form or substance which the witness desires to make shall be entered and identified upon the transcript by the officer or the False Claims Act investigator with a statement of the reasons given by the witness for making such changes. The transcript shall then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the transcript is not signed by the witness within thirty days after his being afforded a reasonable opportunity to examine it, the officer or the False Claims Act investigator shall sign it and state on the record the fact of the waiver, illness, absence of the witness, or the refusal to sign, together with the reason, if any, given therefor. A refusal to sign or an unreasonable absence shall be deemed to be an acknowledgment of its accuracy and an affirmation of its contents.

"(5) The officer shall certify on the transcript that the witness was sworn by him and that the transcript is a true record of the testimony given by the witness, and the officer or False Claims Act investigator shall promptly deliver it or send it by registered or certified mail to the custodian.

"(6) Upon payment of reasonable charges therefor, the False Claims Act investigator shall furnish a copy of the transcript to the witness only, except that the Attorney General, the Deputy Attorney General, or an Assistant Attorney General may, for good cause, limit such witness to inspection of the official transcript of his testimony.

"(7)(A) Any person compelled to appear under a demand for oral testimony pursuant to this section may be accompanied, represented, and advised by counsel. Counsel may advise such person, in confidence, with respect to any question asked of such person. Such person or counsel may object on the record to any question, in whole or in part, and shall briefly state for the record the reason for the objection. An objection may be properly made, received, and entered upon the record when it is claimed that such person is entitled to refuse to answer the question on grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. Such person shall not otherwise object to or refuse to answer any question, and shall not by himself or through counsel otherwise interrupt the oral examination. If such person refuses to answer any question, the False Claims Act investigator conducting the examination may petition the district court of the United States pursuant to subsection (k)(1) for an order compelling such person to answer such question.

"(B) If such person refuses to answer any question on the grounds of the privilege against self-incrimination, the testimony of such person may be compelled in accordance with the provisions of part V of title 18.

"(8) Any person appearing for oral examination pursuant to a demand served under this section shall be entitled to the same

fees and mileage which are paid to witnesses in the district courts of the United States.

"(j)(1) The Attorney General, or his authorized designee shall designate a False Claims Act investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section, and shall designate such additional False Claims Act investigators as he determines from time to time to be necessary to serve as deputies to such officer.

"(2) Any person upon whom any demand under subsection (b)(1) for the production of documentary material has been served shall make such material available for inspection and copying to the False Claims Act investigator designated therein at the principal place of business of such person, or at such other place as such False Claims Act investigator and such person thereafter may agree and prescribe in writing, or as the court may direct pursuant to subsection (k)(1) on the return date specified in such demand, or on such later date as such custodian may prescribe in writing. Such person may, upon written agreement between such person and the custodian, substitute copies for originals of all or any part of such material.

"(3)(A) The False Claims Act investigator to whom any documentary material, answers to interrogatories, or transcripts of oral testimony are delivered shall take physical possession thereof, and shall transmit them to the custodian who shall be responsible for the use made thereof and for the return of documentary material pursuant to this section.

"(B) The custodian may cause the preparation of such copies of such documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by any authorized official or employee of the Department of Justice or any authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation, under regulations promulgated by the Attorney General. Notwithstanding subparagraph (C) of this subsection, such material, answers, and transcripts may be used by any such person in connection with the taking of oral testimony pursuant to this section.

"(C) Except as otherwise provided in this section, while in the possession of the custodian, no documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, so produced shall be available for examination, without the consent of the person who produced such material, answers, or transcripts, and, in the case of any product of discovery produced pursuant to an express demand for such material, of the person from whom the discovery was obtained, by any individual other than an authorized official or employee of the Department of Justice, or an authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation. Nothing in this section is intended to prevent disclosure to either body of the Congress or to any authorized committee or subcommittee thereof, or to any other agency of the United States for use by such agency in furtherance of its statutory responsibilities. Disclosure to any other agency of the United States shall be allowed only upon application, made by the custodian to a United States district court, showing substantial need for use by such agency in furtherance of its statutory responsibilities.

"(D) While in the possession of the custodian and under such reasonable terms and conditions as the Attorney General shall prescribe—

"(i) documentary material and answers to interrogatories shall be available for examination by the person who produced such material or answers, or by an authorized representative of such person; and

"(ii) transcripts of oral testimony shall be available for examination by the person who produced such testimony, or his counsel.

"(4) Whenever any attorney of the Department of Justice has been designated to appear before any court, grand jury, or Federal administrative or regulatory agency in any case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony may deliver to such attorney such material, answers, or transcripts for official use in connection with any such case, grand jury, or proceeding as such attorney determines to be required. Upon the completion of any such case, grand jury, or proceeding, such attorney shall return to the custodian any such material, answers, or transcripts so delivered which have not passed into the control of such court, grand jury, or agency through the introduction thereof into the record of such case or proceeding.

"(5) If any documentary material has been produced in the course of any False Claims Act investigation by any person pursuant to a demand under this section, and—

"(A) any case or proceeding before any court or grand jury arising out of such investigation, or any proceeding before any Federal administrative or regulatory agency involving such material, has been completed, or

"(B) no case or proceeding in which such material may be used has been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of such investigation,

the custodian shall, upon written request of the person who produced such material, return to such person any such material (other than copies thereof furnished to the custodian pursuant to paragraph (2) of this subsection or made by the Department of Justice pursuant to paragraph (3)(B) of this subsection) which has not passed into the control of any court, grand jury, or agency through the introduction thereof into the record of such case or proceedings.

"(6) In the event of the death, disability, or separation from service in the Department of Justice of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced under any demand issued pursuant to this section, or of the official relief of such custodian from responsibility for the custody and control of such material, answers or transcripts, the Attorney General or his authorized designee shall promptly (A) designate another False Claims Act investigator to serve as custodian of such material, answers, or transcripts, and (B) transmit in writing to the person who produced such material, answers, or testimony notice as to the identity and address of the successor so designated. Any successor designated under this subsection shall have, with regard to such material, answers or transcripts, all duties and responsibilities imposed by this Act upon his predecessor in office with regard thereto, except that he shall not be held responsible for any default or dereliction which occurred prior to his designation.

"(k)(1) Whenever any person fails to comply with any civil investigative demand served upon him under subsection (b) or whenever satisfactory copying or reproduction of any such material cannot be done and such person refuses to surrender such material, the Attorney General, through such officers or attorneys as he may designate, may file in the district court of the United States for any judicial district in which such person resides, is found, or transacts business, and serve upon such person a petition for an order of such court for the enforcement of this section.

"(2)(A) Within twenty days after the service of any such demand upon any person, or at any time before the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, such person may file, in the district court of the United States for the judicial district within which such person resides, is found, or transacts business, and serve upon such False Claims Act investigator a petition for an order of such court, modifying or setting aside such demand. In the case of a petition addressed to an express demand for any product of discovery, a petition to modify or set aside such demand may be brought only in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending.

"(B) The time allowed for compliance with the demand, in whole or in part, as deemed proper and ordered by the court shall not run during the pendency of such petition in the court, except that such person shall comply with any portions of the demand not sought to be modified or set aside. Such petition shall specify each ground upon which the petitioner relies in seeking such relief, and may be based upon any failure of such demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of such person.

"(3) Within twenty days after the service of any express demand for any product of discovery upon, or at any time before, the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, the person from whom such discovery was obtained may file, in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending, and serve upon any False Claims Act investigator named in the demand and upon the recipient of the demand, a petition for an order of such court modifying or setting aside those portions of the demand requiring production of any such product of discovery. Such petition shall specify each ground upon which the petitioner relies in seeking such relief and may be based upon any failure of such portions of the demand to comply with the provisions of this section, or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of such petition, the court may stay, as it deems

proper, compliance with the demand and the running of the time allowed for compliance with the demand.

"(4) At any time during which any custodian is in custody or control of any documentary material, answers to interrogatories delivered, or transcripts of oral testimony given by any person in compliance with any such demand, such person, and in the case of an express demand for any product of discovery, the person from whom such discovery was obtained, may file, in the district court of the United States for the judicial district within which the office of such custodian is situated, and serve upon such custodian, a petition for an order of such court requiring the performance by such custodian of any duty imposed upon him by this section.

"(5) Whenever any petition is filed in any district court of the United States under this section, such court shall have jurisdiction to hear and determine the matter so presented, and to enter such order or orders as may be required to carry into effect the provisions of this section. Any final order so entered shall be subject to appeal pursuant to section 1291 of title 28. Any disobedience of any final order entered under this section by any court shall be punished as a contempt thereof.

"(6) To the extent that such rules may have application and are not inconsistent with the provisions of this section, the Federal Rules of Civil Procedure shall apply to any petition under this subsection.

"(7) Any documentary material, answers to written interrogatories, or oral testimony provided pursuant to any demand issued under this section and sections 3729 through 3731 shall be exempt from disclosure under section 552 of title 5.".

SEC. 6. (a) Subchapter III of chapter 37 of title 31, United States Code, is further amended by adding at the end thereof the following:

"§ 3734. Whistleblower protection

"Any employee who is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms or conditions of such employment by his employer because of the good faith exercise by such employee on behalf of himself or others of any option afforded by this Act, including investigation for, initiation of, testimony for, or assistance in an action filed or to be filed under this Act, shall be entitled to all relief necessary to make him whole. Such relief shall include reinstatement with full seniority rights, backpay with interest, and compensation for any special damages sustained as a result of the discrimination, including litigation costs and reasonable attorney fees. In addition, the employer shall be liable to such employee for twice the amount of backpay and special damages and, if appropriate under the circumstances, the court shall award punitive damages.".

(b) The table of sections for chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following new items:

"3732. False claims jurisdiction.
"3733. Civil investigative demands.
"3734. Whistleblower protection.".

SEC. 7. (a) Section 286 of title 18, United States Code, is amended by striking out "$10,000" and inserting in lieu thereof "$1,000,000 notwithstanding the provisions of section 3623,".

(b) Section 287 of title 18, United States Code, is amended by striking out "$10,000, or imprisoned not more than five years" and inserting in lieu thereof "$1,000,000, or imprisoned for not more than ten years, or both, notwithstanding the provisions of section 3623".

SEC. 8. This Act and the amendments made by this Act shall become effective upon the date of enactment.

□ 2130

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## DIPLOMATIC SECURITY ACT

Mr. DOLE. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 4151.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representative:

*Resolved*, That the House disagree to the amendment of the Senate to the bill (H.R. 4151) entitled "An Act to provide enhanced diplomatic security and combat international terrorism, and for other purposes", and ask for a conference with the Senate on the disagreeing votes of the two Houses thereon.

*Ordered*, That the following are appointed as conferees for consideration of all matters: Mr. Fascell, Mr. Yatron, Mr. Mica, Mr. Kostmayer, Mr. Smith of Florida, Mr. Weiss, Mr. MacKay, Mr. Broomfield, Mr. Gilman, Ms. Snowe, Mr. Mack, and Mr. McCain.

Appointed as additional conferees, for consideration of title IX of the House bill and modifications thereof committed to conference: Mr. Jones of North Carolina, Mr. Biaggi, Mr. Studds, Mr. Davis, and Mr. Snyder.

Appointed as additional conferees, for consideration of Titles III, VIII, XI, and section 603 of the House bill and modifications thereof committed to conference: Mr. Aspin, Mr. Price, and Mr. Dickinson.

Appointed as additional conferees, for consideration of sections 702 and 703, 711, 713 714 of the Senate amendment, and modifications thereof committed to conference: Mr. Rodino, Mr. Hughes, Mr. Edwards of California, Mr. Conyers, Mr. McCollum, Mr. Lungren, and Mr. Gekas.

Appointed as additional conferees, for consideration of title III and title VIII of the House bill and modifications thereof committed to conference: Mr. Ford of Michigan, Mrs. Schroeder, Ms. Oakar, Mr. Horton, and Mr. Young of Alaska.

Mr. DOLE. Mr. President, I move that the Senate insist on its amendment and agree to the request for conference with the House, and ask that the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to; and the Chair appointed the following conferees on the part of the Senate:

Senators LUGAR, HELMS, MATHIAS, KASSEBAUM, PELL, BIDEN, and SARBANES.

Additonal conferees for consideration of sections 702, 703, 711, 713, and 714 of the Senate-passed measure: Senators GRASSLEY, DENTON, SPECTER, DECONCINI, and LEAHY.

Additional conferees for the consideration of section 702 of the Senate-passed Measure: Senators MATHIAS and EAGLETON.

Additional conferees for the consideration of sections 706 and 707 of the Senate-passed measure: Senators DANFORTH and HOLLINGS.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## TARIFF ON CHOCOLATE

Mr. DOLE. Mr. President, I send to the desk a resolution and ask for its immediate consideration. The resolution is submitted on behalf of myself and the following cosponsors: Senators PACKWOOD, LUGAR, HELMS, SIMPSON, GORTON, EVANS, HEINZ, D'AMATO, ROTH, MURKOWSKI, CHAFEE, MATSUNAGA, BENTSEN, LAUTENBERG, ZORINSKY, NUNN, BRADLEY, MOYNIHAN, HARKIN, PRYOR, HEFLIN, DIXON, WARNER, GRASSLEY, ABDNOR, and LEAHY.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 465) relating to a tariff on chocolate.

The PRESIDING OFFICER. Is there objection to the present consideration of the resolution?

Mr. BYRD. There is no objection.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DOLE. Mr. President, American confectionery manufacturers are among this Nation's largest industrial consumers of sugar, milk, peanuts, and a variety of other agricultural products including wheat, corn, almonds, and raisins. They are not a subsidized industry and meet the challenge of strong import competition without a buffer of tariffs and quotas.

The confectionery industry is attempting to expand exports and is meeting a serious tariff obstacle in Japan. The administration, backed by members of both Houses of Congress, has pressed Japan to lower its 20-percent tariff on chocolate to the United States duty rate of 7 percent. Even though Japan has promised to open its markets to imported goods, it has refused to lift the tariff barrier to this competitive United States export.

This issue transcends the $12 million in United States confectionery exports to Japan. The "chocolate issue" symbolizes the inequity of many of our bilateral trade relationships where U.S. exports are blocked by the very na-

tions who benefit most from the openness of the U.S. markets.

I urge Members of the Senate to vote for this resolution, in the realization of fair and reciprocal confectionery trade between the United States and Japan.

Mr. BYRD. Mr. President, I ask unanimous consent that Mr. LEAHY's name be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

*Resolved,*

Whereas, the U.S. confectionery industry is a major industrial consumer of domestically grown sugar, milk, peanuts, and other U.S. agricultural commodities; and,

Whereas, the expansion of overseas markets for U.S. chocolate and confectionery exports will directly benefit supplier industries including sugar and milk producers, and growers of peanuts, almonds, raisins, corn and wheat; and,

Whereas, increased U.S. exports of chocolate enhances demand for cocoa beans and cocoa by products from developing nations whose economies depend on cocoa for export earnings; and

Whereas, the United States includes among its trade policy objectives reciprocity in confectionery trade with Japan and other nations; and,

Whereas, the U.S. confectionery market is open and tariffs are among the lowest in the world; and,

Whereas, Japan has restricted competitive U.S. exports of chocolate by maintaining tariffs that are among the highest of any industrialized nation;

It is therefore the sense of the Senate that:

The President should use all appropriate powers of his office to secure from Japan a reduction of that nation's tariff on chocolate to a level at parity with the United States by April 1987.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## CORRECTION IN ENROLLMENT OF S. 1708

Mr. DOLE. Mr. President, I ask unanimous consent that the Secretary of the Senate be authorized to correct the enrollment of S. 1708 to reflect the proper name, which I send to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The correction is as follows:

On page 1, line 5, before the word "Julio", insert the word "Nieves".

## EXECUTIVE SESSION

Mr. DOLE. Mr. President, I inquire of the minority leader if he is in a position to confirm either of the following nominations on the Executive Calendar: No. 957, Robert W. Beuley; No. 965, James Eugene Burnett, Jr.

Mr. BYRD. Mr. President, those nominations have been cleared on this side of the aisle by all Members, and we are ready to proceed to the confirmation thereof.

Mr. DOLE. I thank the distinguished minority leader.

I ask unanimous consent that the Senate go into executive session to consider the nominations just identified and that the nominations be considered and confirmed en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered, and the nominations are considered en bloc and confirmed en bloc.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF AGRICULTURE

Robert W. Beuley, of Virginia, to be Inspector General, Department of Agriculture, vice John V. Graziano, resigned.

NATIONAL TRANSPORTATION SAFETY BOARD

James Eugene Burnett, Jr., of Arkansas, to be Chairman of the National Transportation Safety Board for a term of two years. (Reappointment)

JAMES EUGENE BURNETT, JR.

Mr. BYRD. Mr. President, I wish to express support for the nomination of James Eugene Burnett, Jr., to be chairman of the National Transportation Safety Board for the term of 2 years.

Mr. Burnett certainly performed very, very well. He has been a strong advocate of aviation safety. I think that his services that have been rendered have been exemplary. I believe he is entitled to the position for which he is being nominated, and I am very proud to support the nomination.

Mr. DOLE. Mr. President, I move to reconsider the votes by which the nominations were confirmed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, I ask unanimous consent that the President be immediately notified that the Senate has given its consent to these nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

## LEGISLATIVE SESSION

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now resume the consideration of legislative business.

There being no objection, the Senate resumed the consideration of legislative business.

## DROPOUT PREVENTION AND REENTRY

Mr. BYRD. Mr. President, there is a message at the desk from the House of Representatives on H.R. 3042, Dropout Prevention and Reentry Act. I ask that the bill be read for the first time.

The PRESIDING OFFICER. The clerk will read the bill for the first time.

The legislative clerk read as follows:

A bill (H.R. 3042) to authorize the Secretary of Education to make grants to local educational agencies for dropout prevention and reentry demonstration projects.

Mr. DOLE. Is that the first reading or second?

Mr. BYRD. Mr. President, I ask the bill be read the second time.

Mr. DOLE. Mr. President, I object to further consideration.

The PRESIDING OFFICER. Objection is heard.

## EMERGENCY ASSISTANCE TO FARMERS AND RANCHERS

The PRESIDING OFFICER. The clerk will read H.R. 5288.

The legislative clerk read as follows:

A bill (H.R. 5288) to provide emergency assistance to farmers and ranchers adversely affected by natural disasters in 1986.

Mr. DOLE. Mr. President, I object to further consideration.

The PRESIDING OFFICER. Objection is heard. The bill will be placed on the calendar.

## ON THE OCCASION OF GEORGE SHAPIRO'S RETIREMENT

Mr. MOYNIHAN. Mr. President, it has become very fashionable to criticize Government employees, and overlook the contribution made by public servants at all levels of Government. While such views about Government are often strongly held, they cannot belong to those who know of the career of George L. Shapiro, retiring today from full-time service at age 70, as an auditor for the office of deputy attorney general for Medicaid fraud in New York.

A lifelong New Yorker, George Shapiro spent most of his career as an accountant in the private sector. At the age of 60, when many other men and women are already contemplating retirement, Mr. Shapiro chose to begin a new career with the State of New York. He joined the office that was established in response to the revelations of Special Prosecutor Charles Hynes and the major scandal that shook public confidence in the nursing home industry. He lent—with dedication and energy—his skills as an auditor to rooting out fraud and corruption, first in the nursing home industry, and then in all aspects of the Medicaid Program, after the jurisdiction of his office was expanded.

New York's effort to investigate and prosecute Medicaid fraud became a model for the other States; today 37 States are operating Medicaid fraud units. Mr. Shapiro's audit work has

contributed to many convictions and the recovery of millions of dollars in civil penalties in the past 10 years. Even more important, his work, and the work of his colleagues, have done much to restore public confidence in our Medicaid Program. That is a priceless contribution, for which all New Yorkers are in his debt.

Mr. President, I commend George Shapiro, and send all good wishes and great congratulations to him upon his retirement.

## A SPECIAL EVENING FOR SENATOR MATHIAS

Mr. BYRD. Mr. President, the 99th Congress is pressing on toward its crest and climax. Though we have much work remaining before this session of Senate business comes to a close, already a certain wistfulness attends our duties.

After several cumulative decades of service, a number of Senators have declared their intentions of retiring. We all respect the decisions that those Senators have made and we understand many of the motives that led to those decisions to retire, but we likewise regret the departure of several of our distinguished colleagues, and come January, we shall miss these absent, good friends.

Undoubtedly, one of the most regretted of those retirements will be that of the senior Senator from Maryland, CHARLES MCC. "MAC" MATHIAS. I, for one, have been privileged to serve in the Senate with Senator MATHIAS for nearly 17 years. Over all of those years, I have found Senator MATHIAS to be one of the most cooperative, most decent, most principled Members of the Senate. Regardless of the situation or circumstances in which he has found himself, Senator MATHIAS has ever shown that grace, integrity, objectivity, reason, and statesmanship are integral and innate qualities of his character, I count the earning of Senator MATHIAS's friendship one of the intangible rewards of my own years in this body of distinguished Senators.

Of course, I am not alone in the esteem in which I hold the senior Senator from Maryland. Last month on July 14, approximately 1,300 of Senator MATHIAS's friends, admirers, and constituents gathered at the Baltimore Convention Center to register their regard for this outstanding Senator. The purpose of that occasion was to help underwrite the Charles McC. Mathias Scholarship Fund of the Johns Hopkins University's School of Advanced International Studies. Among those attending that dinner were Maryland Gov. Harry Hughes, Senator PAUL SARBANES, the distinguished Senate majority leader ROBERT DOLE, Senator NANCY KASSEBAUM, former Tennessee Senator Howard Baker, Baltimore Mayor Schaefer, and a wide range of leaders from the international, national, and Maryland State arenas. The transcript of the proceedings of that dinner contains the encomiums of many of Senator MATHIAS' friends, colleagues, associates, and peers, as they gave sincere expression to their gratitude, appreciation, respect, and love for an outstanding U.S. Senator and an outstanding American.

Mr. President, I ask unanimous consent that the transcript of that special tribute to Senator MATHIAS, along with the message that I sent him that evening, be printed in the RECORD.

There bring no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
OFFICE OF THE DEMOCRATIC LEADER,
*Washington, DC.*

Hon. CHARLES MCC. MATHIAS, Jr.,
*U.S. Senate,*
*Washington, DC.*

DEAR MAC: Although I cannot be present for tonight's special occasion for you in Baltimore, I send my greetings and congratulations, and I commend your friends throughout the State of Maryland for planning tonight's special celebration in recognition of your countless contributions to your home state and to our nation.

Throughout your Senate career, you have won for yourself a well deserved reputation as a statesman, a clear-thinking patriot, and a Senator who is able to see the many sides of issues objectively and fairly. Your departure from the Senate and from the affairs of our nation will create a deficit in leadership and wisdom that will be difficult to correct. All of your Senate colleagues and fellow-citizens stand forever in your debt.

That Johns Hopkins University will continue the "Mathias" tradition is appropriate, and I commend that great institution for its foresight in establishing the Charles McC. Mathias, Jr. Fund for The Johns Hopkins University's School of Advanced International Studies—a worthy monument to the legacy that you leave the United States because of your many years of public service.

Again, congratulations on the singular honor being shown you tonight, and best wishes as you enter a new phase of a sparkling career.

Sincerely yours,

ROBERT C. BYRD

### TRIBUTE TO SENATOR CHARLES MCC. MATHIAS, JR.

Rt. Rev. THEODORE EASTMAN. Let us Pray. Lord God Almighty, we acknowledge Your presence in our midst, and ask You to attend to our hesitant and inadequate words. In the midst of this celebration, we pause to thank You for the life and work of Your servant, Mac Mathias. He has responded to the promptings of Your spirit, and pursued with passion the ways of justice and truth to the benefit of many of this land and beyond. May all of us, and especially all who continue in public service, learn from the standard he has set and rededicate ourselves to guide this society along the road of freedom and equality for all. May the more than ample food and the unfettered conversation of this table remind us of the bounty and freedom You have bestowed on us favored few and strengthen our resolve to share such benefits with those less fortunate. As we now bless Your holy name we pray that You continue to bless us and all Your people for ever and ever. Amen.

JAMES W. ROUSE. Good evening. I am Jim Rouse. It is my pleasant role to be traffic cop tonight as we celebrate 34 extraordinary years of service by Maryland's great statesman, Mac Mathias. It is right and proper that we launch this celebration with words of welcome from the distinguished Governor of the State of Maryland: Harry Hughes.

Governor HARRY HUGHES. In the Reception Hall off the Senate Chamber hang the portraits of five of our greatest senators: Calhoun, Clay, La Follette, Taft and Webster. Interestingly, they each share several traits in common: a passion for independent thinking; a profound knowledge of government; and a reputation for statesmanship in the Senate. We honor tonight a senator who has exhibited these very attributes in his 26 years in the Congress. Indeed, because of these qualities, because of his areas of interest, service and knowledge, Charles McC. Mathias has fashioned a legacy rarely seen in the Senate.

Consider that today he is the only senator who serves on four major committees, one of which he chairs, and those committees are involved in, and affect, the most far-reaching and important aspects of our nation: Foreign Relations, Government Operations, the Judiciary and the Electoral Process. In the past, he was a ranking minority member of the Senate Subcommittee on Foreign Operations (of the Appropriations Committee) which oversees all foreign aid programs and defense-related matters. He is Chairman of the Subcommittee on International Economic Policy, which is concerned with such vital economic matters as the oil crisis and the Third World debt. He has also headed the committees that investigated the CIA's role, and helped reorganize the U.S. intelligence operation. On the domestic scene his efforts have benefited the lives of all Marylanders. In Baltimore, when you travel through the Fort McHenry Tunnel, take a subway ride or tour the Inner Harbor, you can thank Mac for his key efforts in Washington.

But Mac's greatest legacy may be that for a quarter of a century, he has stood for principle above politics, and he has done it in our nation's most important forum, the United States Senate. He has been one of those rare senators who has been popular in spite of, and not because of what they did. For more than often than not, his values and forsight made him speak out against popular or party line. The importance of the Senate and its members can be seen in the powers that are assigned to it. The framers of the Constitution intended the Senate to serve as an advisory council to the President. To the Senate alone is given the power to confirm the President's nominations for major federal offices, and to approve treaties by giving the President its advice and consent. Senator Mathias has, throughout his years in the Senate, given often of his council and wisdom, offered advice and consent on issues far broader than treaties. For this, he has at times been castigated and vilified, even by his own party, but he has held steadfast. He has articulated his position in speeches on the floor of the Senate, in addresses at forums around our state and in many editorial page articles, in private and also in public conversation. Some say that for his independence of thought he is a man without a party. But

I think history will show he is a man of both parties. Indeed, Charles McC. Mathias may be the rare senator who is a man above the party. And he is, because of both his intelligence and his integrity, for which senators on both sides of the aisle hold him in great respect. Integrity is a rare and precious attribute; unlike intelligence, integrity is, I believe, a self-made characteristic. Integrity is not inborn, it is the one characteristic that, not genes, but the generosity of our own spirit gives to us. It takes great integrity in politics to speak out and stand for what is not popular, for politics by definition is the art of pleasing the populace.

But Senator Mathias first educated and then led voters. His distinguished career is proof to elected officials that integrity in public office, the willingness to make the tough decisions on behalf of the greater good, ultimately serves one's constituencies the best. Yes, Charles McC. Mathias is a true statesman. His quarter of a century of service has earned him a special place among those Senators who have most influenced our nation. I'm proud to call him a friend and I'm also proud as Commander of Chief of the Maryland Navy, which isn't terribly big, and as a friend to make him an Admiral of that estuary that he has been so helpful in restoring, the Chesapeake Bay.

JIM ROUSE. If all the candidates and their potential supporters would sit down, I think we could probably move ahead. One of the really remarkable things about this evening is that we are on time. If all of our speakers obey the disciplines that have been carefully handed to them at their tables, we'll stay on time.

Our governor has expressed a welcome from the state of Maryland. The heart of Baltimore goes out to Mac Mathias. He has served us well. He is a great friend of the city and a good friend of our mayor who now comes to express greetings from the City of Baltimore, our distinguished mayor, Donald Schaefer.

Mayor WILLIAM DONALD SCHAEFER. I would like to welcome all of you to this great place called Baltimore, Maryland, this city. Baltimoreans are supposed to clap. Everything I say recently is controversial, but what I am going to say tonight is not debatable, because I am going to talk about a great American. It is truly a pleasure to be here tonight along with so many distinguished guests to honor one of Maryland's finest sons. When I say distinguished guests, I mean that. I haven't seen so many distinguished guests since Barbara Mikulski invited me to hear the President's State of the Union message over in Washington.

Walking down here Mr. Coleman said, "I gave you the Subway," and I said "Thank you". And I also said, "If you've got any more money I would like to extend it up to around Johns Hopkins!"

Mac Mathias. I sat down and I thought what am I going to write about this guy, what am I going to say about this wonderful, very special person. Those of us who have crossed paths with Senator Mathias are most fortunate. Sometimes when you attain a very lofty, very special and very prestigious position of a United States senator, you can lose touch with people. Well, that never happened to our senator. No matter who you are—a member of Congress, dignitary, rich or poor, young or old—he takes time to listen, to be concerned, to be interested and to help to bring about a better quality of life for all Americans. He has had a role in housing, civil rights, education, veterans affairs, world peace and all of these, of course, attest to his dedication to people. As mayor of this city, as mayor, I know of the impact on the local level. Never too busy to talk to the mayor, never too busy to help, no problem too large or too small, the door was always open and if he was not there his staff was there, and his staff was instructed: "Help him," and I appreciate that. He helped us with the programs for the poor, with the handicapped, housing for elderly, economic development; he helped to make the City of Baltimore, make our dreams become a reality, and for that we are eternally grateful.

As a member of the Appropriations Committee for several years, and I was over there, he always saw that we got a fair share of the federal tax dollar. Senator Mathias is the loving father of the Chesapeake Bay and the person that led the way to its salvation and he is known as Mr. Chesapeake Bay. The list is endless and we are very much aware of his accomplishments. One of the things that you like about a man like that, he was always quick to share and to give credit rather than take it for himself and that's one of the reasons for his greatness. Let me close by saying that all of us wish you the best, Mac in your new career, the establishment of the Mathias Fellowship at the School for International Studies at Johns Hopkins. We are going to continue to need and seek your advice in making Maryland America's best. When Mac Mathias speaks we will continue to listen and to profit. Mac, thank you on behalf of the City of Baltimore.

JIM ROUSE. This evening has grown out of a yearning on the part of many of us here tonight to express our affection, respect and gratitude for one the greatest statesmen in our country's history, and for one of the humblest men to hold high public office. That's not two men, but one: Mac Mathias, whose performance in office will become a legend of American political history.

We locals are honored together with Mac by having among us tonight a quorum of the United States Senate. How many times does that happen? There are justices from all levels of the court system, the head of Washington's diplomatic corps, and ambassadors from other great nations, and many others of distinguished service to our country, including some who disagree with Mac on almost all political issues, but have come to honor him for the person he is, as we all do.

You have noticed, I'm sure, by now that there is no speakers' table tonight, but that does not mean no speakers. In fact, there will be a number of speakers to remind us of the breadth and depth of Mac's service to his state and country. There will be farmers and watermen, leaders of labor and of business, of civil rights and the environment, those who will speak of his work for reconciliation among nations, the control of arms and for economic and social justice in the world. We will see Mac Mathias as a great, kind, reasonable man, of deep human values with an abiding sense of history, with a sparkling common sense and independent thought and action. The speakers will use a microphone near their tables—there are six. The speakers promise to be very brief, a little better than our governor and our mayor. Just one minute, maybe 90 seconds, maybe two minutes to provide flashes of light on the multitude of persons that conmstitute Mac Mathias.

We have to begin now, at the beginning. A great lady of the Republican party, a former Republican National Committeewoman from Maryland, who, together with her husband Eldred Rinehart, gave Mac the spur to make his first run for the state legislature (I won't tell you how long ago that was, but I will, 34 years ago): Kitty Massenburg Rinehart.

Mrs. KATHERINE BLACK RINEHART. We began as young Republicans in the 1950's and we went on from there to become McKeldin Republicans, Eisenhower Republicans, Rockefeller Republicans and, ultimately, Mathias Republicans. We were so fortunate in the fifties because we had a Republican president in the White House, we had a Republican governor in the State House, we had two U.S. senators and half of the congressional delegation, so they were heady times for all of us. Mac went to the Attorney General's office and was assigned immediately to the Maryland Racing Commission, of which my husband, Eldred Rinehart was the chairman. That began a personal and political friendship that was to last for many, many years. They were to serve in positions of leadership in the Republican Party for the next twenty years. And then Mac announced for the Congress from the back steps of Eldred Rinehart's home in Western Maryland.

But the proudest moment in my life was when I sat in the gallery in the Senate with Bill Rouse and Eldred Rinehart to see Mac sworn into the United States Senate. And as I looked down on some of those young men who were becoming Senators for the first time and realized that many of them had been young Republicans with us, I couldn't help but think: here, these young men, now a little older, were going to run the Senate and run the nation. And I thought, "Ye gods, them is us!" Maybe it is time to get off the merry-go-round, Mac, but we've had a lovely ride.

JIM ROUSE. Thank you, Kitty. And now at microphone four is a man who Mac would say has been "my friend all my life," a man who plants his fields and harvests his crops, a fine farmer from Frederick County: Bill Crum.

WILLIAM CRUM. Mac, I wonder how many people here tonight know that in ten days you are going to celebrate your 39th birthday. Well, it certainly is a pleasure for Barbara and me to be here tonight to honor you, Mac, as you prepare to leave the United States Senate. Your contributions are many and varied as I am sure the speaker will reveal. It doesn't seem like over 35 years that we've been friends and shared experiences together. I remember us discussing politics, and yes, agriculture as well, many times over the years. And I am sure that you share my feelings about the family farm, that it is a part of the very foundation of America. Important not only for the food and fiber it produces, but just as important for the molding of its youth, the fostering of integrity of character and the pride in the job well done. The family is the most important unit in our world, working together for a common goal, the work ethic personified.

Mac, do you remember the tour that we took in the early sixties over drought-stricken Frederick County? The farms we visited, the expressions on the farmers' faces and the words of appreciation that they gave, that you took the time to come and see what they were suffering and to do what you could for them? Mac, as this era ends and another begins, we hope the future keeps you just as busy as you want to be. Mac, we salute you as a public servant and as a friend. Of all the titles that can be be-

stowed upon us, none is as meaningful or as important as the title "Friend".

JIM ROUSE. Thank you, Bill. And now at table five, right out in front, is one of the really great, wonderful people of our state, a vigorous worker in the civil rights movement in Maryland and in the nation, a lawyer, the wife of one of our all-time greatest citizens and leaders, the mother of a distinguished family and friend of Mac's since he was a young Congressman who marched at Selma (not many people did that): Juanita Jackson Mitchell.

Mrs. JUANITA JACKSON MITCHELL. Jim, this goes back to 1951. I was a new lawyer, I had been admitted to the Bar in 1950, I was in my office and a voice came over the phone: "Mrs. Mitchell, this is Mac." Yes. "I'm Mac Mathias from Frederick." Yes. He said, "I have talked with the Mayor and City Council of Frederick and they have agreed with me that we will enter a consent decree and desegregate the theatre in the City Opera House which houses the City Council. They have agreed that that is right and just. And I said, "Oh! Mr. Mathias!" We were young, new lawyers, we were giving ourselves in the NAACP's cause, there wasn't much money and I thought, "No appeals, just a consent decree."

My mother said, "God has put His hand on the shoulder of that young man," and so He had. He became a state legislator, then a congressman and then a senator. He worked with my husband in getting the landmark civil rights bills into law.

Mac, we have come a long way in Maryland. Clarence and I have twelve grandchildren, we have even a little boy who thinks he'd like to be President. They have such hope in their eyes in this great nation of ours that it can be what it was meant to be. So Mac, we thank you, and especially for my grandchildren, that the America we hope and dream will be. They will help to make it because you paved the way. Thank you Mac.

JIM ROUSE. And Juanita, we all thank God for you and Clarence. We have with us tonight one of the political legends of Maryland, a man who, for 28 years of Maryland has been elected to serve as comptroller of the State of Maryland, and before that was a member of the senate, a wonderful, political character, a man: Louis Goldstein.

The Honorable LOUIS L. GOLDSTEIN. A pleasant good evening to Admiral, Senator Mac and Ann, and all the wonderful friends of Mac's, ladies and gentlemen. As Maryland's senior senator, Charles McC. Mathias has forged a reputation as a man with a far-reaching intellect, integrity and various interests—a real Jeffersonian Republican. To those of us who knew Mac Mathias when he was in the Maryland House of Delegates, his eventual national stature came as no surprise.

I went over and checked the legislative records for Mac's days in the House of Delegates, to which he was elected in 1958 from the great County of Frederick. He served in the 1959 and 1960 legislative sessions, he sponsored a bill to construct a new physics building at Johns Hopkins University (where he'll be serving with honor) and that has been accomplished. He also sponsored bills affecting farmland assessments and horse racing, the sport of the kings in Maryland, to name just a few that reflected his wide-ranging interests. By 1959 I had moved across the street from the senate to be State Comptroller, but I remember Mac from many lunchtime conversations at a little campus restaurant on Maryland Avenue during the legislative sessions. What Mac Mathias learned as a distinguished legislator in the historic Maryland State House benefited all Americans. Then he took his seat on Capitol Hill in Washington, D.C., as a member of the United States House of Representatives in 1961 and later as a United States Senator, where he has served his state and nation with honor and distinction for 26 long years. Mac, we wish you the best of luck in the future, and may God love and bless you and Ann and your wonderful family real good with continued success, good health and happiness. I thank you.

JIM ROUSE. Thank you Louis. We have another member of Congress from Maryland who retired at the height of his power and influence, and who might have gone on a long time. He is a former member of Congress who managed Mac's campaign for the House, who succeeded him as a congressman from Montgomery County, and served with him in Congress (figure that one out): Gil Gude.

The Honorable GILBERT GUDE. As everybody knows in the audience, Mac is not a secretive man, but one of the best kept secrets of his career was his hideaway up on Little Bullskin Creek, which is, I have to say, over in West Virginia. (It is) his farm, where he went to soak up much of the tradition and the greatness of the statesmen of West Virginia and Virginia, as well as of Maryland. And I think that it reflected Mac's hours and meditation over there on Little Bullskin, reflected his love for the Potomac Valley—the Chespeake and Ohio Canal, the Potomac River—one of the greatest valleys in America. One of the accomplishments of Mac Mathias, through his leadership, the Chesapeake and Ohio Canal National Historic Park was established. It is a legacy for the Potomac Valley, one of the richest slices of American history, and Mac we are everlastingly grateful for your leadership. I've benefited and all of Maryland has benefited. Thank You.

JIM ROUSE. And now a labor leader from the State of Maryland, president of the Western Maryland Central Labor Council, which took the radical action under his leadership of endorsing a young Republican for Congress: Stanley Zorick.

STANLEY ZORICK. Labor recognized in the very early years, in fact many more than twenty years ago, that here was a man who stood above the crowd, a man with inherent qualities of decency, honesty and fairness. His decisions were made only after he gathered and studied all of the facts on the issue at hand, never prejudging and never being vindictive. The years that he has served his country have more than proven that. So from the mountains of western Maryland to the shores of Maryland's Atlantic shore, we salute you, we thank you, and may God bless you, Charles McC. Mathias, Senator and Statesman.

JIM ROUSE. Thank you Stanley Zorick. We have a distinguished new citizen of Maryland here tonight. Many of you will be surprised to find that he is a citizen of Maryland. He's a national leader in the civil rights movement, executive director of the NAACP, which has just established its national headquarters in Baltimore: Ben Hooks.

Dr. BENJAMIN L. HOOKS. Charles McC. Mathias stands as a towering, illuminous and powerful personality in the midst of the world's greatest deliberative body, the United States Senate. As Executive Director of the NAACP and Chairman of the Leadership Conference on Civil Rights, an organization of more than 165 civil rights groups, I can tell you that Senator Mathias has been there when we needed him. We could not only count him, we could count on him. He has stood tall and acted with compassion and concern. As he leaves the Senate, I thank God that he is not leaving his dedication and devotion to the democratic process and the concept of equal justice under the law for all Americans. We salute and felicitate him and wish him many more years of constructive and useful life. Tonight I say, "Thank God for this Senator and may his tribe increase, and may his brand of Republicanism spread and grow until it shall become the credo for all America." I am glad to be here on this occasion. As a black man I have felt the slings and arrows of outrageous segregation. I've sat on the back of the bus, the front of the train and the third balcony of the movie theatre, and yet through pains and tears I always kept the faith that one day America would redeem its promise made many years ago in the Declaration of Independence that all of us were created equal. Thanks to people like Senator Mac Mathias, we have begun that process and we are well on the way. And I believe that with your support and his continued guidance and help we shall one day reach that land where all of us could say, "Oh Beautiful for spacious skies, for amber waves of grain, for purple mountains majesty above the fruited plain. America, America God shed His grace on thee." And now, let us go out and, "Crown that good with sisterhood and brotherhood from sea to shining sea."

JIM ROUSE. Over here at microphone number six is a great leader of the Senate, who came to the House of Representatives with Mac in 1961,and to the Senate in 1969 together, the Majority Leader of the Senate, best known as the husband of the Secretary of Transportation Elizabeth Dole: Senator Robert Dole.

Senator ROBERT DOLE. Senators only speak now on television, so I am waiting for the set, but we are there (on TV) because of Mac Mathias. (That is) another area that many people may not give Mac credit for, but it has been Mac's insistence along with Senator Baker's over the years to bring us into the twentieth century. As Jim indicated, I am the only one in this room who served every day, every week, every month, every year with Mac Mathias in the Congress. We were both elected in 1960, Maryland and Kansas; we both moved to the Senate, we say the upper body, some say we're promoted, some said goodbye. But in any event, Mac and I have known each other for a long, long time and we've been friends, and we understand one another. When I go to Mac, I say, "Mac, can you help me on this one?" and he says. "No." And we understand one another. But I don't give up, I go back on the next day and say, "Mac, can you help me on this one?" and he says, "Yes." That's really what it is all about.

I am very proud of Mac Mathias, my friend, and a Republican member of the United States Senate. We have been trying to urge Mac to delay this farewell party. We promised him a bigger crowd in 1992. We did everything we could think of to change Mac's mind. I guess maybe he witnessed what I witnessed in my state recently, this is a tough year to run for re-election. I was in Kansas only last week and on the front row there were four farmers seated in this little town meeting and they all had baseball caps on. Across the top of the cap, there were two words "Dump Dole". Well, I put them down as undecided. But this is a very tough

year. It is one of those years in politics where it is going to be very exciting.

We are going to miss Mac Mathias. I want to say on behalf of all of my colleagues—and there may be others of my colleagues speaking tonight—in both parties because Mac has reached across both parties over the years, he has set an example for many of us in the area of civil rights, as Ben Hooks just alluded to. He has been a leader in many, many areas, but above all he has been our friend.

I know of no better Senator than Mac Mathias. I have known of no one who could be more convincing on the Senate floor than Mac Mathias. I know of no one who can make his point in less time on the Senate floor, and believe me that is appreciated. So I will say to this audience, many of you who have grown up with Mac, and support Mac, Republicans and Democrats and Independents, and maybe even one or two that stole into the wrong meeting. We're very pleased to be here, we're pleased to salute Mac and Ann from my state, from all of the states of America, Thank You.

JIM ROUSE. Thank you Bob Dole. And now a senator who is blessed with a special heritage, which we share as Eastern Shoremen, and for those of you from outside the state, you better ask, because it's very important in Maryland. He speaks for the Maryland Delegation in Congress, he's a good friend of Mac's and he's a leader of remarkable unity of Democrats and Republicans in the House and the Senate, Senator Paul Sarbanes.

Senator PAUL S. SARBANES. I know I speak for my colleagues in the Maryland Delegation, and indeed for my colleagues in the Senate and the House, when I say it has been a honor to work with Mac Mathias and to be his colleague and his friend. Mac is a leader of integrity and intellect, of courage and compassion, for whom we all have the deepest respect and admiration.

For more than 30 years in public service at the local, state and federal levels, Mac has been steadfast in his commitment to the vision of our Founding Fathers, to the principles of our Constitution, and to the well-being of all our people. His eloquent advocacy of humane values, his deep belief in the words inscribed above the Supreme Court, "equal justice under law", have elevated our national life and made a singular contribution to a just and decent society.

Mac's politics have been marked by a civility and grace which ennoble our national life and drive from the political scene the mean and the petty. Maryland and the nation have indeed been fortunate to have a man of Mac's quality in public office. Christine and I are delighted to join all of you in this salute to Mac and to Ann, whose strength of conviction and kindness we also deeply treasure. Thank you.

JIM ROUSE. Thank you, Paul. And now the daughter of a Republican nominee for president, first woman to be elected in her own right to the Senate, who sits with Mac on the Foreign Relations Committee, and lives by him very closely in the Russell Building as a neighbor in the Senate: Nancy Kassebaum.

The Honorable NANCY L. KASSEBAUM. Mac, now that you have chosen full-time farming instead of another term in the Senate, you have only confirmed what I have believed your qualities as colleague to have always been: wise and discriminating. You have debated the issues of the day with measured purpose and a twinkle in your eye, separating the wheat from the chaff. I have tended to believe this is because the measured purpose stems from a great love, respect and a keen appreciation for history and for the land. You will be sorely missed, by all of us, you and your old blue car, but your presence will be there always as a guide for future generations of lawmakers. With best wishes for you and Ann in your new challenges and adventures.

JIM ROUSE. Thank you, Senator Kassebaum. And now we're going to have a special intervention in the program tonight, not planned, but it has come upon some of us as being just right. Any of you who don't have wine in your glasses, and can find it at your tables, pour yourself a bit because we're going to have a toast. As a very special and honored guest tonight, there's a person who honors Mac very specially just by being here. He comes as a matter of national sacrifice, while his staff and family stay in the embassy of their country to celebrate an important national holiday with important national significance to them. The Ambassador from France comes to us tonight on Bastille Day to give a toast to whomever and however he chooses: Ambassador de Margerie.

AMBASSADOR EMMANUEL DE MARGERIE. This is indeed Bastille Day for us, tonight, as the band kindly remembered a moment ago. I really ought not be here at all. I ought to be celebrating in Washington with the French war veterans. But how could one not be here tonight, when the occasion is given to celebrate a great man, a man to whom so many ambassadors, and I among them in Washington, have turned to get wisdom and good advice. A man whom we have asked to unravel the complexities of a political situation which he tried to understand. A man whom we ask to show us what the ways of the world are in the official dome of the Capitol of the United States. A man who could judge events both from a lofty point of view and with a great good common sense. So this is why I am here tonight, this is why I am coming to pay my respects to someone who has caused us to admire even more your great institution, and this is why I am sure that the French veterans in Washington are forgiving me for not being with them because I am celebrating Mac Mathias, United States Senator. Mac, to your health! A toast.

JIM ROUSE. And a toast to you, Emmanuel de Margerie for being here with us tonight. For 20 years there has been a great statesman in the struggle to control militarism, the negotiator of SALT I, head of the national arms control and disarmament agency, and a close friend of Mac Mathias: Gerard C. Smith.

The Honorable GERARD C. SMITH. There are many notable public figures who pay lip service to the importance of bringing some control over nuclear weapons. But Mac Mathias is one of the few that I have known over the years who has tried to do something about it. He has introduced a resolution which has been passed by the Senate to stop all nuclear testing. A similar resolution has been passed by the House. We are facing a great dilemma in this country as to whether, and how far, we should go in trying to mount strategic defenses. I think Mac Mathias, without being against or in any way subjective about it, has generated an area, an arena of feeling of prudence about this, which I share, and so I would say for all of those in this country who would like to escape from the thralldom of nuclear weapons, we thank you very much, Mac. Keep it up.

JIM ROUSE. Thank you, sir. Formerly an executive director of the American Civil Liberties Union, a lawyer, and now vice-president of the Harvard Corporation: John Shattuck.

JOHN SHATTUCK. Trying to capture in a few moments what Mac Mathias has meant to the defense of civil liberties for the last three decades, is a little like trying to speed-read through a contemporary history of the Bill of Rights. I would hazard to guess that Mac Mathias knows the truth that H. L. Mencken told another Baltimore audience many years ago. He said, "The trouble about fighting for human freedom is that you have to spend much of your life defending the unpopular, for oppressive laws are always aimed at them first, and oppression must be stopped in the beginning if it is to be stopped at all." That's a very tough calling for a U.S. Senator. In defending freedom, Mac Mathias has been the kind of leader Edmund Burke aspired to be two centuries ago, the kind of leader Burke was talking about when he told his Bristol constituents in 1774, "Your representative owes you not his industry only, but his independent judgment, for he betrays, instead of serving you, if he sacrifices his judgment to your opinion."

There are countless examples of what Mac Mathias has done for civil liberties. Let me cite just one because it encompasses them all. For three years, from 1981 to 1983 he was at the forefront of the defense of federal courts against efforts in the Congress to strip off their jurisdiction over certain unpopular constitutional issues. He summed up what was at stake at the beginning of that great debate which occupied the greater part of two years in the Congress when he asked the Senate on June 18, 1981, if we were to deprive the federal courts of jurisdiction over one constitutional issue, would it not then be possible to vitiate the entire Bill of Rights on which our country was founded. Later that month, Mac Mathias thanked another Senator for joining him in the debate. And what he said captured the kind of man he is far better than anything further I could say about him.

Let me tell you what Mac Mathias had to say about a fellow senator on July 8, 1981: "Mr. President, I have taken great heart in the Senator's statement. I take great confidence from the fact that he stands shoulder-to-shoulder with me. That is not a question of physical size. We are dealing here with a matter of principle, a matter of philosophy, a matter of very basic national policy and the stature of people that engage in this battle will not be measured by feet and inches but by the breath of their concepts. That does not exclude people on either side of this debate, because there will be room, not only room but also demand for very clear understanding of the constitutional principles. It is in that realm of dimension that I know senators will be engaging in this battle."

Senator Mathias, it is in that realm of dimension that you are without peer. Thank you.

JIM ROUSE. Thank you, sir. The next speaker was to be a distinguished man, the president of one of our fine liberal arts colleges on the Eastern Shore of Maryland, the President of Washington College, Douglass Cater, but he injured his leg and could not be here. But we have a wonderful substitute. We have Mac's son, Charles Mathias, who has been a distinguished student at Harvard and at University of Virginia Law

School, a marvelous young man, Charles Mathias.

DOUGLASS CATER (read by CHARLES MATHIAS). Thank you very much, it is very difficult to stand in Douglass Cater's shoes this evening and it's quite frankly sort of a surprise. But, I think when you hear the citation that he prepared for this evening, I think that you will agree that I am very lucky that he wrote a very, very eloquent script for me to follow.

He has written: "To step down from high elective office while still in the prime whether measured by age or public esteem takes a special resolve. Those who have watched and admired the career of Charles McCurdy Mathias, Jr. hold no fear that he will soon disappear from public life. His capacities are not confined by loyalty to the state he represents or the party with which he is affiliated. He is the quintessential independent—reflective, sagacious, almost serene. Maryland has never been served by a finer senator. Washington College has already bestowed its highest academic award on Senator Mathias in recognition of his many contributions to this state. Now as he takes on the mantle of a young elder statesman, we award him this special citation, adding a gold trim to his maroon and black doctoral hood for achievements yet to be recorded in the dedicated service of mankind."

JIM ROUSE. And now, a man of the Chesapeake Bay, fishing, crabbing, oystering, since 1973, president of the Maryland Watermen's Association, a worker with Mac to renew the nation's greatest estuary: Larry Simms.

LARRY SIMMS. I am very proud to be here tonight for such a special occasion, honoring such a great man. I can tell you for one that he is a great man and I will explain that. He not only represents the big people in the big metropolitan area where he gets his most votes, but he represents small areas like the county I come from which is the smallest county in the state, which is Kent County. I also represent a small segment of the population in the state of Maryland. But that hasn't made any difference to the Senator, because he listens to me just likes he listens to the Governor, or the Mayor of Baltimore.

I want to tell you a little story about a man that does something that is not popular in his time and how great that has turned out. Back in the early seventies when we first formed the Maryland Watermen's Association, we were faced with knowing what was happening to the Bay and no one else knowing it because we saw it everyday. And we would go to the bureaucrats and the scientists and the biologists and say, "look, this here treatment plant is harming our reproduction of a certain species, maybe striped bass." And they would say, "Well, that is fine that you would say that, but where is your proof? Where is your evidence that this is so? We think that you are overharvesting it and we should cut back on your production." Well, it was very frustrating to say the least. So we talked to many politicians and many bureaucrats with the same answer: that we did not have scientific evidence to prove our case. So one day when Senator Mathias was forming a boat trip around the Bay, which I helped him get together, (in fact he has been on my boat many times seeing how we harvested different species) he asked me what were the problems that we saw as watermen that needed correcting. I explained to him that we were having problems convincing the people that the bay was declining. Even though we were catching plenty at the time, we saw a trend that was beginning to happen that wasn't going to be good for us. He asked me what the problems were, and I told him what we were running up against. We couldn't prove it scientifically.

So, after talking to so many people, I said that it was nice to talk to him and it was nice that he listened to me, but that is probably as far as it is going to go. The next thing I heard, he had called my office a couple of times and got some more information and then I heard about a bill that he introduced for a $27 million study, to study the Chesapeake Bay and the problems. Now that was not a popular thing to do in those days. There were a lot of big businesses that did not want to see that happen. Lots of people did not think anything was wrong. They thought it was a waste of money. But he started that ball rolling, and it was like a snowball; he started with a little ball and he had to roll uphill and let it roll downhill and he picked up a few people along the way. But he never stopped, he kept right on driving that snowball trying to make it bigger. He got the public involved and all the politicians involved and now we are on the way to saving the Bay.

We know what the problems are and we know what needs to be corrected, and I will tell you that he is still in there fighting and I think that that shows what kind of man he is, and makes him a great man in my book. My people that I represent, the watermen of the Chesapeake Bay, are direct benefactors of that move, but every person in the state of Maryland and as far as that goes, any person in the United States benefits by saving the Chesapeake Bay because you have sampled some of the fine seafood here tonight and everybody in the country knows the Chesapeake Bay for its seafood and I think that we have Senator Mac Mathias to thank for starting that ball rolling and for that I say on behalf of myself, and the watermen that I represent, the people that use that Chesapeake Bay, and the Chesapeake Bay itself: Thank you, thank you, thank you.

JIM ROUSE. Thank you, Larry Simns. The Regional Vice President of America's Federation of Government Employees, a worker with Mac for the rights of government workers: John Gage.

JOHN GAGE. Senator Mathias was never one to follow the crowd down in Washington, neither crowd down there. When it was popular to bash federal workers, Mac always saw federal workers as real people, like those who get the Social Security checks out on time and not as faceless bureaucrats. I remember when the Panama Canal business was before the Senate, there was Senator Mathias who stood up and made sure that the workers down in Panama maintained their collective bargaining rights. Or a little later when some outlandish RIF regulations were proposed, it was Senator Mathias who took to the floor of the Senate and very eloquently blocked them. Even more recently, when a certain confirmation came before his committee, Mac did not even have to make up his mind, he simply sat there and made sure that all the facts came out and that seemed to be enough. I don't think there will ever be another one like him, a true man of style as well as substance. Best wishes to you Senator, we will miss you greatly.

JIM ROUSE. Thank you, John Gage. One of Mac's distinguished constituents, and woman of the year in Baltimore County in 1986: Lillian Lee Kim.

Ms. LILLIAN LEE KIM. Whenever I have communicated with Senator Mathias concerning immigration, social security and other matters for members of the Chinese community, he and his aides have endeared themselves to us. His staff, reflecting his interest in the concerns and problems of those who have turned to him for advice and assistance are prompt and courteous in replying. The senator's follow-through has always shown a personal touch, genuine interest with direct appeal to the proper source for the information requested, reporting back to us as soon as possible. We have always been deeply impressed with his thoroughness, kindness and understanding. We shall miss Senator Mathias when he leaves the Senate and retires from political life. He takes with him our deep gratitude for outstanding service through his constituents and to our country. We're happy he will still be sharing his wisdom and knowledge with future leaders in his academic endeavors at Johns Hopkins University. Thank you, Senator Mathias and best for the future.

JIM ROUSE. Thank you, Ms. Kim. A great man in the Senate with 18 years of service, a close friend of Mac's—Mac nominated him for majority leader of the Senate, where he served for four years before his retirement from the Senate two years ago—Senator Howard Baker.

Senator HOWARD BAKER. Ladies and gentlemen, it may be that my principle function tonight is to prove to my friend Mac Mathias that there is indeed life after the Senate. Mac, there is, and I must tell you however, in all candor, that, notwithstanding your many years of public service and your distinguished service in the Congress of the United States, that political fame is fleeting, and I can prove that by telling you what happened to me the other day. I had just been out of the Senate, I thought, a very brief time, when I was walking through the National Airport in Washington and a man came over and says, "I know you, now don't tell me your name I'll think of it." I said, "It's Howard Baker," and he said, "No, that's not it."

Well, my friends, it is a special pleasure for me to be here tonight and to pay tribute to one of the great men of the Congress, and Congress has had many. Congress is indeed the people's branch, it has been the home, and it has been the central place that the people of this nation express the full dimension of their sovereignty. The Congress has been very special in another way, in that it takes very seriously, and very literally, the Constitution and judicial admonition, that it is a separate and equal branch. Mac Mathias, I think, more than most, and perhaps more than any that I have known, personifies that independence and separateness: his understanding of the speciality of his constitutional role in the Senate, his ability to joust with presidents, to agree with his colleagues and to disagree on great issues, and to express the very unique and special power of the Congress of the United States.

Tonight is Mac Mathias' night, and I simply want to join his many other friends, his admirers in this room in congratulating Mac as he completes a tenure in the Senate that I think has been characterized by integrity, by civility, decency, by intelligence and courage, and most, my friends, by surpassing devotion to the people of Maryland and the best interest of our country. And this state and this nation are richer, fairer and better in every way because of his tal-

ented and thoughtful service. And with all of you I am glad to call Mac Mathias my friend and to wish him well.

JIM ROUSE. Thank you, Senator Baker. We are especially honored tonight by the presence of the Dean of Washington's Diplomatic Corps, the Ambassador from Sweden: Wilhelm Wachtmeister.

Ambassador WILHELM WACHTMEISTER. To speak for one minute about Senator Mac-Mathias' importance for international cooperation would not be fair either to him nor to the historical record. I have chosen to solve this problem by quoting from somebody who would know what qualities are necessary for a diplomat. The quotation is from a French gentleman called de Callieres, who was a senior diplomat to the court of Louis XIV. I think that's very proper to quote him on this day, the 14th of July.

This is what de Callieres says about the qualities of a diplomat, and you can draw your own conclusions to what extent they apply to Mac: "A diplomat must have an observant mind, a gifted application which rejects being diverted by pleasures or frivolous amusements. He must have a sound judgement, which takes the measure of things as they are. He must have a gift of penetration, such as will enable him to discern the thoughts of men and to deduce from the least movement of features which passions are stirring within. A diplomat must be quick, resourceful, a good listener, courteous and agreeable. He should not seek to gain a reputation as a wit. Above all he must possess enough self-control to resist the longing to speak before he has thought out what he intends to say. He should pay attention to women but never lose his heart. He must have courage, he must have a calm nature, he must be able to suffer fools gladly and should not be given to drink, gambling, women and any other wayward humors or fancies. He should study history and memoirs, be acquainted with foreign institutions and habits and be able to tell where in any foreign countries real sovereignty lies. He should also have knowledge of literature, science, mathematics and law."

This is a tall order, but it is not enough. He should also, de Callieres says, "have good knowledge of the German, Italian and Spanish languages as well as, of course, the Latin." Now I must confess that I have never spoken with Mac in either German, Italian or Spanish, let alone Latin so I cannot vouch for his proficiencies in these languages. But that is not the point. I think it is irrelevant which language Mac Mathias speaks, because what he says makes sense. On behalf of the international community as expressed by the Diplomatic Corps in Washington, I would like to express our very best wishes for Mac Mathias and wish him all the best for the future. We salute a great good friend and a great American. Thank you.

JIM ROUSE. Thank you, Ambassador. There's a great man here who knows Mac as president of the North Atlantic Assembly (an arm of NATO), a great friend of our country and of Mac, the Ambassador of Great Britain: Sir Oliver Wright.

Sir OLIVER WRIGHT. Mr. Chairman, Admiral Mathias, as a guest from overseas nothing better could have fallen upon my ears this evening than to hear your fellow Americans sing your praises. But as a NATO Ambassador, may I grab him back from you and remind you that Mac is held in equal affection on our side of the Atlantic. His fellow NATO parliamentarians have elected him President of the North Atlantic Assembly. He is to become Chairman of the American Council on Germany. He is co-chairman of the Chicago-based Atlantic Conference, he is on the steering committee of the Bilderburg Conference where he regularly argues the task with my Prime Minister Margaret Thatcher. How is it that this splendid American should be so much in demand on both sides of the Atlantic? In part, it is because he has taken upon himself the task as necessary as it is unremitting, of interpreting America to Europe and Europe to America.

In part, it is because when differences arise between us as they do, people instinctively turn to him to reconcile them because when passions run high as they often do, his is the voice of reason and good sense to which reasonable and sensible men and women listen. More important to my mind is that he embodies in his own person the advice that Shakespeare and Hamlet gave to all of us: "This above all, to thine own self be true, and it must follow as the night the day, thou canst not then be false to any man." For Mac indeed it true to himself and therefore true to his friends. Mac is one who makes of the Atlantic an ocean that does not divide us, but binds us. My prayer is that Admiral Mathias will continue to serve the Alliance and continue to narrow the ocean between.

JIM ROUSE. Thank you, Ambassador Wright. A brilliant, resourceful man, who Mac says carries international banking into high political values, the managing director of the International Monetary Fund, Jacques de Larosiere.

JACQUES DE LAROSIERE. Dear Senator Mathias, it is a privilege and a pleasure to pay tribute tonight to you on this occasion. I have deeply admired your wisdom, your leadership, your openness to international issues and problems, your concerns for the plight of the Third World. Your commitment to a world of free trade, to a world of development, a world of international cooperation has been relentless. As the head of the International Monetary Fund, I am particularly indebted to you for your untiring support for the Bretton Woods institutions.

The international financial system is experiencing very difficult and troubled times, times of threat for the well-being for all countries, even those which might believe that they are not involved in the problems. If we want to avoid the type of developments and break-downs of the twenties, we need international copperation, we need financial stability, we need strong financial international institutions. Senator Mathias has understood these problems, but not only has he understood them—and they are complex—but he has helped and he is one of the members of the Senate who has taken time to ask me to visit him to explain some of these problems. When the time came for voting and to support the fund quotas and the World Bank capital increases, the unpopular things which consist in supporting these institutions, he did them. For all this, I want to thank Senator Mathias, we will miss you greatly.

JIM ROUSE. Thank you, sir. And now, making the closing speech in this parade of honors and respect and affection for Mac Mathias is one of the great men of our country. He is former Ambassador to Soviet Russia, former Chairman of IBM, a force for a rational relationship with Russia, and against the rising tide of militarism. He has the special distinction of having given the commencement address when Mac's son Charles graduated from Harvard, when his son Rob graduated from the University of Vermont, and tonight he also speaks when the Senator graduates himself from the Senate: Thomas J. Watson.

The Honorable THOMAS J. WATSON. Senator Mac, fellow maniac Ann, I really learned something in this audience tonight. I went to college in Rhode Island, and listening to people talk at meetings like this in Rhode Island for the last fifty years, I thought Rhode Island was the largest state in the Union. Not so. Listening to all of you talk about Mac from the vast reaches of Maryland, I now know that Maryland is the largest state in the Union and I congratulate you.

How to speak for one minute about a great man and my favorite senator? Very, very difficult and I shall be only a minute. Mac radiates a sterling character, Mac understands a great many things, Mac does his homework. He understood a long time ago a great deal about the nature of thermal nuclear weapons, as Gerry Smith mentioned earlier. He understands the terminal quality of those weapons; he understands the great difficulty of getting along with the difficult Russian people; and further he understands the complete necessity of coping with both of those great problems of our country. I am sorry, as all of you are, to see Mac leave the Senate of the United States, but I am completely confident that what he does from this point on will equal or far outdistance his record in the United States Senate. Thank you very much.

JIM ROUSE. Thank you, Ambassador Watson. And now, have you ever known a man so richly widely, earnestly honored by so many diverse people as Mac Mathias has been tonight? We come so close to people sometimes that we don't see their greatness. And this easily in the state where we have a senator who we've known so well and so long. But I think the hope of all of us tonight is that this presentation of so many people unrehearsed, undirected, spontaneous, helps us to know this great, great man who has served us in public office for 34 years, for 18 years in the Senate, and how richly he has earned the right to be honored by us.

In such events as this there had to be a team, an expanding team, of people who led the way. If there was a single person who led this it was our strong client, powerful citizen leader of Baltimore, Robert Levi. He first hoisted the flag for the others of us to follow. Anne Boucher was retained as coordinator and staff leader, and what a marvelous job she's done! And Furlong Baldwin pitched in and gave his strength and leadership as dinner chairman, and he will present this evening's gift from all of us to the Johns Hopkins School of Advanced International Studies. Steve Muller, President of Johns Hopkins, will accept the gift.

H. FURLONG BALDWIN. I echo what we have heard continuously over and over again this evening, that I, too, am proud to be numbered amongst those who say, "Senator Mac Mathias, my friend, it is a very great privilege for me." Also, what I am about to say, I must give you the premise that I am unabashed, unashamedly prejudiced. Maryland has been honored by Mac Mathias, the United States has been honored by Mac Mathias, and the free world has been honored by Mac Mathias. When this evening was planned, Ann and Mac suggested that the beneficiary of what we are doing here this evening should be the Johns Hopkins University School of Advanced International

Studies, and that is only fitting because Johns Hopkins does honor to Maryland and to the United States and to the free world. It is truly an honorable alliance, and so, Steve, I ask you to accept this check, which is the initial contribution to the Charles McC. Mathias Fund at the Johns Hopkins University School of Advanced International Studies.

Dr. STEVEN J. MULLER. Thank you so very much. The Johns Hopkins University is deeply honored by the extraordinary privilege of the Charles McC. Mathias Fund, a permanent endowment that will always bear Mac's name. I pledge to you that we will strive always to be worthy of that name, of that unrivaled record of public service, and devotion to the common good to Maryland and the United States, and in this strife-torn world. The Mathias fund will inspire and support the teaching and research at the School of Advanced International Studies in the cause of better relations among the peoples of our globe and of the peaceful resolution of international disputes. We honor not only a true statesman, but also a true gentleman who embodies the very essense of human decency and human integrity. We will miss him sorely in the Senate of the United States. I must confess, however, that I do look foward to the day next January when I can address Mac as "Professor Mathias" and when our students and faculty will have the blessing of his wisdom and vision in his new part-time role as the first Milton S. Eisenhower Distinguished Professor of Public Policy. Thank you, Mac and Ann. God bless you for what you have given to all of us. Thank you all, ladies and gentlemen.

JIM ROUSE. And now we introduce to you the great and wonderful lady who has worked tirelessly with Mac in his many campaigns and who supplies a steady flow of wisdom to his work, Ann Mathias, who can bring along her husband, senior Senator from Maryland, Mac Mathias: Ann and Mac.

CHARLES MCC. MATHIAS, Jr. Gratitude is supposed to be the most difficult emotion to express, but I want you all to know that I have no difficulty whatsoever in doing so. Of course, a special thanks go to Jim Rouse and to Bob Levi, for suggesting this gathering and for making it happen. Ann Boucher and Bill Boucher and Furlong Baldwin have given it direction. Steve Muller has given purpose as he helped develop the concept of the fund, and as he has accepted the administration of it.

It's certainly an understatement to say that I have appreciated all of the gracious things that have been said. If some of them have seem to be overly generous, just consider how much pleasure they gave. But whatever may have been said this evening, the truth is that I am what I am because of the people with whom I have been lucky enough to live, and the world that it has been my privilege to inhabit. There has been my family, and the community where I was born, where I spent my boyhood. There has been Ann, who has been so many things in my life and without whom, as I think most of you know, I would not be standing here at this moment.

A little later, there were Charlie and Rob, and it may be paradoxical, but they have taught me so much through the years by sharing with me their special perspective on life. I have had a loyal staff, that has helped me look better than I am. And I have loyal friends who have given me more strength than I could ever have mustered by myself. And the people of Maryland have given me such a degree of understanding and patience and support, that they granted Ann and me this unique experience of the last quarter century.

But beyond these personal debts, I am proud to claim to be the product of a remarkable society, and a great culture, and of an extraordinary political process. During my years in the Congress, three historic events tested the foundations of the Republic: the Civil Rights movement, the Vietnam War, and Watergate. Cumulatively and individually, they might have destroyed our society, but they did not. We came through that time of challenge, not destroyed, but actually strengthened as a Nation and as a people. And we came through strong, not because of any single person or any group of people, but because of the rational principles of government laid down for us two hundreds years ago by those exceptional men who wrote the Constitution. So, finally tonight, I am thankful for the opportunity to support and defend that Constitution. And I thank all of you from the bottom of my heart for making it possible. Thank You.

ANN MATHIAS. I stand behind this microphone wondering if there is anything more to say. Ladies and gentlemen, I thank you for being here, I thank you from the bottom of my heart for making this rather extraordinary evening possible. From the "clustered spires of Frederick," to this very moment we have traveled a long varied route together. You and Mac and I, and of course our boys—Charlie who is here, Rob who sends his love from Saudi Arabia, where he is helping to establish the emergency medical system for the Kingdom. Twenty-eight consecutive years is a telling period of time, just shy of a generation and as I have relived with you tonight Mac's political career, I want you to know that for the opportunity you have also given to me, I am grateful, I am wiser and I am richer. Thank you very, very much.

JIM ROUSE. The evening will close with a benediction by Rabbi Murray Saltzman.

RABBI MURRAY SALTZMAN. In appreciation and in gratitude and in honor, we invoke divine blessing upon Senator Mathias, his beloved wife and his children. May the Lord bless you and keep you. May the Lord cause the light of His countenance to shine upon you, and be gracious unto you. May the lord lift up His presence to you and bless you with peace. Amen.

## MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Saunders, one of his secretaries.

## EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United States submitting a nomination which was referred to the Committee on the Judiciary.

(The nominations received today are printed at the end of the Senate proceedings.)

## MESSAGES FROM THE HOUSE

At 1:50 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House has passed the following bills and joint resolution, in which it requests the concurrence of the Senate:

H.R. 3042. An act to authorize the Secretary of Education to make grants to local educational agencies for dropout prevention and reentry demonstration projects;

H.R. 3263. An act to establish a Federal program to strengthen and improve the capability of State and local educational agencies and private nonprofit schools to identify gifted and talented children and youth and to provide those children and youth with appropriate educational opportunities, and for other purposes;

H.R. 5081. An act to promote democracy in the Philipines and Haiti, and for other purposes; and

H.J. Res. 686. Joint resolution to designate August 12, 1986 as "National Civil Rights Day."

At 2:55 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has agreed to the amendments of the Senate to the bill (H.R. 3622) to amend title 10, United States Code, to strengthen the position of Chairman of the Joint Chief of Staff, to provide for more efficient and effective operation of the Armed Forces, and for other purposes, with amendments; it insists upon its amendment, asks a conference with the Senate on the disagreeing votes of the two Houses thereon, and appoints Mr. ASPIN, Mr. NICHOLS, Mr. SKELTON, Mr. MAVROULES, Mr. DICKINSON, Mr. HOPKINS, and Mr. KASICH as managers of the conference on the part of the House.

## MEASURES REFERRED

The following bills and joint resolution were read the first and second times by unanimous consent, and referred as indicated:

H.R. 3263. An act to establish a Federal program to strengthen and improve the capability of State and local educational agencies and private nonprofit schools to identify gifted and talented children and youth and to provide those children and youth with appropriate educational opportunities, and for other purposes; to the Committee on Labor and Human Resources.

H.R. 5081. An act to promote democracy in the Philipines and Haiti, and for other purposes; to the Committee on Foreign Relations.

H.J. Res. 686. Joint resolution to designate August 12, 1986 as "National Civil Rights Day"; to the Committee on the Judiciary.

## MEASURE PLACED ON THE CALENDAR

The following bill was read the second time and placed on the calendar:

H.R. 5288. An act to provide emergency assistance to farmers and ranchers adversely affected by natural disasters in 1986.

## MEASURE READ THE FIRST TIME

The following bill was read the first time.

H.R. 3042. An act to authorize the Secretary of Education to make grants to local educational agencies for dropout prevention and reentry demonstration projects.

## REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. HATCH, from the Committee on Labor and Human Resources, with amendments:

S. 2536. A bill to provide for block grants to States to pay for the costs of immunosuppressive drugs for organ transplant patients (with additional views) (Rept. No. 99-389).

By Mr. ROTH, from the Committee on Governmental Affairs, with an amendment and an amendment to the title:

S. 1657. A bill to extend and revise the authority of the President under chapter 9 of title 5, United States Code, to transmit to the Congress plans for the reorganization of the agencies of the executive branch of the Government.

By Mr. THURMOND, from the Committee on the Judiciary, with an amendment in the nature of a substitute:

S. 2334. A bill to amend section 207 of title 18, United States Code, to prohibit Members of Congress and officers and employees of any branch of the United States Government from attempting to influence the United States Government or from representing or advising a foreign entity for a proscribed period after such officer or employee leaves Government service, and for other purposes.

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. INOUYE (for himself, Mr. MCCLURE, Mr. JOHNSTON, and Mr. WEICKER):

S. 2735. A bill to implement the recommendations of the Commission on the Commonwealth of the Northern Mariana Islands; to the Committee on Energy and Natural Resources.

By Mr. KERRY (for himself and Mr. KENNEDY):

S. 2736. A bill to waive the congressional review period required by section 28(w)(2) of the Mineral Leasing Act of 1920, as amended, for the creation of an easement for private construction on certain Federal lands in Massachusetts; to the Committee on Energy and Natural Resources.

By Mr. ABDNOR:

S. 2737. A bill to amend the Commodity Exchange Act to remove the application of such Act to the trading of cattle; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. LUGAR (for himself, Mr. GLENN, Mr. BOSCHWITZ, Mr. SARBANES, Mr. BURDICK, Mr. WEICKER, Mr. DANFORTH, Mr. QUAYLE, Mr. DODD, Mr. ABDNOR, Mr. PRESSLER, Mrs. HAWKINS, Mr. HOLLINGS, Mr. LEAHY, Mr. KERRY, Mr. DENTON, Mr. NUNN, Mr. LEVIN, Mr. ZORINSKY, Mr. DIXON, Mr. CHAFEE, Mr. WARNER, Mr. BRADLEY, Mr. D'AMATO, Mr. HART, Mr. KASTEN, Mr. MOYNIHAN, Mr. MATTINGLY, Mr. CHILES, Mr. GARN, and Mr. DECONCINI):

S.J. Res. 391. A joint resolution to designate August 12, 1986, as "National Civil Rights Day"; to the Committee on the Judiciary.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. ROTH;

S. Res. 464. A resolution to designate October 1986 as "Crack/Cocaine Awareness Month"; to the Committee on the Judiciary.

By Mr. DOLE (for himself, Mr. PACKWOOD, Mr. LUGAR, Mr. HELMS, Mr. SIMPSON, Mr. GORTON, Mr. EVANS, Mr. HEINZ, Mr. D'AMATO, Mr. ROTH, Mr. MURKOWSKI, Mr. CHAFEE, Mr. MATSUNAGA, Mr. BENTSEN, Mr. LAUTENBERG, Mr. ZORINSKY, Mr. NUNN, Mr. BRADLEY, Mr. MOYNIHAN, Mr. HARKIN, Mr. PRYOR, Mr. DIXON, Mr. WARNER, Mr. GRASSLEY, Mr. ABDNOR, and Mr. LEAHY):

S. Res. 465. A resolution relating to the tariff on chocolate; considered and agreed to.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. INOUYE (for himself, Mr. MCCLURE, Mr. JOHNSTON, and Mr. WEICKER):

S. 2735. A bill to implement the recommendations of the Commission on the Commonwealth of the Northern Mariana Islands; to the Committee on Energy and Natural Resources.

### NORTHERN MARIANA ISLANDS FEDERAL RELATIONS ACT

● Mr. INOUYE. Mr. President, the relationship between the State of Hawaii and our Pacific territories and commonwealth continues to become significantly important to these governments and people. Because of Hawaii's close proximity to the islands, the unique similarities of Pacific Island cultures, and Hawaii's experiences as a former territory, coupled with existing cooperation in such organizations as the Pacific Basin Development Council—these Pacific Islands governments tend to look to Hawaii as a "big brother" for economic and political cooperation and assistance.

The territories, while having nonvoting representation in the other body of Congress, have no representation in this body and, the Commonwealth of the Northern Mariana Islands, America's newest territory, at the present time is not represented in the Congress of the United States. I am therefore, privileged and very pleased to today propose legislation for the Northern Mariana Islands.

The covenant to establish a commonwealth of the Northern Mariana Islands in political union with the United States of America, U.S. Public Law 94-241, established a Northern Mariana Islands Commission on Federal Laws which is instructed "to survey the laws of the United States and to make recommendations to the U.S. Congress as to which laws of the United States not applicable to the Northern Mariana Islands should be made applicable and to what extent and in what manner, and which applicable laws should be made inapplicable and to what extent and in what manner. The Commission, in its second interim report to Congress, issued recommendations for 44 changes to U.S Law.

Mr. President, I am pleased to be joined by Senators MCCLURE, JOHNSTON, and WEICKER to introduce legislation to enact these recommendations. I hope my colleagues will join us in supporting this much-needed legislation, and I ask unanimous consent that the legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2735

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SHORT TITLE AND TABLE OF CONTENTS

SECTION 1. (a) This Act may be cited as the "Commonwealth of the Northern Mariana Islands Federal Relations Act".

(b) The table of contents of this Act is as follows:

TABLE OF CONTENTS

Sec. 1. Short title and table of contents.
Sec. 2. Nonvoting delegate to Congress.
Sec. 3. Land-grant colleges.
Sec. 4. Immigration and naturalization.
Sec. 5. Appointments to serve academies by the Resident Representative to the United States from the Commonwealth of the Northern Mariana islands.
Sec. 6. Banking laws.
Sec. 7. Surveillance of ocean areas.
Sec. 8. Investment companies.
Sec. 9. Act of August 8, 1956, extended to the Commonwealth of the Northern Mariana Islands.
Sec. 10. Fishery trade officers.
Sec. 11. Restrictions on garnishment.
Sec. 12. Fair Credit Reporting Act.
Sec. 13. Electronic Fund Transfer Act.
Sec. 14. Petroleum Marketing Practice Act.
Sec. 15. Fishery conservation and management.
Sec. 16. Tuna fisheries.
Sec. 17. Federal crimes.
Sec. 18. Consolidated grant for higher education.
Sec. 19. Special temporary passports.
Sec. 20. Commonwealth of the Northern Mariana Island financial institutions as Federal depositaries.
Sec. 21. Issuance of substitute checks.
Sec. 22. Federal employee allotments to Commonwealth of the Northern Mariana Islands financial organizations.

Sec. 23. Public participation in block grant proposals.
Sec. 24. Rivers and harbors.
Sec. 25. Judicial venue under the Federal Water Pollution Control Act.
Sec. 26. Ocean dumping judicial venue.
Sec. 27. Judicial venue under the Ocean Thermal Energy Conservation Act.
Sec. 28. Nonprofit lottery mailings.
Sec. 29. Authority to waive medicaid requirements for the Commonwealth of the Northern Mariana Islands.
Sec. 30. Submerged lands.
Sec. 31. Government depository libraries.
Sec. 32. Enforcement of Federal laws in the Commonwealth of the Northern Mariana Islands.

NONVOTING DELEGATE TO CONGRESS

SEC. 2. (a) The Commonwealth of the Northern Mariana Islands shall be represented in the United States Congress by the Resident Representative to the United States authorized by section 901 of the Convenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (approved by Public Law 94-241, 90 Stat. 263). The Resident Representative shall be a nonvoting Delegate to the House of Representatives, elected as provided in this section.

(b)(1) The Resident Representative shall be elected by the people qualified to vote for the popularly elected officials of the Commonwealth of the Northern Mariana Islands at the regular general election, on the day and month set by section 1 of Article VIII of the Constitution of the Northern Mariana Islands, in the first odd-numbered year subsequent to enactment of this Act and thereafter at such general election every second year thereafter.

(2) The Resident Representative shall be elected at large, by separate ballot, and by a majority of the votes cast for the office of Resident Representative. If no candidate receives such majority, on the fourteenth day following such election a runoff election shall be held between the candidates receiving the highest and the second highest number of votes cast for the office of Resident Representative. In case of a permanent vacancy in the office of Resident Representative by reason of death, resignation, or permanent disability, the office of Resident Representative shall remain vacant until a successor shall have been elected and qualified.

(3) The term of the Resident Representative shall commence on the second Monday of January following the date of the election.

(c) To be eligible for the office of Resident Representative, a candidate shall—

(1) be at least twenty-five years of age on the date of the election;

(2) be a citizen of the United States: *Provided, however,* That prior to termination of the Trusteeship Agreement for the former Japanese Mandated Islands, 61 Stat. 3301, the candidate shall be a person defined as a United States citizen or United States national in section 8 of the Schedule on Transitional Matters of the Constitution of the Northern Mariana Islands, as approved by Presidential Proclamation 4534 of October 24, 1977;

(3) have been a resident and domiciliary of the Northern Mariana Islands for at least seven years prior to the date of taking office; and

(4) not be, on the date of the election, a candidate for any other office.

(d) Acting pursuant to legislation enacted in accordance with the Constitution of the Northern Mariana Islands, the Government of the Northern Mariana Islands shall determine the order of names on the ballot for election of Resident Representative, the method by which a special election to fill a vacancy in the office of Resident Representative shall be conducted, the method by which ties between candidates for the office of Resident Representative shall be resolved, and all other matters of local application pertaining to the election and the office of Resident Representative not otherwise expressly provided for in this section.

(e) Until the Rules of the House of Representatives are amended to provide otherwise, the Resident Representatives for the Northern Mariana Islands shall receive the same compensation, allowance, and benefits as a Member of the House of Representative, and shall be entitled to whatever privileges and immunities that are granted to the nonvoting Delegate from the Territory of Guam.

LAND-GRANT COLLEGES

SEC. 3. Subsections (a) and (b) of section 506 of the Education Amendments of 1972 are amended to read as follows:

"(a) The College of the Virgin Islands, the Community College of American Samoa, the College of Micronesia, the University of Guam, and an institution in the Commonwealth of the Northern Mariana Islands designated by the legislature of the Commonwealth of the Northern Mariana Islands shall be considered land-grant colleges established for the benefit of agriculture and mechanic arts in accordance with the provision of the Act of July 2, 1862, as amended (7 U.S.C. 301-305, 307-308).

"(b) In lieu of extending to the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands those provisions of the Act of July 2, 1862, as amended, relating to donations of public land or land scrip for the endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts, there is authorized to be appropriated $3,000,000 to the Virgin Islands, $3,000,000 to Guam, and $3,000,000 to the Commonwealth of the Northern Mariana Islands and an equal amount to American Samoa. Amounts appropriated pursuant to this section shall be held and considered to have been granted to the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands subject to the provisions of that Act applicable to the proceeds from the sale of land or land scrip.".

(b) Section 1361(c) of the Education Amendments of 1980 is amended to read as follows:

"(c) Any provision of any Act of Congress relating to the operation of or provision of assistance to a land-grant college in the Virgin Islands or Guam shall apply to land grant colleges in American Samoa, and the Commonwealth of the Northern Mariana Islands, in the same manner and to the same extent.".

(c) Section 5 of the Act of August 30, 1980 (7 U.S.C. 326a) (commonly known as the Second Morrill Act), is amended to read as follows:

SEC. 5. There is authorized to be appropriated annually for payment to the Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands the amount they would receive under this Act if they were States. Sums appropriated under this section shall be treated in the same manner and be subject to the same provisions of law, as would be the case if they had been appropriated by the first sentence of this Act.".

(d) Section 22 of the Act of June 29, 1935 (49 Stat. 439; 7 U.S.C. 329), is amended—

(1) by striking out "and Guam" wherever it appears and inserting in lieu thereof "Guam, and the Commonwealth of the Northern Mariana Islands";

(2) by striking out "$8,100,000" and inserting in lieu thereof "$8,250,000"; and

(3) by striking out "$4,360,000" and inserting in lieu thereof "$4,380,000".

(e)(1) The first sentence of section 3(b)(2) of the Act of May 8, 1914 (38 Stat. 372, chapter 79; 7 U.S.C. 343(b)(2)) (commonly known as the Smith-Lever Act) is amended by striking out "and Guam" and inserting in lieu thereof ", Guam, and the Commonwealth of the Northern Mariana Islands".

(2) Section 10 of such Act (7 U.S.C. 349) is amended by striking out "and Guam" and inserting in lieu thereof "Guam, and the Commonwealth of the Northern Mariana Islands".

(f) Notwithstanding any other provision of law, subparagraphs (C) and (E) of section 1404(4) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103(4)(C) and (E)) shall not apply to the Northern Marianas College located in the Commonwealth of the Northern Mariana Islands.

(g) The first sentence of section 3(b)(2) of the Act of March 2, 1887 (24 Stat. 441, chapter 314; 7 U.S.C. 361c(b)(2)) (commonly known as the Hatch Act of 1887) is amended by striking out "and Guam" and inserting in lieu thereof ", Guam, and the Commonwealth of the Northern Mariana Islands".

IMMIGRATION AND NATURALIZATION

SEC. 4. (a)(1)(A) Persons who, on the date of enactment of this Act, are immediate relatives of citizens of the Commonwealth of the Northern Mariana Islands shall be treated as though they were immediate relatives of citizens of the United States for purposes of the Immigration and Nationality Act.

(B) Any citizen of the Commonwealth of the Northern Mariana Islands claiming that an alien is entitled to status as an immediate relative may file a petition with the Attorney General for such classification in accordance with section 204 of the Immigration and Nationality Act.

(2) For purposes of this subsection—

(A) the term "citizens of the Commonwealth of the Northern Mariana Islands" means those persons defined as United States citizens or United States nationals in section 8 of the Schedule on Transitional Matters of the Constitution of the Northern Mariana Islands, as approved by Presidential Proclamation 4534 of October 24, 1977; and

(B) the term "immediate relatives" means the children, spouses, and parents of the citizen, except that, in the case of parents, such citizen shall be at least 21 years of age.

(3) This subsection shall terminate upon the establishment of the Commonwealth of the Northern Mariana Islands.

(b)(1) A person who elects to become a national of the United States rather than a citizen of the United States pursuant to section 302 of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (approved by Public Law 94-241; 90 Stat. 263) may thereafter be naturalized as a citizen of the United States upon compliance with applicable require-

ments of the Immigration and Nationality Act, except that residence and physical presence within the United States within the meaning of the Immigration and Nationality Act shall be deemed to include residence and physical presence within the Commonwealth of the Northern Mariana Islands.

(2) For purposes of the requirements of the judicial naturalization of persons eligible for naturalization under this subsection, the Commonwealth of the Northern Mariana Islands shall be deemed to constitute a State as defined in section 101(a)(36) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(36)).

(3) The courts of record of the Commonwealth of the Northern Mariana Islands and the United States District Court for the Northern Mariana Islands shall have jurisdiction to naturalize persons who become eligible for naturalization under this subsection and who reside within their respective jurisdictions.

APPOINTMENTS TO SERVICE ACADEMIES BY THE RESIDENT REPRESENTATIVE TO THE UNITED STATES FROM THE COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

SEC. 5. (a)(1) Section 4342 of title 10, United States Code, is amended—

(A) in subsection (a)—

(i) by inserting after clause (10) the following new clause:

"(11) One cadet from the Commonwealth of the Northern Mariana Islands, nominated by the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands."; and

(ii) in the last sentence, by inserting "and the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands" after "Puerto Rico,";

(B) in subsection (d)—

(i) by striking out "paragraph" in the second sentence and inserting in lieu thereof "subsection"; and

(ii) by striking out "or (10)" in the second sentence and inserting in lieu thereof "(10), or (11)"; and

(C) in subsection (f)—

(i) by striking out "and (10)" and inserting in lieu thereof ", (10), and (11)"; and

(ii) by striking out "or the Virgin Islands," and inserting in lieu thereof ", the Virgin Islands, or the Commonwealth of the Northern Mariana Islands,".

(2) Section 4343 of such title is amended by inserting "and (11)" in the second sentence after "clauses (2)–(9)".

(b)(1) Section 6954 of title 10, United States Code, is amended—

(A) in subsection (a)—

(i) by inserting after clause (10) the following new clause:

"(11) One from the Commonwealth of the Northern Mariana Islands, nominated by the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands."; and

(ii) in the last sentence, by inserting "and the Resident Representative to the United States for the Commonwealth of the Norther Mariana Islands" after "Puerto Rico,"; and

(B) in subsection (d)—

(i) by striking out "paragraph" in the second sentence and inserting in lieu thereof "subsection"; and

(ii) by striking out "or (10)" in the second sentence and inserting in lieu thereof "(10), or (11)".

(2) Section 6956 of such title is amended—

(A) in subsection (a)—

(i) by inserting "and the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands" after "Congress"; and

(ii) by striking out "or delegate" and inserting in lieu thereof ", delegate, or Resident Representative"; and

(B) in subsection (c), by inserting "and (11)" after "clause (2)–(9)" in the second sentence.

(3) Section 6958(b) of such title is amended—

(A) by striking out "and (10)" and inserting in lieu thereof "(10), and (11)"; and

(B) by striking out "or the Virgin Islands," and inserting in lieu thereof "the Virgin Islands, or the Commonwealth of the Northern Mariana Islands,".

(c)(1) Section 9342 of title 10, United States Code, is amended—

(A) in subsection (a)—

(i) by inserting after clause (10) the following new clause:

"(11) One cadet from the Commonwealth of the Northern Mariana Islands, nominated by the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands."; and

(ii) in the last sentence, by inserting "and the Resident Representative to the United States for the Commonwealth of the Northern Mariana Islands" after "Puerto Rico,";

(B) in subsection (d)—

(i) by striking out "paragraph" in the second sentence and inserting in lieu thereof "subsection"; and

(ii) by striking out "or (10)" in the second sentence and inserting in lieu thereof "(10), or (11); and

(C) in subsection (f)—

(i) by striking out "and (10)" and inserting in lieu thereof ", (10), and (11)"; and

(ii) by striking out "or the Virgin Islands," and inserting in lieu thereof "Virgin Islands, or the Commonwealth of the Northern Mariana Islands,".

(2) Section 9343 of title 10, United States Code, is amended by inserting "and (11)" in the second sentence after "clauses (2)–(9)".

BANKING LAWS

SEC. 6. (a) Subsection (a) of section 1 of the Act of August 17, 1950 (12 U.S.C. 214(a)) is amended by striking out "or the Virgin Islands" and inserting in lieu thereof "the Virgin Islands, or the Commonwealth of the Northern Mariana Islands".

(b) Paragraph (2) of section 3 of the Act of November 7, 1918 (12 U.S.C. 215b) is amended by inserting "the Commonwealth of the Northern Islands," after "the Virgin Islands,".

(c) Section 214 of the National Housing Act (12 U.S.C. 1715d) is amended by striking out "or Hawaii" each place it appears and inserting in lieu thereof ", the Commonwealth of the Northern Mariana Islands, or Hawaii".

(d) Subsection (b) of section 401 of the National Housing Act (12 U.S.C. 1724(b)) is amended by inserting "of the Commonwealth of the Northern Mariana Islands," after "of the Virgin Islands.

(e) The first sentence of section 5.0 of the Farm Credit Act of 1971 (12 U.S.C. 2221) is amended by inserting "and the Commonwealth of the Northern Mariana Islands" after "the Virgin Islands of the United States" each place it appears.

(f) The Commonwealth of the Northern Mariana Islands shall be considered a "State" for purposes of sections 601, 602, and 603 of Public Law 93-495 (12 U.S.C. 2501, 2502, and 2503).

(g) The fifth sentence of section 101 of the National Consumer Cooperative Bank Act (12 U.S.C. 3011), is amended by striking out "and in the Commonwealth of Puerto Rico" and inserting in lieu thereof "in the Commonwealth of Puerto Rico, and in the Commonwealth of the Northern Mariana Islands".

(h) Section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(b)(7)) is amended by striking out "or the Virgin Islands" and inserting in lieu thereof "the Virgin Islands, or the Commonwealth of the Northern Mariana Islands".

(i) Section 205(4) of the Depository Institutions Management Interlocks Act (12 U.S.C. 3204(4)) is amended by striking out "or the Virgin Islands" and inserting in lieu thereof "the Virgin Islands, or the Commonwealth of the Northern Mariana Islands".

(j) Section 1101(1) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3401(1)) is amended by striking out "or the Virgin Islands" and inserting in lieu thereof "the Virgin Islands, or the Commonwealth of the Northern Mariana Islands".

SURVEILLANCE OF OCEAN AREAS

SEC. 7. (a) The Congress finds and declares the following:

(1) The Commonwealth of the Northern Mariana Islands, on termination of the Trusteeship Agreement between the United States and the United Nations, will become a self-governing commonwealth in political union with and under the sovereignty of the United States, pursuant to section 101 of the Covenant to establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America approved by the joint resolution entitled "Joint Resolution to approve the 'Covenant to Establish a Commonwealth of Northern Marianas Islands in Political Union with the United States of America', and for other purposes", approved March 24, 1976 (48 U.S.C. 1681 note).

(2) The United States is obligated to protect the resources of the Commonwealth of the Northern Mariana Islands, including resources found within two hundred miles of the coastlines of the Northern Mariana Islands, against unlawful exploitation by nationals or residents of other nations.

(3) The United States, to fulfill its obligation to the people of the Commonwealth of the Northern Mariana Islands, should increase its surveillance of all ocean areas within two hundred miles of the coastlines of the Northern Mariana Islands. The United States should ensure that all applicable Federal laws, including such laws governing the exploitation of marine resources, are enforced within such areas.

(b) The Secretary of the Department in which the Coast Guard is operating may, by agreement, on a reimbursable basis or otherwise, utilize the personnel, services, equipment (including aircraft and vessels) and facilities of any other Federal agency, including the Department of Defense, and of the Government of the Commonwealth of the Northern Mariana Islands in patrolling waters within two hundred miles of the coastlines of the Northern Mariana Islands.

INVESTMENT COMPANIES

Sec. 8. Section 6(a)(1) of the Investment Company Act of 1940 (15 U.S.C. 80a-6(a)(1)) is amended by inserting "the Commonwealth of the Northern Mariana Islands," before "the Virgin Islands,".

ACT OF AUGUST 8, 1956, EXTENDED TO THE COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

Sec. 9. The first section of the Act of August 8, 1956 (15 U.S.C. 1221), is amended by adding at the end thereof the following:

"(f) The term 'Territory' shall be considered to include the Commonwealth of the Northern Mariana Islands.".

FISHERY TRADE OFFICERS

Sec. 10. The Commonwealth of the Northern Mariana Islands shall be considered as part of the United States for purposes of section 211 of the American Fisheries Promotion Act (15 U.S.C. 1511b), and section 3 of the Act entitled "An Act to establish the Department of Commerce and Labor", approved February 14, 1903, as amended (15 U.S.C. 1512).

RESTRICTIONS ON GARNISHMENT

Sec. 11. Section 302 of the Consumer Credit Protection Act (15 U.S.C. 1672) is amended by adding at the end thereof the following:

"(d) The term 'State' includes the Commonwealth of the Northern Mariana Islands. Employers, employees, and earnings within the Commonwealth of the Northern Mariana Islands are subject to the provisions of this title.".

FAIR CREDIT REPORTING ACT

Sec. 12. Section 603(b) of the Fair Credit Reporting Act (15 U.S.C. 1681a(b)) is amended by inserting before the final period the following: ", and includes persons in the Commonwealth of the Northern Mariana Islands".

ELECTRONIC FUND TRANSFER ACT

Sec. 13. Section 903(10) of the Electronic Fund Transfer Act (15 U.S.C. 1693a(10)) is amended by inserting "the Northern Mariana Islands," after "the Commonwealth of Puero Rico,".

PETROLEUM MARKETING PRACTICES ACT

Sec. 14. Paragraph 19 of section 101 of the Petroleum Marketing Practices Act (Public Law 95-297) is amended by adding after "Guam," the following: "the Commonwealth of the Northern Mariana Islands,".

FISHERY CONSERVATION AND MANAGEMENT

Sec. 15. (a) Section 3(21) of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1802(21) (popularly known as the Magnuson Fishery Conservation and Management Act)), is amended to read as follows:

"(21) The term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, and any other territory or possession of the United States, except the Commonwealth of the Northern Mariana Islands.".

(b) Paragraph (8) of subsection (a) of section 302 of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1852(a)(8)), is amended to read as follows:

"(8) WESTERN PACIFIC COUNCIL.—The Western Pacific Management Council shall consist of the State of Hawaii, American Samoa, and Guam and shall have authority over the fisheries in the Pacific Ocean seaward of such States. The Western Pacific Council shall have 11 voting members, including 7 appointed by the Secretary pursuant to subsection (b)(2) of this section (at least one of whom shall be appointed from each of the following States: Hawaii, American Samoa, and Guam). The Western Pacific Council shall also have a nonvoting observer who shall be appointed and may be removed by the Governor of the Commonwealth of the Northern Mariana Islands.".

TUNA FISHERIES

SEC. 16. (a) The Congress finds and declares the following:

(1) In the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America approved by the joint resolution entitled "Joint Resolution to approve the 'Covenant to Establish a Commonwealth of Northern Mariana Islands in Political Union with the United States of America', and for other purposes", approved March 24, 1976 (48 U.S.C. 1681 note), the United States agreed to assist in developing the economic resources of the Northern Mariana Islands for the benefit of the inhabitants of such islands.

(2) Tuna in waters adjacent to the Northern Mariana Islands are a valuable and renewable resource, which can contribute to the food supply, economy, and health of the Commonwealth of the Northern Mariana Islands and of the Nation as a whole.

(3) Foreign fishing vessels catch substantial quantities of tuna in waters adjacent to the Northern Mariana Islands, but neither the Commonwealth of the Northern Mariana Islands nor the United States derive revenues from tuna caught by such vessels.

(4) Negotiation of an international agreement to conserve and manage tuna in the Western Pacific Ocean, including the waters adjacent to the Northern Mariana Islands, is in the best interests of the United States and the Commonwealth of the Northern Mariana Islands.

(b)(1) The Secretary of State shall, upon the request of and in cooperation with the Governor of the Commonwealth of the Northern Mariana Islands, initiate and conduct negotiations for the purpose of entering into one or more international fisheries agreements for the conservation and management of any highly migratory species of fish within the fishery conservation zone of the Northern Mariana Islands or any appropriate region that includes such fishery conservation zone. The Governor of the Commonwealth of the Northern Mariana Islands may designate an observer, who may be removed by the Governor, to attend such negotiations.

(2) All payments or other consideration received pursuant to any agreement concluded under the authority granted by paragraph (1) of this subsection and attributable to the taking of fish, or to the right to take fish, by the vessels of foreign nations within the fishery conservation zone of the Northern Mariana Islands shall be paid to the Government of the Commonwealth of the Northern Mariana Islands.

(3) For purposes of this subsection, the fishery conservation zone of the Commonwealth of the Northern Mariana Islands shall be defined in relation to the Northern Mariana Islands in the same manner as the fishery conservation zone of the United States is defined in relation to the United States by the Fishery Conservation and Management Act of 1976 (popularly known as the Magnuson Fishery Conservation and Management Act).

(4) For purposes of this subsection, the term "highly migratory species" means species of tuna, which, in the course of the life cycle, spawn and migrate over great distances in waters of the ocean.

FEDERAL CRIMES

SEC. 17. (a)(1) Chapter 27 of title 18, United States Code, is amended by adding at the end thereof the following:

**"§ 554. Imports to and exports from the Commonwealth of the Northern Mariana Islands**

"This chapter and sections 496, 1364, and 1915 of this title shall not apply to the entry of goods or articles into the Commonwealth of the Northern Mariana Islands nor to the export of goods or articles from the Commonwealth of the Northern Mariana Islands.".

(2) The table of sections for chapter 27 of title 18, United States Code, is amended by adding at the end thereof the following new item:

**"554. Imports to and exports from the Commonwealth of the Northern Mariana Islands.**

(b) Subsection (a) of section 42 of title 18, United States Code, is amended by adding at the end thereof the following:

"(6) Nothing in this subsection shall restrict the importation of species of so-called flying foxes or fruit bats of the genus Pteropus into the Commonwealth of the Northern Mariana Islands.".

(c)(1) Section 969 of title 18, United States Code, is repealed.

(2) The chapter analysis of chapter 45 of title 18, United States Code, is amended by striking out the item for section 969 and inserting in lieu thereof the following:

"[969. Repealed.]".

(d) Section 2114 of title 18, United States Code, is amended by inserting after "Guam." the following: "the Commonwealth of the Northern Mariana Islands."

(e)(1) Chapter 61 of title 18, United States Code, is amended by adding at the end thereof the following new section:

**"§ 1308. Certain lotteries in the Commonwealth of the Northern Mariana Islands**

"(a) Nothing in this chapter shall prohibit an advertisement, a list of prizes, or information concerning a qualified lottery conducted in the Northern Mariana Islands in accordance with the laws of the Commonwealth of the Northern Mariana Islands—

"(1) disseminated in a newspaper published in the Commonwealth of the Northern Mariana Islands; or

"(2) broadcast by a radio or television station licensed to a location in the Commonwealth of the Northern Mariana Islands.

"(b) Nothing in this chapter shall prohibit the transportation or mailing to addresses within the Commonwealth of the Northern Mariana Islands of equipment, tickets, or materials concerning a qualified lottery conducted in the Commonwealth of the Northern Mariana Islands in accordance with the laws of the Commonwealth of the Northern Mariana Islands.

"(c) For purposes of this section, 'qualified lottery' means a lottery conducted by a nonprofit organization for religious, charitable, educational, or benevolent purposes, in which no part of the gross receipts derived therefrom inures to the benefit of any private shareholder, member, or employee of such organization except as compensation for actual expenses incurred by that person in the conduct of the lottery.".

(f) Section 2279 of title 18, United States Code, is amended by adding at the end thereof the following new paragraph:

"Nothing in this section shall be construed to restrict officers or employees of the Government of the Commonwealth of the Northern Mariana Islands, in the performance of their official duties, from boarding any vessel about to arrive at any port of the Commonwealth of the Northern Mariana Islands.".

(g)(1) Section 7 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(2) Subsection (c) of section 245 of title 18, United States Code, is amended by inserting at the end thereof the following: "For purposes of this section the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(3) Section 402 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(4) Section 659 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(5) Subsection (b) of section 1761 of title 18, United States Code, is amended by inserting at the end thereof the following: "For purposes of this subsection the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(6) Section 1901 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section the Commonwealth of the Northern Mariana Islands shall be considered a State.".

(h)(1) Section 1715 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section, the Commonwealth of the Northern Mariana Islands shall be considered a State or Territory.".

(2) Section 1716 of title 18, United States Code, is amended by adding at the end thereof the following: "For purposes of this section, the Commonwealth of the Northern Mariana Islands shall be considered a State or Territory.".

CONSOLIDATED GRANT FOR HIGHER EDUCATION

SEC. 18. (a) The Secretary of Education shall make a grant in each fiscal year for which appropriations are made under the Higher Education Act of 1965 (hereafter in this section referred to as the "Act") to the Commonwealth of the Northern Mariana Islands for the postsecondary educational needs in the Commonwealth of the Northern Mariana Islands. The block grant authorized by this section for each fiscal year shall be made from such appropriations for each such year and shall consist of—

(1) an amount equal to the amounts of any funds that would otherwise be allotted to the commonwealth of the Northern Mariana Islands or any institution of higher education in the Commonwealth of the Northern Mariana Islands on the basis of a formula prescribed by the Act under—

(A) section 119 of the Act, relating to education outreach programs;

(B) section 415A of the Act, relating to State student incentives; and

(C) section 419 and 420 of the Act, relating to assistance to institutions of higher education; and

(2) thirty-three hundredths of 1 percent of each appropriation under—

(A) sections 201 and 347 of the Act, relating to college and research library assistance and library training research, strengthening institutions, and aid to institutions with special needs;

(B) section 417A of the Act, relating to special programs for students from disadvantaged backgrounds;

(C) section 531 of the Act, relating to teacher training programs;

(D) sections 546, 607, and 613 of the Act, relating to training for elementary and secondary school teachers to teach handicapped children, and international education programs;

(E) section 702 of the Act, but only to the extent the appropriation is available for grants, relating to grants for the construction, reconstruction, and renovation of undergraduate and graduate academic facilities;

(F) section 801 of the Act, relating cooperative education;

(G) section 901 of the Act, relating to grants to institutions of higher education; and

(H) sections 942, 953, 1005, and 1102 of the Act, relating to assistance for training in the legal profession, law school clinical experience programs, fund for the improvement of postsecondary education, and urban grant university program.

(b)(1) The block grant authorized by this section shall be made available directly to a college or community college established or to be established by the Government of the Commonwealth of the Northern Mariana Islands and designated by the Board of Education of the Commonwealth of the Northern Mariana Islands as the recipient of the block grant authorized by this section for the purpose of meeting postsecondary educational needs in the Commonwealth of the Northern Mariana Islands. The block grant shall not be restricted in use to the uses permitted under the Act.

(2) Nothing in this section shall preclude the Secretary of Education from—

(A) providing adequate procedures for accounting for, auditing, evaluating, and reviewing any programs or activities receiving benefits from the block grant authorized under this section; or

(B) providing technical assistance otherwise available under the Act.

(c)(1) The institution designated as the recipient of the block grant pursuant to subsection (b) of this section shall receive the block grant authorized by this section without regard to whether it is accredited.

(2) No funding otherwise available under the Act shall be denied the institution because the institution lacks accreditation. The Secretary of Education shall waive any requirement for matching funds otherwise required by the Act to be provided by the Commonwealth of the Northern Mariana Islands or by any institution of higher education in the Commonwealth of the Northern Mariana Islands.

(d)(1) No allotment or other financial assistance may be made to the Commonwealth of the Northern Mariana Islands under any provision of the Act set forth in subsection (a) in any fiscal year in which there is a block grant made under this section.

(2) Nothing in this section shall preclude the Commonwealth of the Northern Mariana Islands, or any institution of higher education in the Commonwealth of the Northern Mariana Islands, from receiving assistance under the Act if that assistance is available under a program or programs not included in determining the amount of the block grant available to the Commonwealth of the Northern Mariana Islands under subsection (a) of this section.

(e) Funds made available under this section shall remain available until expended.

SPECIAL TEMPORARY PASSPORTS

SEC. 19. (a)(1) Notwithstanding section 4076 of the Revised Statutes of 1878 (22 U.S.C. 212), the Secretary of State or persons designated by the Secretary of State shall issue special United States passports to citizens of the Commonwealth of the Northern Mariana Islands.

(2) Such passports shall recite the privilege of citizens of the Commonwealth of the Northern Mariana Islands to enter, reside in, and be employed in the United States and to enjoy the diplomatic and consular protection of the United States in foreign countries.

(b) For purposes of this section, the term "citizens of the Commonwealth of the Northern Mariana Islands" means those persons defined as United States citizens or United States nationals in section 8 of the Schedule on Transitional Matters of the Constitution of the Northern Mariana Islands, as approved by Presidential Proclamation 4534 of October 24, 1977.

(c) This section shall terminate upon the establishment of the Commonwealth of the Northern Mariana Islands.

NORTHERN MARIANA ISLANDS FINANCIAL INSTITUTIONS AS FEDERAL DEPOSITARIES

SEC. 20. Section 3303(b) of title 31, United States Code, is amended—

(1) by striking out "and" before "in territories" in the first sentence and inserting in lieu thereof a comma; and

(2) by inserting a comma and "and in the Commonwealth of the Northern Mariana Islands" after "United States" in such sentence.

ISSUANCE OF SUBSTITUTE CHECKS

SEC. 21. Section 3331(c) of title 31, United States Code, is amended—

(1) by striking out "or" before "a territory" in the first sentence and inserting in lieu thereof a comma; and

(2) by inserting a comma and "and the Commonwealth of the Northern Mariana Islands" after "United States" in such sentence.

FEDERAL EMPLOYEE ALLOTMENTS TO NORTHERN MARIANA ISLANDS FINANCIAL ORGANIZATIONS

SEC. 22. Section 3332(a) of title 31, United States Code, is amended to read as follows:

"(a) In this section—

"(1) 'financial organization' means a bank, savings and loan association or similar institution, or a credit union chartered by the United States Government or a State; and

"(2) 'State' includes the Commonwealth of the Northern Mariana Islands.".

PUBLIC PARTICIPATION IN BLOCK GRANT PROPOSALS

SEC. 23. Section 7303(2) of title 31, United States Code, is amended by inserting a comma and "the Commonwealth of the Northern Mariana Islands," after "Columbia".

RIVERS AND HARBORS

SEC. 24. The Act of March 3, 1899 (33 U.S.C. 401 et seq.) shall apply to the Commonwealth of the Northern Mariana Islands.

JUDICIAL VENUE UNDER THE FEDERAL WATER POLLUTION CONTROL ACT

SEC. 25. (a) Section 311(n) of the Federal Water Pollution Control Act (33 U.S.C. 1321(n)) is amended (1) by striking out "Trust Territory of the Pacific Islands" wherever it appears therein and inserting in lieu thereof "Trust Territory of the Pacific Islands (other than the Commonwealth of

the Northern Mariana Islands)", and (2) by inserting immediately after the second sentence thereof the following new sentence: "In the case of the Commonwealth of the Northern Mariana Islands, such actions may be brought in the District Court for the Commonwealth of the Northern Mariana Islands.".

(b) Section 312(m) of the Federal Water Pollution Control Act (33 U.S.C. 1322(m)) is amended (1) by striking out "Trust Territory of the Pacific Islands" wherever it appears therein and inserting in lieu thereof "Trust Territory of the Pacific Islands (other than the Commonwealth of the Northern Mariana Islands)", and (2) by inserting immediately after the first sentence thereof the following new sentence: "In the case of the Commonwealth of the Northern Mariana Islands, such actions may be brought in the District Court for the Commonwealth of the Northern Mariana Islands.".

OCEAN DUMPING JUDICIAL VENUE

SEC. 26. Section 3(g) of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1403(g)) is amended (1) by inserting immediately after "Puerto Rico," the following: "the District Court for the Commonwealth of the Northern Mariana Islands,", and (2) by inserting immediately after "Trust Territory of the Pacific Islands" the following: "(other than the Commonwealth of the Northern Mariana Islands)".

JUDICIAL VENUE UNDER THE OCEAN THERMAL ENERGY CONVERSION ACT

SEC. 27. Subsection (c) of section 303 of the Ocean Thermal Energy Conversion Act (Public Law 96-320) is amended in the sentence beginning "In the case of Guam" by striking out the period at the end thereof and inserting in lieu thereof "and in the case of the Commonwealth of the Northern Mariana Islands, the appropriate court is the District Court for the Northern Mariana Islands.".

NONPROFIT LOTTERY MAILINGS

SEC. 28. Section 3005 of title 39, United States Code, is amended by adding at the end thereof the following new subsection:

"(f)(1) Nothing in this section shall prohibit the mailing to addresses within the Commonwealth of the Northern Mariana Islands of equipment, tickets, or materials concerning a qualified lottery conducted in the Commonwealth of the Northern Mariana Islands in accordance with the laws of the Commonwealth of the Northern Mariana Islands.

"(2) For the purposes of this section, 'qualified lottery' means a lottery conducted by a nonprofit organization for religious, charitable, educational, or benevolent purposes, in which no part of the gross receipts derived therefrom inures to the benefit of any private shareholder, member, or employee of such organization except as compensation for actual expenses incurred by such shareholder, member, or employee in the conduct of the lottery.".

AUTHORITY TO WAIVE MEDICAID REQUIREMENTS FOR THE NORTHERN MARIANA ISLANDS

SEC. 29. Section 1902(j) of the Social Security Act (42 U.S.C. 1396a(j)) is amended—

(1) by striking out "the medical assistance program in American Samoa," and inserting in lieu thereof "a medical assistance program in the Commonwealth of the Northern Mariana Islands or American Samoa, or both,", and

(2) by striking out "American Samoa" the second place it appears and inserting in lieu thereof "such jurisdiction".

SUBMERGED LANDS

SEC. 30. (a) Subject to valid existing rights, the United States releases, relinquishes, and conveys to the Commonwealth of the Northern Mariana Islands any and all rights, title, and interest it may have in submerged lands within the boundaries of the Commonwealth of the Northern Mariana Islands, to be administered in trust for the benefit of the people thereof.

(b) For purposes of this section, the term:

(1) "Submerged lands" shall include—

(A) all lands permanently or periodically covered by tidal waters up to but not above the ordinary high water mark as heretofore or hereafter modified by accretion, erosion, and reliction, and seaward to a line three geographical miles distant from the coastlines of the Commonwealth of the Northern Mariana Islands;

(B) all filled in, made, or reclaimed lands which were formerly lands described in subparagraph (A) of this paragraph; and

(C) all improvements on and all natural resources on or within lands described in subparagraphs (A) and (B) of this paragraph.

(2) "Covenant" shall mean the Government to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as approved by Public Law 94-241, 90 Stat. 263 (1976).

(c) There are excepted from the transfer made by subsection (a) of this section any and all submerged lands leased to the Government of the United States pursuant to sections 802 and 803 of the Covenant for so long as such lands are leased.

(d) Nothing in this section shall affect such rights, if any, the Commonwealth of the Northern Mariana Islands may have in the seabed and its subsoil, and their natural resources, more than three geographical miles distant from the coastlines of the Commonwealth of the Northern Mariana Islands.

(e) This section shall become effective on establishment of the Commonwealth of the Mariana Islands pursuant to sections 101 and 1003(c) of the Covenant.

GOVERNMENT DEPOSITORY LIBRARIES

SEC. 31. (a) Section 1905 of title 44, United States Code, is amended—

(1) by striking out "and the Virgin Islands," in the first sentence and inserting in lieu thereof "the Virgin Islands, and the Commonwealth of the Northern Mariana Islands,"; and

(2) by striking out "the Governor of Guam and the Governor of American Samoa may each designate one depository library in Guam and American Samoa," in the last sentence and inserting in lieu thereof "the Governor of Guam, the Governor of American Samoa, and the Governor of the Commonwealth of the Northern Mariana Islands may each designate one depository library in Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.".

(b) Section 1909 of such title is amended by inserting "the Commonwealth of the Northern Mariana Islands," after "American Samoa," each place it appears.

ENFORCEMENT OF FEDERAL LAWS IN THE COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

SEC. 32. (a)(1) Subject to the provisions of paragraph (2) the Governor of the Commonwealth of the Northern Mariana Islands is authorized to enforce or execute in the Commonwealth of the Northern Mariana Islands any Federal laws applicable to the Northern Mariana Islands.

(2) In enforcing or executing any Federal law pursuant to paragraph (1), the authority exercised by the Governor of the Commonwealth of the Northern Mariana Islands shall be subject to the direction or control of the Federal agency principally charged with the enforcement or execution of that law or, if no Federal agency is so charged, by the Department of Justice.

(b) The authority granted to the Governor of the Commonwealth of the Northern Mariana Islands by subsection (a) may be delegated by the Governor of the Commonwealth of the Northern Mariana Islands to any officer or employee of the Government of the Commonwealth of the Northern Mariana Islands either directly, or indirectly by one or more redelegations of authority.

(c)(1) Any department or agency of the Federal Government may provide financial and technical assistance to the Government of the Commonwealth of the Northern Mariana Islands in enforcing or executing within the Commonwealth of the Northern Mariana Islands laws normally enforced or executed by that agency.

(2) Any program for financial and technical assistance provided pursuant to this subsection shall be developed in cooperation with the Government of the Commonwealth of the Northern Mariana Islands or the Government of American Samoa.●

---

By Mr. ABDNOR:

S. 2737. A bill to amend the Commodity Exchange Act to remove the application of such act to the trading of cattle; to the Committee on Agriculture, Nutrition, and Forestry.

ELIMINATION OF CATTLE FUTURES

● Mr. ABDNOR. Mr. President, today I am introducing legislation to eliminate cattle as a subject for trading on the commodity futures market. Simply said, my legislation delists the two contracts of cattle from the futures market.

The call to ban cattle futures comes from cattlemen themselves. The stockgrower and cattlemen associations of South Dakota, North Dakota, Colorado, Wyoming, Montana and Arizona all have passed resolutions calling for the elimination or suspension of cattle futures trading. The American Cowman's Association has requested that the Chicago Mercantile Exchange and the Commodity Futures Trading Commission permanently drop live cattle and feeder cattle futures. Additionally, petitions calling for the ban on cattle futures are being circulated in some 30 States. From what I've been told, there has been an overwhelming positive response to these petitions.

The live cattle futures was created in late 1964 and the feeder cattle futures in 1971. Last year there was more than 5 million such cattle futures contracts traded at the Chicago Mercantile Exchange [CME].

When the cattle futures market was established, cattlemen were told that

it would help stabilize the cattle market and be good for the cattle industry. Cattlemen in my home State of South Dakota and across the Nation are saying that the futures have not stabilized the market. In fact, most cattlemen would argue that futures markets have made markets more volative, during the last year.

Within 2 months this last spring, there were 14 limit or near limit moves in live cattle contracts. One daily limit move of $1.50 per hundredweight results in a $16.50 per head change in the value of a 1,100 pound steer. Such volatility was dramatically illustrated on the heels of the announcement of cow slaughter numbers under the Government's Dairy Cow Termination Program.

During the period of 1960 to 1964, the difference between the high and low end of the fed cattle market was 23.6 percent. This time frame is before live cattle futures were established. In 1985 alone, however, the fed cattle market moved 21 percent. That's a 21-percent change in just 1 year with futures as compared to a 23.6-percent change over a period of 5 years without futures.

Perhaps the November 16, 1983 edition of Farm Talk stated the sentiment of cattlemen best when it argued:

> The futures markets have become so hyper-responsive to rumor, supply and demand estimates and so inter-related to such things as the price of gold, silver, Treasury bills and foreign exchange rates, that they are but tenuously connected to the real world. Futures trading is geared to benefit those with inside information and those with tremendous market clout. Unfortunately, beef producers have neither.
>
> A system can't be right when non-producers set and oversee the rules, when non-producers influence the price of commodities they never own and never intend to own.

I'm not going to argue that volatility in cash prices of cattle, measured in percentage terms, has increased since the creation of futures. Studies done by the CME have indicated that volatility declined following the introduction of futures, but even in the words of the CME, "None of these declines proved to be statistically significant." (The Impact of the Cattle Futures Market on the Cash Market: An Analysis of Current Concerns; Chicago Mercantile Exchange, July 22, 1986.)

I would like to note that the CME studies compared to an 11-year period of variability in weekly steer prices before futures with a 22-year period following the introduction of futures. I'm not a trained economist, but I feel it's unorthodox to compare an 11-year period with a 22-year period.

I also would like to point out that cattle price volatility measured in dollar rather than percentage terms was higher during the 22 years following futures. During the first week after the March 28, 1986, dairy buyout announcement, for example, the panhandle price for cattle dropped almost 9 percent.

Mr. President, one of the things that really angers cattlemen and me is that the livelihoods of cattlemen are being controlled by speculators playing the futures markets. The rough-faced and windburned cattleman has no control over the price he receives. It is controlled by speculators.

In the May 29, 1986, issue of Livestock Weekly, Wade Choate of San Angelo, TX, states the following in his letter to the editor:

> As I see it, the futures have taken control of our live market and have given it to people who have no interest in our business.
>
> Probably the worst thing about the futures is that they have so much leverage on us. One load of live cattle will cost about $20,000 to place on feed. The futures trader can buy about 29 contracts or loads with the same money that we have to put up to buy one pen of cattle. They can push us around very easily.
>
> I am not complaining as a result of being on the wrong side. Our brokers would tell you that the futures have been very good to us personally the last 2 years. My complaint is because of what they are doing to our industry.
>
> Incidentally, I stepped into a local commodity office a little while ago. There were seven people playing the cattle commodities: One lawyer, three construction people, one beer joint operator and just two of us cow traders.

Still another problem with cattle futures is that futures prices affect cash prices. Immediately following the March 28 dairy buyout announcement, both futures and cash prices plunged. But why did the cash prices plunge? Not a single dairy cow had been slaughtered.

In the May 19, 1986, edition of the Western Livestock Journal, Pete Crow of Albuquerque, NM, states:

> The commodities markets control the cash market. What seems to have happened is we have removed supply and demand from the market and have created future supply and future demand, for which you need a crystal ball to forecast. The fact of the matter is that the futures markets are out of control and are not working to the benefit of most producers or feeders.

Another well-stated argument about the futures' influence on cash prices is made by even those who have made their living on the floor of the CME.

In the April 24, 1986, issue of Drovers Journal, Marvin J. Walter of Carriage House Meat and Provision Co., Inc., in Ames, IA, writes:

> As one who for a period of time made a living as a floor trading member of the Mercantile, I feel more sure now than ever before that the entire cattle industry is suffering serious setbacks because of the way trading activity moves the cash beef market both up and down. Until this became so apparent, I was never critical of the futures market and, in fact, felt it was a very viable tool in the marketing process.
>
> Probably the most damaging force emerges on the floor of the exchange by floor traders and the "mob psychology" created when they are successful in pushing the market in one direction for a prolonged period of time. Recently, of course, this movement has worked to the detriment of the cattle industry as floor traders continue to add to their short positions on the basis of some exaggerated rumors that in most cases they help create and foster.
>
> Because packers have no real incentive to step into the live cattle market and bid up prices with a rapidly declining futures market and a higher percentage of their needs tied up in contracts, the live market collapses also. Because retailers and other large beef users see the futures market dropping and they have a percentage of their purchases made against a contract, they have no real interest in stepping into a declining market. Why buy today when we can buy cheaper later as the futures market continues to decline.
>
> A very good example of this was seen on April 3 when the futures market opened and appeared to stabilize, and the cash beef market was called steady. Suddenly, the floor started selling heavily and moved the futures down the limit. By late afternoon the bottom fell out of the cash market and it was quoted $1 to $2.50 lower. This all happened even though slaughter numbers were not abnormally high and the live cattle market was already abnormally low."
>
> I suggest this just doesn't happen. The futures market has far too much influence and control of the cash and it is getting to be a serious situation. The cattle industry is being crippled in the process.
>
> Because a preponderance of those of us in the cattle and beef industry are free enterprise entrepreneurs, we are hesitant to interfere with this "bastion" of our economy and marketing system. Rather, we sit on the sidelines and see an entire industry devastated . . . something must be done and I urge all people interested in this business to raise their voices and ask that this nonsense be stopped.

The Chicago Mercantile Exchange does not have a rule prohibiting or limiting short selling on a downward market. The New York Stock Exchange, however, has such a rule. The Big Board's rule to prohibit selling short on the heels of a transaction which produced a price decline or no change in price was instituted in the 1930's when such short selling was discovered to be a common way to deliberately depress stock shares. The Big Board's rule therefore bars short selling except where the last transaction in a stock resulted in a price increase, or "uptick."

I am not asserting that there is widespread manipulation in cattle futures. Although many cattlemen across the Nation may believe such, I cannot substantiate their claim. Personally, I tend to agree with cattlemen on this subject, but manipulation is difficult to discover and prove.

It has been suggested for years that a similar rule be initiated for commodity futures trading. Very simply, the rule would prohibit selling short unless the trader had a legitimate long-hedge position or unless the transaction takes place during an "uptick" in the market.

It is interesting to note that even large feeders who have used the futures markets for years now advocate delisting the two contracts of cattle on the futures market. Such is the case with Paul Engler, president of Cactus Feeders, Inc., the Nation's largest cattle-feeding operation. I would like to read for the record a portion of an article highlighting Paul Engler's thoughts which appeared in the June 1986 issue of National Cattlemen:

ENGLER ADVOCATES DELISTING

Paul Engler, president of Cactus (Texas) Feeders, Inc., the Nation's largest feeding business, says flatly "That the industry should work to get cattle futures contracts delisted." Engler says that "the only economic justification for any futures contract is that it: (1) is a useful risk management tool; and (2) provides a price dicovery mechanism. The cattle contract," he says, "does neither."

Engler long has used futures, but he always has questioned if the cattle contract is a viable one. "Cattle, as compared with soybeans, for example, are not really a deliverable commodity," he says, "and the contract has suffered from the lack of long hedgers. Theoretically, the packer should be a long hedger, but has not participated that way."

"Compounding the problem was 1984 tax legislation," Engler added. "This legislation effectively eliminated spreads and straddles, and that eliminated much of the speculator interest in the back months. There thus is less liquidity in the back months."

"There definitely is a downward bias in the futures," Engler says. "The normal hedgers (cattlemen) must sell short, and there is not enough long hedger or speculator interest on the other side."

"The futures now have an overwhelming effect on the cash markets," Engler said. "People, including retailers and packers, watch the board and make buy and sell decisions in the cash markets on the basis of the futures."

Engler urges that action to delist the cattle contract be taken now. "Cattle numbers are going down," he notes. "We're turning the corner on fat and cholesterol. The next five years could be good. But the golden years will not come to pass if we keep the futures."

"Those who have suffered the most from futures," Engler says, "are the basic producers and ranchers. They can't use the contract, and they have felt most of the price pressure."

Mr. Engler points out the most appropriate reason for eliminating cattle futures—that is the shortage of long hedgers which results in a downward bias in the market.

Cattlemen are the short hedgers in the market. They are the ones that must sell their products. The problem is that there are six times more short hedgers in the market than long hedgers. If there are six times more sellers than buyers, this puts downward pressure on the market. For various reasons, legitimate buyers of cattle like retailers and packers have not used futures to a great extent for long hedges. This is why a downward bias exists.

Mr. President, it is my intent to offer this bill as an amendment to the Commodity Exchange Act when it is taken up by the Senate in September.

Cattlemen across the country are demanding that cattle futures be eliminated. They feel that instead of being a tool which they can use, the futures have become a leg iron which is contributing to the problems being faced by the cattle industry.

Some say that cattlemen are looking for a scapegoat to blame for the problems they are facing. I submit to my colleagues that cattle futures are part of the problem. The inherent downward bias in the futures market, the effect of futures on cash market prices, the control that speculators have on the prices received by real cattlemen, and the recent volatility in futures prices all are compelling reasons why cattle futures should be eliminated.

The legitimate producers of beef are calling for elimination of cattle futures. We should heed their call.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2737

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. NONAPPLICABILITY OF COMMODITY EXCHANGE ACT TO TRADING OF CATTLE.

(a) DEFINITION OF COMMODITY.—The third sentence of section 2(a)(1)(A) of the Commodity Exchange Act (7 U.S.C. 2) is amended—

(1) by inserting "(other than cattle)" after "livestock"; and

(2) by inserting "and cattle" after "except onions as provided in Public Law 85-839".

(b) REPORT ON HEDGING.—The last sentence of 4a(3) of such Act (7 U.S.C. 6a(3)) is amended by striking out "cattle, hog, or pork" and inserting in lieu thereof "hog or pork".

(c) APPLICATION OF AMENDMENTS.—The amendments made by this section shall not apply to a contract of sale of cattle for future delivery that was entered into before the date of enactment of this Act.●

## ADDITIONAL COSPONSORS

S. 1822

At the request of Mr. THURMOND, the name of the Senator from Michigan [Mr. RIEGLE] was added as a cosponsor of S. 1822, a bill to amend the Copyright Act in section 601 of title 17, United States Code, to provide for the manufacturing and public distribution of certain copyrighted material.

S. 1917

At the request of Mr. BRADLEY, the name of the Senator from Washington [Mr. EVANS] was added as a cosponsor of S. 1917, a bill to amend the Foreign Assistance Act of 1961 to provide assistance to promote immunization and oral rehydration, and for other purposes.

S. 2181

At the request of Mr. D'AMATO, the name of the Senator from Colorado [Mr. HART] was added as a cosponsor of S. 2181, a bill entitled the "Construction Industry Labor Law Amendments of 1986".

S. 2209

At the request of Mr. DOLE, the name of the Senator from Alabama [Mr. DENTON] was added as a cosponsor of S. 2209, a bill to make permanent and improve the provisions of section 1619 of the Social Security Act, which authorizes the continued payment of SSI benefits to individuals who work despite severe medical impairment; to amend such act to require concurrent notification of eligibility for SSI and medicaid benefits and notification to certain disabled SSI recipients of their potential eligibility for benefits under such section 1619; to provide for a GAO study of the effects of such section's work incentive provisions; and for other purposes.

S. 2370

At the request of Mr. MURKOWSKI, the name of the Senator from Mississippi [Mr. STENNIS] was added as a cosponsor of S. 2370, a bill to allow the Francis Scott Key Park Foundation, Inc. to erect a memorial in the District of Columbia.

S. 2454

At the request of Mr. MURKOWSKI, the name of the Senator from Tennessee [Mr. GORE] was added as a cosponsor of S. 2454, a bill to repeal section 1631 of the Department of Defense Authorization Act, 1985, relating to the liability of Government contractors for injuries or losses of property arising out of certain atomic weapons testing programs, and for other purposes.

S. 2455

At the request of Mr. MITCHELL, the name of the Senator from Nebraska [Mr. EXON] was added as a cosponsor of S. 2455, a bill entitled the National Organ and Tissue Donor Act.

S. 2565

At the request of Mr. DOLE, the names of the Senator from Mississippi [Mr. COCHRAN], the Senator from California [Mr. CRANSTON], the Senator from Nevada [Mr. HECHT], the Senator from North Carolina [Mr. HELMS], the Senator from Delaware [Mr. ROTH], the Senator from New Hampshire [Mr. RUDMAN], and the Senator from Connecticut [Mr. WEICKER] were added as cosponsors of S. 2565, a bill to ensure the orderly and competitive development of the telecommunications industry.

S. 2618

At the request of Mr. DANFORTH, the name of the Senator from Maine [Mr. MITCHELL] was added as a cosponsor of S. 2618, a bill to amend the Tariff Schedules of the United States to change the classification of certain

prefabricated bitumen roofing membranes.

S. 2660

At the request of Mr. BENTSEN, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 2660, a bill to prevent burdens or restrictions upon the international trade of the United States by reason of the activities of State trading enterprises.

S. 2667

At the request of Mr. BENTSEN, the name of the Senator from West Virginia [Mr. ROCKEFELLER] was added as a cosponsor of S. 2667, a bill to amend title XIX of the Social Security Act to permit States the option of providing prenatal, delivery, and postpartum care to low-income pregnant women and of providing medical assistance to low-income infants and children under 6 years of age.

S. 2717

At the request of Mr. QUAYLE, the name of the Senator from Indiana [Mr. LUGAR] was added as a cosponsor of S. 2717, a bill to amend the Agricultural Act of 1949 to require the Commodity Credit Corporation to pay producers for on-farm storage of commodities, and for other purposes.

SENATE JOINT RESOLUTION 348

At the request of Mr. GLENN, the name of the Senator from Oklahoma [Mr. NICKLES] was added as a cosponsor of Senate Joint Resolution 348, a joint resolution to designate the week beginning November 24, 1986, as "National Family Caregivers Week".

AMENDMENT NO. 1168

At the request of Mr. BOREN, the names of the Senator from Delaware [Mr. BIDEN], the Senator from Vermont [Mr. LEAHY], the Senator from West Virginia [Mr. ROCKEFELLER], the Senator from Wisconsin [Mr. PROXMIRE], the Senator from New York [Mr. MOYNIHAN], and the Senator from Massachusetts [Mr. KERRY] were added as cosponsors of Amendment No. 1168 proposed to S. 655, a bill granting the consent of Congress to the Central Interstate Low-Level Radioactive Waste Compact.

## SENATE RESOLUTION 464—DESIGNATING "CRACK/COCAINE AWARENESS MONTH"

Mr. ROTH submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 464

Whereas cocaine is a drug that medical authorities consider to be very dangerous;

Whereas the amount of cocaine entering the United States from other countries has increased substantially in recent years;

Whereas in the past, the most common method of taking cocaine into the body was by inhaling the drug through the nose;

Whereas cocaine may be smoked if the drug is subjected to certain procedures designed to harden the drug;

Whereas the form of cocaine that may be smoked is commonly known as crack;

Whereas crack can be developed easily from the standard form of cocaine, and law enforcement authorities are encountering difficulties in stopping the production of crack;

Whereas crack is extremely addictive, and a single incident of smoking crack may result in addiction;

Whereas crack may cause death or injury as a result of heart attacks, seizures, strokes, or damage to the lungs;

Whereas the use of crack is increasing rapidly;

Whereas the use of cocaine has become widespread among all socioeconomic groups, including young athletes;

Whereas the awareness of the people of the United States with respect to the danger of the use of cocaine, and with respect to available treatments for addiction to cocaine, should be increased; and

Whereas parents, drug prevention agencies at all levels of government, civic organizations, and other individuals and groups should work to increase such awareness: Now, therefore be it

*Resolved by the Senate of the United States of America,* That October 1986 is designated "Crack/Cocaine Awareness Month", and the President of the United States is requested to issue a proclamation calling upon the people of the United States to observe such month with appropriate ceremonies and activities.

● Mr. ROTH. Mr. President, in a hearing last month, the Permanent Subcommittee on Investigations learned about the dangers of crack, the smokable form of cocaine. Not only is it highly addictive, but it is also deadly. We heard from reformed users that you only need to smoke it once to get hooked on it—or die from it. That is why I believe that it is vitally important to educate the public, especially our youth, about the facts about crack. To stop them before they take that first puff and ultimately see their lives go up in smoke. To meet this need, I have submitted Senate Resolution 464 designating October as "Crack/Cocaine Awareness Month" with the objective that we can focus all of our resources—the media, educators, social services and law enforcement—to make everyone aware of the dangers of crack and cocaine use.

As we are acutely aware, our Nation is currently experiencing a cocaine epidemic. Despite dedicated law enforcement efforts—the most recent of which was the destruction of cocaine labs in Bolivia—the influx of cocaine into this country has drastically increased, invading our communities and endangering our society like a white plague.

Crack has accelerated this epidemic. It is the marketing marvel of cocaine traffickers. It is much more pure than powder cocaine, making it more potent and, therefore, more addictive, creating a craving for more. Unlike powder cocaine, once the glamorous drug of the rich, crack is cheap. Anyone, even the young, can afford it. Treatment centers are reporting crack addicts as young as 8 years old. It is as easy to use as breathing in. And it is easy to find practically anywhere in the United States. In my home State of Delaware in the rural town of Seaford, more than 15 people have been arrested for selling crack.

Crack poses a serious health hazard to all who smoke it. It has been associated with heart seizures, strokes, lung problems and death. The recent deaths of outstanding athletes Len Bias and Don Rogers vividly demonstrated that cocaine kills.

Crack use has also contributed to a significant increase in violent crimes as users become desperate to obtain this seductive drug by any means. Law enforcement efforts have been frustrated, because manufacturers can set up shop almost anywhere and use youngsters to peddle their insidious product.

Crack has permeated every segment of our society. The law enforcement community is working hard to contain this problem, but it gets more threatening every month. I think it is time to reach out to the individual. To inform the people, particularly our youth, about the health hazards of cocaine before they experiment with it—before it is too late.

By this resolution, we encourage parents, civic associations, local and State prevention agencies, reformed addicts, educators, and law enforcement authorities to dedicate their resources to inform the citizenry. We encourage the media to portray the facts about crack and cocaine. We encourage the individual to listen and read and to learn and heed the messages that are being provided.

I call upon all my colleagues to support the resolution designating October as "Crack/Cocaine Awareness Month" and to promote it with appropriate ceremonies and activities in your home States.●

## SENATE RESOLUTION 465—RELATING TO A TARIFF ON CHOCOLATE

Mr. DOLE (for himself, Mr. PACKWOOD, Mr. LUGAR, Mr. HELMS, Mr. SIMPSON, Mr. GORTON, Mr. EVANS, Mr. HEINZ, Mr. D'AMATO, Mr. ROTH, Mr. MURKOWSKI, Mr. CHAFEE, Mr. MATSUNAGA, Mr. BENTSEN, Mr. LAUTENBERG, Mr. ZORINSKY, Mr. NUNN, Mr. BRADLEY, Mr. MOYNIHAN, Mr. HARKIN, Mr. PRYOR, Mr. HEFLIN, Mr. DIXON, Mr. WARNER, Mr. GRASSLEY, Mr. ABDNOR, and Mr. LEAHY) submitted the following resolution; which was considered and agreed to:

S. RES. 465

Whereas, the U.S. confectionary industry is a major industrial consumer of domestically grown sugar, milk, peanuts and other U.S. agricultural commodities; and,

Whereas, the expansion of overseas markets for U.S. chocolate and confectionary

exports will directly benefit supplier industries including sugar and milk producers, and growers of peanuts, almonds, raisins, corn and wheat; and,

Whereas increased U.S. exports of chocolate enhances demand for cocoa beans and cocoa by products from developing nations whose economies depend on cocoa for export earnings; and

Whereas the United States includes among its trade policy objectives reciprocity in confectionery trade with Japan and other nations; and,

Whereas, the U.S. confectionary market is open and tariffs are among the lowest in the world; and,

Whereas, Japan has restricted competitive U.S. exports of chocolate by maintaining tariffs that are among the highest of any industrialized nation;

It is therefore the sense of the Senate that:

The President should use all appropriate powers of his office to secure from Japan a reduction of that nation's tariff on chocolate to a level at parity with the United States by April, 1987.

## AMENDMENTS SUBMITTED

### CONSENT OF CONGRESS TO THE CENTRAL INTERSTATE LOW LEVEL RADIOACTIVE WASTE COMPACT

### BOSCHWITZ AMENDMENT NO. 2690

(Ordered to lie on the table.)

Mr. BOSCHWITZ submitted an amendment intended to be proposed by him to the bill (S. 655) granting the consent of Congress to the Central Interstate Low Level Radioactive Waste Compact; as follows:

At the appropriate place, add the following new section:

SEC. —. (a) Section 315(a)(2)(B) of the Federal Election Campaign Act of 1971 is amended by striking out all after "party" and inserting in lieu thereof a semicolon.

(b) Section 304(b) of the Federal Election Campaign Act of 1971 is amended—

(1) in paragraph (2)—

(A) by striking out "and" after the semicolon in subparagraph (J);

(B) by inserting "and" after the semicolon at the end of subparagraph (K); and

(C) by adding at the end thereof the following:

"(L) for a national committee of a national party, all funds received, from any source, for purposes other than to influence a Federal election, except funds received in accordance with section 301(8)(B)(viii);";

(2) in paragraph (3)—

(A) by striking out "and" after the semicolon in subparagraph (F);

(B) by inserting "and" after the semicolon at the end of subparagraph (G); and

(C) by adding at the end thereof the following:

"(H) for a national committee of a political party, person or organization providing funds reportable under subsection (b)(2)(L) of this section;"; and

(3) in paragraph (4)—

(A) by striking out "and" after the semicolon in subparagraph (H)(v);

(B) by inserting "and" after the semicolon at the end of subparagraph (I); and

(C) by adding at the end thereof the following:

"(J) for a national committee of a political party, all disbursements from funds reportable under subsection (b)(2)(L) of this section;".

(c)(1) Notwithstanding any other provision of law, section 315 of the Communication Act of 1934 (47 U.S.C. 315), as amended by this Act, is amended—

(A) by striking out subsection (b), as added by this Act; and

(B) by redesignating subsections (c), (d), and (e) as subsections (b), (c), and (d), respectively.

(2) Section 315(a) of the Communication Act of 1934 (47 U.S.C. 315(a)), as amended by this Act, is amended by striking out "subsection" and inserting in lieu thereof "section".

(3) Section 315(c) of the Communication Act of 1934 (47 U.S.C. 315(c)), as redesignated by subsection (a), is amended to read as follows:

"(c) For purposes of this section—

"(1) the term 'broadcast station' includes a community antenna television system; and

"(2) the term 'license' and 'station license' when used with respect to a community antenna television system mean the operator of such system.".

### MILITARY CONSTRUCTION APPROPRIATION FISCAL YEAR 1987

### SASSER AMENDMENT NO. 2691

Mr. SASSER proposed an amendment, which was subsequently modified, to the bill (H.R. 5052) making appropriations for military construction of the Department of Defense for the fiscal year ending September 30, 1987, and for other purposes, as follows:

On page 20, between lines 23 and 24, insert the following new section:

SEC. 126. None of the funds appropriated in this Act may be obligated or expended in connection with construction at any military installation in Europe or Japan until the Secretary of Defense has provided the Committee on Appropriations of the Senate and the House of Representatives with a report by November 15, 1986 containing details of the specific actions proposed to be taken by the Department of Defense during fiscal year 1987 to encourage other member nations of the North Atlantic Treaty Organization and Japan to assume a greater share of the common defense burden of such nations and the United States.

### MATTINGLY AMENDMENT NO. 2692

Mr. MATTINGLY proposed an amendment to the bill H.R. 5052, supra, as follows:

On page 2, line 11, strike "128,440,000" and insert in lieu thereof "$129,440,000".

On page 2, line 17, strike the punctuation after the word "therefor" and after the stricken lines insert the following: ": *Provided further,* That of the amount available for study, planning, design, architect and engineer services, $1,000,000 shall be available for the design of facilities at Fort Benning, Georgia necessary due to the establishment of the U.S. Army School of the Americas at Fort Benning.".

On page 3, line 5, strike "1,282,995,000" and insert in lieu thereof "1,282,985,000".

On page 3, line 12, strike the punctuation at the end of the section and insert the following: ": *Provided further,* That of the amount available for study, planning, design, architect and engineer services, $200,000 shall be available for the purpose of providing community impact assistance funds as necessary in support of the Gulf Coast Strategic Homeporting Initiative.".

On page 3, line 17, strike "1,252,710,000" and insert in lieu thereof "1,250,625,000".

### COMPREHENSIVE ANTI-APARTHEID ACT

### PRESSLER (AND OTHERS) AMENDMENT NO. 2693

(Ordered to lie on the table.)

Mr. PRESSLER (for himself, Mr. MURKOWSKI, Mr. ABDNOR, Mr. LAXALT, Mr. BROYHILL, Mr. MELCHER, and Mr. WALLOP) proposed an amendment to the bill (S. 2701) to provide a comprehensive policy for the United States in opposition to the system of apartheid in South Africa, and for other purposes; as follows:

Delete Section 309.

### PRESSLER AMENDMENT NOS. 2694 THROUGH 2699

(Ordered to lie on the table)

Mr. PRESSLER submitted six amendments intended to be proposed by him to the bill S. 2701, supra, as follows:

AMENDMENT No. 2694

On page 79 of the bill, strike lines 10 through 13 of Section 311(b).

AMENDMENT No. 2695

At the end of title II, add the following:

SEC. . (a) The Congress finds that actions taken in this Act will probably lead, directly or indirectly, to intense economic hardship for African countries near to South Africa that are recipients of United States assistance.

(b) Accordingly, there are authorized to be appropriated $1,000,000,000 to assist these states in copying with the economic dislocations resulting from the imposition of sanctions on South Africa in this Act during the fiscal years 1987 through 1990.

AMENDMENT No. 2696

At the end of title II, add the following:

SEC. . In order to expand the participation of nonwhite South Africans in their country's economy as required in section 203 and the amendment made by section 204 of this Act, the provisions of sections 303 and 312 shall not apply to new investment in or loans to South African companies which are at least 51 percent owned or controlled by nonwhite South Africans.

AMENDMENT No. 2697

At the end of title III, add the following new section:

EFFECTIVE DATA OF CERTAIN PROVISIONS

SEC. 314. Notwithstanding any other provision of this title, no prohibition contained in section 303 or 311 shall take effect until—

(1) the President prepares and transmits to the Congress, not later than 90 days after the date of enactment of this Act, a report describing the employment costs to South Africa, the United States, and the southern African region of the implementation of such prohibition; and

(2) the Congress enacts a joint resolution or bill approving the implementation of such prohibition.

---

AMENDMENT No. 2698

Delete section 501(a).

---

AMENDMENT No. 2699

Delete Section 303.

---

## SASSER (AND DODD) AMENDMENT NO. 2700

Mr. SASSER (for himself and Mr. DODD) proposed an amendment to the bill (H.R. 5052), supra; as follows:

On page 21, beginning with line 1, strike out all down through line 16 on page 51.

---

## PENALTIES FOR FALSE CLAIMS

---

## GRASSLEY AMENDMENT NO. 2701

Mr. DOLE (for Mr. GRASSLEY) proposed an amendment to the bill (S. 1562) to amend the False Claims Act, and title 18 of the United States Code regarding penalties for false claims, and for other purposes; as follows:

On page 9, beginning with line 21, strike out through line 16 on page 42, and insert in lieu thereof the following:

That section 3729 of title 31, United States Code, is amended by—

(1) inserting "(a)" before "A person";

(2) striking out "$2,000," and inserting in lieu thereof "$10,000, unless the court finds:

"(A) the defendant furnished officials of the United States responsible for investigating false claims violations with all information known to such defendant about such violation within 30 days after the date on which the defendant first obtained the information;

"(B) the defendant fully cooperated with any Government investigation of such violation; and

"(C) at the time the defendant furnished the United States with the information about the violation, no criminal prosecution, civil action, or administrative action had commenced under this title, with respect to such violation, and the defendant did not have actual knowledge of the existence of an investigation into such violation;

in which case the court may assess not less than $5,000, or unless the court finds that the defendant is a partnership, corporation, association, or organization, the annual gross receipts of which did not exceed $1,000,000 at the time the action was brought, and which had not more than 80 employees at the time the action was brought, and the court finds the assessment of $10,000 will result in substantial hardship under the circumstances for the defendant, in which case the court may assess not less than $5,000;

(3) striking out "2 times the amount of damages" and inserting in lieu thereof "3 times the amount of damages unless the court finds the provisions of paragraphs (A) through (C), in which case the court may assess not less than 2 times the amount of damages, in addition to the amount of the consequential damages";

(4) striking out "not a member of the armed forces of the United States" the first place it appears;

(5) striking out "or" at the end of clause (5);

(6) striking out the period in clause (6) and inserting in lieu thereof "; or"; and

(7) adding at the end thereof the following:

"(7) knowingly makes, uses, or causes to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the Government.

"(b) Consequential damages as used in subsection (a) shall include damages which the United States would not have sustained but for—

"(1) the doing or commission of any of the acts prohibited by subsection (a); or

"(2) having entered into or made any contract or grant as a result of any material part of any false statement,

and which were reasonably foreseeable to the defendant at the time the alleged fraud was committed or at the time of the submission of the claim or statement.

"(c) For purposes of this section, the terms 'knowing' and 'knowingly' mean the defendant—

"(1) had actual knowledge;

"(2) acted in deliberate ignorance of the truth or falsity of the information; or

"(3) acted in reckless disregard of the truth or falsity of the information;

and no proof of specific intent to defraud is required.

"(d) For purposes of this section, 'claim' includes any request or demand whether under a contract or otherwise for money or property which is made to a contractor, grantee, or other recipient if the Government provides any portion of the money or property which is requested or demanded or if the Government will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded.

"(e)(1) The Attorney General or his designee may apply for provisional relief to any district court having jurisdiction pursuant to section 3732 whenever he has reasonable cause to believe this section or section 3730, or 3731 may have been violated. If the court finds there is a reasonable likelihood that the United States will prevail after trial on the merits of its claims, the court shall enjoin the defendant from taking any action which the court, in the exercise of its discretion, finds reasonably likely to hinder or delay the United States in the collection of any judgment which may be obtained in such action.

"(2) In addition, the court may from time to time make such other orders as it deems appropriate, including requiring the defendant to post security for judgment, to seek the prior approval of the court before making any transfer without adequate and full consideration, paying an antecedent debt which has matured more than thirty days prior to the date of payment, or otherwise engaging in any transaction not in the usual and regular course of the defendant's business. Except as provided in this section, such application and proceedings by the Attorney General shall be governed by Rule 65 of the Federal Rules of Civil Procedure.

"(f) Any information furnished pursuant to clauses (A) through (C) of subsection (a) shall be exempt from disclosure under section 552 of title 5.".

SEC. 2. Section 3730 of title 31, United States Code, is amended to read as follows:

"§ 3730. Civil actions for false claims

"(a) The Attorney General diligently shall investigate a violation under section 3729 of this title. If the Attorney General finds that a person has violated or is violating section 3729, the Attorney General may bring a civil action under this section against the person.

"(b)(1) Except as provided in subsection (e), a person may bring a civil action for a violation of section 3729 of this title for the person and for the United States Government. The action shall be brought in the name of the Government. An action may be dismissed only if the court and the Attorney General give written consent and their reasons for consenting.

"(2) A copy of the complaint and written disclosure of substantially all material evidence and information the person possesses shall be served on the Government under Rule 4(d)(4) of the Federal Rules of Civil Procedure. The complaint shall be filed in camera, shall remain under seal for at least 60 days, and shall not be served on the defendant until the court so orders. The Government may elect to intervene and proceed with the action within 60 days after it receives both the complaint and the material evidence.

"(3) The Government may, for good cause shown, move the court for stays and for extensions of the time during which the complaint shall remain under seal. Any such motions may be supported by affidavits or other submissions in camera. The defendant shall not be required to respond to any complaint filed under this section until 20 days after the complaint is unsealed and served upon him pursuant to Rule 4 of the Federal Rules of Civil Procedure.

"(4) Before the expiration of the initial 60-day period or any stays obtained, the Government shall—

"(A) proceed with the action, in which case the action shall be conducted only by the Government; or

"(B) notify the court that it declines to take over the action, in which case the action shall be conducted by the person bringing the action.

"(5) Where a person brings an action under this subsection, no person other than the Government may intervene or bring a related action based on the facts underlying the pending action.

"(c)(1) If the Government proceeds with the action, the action is conducted solely by the Government and it shall not be bound by an act of the person who initiated the action. If he so requests, the person bringing the action shall be served with copies of all pleadings filed in the action, shall be supplied with copies of all deposition transcripts (at his expense), and shall be permitted to file objections with the court and petition for an evidentiary hearing to object to any proposed settlement or to any motion to dismiss filed by the Government. The court may grant such an evidentiary hearing only upon a showing of substantial and particularized need. The person bringing the action may move the court for leave to conduct the action in the name of the United States if, after making its election to take over the suit, the Government does not proceed with the action with reasonable diligence within six months or such reasonable

additional time as the court may allow after notice.

"(2) If the Government elects not to proceed with the action, the action shall be conducted by the person who initiated the action. If the Government so requests, it shall be served with copies of all pleadings filed in the action and shall be supplied with copies of all deposition transcripts (at its expense). Where a person proceeds with the action in the name of the United States pursuant to subsection (b), the court may nevertheless permit the Government to intervene and proceed with the action by its own attorneys at a later date upon a showing of good cause.

"(3) Notwithstanding subsection (b), the Government may elect to pursue its claim through any alternate remedy available to it, including, but not limited to, any administrative civil money penalty proceeding.

"(d)(1) If the Government proceeds with the action, including any proceeding pursuant to subsection (c)(3), the person bringing the action may receive an amount the court decides is reasonable. The amount may not be less than 10 percent, nor more than 20 percent, of the proceeds of the action or settlement of a claim and shall be paid out of those proceeds.

"(2) If the Government does not proceed with an action, the person bringing the action or settling the claim may receive an amount the court decides is reasonable for collecting the civil penalty and damages. The amount may not be less than 20 percent, nor more than 30 percent, of the proceeds of the action or settlement and shall be paid out of those proceeds.

"(3) The amount awarded under this section shall be in the discretion of the court, taking into account—

"(A) the significance of the information provided to the Government;

"(B) the contribution of the person bringing the action to the result obtained; and

"(C) whether the information which formed the basis for the suit was known to the Government.

"(4) Where the persons brought an action based primarily on disclosures of specific information relating to allegations or transactions in a criminal, civil, or administrative hearing, a congressional or Government Accounting Office report or hearing, or from the news media, the court may award such sums as it deems appropriate, not to exceed 10 percent of the recovery and taking into account the significance of the information and the role of the person in advancing the case to litigation.

"(5) In addition to any other amounts awarded by the court, the court may also award the person bringing the action reasonable attorney fees and other expenses. The Government shall not be liable for the expenses or legal fees a person incurs in bringing or defending an action under this section.

"(6) If the Government does not proceed with the action and it is litigated by the person bringing the action, the court shall award to the defendant its reasonable attorney fees and expenses if the defendant prevails in such action and the court finds that the claim of the person bringing the action was clearly frivolous, vexatious, or brought for purposes of harassment. In cases where it appears that the person is bringing an action which is frivolous, vexatious, or brought for purposes of harassment, the court shall require such assurances that payment of legal fees and expenses will be made, if such are awarded, as it deems appropriate before allowing the action to proceed.

"(7) After any final judgment is issued in any action brought under this section, or any alternate remedy available to the Government, any person who brought an action under subsection (b) shall have 60 days to petition the court for any award to which he is entitled under this section.

"(e)(1) No court shall have jurisdiction over an action brought by a former or present member of the armed services under subsection (b) of this section against a member of the armed forces arising out of such person's service in the armed forces.

"(2) No court shall have jurisdiction over an action brought against a member of Congress, a member of the judiciary, or a senior executive branch official if the action is based on evidence or information known to the Government when the action was brought.

"(3) For purposes of this subsection, 'senior executive branch official' means those officials listed in section 201(f) of Appendix IV of title 5.

"(4) In no event may a person bring an action under this section based upon allegations or transactions which are the subject of a civil suit or an administrative civil money penalty proceeding in which the Government is already a party.

"(5)(A) No court shall have jurisdiction over an action under this section based upon the public disclosure of allegations or transactions in a criminal, civil, or administrative hearing, a congressional, administrative, or Government Accounting Office report, hearing, audit or investigation, or from the news media, unless the action is brought by the Attorney General or the person bringing the action is an original source of the information.

"(B) For purposes of this paragraph, 'original source' means an individual who has direct and independent knowledge of the information on which the allegations are based and has voluntarily informed the Government or the news media prior to an action filed by the Government.

"(f) The district courts shall have jurisdiction over any action brought under State law for the recovery of funds paid by State or local governments where such action grows out of the same transaction or occurrence as an action brought under this section.

"(g) The Attorney General or his designee is authorized to make payments from Department of Justice appropriations for information or assistance leading to a civil or criminal recovery under this section, section 3729, or sections 3731 through 3734, known as the False Claims Act or under section 286, 287, or 1001 of title 18. Any such payment shall be at the discretion of the Attorney General or his designee.

"(h) In civil actions brought under this section by the United States, the provisions of section 2412(d) of title 28 shall apply.

SEC. 3. Section 3731 of title 31, United States Code, is amended by—

(1) inserting before the period at the end of subsection (b) the following: "or within three years after the date when facts material to the right of action are known or reasonably should have been known by the official of the United States charged with responsibility to act in the circumstances, whichever occurs last"; and

(2) inserting after subsection (b), the following new subsections:

"(c) In any action brought under this section or section 3729, 3730, 3732, or 3733, the United States shall be required to prove all essential elements of the cause of action, including damages, by a preponderance of the evidence.

"(d) Notwithstanding any contrary provision of law, the Federal Rules of Criminal Procedure, or the Federal Rules of Evidence, a final judgment rendered in favor of the United States in any criminal proceeding charging fraud or false statements, whether upon a verdict after trial or upon a plea of guilty or nolo contendere, shall estop the defendant from denying the essential elements of the offense in any action brought by the United States pursuant to this section or section 3729, 3730, 3732, or 3733.".

SEC. 4. Subchapter III of chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following:

"§ 3732. False claims jurisdiction

"(a) The district courts of the United States, including such courts for Puerto Rico, the Virgin Islands, Guam, and any territory or possession of the United States, shall have jurisdiction over any action commenced by the United States under this section, or under section 3729, 3730, 3731, 3733, or 3734. Venue of any such action shall be proper in any district in which any defendant, or in the case of multiple defendants, any one defendant can be found, resides, transacts business, or in which any act prescribed by such sections is alleged by the United States to have occurred. A summons as required by the Federal Rules of Civil Procedure shall be issued by the district court and served at any place within the United States, Puerto Rico, the Virgin Islands, Guam, any territory or possession of the United States, or in any foreign country.

"(b) The United States Claims Court shall also have jurisdiction of any such action if the action is asserted by way of counterclaim by the United States. The United States may join as additional parties in such counterclaim all persons who may be jointly and severally liable with such party against whom a counterclaim is asserted by reason of having violated this section, or section 3729, 3730, 3731, or 3733, except that no cross-claims or third-party claims shall be asserted among such additional parties unless such claims are otherwise within the jurisdiction of the United States Claims Court.".

SEC. 5. Subchapter III of chapter 37 of the title 31, United States Code is further amended by adding at the end thereof the following:

"§ 3733. Civil investigative demands

"(a) For purposes of this section, the term—

"(1) 'False Claims Act law' means—

"(A) this section and sections 3729 through 3731 of this title, commonly known as the False Claims Act; and

"(B) any Act of Congress enacted after this section which prohibits, or makes available to the United States in any court of the United States any civil remedy with respect to any false claim, bribery, or corruption of any officer or employee of the United States;

"(2) 'False Claims Act investigation' means any inquiry conducted by any False Claims Act investigator for the purpose of ascertaining whether any person is or has been engaged in any violation of any provision of the False Claims Act law;

"(3) 'False Claims Act investigator' means any attorney or investigator employed by the Department of Justice who is charged

with the duty of enforcing or carrying into effect any False Claims Act law or any officer or employee of the United States acting under direction and supervision of such attorney or investigator in connection with a False Claims Act investigation;

"(4) 'person' means any natural person, partnership, corporation, association, or other legal entity, including any State or political subdivision;

"(5) 'documentary material' includes the original or any copy of any book, record, report, memorandum, paper, communication, tabulation, chart, or other document, or data compilations stored in or accessible through computer or other information retrieval systems, together with instructions and all other materials necessary to use or interpret such data compilations, and any product or discovery;

"(6) 'custodian' means the custodian, or any deputy custodian, designated by the Attorney General; and

"(7) 'product of discovery' includes without limitation the original or duplicate of any deposition, interrogatory, document, thing, result of an inspection of land or other property, examination, or admission obtained by any method of discovery in any judicial or administrative litigation or action of an adversarial nature, any digest, analysis, selection, compilation, or any derivation thereof, and any index or manner of access thereto.

"(b)(1)(A) Whenever the Attorney General has reason to believe that any person may be in possession, custody, or control of any documentary material, or may have any information relevant, and not otherwise reasonably available, to a False Claims Act investigation, he may, prior to the institution of a civil proceeding, issue in writing and cause to be served upon such person, a civil investigative demand requiring such person to produce such documentary material for inspection and copying, to answer in writing written interrogatories, to give oral testimony concerning documentary material or information, or to furnish any combination of such material, answers, or testimony. Whenever a civil investigative demand is an express demand for any product of discovery, the Attorney General shall cause to be served, in any manner authorized by this section, a copy of such demand upon the person from whom the discovery was obtained and notify the person to whom such demand is issued of the date on which such copy was served.

"(B) Notwithstanding the provisions of section 510 of title 28, the Attorney General may not authorize the performance of any function of the Attorney General vested in him pursuant to this paragraph, by any other officer, employee, or agency.

"(2)(A) Each such demand shall state the nature of the conduct constituting the alleged violation of a False Claims Act law which is under investigation, and the applicable provision of law.

"(B) If such demand is for production of documentary material, the demand shall—

"(i) describe each class of documentary material to be produced with such definiteness and certainty as to permit such material to be fairly identified;

"(ii) prescribe a return date for each such class which will provide a reasonable period of time within which the material so demanded may be assembled and made available for inspection, and copying; and

"(iii) identify the False Claims Act investigator to whom such material shall be made available.

"(C) If such demand is for answers to written interrogatories, the demand shall—

"(i) set forth with definiteness and certainty the written interrogatories to be answered;

"(ii) prescribe dates at which time answers to written interrogatories shall be submitted; and

"(iii) identify the False Claims Act investigator to whom such answers shall be submitted.

"(D) If such demand is for the giving of oral testimony, the demand shall—

"(i) prescribe a date, time, and place at which oral testimony shall be commenced;

"(ii) identify a False Claims Act investigator who shall conduct the examination and the custodian to whom the transcript of such examination shall be submitted;

"(iii) specify that such attendance and testimony are necessary to the conduct of the investigation;

"(iv) notify the person receiving the subpoena of the right to be accompanied by an attorney and any other representative; and

"(v) describe the general purpose for which the subpoena is being issued and the general nature of the testimony, including the primary areas of inquiry, which will be taken pursuant to the subpoena.

Any such demand which is an express demand for any product of discovery shall not be returned or returnable until twenty days after a copy of such demand has been served upon the person from whom the discovery was obtained.

"(E) The date prescribed for the commencement of oral testimony pursuant to a civil investigation demand issued under this section shall be a date which is not less than seven days after the date on which demand is received, unless the Attorney General or an Assistant Attorney General designated by the Attorney General determines that exceptional circumstance are present which warrant the commencement of such testimony within a lessor period of time.

"(F) Any official before whom oral testimony under this section is to be taken shall exclude from the place where the testimony is to be taken all persons except the person giving the testimony, the attorney and any other representative for the person giving the testimony, the attorney for the Government, any person who may be agreed upon by the attorney for the Government, and the person giving the testimony, and any stenographer taking such testimony.

"(G) The Attorney General shall not authorize a second demand for oral testimony to a person unless such person requests otherwise or unless the Attorney General, after investigation, notifies that person in writing that an additional demand for oral testimony is necessary. The Attorney General may not authorize the performance of any function vested in him under this subparagraph, by any other officer, employee, or agency, notwithstanding section 510 of title 28.".

"(c)(1) No such demand shall require the production of any documentary material, the submission of any answers to written interrogatories, or the giving of any oral testimony if such material, answers, or testimony would be protected from disclosure under—

"(A) the standards applicable to subpoenas or subpoenas duces tecum issued by a court of the United States to aid in a grand jury investigation; or

"(B) the standards applicable to discovery requests under the Federal Rules of Civil Procedure, to the extent that the application of such standards to any such demand is appropriate and consistent with the provisions and purposes of this section and sections 3729 through 3731.

"(2) Any such demand which is an express demand for any product of discovery supersedes any inconsistent order, rule, or provision of law (other than this section) preventing or restraining disclosure of such product of discovery to any person. Disclosure of any product of discovery pursuant to any such express demand does not constitute a waiver of any right or privilege which may be invoked to resist discovery of trial preparation materials to which the person making such disclosure may be entitled.

"(d)(1) Any such demand may be served by any False Claims Act investigator, or by any United States Marshal or Deputy Marshal, at any place within the United States.

"(2) Any such demand or any petition filed under subsection (k) may be served upon any person who is not found within the United States, in such manner as the Federal Rules of Civil Procedures prescribe for service in a foreign country. To the extent that the courts of the United States can assert jurisdiction over such person consistent with due process, the United States District Court for the District of Columbia shall have the same jurisdiction to take any action respecting compliance with this section by such person that such court would have if such person were personally within the jurisdiction of such court.

"(e)(1) Service of any such demand or of any petition filed under subsection (k) may be made upon a partnership, corporation, association, or other legal entity by—

"(A) delivering an executed copy thereof to any partner, executive officer, managing agent, or general agent thereof, or to any agent thereof authorized by appointment or by law to receive service of process on behalf of such partnership, corporation, association, or entity;

"(B) delivering an executed copy thereof to the principal office or place of business of the partnership, corporation, or entity to be served; or

"(C) depositing such copy in the United States mails, by registered or certified mail, return receipt requested, addressed to such partnership, corporation, association, or entity at its principal office or place of business.

"(2) Service of any such demand or of any petition filed under subsection (k) may be made upon any natural person by—

"(A) delivering an executed copy thereof to the person to be served; or

"(B) depositing such copy in the United States mails by registered or certified mail, return receipt requested, addressed to such person at his residence or principal office or place of business.

"(f) A verified return by the individual serving any such demand or petition setting forth the manner of such service shall be proof of such service. In the case of service by registered or certified mail, such return shall be accompanied by the return post office receipt of delivery of such demand.

"(g) The production of documentary material in response to a demand served pursuant to this section shall be made under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person having knowledge of the facts and circumstances relating to such production and authorized to act on behalf of such person. The certificate shall state that all of the documentary material required by the

demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the custodian.

"(h) Each interrogatory in a demand served pursuant to this section shall be answered separately and fully in writing under oath unless it is objected to, in which event the reasons for the objection shall be stated in lieu of any answer, and it shall be submitted under a sworn certificate, in such form as the demand designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person or persons responsible for answering each interrogatory. The certificate shall state that all information required by the demand and in the possession, custody, control, or knowledge of the person to whom the demand is directed has been submitted. To the extent that any materials are not furnished, they shall be identified and reasons set forth with particularity for each.

"(i)(1) The examination of any person pursuant to a demand for oral testimony served under this section shall be taken before an officer authorized to administer oaths and affirmations by the laws of the United States or of the place where the examination is held. The officer before whom the testimony is to be taken shall put the witness on oath or affirmation and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed. When the testimony is fully transcribed, the officer before whom the testimony is taken shall promptly transmit a copy of the transcript of the testimony to the custodian. This subsection shall not preclude the taking of testimony by any means authorized by, and in a manner consistent with, the Federal Rules of Civil Procedure.

"(2) The False Claims Act investigator conducting the examination shall exclude from the place where the examination is held all other persons except the person being examined, his counsel, the officer before whom the testimony is to be taken, and any other stenographer taking such testimony.

"(3) The oral testimony of any person taken pursuant to a demand served under this section shall be taken in the judicial district of the United States within which such person resides, is found, or transacts business, or in such other place as may be agreed upon by the False Claims Act investigator conducting the examination and such person.

"(4) When the testimony is fully transcribed, the False Claims Act investigator or the officer shall afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine the transcript and the transcript shall be read to or by the witness, unless such examination and reading are waived by the witness. Any changes in form or substance which the witness desires to make shall be entered and identified upon the transcript by the officer or the False Claims Act investigator with a statement of the reasons given by the witness for making such changes. The transcript shall then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the transcript is not signed by the witness within thirty days after his being afforded a reasonable opportunity to examine it, the officer or the False Claims Act investigator shall sign it and state on the record the fact of the waiver, illness, absence of the witness, or the refusal to sign, together with the reason, if any, given therefor. A refusal to sign or an unreasonable absence shall be deemed to be an acknowledgment of its accuracy and an affirmation of its contents.

"(5) The officer shall certify on the transcript that the witness was sworn by him and that the transcript is a true record of the testimony given by the witness, and the officer or False Claims Act investigator shall promptly deliver it or send it by registered or certified mail to the custodian.

"(6) Upon payment of reasonable charges therefor, the False Claims Act investigator shall furnish a copy of the transcript to the witness only, except that the Attorney General, the Deputy Attorney General, or an Assistant Attorney General may, for good cause, limit such witness to inspection of the official transcript of his testimony.

"(7)(A) Any person compelled to appear under a demand for oral testimony pursuant to this section may be accompanied, represented, and advised by counsel. Counsel may advise such person, in confidence, with respect to any question asked of such person. Such person or counsel may object on the record to any question, in whole or in part, and shall briefly state for the record the reason for the objection. An objection may be properly made, received, and entered upon the record when it is claimed that such person is entitled to refuse to answer the question on grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. Such person shall not otherwise object to or refuse to answer any question, and shall not by himself or through counsel otherwise interrupt the oral examination. If such person refuses to answer any question, the False Claims Act investigator conducting the examination may petition the district court of the United States pursuant to subsection (k)(1) for an order compelling such person to answer such question.

"(B) If such person refuses to answer any question on the grounds of the privilege against self-incrimination, the testimony of such person may be compelled in accordance with the provisions of part V of title 18.

"(8) Any person appearing for oral examination pursuant to a demand served under this section shall be entitled to the same fees and mileage which are paid to witnesses in the district courts of the United States.

"(j)(1) The Attorney General, or his authorized designee shall designate a False Claims Act investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section, and shall designate such additional False Claims Act investigators as he determines from time to time to be necessary to serve as deputies to such officer.

"(2) Any person upon whom any demand under subsection (b)(1) for the production of documentary material has been served shall make such material available for inspection and copying to the False Claims Act investigator designated therein at the principal place of business of such person, or at such other place as such False Claims Act investigator and such person thereafter may agree and prescribe in writing, or as the court may direct pursuant to subsection (k)(1) on the return date specified in such demand, or on such later date as such custodian may prescribe in writing. Such person may, upon written agreement between such person and the custodian, substitute copies for originals of all or any part of such material.

"(3)(A) The False Claims Act investigator to whom any documentary material, answers to interrogatories, or transcripts of oral testimony are delivered shall take physical possession thereof, and shall transmit them to the custodian who shall be responsible for the use made thereof and for the return of documentary material pursuant to this section.

"(B) The custodian may cause the preparation of such copies of such documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by any authorized official or employee of the Department of Justice or any authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation, under regulations promulgated by the Attorney General. Notwithstanding subparagraph (C) of this subsection, such material, answers, and transcripts may be used by any such person in connection with the taking of oral testimony pursuant to this section.

"(C) Except as otherwise provided in this section, while in the possession of the custodian, no documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, so produced shall be available for examination, without the consent of the person who produced such material, answers, or transcripts, and, in the case of any product of discovery produced pursuant to an express demand for such material, of the person from whom the discovery was obtained, by any individual other than an authorized official or employee of the Department of Justice, or an authorized officer or employee of the United States acting under the direction and supervision of an attorney or investigator of the Department of Justice in connection with any False Claims Act investigation. Nothing in this section is intended to prevent disclosure to either body of the Congress or to any authorized committee or subcommittee thereof, or to any other agency of the United States for use by such agency in furtherance of its statutory responsibilities. Disclosure to any other agency of the United States shall be allowed only upon application, made by the custodian to a United States district court, showing substantial need for use by such agency in furtherance of its statutory responsibilities.

"(D) While in the possession of the custodian and under such reasonable terms and conditions as the Attorney General shall prescribe—

"(i) documentary material and answers to interrogatories shall be available for examination by the person who produced such material or answers, or by an authorized representative of such person; and

"(ii) transcripts of oral testimony shall be available for examination by the person who produced such testimony, or his counsel.

"(4) Whenever any attorney of the Department of Justice has been designated to appear before any court, grand jury, or Federal administrative or regulatory agency in any case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony may deliver to such attorney such material, answers, or transcripts for official use in connection with any such case, grand jury, or proceeding as such attorney determines to be required. Upon the completion of any such case, grand jury, or proceeding, such

attorney shall return to the custodian any such material, answers, or transcripts so delivered which have not passed into the control of such court, grand jury, or agency through the introduction thereof into the record of such case or proceeding.

"(5) If any documentary material has been produced in the course of any False Claims Act investigation by any person pursuant to a demand under this section, and—

"(A) any case or proceeding before any court or grand jury arising out of such investigation, or any proceeding before any Federal administrative or regulatory agency involving such material, has been completed, or

"(B) no case or proceeding in which such material may be used has been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of such investigation,

the custodian shall, upon written request of the person who produced such material, return to such person any such material (other than copies thereof furnished to the custodian pursuant to paragraph (2) of this subsection or made by the Department of Justice pursuant to paragraph (3)(B) of this subsection) which has not passed into the control of any court, grand jury, or agency through the introduction thereof into the record of such case or proceedings.

"(6) In the event of the death, disability, or separation from service in the Department of Justice of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced under any demand issued pursuant to this section, or of the official relief of such custodian from responsibility for the custody and control of such material, answers or transcripts, the Attorney General or his authorized designee shall promptly (A) designate another False Claims Act investigator to serve as custodian of such material, answers, or transcripts, and (B) transmit in writing to the person who produced such material, answers, or testimony notice as to the identity and address of the successor so designated. Any successor designated under this subsection shall have, with regard to such material, answers or transcripts, all duties and responsibilities imposed by this Act upon his predecessor in office with regard thereto, except that he shall not be held responsible for any default or dereliction which occurred prior to his designation.

"(k)(1) Whenever any person fails to comply with any civil investigative demand served upon him under subsection (b) or whenever satisfactory copying or reproduction of any such material cannot be done and such person refuses to surrender such material, the Attorney General, through such officers or attorneys as he may designate, may file in the district court of the United States for any judicial district in which such person resides, is found, or transacts business, and serve upon such person a petition for an order of such court for the enforcement of this section.

"(2)(A) Within twenty days after the service of any such demand upon any person, or at any time before the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, such person may file, in the district court of the United States for the judicial district within which such person resides, is found, or transacts business, and serve upon such False Claims Act investigator a petition for an order of such court, modifying or setting aside such demand. In the case of a petition addressed to an express demand for any product of discovery, a petition to modify or set aside such demand may be brought only in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending.

"(B) The time allowed for compliance with the demand, in whole or in part, as deemed proper and ordered by the court shall not run during the pendency of such petition in the court, except that such person shall comply with any portions of the demand not sought to be modified or set aside. Such petition shall specify each ground upon which the petitioner relies in seeking such relief, and may be based upon any failure of such demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of such person.

"(3) Within twenty days after the service of any express demand for any product of discovery upon, or at any time before, the return date specified in the demand, whichever period is shorter, or within such period exceeding twenty days after service or in excess of such return date as may be prescribed in writing, subsequent to service, by any False Claims Act investigator named in the demand, the person from whom such discovery was obtained may file, in the district court of the United States for the judicial district in which the proceeding in which such discovery was obtained is or was last pending, and serve upon any False Claims Act investigator named in the demand and upon the recipient of the demand, a petition for an order of such court modifying or setting aside those portions of the demand requiring production of any such product of discovery. Such petition shall specify each ground upon which the petitioner relies in seeking such relief and may be based upon any failure of such portions of the demand to comply with the provisions of this section, or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of such petition, the court may stay, as it deems proper, compliance with the demand and the running of the time allowed for compliance with the demand.

"(4) At any time during which any custodian is in custody or control of any documentary material, answers to interrogatories delivered, or transcripts of oral testimony given by any person in compliance with any such demand, such person, and in the case of an express demand for any product of discovery, the person from whom such discovery was obtained, may file, in the district court of the United States for the judicial district within which the office of such custodian is situated, and serve upon such custodian, a petition for an order of such court requiring the performance by such custodian of any duty imposed upon him by this section.

"(5) Whenever any petition is filed in any district court of the United States under this section, such court shall have jurisdiction to hear and determine the matter so presented, and to enter such order or orders as may be required to carry into effect the provisions of this section. Any final order so entered shall be subject to appeal pursuant to section 1291 of title 28. Any disobedience of any final order entered under this section by any court shall be punished as a contempt thereof.

"(6) To the extent that such rules may have application and are not inconsistent with the provisions of this section, the Federal Rules of Civil Procedure shall apply to any petition under this subsection.

"(7) Any documentary material, answers to written interrogatories, or oral testimony provided pursuant to any demand issued under this section and sections 3729 through 3731 shall be exempt from disclosure under section 552 of title 5.".

SEC. 6. (a) Subchapter III of chapter 37 of title 31, United States Code, is further amended by adding at the end thereof the following:

"§ 3734. Whistleblower protection

"Any employee who is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms or conditions of such employment by his employer because of the good faith exercise by such employee on behalf of himself or others of any option afforded by this Act, including investigation for, initiation of, testimony for, or assistance in an action filed or to be filed under this Act, shall be entitled to all relief necessary to make him whole. Such relief shall include reinstatement with full seniority rights, backpay with interest, and compensation for any special damages sustained as a result of the discrimination, including litigation costs and reasonable attorney fees. In addition, the employer shall be liable to such employee for twice the amount of backpay and special damages and, if appropriate under the circumstances, the court shall award punitive damages.".

(b) The table of sections for chapter 37 of title 31, United States Code, is amended by adding at the end thereof the following new items:

"3732. False claims jurisdiction.
"3733. Civil investigative demands.
"3734. Whistleblower protection.".

SEC. 7. (a) Section 286 of title 18, United States Code, is amended by striking out "$10,000" and inserting in lieu thereof "$1,000,000 notwithstanding the provisions of section 3623,".

(b) Section 287 of title 18, United States Code, is amended by striking out "$10,000, or imprisoned not more than five years" and inserting in lieu thereof "$1,000,000, or imprisoned for not more than ten years, or both, notwithstanding the provisions of section 3623".

SEC. 8. This Act and the amendments made by this Act shall become effective upon the date of enactment.

## AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES AND THE SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. BOSCHWITZ. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources and the Select Committee on Indian Affairs be authorized to hold a joint hearing, during the session of the Senate on Monday, August 11, to consider S. 2676, to provide for the settlement of water rights claims of the La Jolla, Rincon, San Pasqual, Pauma, Pala Bands of Mission Indians in San Diego County, CA, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON WATER AND POWER

Mr. BOSCHWITZ. Mr. President, I ask unanimous consent that the Subcommittee on Water and Power of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Monday, August 11, to hold hearing on S. 2635, to protect the integrity and quality of certain reaches of the Henry's Fork of the Snake River, ID, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ADDITIONAL STATEMENTS

### CHILD NUTRITION AMENDMENT

● Mr. BOSCHWITZ. Mr. President, I rise in support of the amendment offered by Senator HAWKINS. It has taken many months and a lot of work on all sides to hammer out this compromise on H.R. 7. The Senate passed reauthorization legislation in November and we began to conference with the House in February.

This represents a compromise agreement worked out with the House Committee on Education and Labor. It is a 4-year reauthorization and adds $46 million for modest increases in school breakfast, special milk, and private schools with limited tuitions. There are several provisions designed to streamline and improve the programs, but there is no major rearrangement of priorities. I want to point out as a member of the Senate Budget Committee committed to getting our fiscal affairs in order that passage of this conference agreement was assumed in the budget resolution and is specifically referred to in the conference report on the budget resolution.

Some of the improvements made in this bill include: requiring whole milk to be offered in all school lunches; categorical eligibility for free lunches and breakfast for children who participate in AFDC or Food Stamps; allowing the use of school food service personnel and facilities to support elderly feeding programs; and, making States ineligible to administer the program if State or local sales tax is collected on WIC food purchases.

I'd like to commend Senator HAWKINS for bringing child nutrition reauthorization to the attention of the Senate. The five expiring child nutrition programs were due to be reauthorized by the end of fiscal year 1984. It's time the Senate be allowed to consider the conference agreement on reauthorization. The Senate Agriculture Committee has certainly had a full agenda this year with little opportunity to turn its attention to child nutrition. However, I think the hearings that were held both last year and this year and the staff work that was done both last year and this year have brought us to the point of being ready to pass a child nutrition reauthorization bill.

The five expiring child nutrition programs include: the Special Supplemental Food Program for Women, Infants and Children; the Summer Food Service Program; the State Administrative Expense [SAE] Program, the Commodity Distribution Program, and the Nutrition Education and Training Program. All other child nutrition programs, for example school lunch and school breakfast, are permanently authorized.

The Special Supplemental Food Program for Women, Infants and Children, better known as WIC, provides supplemental foods and nutrition education to low-income pregnant, postpartum, and lactating women, infants and children up to 5 years old. The Summer Food Program provides meals in the summer to children in low-income areas through schools, local government agencies and summer camps. The State Administrative Expense Program authorizes funding to States for their administrative expenses associated with operating the School Lunch, School Breakfast, Special Milk, and Child Care Food Programs. The Commodity Distribution Program requires the use of agricultural support funds to purchase commodities for the child nutrition programs and for the elderly programs—Meals on Wheels and Congregate Dining. The Nutrition Education and Training Program provides grants to State education agencies for comprehensive nutrition education and training programs. This is the second year these programs have been appropriated but not authorized.

In my opinion this is an eminently reasonable compromise that will enable us to get the child nutrition programs reauthorized and signed into law. I urge my colleagues to support his amendment.●

### THANK YOU TO VOLUNTEERS FOR KIDS HOT AIR BALLOON RALLY

● Mr. NUNN. Mr. President, I should like to take this opportunity to commend a group of dedicated volunteers for their outstanding and successful efforts in the second annual KIDS Hot Air Balloon Rally, which took place June 6-8, 1986 on Comsat properties in Clarksburg, MD. KIDS, Inc., is a national nonprofit charitable organization, working to fulfill the wishes of 200 gravely ill children this year. Toward this purpose, 40 balloonists and their crews, a host of volunteers, a number of generous sponsors and civic emergency teams all worked diligently to ensure that the KIDS Balloon Rally was both safe and enjoyable for the several thousand spectators who attended.

I particularly wish to commend Mrs. Sherry Shannon, who chaired the event, and U.S. Capitol Police Officer Robert Fitzpatrick, who was the master of ceremonies. Along with other members of the U.S. Capitol Police: Chief James J. Carvino; Sgt. Lee Bierly, Sgt. Amy Phillips, Sgt. Mike Garifo, Sgt. Paul Basak, Officers Rick Pasciuto, Brian Sherrill, Alan Morris, Sean Norton, Bob Dinndorf, Thomas Williams, Brian Southard, Mark Hood, Glen O'Neil; Mrs. Mary Lou Duggan; Christine and Bill covey; Ms. Marie Tracz; Mrs. Andrea Gray; Ms. Lesa Sawicki; Ms. Kaye Sloan Burke; Ms. Judith Whittlesey; and Mrs. Beth Fitzpatrick all volunteered an enormous amount of time and effort to make the event a success.

Sponsors of the organization and the event include Anton Nissan-BMW; BDM International; Comsat; the Adolph Coors Co.; Criswell Chevrolet; the Susan Davis Co.'; Dravo; Embassy Dairy; The Equitable; Gould Electronics; The Harvey Co.; The Hechinger Foundation; Hughes Aircraft Co.; Kool-Aid; Lederle Laboratories; Lipsen, Hamberger, Whitten & Hamberger; Lockheed International; Mantech International; Manufacturers Financial Group; McDonnell Douglas Corp.; Milk Industry Foundation; Phillip Morris, Inc.; Planning Research Corp.; Potato Chip/Snack Food Association; Ramada; R.J. Reynolds Tobacco Co.; Rockwell International, Inc.; and Virginia Financial Group. The Montgomery County Police and Fire and Rescue Departments, as well as the Maryland State Police, ensured a safe weekend. As a member of the board of advisers I extend my congratulations on an outstanding event to all who worked so industriously and gave so generously to assist children who cannot assist themselves.●

### NELLIE'S FARM FUND AND THE SPIRIT OF PRIVATE AID

● Mr. KASTEN. Mr. President, it is no secret that farm families across America are suffering through difficult times.

Many who farm in drought-stricken areas of the Nation are watching their life work burn away. Virtually all farmers are struggling with low prices for agricultural goods, declining farm land values, and foreign markets that are difficult, if not impossible, to enter.

Mr. President, hardly a bill comes to the Senate floor that doesn't carry in it a proposal for legislative relief for farmers. The Congress of the United States has worked to legislate equity for farmers since Thomas Jefferson praised the virtues of agrarian society. We agonize over every detail of every

farm bill that comes before us, hoping to find the perfect combination of Federal assistance and free enterprise incentives to keep our farm economy strong and productive.

But for every Federal fix Congress has devised, new wrinkles have developed in the business of agriculture. And the continuing crisis in rural America has led many to question if perhaps increased private sector involvement isn't a viable route to turning the tide.

Mr. President, I offer the story of Milwaukee's Don Nelson as an example of a unique private sector initiative to help alleviate the devastating effects of the farm crisis.

Those of us in the Senate who represent States boasting National Basketball Association teams, or who have played NBA basketball, know well the name Don Nelson.

A former basketball player who starred on many Boston Celtics' NBA championship teams, Don Nelson now is the coach of the Milwaukee Bucks. But, today, he is gaining a reputation that extends far beyond the bounds of a basketball court. While his mind certainly is focused on how he can lead the Bucks to next season's NBA championship, his heart and energy are concentrated on helping those less fortunate than himself.

Don Nelson is becoming a leader among private individuals who have committed themselves and their personal resources to helping struggling farm families.

Nr. Nelson is developing what has come to be affectionately termed in the Wisconsin media as Nellie's Farm Fund. The fund isn't designed to funnel cash to financially strapped farmers. Rather, it is designed to help underwrite the work of experts who will provide farmers with an extensive financial analysis and management plan to help those farmers help themselves.

Mr. President, this is an inspired free enterprise approach to a financial crisis that is forcing many of Wisconsin farmers off the land. Mr. Nelson's idea is that if farmers learn how to better manage the resources at hand they will be able to pull themselves out of the flood of financial woes that threatens to sink them.

And now Mr. Nelson is challenging the people of Wisconsin and America to join together to help our beleaguered farmer families—not by doling out cash to buy financially distressed farmers out of their troubles, but by providing the resources to help farmers help themselves.

He has contributed his time and his energy to get this well-thought-out farm fund off the ground. And now he is turning to people across Wisconsin to join in his effort.

This week, Nelson will be driving a tractor pulling a giant piggy bank from Milwaukee to Wausau, WI, to draw attention to the plight of Wisconsin's farm families. Case International Harvester Corp. of Racine donated the tractor, which Nelson will give to a needy farmer at the conclusion of his drive. Along the way, with stops in Menomonee Falls, West Bend, Fond du Lac, Oshkosh, Appleton, Green Bay, Shawano, and Birnamwood, he will be collecting donations.

Since beginning his fund in June, Nelson has staged a charity basketball game between Milwaukee Bucks' rookies and former University of Wisconsin-Stevens Point players which raised $50,000 and has taken pledges on a personal weight loss program that could net another $100,000. Nelson's goal is to collect half-a-million dollars this year.

Mr. President, Don Nelson is a fine example of the spirit of private America in which our President has placed so much faith to help turn America back onto the trail of expanded economic growth and success.

I commend Mr. Nelson and all he is doing for Wisconsin's beleaguered farmers. And I hope others in other farm States that are suffering from the current malaise in the agriculture economy and the devastating drought will follow his lead.●

## BUDGET SCOREKEEPING REPORT

● Mr. DOMENICI. Mr. President, I hereby submit to the Senate the budget scorekeeping report for this week, prepared by the Congressional Budget Office in response to section 308(b) of the Congressional Budget Act of 1974, as amended. This report also serves as the scorekeeping report for the purposes of section 311 of the Budget Act.

The report follows:

CONGRESSIONAL BUDGET OFFICE,
U.S. CONGRESS,
*Washington, DC, August 11, 1986.*

Hon. PETE V. DOMENICI,
*Chairman, Committee on the Budget, U.S. Senate, Washington, D.C.*

DEAR MR. CHAIRMAN: The attached report shows the effects of Congressional action on the budget for fiscal years 1986 and 1987. The estimated totals of budget authority, outlays, and revenues for each fiscal year are compared to the appropriate or recommended levels contained in the most recent budget resolutions, S. Con. Res. 32 for fiscal year 1986, and S. Con. Res. 120 for fiscal year 1987. This report meets the requirements for Senate scorekeeping of Section 5 of S. Con. Res. 32 and is current through August 8, 1986. The report is submitted under Section 308(b) and in aid of Section 311 of the Congressional Budget Act, as amended.

No changes have occurred since my last report.

With best wishes,
Sincerely,

RUDOLPH G. PENNER.

### CBO WEEKLY SCOREKEEPING REPORT FOR THE U.S. SENATE 99TH CONGRESS, 2D SESSION AS OF AUGUST 8, 1986

[In billions of dollars and fiscal year 1986]

| | Current level [1] | Budget resolution S. Con. Res. 32 | Current level +/− resolution |
|---|---|---|---|
| Budget authority | 1,053.0 | 1,069.7 | −16.7 |
| Outlays | 980.0 | 967.6 | 12.4 |
| Revenues | 778.5 | 795.7 | −17.2 |
| Debt subject to limit | 2,076.8 | [2] 2,078.7 | −1.9 |

[1] The current level represents the estimated revenue and direct spending effects (budget authority and outlays) of all legislation that Congress enacted in this or previous sessions or sent to the President for his approval. In addition, estimates are included of the direct spending effects for all entitlement or other programs requiring annual appropriations under current law even though the appropriations have not been made. The current level of debt subject to limit reflects the latest U.S. Treasury information on public debt transactions.

[2] The current statutory debt limit is $2,078.7 billion.

## A SALUTE TO BARRY AND HOMER, INC.

● Mr. SPECTER. Mr. President, I would like to recognize and commend a company that has been an immense service to the community of Philadelphia, PA. As one of America's oldest custom photographic labs, Barry & Homer, Inc., has remained 88 years within Philadelphia and has strengthened the city's economy by providing jobs for many Pennsylvanians.

In an age of technological advancement and competition, Barry & Homer, Inc., has the newest and largest facilities of its type anywhere. Barry & Homer, Inc., demonstrates its commercial strength and health by conducting business in all 50 States and by aiding many of the Nation's photographers, advertising agencies, graphic design studios, museums, and other industrial firms.

Under the leadership of President Joseph B. Thompson, now sole owner of Barry & Homer, Inc., the firm continues to be a major employer. Through Mr. Thompson's dedication and personal involvement with the firm and employees, he has made an outstanding contribution to national industry and has brought great credit upon himself, upon Barry & Homer, Inc., and upon the national photo processing industry.

The quality of work from Barry & Homer, Inc., has entitled them to process, print, and mount photos, slides, and transparencies for photographers, museums, architects, advertising agencies, and other commercial uses. Their mural works are displayed in museums and government installations throughout Pennsylvania and the Nation. Barry & Homer quality sets the standard for many enterprises in Pennsylvania.

Mr. President, this U.S. Senate recognition of Barry & Homer, Inc., serves as a citation of excellence of their professionalism and high reputation.●

## IN MEMORY OF BILL SCHROEDER

● Mr. McCONNELL. Mr. President, it is with great sadness that I bring to the attention of my colleagues the death of William J. Schroeder in Louisville, KY. Mr. Schroeder, a 54-year-old Jasper, IN native, lived for 620 days after becoming the second of five recipients since 1982 who have received Jarvik-7 permanent heart implants.

Dr. William C. DeVries, a surgeon at the Humana Heart Institute has been in the forefront of the movement to test the Jarvik-7 heart as a permanent replacement. Dr. DeVries has performed a total of five transplants and is eager to continue the program.

Mr. Schroeder's family has voiced unqualified support for the Artificial Heart Program and feels it should continue. It is noteworthy that Bill Schroeder was the only recipient of an artificial heart who was able to leave the hospital during his recuperation. In fact, he lived for a time in a specially equipped apartment and was able to attend a German festival in his hometown last August.

We all mourn his death and express our sympathy to this family, but we should be inspired by spunky Bill Schroeder's attitude and outlook. In addition, we wish the Humana Heart Institute success with its program in the future.

Mr. President, I ask that the two attached New York Times articles which highlight the strength and courage of artificial heart recipient Bill Schroeder be printed in the RECORD:

TURBULENT STORY OF LONGEST SURVIVAL BEGAN ON BRINK OF DEATH

(By Robert D. McFadden)

William J. Schroeder, who died yesterday after surviving 620 days with a permanent artificial heart, had been given little more than a week to live when he became the second recipient of the device in an operation on Nov. 25, 1984, at Humana Hospital-Audubon in Louisville, Ky.

In succeeding months he recovered somewhat, but episodes of fever, weakness, depression and, finally, a series of seizures left him listless and disoriented. Doctors repeatedly put off plans to discharge him from the hospital, although he was twice able to live for brief periods in a specially equipped apartment nearby.

Mr. Schroeder, a 54-year-old retired Federal worker from Jasper, Ind., returned to the Louisville hospital last November after suffering yet another stroke. Yesterday, he took a turn for the worse and his family was summoned to his bedside. He died at 1:35 p.m.

Mr. Schroeder received the artificial heart in a seven-hour operation performed by a 17-member surgical team led by Dr. William C. DeVries, the surgeon who two years earlier implanted the first permanent artificial heart in Dr. Barney B. Clark, a retired Seattle dentist. Dr. Clark lived 112 days before succumbing to complications that were not directly related to his plastic-and-metal heart.

A SERIES OF STROKES

Mr. Schroeder was making a remarkable recovery from the implant operation when he suffered several strokes Dec. 13, 1984, that damaged small areas of his brain and affected his speech, movements and memory.

Mr. Schroeder had recovered sufficiently by April 6, 1985 to leave Humana and move into a nearby apartment, a specially equipped "half-way house," where he could receive round-the-clock nursing care and where he and his wife, Margaret, could have a more normal life.

His spirits, which had been depressed, were reported improved in that period. He took several excursions in a special van, including a visit to two of his doctors' homes and a fishing trip to a small lake near Louiville.

In early May, however, he took a turn for the worse, becoming listless and too weak to leave his bed. He was given blood transfusions, but because of the lethargy he was returned to the hospital.

BLEEDING IN BRAIN

A CAT scan, an advanced X-ray technique showed that he had suffered from bleeding in the brain, said Robert Irvine, a spokesman for the hospital. The cause of the hemorrhage was unknown, he said. The CAT scan, or computerized axial tomography, records thin cross-sections of soft tissue and bone and provides more detailed images than conventional X-rays.

Mr. Schroeder was released from the hospital in August and returned to the apartment, where he lived until Nov. 10, when he suffered another stroke.

At the time of his implant operation, Mr. Schroeder (pronounced SHRAYder) was in the last and worst stage of heart disease.

An outgoing, active man who smoked cigarettes for 30 years before quitting in 1982, Mr. Schroeder was described by companions as a hard worker who found it difficult to slow down. His parents both died of heart attacks in their 50's.

Mr. Schroeder had his first heart attack in 1982, and suffered another one a year later.

He underwent a coronary bypass operation in 1983 but continued to suffer from coronary artery disease, a condition that afflicts millions of Americans, and congestive heart failure, a devastating condition that can be fatal and had resulted from deterioration of Dr. Clark's heart muscle.

By the fall of 1984, Mr. Schroeder was unable to carry out normal physical activity without discomfort. He could not walk 20 feet without stopping to catch his breath and was often troubled at night by breathing difficulties, a result of his failing heart.

One day after he underwent successful gall bladder surgery Nov. 17 he was unanimously selected for an artificial heart by a committee at Humana.

In the week preceding his operation, Mr. Schroeder's condition deteriorated rapidly. He was suffering from diabetes as well as severe heart disease, and the artificial heart surgery was considered an urgent, though not an emergency, procedure. The doctors said they would have preferred to wait another week, but they could not because of his failing condition.

"He can't live much longer without it, yet I think he is strong enough to survive it." Dr. Allan M. Lansing, chairman and medical director of the institute, said on the eve of the operation.

Dr. Lansing, who had performed the 1983 coronary bypass on Mr. Schroeder, characterized the patient's mood as hopeful but realistic about the odds against him. Mr. Schroeder, a Roman Catholic, was given the last rites of his church.

The operation began at 8 A.M. and as it proceeded, music floated through the operating room, including pieces by Vivaldi, Mendelssohn and Grover Washington Jr. Dr. DeVries, who likes to listen to music while he operates, had listened to Ravel's "Bolero" during the surgery on Dr. Clark.

Mr. Schroeder was wheeled into the recovery room at 2:45 P.M., and at 4:18 he opened his eyes and squeezed the outstretched hands of Dr. DeVries and Dr. Lansing.

"Everything went well, perfectly," Dr. DeVries told him.

A bleeding complication later in the evening required additional surgery and an infusion of 16 pints of blood, but that, too, was completed successfully as Mr. Schroeder's wife and their six children waited in the hospital.

POSSIBLE COMPLICATIONS

Connected to a mechanical respirator, Mr. Schroeder faced a host of difficulties in the days after the implant.

Heading the list, in addition to bleeding, were infections and blood clots that could lodge in the lungs or brain. He was listed in critical but stable condition, with the artificial heart beating 75 times a minute and delivering what the doctors called excellent circulation.

Two days later Mr. Schroeder was removed from the respirator that had been hooked up to help him breathe and he asked for a beer. The doctors said the new heart was working "beautifully." They refused to let him have any beer, but said they might at a later time as his diet was expanded.

On Nov. 29, Mr. Schroeder got out of bed and walked a few steps to a chair for the first time since the operation four days earlier. He also drank most of a can of beer.

"I feel great today," he told a photographer. His apparent vigor contrasted sharply with his capacities before the operation. The next day he was hooked up for brief periods to the portable power source, replacing the bulky machine to which he had been connected.

HOPES FOR MOVING ABOUT FREELY

The successful experiment raised hopes that Mr. Schroeder and other artificial heart recipients would someday be able to move about more freely, carrying the portable unit with them. Dr. Clark's health had never improved sufficiently to test the smaller unit.

On Dec. 1, Mr. Schroeder's temperature returned to the normal range, down to 98.3 degrees from readings of 100 to 101, and his doctors said he looked stronger and felt better. They cautioned, however, that they were remaining alert to the possibility of postoperative infections and other complications.

Mr. Schroeder was taken off the critical list on Dec. 3 and said that this artifical heart had made a "fantastic" difference in his life." I feel I could go out fishing and watch ball games," he said in a videotaped interview with Dr. DeVries.

Doctors also disclosed that he had given them permission to begin certain tests that would enable them to determine how some drugs react on the body.

The patient began mild exercise on Dec. 5, taking short walks around his hospital bed. A day later he walked to a window to look out on the snowy woods nearby.

On Dec. 7, as he continued to show dramatic improvement, Mr. Schroeder was removed from the hospital's intensive-care unit and put in a private room. His appetite as well as his strength had improved, doctors noted, and a nurse said she had noted "a dramatic improvement in his spirits."

Two days later, in his first face-to-face interview with reporters since the operation, he declared the experiment a success. Mr. Schroeder, who weighed 215 pounds, appeared relaxed, alert and eager to talk, and his color was good.

"With the new heart," he said, "I feel like I've got 10 years."

Asked what his new heart felt like, he put his hand to his chest and said. "It just sits there. I can feel it, it doesn't bother me at all. I've gotten used to it and don't know it's there. There it goes, it's taking off like a horse. Who knows, I may be as well as the bionic man."

Later in the interview, as the embraced his wife, tears came to his eyes as he declared: "I've got a new purpose in life. That purpose is to be with God, and I feel like He's No. 1. He saved me."

Mr. Schroeder got a call from President Reagan on Dec. 12 and used the occasion to complain that he was having trouble getting his Social Security disability benefits. The next day a Social Security official arrived in Louisville with his first check.

A SERIES OF STROKES

But that same day, Dec. 13, Mr. Schroeder suffered a series of strokes that partly paralyzed his right side, affected his speech and left him weak and disoriented, at first unable even to recognize his wife or Dr. DeVries.

His speech and ability to move later improved, but progress was slow and the recovery was incomplete. His memory was severely impaired and the episode left him in a deep psychological slump. By late January, however, he was taking walks around the hospital and his spirits were improving somewhat with antidepressive drugs.

Despite a series of mild seizures that began in January, he seemed sufficiently improved in February for doctors to consider discharging him from the hospital to a specially equipped apartment across the street. The move was designed to lift his spirits, give his family more responsibility for his care and ease his eventual return home.

A discharge date was set for Feb. 14, his 53d birthday, but the plan had to be put off because of a fever that sometimes rose to 105 degrees and had been troubling him for two weeks, and because of an illness with symptoms akin to influenza that sapped his strength. A diminishing appetite prompted doctors to supplement his diet with tube-fed liquids.

Later in February, even as Mr. Schroeder was beginning to make brief wheelchair trips outside the hospital and doctors said his progress might soon justify his discharge from the hospital, his recovery was further set back by a new series of mild seizures.

The seizures, apparently caused by scar tissue in the brain left by the strokes in December, lasted 5 to 20 minutes each. During these he became disoriented, lapsing into periods in which he stared into space and did not respond to his surroundings.

After a more pronounced seizure on Feb. 26, his discharge was again put off. Doctors said the delay would give him a chance to regain some strength, give neurologists time to find the right dosage of medication to control the seizures and give the family, described as "a little insecure," a chance to rebuild shaken confidence.

On March 17, Mr. Schroeder completed his 112th day with the artificial heart, surpassing the time that Dr. Clark, had survived with his heart device two years earlier.

---

WILLIAM SCHROEDER DIES 620 DAYS AFTER RECEIVING ARTIFICIAL HEART

(By Lawrence K. Altman)

William J. Schroeder, the world's last remaining the longest-surviving recipient of a permanent artificial heart, died yesterday at Humana Hospital-Audubon in Louisville, Ky.

Mr. Schroeder, the second of five patients who received the experimental Jarvik-7 artificial heart on a permanent basis, suffered several strokes in the 620 days he survived after Dr. William C. DeVries implanted the device at Humana on Nov. 25, 1984. [Page A25.]

His survival, and that of Murray P. Hayden, an artificial heart recipient who lived for 488 days, showed that people could live long-term on the plastic and metal device. But the strokes and other complications both men suffered impaired the quality of their lives and blunted initial enthusiasm for the mechanical heart.

The seriousness of the complications suffered by recipients has prompted developers of the device to take another look at its basic design to try to overcome the problems.

But the artificial heart has in recent months been used successfully in several instances as a bridge to keep patients alive until a human heart was available for transplant. For the time being, most medical experts believe that use of the artificial heart as a bridge is its chief value.

Doctors have not implanted a permanent artificial heart since 1985.

Dr. DeVries has said he intends to continue using the device. The Federal Food and Drug Administration has given him permission to implant a total of seven permanent artificial hearts. It has also given surgeons in several other medical centers permission to implant two types of artificial hearts, the Jarvik-7 and one developed at Penn State University.

But, acting on the recommendations of an advisory panel, the Federal agency decided last year to allow the implants only under heightened Government supervision. As a result, the agency now requires added reporting on patient care and a case-by-case review of proposed recipients.

Dave Duarte, a spokesman for the agency, said Dr. DeVries has proposed no new candidates for the operation. "They will tell us when they have a patient," Mr. Duarte said.

He said he did not believe that Mr. Schroeder's death would result in other restrictions. The advisory panel was aware that he was seriously ill, Mr. Duarte said.

FIRST TO LIVE OUTSIDE HOSPITAL

Mr. Schroeder, a 54-year-old retired Federal worker from Jasper, Ind., was the first heart-implant patient to live outside a hospital. His artificial heart, a plastic and metal air-powered device, worked flawlessly despite a number of medical setbacks, including a series of debilitating strokes he began to suffer within a month of the implant surgery.

The hospital gave no immediate details on Mr. Schroeder's death.

Mr. Schroeder, who lived in a specially equipped apartment near the hospital for two brief periods in 1985, suffered another stroke Nov. 10, 1985, and had been hospitalized since Nov. 11. His condition worsened yesterday and members of his family were summoned to his bedside.

Four other people received permanent Jarvik-7 artificial hearts. Dr. DeVries implanted three of them with the approval of the Food and Drug Administration.

The first was in Dr. Barney B. Clark, a Seattle dentist, in December 1982 at the University of Utah. Dr. Clark lived for 112 days on the device and died of multiple organ failure on March 23, 1983. The complications were not directly related to his mechanical heart, which had not failed.

In 1984, Dr. DeVries moved to Louisville to the Humana Hospital-Audubon, where he implanted similar devices in Mr. Schroeder and two other patients.

One, Jack Burcham Sr., 62, of Le Roy, Ill., was the fifth permanent artificial heart recipient. He died of massive bleeding on April 24, 1985, after living 10 days on the air-powered Jarvik-7.

The other was Mr. Hayden, 59, of Louisville, who received his artifical heart on Feb. 17, 1985. Mr. Hayden, who required the use of a mechanical ventilator because of a chronic lung problem, lived in the hospital's intensive care unit for more than a year. He was declared brain dead June 19. He left the hospital only on rare occasions.

SWEDISH PATIENT DIES

Leif Stenberg of Sweden became the world's fourth Jarvik-7 receipient in an operation performed April 7, 1985, at the Karolinska Hospital in Sweden. He died Nov. 21, 1985.

The Jarvik-j heart, named for its designer, Dr. Robert Jarvik, is manufactured by Symbion Inc. It is powered by a 323-pound air compressor about the size of a small refrigerator. It was also designed to be powered by an 11-pound system the size of a large camera bag that could be worn over a shoulder.

Although it is an experimental device, it consists in part of four artifical valves that the Food and Drug Administration has licensed for use in heart surgery. Artifical valves can cause several medical problems ranging from anemia resulting from the destruction of red blood cells to the formation of clots in and near the valve. Such clots can break off and lodge in arteries supplying the brain and other organs, depriving them of life-sustaining oxygen.

Scientists have not yet developed a synthetic material that rivals the inside lining of human blood vessels for its ability to allow blood to flow freely without clotting.

The strokes that have developed among artificial heart recipients have resulted from either blood clots that lodge in the arteries of the brain or from anticoagulant therapy to prevent clots that can cause internal bleeding.

In research undertaken independent of the artificial heart but that could have a bearing on the design of future models, researchers at New York University's Courant Institute have devised what they describe as the first computer model of the flow of blood through the heart. The model has already led to a new valve design that is being tested by Carbo-medics, a Houston company that is the world's largest supplier of heart valve components.

The Courant researchers' computer generates diagrams that the researchers use to make dramatic motion pictures of a vividly recognizable beating heart. Hundreds of dots, representing particles of blood stream through the valve, stretching the elastic walls of the heart and creating whirling vortices.

The pictures enable researchers to spot areas of pooled blood where clots can form.

Humana Hospital-Audubon is one of 89 hospitals owned by Humana Inc., a Louisville-based business with $2 billion in annual revenue.

Humana has announced that it plans to carry out about 100 operations in the hope of eventually turning a daring experimental technique into a commonplace therapy for heart disease, which killed more than 750,000 Americans in 1984 and is the leading cause of death in industrialized countries of the Western world.●

## ADMINISTRATION'S NEW PROPOSALS FOR CASH WELFARE AID

● Mr. MOYNIHAN. Mr. President, yesterday's New York Times ran a front page article by Robert Pear titled, "White House Urges Cash Welfare Aid" (Sunday, August 10, 1986). The article outlines a Reagan administration effort to encourage State welfare officials to provide low-income Americans with direct cash assistance in place of their current welfare, Medicaid, and food stamp benefits.

My colleagues with an interest in such matters will recall that the President, during his State of the Union Address last February, commissioned a comprehensive study of the welfare system to be conducted by a special task force of his Domestic Policy Council. Members of the task force, under the direction of Charles D. Hobbs, have been meeting in recent months with officials from a number of States. Administration officials

have reportedly encouraged State officials to "consider ways of consolidating social welfare programs and substituting a single monthly cash payment or check for food, medical and housing assistance, day care, employment and training programs and other social services."

Mr. President, some of us are experiencing something of a sense of deja vu. Some of my colleagues may remember similar efforts in the late 1960's. Social policymakers then undertook to substitute a "guaranteed annual income" for the four welfare programs then in existence under the Social Security Act: Aid to the Blind, Aid to the Disabled, Old Age Assistance, and Aid to Families with Dependent Children. Under the Family Assistance Plan [FAP]—which I had the honor to help draft in 1969 as President Nixon's Assistant for Urban Affairs—the Federal Government would have paid a minimum cash subsidy to all needy children. Although it passed the House in several different incarnations, the Family Assistance Plan was never accepted by the Senate.

It is admittedly premature to suggest a similar fate awaits the administration's proposals. There are significant differences between the type of reform proposed under the Family Assistance Plan and the signals we are now receiving from the Reagan administration. Most important among these differences is the level of Federal commitment to assistance for the needy: the Family Assistance Plan, unlike current proposals being formulated, mandated a minimum benefit level to have been met by the Federal Government. The forthcoming recommendations of the welfare task force will demand close scrutiny and careful consideration. Only then will we in Congress be in a position to make an informed decision as to their desirability. Yet it does appear that the notion of cash assistance—in place of the network of support services and in-kind subsidies to the poor—has captured the attention of some policymakers once again.

Mr. President, I ask that the New York Times article from August 10, 1986 be printed in the RECORD.

The article follows:

[From the New York Times, Aug. 10, 1986]

WHITE HOUSE URGES CASH WELFARE AID

(By Robert Pear)

WASHINGTON, Aug. 9.—White House officials are quietly encouraging state welfare officials to make proposals that would provide poor people with cash in place of assistance such as food stamps, Medicaid, public housing and school lunch subsidies.

The White House is soliciting such proposals as it conducts a comprehensive study of the social welfare system in an effort to reduce dependency on Government programs. President Reagan announced the yearlong study in his State of the Union Message Feb. 4.

State officials in North Carolina, New Jersey, Tennessee, Oklahoma, West Virginia, Vermont, Arizona and Pennsylvania said they had had discussions with welfare experts from the White House led by Charles D. Hobbs, deputy assistant to the President for policy development.

In many of the discussions, they said, the Federal officials urged them to consider ways of consolidating social welfare programs and substituting a single monthly cash payment or check for food, medical and housing assistance, day care, employment and training programs and other social services.

Mr. Hobbs told state officials that he would do everything possible to obtain Congressional approval for "demonstration projects" testing these proposals in several counties of each state that wanted to participate.

Under the present system, according to the White House, the Federal Government spends more than $95 billion a year on social welfare programs augmented by $27 billion from state and local governments. The White House says this is much more than the $59 billion that would be needed to "lift all Americans out of poverty," based on the standards defined by the Census Bureau.

In a document prepared for discussion with state officials, the White House proposes, "Individual and family public assistance benefits should be capped at a state or locally determined assistance standard, to insure that benefits from federally funded programs are only provided to those who cannot otherwise meet their basic living requirements."

Among its "policy goals," according to the White House, are to strengthen two-parent families, establish a work requirement for welfare recipients, increase local control of public assistance programs and give beneficiaries more responsibility for managing their own resources.

Administration officials said the use of cash grants in place of noncash benefits would give recipients much more discretion in how the money would be spent, under the guidance of the local authorities.

"OPEN-MINDED AND RECEPTIVE"

Marguerite W. Sallee, Commissioner of the Tennessee Department of Human Services, said Mr. Hobbs was "open-minded and genuinely receptive" to ideas from the states.

She and other state officials said that instead of dictating the terms of changes in the welfare system, the Reagan Administration might encourage the states to experiment for several years.

In the document outlining "reform policy goals," the White House says, "Because individual needs vary, public assistance benefits should not be tied to a federally determined standard." This represents a fundamental change in the direction of social welfare policy, which for two decades has been marked by a growing number of Federal standards and guarantees.

The White House document said that "individual needs for public assistance can be assessed most effectively at the level of government closest to the need," the local level.

Reaction to the White House suggestion varied. West Virginia, for example, is enthusiastically drafting a proposal to consolidate 10 programs and substitute cash grants. But a welfare official in Vermont was skeptical, and an Oklahoma official called the White House ideas "unrealistic, far-out."

Thomas R. Tinder, administrative assistant to Gov. Arch A. Moore Jr. of West Virginia, said, "The Governor was very enthusiastic about our state's involvement in these model projects."

Donald H. Roberts, an assistant commissioner in West Virginia's Department of Human Services, said the idea was to give low-income families "a lump sum of cash" in place of the benefits they received under the 10 programs, including food stamps, Medicaid, day care, school lunch and breakfast and the Special Supplemental Food Program for Women, Infants and Children.

Under such a proposal, he said, it would be essential to provide families with "intensive counseling" on how to manage their money. Otherwise, according to state officials, there would be no guarantee that the money would be used for the purposes originally intended by Congress.

Veronica H. Celani, the Commissioner of Social Welfare in Vermont, said after hearing a presentation by Mr. Hobbs: "The Federal Government with its deficit is attempting to remove itself from the business of providing benefits for poor people. It's a way of trying to shift financial responsibility to the states."

The present collection of cash and noncash benefit programs grew piecemeal over the last 50 years. "With such a variety of benefits, you have a wide range of constituencies willing to help the poor," Prof. Richard P. Nathan of Princeton University, a political economist, said today.●

## COMMUNITY PLANNING ASSISTANCE FOR GULF COAST HOMEPORTS

● Mr. BENTSEN. Mr. President, I am pleased that the distinguished managers of the bill have chosen to incorporate into their amendment the language which I recommended to earmark funds for community planning assistance for gulf coast sites of the Navy's Strategic Homeporting Program.

Last week, the Senate approved my amendment to authorize up to $200,000 for fiscal year 1987 for this purpose. This amendment guarantees that money will be appropriated pursuant to that authorization. The funds are not an addition to the budget, but will come from planning and design accounts.

Mr. President, community planning assistance enables local authorities to make careful preparations for the arrival of major military installations and the people that accompany them. Often the issues are of a complexity and magnitude to overwhelm local authorities. The community planning assistance helps them to cope with these matters in a thorough and professional way.

Already some initial Federal assistance has been provided to Corpus Christi, TX homeport planners. The additional funds provided by this amendment will enable that process to continue and will also help out at Galveston and other gulf coast homeport sites.

Since the managers have included the funds which I sought for the gulf coast, I no longer plan to offer the amendment permitted by the unanimous-consent agreement for this bill.●

## ORDERS FOR TUESDAY

RECESS UNTIL 8:30 A.M.

Mr. DOLE. Mr. President, I ask unanimous consent that once the Senate completes its business today, it stand in recess until the hour of 8:30 am, on Tuesday, August 12, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that following the two leaders under the standing order, there be a period for the transaction of routine morning business not to extend beyond the hour of 9 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM

Mr. DOLE. Mr. President, at 9 a.m., under a previous unanimous consent, the Senate will resume the Boren PAC amendment to S. 655, with a 1-hour time agreement. A vote will occur on the Boren amendment to be followed by 1 hour of debate on the Boschwitz amendment to be followed by a vote.

Following the Boschwitz vote, the Senate will resume consideration of H.R. 5052, the military construction appropriations bill. Pending is the Sasser amendment striking titles II, and III.

Votes will occur during Tuesday's session, and the first vote could occur as early as 10 a.m. Also, the Senate can be expected to be in session late on Tuesday, in order to make substantial progress on the military construction appropriations bill.

Mr. President, I might sort of alert my colleagues, the distinguished chairman of the Armed Services Committee said he calculated a loss of about 4 hours on a total of 32 votes because of overtime. It would seem to me that if we could maybe agree that on the first vote tomorrow we can tolerate maybe a few minutes late because it will be the first vote, but I would hope that our colleagues will understand that we have a very tight time agreement and the loss of 2 or 3 hours the next 2 days could be vital. The last thing that either the majority or minority wish to do is to cut someone off. It happens on either side.

Sometimes, it may be without fault of the Senator. But we are going to have to insist in the next I think 2 or 3 days that we keep pretty much to the 15-minute vote after the first vote each day if the minority leader has no objection to that.

Mr. BYRD. Mr. President, there is no question about it. Time is going to be very much at a premium and if some time on rollcalls overrun, it simply means that a Senator or Senators at the end of the day are going to be deprived of the time on the amendment that they call up. At some point we will get to the point where the amendments only have 2 minutes on each amendment.

So, I join with the distinguished majority leader in urging Senators, and I am going to put this word out on the Cloakroom hotline all day long and at my conference tomorrow with Democrats I am going to emphasize it, because it is in each Senator's interest to see that the time is utilized as well as possible so that Senators will not be prejudiced to the time when they call up their amendment.

Mr. DOLE. The point just made, the very Senator who might be late might have an amendment pending and he might be the one cut off at the end of the trail here.

Mr. BYRD. Right.

Mr. DOLE. Maybe along about Friday. So we will on the first vote be flexible, but I would hope that once we give notice, and we will do the same on our hotline, we will do the same. Even though we do not have a recess period in the morning, we will be having a policy luncheon. I think it is in the interest of all of us to try to stick to the 15-minute rule.

Mr. BYRD. Mr. President, if the distinguished majority leader will yield, I think I should emphasize also that each time a rollcall goes out beyond 15 minutes, the additional time is just that much longer that the Senate may be in on Friday evening or Saturday, and just that much more time that the Senate will cut into its Labor Day recess. It is just that simple. It may be added on here, but it will come off the other end.

Mr. DOLE. I believe everyone has gotten the message. I hope if not personally through staff.

## RECESS UNTIL 8:30 A.M. TOMORROW

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move that the Senate stand in recess until 8:30 a.m. Tuesday, August 12, 1986, and I thank the Presiding Officer for staying.

The motion was agreed to, and at 9:30 p.m., the Senate recessed until tomorrow, Tuesday, August 12, 1986, at 8:30 a.m.

## NOMINATIONS

Executive nominations received by the Senate August 11, 1986.

THE JUDICIARY

Diarmuid F. O'Scannlain, of Oregon, to be U.S. circuit judge for the ninth circuit vice Robert Boochever, retired.

## CONFIRMATIONS

Executive nominations confirmed by the Senate August 11, 1986:

DEPARTMENT OF AGRICULTURE

Robert W. Beuley, of Virginia, to be Inspector General, Department of Agriculture.

NATIONAL TRANSPORTATION SAFETY BOARD

James Eugene Burnett, Jr., of Arkansas, to be Chairman of the National Transportation Safety Board for a term of 2 years.

The above nominations were approved subject to the nominees' commitments to respond to requests to appear and testify before any duly constituted committee of the Senate.

# HOUSE OF REPRESENTATIVES—*Monday, August 11, 1986*

The House met at 12 noon.

## DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. WRIGHT) laid before the House the following communication from the Speaker:

WASHINGTON, DC,
*August 8, 1986.*

I hereby designate the Honorable JIM WRIGHT to act as Speaker pro tempore on Monday, August 11, 1986.

THOMAS P. O'NEILL, Jr.,
*Speaker of the House of Representatives.*

## PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We recognize, O God, that the people of our Nation have been given power in ways unknown to generations before. Help us, gracious God, to use that power with a judgment tempered by a concern for the welfare of all people. Give us discernment to comprehend the needs of people, give us wisdom in deciding what is the important rather than the transient, give us courage to speak for justice in our land and in the world, and give us compassion to always care for the least and neediest among us. In Your name, we pray. Amen.

## THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

## MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a joint resolution of the House of the following title:

H.J. Res. 668. Joint resolution increasing the statutory limit on the public debt.

The message also announced that the Senate insists upon its amendment to the joint resolution (H.J. Res. 668) "Joint resolution increasing the statutory limit on the public debt," requests a conference with the House on the disagreeing votes of two Houses thereon, and appoints for all purposes and sections, Mr. PACKWOOD, Mr. DOLE, Mr. ROTH, Mr. CHAFEE, Mr. HEINZ, Mr. LONG, Mr. MOYNIHAN, Mr. BAUCUS, and Mr. BOREN; for title III and sections 604 and 611 of title VI only, Mr. DOMINICI, Mr. RUDMAN, Mr. GRAMM, Mr. CHILES, and Mr. HOLLINGS to be the conferees on the part of the Senate.

## SPACE LEADERSHIP

(Mr. NELSON of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. NELSON of Florida. Mr. Speaker, I rise to note the leaderless status of the U.S. Space Program and some steps that I believe must be taken to correct the situation.

The U.S. Space Program is at "a historical juncture" with a "critical need" for a coherent space policy to reclaim the U.S. leadership in space.

Mr. Speaker, since the administration has been unable to provide the necessary leadership in this crisis situation, it is time for the Congress to step in and exercise that leadership. On Thursday, the Space Science and Applications Subcommittee will remarkup the fiscal year 1987 NASA authorization bill. At that time, I plan to propose that we take action to resolve two important policy matters that have been hanging in limbo for too many months.

The first action will be for us to authorize the production of a space shuttle orbiter to replace *Challenger*, which was so tragically lost in January. This country must have an adequate fleet of orbiters if it is to exercise space leadership throughout the rest of this century.

In addition to the fourth orbiter, the development of a viable, commercial expendable launch vehicle industry is important to the country to ensure adequate access to space as well as to increase private sector involvement in private sector launch services. Congress recognized the importance of this industry when it enacted the Commercial Space Launch Act in 1984. However, since its enactment, little progress has been made toward the establishment of a commercially viable, private sector, expendable launch vehicle industry.

Our subcommittee has reexamined the policies which were designed to assure this country access to space in light of the circumstances we now face. Additional Government action is necessary to stimulate a commercial expendable launch vehicle industry.

In the absence of direction from the administration, Congress must offer the space policy leadership this Nation requires at this critical time. These suggested legislative actions will be an important first step.

## THE WATCHMAN ON THE TOWER OF THE GOVERNMENT OF FREE MEN

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, let me quote the words of Orval W. Adams, one-time president of the American Bankers Association:

Reestablish the gold standard. Gold is a gift to the world from an all-wise Creator. There is no substitute. There will not be. Without it as a base for national and international exchange, civilization could not have emerged from its barter period of the Dark Ages. It is the only insurance against ruthless politicians debasing and corrupting the world exchanges and money systems of a free people. I repeat, it is a blessing from all-wise Providence, to prevent the tragedy that follows from a debased, corrupted and politically managed medium of exchange. The gold standard is the automatic watchman on the tower of the government of free men, to guard against the poison of totalitarianism entering the bloodstream of sound money. (Inflation—The Termite of Civilization; The Commercial and Financial Chronicle, October 4, 1956.)

Mr. Speaker, the watchman was removed from the tower in 1971, and we suffered as a consequence. It is time now to put the watchman back, in order to avoid further catastrophes.

## TIME TO HONOR DOD REQUEST ON JET TRAINER

(Mr. GLICKMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GLICKMAN. Mr. Speaker, it's hard to believe, but true: For once the Department of Defense has decided to cut out a program, and now the House is considering saying no, we have to keep that spending program. The Air Force has stated unequivocally, after careful review, that it wants to cancel the production funds for a new Air Force trainer, the T-46, being developed by the Fairchild Corp. The reason for the Air Force's decision is simple: Schedule delays, manufacturing problems, and most importantly, lack of affordability.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Time and again Members of the House have looked for ways to cut the Defense budget without cutting back on the security of our constituents. Now we have a way to do this. We have the support of the Pentagon, and we can save the taxpayers from $1 to $2 billion by cutting the funds for the T-46. Our colleague from South Carolina [Mr. SPRATT], will be offering an amendment to strike the authorization for the T-46 trainer and direct the Air Force to evaluate the alternatives for the new trainer. Isn't it time to practice what we preach? We can cut the Defense budget without harming national security. Support the Spratt amendment.

## THERE IS NO POLITICAL CONSENSUS ON CHEMICAL WEAPONS IN NATO

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, last year, Congress made production of new chemical weapons dependent on some political consensus in NATO. This May, the meeting of NATO's Defense Planning Committee showed there is no consensus.

Let me quote only a few NATO countries' positions:

Denmark: "Denmark is opposed to any new production of chemical weapons. Consequently we could not support the adoption of a chemical weapons force goal in NATO."

Norway: "Norway cannot support the American decision to resume its production of chemical weapons. This stance must be put forth in such manner that it is brought to the attention of Congress."

Greece: "Against the production, modernization and storage of chemical weapons."

The Netherlands: "Profoundly regretted the development of chemical weapons." A NATO approval to the chemical force goal would be "an enormous embarrassment to my government."

No NATO country will even consider peacetime deployments of the new binary chemical weapons on their soil. This is no consensus, but a mandate for the United States to not produce any new chemical weapons at all.

Mr. FASCELL. Mr. Speaker, will the gentleman yield?

Mr. PORTER. I yield to the gentleman from Florida.

Mr. FASCELL. I thank the gentleman for yielding to me.

Mr. Speaker, not only do our allies not want the weapons, but we have entered into an agreement to unilaterally remove the only deterrence we have got by removing the weapons that are now in storage in Europe, without getting anything in return. Am I correct?

Mr. PORTER. The gentleman is absolutely correct. Absolutely.

## MAY THE UNITED STATES-MEXICO RELATIONSHIP RETURN TO NORMALCY

(Mr. RICHARDSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RICHARDSON. Mr. Speaker, the upcoming meeting between President Reagan and President de la Madrid of Mexico is long overdue; 1986 has been one of the rockiest years in the United States-Mexico relationship. It has degenerated into the worst name calling in the history of United States-Mexican relations.

From the United States side we have not given Mexican problems the attention they deserve. We treat Mexico as another Third World country with a big debt. We have called each other corrupt and incompetent. From the Mexican side, however, President de la Madrid has failed to realize that the debt and immigration are also Mexican problems. There are also problems he has not addressed: Corruption, debt, political participation to name a few.

We have serious bilateral relationships and problems that have to be addressed at the Presidential level. Drug interdiction, immigration, Central America; many problems that have to be addressed at the Presidential level and not at lower levels.

Mr. Speaker, hopefully this meeting will mean that the United States-Mexico relationship will return to normalcy.

□ 1210

## TRADE NEGOTIATIONS END WITH AGREEMENT ON CITRUS AND PASTA TRADE

(Mr. SHUMWAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHUMWAY. Mr. Speaker, United States and European Economic Community [EEC] officials have announced agreement on settling a dispute over citrus and pasta trade which has lasted for 16 years and persisted despite years of mediation under the auspices of the General Agreement on Tariffs and Trade [GATT].

While the details of the agreement have yet to be announced, this development represents an important step in opening EEC markets to citrus exports from the United States. Hopefully, this will allow the walnut and lemon growers to regain their previous share of the European market.

At the same time, this lengthy dispute demonstrates the importance of bringing agriculture within the GATT framework and enhancing GATT procedures for dispute settlement.

Next month, the GATT member nations will meet in Uruguay to determine the scope of the next round of multilateral trade negotiations.

I hope my colleagues will join me in a resolution which I will introduce later this week calling on the GATT member nations to agree to broad negotiations designed to bring agriculture, services, and foreign investment within the framework of GATT and to strengthen and streamline the procedures for settling trade disputes.

## THE BRADLEY FIGHTING VEHICLE

(Mr. DANIEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANIEL. Mr. Speaker, one of our country's most authoritative and respected military leaders is Bernie Rogers, the Supreme Allied Commander in Europe. General Rogers is also well known to us from his tenure as Army Chief of Staff where he built up a reputation for candor as well as knowledge.

I think it would be useful for us in this debate to hear what General Rogers has to say about the Bradley, so I want to read a letter he wrote recently on the subject:

For many years, we have needed an infantry fighting vehicle as an appropriate and adequate complement to our modern armored forces. As Army Chief of Staff, I pressed hard for the development of such a system. We are now fielding the Bradley Fighting Vehicle (BFV) in Europe, meeting that longstanding requirement—and meeting it well. The Bradley is a winner. Our soldiers will confirm that statement.

The current controversy over testing of the BFV is of great concern to me, because it threatens to stop production of this extremely important system. I am particularly concerned because the issue seems to center around the Bradley's vulnerability to direct-fire antitank weapons, something it was never intended or designed to withstand.

The Bradley Fighting Vehicle is not a tank. Rather, it is a vastly superior replacement for the M113 Armored Personnel Carrier. Its purpose is to place infantry troops on the ground where they are needed when the environment will not allow soldiers to walk or move by truck. This vehicle is able to accompany and support our modern tank forces as an integral part of a combined arms team. The Bradley will defeat comparable-threat vehicles in an infantry battle environment. In a tank battle environment, the Bradley will deploy dismounted forces whose mission is to protect friendly armor by defeating enemy antiarmor systems. Its TOW and 25mm Chain Gun provide protective fires for armor and dismounted infantry, both day and night. With this capability, the Bradley is a major combat multiplier on the mechanized battlefield.

When it is shown that the Bradley is incapable of doing what it was designed to do, I will be in the vanguard of those demanding that the system be redesigned or scrapped. We must not, however, allow a much-needed, modern, and effective infantry system to be scrapped because it is vulnerable to enemy weapons systems which it

was never designed or intended to withstand. I need and ask your support to ensure that it is not.

With my respect and best wishes.

Sincerely,

BERNARD W. ROGERS,
*General, U.S. Army,*
*Commander in Chief, Europe.*

I believe the letter speaks for itself and I urge my colleagues to consider it carefully before voting on this issue.

## TRUCE IN TRADE WAR POINTS UP NEED FOR ACTION ON TRADE BILL

(Mr. BONKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BONKER. Mr. Speaker, on May 22 the House of Representatives passed by a sizable vote H.R. 4800, trade legislation to reclaim America's competitive position and bring down the trade deficit. That was last May. Since then our trade deficit continues to go up. The Senate refuses to act on a bill that is languishing in the other body, and administration policies, while they have been a little more active in recent months, are still ineffective.

I would like to cite an example that was reported in today's Washington Post. The headline is: "U.S. and EC Reach Truce in 16-Year-Old Trade War." This is a war over citrus fruit which receives preferential treatment from the EC to Mediterranean countries. We had retaliated with a tariff on pasta, and they came back with a tariff on lemons and walnuts. According to the article, here is what happened in that agreement: The restrictions on pasta, lemons, and walnuts will be removed. Fine, but the United States also agreed to recognize the validity of the EC's preferential arrangements for Mediterranean products and not challenge them in the future.

What kind of an agreement is this? Regrettably this is another example of why this administration's policies have not been that effective and why we need Senate action now on the trade bill.

## UNSUSPECTED PITFALLS IN WIDESPREAD DRUG TESTING

(Mr. SCHUMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHUMER. Mr. Speaker, today, Vice President BUSH will undergo his "voluntary" drug testing, and later this week, 78 senior members of the White House staff will similarly undergo voluntary drug testing. It seems that our Nation is about to march headlong into a frenzy of nationwide drug testing.

Not too many seem to be opposed now, but if drug testing becomes widespread, it will become a bubbling and boiling caldron of controversy. How many people know that the standard test has a 2- to 11-percent-inaccuracy rate? If you have never touched drugs in your life, the odds are approximately 1 in 20 that the test will reveal that you did use drugs within the last 6 months.

Vice President BUSH, with your luck, even though you never used drugs, your test is going to come out positive. And the odds are that a few of those senior White House aides will be listed as positively engaging in using drugs. Indeed we ought to be careful before going forward with this kind of controversial and un-thought-out massive testing.

True, there is a better test, with a much smaller inaccuracy rate, but it costs several hundred dollars. Are employees and the Federal Government going to be using the more accurate but more expensive federal test. It will cost billions of dollars.

Finally, Mr. Speaker, the amendments in the Bill of Rights were put there for a reason. There ought to be trust between the government and the people. If we violate that trust, if we have every person suspected of drug use with no probable cause, we will be doing greater damage to this Nation than the drug cancer we are trying to eradicate.

## GRAIN STORAGE CRISIS DRIVES GRAIN PRICES DOWN

(Mrs. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SMITH of Nebraska. Mr. Speaker, I have introduced two bills designed to take emergency action to solve the intensifying grain storage crisis caused by large carryover stocks and bumper 1986 harvests just ahead.

The grain price slump of recent days almost certainly stems directly from the Government's failure to act swiftly and decisively to solve the grain storage crisis.

In Nebraska alone the storage shortage may amount to as much as 145 million bushels, not counting 1986's bumper crops.

My bills would mandate immediate entry into the farmer-owned reserve and require the Commodity Credit Corporation to begin making grain storage facilities loans. The Secretary of Agriculture already has power to take both these actions and should exercise that power forthwith.

The truth is that the President has other options in existing laws that should be examined carefully for other solutions.

Whatever is done must be done urgently because the price situation amounts to an emergency for our beleaguered grain producers.

While the Government offers price-support loans at $1.92 a bushel for corn, producers cannot obtain such loans unless they can find acceptable storage facilities.

Cash prices for corn in some areas of Nebraska are as low as $1.21 currently, and without appropriate storage, the Government's price-support program is almost useless for protecting farm income.

Our producers are being overwhelmed by an overwhelming situation. It is long past time for the Government to move effectively to find places to store our abundance.

One Smith bill would amend the CCC Charter Act to require the corporation to make loans to grain growers needing storage facilities on their farms. The bill strikes language that says the Corporation "may" make loans to grain growers and substitutes the word "shall" to force the Department to act.

The other Smith bill would require the Government to begin making storage payments for grain stored by producers on their farms without making them wait for 9 months until their price-support loans mature. The Smith bill would make the producers eligible for storage payments as soon as they obtain price-support loans.

Such payments would help producers find credit for building their own grain bins and might be the fastest way to solve this intensifying problem.

The fact that these bills were introduced puts pressure on the Department to act immediately, and every cosponsor I sign up on these bills has the effect of turning up the heat under the administration. I intend to turn it up as high and as quickly as possible.

## JOINT CHIEFS OF STAFF REORGANIZATION ACT OF 1985

Mr. NICHOLS. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3622) to amend title 10, United States Code, to strengthen the position of Chairman of the Joint Chiefs of Staff, to provide for more efficient and effective operation of the Armed Forces, and for other purposes, with Senate amendments thereto, and concur in the Senate amendments with amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments and the House amendments to the Senate amendments, as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

*SECTION 1. SHORT TITLE*

*This Act may be cited as the "Barry Goldwater Department of Defense Reorganization Act of 1986".*

SEC. 2. REFERENCES TO TITLE 10, UNITED STATES CODE

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 10, United States Code.

TITLE I—DEPARTMENT OF DEFENSE

SEC. 101. MODIFICATION OF AUTHORITY OF SECRETARY OF DEFENSE TO REORGANIZE THE DEPARTMENT OF DEFENSE

Section 125 is amended—

(1) in subsection (a), by striking out "unless the Secretary" in the second sentence and all that follows down through the rest of the subsection and inserting in lieu thereof a period;

(2) in subsection (b)—

(A) by inserting "vested by law in the Department of Defense, or an officer, official, or agency thereof" after "function, power, or duty"; and

(B) by striking out "5012, 5013" and inserting in lieu thereof "5242, 5243"; and

(3) by striking out subsection (d).

SEC. 102. ORGANIZATION OF THE DEPARTMENT OF DEFENSE

Section 131 is amended to read as follows:

"§ 131. Executive department

"The Department of Defense is an executive department of the United States. It is composed of the following:

"(1) The Office of the Secretary of Defense.

"(2) The Joint Chiefs of Staff.

"(3) The Joint Staff.

"(4) The Defense Agencies.

"(5) Department of Defense Field Activities.

"(6) The Department of the Army.

"(7) The Department of the Navy.

"(8) The Department of the Air Force.

"(9) The unified and specified combatant commands of the Department of Defense.

"(10) Such other offices as may be established or designated by the President.

"(11) All functions and activities under the control or supervision of any element named in clauses (1) through (10).".

SEC. 103. POWERS AND DUTIES OF THE SECRETARY OF DEFENSE

(a) IN GENERAL.—Section 133 is amended—

(1) in subsection (c)(2), by striking out "section 125" and inserting in lieu thereof "sections 125 and 191";

(2) in subsection (e)—

(A) by inserting ", major military missions," in clause (1) after "policy";

(B) by striking out "that policy" in clause (2) and inserting in lieu thereof "such policy, missions,"; and

(C) by striking out "the policy" in clause (3) and inserting in lieu thereof "such policy, missions,"; and

(3) by adding at the end the following new subsections:

"(f) When a vacancy occurs in an office within the Department of Defense and the person appointed to that office is to be appointed from civilian life by the President, by and with the advice and consent of the Senate, the Secretary of Defense shall inform the President of the qualifications needed by an appointee to carry out effectively the duties and responsibilities of that office.

"(g) The Secretary of Defense, with the approval of the President, shall provide annually to the Chairman of the Joint Chiefs of Staff written policy guidance for the preparation and review of contingency plans.

"(h) The Secretary of Defense shall keep the Secretaries of the Army, Navy, and Air Force informed on military operations and activities of the Department of Defense that directly affect their respective responsibilities.".

(b) CONFORMING AMENDMENTS.—The section heading of section 133 is amended to read as follows:

"§ 133. Secretary of Defense: appointment; powers and duties; delegation authority".

SEC. 104. REDESIGNATION OF SECTIONS

Chapter 4 is further amended by redesignating the sections of chapter 4 as follows:

(1) Section 133a as section 142.
(2) Section 133b as section 2780.
(3) Section 134 as section 135.
(4) Section 135 as section 136.
(5) Section 136 as section 137.
(6) Section 136a as section 139.
(7) Section 137 as section 140.
(8) Section 138 as section 2871.
(9) Section 139 as section 2872.
(10) Section 139a as section 2873.
(11) Section 139b as section 2874.
(12) Section 139c as section 2875.
(13) Section 140 as section 143.
(14) Section 140a as section 144.
(15) Section 140b as section 145.
(16) Section 140c as section 146.

SEC. 105. OFFICE OF THE SECRETARY OF DEFENSE

Chapter 4 is further amended by inserting after section 133 the following new section:

"§ 134. Office of the Secretary of Defense

"(a) There is in the Department of Defense an Office of the Secretary of Defense. The function of the Office is to assist the Secretary of Defense in carrying out his duties and responsibilities.

"(b) The Office of the Secretary of Defense is composed of the following:

"(1) The Deputy Secretary of Defense.

"(2) The Under Secretaries of Defense.

"(3) The Assistant Secretaries of Defense.

"(4) The Comptroller of the Department of Defense.

"(5) The Director of Operational Test and Evaluation.

"(6) The General Counsel of the Department of Defense.

"(7) The Inspector General of the Department of Defense.

"(8) Such other offices and officers as the Secretary of Defense may establish or designate.

"(c) Officers of the armed forces may be detailed for duty as assistants or personal aides to the Secretary of Defense. However, the Secretary may not establish a military staff other than that designated by section 151(d) of this title.

"(d) The Secretary of each military department, his civilian assistants, and members of the armed forces under the jurisdiction of his department shall cooperate fully with personnel of the Office of the Secretary of Defense to achieve efficient administration of the Department of Defense and to carry out effectively the authority, direction, and control of the Secretary of Defense.".

SEC. 106. UNDER SECRETARIES OF DEFENSE

Section 136 (as redesignated by section 104(4)) is amended—

(a) The title of the section is changed to read:

"§ 136. Under Secretaries of Defense: appointment; powers and duties";

(b) in subsection (a), by striking the entire subsection and substituting in lieu thereof the following:

"(a) There are two Under Secretaries of Defense, one of whom shall be the Under Secretary of Defense for Acquisition and one of whom shall be the Under Secretary of Defense for Policy. The Under Secretaries of Defense shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.";

(c) in subsection (b), by striking all after the first sentence;

(d) in subsection (c), by striking all after the first sentence.

SEC. 107. ASSISTANT SECRETARIES OF DEFENSE

Section 137 (as redesignated by section 104(5)) is amended—

(1) in subsection (b)—

(A) by striking out paragraphs (2) and (3);

(B) by redesignating paragraph (4) as paragraph (2); and

(C) by striking out paragraphs (5) and (6);

(2) in subsection (c)—

(A) by striking out "him" in paragraph (1) and inserting in lieu thereof "the Assistant Secretary"; and

(B) by striking out ", or his designee" in paragraph (2);

(3) by striking out subsection (d);

(4) by redesignating subsection (e) as subsection (d); and

(5) by inserting at the end of subsection (d) (as redesignated) the following: "The order of precedence among the Assistant Secretaries shall be the order prescribed by the Secretary of Defense.".

SEC. 108. COMPTROLLER OF THE DEPARTMENT OF DEFENSE

Chapter 4 is further amended by inserting after section 137 (as redesignated by section 104(5)) the following new section:

"§ 138. Comptroller of the Department of Defense

"(a) There is a Comptroller of the Department of Defense, appointed from civilian life.

"(b) The Comptroller of the Department of Defense shall—

"(1) advise and assist the Secretary in performing such budgetary and fiscal functions and duties, and in exercising such budgetary and fiscal powers, as are needed to carry out the powers of the Secretary;

"(2) supervise and direct the preparation of budget estimates of the Department of Defense;

"(3) establish and supervise the execution of principles, policies, and procedures to be followed in connection with organizational and administrative matters relating to—

"(A) the preparation and execution of budgets;

"(B) fiscal, cost, operating, and capital property accounting; and

"(C) progress and statistical reporting;

"(4) establish and supervise the execution of policies and procedures relating to the expenditure and collection of funds administered by the Department of Defense; and

"(5) establish uniform terminologies, classifications, and procedures concerning matters covered by clauses (1) through (4).".

SEC. 109. INSPECTOR GENERAL OF THE DEPARTMENT OF DEFENSE

Chapter 4 is further amended by inserting after section 140 (as redesignated by section 104(7)) the following new section:

"§ 141. Inspector General of the Department of Defense

"(a) There is an Inspector General of the Department of Defense, who shall be appointed as provided in section 3 of the Inspector General Act of 1978 (Public Law 95-452; 5 U.S.C. App. 3).

"(b) The Inspector General of the Department of Defense shall perform the duties, have the responsibilities, and exercise the powers specified in the Inspector General

Act of 1978 (Public Law 95-452; 5 U.S.C. App. 3).".

SEC. 110. TECHNICAL AND CONFORMING AMENDMENTS

(a) REORGANIZATION OF CHAPTER 4.—(1) The table of sections at the beginning of chapter 4 is amended to read as follows:

"Sec.
"131. Executive department.
"132. Department of Defense: seal.
"133. Secretary of Defense: appointment; powers and duties; delegation authority.
"134. Office of the Secretary of Defense.
"135. Deputy Secretary of Defense: appointment; powers and duties; precedence.
"136. Under Secretaries of Defense: appointment; powers and duties; precedence.
"137. Assistant Secretaries of Defense: appointment; powers and duties; precedence.
"138. Comptroller of the Department of Defense.
"139. Director of Operational Test and Evaluation: appointment; powers and duties.
"140. General Counsel: appointment; powers and duties.
"141. Inspector General of the Department of Defense.
"142. Secretary of Defense: annual report on North Atlantic Treaty Organization readiness.
"143. Emergencies and extraordinary expenses.
"144. Secretary of Defense: funds transfers for foreign cryptologic support.
"145. Prohibition of certain civilian personnel management constraints.
"146. Secretary of Defense: authority to withhold from public disclosure certain technical data.".

(2) Section 132 is amended by striking out the section heading and inserting in lieu thereof the following:

"§ 132. Department of Defense: seal".

(3) Except as provided in subsections (b) and (c), the sections of chapter 4 redesignated by section 104 and the sections added to such chapter by sections 105, 108, and 109 shall appear in such chapter in the order of their numerical designations.

(b) RELOCATION OF SECTION.—(1) Section 2780, as redesignated by section 104(2), is transferred to and made a part of chapter 165, and is inserted immediately after section 2779.

(2) The table of sections at the beginning of chapter 165 is amended by adding at the end the following new item:

"2780. Sale or transfer of defense articles: report to Congress.".

(c) CREATION OF NEW CHAPTER.—(1) Part IV of subtitle A is amended by adding after chapter 169 the following:

"CHAPTER 171—REQUIREMENT FOR AUTHORIZATION OF APPROPRIATIONS; OVERSIGHT OF COST GROWTH IN MAJOR PROGRAMS

"Sec.
"2871. Annual authorization of appropriations and personnel strengths for the armed forces; annual manpower requirements and operations and maintenance reports.
"2872. Weapons development and procurement schedules for armed forces; reports; supplemental reports.
"2873. Oversight of cost growth in major programs: Selected Acquisition Reports.
"2874. Oversight of cost growth of major programs: unit cost reports.
"2875. Major defense acquisition programs: independent cost estimates.".

(2) Sections 2871 through 2875, as redesignated by section 104, are transferred to and made a part of chapter 171 (as added by subsection (c) of this section).

(3) The catchline of section 2872, as redesignated by section 104(9), is amended to read as follows:

"2872. Weapons development and procurement schedules for armed forces; reports; supplemental reports.".

(4) The tables of chapters at the beginning of subtitle A and at the beginning of part IV of such subtitle are each amended by inserting after the item relating to chapter 169 the following new item:

"171. Requirement for Authorization of Appropriations; Oversight of Cost Growth in Major Programs ..... 2871.".

(d) REPEAL OF SECTION.—Chapter 41 is amended—

(1) by striking out section 718; and

(2) by striking out in the table of sections at the beginning of such chapter the item relating to section 718.

SEC. 111. JOINT CHIEFS OF STAFF

(a) COMPOSITION; FUNCTIONS; CHAIRMAN; VICE CHAIRMAN; JOINT STAFF.—Chapter 5 is amended to read as follows:

"CHAPTER 5—JOINT CHIEFS OF STAFF

"Sec.
"151. Composition; functions.
"152. Chairman.
"153. Vice Chairman.
"154. Joint Staff.

"§ 151. Composition; functions

"(a)(1) There are in the Department of Defense the Joint Chiefs of Staff consisting of the following:
"(A) The Chairman.
"(B) The Vice Chairman.
"(C) The Chief of Staff of the Army.
"(D) The Chief of Naval Operations.
"(E) The Chief of Staff of the Air Force.
"(F) The Commandant of the Marine Corps.

"(2) The President may assign to serve as members of the Joint Chiefs of Staff only officers who have served in one or more joint duty positions for a substantial period of time. The President may waive such requirement in the case of any officer if the President determines such action is necessary in the national interest.

"(b) The Chairman of the Joint Chiefs of Staff is the principal military adviser to the President, the National Security Council, and the Secretary of Defense.

"(c) The members of the Joint Chiefs of Staff are military advisers to the President, the National Security Council, and the Secretary of Defense, as specified in this section.

"(d) The Joint Chiefs of Staff, assisted by the Joint Staff, constitute the immediate military staff of the Secretary of Defense.

"(e) In performing his duties, the Chairman shall—

"(1) convene regular meetings of the Joint Chiefs of Staff;

"(2) unless impracticable, consult with and seek the advice of, individually or collectively, the other members of the Joint Chiefs of Staff; and

"(3) when appropriate, consult with and seek the advice of the commanders of the unified and specified combatant commands.

"(f) When the Chairman of the Joint Chiefs of Staff provides advice to the Secretary of Defense, the National Security Council, or the President, any other member of the Joint Chiefs of Staff may submit advice or an opinion in disagreement or advice or an opinion in addition to the advice provided by the Chairman. If such member submits such advice or opinion, the Chairman shall present the advice or opinion of such member at the same time the Chairman presents his own advice to the President, the National Security Council, or the Secretary of Defense, as the case may be.

"(g) After first informing the Secretary of Defense, a member of the Joint Chiefs of Staff may make such recommendations to Congress relating to the Department of Defense as he may consider appropriate.

"(h) In addition to any advice or opinion submitted under subsection (f) by members of the Joint Chiefs of Staff other than the Chairman, such members, in their capacity as military advisers, shall provide advice to the President, the National Security Council, or the Secretary of Defense on a particular matter when the President, the National Security Council, or the Secretary requests such advice.

"§ 152. Chairman

"(a)(1) The Chairman of the Joint Chiefs of Staff shall be appointed by the President, by and with the advice and consent of the Senate, from the officers of the regular components of the armed forces. He serves at the pleasure of the President for a term of two years and, subject to paragraph (3), may be reappointed in the same manner for two additional terms. However, in time of war declared by Congress there is no limit on the number of reappointments.

"(2) Notwithstanding paragraph (1), the term of a Chairman shall end not later than six months after the accession to office of a new President. The requirement of the preceding sentence does not apply in the case of a Chairman appointed or reappointed during the first six months of the term of a new President. As used in this paragraph, the term 'new President' shall not include a President who is elected to a second consecutive term.

"(3) An officer may not serve as Chairman or Vice Chairman of the Joint Chiefs of Staff if the total combined period of service of such officer in both such positions exceeds six years. The President may extend the combined period of service for such officer to eight years if he determines such action is necessary in the national interest. The limitations of this paragraph do not apply in time of war declared by Congress.

"(b) In addition to his other duties as a member of the Joint Chiefs of Staff, the Chairman shall, subject to the authority, direction, and control of the President and the Secretary of Defense—

"(1) preside over the Joint Chiefs of Staff; and

"(2) provide agenda for the meetings of the Joint Chiefs of Staff (including any subject for the agenda recommended by the Joint Chiefs of Staff), assist them in carrying on their business as promptly as practicable, and determine when issues under consideration shall be decided.

"(c) The Chairman, while so serving, holds the grade of general or, in the case of an officer of the Navy, admiral and outranks all other officers of the armed forces. However, he may not exercise military command over the Joint Chiefs of Staff or any of the armed forces.

"(d) Subject to the authority, direction, and control of the President and the Secretary of Defense, the Chairman of the Joint Chiefs of Staff shall—

"(1) prepare strategic plans to provide for the strategic direction of the armed forces, including plans which conform with resource levels projected by the Secretary of Defense;

"(2) advise the Secretary on the extent to which the program recommendations and budget proposals of the military departments and other components of the Department of Defense for each fiscal year conform with the priorities established in strategic plans and the operational requirements of the unified and specified combatant commands;

"(3) advise the Secretary on the extent to which the major manpower programs and policies of the armed forces conform with strategic plans;

"(4) provide for the preparation and review of contingency plans which conform to policy guidance from the President and the Secretary of Defense;

"(5) prepare joint logistic and mobility plans to support the contingency plans and recommend the assignment of logistic and mobility responsibilities to the military departments and armed forces in accordance with such logistic and mobility plans;

"(6) advise the Secretary on critical deficiencies and strengths in force capabilities, including manpower, logistic, and mobility support, identified during the preparation and review of contingency plans and assess the effect of such deficiencies and strengths on meeting national security objectives and policy and on strategic plans;

"(7) assess joint military requirements for defense acquisition programs, especially in the area of communications, in order to enhance the ability of the armed forces to operate jointly;

"(8) develop doctrine, for the approval of the Secretary of Defense, for the joint employment of the armed forces;

"(9) formulate policies, for the approval of the Secretary of Defense, for the joint training of the armed forces that enhance their ability to operate jointly;

"(10) formulate policies, for the approval of the Secretary of Defense, for coordinating the military education and training of the armed forces, particularly the education and training of officers who serve in joint duty positions;

"(11) provide for representation of the United States on the Military Staff Committee of the United Nations in accordance with the Charter of the United Nations; and

"(12) perform such other duties as the President or the Secretary of Defense may prescribe.

"(e)(1) Not less than once every three years, or upon the request of the President, the Chairman shall submit a report to the Secretary of Defense containing such recommendations for changes in the function assignments of the armed forces as the Chairman considers necessary to ensure maximum effectiveness of the armed forces. In preparing each report, the Chairman shall take into consideration—

"(A) changes in the nature of the threats faced by the armed forces;

"(B) unnecessary duplication of effort among the armed forces; and

"(C) changes in technology that can be applied effectively to warfare.

"(2) The Chairman shall also include in each such report recommendations for such changes in policies, directives, regulations, and legislation as may be necessary to achieve the changes in function assignments recommended by the Chairman.

"§ 153. Vice Chairman

"(a)(1) There is a Vice Chairman of the Joint Chiefs of Staff. The Vice Chairman shall be appointed by the President, by and with the advice and consent of the Senate, from the officers of the regular components of the armed forces.

"(2) The Chairman and Vice Chairman may not be members of the same armed force. However, the Secretary of Defense may waive the restriction in the preceding sentence for a limited period of time in order to effect the orderly transition of officers appointed to serve in the positions of Chairman and Vice Chairman.

"(3) The Vice Chairman serves at the pleasure of the President for a term of two years and may be reappointed in the same manner for two additional terms. However, in time of war declared by Congress there is no limit on the number of reappointments.

"(b)(1) The Vice Chairman exercises such duties as may be delegated by the Chairman with the approval of the Secretary of Defense.

"(2) When there is a vacancy in the office of Chairman or in the absence or disability of the Chairman, the Vice Chairman, unless otherwise directed by the President or the Secretary of Defense, acts as Chairman and performs the duties of the Chairman until a successor is appointed or the absence or disability ceases.

"(c) The Vice Chairman may attend all meetings of the Joint Chiefs of Staff but may not vote on a matter before the Joint Chiefs of Staff except when acting as Chairman.

"(d) The Vice Chairman, while so serving, holds the grade of general or, in the case of an officer of the Navy, admiral and outranks all other officers of the armed forces except the Chairman. The Vice Chairman may not exercise military command over the Joint Chiefs of Staff or any of the armed forces.

"§ 154. Joint Staff

"(a)(1) There is in the Department of Defense a Joint Staff under the Chairman of the Joint Chiefs of Staff. Subject to the authority, direction, and control of the Chairman, the Joint Staff shall assist the Chairman and the other members of the Joint Chiefs of Staff in carrying out their responsibilities.

"(2) The Joint Staff shall include officers selected by the Chairman in approximately equal numbers from—

"(A) the Army;

"(B) the Navy and the Marine Corps; and

"(C) the Air Force.

"(3) Selection of officers of an armed force to serve on the Joint Staff shall be made by the Chairman from a list of officers submitted by the armed force. Each officer whose name is submitted shall be among those officers considered to be the most outstanding officers of that armed force. The Chairman may specify the number of officers to be included on any such list.

"(4) The tenure of the members of the Joint Staff is subject to the approval of the Chairman of the Joint Chiefs of Staff.

"(b) The Chairman of the Joint Chiefs of Staff, after consultation with the other members of the Joint Chiefs of Staff and with the approval of the Secretary of Defense, may select a Director of the Joint Staff.

"(c) The Chairman of the Joint Chiefs of Staff manages the Joint Staff and the Director of the Joint Staff. The Joint Staff shall perform such duties as the Chairman shall prescribe and shall perform such duties under such procedures as the Chairman shall prescribe.

"(d) The Joint Staff shall not operate or be organized as an overall Armed Forces General Staff and shall have no executive authority. The Joint Staff may be organized and may operate along conventional staff lines to support the Chairman and the other members of the Joint Chiefs of Staff in discharging their assigned responsibilities.

"(e)(1) An officer who is assigned or detailed to duty on the Joint Staff may not serve for a tour of duty of more than four years. However, such tour of duty may be extended with the approval of the Secretary of Defense.

"(2) An officer completing a tour of duty with the Joint Staff may not be assigned or detailed to duty on the Joint Staff within two years after relief from that duty except with the approval of the Secretary.

"(3) This subsection does not apply in time of war declared by Congress or in time of national emergency declared by the President.

"(f)(1) The total number of civilian and military personnel assigned or detailed to permanent duty on the Joint Staff may not exceed 1,617. Such limitation does not apply in time of war or during a national emergency declared by Congress.

"(2)(A) For purposes of this section, the Joint Staff includes all civilian and military personnel assigned or detailed to permanent duty to assist the Chairman and Vice Chairman in carrying out their responsibilities and to assist the other members of the Joint Chiefs of Staff in carrying out their responsibilities specified in section 151 of this title.

"(B) The Joint Staff does not include civilian or military personnel assigned or detailed to permanent duty in a military department.".

(b) CONFORMING AMENDMENTS.—(1) The item relating to chapter 5 in the tables of chapters at the beginning of subtitle A and at the beginning of part I of such subtitle are each amended to read as follows:

"5. Joint Chiefs of Staff ..... 151".

(2) Section 525(b)(3) is amended by inserting "or Vice Chairman" after "Chairman".

(3) Section 743 is amended—

(A) by striking out "and" after "Operations,";

(B) by inserting ", and the Commandant of the Marine Corps" after "Air Force"; and

(C) by inserting "and the Vice Chairman" after "Chairman".

(c) DATE FOR FIRST REPORT.—The first report under section 152(e) of title 10, United States Code (as added by subsection (a) of this section), shall be submitted by the Chairman of the Joint Chiefs of Staff not later than one year after the date of the enactment of this Act.

(d) EFFECTIVE DATE.—The limitation prescribed in section 154(f) of title 10, United States Code (as added by subsection (a) of this section), shall be effective after September 30, 1988.

SEC. 112. COMBATANT COMMANDS

(a) IN GENERAL.—Part I of subtitle A is amended by inserting after chapter 5 the following new chapter:

"CHAPTER 6—COMBATANT COMMANDS

"Sec.
"161. Definitions.
"162. Combatant commands: establishment; composition; functions.

"163. Operational chain of command.
"164. Commanders of combatant commands: assignment; powers and duties.
"165. Combatant commands: administration and support.

**"§ 161. Definitions**

"In this chapter:

"(1) 'Unified combatant command' means a command which has broad, continuing missions and which is composed of combatant forces from two or more military departments.

"(2) 'Specified combatant command' means a command which has broad, continuing missions and which is composed of combatant forces from a single military department.

"(3) 'Combatant command' means a unified combatant command or a specified combatant command.

"(4) 'Combatant forces' means those forces of the armed forces whose primary mission is to engage in combat.

**"§ 162. Combatant commands: establishment; composition; functions**

"(a) With the advice and assistance of the Chairman of the Joint Chiefs of Staff, the President, through the Secretary of Defense, shall—

"(1) establish unified combatant commands and specified combatant commands to perform military missions;

"(2) prescribe the force structure of those commands;

"(3) review periodically, but not less often than every two years, the missions, tasks, responsibilities (including geographic boundaries), and force structure of each combatant command and revise such missions, tasks, responsibilities, and force structures as may be necessary to respond to changing conditions; and

"(4) notify Congress, except during time of hostilities or imminent threat of hostilities, at least 60 days before (A) establishing a new combatant command, or (B) significantly revising the missions, tasks, responsibilities, or force structure of an existing combatant command.

"(b)(1) Unless otherwise directed by the Secretary of Defense, all combatant forces of the military departments shall be assigned to combatant commands, established under this section, to perform the missions of those commands.

"(2) Consistent with the force structure prescribed by the President for each combatant command, the Secretary of each military department, with the approval of the Secretary of Defense, shall assign combatant forces of his department to combatant commands.

"(3) A combatant force so assigned may be transferred from the command to which it is assigned only by authority of the Secretary of Defense and only under procedures prescribed by the Secretary and approved by the President.

"(c) Combatant commands established under this section are responsible to the President and to the Secretary of Defense for the performance of such military missions as may be assigned to such commands by the Secretary with the approval of the President.

**"§ 163. Operational chain of command**

"(a) Unless otherwise directed by the President, the chain of command for the operational direction of the combatant commands runs from the President to the Secretary of Defense to the commanders of the unified and specified combatant commands.

"(b) Subject to the limitations of section 152(c) of this title, the President or the Secretary of Defense may direct communications to run from the Secretary of Defense to the commanders of the unified and specified combatant commands through the Chairman of the Joint Chiefs of Staff.

"(c) Unless otherwise directed by the President or the Secretary of Defense, the commander of a combatant command shall prescribe the chain of command to, and the organizational relationship among, the commands and forces within that command.

"(d)(1) As a means of providing for more effective control and coordination of the combatant commands, the Secretary of Defense may assign responsibility to the Chairman of the Joint Chiefs of Staff for overseeing the activities of the combatant commands. Such assignment by the Secretary to the Chairman does not confer any command authority on the Chairman and does not alter the responsibility of the combatant commanders prescribed in section 164(b) of this title.

"(2) Subject to the authority, direction, and control of the Secretary of Defense, the Chairman of the Joint Chiefs of Staff serves as the spokesman for the commanders of the combatant commands on operational requirements. In performing such responsibility, the Chairman shall—

"(A) confer with and obtain information from the commanders of the combatant commands about the operational requirements of their commands;

"(B) evaluate and integrate such information;

"(C) advise and make recommendations to the Secretary of Defense about the operational requirements of the combatant commands, individually and collectively; and

"(D) perform such other activities as may be required to communicate clearly the operational requirements of the combatant commands.

**"§ 164. Commanders of combatant commands: assignment; powers and duties**

"(a) The President may assign to serve as commanders of unified combatant commands only officers who have served in one or more joint duty positions for a substantial period of time. The President may waive the requirement of the preceding sentence in the case of any officer if the President determines such action is necessary in the national interest.

"(b) Each commander of a combatant command performs his duties under the authority, direction, and control of the Secretary of Defense and is directly responsible to the Secretary for the performance of his command and its preparedness to execute assigned missions.

"(c) Subject to the authority, direction, and control of the Secretary of Defense, each commander of a combatant command shall—

"(1) maintain the security of his command and protect the United States, its possessions, and bases against attack or hostile incursion;

"(2) carry out assigned missions, tasks, and responsibilities; and

"(3) assign tasks to, and direct coordination among, his subordinate commanders so as to ensure unity of effort in the accomplishment of the missions assigned to his command.

"(d)(1) Unless otherwise directed by the President or the Secretary of Defense, forces assigned to combatant commands are under the full operational command of the commander of the combatant command to which they are assigned. Full operational command includes all aspects of military operations and joint training.

"(2) In addition to the full operational command provided for under paragraph (1), the commander of a combatant command shall have authority as assigned by the Secretary of Defense, after consultation with the Secretaries of the military departments and the combatant commander, for coordination and approval of those aspects of administration and support, including planning for wartime logistics, necessary for the accomplishment of the missions assigned to the command.

"(e) Unless otherwise directed by the President or the Secretary of Defense—

"(1) commanders of commands and forces assigned to a combatant command are under the authority, direction, and control of, and are responsible to, the commander of the combatant command on all matters for which the combatant commander has been assigned full operational command under subsection (d)(1) or other authority under subsection (d)(2);

"(2) the commander of a command or force referred to in clause (1) shall communicate with other elements of the Department of Defense on any matter for which the combatant commander has been assigned full operational command under subsection (d)(1) or other authority under subsection (d)(2) in accordance with procedures, if any, established by the commander of the combatant command; and

"(3) if directed by the combatant commander, the commander of a command or force referred to in clause (1) shall advise the combatant commander of all communications with other elements of the Department of Defense on any matter for which the combatant commander has not been assigned full operational command under subsection (d)(1) or other authority under subsection (d)(2).

"(f)(1) Selection of an officer of an armed force to serve as commander of a command directly subordinated to the commander of a combatant command may be made only with the concurrence of the commander of the combatant command and only in accordance with procedures established by the Secretary of Defense. However, the Secretary of Defense may waive the requirement for the concurrence of the commander of a combatant command with regard to the selection of a particular commander if the Secretary of Defense determines such action is necessary in the national interest.

"(2) The commander of a combatant command shall evaluate the duty performance of each commander of a command directly subordinated to the commander of such combatant command and submit the evaluation to the Secretary of the military department of which the commander being evaluated is a member.

"(g)(1) Each unified combatant command shall have a joint staff with officers in key positions of responsibility from each military department having forces assigned to the combatant command.

"(2) Selection of officers of an armed force to serve on the joint staff of a unified combatant command in any grade above lieutenant colonel or, in the case of an officer of the Navy, any grade above commander shall be made only with the concurrence of the commander of such command and only in accordance with procedures established by the Secretary of Defense.

"(h) In accordance with procedures established by the Secretary of Defense, the commander of a combatant command may suspend from duty and recommend the reas-

signment of any officer assigned to such combatant command.

"§ 165. Combatant commands: administration and support

"(a) The Secretary of Defense, with the advice and assistance of the Chairman of the Joint Chiefs of Staff, shall provide for the administration and support of combatant forces assigned to each combatant command.

"(b) Subject to the authority, direction, and control of the Secretary of Defense and consistent with the full operational command and other authority assigned to combatant commanders by section 164(d) of this title, the Secretary of a military department is responsible for the administration and support of forces assigned by him to a combatant command.

"(c) After consultation with the Secretary of each military department, the Secretary of Defense may also assign the responsibility or any part of the responsibility for the administration and support of combatant forces assigned to the combatant commands to other components of the Department of Defense. A component assigned such a responsibility shall discharge that responsibility under the authority, direction, and control of the Secretary of Defense and consistent with the full operational command and other authority assigned to combatant commanders by section 164(d) of this title.".

(b) CONFORMING AMENDMENTS.—(1) The tables of chapters at the beginning of subtitle A and at the beginning of part I of such subtitle are each amended by inserting after the item relating to chapter 5 the following new item:

"6. Combatant Commands ..... 161".

(2) Section 124 is repealed.

(3) The table of sections at the beginning of chapter 3 is amended by striking out the item relating to section 124.

SEC. 113. REPEAL OF PROHIBITION AGAINST CONSOLIDATING FUNCTIONS OF THE MILITARY TRANSPORTATION COMMANDS

Section 1110 of the Department of Defense Authorization Act, 1983 (Public Law 97-252; 96 Stat. 747), is repealed.

SEC. 114. POSITIONS OF IMPORTANCE AND RESPONSIBILITY

Section 601 is amended by adding at the end thereof the following new subsections:

"(d) When an officer is recommended to the President for an initial appointment to the grade of lieutenant general or vice admiral, or for an initial appointment to the grade of general or admiral, the Chairman of the Joint Chiefs of Staff shall submit to the Secretary of Defense the Chairman's evaluation of the performance of that officer as a member of the Joint Staff and in other joint duty positions. The Secretary of Defense shall submit the Chairman's evaluation to the President at the same time the recommendation for the appointment is submitted to the President.

"(e) Each time a vacancy occurs in a military office or position within the Department of Defense that the President has designated as a position of importance and responsibility to carry the grade of general or admiral or lieutenant general or vice admiral, the Secretary of Defense shall inform the President of the qualifications needed by an appointee to carry out effectively the duties and responsibilities of that office or position.".

SEC. 115. SERVICE OF OFFICERS IN JOINT DUTY POSITIONS

(a) IN GENERAL.—Section 646 is amended to read as follows:

"§ 646. Service of officers in joint duty positions

"(a) The Secretary of Defense, after consultation with the Chairman of the Joint Chiefs of Staff and the Secretary of each military department, shall ensure that the personnel practices, policies, and procedures of the Army, Navy, Air Force, and Marine Corps enhance the abilities of those officers assigned to joint duty positions to perform effectively the duties of such positions.

"(b) In carrying out subsection (a), the Secretary of Defense shall ensure that—

"(1) officers are well prepared to assume joint duty positions as the result of previous experience (including, as appropriate, previous duty in joint duty positions), formal education, and training;

"(2) continuity is attained and preserved in joint organizations through appropriate periods of service by officers serving in joint organizations;

"(3) the promotion, retention, and assignment policies of the Army, Navy, Air Force, and Marine Corps provide sufficient incentives for officers to seek joint duty assignments;

"(4) the curricula of joint military colleges and schools are oriented to preparing officers for joint duty assignments;

"(5) a substantial percentage of the graduates of joint military colleges and schools are assigned to joint duty positions soon after they complete their courses of study; and

"(6) the curricula of the military colleges and schools of the Army, Navy, Air Force, and Marine Corps give appropriate emphasis to instruction in joint military matters.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of subchapter V of chapter 36 is amended by striking out the item relating to section 646 and inserting in lieu thereof the following:

"646. Service of officers in joint duty positions.".

SEC. 116. DEFENSE AGENCIES AND DEPARTMENT OF DEFENSE FIELD ACTIVITIES

(a) IN GENERAL.—Chapter 8 is amended—

(1) by redesignating sections 191 and 192 as sections 195 and 196, respectively;

(2) by striking out the table of sections at the beginning of such chapter and inserting in lieu thereof the following:

"Subchapter Sec.
I. Common Supply and Service Activities ..... 191
II. Defense Intelligence Agency ..... 195

"SUBCHAPTER I—COMMON SUPPLY AND SERVICE ACTIVITIES

"Sec.
"191. Common supply and service activities.

"§ 191. Common supply and service activities

"(a)(1) In any case in which the Secretary of Defense determines such action would be more effective, economical, or efficient, he may provide for the performance of a supply or service activity which is common to more than one military department by a single agency of the Department of Defense.

"(2) The Secretary of Defense shall establish within the Department of Defense a Defense Agency or a Department of Defense Field Activity to perform any supply or service activity referred to in paragraph (1).

"(b) The Secretary of Defense shall assign responsibility for the overall supervision of each supply or service agency referred to in subsection (a) to the Deputy Secretary of Defense, an Under Secretary of Defense, an Assistant Secretary of Defense, the Comptroller of the Department of Defense, the General Counsel of the Department of Defense, or the Chairman of the Joint Chiefs of Staff. In discharging such responsibility, an official assigned such a responsibility shall advise the Secretary of Defense on the extent to which the program recommendations and budget proposals of such supply or service agency conform with the material requirements of the military departments and the operational requirements of the unified and specified combatant commands. This subsection shall not apply to the Defense Intelligence Agency and the National Security Agency.

"(c) The Secretary of Defense shall establish procedures to ensure the full and effective review of the program recommendations and budget proposals of each such supply or service agency.

"(d)(1) The Chairman of the Joint Chiefs of Staff shall be responsible for advising the Secretary of Defense on the preparedness of each such supply or service agency which has wartime support responsibilities to perform those responsibilities. As part of such advice, the Chairman shall assess the adequacy of the contingency plans, participation in joint exercises, and readiness reporting systems of each such supply or service agency.

"(2) The Secretary of Defense, in consultation with the Director of Central Intelligence, shall develop and implement, as they may determine to be necessary, policies and programs to correct such deficiencies as the Chairman of the Joint Chiefs of Staff and other officials of the Department of Defense may identify in the wartime support capabilities of the Defense Intelligence Agency and the National Security Agency.

"(e) The Secretary of Defense shall periodically assess the continuing need for each such supply or service agency. In making such assessment, the Secretary shall also examine the division of responsibilities between such supply or service agency and other components of the Department of Defense.

"SUBCHAPTER II—DEFENSE INTELLIGENCE AGENCY

"Sec.
"195. Unauthorized use of Defense Intelligence Agency name, initials, or seal.
"196. Benefits for certain employees of the Defense Intelligence Agency."; and

(3) by striking out the chapter heading and inserting in lieu thereof the following:

"CHAPTER 8—DEFENSE AGENCIES AND DEPARTMENT OF DEFENSE FIELD ACTIVITIES".

(b) CONFORMING AMENDMENT.—The tables of chapters at the beginning of subtitle A and at the beginning of part I of such subtitle are each amended by striking out the item relating to chapter 8 and inserting in lieu thereof the following:

"8. Defense Agencies and Department of Defense Field Activities ..... 191".

SEC. 117. REDUCTION IN PERSONNEL ASSIGNED TO DEFENSE AGENCIES AND DEPARTMENT OF DEFENSE FIELD ACTIVITIES

(a) MANAGEMENT HEADQUARTERS ACTIVITIES AND MANAGEMENT HEADQUARTERS SUPPORT ACTIVITIES.—Not later than September 30, 1988, the Secretary of Defense shall reduce the total number of military and civilian personnel assigned to duty in the management headquarters activities or management headquarters support activities in the Defense Agencies and Department of Defense Field Activities by a number that is at least

15 percent of the total number of personnel performing such activities on September 30, 1985. The number of personnel reduced under this subsection in excess of the reduction required by this subsection may be included in the number required to be reduced by subsection (b).

(b) OTHER ACTIVITIES.—Not later than September 30, 1988, the Secretary of Defense shall reduce the total number of military and civilian personnel assigned to duty in the Defense Agencies and Department of Defense Field Activities, other than personnel assigned to management headquarters activities or management headquarters support activities, by a number that is at least 10 percent below the total number of personnel performing such activities on September 30, 1985.

(c) PROHIBITION AGAINST CERTAIN ACTIONS TO ACHIEVE REDUCTIONS.—The reductions required by subsections (a) and (b) may not be accomplished by recategorizing or redefining duties, functions, offices, or organizations.

(d) ALLOCATIONS TO BE MADE BY SECRETARY OF DEFENSE.—(1) The Secretary of Defense shall allocate the reductions required by subsections (a) and (b) in a manner consistent with the efficient operation of the Department of Defense.

(2) The Secretary shall also consolidate and eliminate unnecessary management headquarters activities and management headquarters support activities.

(e) REDUCTION NOT APPLICABLE TO NATIONAL SECURITY AGENCY.—The reductions required by this section do not apply to the National Security Agency.

(f) PROHIBITION ON FUTURE INCREASES.—After September 30, 1988, the number of civilian and military personnel assigned to perform activities described in subsections (a) and (b) may not be increased above the number of such personnel assigned to perform such activities on September 30, 1988. The limitation provided in this subsection shall not apply in time of war or during a national emergency declared by Congress.

(g) DEFINITIONS.—For purposes of this section, the term "management headquarters activities" and "management headquarters support activities" have the same meanings as prescribed for such terms in Department of Defense Directive 5100.73 entitled "Department of Defense Management Headquarters and Headquarters Support Activities" dated January 7, 1985.

SEC. 118. ADDITIONAL CONFORMING AMENDMENTS

(a) AMENDMENTS TO TITLE 10, UNITED STATES CODE.—(1) Section 139(a)(2)(B) (as redesignated by section 104(6) of this Act) is amended by striking out "section 139a(a)(1)" and inserting in lieu thereof "section 2873(a)(1)".

(2) Paragraphs (1) and (2) of section 2403(e) are each amended by striking out "section 139a" and inserting in lieu thereof "section 2873".

(3) Section 2872 (as redesignated by section 104(9) of this Act) is amended by striking out "section 138(a)" in subsection (a) and inserting in lieu thereof "section 2871(a)".

(4) Section 2873(c) (as redesignated by section 104(10) of this Act) is amended by striking out "section 139" in subsection (c)(1) and inserting in lieu thereof "section 2872".

(5) Section 2874 (as redesignated by section 104(11) of this Act) is amended—

(A) in subsection (a)(1), by striking out "section 139a(a)" and inserting in lieu thereof "section 2873(a)"; and

(B) in subsection (b), by striking out "section 139a(b)(3) and inserting in lieu thereof "section 2873(b)(3)".

(6) Section 2875(b)(1) (as redesignated by section 104(12) of this Act) is amended by striking out "section 139a(a)(1)" and inserting in lieu thereof "section 2873(a)(1)".

(7) Section 8062(e) is amended by striking out "section 138" and inserting in lieu thereof "section 2871".

(b) AMENDMENTS TO ARMS EXPORT CONTROL ACT.—(1) Section 51(c)(1) of the Arms Export Control Act (22 U.S.C. 2795(c)(1)) is amended by striking out "section 138(g)" and inserting in lieu thereof "section 2871(g)".

(2) Section 53(b) of the Arms Export Control Act (22 U.S.C. 2795b(b)) is amended by striking out "section 139(a)" and inserting in lieu thereof "section 2872(a)".

## TITLE II—ARMY

SEC. 201. DEPARTMENT OF THE ARMY

(a) IN GENERAL.—(1) Chapter 303 is amended—

(A) by striking out section 3039;

(B) by redesignating section 3040 as section 3039; and

(C) by redesignating section 3015 as section 3040, transferring such section (as redesignated) to chapter 305, and inserting such section immediately after section 3039 (as redesignated by clause (B) of this paragraph).

(2) Such chapter is further amended by striking out sections 3012, 3013, 3014, and 3016 and inserting in lieu thereof the following:

**"§ 3013. Secretary of the Army: appointment; powers and duties; delegation authority**

"(a) There is a Secretary of the Army appointed from civilian life by the President, by and with the advice and consent of the Senate. The Secretary is the head of the Department of the Army. A person may not be appointed as Secretary of the Army within five years after relief from active duty as a commissioned officer of a regular component of an armed force.

"(b) Subject to the authority, direction, and control of the Secretary of Defense and the provisions of chapter 6 of this title, the Secretary of the Army is responsible for and has the authority necessary to conduct all affairs of the Department of the Army, including the following:

"(1) Recruiting.
"(2) Organizing.
"(3) Supplying.
"(4) Equipping (including research and development).
"(5) Training.
"(6) Servicing.
"(7) Mobilizing.
"(8) Demobilizing.
"(9) Administering.
"(10) Maintaining.
"(11) The construction, outfitting, and repair of military equipment.
"(12) The construction, maintenance, and repair of buildings, structures, and utilities and the acquisition of real property and interests therein necessary to carry out the responsibilities specified in clauses (1) through (11).

"(c) Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of the Army is also responsible to the Secretary of Defense for—

"(1) the functioning and efficiency of the Department of the Army;

"(2) the formulation of policies and programs by the Department of the Army that are fully consistent with national security objectives and policies established by the President or the Secretary of Defense;

"(3) the effective and timely implementation of policy, program, and budget decisions and instructions of the President or the Secretary of Defense relating to the functions of the Department of the Army;

"(4) carrying out the functions of the Department of the Army so as to fulfill (to the maximum extent practicable) the current and future operational requirements of the unified and specified combatant commands;

"(5) effective cooperation and coordination between the Department of the Army and the other military departments and agencies of the Department of Defense to provide for more effective, efficient, and economical administration and to eliminate duplication;

"(6) the presentation and justification of the positions of the Department of the Army on the plans, programs, and policies of the Department of Defense; and

"(7) the effective supervision and control of the intelligence activities of the Department of the Army.

"(d) The Secretary of the Army is also responsible for such other activities as may be prescribed by law, the President, or the Secretary of Defense.

"(e) After first informing the Secretary of Defense, the Secretary of the Army may make such recommendations to Congress relating to the Department of Defense as he considers appropriate.

"(f) The Secretary of the Army may assign such of his functions, powers, and duties as he considers appropriate to the Under Secretary of the Army and to the Assistant Secretaries of the Army. Officers of the Army shall, as directed by the Secretary, report on any matter to the Secretary, the Under Secretary, or any Assistant Secretary.

"(g) The Secretary may assign, detail, and prescribe the duties of members of the Army and civilian personnel of the Department of the Army.

"(h) The Secretary may change the title of any officer or activity of the Department of the Army not prescribed by law.

"(i) The Secretary may prescribe regulations to carry out his functions, powers, and duties under this title.

**"§ 3014. Office of the Secretary of the Army**

"(a) There is in the Department of the Army an Office of the Secretary of the Army to assist the Secretary in carrying out his responsibilities.

"(b) The Office of the Secretary of the Army shall consist of the following:

"(1) The Under Secretary of the Army.
"(2) The Assistant Secretaries of the Army.
"(3) The Inspector General of the Army.
"(4) The Army Reserve Forces Policy Committee.
"(5) Such other offices and officers as the Secretary of the Army may establish or designate.

"(c) The Secretary of the Army shall ensure that the Office of the Secretary of the Army does not duplicate specific functions for which the Secretary has assigned responsibility to the Army Staff.

"(d) The total number of military and civilian personnel assigned or detailed to permanent duty in the Office of the Secretary of the Army may not exceed 313. However, such limitation does not apply in time of war or during a national emergency declared by Congress.

**"§ 3015. Under Secretary of the Army: appointment; powers and duties**

"(a) There is an Under Secretary of the Army appointed from civilian life by the

President, by and with the advice and consent of the Senate.

"(b) The Under Secretary shall perform such duties and exercise such powers as the Secretary of the Army may prescribe.

**"§ 3016. Assistant Secretaries of the Army: appointment; powers and duties**

"(a) There are five Assistant Secretaries of the Army in the Department of the Army. They shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b)(1) The Assistant Secretaries shall perform such duties and exercise such powers as the Secretary of the Army may prescribe.

"(2) One of the Assistant Secretaries shall be the Assistant Secretary of the Army for Manpower and Reserve Affairs. He shall have as his principal duty the overall supervision of manpower and reserve component affairs of the Department of the Army.

"(3) One of the Assistant Secretaries shall be the Assistant Secretary of the Army for Civil Works. He shall have as his principal duty the overall supervision of the functions of the Department of the Army relating to programs for conservation and development of the national water resources including flood control, navigation, shore protection, and related purposes.".

(3) Section 3017 is amended—

(A) in subsection (a), by striking out clause (2) and inserting in lieu thereof the following:

"(2) The Assistant Secretaries of the Army in the order prescribed by the Secretary of the Army and approved by the Secretary of Defense.".

(B) by striking out "(a)" at the beginning of such section; and

(C) by striking out subsection (b).

(4) Chapter 303 is further amended by striking out section 3019.

(5) Chapter 303 is further amended by inserting after section 3017 the following new section:

**"§ 3018. Inspector General of the Army: detail; duties**

"(a) There is in the Office of the Secretary of the Army an Inspector General of the Army who shall be detailed to such position by the Secretary of the Army from general officers of the Army. An officer may not be detailed to such position for a tour of duty of more than four years, except that the Secretary may extend such a tour of duty if he makes a special finding that the extension is necessary in the public interest.

"(b) The Inspector General, when directed by the Secretary or the Chief of Staff, shall inquire into and report upon the discipline, efficiency, and economy of the Army and shall perform any other duties prescribed by the Secretary or by the Chief of Staff.

"(c) The Inspector General shall periodically propose programs of inspections to the Secretary of the Army and shall recommend additional inspections and investigations as may appear appropriate.

"(d) The Inspector General shall have such deputies and assistants as the Secretary of the Army may prescribe. Each such deputy and assistant shall be an officer detailed by the Secretary to that position from the officers of the Army for a tour of duty of not more than four years, under a procedure prescribed by the Secretary.".

(6)(A) Section 3033 is redesignated as section 3019, is transferred to and made a part of chapter 303, and is inserted immediately after section 3018.

(B) Section 3019 (as redesignated by subparagraph (A)) is amended—

(i) in subsection (a)—

(I) by striking out "office" and inserting in lieu thereof "Office";

(II) by inserting "and the mobilization preparedness" after "reserve components"; and

(III) by striking out "Chief of Staff and the Assistant Secretary responsible for reserve affairs" and inserting in lieu thereof "Secretary of the Army and the Chief of Staff"; and

(ii) in the section heading, by striking out the semicolon and inserting in lieu thereof a colon.

(b) CONFORMING AMENDMENTS.—(1) Such chapter is further amended by redesignating sections 3010 and 3011 as sections 3011 and 3012, respectively.

(2) The table of sections at the beginning of such chapter is amended to read as follows:

"Sec.
"3011. Organization.
"3012. Department of the Army: seal.
"3013. Secretary of the Army: appointment; powers and duties; delegation authority.
"3014. Office of the Secretary of the Army.
"3015. Under Secretary of the Army: appointment; powers and duties.
"3016. Assistant Secretaries of the Army: appointment; powers and duties.
"3017. Secretary of the Army: successors to duties.
"3018. Inspector General of the Army: detail; duties.
"3019. Reserve components of Army: policies and regulations for government of.".

(3) Section 175(d) is amended by striking out "3033" and "8033" and inserting in lieu thereof "3019" and "8019", respectively.

(c) EFFECTIVE DATE.—The limitation provided for in section 3014(d) of title 10, United States Code (as amended by subsection (a)(2) of this section), shall be effective after September 30, 1988.

SEC. 202. THE ARMY STAFF

(a) COMPOSITION OF THE ARMY STAFF.—Section 3031 is amended to read as follows:

**"§ 3031. The Army Staff: composition; assignment and detail of members of Army and civilians**

"(a) There is in the executive part of the Department of the Army an Army Staff to assist the Secretary of the Army in carrying out his responsibilities.

"(b) The Army Staff shall consist of the following:

"(1) The Chief of Staff.

"(2) The Vice Chief of Staff.

"(3) Not more than four Deputy Chiefs of Staff, as prescribed by the Secretary of the Army.

"(4) Not more than three Assistant Chiefs of Staff, as prescribed by the Secretary.

"(5) The Chief of Engineers.

"(6) The Surgeon General of the Army.

"(7) The Judge Advocate General of the Army.

"(8) The Chief of Chaplains of the Army.

"(9) The Chief of Army Reserve.

"(10) Other members of the Army assigned or detailed to the Army Staff.

"(11) Civilians in the Department of the Army assigned or detailed to the Army Staff.

"(c) Except as otherwise specifically prescribed by law, the Army Staff shall be organized in such manner, and its members shall perform such duties and have such titles, as the Secretary may prescribe. A part of the Army Staff may be designated as the Army General Staff.

"(d)(1) The total number of military and civilian personnel assigned or detailed to permanent duty to the Army Staff may not exceed 2,729. Such limitation does not apply in time of war or during a national emergency declared by Congress.

"(2) Not more than 1,825 officers of the Army may be assigned or detailed to permanent duty in the Office of the Secretary of the Army and the Army Staff. Of such number, not more than 1,000 may be detailed or assigned to duty on or with the Army General Staff. However, such limitations do not apply in time of war or during a national emergency declared by Congress, or whenever the President finds that it is in the national interest to increase the number of officers in the Office of the Secretary of the Army and the Army Staff or on or with the Army General Staff.".

(b) THE ARMY STAFF; GENERAL DUTIES.—Section 3032 is amended—

(1) in subsection (a), by inserting before the period ", and the Chief of Staff of the Army";

(2) in subsection (b)—

(A) by striking out "direction and control of the Secretary" in the matter preceding clause (1) and inserting in lieu thereof "authority, direction, and control of the Secretary of the Army";

(B) by striking out ", training, serving, mobilizing, and demobilizing" in clause (1) and inserting in lieu thereof "(including research and development), training, servicing, mobilizing, demobilizing, administering, and maintaining"; and

(C) by striking out "for military operations" in clause (2) and inserting in lieu thereof "to support military operations by combatant commands"; and

(3) by striking out the section heading and inserting in lieu thereof the following:

**"§ 3032. The Army Staff: general duties".**

(c) CHIEF OF STAFF.—Section 3034 is redesignated as section 3033 and (as redesignated) is amended—

(1) in subsection (a)—

(A) by striking out "The Chief of Staff shall be" and inserting in lieu thereof "There is a Chief of Staff of the Army"; and

(B) by striking out "national emergency, declared by the Congress after December 31, 1968" and inserting in lieu thereof "during a national emergency declared by Congress";

(2) by striking out subsections (c) and (d) and inserting in lieu thereof the following:

"(c) Except as otherwise prescribed by law and subject to section 3013(f) of this title, the Chief of Staff performs his duties under the authority, direction, and control of the Secretary of the Army and is directly responsible to the Secretary.

"(d) Subject to the authority, direction, and control of the Secretary of the Army, the Chief of Staff shall—

"(1) preside over the Army Staff;

"(2) transmit the plans and recommendations of the Army Staff to the Secretary and advise the Secretary with regard to such plans and recommendations;

"(3) after approval of the plans or recommendations of the Army Staff by the Secretary, act as the agent of the Secretary in carrying them into effect;

"(4) exercise supervision, consistent with the full operational command and other authority assigned to unified or specified combatant commanders under chapter 6 of this title, over such of the members and organizations of the Army as the Secretary determines;

"(5) perform the duties prescribed for him by section 171 of this title and other provisions of law;

"(6) keep the Secretary fully informed on matters considered or acted upon by the Joint Chiefs of Staff; and

"(7) perform such other military duties, not otherwise assigned by law, as are assigned to him by the President, the Secretary of Defense, or the Secretary of the Army.

"(e) The Chief of Staff shall also perform the duties prescribed for him as a member of the Joint Chiefs of Staff under section 151 of this title."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 3033. Chief of Staff: appointment; term of office; powers and duties".

(d) VICE CHIEF OF STAFF.—Section 3035 is redesignated as section 3034 and (as redesignated) is amended—

(1) by striking out subsections (a) and (b) and inserting in lieu thereof the following:

"(a) There is a Vice Chief of Staff of the Army appointed by the President, by and with the advice and consent of the Senate, from the general officers of the Army.

"(b) The Vice Chief of Staff of the Army, while so serving, has the grade of general without vacating his regular or reserve grade.";

(2) by adding at the end the following new subsection:

"(d) When there is a vacancy in the office of Chief of Staff or during the absence or disability of the Chief of Staff—

"(1) the Vice Chief of Staff shall perform the duties of the Chief of Staff until a successor is appointed or the absence or disability ceases; or

"(2) if there is a vacancy in the office of the Vice Chief of Staff or the Vice Chief of Staff is absent or disabled, unless the President directs otherwise, the most senior officer of the Army in the Army Staff who is not absent or disabled and who is not restricted in performance of duty shall perform the duties of the Chief of Staff until a successor to the Chief of Staff or the Vice Chief of Staff is appointed or until the absence or disability of the Chief of Staff or Vice Chief of Staff ceases, whichever occurs first."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 3034. Vice Chief of Staff: appointment; powers and duties; succession to duties of Chief of Staff".

(e) DEPUTY CHIEFS OF STAFF.—Chapter 305 is further amended by inserting after section 3034 (as redesignated by subsection (d)) the following new section:

"§ 3035. Deputy Chiefs of Staff and Assistant Chiefs of Staff: detail

"The Deputy Chiefs of Staff and the Assistant Chiefs of Staff shall be general officers detailed to those positions.".

(f) RELOCATION OF SECTIONS.—(1) Chapter 305 is further amended by inserting after section 3037 the following new section:

"§ 3038. Office of Army Reserve: appointment of Chief

"(a) There is in the executive part of the Department of the Army an Office of the Army Reserve which is headed by a chief who is the adviser to the Chief of Staff on Army Reserve matters.

"(b) The President, by and with the advice and consent of the Senate, shall appoint the Chief of Army Reserve from officers of the Army Reserve not on active duty, or on active duty under section 265 of this title, who—

"(1) have had at least 10 years of commissioned service in the Army Reserve;

"(2) are in grade of brigadier general and above; and

"(3) have been recommended by the Secretary of the Army.

"(c) The Chief of Army Reserve holds office for four years but may be removed for cause at any time. He is eligible to succeed himself. If he holds a lower reserve grade, he shall be appointed in the grade of major general for service in the Army Reserve.".

(2) Subsection (a) of section 3039 (as redesignated by section 201(a) of this Act) is amended by striking out "sections 3036 and 3039" and inserting in lieu thereof "section 3036".

(g) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 305 is amended to read as follows:

"Sec.
"3031. The Army Staff: composition; assignment and detail of members of Army and civilians.
"3032. The Army Staff: general duties.
"3033. Chief of Staff: appointment; term of office; powers and duties.
"3034. Vice Chief of Staff: appointment; powers and duties; succession to duties of Chief of Staff.
"3035. Deputy Chiefs of Staff and Assistant Chiefs of Staff: detail.
"3036. Chiefs of branches: appointment; duties.
"3037. Judge Advocate General, Assistant Judge Advocate General, and general officers of Judge Advocate General's Corps: appointment; duties.
"3038. Office of Army Reserve: appointment of Chief.
"3039. Deputy and assistant chiefs of branches.
"3040. Chief of National Guard Bureau: appointment; acting chief.".

(h) EFFECTIVE DATE.—The limitations provided for in section 3031(d) of title 10, United States Code (as amended by subsection (a) of this section), shall be effective after September 30, 1988.

SEC. 203. COMMANDS

Section 3074(a) is amended by inserting "or the Secretary of Defense" after "by law".

## TITLE III—NAVY

SEC. 301. DEPARTMENT OF THE NAVY

(a) ORGANIZATION.—(1) Chapter 503 is amended—

(A) in section 5011—

(i) by striking out the third and fourth sentences; and

(ii) by striking out the section heading and inserting in lieu thereof the following:

"§ 5011. Organization";

(B) by striking out sections 5012 and 5013; and

(C) by inserting after section 5011 the following new sections:

"§ 5012. Department of the Navy: seal

"The Secretary of the Navy shall have a seal for the Department of the Navy. The design of the seal must be approved by the President. Judicial notice shall be taken of the seal.

"§ 5013. Secretary of the Navy: appointment; powers and duties; delegation authority

"(a) There is a Secretary of the Navy appointed from civilian life by the President, by and with the advice and consent of the Senate. The Secretary is the head of the Department of the Navy. A person may not be appointed as Secretary of the Navy within five years after relief from active duty as a commissioned officer of a regular component of an armed force.

"(b) Subject to the authority, direction, and control of the Secretary of Defense and the provisions of chapter 6 of this title, the Secretary of the Navy is responsible for and has the authority necessary to conduct all affairs of the Department of the Navy, including the following:

"(1) Recruiting.
"(2) Organizing.
"(3) Supplying.
"(4) Equipping (including research and development).
"(5) Training.
"(6) Servicing.
"(7) Mobilizing.
"(8) Demobilizing.
"(9) Administering.
"(10) Maintaining.
"(11) The construction, outfitting, and repair of military equipment.
"(12) The construction, maintenance, and repair of buildings, structures, and utilities and the acquisition of real property and interests therein necessary to carry out the responsibilities specified in clauses (1) through (11).

"(c) Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of the Navy is also responsible to the Secretary of Defense for—

"(1) the functioning and efficiency of the Department of the Navy;

"(2) the formulation of policies and programs by the Department of the Navy that are fully consistent with national security objectives and policies established by the President or the Secretary of Defense;

"(3) the effective and timely implementation of policy, program, and budget decisions and instructions of the President or the Secretary of Defense relating to the functions of the Department of the Navy;

"(4) carrying out the functions of the Department of the Navy so as to fulfill (to the maximum extent practicable) the current and future operational requirements of the unified and specified combatant commands;

"(5) effective cooperation and coordination between the Department of the Navy and the other military departments and agencies of the Department of Defense to provide for more effective, efficient, and economical administration and to eliminate duplication;

"(6) the presentation and justification of the positions of the Department of the Navy on the plans, programs, and policies of the Department of Defense; and

"(7) the effective supervision and control of the intelligence activities of the Department of the Navy.

"(d) The Secretary of the Navy is also responsible for such other activities as may be prescribed by law, the President, or the Secretary of Defense.

"(e) After first informing the Secretary of Defense, the Secretary of the Navy may make such recommendations to Congress relating to the Department of Defense as he considers appropriate.

"(f) The Secretary of the Navy may assign such of his functions, powers, and duties as he considers appropriate to the Under Secretary of the Navy and to the Assistant Secretaries of the Navy. Officers of the Navy and the Marine Corps shall, as directed by the Secretary, report on any matter to the Secretary, the Under Secretary, or any Assistant Secretary.

"(g) The Secretary may assign, detail, and prescribe the duties of members of the Navy and Marine Corps and civilian personnel of the Department of the Navy.

"(h) The Secretary may change the title of any officer or activity of the Department of the Navy not prescribed by law.

"(i) The Secretary may prescribe regulations to carry out his functions, powers, and duties under this title.

"§ 5013a. Secretary of the Navy: powers with respect to Coast Guard

"(a) Whenever the Coast Guard operates as a service in the Navy under section 3 of title 14, the Secretary of the Navy has the same powers and duties with respect to the Coast Guard as the Secretary of Transportation has when the Coast Guard is not so operating.

"(b) While operating as a service in the Navy, the Coast Guard is subject to the orders of the Secretary of the Navy, who may order changes in Coast Guard operations to make them uniform, to the extent he considers advisable, with Navy operations.

"§ 5014. Office of the Secretary of the Navy

"(a) There is in the Department of the Navy an Office of the Secretary of the Navy to assist the Secretary in carrying out his responsibilities.

"(b) The Office of the Secretary of the Navy shall consist of the following:

"(1) The Under Secretary of the Navy.

"(2) The Assistant Secretaries of the Navy.

"(3) The Naval Inspector General.

"(4) The Chief of Naval Research.

"(5) The Judge Advocate General of the Navy.

"(6) Such other offices and officers as the Secretary of the Navy may establish or designate.

"(c) The Secretary of the Navy shall ensure that the Office of the Secretary of the Navy does not duplicate specific functions for which the Secretary has assigned responsibility to the Office of the Chief of Naval Operations or to the Headquarters, Marine Corps.

"(d) The total number of military and civilian personnel assigned or detailed to permanent duty in the Office of the Secretary of the Navy may not exceed 685. However, such limitation does not apply in time of war or during a national emergency declared by Congress.

"§ 5015. Under Secretary of the Navy: appointment; powers and duties

"(a) There is an Under Secretary of the Navy appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b) The Under Secretary shall perform such duties and exercise such powers as the Secretary of the Navy may prescribe.

"§ 5016. Assistant Secretaries of the Navy: appointment; powers and duties

"(a) There are four Assistant Secretaries of the Navy in the Department of the Navy. They shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b)(1) The Assistant Secretaries shall perform such duties and exercise such powers as the Secretary of the Navy may prescribe.

"(2) One of the Assistant Secretaries shall be the Assistant Secretary of the Navy for Manpower and Reserve Affairs. He shall have as his principal duty the overall supervision of manpower and reserve component affairs of the Department of the Navy.

"§ 5017. Secretary of the Navy: successors to duties

"If the Secretary of the Navy dies, resigns, is removed from office, is absent, or is disabled, the person who is highest on the following list and who is not absent or disabled shall perform the duties of the Secretary until the President, under section 3347 of title 5, directs another person to perform those duties or until the absence or disability ceases:

"(1) The Under Secretary of the Navy.

"(2) The Assistant Secretaries of the Navy in the order prescribed by the Secretary of the Navy and approved by the Secretary of Defense.

"(3) The Chief of Naval Operations.

"(4) The Commandant of the Marine Corps.".

(2)(A) Section 5088 is redesignated as section 5018, is transferred to and made a part of chapter 503, and is inserted immediately after section 5017.

(B) Section 5018 (as redesignated by subparagraph (A) of this paragraph) is amended by striking out "Chief of Naval Operations" in subsections (a) and (c) and inserting in lieu thereof "Secretary of the Navy".

(b) REDESIGNATION OF SECTIONS.—Sections 5150, 5151, 5152, and 5153 are redesignated as sections 5019, 5020, 5021, and 5022, respectively, are transferred to and made a part of chapter 503, and are inserted in numerical sequence immediately after section 5018 (as redesignated by subsection (a)(2) of this section).

(c) TECHNICAL AND CONFORMING AMENDMENTS.—(1) Section 5021 (as redesignated by subsection (b) of this section) is amended by striking out "section 5151" in subsection (a) and inserting in lieu thereof "section 5020".

(2) Subsection (c) of section 5022 (as redesignated by subsection (b) of this section) is amended by striking out "claim proceeding" and inserting in lieu thereof "claim, proceeding,".

(3) Chapters 505 and 507 are repealed.

(4) The tables of chapters at the beginning of subtitle C and the beginning of part I of such subtitle are each amended by striking out the items relating to chapters 505 and 507.

(5) The table of sections at the beginning of chapter 503 is amended to read as follows:

"Sec.
"5011. Organization.
"5012. Department of the Navy: seal.
"5013. Secretary of the Navy: appointment; powers and duties; delegation authority.
"5013a. Secretary of the Navy: powers with respect to Coast Guard.
"5014. Office of the Secretary of the Navy.
"5015. Under Secretary of the Navy: appointment; powers and duties.
"5016. Assistant Secretaries of the Navy: appointment; powers and duties.
"5017. Secretary of the Navy: successors to duties.
"5018. Naval Inspector General: detail; duties.
"5019. Office of Naval Research: Chief; appointment, term, emoluments; Assistant Chief; succession to duties.
"5020. Office of Naval Research: duties.
"5021. Office of Naval Research: appropriations; time limit.
"5022. Naval Research Advisory Committee.".

(6) Chapter 513 is amended—

(A) by striking out the chapter heading and inserting in lieu thereof the following:

"CHAPTER 513—BUREAUS; OFFICE OF THE JUDGE ADVOCATE GENERAL";

(B) in the table of sections at the beginning of such chapter—

(i) by striking out the items relating to sections 5150, 5151, 5152, and 5153; and

(ii) by redesignating the item relating to section 5155 as 5150; and

(C) by redesignating section 5155 as section 5150.

(7) The tables of chapters at the beginning of subtitle C and at the beginning of part I of such subtitle are each amended by striking out the item relating to chapter 513 and inserting in lieu thereof the following:

"513. Bureaus; Office of the Judge Advocate General ..... 5131".

(8) Chapter 661 is amended—

(A) by redesignating sections 7861 and 7862 as sections 7862 and 7863, respectively; and

(B) by striking out the table of sections at the beginning of such chapter and inserting in lieu thereof the following:

"Sec.
"7861. Custody of departmental records and property.
"7862. Accounts of paymasters of lost or captured naval vessels.
"7863. Disbursements by order of commanding officer.

"§ 7861. Custody of departmental records and property

"The Secretary of the Navy has custody and charge of all books, records, papers, furniture, fixtures, and other property under the lawful control of the executive part of the Department of the Navy.".

(d) EFFECTIVE DATE.—The limitation prescribed in section 5014(d) of title 10, United States Code (as amended by subsection (a)(1) of this section), shall be effective after September 30, 1988.

SEC. 302. OFFICE OF THE CHIEF OF NAVAL OPERATIONS

(a) IN GENERAL.—Part I of subtitle C is amended—

(1) by striking out chapter 509; and

(2) by inserting after chapter 503 the following new chapter:

"CHAPTER 505—OFFICE OF THE CHIEF OF NAVAL OPERATIONS

"Sec.
"5031. Office of the Chief of Naval Operations.
"5032. Office of the Chief of Naval Operations: general duties.
"5033. Chief of Naval Operations: appointment; term of office; powers and duties.
"5034. Chief of Naval Operations: retirement.
"5035. Vice Chief of Naval Operations: appointment; powers and duties; succession to duties of Chief of Naval Operations.
"5036. Deputy Chiefs of Naval Operations: detail; duties.
"5037. Assistant Chiefs of Naval Operations: detail; duties.

"§ 5031. Office of the Chief of Naval Operations

"(a) There is in the executive part of the Department of the Navy an Office of the Chief of Naval Operations to assist the Secretary of the Navy in carrying out his responsibilities.

"(b) The Office of the Chief of Naval Operations shall consist of the following:

"(1) The Chief of Naval Operations.

"(2) The Vice Chief of Naval Operations.

"(3) Not more than four Deputy Chiefs of Naval Operations, as prescribed by the Secretary of the Navy.

"(4) Not more than three Assistant Chiefs of Naval Operations, as prescribed by the Secretary.

"(5) The Surgeon General of the Navy.

"(6) The Chief of Naval Personnel.

"(7) The Chief of Chaplains of the Navy.

"(8) Other members of the Navy and Marine Corps assigned or detailed to the Office of the Chief of Naval Operations.

"(9) Civilians in the Department of the Navy assigned or detailed to the Office of the Chief of Naval Operations.

"(c) Except as otherwise specifically prescribed by law, the Office of the Chief of Naval Operations shall be organized in such manner, and its members shall perform such duties and have such titles, as the Secretary may prescribe.

"(d)(1) The total number of military and civilian personnel assigned or detailed to permanent duty in the Office of the Chief of Naval Operations may not exceed 1,725. Such limitation does not apply in time of war or during a national emergency declared by Congress.

"(2) Not more than 1,300 officers of the Navy and Marine Corps may be assigned or detailed to permanent duty in the Office of the Chief of Naval Operations. However, such limitation does not apply in time of war or during a national emergency declared by Congress, or whenever the President finds that it is in the national interest to increase the number of officers in the Office of the Chief of Naval Operations.

**"§ 5032. Office of the Chief of Naval Operations: general duties**

"(a) The Office of the Chief of Naval Operations shall furnish professional assistance to the Secretary, the Under Secretary, and the Assistant Secretaries of the Navy, and the Chief of Naval Operations.

"(b) Under the authority, direction, and control of the Secretary of the Navy, the Office of the Chief of Naval Operations shall—

"(1) prepare for such employment of the Navy, and for such recruiting, organizing, supplying, equipping (including research and development), training, servicing, mobilizing, demobilizing, administering, and maintaining of the Navy, as will assist in the execution of any power, duty, or function of the Secretary or the Chief of Naval Operations;

"(2) investigate and report upon the efficiency of the Navy and its preparation to support military operations by combatant commands;

"(3) prepare detailed instructions for the execution of approved plans and supervise the execution of those plans and instructions;

"(4) act as agent of the Secretary and the Chief of Naval Operations in coordinating the actions of all organizations of the Navy; and

"(5) perform such other duties, not otherwise assigned by law, as may be prescribed by the Secretary.

**"§ 5033. Chief of Naval Operations: appointment; term of office; powers and duties**

"(a) There is a Chief of Naval Operations appointed by the President, by and with the advice and consent of the Senate. The Chief of Naval Operations shall be appointed for a term of four years, from officers on the active-duty list in the line of the Navy who are eligible to command at sea and who hold the grade of rear admiral or above. He serves at the pleasure of the President. In time of war or during a national emergency declared by Congress, he may be reappointed for a term of not more than four years.

"(b) The Chief of Naval Operations, while so serving, has the grade of admiral without vacating his regular or reserve grade. In the performance of his duties within the Department of the Navy, the Chief of Naval Operations takes precedence above all other officers of the naval service.

"(c) Except as otherwise prescribed by law and subject to section 5013(f) of this title, the Chief of Naval Operations performs his duties under the authority, direction, and control of the Secretary of the Navy and is directly responsible to the Secretary.

"(d) Subject to the authority, direction, and control of the Secretary of the Navy, the Chief of Naval Operations shall—

"(1) preside over the Office of the Chief of Naval Operations;

"(2) transmit the plans and recommendations of the Office of the Chief of Naval Operations to the Secretary and advise the Secretary with regard to such plans and recommendations;

"(3) after approval of the plans or recommendations of the Office of the Chief of Naval Operations by the Secretary, act as the agent of the Secretary in carrying them into effect;

"(4) exercise supervision, consistent with the full operational command and other authority assigned to unified or specified combatant commanders under chapter 6 of this title, over such of the members and organizations of the Navy and the Marine Corps as the Secretary determines;

"(5) perform the duties prescribed for him by section 171 of this title and other provisions of law;

"(6) keep the Secretary fully informed on matters considered or acted upon by the Joint Chiefs of Staff; and

"(7) perform such other military duties, not otherwise assigned by law, as are assigned to him by the President, the Secretary of Defense, or the Secretary of the Navy.

"(e) The Chief of Naval Operations shall also perform the duties prescribed for him as a member of the Joint Chiefs of Staff under section 151 of this title.

**"§ 5034. Chief of Naval Operations: retirement**

"An officer who is retired while serving as Chief of Naval Operations, or who, after serving at least two and one-half years as Chief of Naval Operations, is retired after completion of that service while serving in a lower grade than admiral, may, in the discretion of the President, be retired with the grade of admiral. The retired pay of such an officer shall be computed at the highest rates of basic pay applicable to him while he served in that office.

**"§ 5035. Vice Chief of Naval Operations: appointment; powers and duties; succession to duties of Chief of Naval Operations**

"(a) There is a Vice Chief of Naval Operations appointed by the President, by and with the advice and consent of the Senate, from officers on the active-duty list in the line of the Navy serving in grades above captain and eligible to command at sea.

"(b) The Vice Chief of Naval Operations, while so serving, has the grade of admiral without vacating his regular or reserve grade.

"(c) The Vice Chief of Naval Operations has such authority and duties with respect to the Department of the Navy as the Chief of Naval Operations, with the approval of the Secretary of the Navy, may delegate to or prescribe for him. Orders issued by the Vice Chief of Naval Operations in performing such duties have the same effect as those issued by the Chief of Naval Operations.

"(d) When there is a vacancy in the office of Chief of Naval Operations or during the absence or disability of the Chief of Naval Operations—

"(1) the Vice Chief of Naval Operations shall perform the duties of the Chief of Naval Operations until a successor is appointed or the absence or disability ceases; or

"(2) if there is a vacancy in the office of the Vice Chief of Naval Operations or the Vice Chief of Naval Operations is absent or disabled, unless the President directs otherwise, the most senior officer in the Office of the Chief of Naval Operations who is not absent or disabled and who is not restricted in performance of duty shall perform the duties of the Chief of Naval Operations until a successor to the Chief of Naval Operations or the Vice Chief of Naval Operations is appointed or until the absence or disability of the Chief of Naval Operations or Vice Chief of Naval Operations ceases, whichever occurs first.

**"§ 5036. Deputy Chiefs of Naval Operations: detail; duties**

"(a) There are in the Office of the Chief of Naval Operations not more than four Deputy Chiefs of Naval Operations, detailed by the Secretary of the Navy from officers on the active-duty list in the line of the Navy serving in grades above captain.

"(b) The Deputy Chiefs of Naval Operations are charged, under the direction of the Chief of Naval Operations, with the execution of the functions of their respective divisions. Orders issued by the Deputy Chiefs of Naval Operations in performing the duties assigned them are considered as coming from the Chief of Naval Operations.

**"§ 5037. Assistant Chiefs of Naval Operations: detail; duties**

"(a) There are in the Office of the Chief of Naval Operations not more than three Assistant Chiefs of Naval Operations, detailed by the Secretary of the Navy from officers on the active-duty list in the line of the Navy and officers on the active-duty list of the Marine Corps.

"(b) The Assistant Chiefs of Naval Operations shall perform such duties as the Secretary of the Navy prescribes.".

(b) CONFORMING AMENDMENTS.—The tables of chapters at the beginning of subtitle C and at the beginning of part I of such subtitle are each amended by striking out the items relating to chapter 509 and inserting in lieu thereof the following new item:

"505. Office of the Chief of Naval Operations ..... 5031".

(c) EFFECTIVE DATE.—The limitations provided for in section 5031(d) of title 10, United States Code (as amended by subsection (a)(2) of this section), shall be effective after September 30, 1988.

SEC. 303. HEADQUARTERS, MARINE CORPS

(a) IN GENERAL.—Chapter 515 is amended to read as follows:

**"CHAPTER 515—HEADQUARTERS, MARINE CORPS**

"Sec.
"5201. Headquarters, Marine Corps.
"5202. Headquarters, Marine Corps: general duties.
"5203. Commandant of the Marine Corps: appointment; term of office; powers and duties.
"5204. Assistant Commandant of the Marine Corps: appointment; powers and duties; succession to duties of Commandant.

**"§ 5201. Headquarters, Marine Corps**

"(a) There is in the executive part of the Department of the Navy a Headquarters, Marine Corps, to assist the Secretary of the Navy in carrying out his responsibilities.

"(b) The Headquarters, Marine Corps, shall consist of the following:

"(1) The Commandant of the Marine Corps.

"(2) The Assistant Commandant of the Marine Corps.

"(3) The Chief of Staff of the Marine Corps.

"(4) Not more than four Deputy Chiefs of Staff, as prescribed by the Secretary of the Navy.

"(5) Not more than three Assistant Chiefs of Staff, as prescribed by the Secretary of the Navy.

"(6) Other members of the Navy and Marine Corps assigned or detailed to the Headquarters, Marine Corps.

"(7) Civilians in the Department of the Navy assigned or detailed to the Headquarters, Marine Corps.

"(c) Except as otherwise specifically prescribed by law, the Headquarters, Marine Corps, shall be organized in such manner, and its members shall perform such duties and have such titles, as the Secretary of the Navy may prescribe.

"(d)(1) The total number of military and civilian personnel assigned or detailed to permanent duty in the Headquarters, Marine Corps, shall not exceed 428. Such limitation does not apply in time of war or during a national emergency declared by Congress.

"(2) Not more than 325 officers of the Marine Corps and Navy may be assigned or detailed to permanent duty in the Headquarters, Marine Corps. However, such limitation does not apply in time of war or during a national emergency declared by Congress, or whenever the President finds that it is in the national interest to increase the number of officers in the Headquarters, Marine Corps.

**"§ 5202. Headquarters, Marine Corps: general duties**

"(a) The Headquarters, Marine Corps, shall furnish professional assistance to the Secretary, the Under Secretary, and the Assistant Secretaries of the Navy, and the Commandant of the Marine Corps.

"(b) Under the authority, direction, and control of the Secretary of the Navy, the Headquarters, Marine Corps, shall—

"(1) prepare for such employment of the Marine Corps, and for such recruiting, organizing, supplying, equipping (including research and development), training, servicing, mobilizing, demobilizing, administering, and maintaining of the Marine Corps, as will assist in the execution of any power, duty, or function of the Secretary or the Commandant;

"(2) investigate and report upon the efficiency of the Marine Corps and its preparation to support military operations by combatant commanders;

"(3) prepare detailed instructions for the execution of approved plans and supervise the execution of those plans and instructions;

"(4) act as agent of the Secretary and the Commandant in coordinating the action of all organizations of the Marine Corps; and

"(5) perform such other duties, not otherwise assigned by law, as may be prescribed by the Secretary.

**"§ 5203. Commandant of the Marine Corps: appointment; term of office; powers and duties**

"(a) There is a Commandant of the Marine Corps appointed by the President by and with the advice and consent of the Senate. The Commandant shall be appointed for a term of four years from officers on the active-duty list of the Marine Corps not below the grade of colonel. He serves at the pleasure of the President. In time of war or during a national emergency declared by Congress, he may be reappointed for a term of not more than four years.

"(b) The Commandant of the Marine Corps, while so serving, has the grade of general without vacating his regular or reserve grade.

"(c) An officer who is retired while serving as Commandant of the Marine Corps, or who, after serving at least two and one-half years as Commandant, is retired after completion of that service while serving in a lower grade than general, may, in the discretion of the President, be retired with the grade of general. The retired pay of such an officer shall be computed at the highest rates of basic pay applicable to him while he served in that office.

"(d) Except as otherwise prescribed by law and subject to section 5013(f) of this title, the Commandant performs his duties under the authority, direction, and control of the Secretary of the Navy and is directly responsible to the Secretary.

"(e) Subject to the authority, direction, and control of the Secretary of the Navy, the Commandant shall—

"(1) preside over the Headquarters, Marine Corps;

"(2) transmit the plans and recommendations of the Headquarters, Marine Corps, to the Secretary, and advise the Secretary with regard to such plans and recommendations;

"(3) after approval of the plans and recommendations of the Headquarters, Marine Corps, by the Secretary, act as the agent of the Secretary in carrying them into effect;

"(4) exercise supervision, consistent with the full operational command and other authority assigned to unified or specified combatant commanders under chapter 6 of this title, over such of the members and organizations of the Marine Corps and the Navy as the Secretary determines;

"(5) perform the duties prescribed for him by section 171 of this title and other provisions of law;

"(6) keep the Secretary fully informed on matters considered or acted upon by the Joint Chiefs of Staff; and

"(7) perform such other military duties, not otherwise assigned by law, as are assigned to him by the President, the Secretary of Defense, or the Secretary of the Navy.

"(f) The Commandant shall also perform the duties prescribed for him as a member of the Joint Chiefs of Staff under section 151 of this title.

**"§ 5204. Assistant Commandant of the Marine Corps: appointment; powers and duties; succession to duties of Commandant**

"(a) There is an Assistant Commandant of the Marine Corps appointed by the President, by and with the advice and consent of the Senate, from officers on the active-duty list of the Marine Corps not restricted in the performance of duty.

"(b) The Assistant Commandant of the Marine Corps, while so serving, has the grade of general without vacating his regular or reserve grade.

"(c) The Assistant Commandant has such authority and duties with respect to the Marine Corps as the Commandant, with the approval of the Secretary of the Navy, may delegate to or prescribe for him. Orders issued by the Assistant Commandant in performing such duties have the same effect as those issued by the Commandant.

"(d) When there is a vacancy in the office of Commandant of the Marine Corps, or during the absence or disability of the Commandant—

"(1) the Assistant Commandant of the Marine Corps shall perform the duties of the Commandant until a successor is appointed or the absence or disability ceases; or

"(2) if there is a vacancy in the office of the Assistant Commandant of the Marine Corps or the Assistant Commandant is absent or disabled, unless the President directs otherwise, the most senior officer of the Marine Corps in the Headquarters, Marine Corps, who is not absent or disabled and who is not restricted in performance of duty shall perform the duties of the Commandant until a successor to the Commandant or the Assistant Commandant is appointed or until the absence or disability of the Commandant or Assistant Commandant ceases, whichever occurs first.".

(b) CONFORMING AMENDMENTS.—The tables of chapters at the beginning of subtitle C and at the beginning of part I of such subtitle are each amended by striking out the item relating to chapter 515 and inserting in lieu thereof the following:

**"515. Headquarters, Marine Corps..... 5201".**

(c) EFFECTIVE DATE.—The limitations provided for in section 5201(d) of title 10, United States Code (as amended by subsection (a) of this section), shall be effective after September 30, 1988.

**SEC. 304. COMPOSITION OF THE DEPARTMENT OF THE NAVY**

(a) IN GENERAL.—Part I of subtitle C is amended by inserting after chapter 515 the following new chapter:

**"CHAPTER 518—COMPOSITION OF THE DEPARTMENT OF THE NAVY**

"Sec.

"5241. Department of the Navy: composition.

"5242. United States Navy: composition; functions.

"5243. United States Marine Corps: composition; functions.

**"§ 5241. Department of the Navy: composition**

"The Department of the Navy is composed of the following:

"(1) The Office of the Secretary of the Navy.

"(2) The Office of the Chief of Naval Operations.

"(3) The Headquarters, Marine Corps.

"(4) The entire operating forces, including naval aviation, of the United States Navy and of the United States Marine Corps, and the reserve components of those operating forces.

"(5) All field activities, headquarters, forces, bases, installations, activities, and functions under the control or supervision of the Secretary of the Navy.

"(6) The United States Coast Guard when it is operating as a service in the Navy.

**"§ 5242. United States Navy: composition; functions**

"(a) The Navy, within the Department of the Navy, includes, in general, naval combat and service forces and such aviation as may be organic therein. The Navy shall be organized, trained, and equipped primarily for prompt and sustained combat incident to operations at sea. It is responsible for the preparation of naval forces necessary for the effective prosecution of war except as otherwise assigned and is generally responsible for naval reconnaissance, antisubmarine warfare, and protection of shipping.

"(b) All naval aviation shall be integrated with the naval service as part thereof within the Department of the Navy. Naval aviation consists of combat and service and training forces, and includes land-based naval avia-

tion, air transport essential for naval operations, all air weapons and air techniques involved in the operations and activities of the Navy, and the entire remainder of the aeronautical organization of the Navy, together with the personnel necessary therefor.

"(c) The Navy shall develop aircraft, weapons, tactics, technique, organization, and equipment of naval combat and service elements. Matters of joint concern as to these functions shall be coordinated between the Army, the Air Force, and the Navy.

"(d) The Navy is responsible, in accordance with integrated joint mobilization plans, for the expansion of the peacetime components of the Navy to meet the needs of war.

**"§ 5243. United States Marine Corps: composition; functions**

"(a) The Marine Corps, within the Department of the Navy, shall be so organized as to include not less than three combat divisions and three air wings, and such other land combat, aviation, and other services as may be organic therein. The Marine Corps shall be organized, trained, and equipped to provide fleet marine forces of combined arms, together with supporting air components, for service with the fleet in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign. In addition, the Marine Corps shall provide detachments and organizations for service on armed vessels of the Navy, shall provide security detachments for the protection of naval property at naval stations and bases, and shall perform such other duties as the President may direct. However, these additional duties may not detract from or interfere with the operations for which the Marine Corps is primarily organized.

"(b) The Marine Corps shall develop, in coordination with the Army and the Air Force, those phases of amphibious operations that pertain to the tactics, technique, and equipment used by landing forces.

"(c) The Marine Corps is responsible, in accordance with integrated joint mobilization plans, for the expansion of peacetime components of the Marine Corps to meet the needs of war.".

(b) CONFORMING AMENDMENTS.—The tables of chapters at the beginning of subtitle C and at the beginning of part I of such subtitle are each amended by inserting after the item relating to chapter 515 the following new item:

"518. Composition of the Department of the Navy..... 5241".

## TITLE IV—AIR FORCE

**SEC. 401. DEPARTMENT OF THE AIR FORCE**

(a) IN GENERAL.—(1) Chapter 803 is amended by striking out sections 8012, 8013, and 8014 and inserting in lieu thereof the following:

**"§ 8013. Secretary of the Air Force: appointment; powers and duties; delegation authority**

"(a) There is a Secretary of the Air Force appointed from civilian life by the President, by and with the advice and consent of the Senate. The Secretary is the head of the Department of the Air Force. A person may not be appointed as Secretary of the Air Force within five years after relief from active duty as a commissioned officer of a regular component of an armed force.

"(b) Subject to the authority, direction, and control of the Secretary of Defense and the provisions of chapter 6 of this title, the Secretary of the Air Force is responsible for and has the authority necessary to conduct all affairs of the Department of the Air Force, including the following:

"(1) Recruiting.

"(2) Organizing.

"(3) Supplying.

"(4) Equipping (including research and development).

"(5) Training.

"(6) Servicing.

"(7) Mobilizing.

"(8) Demobilizing.

"(9) Administering.

"(10) Maintaining.

"(11) The construction, outfitting, and repair of military equipment.

"(12) The construction, maintenance, and repair of buildings, structures, and utilities and the acquisition of real property and interests therein necessary to carry out the responsibilities specified in clauses (1) through (11).

"(c) Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of the Air Force is also responsible to the Secretary of Defense for—

"(1) the functioning and efficiency of the Department of the Air Force;

"(2) the formulation of policies and programs by the Department of the Air Force that are fully consistent with national security objectives and policies established by the President or the Secretary of Defense;

"(3) the effective and timely implementation of policy, program, and budget decisions and instructions of the President or the Secretary of Defense relating to the functions of the Department of the Air Force;

"(4) carrying out the functions of the Department of the Air Force so as to fulfill (to the maximum extent practicable) the current and future operational requirements of the unified and specified combatant commands;

"(5) effective cooperation and coordination between the Department of the Air Force and the other military departments and agencies of the Department of Defense to provide for more effective, efficient, and economical administration and to eliminate duplication;

"(6) the presentation and justification of the positions of the Department of the Air Force on the plans, programs, and policies of the Department of Defense; and

"(7) the effective supervision and control of the intelligence activities of the Department of the Air Force.

"(d) The Secretary of the Air Force is also responsible for such other activities as may be prescribed by law, the President, or the Secretary of Defense.

"(e) After first informing the Secretary of Defense, the Secretary of the Air Force may make such recommendations to Congress relating to the Department of Defense as he considers appropriate.

"(f) The Secretary of the Air Force may assign such of his functions, powers, and duties as he considers appropriate to the Under Secretary of the Air Force and to the Assistant Secretaries of the Air Force. Officers of the Air Force shall, as directed by the Secretary, report on any matter to the Secretary, the Under Secretary, or any Assistant Secretary.

"(g) The Secretary may assign, detail, and prescribe the duties of members of the Air Force and civilian personnel of the Department of the Air Force.

"(h) The Secretary may change the title of any officer or activity of the Department of the Air Force not prescribed by law.

"(i) The Secretary may prescribe regulations to carry out his functions, powers, and duties under this title.

**"§ 8014. Office of the Secretary of the Air Force**

"(a) There is in the Department of the Air Force an Office of the Secretary of the Air Force to assist the Secretary in carrying out his responsibilities.

"(b) The Office of the Secretary of the Air Force shall consist of the following:

"(1) The Under Secretary of the Air Force.

"(2) The Assistant Secretaries of the Air Force.

"(3) The Inspector General of the Air Force.

"(4) The Air Reserve Forces Policy Committee.

"(5) Such other offices and officers as the Secretary of the Air Force may establish or designate.

"(c) The Secretary of the Air Force shall ensure that the Office of the Secretary of the Air Force does not duplicate specific functions for which the Secretary has assigned responsibility to the Air Staff.

"(d) The total number of military and civilian personnel assigned or detailed to permanent duty in the Office of the Secretary of the Air Force may not exceed 258. However, such limitation does not apply in time of war or during a national emergency declared by Congress.

**"§ 8015. Under Secretary of the Air Force: appointment; powers and duties**

"(a) There is an Under Secretary of the Air Force appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b) The Under Secretary shall perform such duties and exercise such powers as the Secretary of the Air Force may prescribe.

**"§ 8016. Assistant Secretaries of the Air Force: appointment; powers and duties**

"(a) There are three Assistant Secretaries of the Air Force in the Department of the Air Force. They shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b)(1) The Assistant Secretaries shall perform such duties and exercise such powers as the Secretary of the Air Force may prescribe.

"(2) One of the Assistant Secretaries shall be the Assistant Secretary of the Air Force for Manpower and Reserve Affairs. He shall have as his principal duty the overall supervision of manpower and reserve component affairs of the Department of the Air Force.".

(2) Section 8017 is amended—

(A) in subsection (a), by striking out clause (2) and inserting in lieu thereof the following:

"(2) The Assistant Secretaries of the Air Force in the order prescribed by the Secretary of the Air Force and approved by the Secretary of Defense.".

(B) by striking out "(a)" at the beginning of such section; and

(C) by striking out subsection (b).

(3) Chapter 803 is further amended by striking out section 8019.

(4) Chapter 803 is further amended by inserting after section 8017 the following new section:

**"§ 8018. Inspector General of the Air Force: detail; duties**

"(a) There is in the Office of the Secretary of the Air Force an Inspector General of the Air Force who shall be detailed to such position by the Secretary of the Air Force from general officers of the Air Force. An officer may not be detailed to such position for a tour of duty of more than four years, except that the Secretary may extend such a tour of

duty if he makes a special finding that the extension is necessary in the public interest.

"(b) The Inspector General, when directed by the Secretary or the Chief of Staff, shall inquire into and report upon the discipline, efficiency, and economy of the Air Force and shall perform any other duties prescribed by the Secretary or by the Chief of Staff.

"(c) The Inspector General shall periodically propose programs of inspections to the Secretary of the Air Force and shall recommend additional inspections and investigations as may appear appropriate.

"(d) The Inspector General shall have such deputies and assistants as the Secretary of the Air Force may prescribe. Each such deputy and assistant shall be an officer detailed by the Secretary to that position from the officers of the Air Force for a tour of duty of not more than four years, under a procedure prescribed by the Secretary.".

(5)(A) Section 8033 is redesignated as section 8019, is transferred to and made a part of chapter 803, and is inserted immediately after section 8018.

(B) Section 8019 (as redesignated by subparagraph (A)) is amended—

(i) in subsection (a)—

(I) by inserting "and the mobilization preparedness" after "reserve components"; and

(II) by striking out "Chief of Staff, and the Assistant Secretary responsible for reserve affairs" and inserting in lieu thereof "Secretary of the Air Force and the Chief of Staff";

(ii) in subsection (b), by inserting "and" after the semicolon in clause (2); and

(iii) by striking out the section heading and inserting in lieu thereof the following:

**"§ 8019. Reserve components of Air Force: policies and regulations for government of; functions of National Guard Bureau with respect to Air National Guard".**

(b) CONFORMING AMENDMENTS.—(1) Such chapter is further amended by redesignating sections 8010 and 8011 as sections 8011 and 8012, respectively.

(2) The table of sections at the beginning of such chapter is amended to read as follows:

"Sec.
"8011. Organization.
"8012. Department of the Air Force: seal.
"8013. Secretary of the Air Force: appointment; powers and duties; delegation authority.
"8014. Office of the Secretary of the Air Force.
"8015. Under Secretary of the Air Force: appointment; powers and duties.
"8016. Assistant Secretaries of the Air Force: appointment; powers and duties.
"8017. Secretary of the Air Force: successors to duties.
"8018. Inspector General of the Air Force: detail; duties.
"8019. Reserve components of Air Force: policies and regulations for government of; functions of National Guard Bureau with respect to Air National Guard.".

(c) EFFECTIVE DATE.—The limitation provided for in section 8014(d) of title 10, United States Code (as amended by subsection (a)(1) of this section), shall be effective after September 30, 1988.

**SEC. 402. THE AIR STAFF**

(a) COMPOSITION OF THE AIR STAFF.—Section 8031 is amended to read as follows:

**"§ 8031. The Air Staff: composition; assignment and detail of members of Air Force and civilians**

"(a) There is in the executive part of the Department of the Air Force an Air Staff to assist the Secretary of the Air Force in carrying out his responsibilities.

"(b) The Air Staff shall consist of the following:

"(1) The Chief of Staff.

"(2) The Vice Chief of Staff.

"(3) Not more than four Deputy Chiefs of Staff, as prescribed by the Secretary of the Air Force.

"(4) Not more than three Assistant Chiefs of Staff, as prescribed by the Secretary.

"(5) The Surgeon General of the Air Force.

"(6) The Judge Advocate General of the Air Force.

"(7) The Chief of the Air Force Reserve.

"(8) Other members of the Air Force assigned or detailed to the Air Staff.

"(9) Civilians in the Department of the Air Force assigned or detailed to the Air Staff.

"(c) Except as otherwise specifically prescribed by law, the Air Staff shall be organized in such manner, and its members shall perform such duties and have such titles, as the Secretary may prescribe.

"(d)(1) The total number of military and civilian personnel assigned or detailed to permanent duty to the Air Staff may not exceed 2,354. Such limitation does not apply in time of war or during a national emergency declared by Congress.

"(2) Not more than 1,575 officers of the Air Force may be assigned or detailed to permanent duty in the Office of the Secretary of the Air Force and the Air Staff. However, such limitation does not apply in time of war or during a national emergency declared by Congress, or whenever the President finds that it is in the national interest to increase the number of officers in the Office of the Secretary of the Air Force and the Air Staff.".

(b) THE AIR STAFF: GENERAL DUTIES.—Section 8032 is amended—

(1) in subsection (a), by inserting "of the Air Force" after "Chief of Staff";

(2) in subsection (b)—

(A) by striking out "The" at the beginning of the subsection and inserting in lieu thereof "Under the authority, direction, and control of the Secretary of the Air Force, the";

(B) by striking out ", training, serving, mobilizing, and demobilizing" in clause (1) and inserting in lieu thereof "(including research and development), training, servicing, mobilizing, demobilizing, administering, and maintaining"; and

(C) by striking out "for military operations" in clause (2) and inserting in lieu thereof "to support military operations by combatant commands"; and

(3) by striking out the section heading and inserting in lieu thereof the following:

**"§ 8032. The Air Staff: general duties"**

(c) CHIEF OF STAFF.—Section 8034 is redesignated as section 8033 and (as redesignated) is amended—

(1) in subsection (a)—

(A) by striking out "The Chief of Staff shall be" and inserting in lieu thereof "There is a Chief of Staff of the Air Force"; and

(B) by striking out "national emergency declared by the Congress after December 31, 1968" and inserting in lieu thereof "during a national emergency declared by Congress";

(2) by striking out subsections (c) and (d) and inserting in lieu thereof the following:

"(c) Except as otherwise prescribed by law and subject to section 8013(f) of this title, the Chief of Staff performs his duties under the authority, direction, and control of the Secretary of the Air Force and is directly responsible to the Secretary.

"(d) Subject to the authority, direction, and control of the Secretary of the Air Force, the Chief of Staff shall—

"(1) preside over the Air Staff;

"(2) transmit the plans and recommendations of the Air Staff to the Secretary and advise the Secretary with regard to such plans and recommendations;

"(3) after approval of the plans or recommendations of the Air Staff by the Secretary, act as the agent of the Secretary in carrying them into effect;

"(4) exercise supervision, consistent with the full operational command and other authority assigned to unified or specified combatant commanders under chapter 6 of this title, over such of the members and organizations of the Air Force as the Secretary determines;

"(5) perform the duties prescribed for him by section 171 of this title and other provisions of law;

"(6) keep the Secretary fully informed on matters considered or acted upon by the Joint Chiefs of Staff; and

"(7) perform such other military duties, not otherwise assigned by law, as are assigned to him by the President, the Secretary of Defense, or the Secretary of the Air Force.

"(e) The Chief of Staff shall also perform the duties prescribed for him as a member of the Joint Chiefs of Staff under section 151 of this title."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

**"§ 8033. Chief of Staff: appointment; term of office; powers and duties"**

(d) VICE CHIEF OF STAFF.—Section 8035 is redesignated as section 8034 and (as redesignated) is amended—

(1) by striking out subsections (a) and (b) and inserting in lieu thereof the following:

"(a) There is a Vice Chief of Staff of the Air Force appointed by the President, by and with the advice and consent of the Senate, from the general officers of the Air Force.

"(b) The Vice Chief of Staff of the Air Force, while so serving, has the grade of general without vacating his regular or reserve grade.";

(2) by striking out subsection (c);

(3) by redesignating subsection (d) as subsection (c);

(4) by inserting after subsection (c) (as redesignated by clause (3)) the following new subsection:

"(d) When there is a vacancy in the office of Chief of Staff or during the absence or disability of the Chief of Staff—

"(1) the Vice Chief of Staff shall perform the duties of the Chief of Staff until a successor is appointed or the absence or disability ceases; or

"(2) if there is a vacancy in the office of the Vice Chief of Staff or the Vice Chief of Staff is absent or disabled, unless the President directs otherwise, the most senior officer of the Air Force in the Air Staff who is not absent or disabled and who is not restricted in performance of duty shall perform the duties of the Chief of Staff until a successor to the Chief of Staff or the Vice Chief of Staff is appointed or until the absence or disability of the Chief of Staff or Vice Chief of Staff ceases, whichever occurs first."; and

(5) striking out the section heading and inserting in lieu thereof the following new heading:

"§ 8034. Vice Chief of Staff: appointment; powers and duties; succession to duties of Chief of Staff"

(e) DEPUTY CHIEFS OF STAFF.—Chapter 805 is further amended by inserting after section 8034 the following new section:

"§ 8035. Deputy Chiefs of Staff and Assistant Chiefs of Staff: detail

"The Deputy Chiefs of Staff and the Assistant Chiefs of Staff shall be general officers detailed to those positions.".

(f) JUDGE ADVOCATE GENERAL, DEPUTY JUDGE ADVOCATE GENERAL.—Section 8072 is redesignated as section 8037, is transferred to and made a part of chapter 805, and is inserted immediately after section 8036.

(g) OFFICE OF THE AIR FORCE RESERVE.—Chapter 805 is further amended by inserting after section 8037 (as redesignated by subsection (f) of this section) the following new section:

"§ 8038. Office of Air Force Reserve: appointment of Chief

"(a) There is in the executive part of the Department of the Air Force an Office of Air Force Reserve which is headed by a chief who is the adviser to the Chief of Staff, on Air Force Reserve matters.

"(b) The President, by and with the advice and consent of the Senate, shall appoint the Chief of Air Force Reserve from officers of the Air Force Reserve not on active duty, or on active duty under section 265 of this title, who—

"(1) have had at least 10 years of commissioned service in the Air Force;

"(2) are in grade of brigadier general and above; and

"(3) have been recommended by the Secretary of the Air Force.

"(c) The Chief of Air Force Reserve holds office for four years, but may be removed for cause at any time. He is eligible to succeed himself. If he holds a lower reserve grade, he shall be appointed in the grade of major general for service in the Air Force Reserve.".

(h) CONFORMING AMENDMENTS.—(1) The table of sections at the beginning of chapter 805 is amended to read as follows:

"Sec.
"8031. The Air Staff: composition; assignment and detail of members of Air Force and civilians.
"8032. The Air Staff: general duties.
"8033. Chief of Staff: appointment; term of office; powers and duties.
"8034. Vice Chief of Staff: appointment; powers and duties; succession to duties of Chief of Staff.
"8035. Deputy Chiefs of Staff and Assistant Chiefs of Staff: detail.
"8036. Surgeon General: appointment; grade.
"8037. Judge Advocate General, Deputy Judge Advocate General: appointment; duties.
"8038. Office of Air Force Reserve: appointment of Chief.".

(2) The section heading for section 8036 is amended by striking out the comma after "appointment" and inserting in lieu thereof a semicolon.

(3) The table of sections at the beginning of chapter 807 is amended by striking out the item relating to section 8072.

(i) EFFECTIVE DATE.—The limitations provided for in section 8031(d) of title 10, United States Code (as amended by subsection (a) of this section), shall be effective after September 30, 1988.

SEC. 403. COMMANDS

Section 8074(a) is amended by striking out "The" and inserting in lieu thereof "Except as otherwise prescribed by law or the Secretary of Defense, the".

## TITLE V—GENERAL PROVISIONS AND EFFECTIVE DATE

SEC. 501. REDUCTION IN PERSONNEL ASSIGNED TO MANAGEMENT HEADQUARTERS ACTIVITIES

(a) IN GENERAL.—(1) Not later than September 30, 1988, the Secretary of Defense shall reduce the total number of military and civilian personnel assigned or detailed to permanent duty in the military departments and in the unified and specified combatant commands to perform management headquarters activities or management headquarters support activities by a number that is at least 10 percent of the total number of personnel assigned or detailed to perform such activities on September 30, 1985.

(2) In computing and in making the reduction required under paragraph (1), the Secretary of Defense shall exclude personnel in the Office of the Secretary of the Army, the Army Staff, the Office of the Secretary of the Navy, the Office of the Chief of Naval Operations, the Headquarters, Marine Corps, the Office of the Secretary of the Air Force, and the Air Staff who are assigned or detailed to permanent duty to perform management headquarters activities or management headquarters support activities.

(b) ALLOCATION OF REDUCTIONS TO BE MADE BY THE SECRETARY OF DEFENSE.—(1) The Secretary of Defense shall allocate the reductions required under subsection (a) among management headquarters activities and management headquarters support activities in a manner consistent with the efficient operation of the Department of Defense.

(2) The Secretary shall also consolidate and eliminate unnecessary management headquarters activities and management headquarters support activities.

(c) PROHIBITION AGAINST CERTAIN ACTIONS TO ACHIEVE REDUCTIONS.—The personnel reduction required by subsection (a) may not be accomplished by recategorizing or redefining duties, functions, offices, or organizations.

(d) AUTHORITY OF COMBATANT COMMANDERS WITH REGARD TO REDUCTIONS.—In the case of a reduction under this section made applicable by the Secretary of Defense to a unified or specified combatant command, the commander of that command, after consultation with the commanders of commands directly subordinated to the commander of the combatant command, shall determine the manner in which the reduction shall be accomplished.

(e) PROHIBITION ON FUTURE INCREASE.—After September 30, 1988, the number of civilian and military personnel assigned to perform activities described in subsection (a) may not be increased above a number that is 10 percent less than the number of such personnel assigned or detailed to perform such activities on September 30, 1985. The limitation provided in this subsection shall not apply in time of war or during a national emergency declared by Congress.

(f) DEFINITIONS.—For purposes of this section, the terms "management headquarters activities" and "management headquarters support activities" have the same meanings prescribed for such terms in Department of Defense Directive 5100.73 entitled "Department of Defense Management Headquarters and Headquarters Support Activities," dated January 7, 1985.

SEC. 502. ANNUAL REPORT ON NATIONAL SECURITY STRATEGY

(a) REPORT REQUIREMENT.—The President shall submit to the Committees on Armed Services and Foreign Relations of the Senate and the Committees on Armed Services and Foreign Affairs of the House of Representatives each year a comprehensive written report on the national security strategy of the United States. The President shall submit such report on the same date each year on which he submits the budget to Congress pursuant to section 1105 of title 31, United States Code.

(b) CONTENTS OF REPORT.—The report referred to in subsection (a) shall include—

(1) a comprehensive discussion of the vital interests, goals, and objectives of the United States throughout the world;

(2) a coordinated and comprehensive description of the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary to deter aggression and to implement the national security strategy of the United States;

(3) a discussion of the proposed short-term and long-term uses of the political, economic, military, and other elements of the national power of the United States to protect or promote the interests and achieve the goals and objectives referred to in clause (1);

(4) a discussion of the adequacy of the capabilities of the United States to carry out the national security strategy of the United States, including an evaluation of the balance among the capabilities of all elements of the national power of the United States to support the implementation of the national security strategy; and

(5) such other pertinent information as may be necessary to help inform Congress on matters relating to the overall foreign policy strategy and military strategy of the United States.

(c) The report referred to in subsection (a) shall be submitted in a classified and an unclassified form.

SEC. 503. WAIVER OF CERTAIN REPORTING, NOTIFICATION, AND STUDY REQUIREMENTS

(a) IN GENERAL.—Except as provided in subsection (b), effective on January 1, 1987, any provision of law contained in title 10, United States Code, title 37, United States Code, or in any other provision of law contained in any Act authorizing appropriations to or for the Department of Defense or in any Act making appropriations to or for the Department of Defense that requires the President or any official or employee of the Department of Defense to submit in writing any report, notification, or study to Congress or to any committee of Congress shall not be effective to the extent that such provision requires the submission in writing of such report, notification, or study.

(b) EXCEPTIONS.—Subsection (a) of this section shall not apply to any provision of law enacted on or after the date of enactment of this Act or to any provision of law that requires the submission of the following reports, notifications, and studies:

(1) The annual reports, statements, and recommendations required by section 133(c) of title 10, United States Code, relating to the accomplishments of the Department of Defense.

(2) The annual report required by section 133(e) of such title, relating to foreign policy, major military missions, and military force structure.

(3) The reports required by subsection (b)(5) of section 139 of such title (as redesignated by section 104(6) of this Act) and the annual report required by subsection (g) of such section, relating to operational test and evaluation activities.

(4) The annual report required by section 142 of such title (as redesignated by section 104(1) of this Act), relating to North Atlantic Treaty Organization readiness.

(5) The reports required by section 1464(c) of such title, relating to the status of the Department of Defense Military Retirement Fund.

(6) The annual report required by section 2208(k) of such title, relating to the condition and operation of working-capital funds.

(7) The notifications required by section 2233a(a)(1) of such title, relating to expenditures and contributions for acquisition of facilities for reserve components.

(8) The notifications required by section 2304(c)(7) of such title, relating to the use of procurement procedures other than competitive procedures.

(9) The notifications required by section 2306(h)(3) of such title, relating to cancellation ceilings in certain multiyear contracts.

(10) The annual report required by section 2313(d)(4) of such title, relating to subpoenas issued by the Director of the Defense Contract Audit Agency to obtain contractor records.

(11) The annual report required by section 2349 of such title, relating to North Atlantic Treaty Organization acquisition and cross-servicing agreements.

(12) The semiannual report required by section 2357 of such title, relating to contracts in excess of $50,000 entered into by the military departments for research and development.

(13) The notifications required by section 2394(b)(2) of such title, relating to contracts for energy or fuel.

(14) The annual report required by section 2397(e) of such title, relating to the names of certain employees and former employees of defense contractors.

(15) The notifications required by clauses (B) and (C) of section 2401(b)(1) of such title, the cost analyses required by section 2401(e)(1) of such title, and the reports required by section 2401(e)(2) of such title, all relating to the long-term lease or charter of vessels and aircraft by the military departments.

(16) The notifications required by subsection (e)(1) of section 2403 of such title and the annual report required by subsection (e)(2) of such section, relating to waivers of certain requirements for contractor guarantees.

(17) The notifications required by paragraphs (1) and (2) of section 2407(d) of such title, relating to certain contracts awarded by the Department of Defense in connection with North Atlantic Treaty Organization cooperative agreements.

(18) The annual report required by section 2457(d) of such title, relating to the policy to standardize equipment, ammunition, and fuel procured for the use of United States military forces stationed in Europe under the North Atlantic Treaty.

(19) The reports required by subsection (a) or (e) of section 2662 of such title and the annual report required by subsection (b) of such section, relating to certain real property transactions.

(20) The proposals referred to in section 2667a(b)(1) of such title, relating to sale and replacement of nonexcess real property.

(21) The notifications required by section 2672(b) of such title, relating to acquisitions of interests in land for more than $100,000.

(22) The notifications required by section 2676(d) of such title, relating to reductions in scope and increases in cost of a land acquisition.

(23) The notifications and submissions required by section 2687(b) of such title, relating to base closures and realignments.

(24) The annual report required by section 2779(b)(4) of such title, relating to the use of funds appropriated for the elimination of certain losses caused by fluctuations in currency exchange rates of foreign countries.

(25) The reports required by section 2780 of such title (as redesignated by section 104(2) of this Act), relating to sales or transfers of certain defense articles.

(26) The reports required by section 2803(b) of such title, relating to emergency military construction projects carried out under section 2803 of such title.

(27) The reports required by section 2804(b) of such title, relating to military construction projects not authorized by law.

(28) The notifications required by paragraphs (2) and (3) of section 2805(b) of such title, relating to minor construction in connection with certain relocations of activities from one installation to another.

(29) The reports required by section 2806(c)(2) of such title, relating to contributions for North Atlantic Treaty Organization Infrastructure.

(30) The notifications required by subsection (b) of section 2807 of such title and the reports required by subsection (c) of such section, relating to architectural and engineering services and construction design in connection with military construction or military family housing projects.

(31) The notifications required by section 2808(b) of such title, relating to military construction projects in the event of a declaration of war or national emergency.

(32) The justifications and economic analyses required by section 2809(a)(4) of such title, relating to long-term contracts for the construction, management, and operation of certain facilities.

(33) The notifications and justifications required by section 2823(b) of such title, relating to disagreements on the availability of suitable alternative housing at locations in the United States where family housing is proposed to be constructed.

(34) The notifications required by section 2827(b) of such title, relating to relocation of military family housing units.

(35) The economic analyses required by section 2828(g)(6)(A) of such title, relating to leasing military family housing facilities.

(36) The notifications required by section 2834(b) of such title, relating to agreements with the Secretary of State for the use of Department of State housing and related services by Department of Defense personnel.

(37) The notifications required by subsections (d) and (e) of section 2853 of such title, relating to reductions in the scope of work or increases in the cost of military construction projects.

(38) The notifications required by section 2854(b) of such title, relating to repair, restoration, or replacement of damaged or destroyed military facilities.

(39) The annual request required by section 2859 of such title, relating to military construction authorizations.

(40) The annual report required by section 2861(a) of such title, relating to military construction activities and military family housing activities.

(41) The annual report required by section 2871(c)(3) of such title (as redesignated by section 104(8) of this Act), relating to military and civilian personnel end strength levels, certain other manpower requirements, base structures, and certain requirements for and information on officers.

(42) The annual report required by section 2871(d)(2) of such title (as redesignated by section 104(8) of this Act), relating to average student training loads.

(43) The annual report required by section 2871(e) of such title (as redesignated by section 104(8) of this Act), relating to operations and maintenance.

(44)(A) The annual and supplemental reports required by section 2872 of such title (as redesignated by section 104(9) of this Act), relating to weapons development and procurement schedules, including the matter required by section 53(b) of the Arms Export Control Act (95 Stat. 1524; 22 U.S.C. 2795b(b)) to be included in such annual reports.

(B) The notifications in lieu of such supplemental reports under subsection (b) of such section 2872.

(45) The Selected Acquisition Reports required by section 2873 of such title (as redesignated by section 104(10) of this Act).

(46) The notifications required by subsection (d)(3) of section 2874 of such title (as redesignated by section 104(11) of this Act) and reports required by subsection (e) of such section, relating to increases in program acquisition unit costs and procurement unit costs of certain major defense acquisition programs.

(47) The notifications required by section 7307(b)(2) of such title, relating to the disposition of naval vessels to foreign nations.

(48) The quarterly report required by section 7434 of title 10, United States Code, relating to the production from the naval petroleum reserve.

(49) The annual report required by section 406(i) of title 37, United States Code, relating to dependents accompanying members of the Armed Forces stationed outside the United States.

(50) The statements and quarterly report required by subsections (c) and (e) of section 709 of the Department of Defense Appropriation Authorization Act, 1975 (88 Stat. 408; 50 U.S.C. App. 2403-1(e)), relating to the export of certain goods, technology, and industrial techniques.

(51) The notifications, summaries, certifications, and reports required by subsections (a), (b), and (c) of section 502 of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note), relating to conversion of performance of commercial and other type functions from Department of Defense personnel to private contractors.

(52) The notifications required by section 1201(c) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 678), relating to transfers of amounts of authorizations.

(53) The reports and assessments required by section 1231 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 693), relating to certain intercontinental ballistic missile systems.

(54) The reports required by section 307(b)(3) of the Department of Defense Authorization Act, 1985 (98 Stat. 2515; 10 U.S.C. 2304 note), relating to waivers of a prohibition on contracting out certain logistics activities.

(55) The annual report required by section 1002(d)(1) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22 U.S.C. 1928 note), relating to the supply of munitions and certain aircraft facilities in support of the North Atlantic Treaty Organization.

(56) The annual report required by section 1002(d)(2) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22

U.S.C. 1928 note), relating to the status and cost of the United States commitment to the North Atlantic Treaty Organization and certain activities of other North Atlantic Treaty Organization members.

(57) The annual reports required by subsections (c) and (d) of section 1003 of the Department of Defense Authorization Act, 1985 (98 Stat. 2576; 22 U.S.C. 1928 note (formerly 10 U.S.C. 139 note)), relating to allied contributions to the common defense.

(58) The annual report required by section 1102 of the Department of Defense Authorization Act, 1985 (98 Stat. 2580; 10 U.S.C. 2872 note (formerly 10 U.S.C. 139 note)), relating to the Strategic Defense Initiative and any other antiballistic missile defense program.

(59) The notifications required by section 1501(c) of the Department of Defense Authorization Act, 1985 (Public Law 98–525; 98 Stat. 2626), relating to transfers of amounts of authorizations.

(60) The reports required by section 1536(g) of the Department of Defense Authorization Act, 1985 (98 Stat. 2633; 46 U.S.C. 1120 note), relating to the Commission on Merchant Marine and Defense.

(61) The certification required by section 125(a)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 601), relating to any new contract for the procurement of 5-ton trucks.

(62) The legislative environmental impact statement required by section 209(c) of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 610), relating to full-scale development of a small intercontinental ballistic missile or the selection of basing areas for the deployment of such missile.

(63) The certification required by section 222 of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 613), relating to termination of a prohibition of deployment of a strategic defense system.

(64) The reports required by section 223 of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 613), relating to the Strategic Defense Initiative.

(65) The quarterly reports required by section 502(c) of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 621), relating to the obligation of funds appropriated for civilian personnel.

(66) The report required by section 1002 of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 705), relating to Soviet compliance with arms control commitments.

(67) The annual report required by section 1221(d)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 727), relating to a research program to support the polygraph activities of the Department of Defense.

(68) The annual reports required by section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 745), relating to unobligated balances in appropriation accounts.

(69)(A) The certifications required by subsections (b) and (c)(2) of section 1411 of the Department of Defense Authorization Act, 1986 (Public Law 99–145; 99 Stat. 745), relating to the procurement or assembly of binary chemical weapons.

(B) The report required by subsection (e) of such section, relating to consultations among North Atlantic Treaty Organization member nations concerning North Atlantic Treaty Organization's chemical deterrent posture.

(70) The annual reports required by section 704 of the Military Construction Authorization Act, 1982 (Public Law 97–99; 95 Stat 1377), relating to contracts for construction in the United States and its possessions.

(71) The economic analyses required by section 802(d)(1) of the Military Construction Authorization Act, 1984 (97 Stat. 784; 10 U.S.C. 2821 note), relating to proposed military housing rental guarantee agreements.

(72) The notifications required by section 803(b)(2) of the Military Construction Authorization Act, 1984 (97 Stat. 785; 10 U.S.C. 2821 note), relating to waivers of a requirement to use manufactured or factory-built housing fabricated in the United States by a United States contractor for military family housing construction in foreign countries.

(73) The report required by section 840(d) of the Military Construction Authorization Act, 1986 (Public Law 99–167; 99 Stat. 998), relating to the sale of land at Fort Jackson, South Carolina.

(74) The notifications required by the proviso in section 8005(m) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for fiscal year 1985, and for other purposes", approved October 12, 1984 (Public Law 98–473; 98 Stat. 1923)), relating to unusual cost overruns incident to overhaul, maintenance, and repair for certain ships.

(75) The annual report required by section 8104(b) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for fiscal year 1985, and for other purposes", approved October 12, 1984 (Public Law 98–473; 98 Stat. 1942; 10 U.S.C. 2872 note (formerly 10 U.S.C. 139 note))), relating to consultations with members of common defense alliances concerning Strategic Defense Initiative research.

(76) The notifications required by section 8020 or 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of the Joint Resolution entitled "Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes", approved December 19, 1985 (Public Law 99–190; 99 Stat. 1206)), relating to transfers of working capital funds.

(77) The notifications required by section 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of the Joint Resolution entitled "Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes", approved December 19, 1985 (Public Law 99–190; 99 Stat. 1206)), relating to the obligation of working capital funds to procure war reserve material inventory.

(78) The notifications required by section 8042 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b)) of the Joint Resolution entitled "Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes", approved December 19, 1985 (Public Law 99–190; 99 Stat. 1210), relating to the availability of appropriated funds for intelligence or special activities different from activities justified to the Congress.

(79) The notification required by section 8075 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of the Joint Resolution entitled "Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes", approved December 19, 1985 (Public Law 99–190; 99 Stat. 1214), relating to the acquisition of certain types of weapons, subsystems, and munitions of European North Atlantic Treaty Organization manufacture.

(80) The certification required by section 8097 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of the Joint Resolution entitled "Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes", approved December 19, 1985 (Public Law 99–190; 99 Stat. 1219)), relating to the obligation or expenditure of funds to carry out a test of the Space Defense System (anti-satellite weapon) against an object in space.

(81) The annual report required by the third proviso in the undesignated paragraph under the heading "FOREIGN CURRENCY FLUCTUATION, CONSTRUCTION, DEFENSE" in the Military Construction Appropriation Act, 1980 (Public Law 96–130; 93 Stat. 1019), relating to transfers of appropriated funds to eliminate losses in military construction or expenses of family housing caused by fluctuations in foreign currency exchange rates of foreign countries.

(82) The reports required by section 125(a) of the Military Construction Appropriations Act, 1985 (as contained in section 101(e) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for fiscal year 1985, and for other purposes", approved October 12, 1984 (Public Law 98–473; 98 Stat. 1883)), relating to terminations of a prohibition on the availability of appropriated military construction funds to foreign governments ineligible to receive such funds by reason of inadequate drug control measures.

(83)(A) The semiannual report required by section 5(b) of the Inspector General Act of 1978 (5 U.S.C. App. 3), relating to activities of the Inspector General of the Department of Defense.

(B) The reports required by section 5(d) of such Act (5 U.S.C. App. 3), relating to particular cases of problems, abuses, or deficiencies which have come to the attention of the Inspector General of the Department of Defense.

(C) The statements required by paragraphs (3) and (4) of section 8(b) of such Act (5 U.S.C. App. 3), relating to the exercise of certain authority of the Secretary of Defense with respect to the activities of the Inspector General of the Department of Defense.

(84) The requirement to furnish information and to report to Congress concerning intelligence activities as provided in subsections (a) and (b) of section 501 of the National Security Act of 1947 (50 U.S.C. 413).

(c) CHANGE FROM QUARTERLY TO ANNUAL REPORT.—Section 406(i) of title 37, United States Code, is amended—

(1) by striking out "quarter" in the matter preceding clause (1); and

(2) by striking out "quarter" in clauses (1) and (2) and inserting in lieu thereof "fiscal year".

SEC. 504. EFFECTIVE DATE.

Except as otherwise provided in this Act, the provisions of this Act and the amendments made by this Act shall take effect on such date or dates as the Secretary of Defense may specify, but in no event may the effective date for any provision or amend-

*ment be later than 180 days following the date of the enactment of this Act.*

Amend the title so as to read: "An Act to amend title 10, United States Code, to reorganize and strengthen certain elements of the Department of Defense, to improve the military advice provided the President, the National Security Council, and the Secretary of Defense, to enhance the effectiveness of military operations, to increase attention to the formulation of strategy and to contingency planning, to provide for the more efficient use of resources, to strengthen civilian authority in the Department of Defense, and for other purposes.".

House amendments to the Senate amendments to H.R. 3622:

In lieu of the matter proposed to be inserted by the Senate amendment to the text of the bill, insert the following:

*SECTION 1. SHORT TITLE.*

*This Act may be cited as the "Bill Nichols Department of Defense Reorganization Act of 1986".*

*TITLE I—COMBATANT COMMANDS*

*SEC. 101. ENHANCEMENT OF AUTHORITY OF COMMANDERS OF UNIFIED AND SPECIFIED COMBATANT COMMANDS.*

*(a) REVISION AND EXTENSION OF COMBATANT COMMAND AUTHORITY.—(1) Title 10, United States Code, is amended by inserting after chapter 5 the following new chapter:*

*"CHAPTER 6—COMBATANT COMMANDS*

*"161. Establishment.*
*"162. Forces assigned to combatant commands.*
*"163. Functions and supervision.*
*"164. Administration and support of assigned forces.*
*"165. Unified and specified commands: program and budget proposals; net assessments.*
*"166. Combatant command subordinate commanders and CINC staff officers: selection and tenure.*
*"167. Joint Commanders Council.*

***"§ 161. Establishment***

*"(a) UNIFIED AND SPECIFIED COMMANDS.—With the advice and assistance of the Chairman of the Joint Chiefs of Staff, the President, through the Secretary of Defense, shall—*

*"(1) establish unified combatant commands and specified combatant commands to perform military missions; and*

*"(2) prescribe the force structure of those commands.*

*"(b) SPECIAL COMBATANT COMMANDS.—(1) If the President determines that a situation warrants the creation for a specific military mission of a force outside the existing unified and specified commands, the President, with the advice and assistance of the Chairman of the Joint Chiefs of Staff and acting through the Secretary of Defense, may—*

*"(A) establish a special combatant command to respond to that situation; and*

*"(B) prescribe the mission, force structure, and support and administrative arrangements of that command.*

*"(2) In the case of any such special combatant command, the President, with the advice and assistance of the Chairman of the Joint Chiefs of Staff and acting through the Secretary of Defense, shall prescribe the chain of command from the President and Secretary of Defense to the commander of that command. Such chain of command shall be the shortest practicable for each force deployed consistent with proper supervision and support.*

*"(c) PERIODIC REVIEW.—(1) The Chairman shall periodically (and not less often than every other year)—*

*"(A) review the overall structure of the unified and specified combatant commands (including the relationship among their respective functions, missions, areas of responsibility, and chains of command); and*

*"(B) recommend to the President, through the Secretary of Defense, any changes that the Chairman considers necessary or appropriate.*

*"(2) The President shall promptly inform Congress of any action taken in response to recommendations made by the Chairman under paragraph (1)(B).*

***"§ 162. Forces assigned to combatant commands***

*"(a) ASSIGNMENT OF FORCES.—(1)(A) Except as provided in paragraph (2), the Secretaries of the military departments shall assign all forces under their jurisdiction to unified and specified combatant commands to perform the missions assigned to those commands. Such assignments shall be made as directed by the Secretary of Defense, including direction as to the command to which forces are to be assigned.*

*"(B) As directed by the Secretary of Defense, the commanders of the unified and specified combatant commands and the Secretaries of the military departments shall assign forces under their jurisdiction to any special combatant command established under this chapter to perform the missions assigned to that command.*

*"(2) Except as otherwise directed by the Secretary of Defense, forces to be assigned by the Secretaries of the military departments to the combatant commands under paragraph (1) do not include forces assigned to the recruiting, organizing, training, or supplying of the armed forces.*

*"(3) A force assigned to a combatant command under this section may be transferred from the command to which it is assigned only by authority of the Secretary of Defense and under procedures prescribed by the Secretary with the approval of the President.*

*"(4) A force not assigned to a combatant command remains, for all purposes, in the military department concerned.*

*"(5) Unless otherwise directed by the Secretary of Defense, all forces operating within the geographic area assigned to the commander of a unified command shall be assigned to and under the command of the commander of that command. The preceding sentence applies to forces assigned to a specified command or a special combatant command only as prescribed by the Secretary of Defense.*

*"(b) COMMAND OF ASSIGNED FORCES.—(1) Notwithstanding any other provision of law, a force assigned to a combatant command under this section is under the command of the commander of that command. In this section, the term 'command' means the authority to give authoritative direction to subordinate forces necessary to accomplish assigned missions.*

*"(2) The Secretary of Defense shall ensure that commanders of combatant commands have sufficient authority over the forces assigned to their commands to exercise effective command over those forces.*

*"(3) If a commander of a combatant command at any time considers his authority over any of the forces assigned to that command to be insufficient to command effectively, the commander shall promptly inform the Secretary of Defense.*

*"(c) ORGANIZATION, TRAINING, AND EMPLOYMENT OF ASSIGNED FORCES.—(1) The commander of each combatant command shall prescribe the chain of command and organizational structure of forces assigned to that command. To the extent practicable, the structure established should be the structure that would be used in the event of war or hostilities.*

*"(2) The commander of a combatant command shall have authority—*

*"(A) to train forces assigned to that command; and*

*"(B) to employ those forces to accomplish assigned missions.*

***"§ 163. Functions and supervision***

*"(a) FUNCTIONS.—Commanders of combatant commands established under this chapter are responsible to the President and to the Secretary of Defense for such missions as may be assigned to them by the Secretary with the approval of the President.*

*"(b) SUPERVISION BY JCS CHAIRMAN.—Subject to the authority, direction, and control of the Secretary of Defense, the Chairman of the Joint Chiefs of Staff supervises the commanders of the combatant commands and is their spokesman at the seat of Government.*

***"§ 164. Administration and support of assigned forces***

*"(a) ADMINISTRATION.—Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of each military department is responsible for the administration of forces assigned by that department to combatant commands.*

*"(b) SUPPORT.—Unless otherwise directed by the Secretary of Defense, the Secretary of each military department is responsible for the support of forces assigned by that department to combatant commands. The Secretary of Defense may assign the responsibility for the support of forces assigned to a combatant command (or any part of that responsibility) to—*

*"(1) one or more of the military departments;*

*"(2) other agencies of the Department of Defense; or*

*"(3) the commander of the combatant command concerned.*

*"(c) REQUESTS BY CINCS TO PROVIDE OWN SUPPORT.—(1) If a commander of a combatant command decides that performance of a support function (or any part of such a function) by elements of that command would improve the capability of the command to carry out assigned missions or would otherwise be more effective, economical, or efficient, the commander may submit to the Secretary of Defense a proposal for the transfer of that function (or any part of that function) to the command.*

*"(2) Parts of a support function with respect to which a commander may submit a proposal under this subsection include the authority, with respect to that function, to establish requirements and to plan and direct distribution.*

*"(d) ADVICE OF CHAIRMAN.—The functions of the Secretary under this section shall be carried out with the advice and assistance of the Chairman of the Joint Chiefs of Staff.*

***"§ 165. Unified and specified commands: program and budget proposals; net assessments***

*"(a) COMBATANT COMMAND BUDGETS.—The Secretary of Defense shall include in the annual budget of the Department of Defense submitted to Congress a separate budget proposal for such activities of each of the unified and specified combatant commands as may be determined under subsection (b).*

*"(b) CONTENT OF PROPOSALS.—A budget proposal under subsection (a) for funding of activities of a combatant command shall include funding proposals for such activities of the combatant command as the Secretary (after consultation with the Chairman of*

the Joint Chiefs of Staff) determines to be appropriate for inclusion. Activities of a combatant command for which funding may be requested in such a proposal include the following:

"(1) Joint exercises.

"(2) Force training.

"(3) Contingencies.

"(4) Selected operations.

"(c) SUBMISSION BY CINCS.—The commander of each unified or specified combatant command shall submit to the Chairman an annual program and budget proposal for that command for consideration for inclusion under subsection (a) in the next budget of the Department of Defense.

"(d) SUBMISSION OF BUDGET PROPOSALS BY CHAIRMAN.—The Chairman shall—

"(1) review and analyze the combatant command budget proposals submitted under subsection (c);

"(2) establish priorities in accordance with guidance provided by the Secretary; and

"(3) recommend to the Secretary for the purposes of subsection (a) a budget proposal for each command.

"(e) SECRETARY OF DEFENSE GUIDANCE.—Budget proposals under subsections (c) and (d) shall be prepared in accordance with, and subject to, guidance furnished by the Secretary of Defense, including guidance with respect to anticipated budget limitations.

"(f) NET ASSESSMENTS.—(1) In accordance with guidelines established by the Secretary of Defense, the findings, conclusions, and recommendations of any net assessment conducted by an organization of the Department of Defense shall be made available to the commanders of the unified and specified combatant commands.

"(2) The Chairman of the Joint Chiefs of Staff shall establish procedures by which—

"(A) each commander of a combatant command may require the Joint Staff to assist the commander with respect to net assessments relating to the commander's duties; and

"(B) each commander shall contribute to the preparation, conduct, and findings of net assessments performed by the Joint Staff.

"(3) The Secretary of Defense shall establish procedures by which a commander of a combatant command may require organizations of the Department of Defense that perform net assessments (in addition to the Joint Staff) to assist the commander with respect to net assessments relating to the commander's duties.

"(4) The commander of a unified or specified combatant command shall include the results of any current net assessment conducted by or on behalf of his command—

"(A) in preparing any evaluation of the capabilities of his command for submission to the Secretary or the Chairman; and

"(B) in developing operations plans for the command.

**"§ 166. Combatant command subordinate commanders and CINC staff officers: selection and tenure**

"(a) SELECTION.—

"(1) SENIOR GENERAL AND FLAG OFFICERS.—The selection of a general or flag officer for recommendation to the President for nomination to an assignment as a principal subordinate officer of the commander of a unified or specified combatant command, or to the staff of such a commander, in a position of importance and responsibility designated by the President under section 601 of this title shall be made by the commander of that command in accordance with procedures prescribed by the Secretary of Defense. Such procedures shall provide for the selection to be made from a list of officers submitted to the commander by the Secretary of the military department concerned and that the commander may specify the number of officers to be included on such a list.

"(2) OTHER OFFICERS.—Except as provided under paragraph (1), the selection of an officer to an assignment as a principal subordinate officer of the commander of a unified or specified combatant command, or to the staff of such a commander, shall be made by that commander. Such selection shall be made from a list of officers submitted to the commander by the Secretary of the military department concerned. The commander may specify the number of officers to be included on such a list.

"(b) TENURE.—The tenure of an officer assigned to a combatant command under subsection (a) is subject to the approval of the commander of the combatant command.

**"§ 167. Joint Commanders Council**

"(a) ESTABLISHMENT.—There is hereby established in the Department of Defense a council to be known as the 'Joint Commanders Council'. The Council consists of—

"(1) the Chairman of the Joint Chiefs of Staff, who is the head of the Council; and

"(2) the commanders of the unified and specified combatant commands.

"(b) FUNCTIONS.—The Council, as a body, shall—

"(1) provide advice to the President and Secretary of Defense on matters with respect to which such advice is requested; and

"(2) advise the Chairman, as requested by him, on the execution of the Chairman's responsibilities.".

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part I of subtitle A, of such title are amended by inserting after the item relating to chapter 5 the following new item:

"6. Combatant Commands ..... 161".

(b) COURT-MARTIAL JURISDICTION.—Section 822(a) of title 10, United States Code (article 22(a) of the Uniform Code of Military Justice), is amended—

(1) by redesignating paragraphs (2) through (7) as paragraphs (4) through (9), respectively; and

(2) by inserting after paragraph (1) the following new paragraphs (2) and (3):

"(2) the Secretary of Defense;

"(3) the commanding officer of a unified or specified combatant command;".

(c)(1) Notwithstanding any other provision of law, the President and the Secretary of Defense may assign missions, roles, and functions to the military departments, unified and specified commands, and other elements of the Department of Defense.

(2) Section 5012 of title 10, United States Code, is amended—

(A) by striking out "is generally" and all that follows in the third sentence of subsection (a) and inserting in lieu thereof ", in accordance with integrated joint mobilization plans, for the expansion of the peacetime components of the Navy to meet the needs of war."; and

(B) by striking out subsection (d).

(d) CONFORMING AMENDMENTS.—

(1) REPEAL OF SECTION 124.—(A) Section 124 of such title is repealed.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the item relating to section 124.

(2) COMMAND AUTHORITY OF CINCS.—Sections 3034(d)(4), 5081(c), 5201(d), and 8034(d)(4) of such title are amended by striking out "full operational command vested in unified or specified combatant commanders under section 124 of this title" and inserting in lieu thereof "command authority vested in the commanders of unified and specified combatant commands under chapter 6 of this title".

**SEC. 102. FUNCTIONS OF CHAIRMAN OF JOINT CHIEFS OF STAFF.**

(a) IN GENERAL.—Section 141(c) of title 10, United States Code, is amended—

(1) by striking out the matter preceding clause (1) and inserting in lieu thereof the following:

"(c) Subject to the authority and direction of the President and the Secretary of Defense, the Chairman (in consultation, as appropriate, with the other members of the Joint Chiefs of Staff and with the commanders of the unified and specified commands) shall—";

(2) by striking out "and" at the end of paragraph (7);

(3) by redesignating paragraph (8) as paragraph (15); and

(4) by inserting after paragraph (7) the following new paragraphs:

"(8) submit to the Secretary recommendations for the allocation of defense resources under the proposed national defense budget for each fiscal year, to be developed within anticipated limits on funding levels available for defense functions and based on—

"(A) guidance provided by the Secretary;

"(B) recommendations submitted by the commanders of the unified and specified combatant commands based on the requirements of their assigned missions; and

"(C) recommendations (as appropriate) submitted by the Secretaries of the military departments and the heads of other components of the Department of Defense;

"(9) review the program objectives and budget proposals of the Secretary of each military department and of those defense agencies with a combat support mission and recommend to the Secretary changes in such proposals in accordance with the Chairman's recommendations under clause (8);

"(10) in accordance with section 165(d) of this title, recommend to the Secretary a budget for each unified and specified combatant command, including the functions of each such command for which funds should be appropriated to the command;

"(11) establish and maintain, in consultation with the commanders of the unified and specified combatant commands, a uniform system of evaluating the overall capabilities of each such command to accomplish its missions;

"(12) monitor the extent to which each military department provides officers for joint duty assignments and report to the Secretary of Defense when any department provides substantially fewer than one-third of the positions on the Joint Staff and one-third of the total number of joint duty assignments;

"(13) develop doctrine for the joint employment of the armed forces;

"(14) perform net assessments to determine the capabilities of the armed forces to carry out military operations under unified command; and".

(b) CONSULTATION.—Section 141 of such title is further amended by adding at the end the following new subsection:

"(e) In carrying out his functions under this chapter or any other provision of law, the Chairman shall consult, as appropriate, with the other members of the Joint Chiefs

of Staff and the commanders of the unified and specified commands.".

(c) JOINT STAFF NET ASSESSMENT CAPABILITY.—Section 143 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(f) The Chairman shall ensure that the Joint Staff is organized and staffed so as to provide the Chairman the necessary staff expertise to enable him to carry out section 141(a)(14) of this title.".

SEC. 103. TRANSFERS OF STAFF PERSONNEL.

(a) TRANSFERS OF STAFFS TO CINC HEADQUARTERS.—The Secretary of Defense shall provide that personnel assigned to the headquarters staffs of the military departments and of the separate Armed Forces and personnel assigned to the staffs of the commanders of subordinate forces of the unified and specified commands shall, to the maximum extent practicable, be transferred to the staffs of the commanders of the unified and specified commands to reflect transfers of functions provided for or authorized by this Act. Such transfers shall be carried out as expeditiously as possible.

(b) LIMITATION ON TOTAL STAFF SIZE.—The total size of the headquarters staffs of the commanders of the unified and specified commands, the military departments, the separate Armed Forces, and the commanders of subordinate forces of the unified and specified commands may not be greater after any such transfer of functions than it was before such transfer.

SEC. 104. INITIAL REVIEW OF UNIFIED COMMAND PLAN.

(a) MATTERS TO BE CONSIDERED.—The first review of the structure of the unified and specified commands under section 161(c) of title 10, United States Code, as added by section 101, shall include consideration of the following:

(1) Creation of a unified strategic command combining the missions, functions, and forces of the Strategic Air Command, the strategic forces of the Navy, and other appropriate forces.

(2) Creation of a unified command for special operations missions.

(3) Creation of a unified command for missions, functions, and responsibilities relating to security of United States borders.

(4) Revision of the geographic area that is the responsibility of the Central Command, to include the ocean areas adjacent to Southwest Asia.

(5) Revision of the geographic area that is the responsibility of the Southern Command, to include the ocean areas adjacent to Central America.

(6) Revision of the missions, functions, and responsibilities of the Readiness Command and of the Central Command.

(7) Elimination of the United States Forces Caribbean Command.

(b) DEADLINE.—The first report to the President under such section shall be made not later than one year after the date of the enactment of this Act.

SEC. 105. REPEAL OF CERTAIN LIMITATIONS ON DEFENSE MANAGEMENT.

(a) PROHIBITION AGAINST CONSOLIDATING FUNCTIONS OF THE MILITARY TRANSPORTATION COMMANDS.—Section 1110 of the Department of Defense Authorization Act, 1983 (Public Law 97-252; 96 Stat. 747), is repealed.

(b) PROHIBITION AGAINST ALTERING COMMAND STRUCTURE FOR MILITARY FORCES IN ALASKA.—Section 8106 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1221)), is repealed.

SEC. 106. TRANSITION.

(a) GENERAL RULE.—Except as otherwise provided in this section, this title and the amendments made by this title shall take effect on the date of the enactment of this Act.

(b) ASSIGNMENT OF FORCES TO COMBATANT COMMANDS.—Section 162 of title 10, United States Code, as added by section 101, shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

(c) PROGRAM AND BUDGET PROPOSALS.—Section 165 (other than subsection (f)) of title 10, United States Code, as added by section 101, shall take effect with respect to program and budget proposals for fiscal year 1989.

(d) SELECTION AND TENURE OF SUBORDINATE OFFICERS.—Section 166 of title 10, United States Code, as added by section 101, shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

(e) COMBATANT COMMAND EVALUATION SYSTEM.—The uniform system of evaluating the overall capabilities of each unified and specified combatant command required to be established by paragraph (11) of section 141(c) of title 10, United States Code, as added by section 102(a), shall be established not later than the end of the one-year period beginning on the date of the enactment of this Act.

## TITLE II—DEFENSE AGENCIES

SEC. 201. OVERSIGHT REQUIREMENTS WITH RESPECT TO DEFENSE AGENCIES.

(a) IN GENERAL.—(1) Chapter 8 of title 10, United States Code, is amended—

(A) by redesignating section 191 as section 196; and

(B) by inserting after the table of sections the following new sections:

**"§ 191. Authority to provide for common performance of supply or service activities**

"Whenever the Secretary of Defense determines it will be more effective, economical, or efficient, the Secretary shall provide for the performance of a supply or service activity common to more than one military department by one agency or such other organization as the Secretary considers appropriate.

**"§ 192. Defense agencies: oversight by the Secretary of Defense**

"(a) PERIODIC REVIEW.—Periodically (and not less often than every two years), the Secretary of Defense shall review the services and supplies provided by the defense agencies to ensure that the provision of those services and supplies by those agencies, rather than by the military departments, is a more effective, economical, or efficient manner of providing those services and supplies consistent with the requirements for combat readiness of the armed forces.

"(b) INFORMATION REQUIRED FOR REVIEW.—(1) In performing the review required by subsection (a), the Secretary shall obtain, as appropriate, the views of—

"(A) the directors of the defense agencies;

"(B) the Chairman of the Joint Chiefs of Staff;

"(C) the Secretaries of the military departments;

"(D) the Chief of Staff of the Army, the Chief of Staff of the Air Force, the Chief of Naval Operations, and the Commandant of the Marine Corps; and

"(E) the commanders of the unified and specified combatant commands.

"(2) Paragraph (1) shall apply to the National Security Agency as determined appropriate by the Secretary. The Secretary shall establish procedures under which information required for review of the National Security Agency shall be obtained.

**"§ 193. Combat support agencies: duties of the Chairman of the Joint Chiefs of Staff**

"(a) COMBAT READINESS.—(1) Periodically (and not less often than every two years), the Chairman of the Joint Chiefs of Staff shall submit to the Secretary of Defense a report on the combat support agencies. Each such report shall include—

"(A) a determination with respect to the responsiveness and readiness of each such agency to support operating forces in the event of a war or threat to national security; and

"(B) any recommendations that the Chairman considers appropriate.

"(2) In preparing each such report, the Chairman shall review the plans of each such agency with respect to its support of operating forces in the event of a war or threat to national security. After consultation with the Secretaries of the military departments and the commanders of the unified and specified combatant commands, as appropriate, the Chairman may, in accordance with guidelines established by the Secretary of Defense, take steps to provide for any revision of those plans that the Chairman considers appropriate.

"(b) PARTICIPATION IN JOINT TRAINING EXERCISES.—The Chairman shall—

"(1) provide for the participation of the combat support agencies in joint training exercises to the extent necessary to ensure that those agencies are capable of performing their support missions with respect to a war or threat to national security; and

"(2) assess the performance in joint training exercises of each such agency and, in accordance with guidelines established by the Secretary of Defense, take steps to provide for any change that the Chairman considers appropriate to improve that performance.

"(c) READINESS REPORTING SYSTEM.—The Chairman shall develop, in consultation with the director of each combat support agency, a uniform system for reporting to the Secretary of Defense, the commanders of the unified and specified combatant commands, and the Secretaries of the military departments concerning the readiness of each such agency to perform with respect to a war or threat to national security.

"(d) REVIEW OF NATIONAL SECURITY AGENCY.—(1) This section shall apply to the National Security Agency, but only with respect to functions the Agency performs for the Department of Defense.

"(2) The Secretary, after consulting with the Director of Central Intelligence, shall establish policies and procedures with respect to the application of this section to the National Security Agency.

"(3) The Secretary shall submit to Congress a report on any revision of the policies and procedures established under paragraph (2).

**"§ 194. Combat support agency representatives: combatant command headquarters**

"Upon the request of the commander of a unified or specified combatant command, the director of a combat support agency shall assign a representative of that agency to the headquarters of that command.

**"§ 195. Definition of combat support agency**

"In this chapter, the term 'combat support agency' means any of the following:

"(1) The Defense Communications Agency.

"(2) The Defense Intelligence Agency.

"(3) The Defense Logistics Agency.

"(4) The Defense Mapping Agency.

"(5) Any other defense agency designated as a combat support agency by the Secretary of Defense.".

(2) The table of sections at the beginning of such chapter is amended to read as follows:

"Sec.
"191. Authority to provide for common performance of supply or service activities.
"192. Defense agencies: oversight by the Secretary of Defense.
"193. Combat support agencies: duties of the Chairman of the Joint Chiefs of Staff.
"194. Combat support agency representatives: combatant command headquarters.
"195. Definition of combat support agency.
"196. Unauthorized use of Defense Intelligence Agency name, initials, or seal.".

(b) DEFENSE AGENCY DEFINED.—Section 101 of such title is amended by adding at the end the following new paragraph:

"(43) 'Defense agency' means an agency established by the Secretary of Defense under section 191 of this title (or under the second sentence of section 125(d) of this title (as in effect before the date of the enactment of the Department of Defense Reorganization Act of 1986)) to perform a supply or service activity common to more than one military department.".

(c) CONFORMING AMENDMENT.—Section 125 of such title is amended by striking out the last sentence of subsection (d).

(d) TRANSITION PROVISIONS.—

(1) SECRETARY OF DEFENSE REVIEW OF DEFENSE AGENCIES.—The first review under section 192 of title 10, United States Code (as added by subsection (a)(1)), shall be completed not later than the end of the two-year period beginning on the date that the report required by section 202(f) is required to be submitted to Congress.

(2) FUNCTIONS OF CHAIRMAN OF JOINT CHIEFS OF STAFF.—The first report under subsection (a) of section 193 of such title (as added by subsection (a)(1)) shall be submitted, and subsections (b) and (c) of such section shall be implemented, not later than the end of the one-year period beginning on the date of the enactment of this Act. The Secretary of Defense shall provide an interim report on the implementation of such subsections (b) and (c) in the report of the Secretary submitted to Congress for 1987 under section 133(c) of title 10, United States Code, and shall provide a final report on such implementation in the report of the Secretary under such section submitted for 1988.

(3) APPLICATION TO NATIONAL SECURITY AGENCY.—The Secretary of Defense shall, before the end of the 120-day period beginning on the date of the enactment of this Act—

(A) establish the policies and procedures required to be established by subsection (d)(2) of section 193 of such title (as added by subsection (a)(1)) with respect to the application of such section to the National Security Agency; and

(B) submit to Congress a report on such policies and procedures.

SEC. 202. REASSESSMENT OF DEFENSE AGENCIES.

(a) SECRETARY OF DEFENSE.—(1) The Secretary of Defense shall conduct a study of the functions and organizational structure of the defense agencies. The study shall determine the most appropriate means of providing the supplies and services now provided by those agencies, after considering the matters set forth in subsection (d) and the reports submitted under subsection (b).

(2) To the extent that the most appropriate means of providing those supplies and services is determined under paragraph (1) to be the existing defense agency structure, the study shall analyze methods to improve the performance and responsiveness of the defense agencies with respect to the entities to which they provide those supplies and services, particularly with regard to the unified and specified combatant commands.

(b) SERVICE SECRETARIES AND CHAIRMAN OF THE JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff and the Secretaries of the military departments shall each conduct a study of functions and organizational structure of the defense agencies. The Chairman and Secretaries shall each submit a report to the Secretary of Defense on such study at a time specified by the Secretary. Each such report shall include a discussion of and recommendations concerning each matter set forth in subsection (d).

(c) NATIONAL SECURITY AGENCY.—This section shall apply to the National Security Agency as determined appropriate by the Secretary. The Secretary shall establish procedures under which information required for review of the National Security Agency shall be obtained.

(d) MATTERS CONSIDERED.—The studies required by subsections (a) and (b) shall consider the following matters:

(1) Whether the existing allocation of functions to, and organizational structure of, the defense agencies meets the statutory requirement of providing more effective, economical, or efficient provision of a supply or service activity common to more than one military department and eliminating duplication in the provision of that supply or service activity.

(2) Alternative allocations of authority and functions assigned to the defense agencies, including—

(A) various possible redistributions of responsibilities among those agencies;

(B) transfer of those functions to the military departments;

(C) transfer of those functions to the Office of the Secretary of Defense;

(D) transfer of those functions to the Chairman of the Joint Chiefs of Staff, the commanders of the unified and specified combatant commands, or other joint entities of the Department of Defense;

(E) creation of new defense agencies; and

(F) other organizational changes in the Department of Defense designed to make the performance of those functions more effective, economical, or efficient.

(3) The effect of the amendments made by section 201 on ensuring the readiness and responsiveness of the defense agencies in the event of a war or threat to national security and any additional legislation that the Secretary considers necessary to ensure such readiness and responsiveness.

(4) Additional legislative or administrative actions that the Secretary considers necessary to ensure effective oversight of defense agency resource management, personnel policies, and budget procedures and to clarify the chain of command.

(5) The findings of the report of March 1979 entitled "Report to the Secretary of Defense of the Defense Agency Review" and directed by Major General Theodore Antonelli, United States Army (Retired).

(e) CONSULTATION WITH APPROPRIATE OFFICIALS.—The Secretary, in carrying out the study required by subsection (a), shall consult with the directors of the defense agencies and such other officials as the Secretary considers appropriate.

(f) REPORT.—The Secretary of Defense shall submit to Congress a report that includes the following:

(1) A report on the study required by subsection (a) that includes—

(A) a discussion of and recommendations concerning each matter set forth in subsection (d); and

(B) a discussion of the reports required by subsection (b).

(2) A copy of each report required by subsection (b) and the comments of the Secretary concerning each such report.

(g) DEADLINE FOR SUBMISSION.—The report required by subsection (f) shall be submitted not later than the end of the one-year period beginning on the date of the enactment of this Act.

SEC. 203. REPORT ON IMPROVED APPLICATION OF COMPUTER SYSTEMS TO DEFENSE AGENCY FUNCTIONS.

(a) IN GENERAL.—The Secretary of Defense shall prepare a report describing a plan for the improved application of computer systems to defense agency functions and activities, particularly with respect to the application of new automated data processing equipment and systems to such activities and the replacement of existing equipment and systems with new equipment and systems. The report shall set forth a plan for the rapid replacement of existing automated data processing equipment and systems when necessary for agency functions.

(b) SUBMISSION OF REPORT.—The report required by subsection (a) shall be submitted as part of the report of the Secretary under section 202(f).

## TITLE III—JOINT OFFICER PERSONNEL POLICY

SEC. 301. JOINT OFFICER MANAGEMENT.

(a) ESTABLISHMENT OF JOINT SPECIALTY.—Part II of subtitle A of title 10, United States Code, is amended by inserting after chapter 37 the following new chapter:

### "CHAPTER 38—JOINT OFFICER MANAGEMENT

"Sec.
"661. Joint specialty.
"662. Selection for senior military positions.
"663. Training and education.
"664. Length of joint duty assignments.
"665. Procedures for monitoring careers of joint officers.
"666. Reserve officers not on the active duty list.
"667. Annual report to Congress.
"668. Definitions.

"§ 661. Joint specialty

"(a) ESTABLISHMENT.—The Secretary of Defense shall establish an occupational category for officers of the Army, Navy, Air Force, and Marine Corps on the active-duty list who (in addition to their principal military occupational specialty) are particularly trained in and oriented toward joint matters (as defined in section 668 of this title). Officers with that occupational category shall be identified or designated in such manner as the Secretary of Defense directs. For purposes of this chapter, that category is referred to as the 'joint specialty'.

"(b) NUMBERS AND SELECTION.—

"(1) NUMBER.—The number of officers with the joint specialty shall be determined by the Secretary. Such number shall be large enough to meet the requirements of subsection (d).

"(2) SELECTION OF OFFICERS FOR JOINT SPECIALTY.—Officers shall be selected for the

joint specialty by the Secretary of Defense with the advice of the Chairman of the Joint Chiefs of Staff. The Secretaries of the military departments shall nominate officers for selection for the joint specialty. Nominations shall be made from among officers—

"(A) who meet qualifications prescribed by the Secretary of Defense; and

"(B) who—

"(i) are senior captains or, in the case of the Navy, lieutenants; or

"(ii) are serving in the grade of major or lieutenant commander or a higher grade.

"(c) TRAINING AND EXPERIENCE REQUIREMENTS.—

"(1) GENERAL RULE.—An officer who is nominated for the joint specialty may not be selected for the joint specialty until the officer—

"(A) successfully completes an appropriate program at a joint professional military education school; and

"(B) after completing such program of education, successfully completes a full tour of duty in a joint duty assignment.

"(2) EXCEPTION FOR OFFICERS WITH CRITICAL SKILLS.—An officer who has a critical occupational specialty involving combat operations (as designated by the Secretary of Defense) who is nominated for the joint specialty may be selected for the joint specialty after successful completion of a joint duty assignment of not less than two years and successful completion of a program under paragraph (1)(A). An officer selected for the joint specialty under this paragraph shall be required to complete the generally applicable requirements for selection under paragraph (1)(B) as soon as practicable after such officer's selection.

"(d) JOINT DUTY ASSIGNMENTS.—

"(1) 50 PERCENT REQUIREMENT.—The Secretary of Defense shall ensure that approximately one-half of the joint duty assignment positions in grades above captain or, in the case of the Navy, lieutenant are filled at any time by officers who have (or have been nominated for) the joint specialty.

"(2) CRITICAL ASSIGNMENTS.—The Secretary of Defense shall designate not fewer than 1,000 joint duty assignment positions as critical joint duty assignment positions. Each such position shall be held only by officers with the joint specialty.

"(e) CAREER GUIDELINES.—The Secretary, with the advice of the Chairman of the Joint Chiefs of Staff, shall establish career guidelines for officers with the joint specialty. Such guidelines shall include guidelines for—

"(1) selection;

"(2) training;

"(3) military education;

"(4) types of duty assignments;

"(5) information and guidelines to be furnished by the Secretary of a military department under section 615 of this title for officer selection boards; and

"(6) such other matters as the Secretary considers appropriate.

**"§ 662. Selection for senior military positions**

"(a) POLICY FOR SELECTION FOR SENIOR POSITIONS.—The Secretary of Defense shall establish policies to ensure that, whenever practicable, the criteria set forth in subsection (b) are applied to the selection of an officer for recommendation to the President for—

"(1) appointment as Chairman of the Joint Chiefs of Staff or as a Chief of Service; or

"(2) assignment as the commander of a unified or specified combatant command.

"(b) CRITERIA.—The criteria referred to in subsection (a) are as follows:

"(1) JCS CHAIRMAN.—The criteria for selection of an officer for recommendation for appointment as Chairman of the Joint Chiefs of Staff are that the officer have served as a Chief of Service or as the commander of a unified or specified combatant command.

"(2) CHIEF OF SERVICE.—The criteria for selection of an officer for recommendation for appointment as a Chief of Service are that the officer have had significant experience in joint duty assignments and that such experience include at least one joint duty assignment as a general or flag officer.

"(3) CINC.—The criteria for selection of an officer for recommendation for assignment as the commander of a unified or specified combatant command are that the officer—

"(A) have the joint specialty; and

"(B) have had at least one joint duty assignment as a general or flag officer.

"(c) CHIEF OF SERVICE DEFINED.—In this section, the term 'Chief of Service' means the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force, or the Commandant of the Marine Corps.

**"§ 663. Training and education**

"(a) CAPSTONE COURSE FOR NEW GENERAL AND FLAG OFFICERS.—

"(1) REQUIREMENT.—Each officer selected for promotion to the grade of brigadier general or, in the case of the Navy, rear admiral (lower half) shall be required, after such selection, to attend a military education course designed specifically to prepare new flag and general officers to work with the other armed forces.

"(2) WAIVER AUTHORITY.—Subject to paragraph (3), the Secretary of Defense may waive paragraph (1)—

"(A) in the case of an officer whose immediately previous assignment was in a critical joint duty assignment and who is thoroughly familiar with joint warfare matters;

"(B) when necessary for the good of the service;

"(C) in the case of an officer whose proposed selection for promotion is based primarily upon scientific and technical qualifications for which joint requirements do not exist (as determined under regulations prescribed under section 619(e)(4) of this title); and

"(D) in the case of a medical officer, dental officer, veterinary officer, medical service officer, nurse, biomedical science officer, chaplain, or judge advocate.

"(3) LIMITATION ON WAIVER AUTHORITY.—The authority of the Secretary of Defense to grant a waiver under paragraph (2) may only be delegated to the Deputy Secretary of Defense or an Assistant Secretary of Defense. Such a waiver may be granted only on a case-by-case basis in the case of an individual officer.

"(b) JOINT MILITARY EDUCATION SCHOOLS.—The Secretary of Defense shall periodically review and revise the curriculum of schools of the National Defense University (and of any other joint professional military education school) to enhance the education and training of officers in joint military matters. Such schools shall be required to maintain rigorous standards for the military education of officers with the joint specialty.

"(c) OTHER PROFESSIONAL MILITARY EDUCATION SCHOOLS.—The Secretary of Defense shall require that each Department of Defense school concerned with professional military education periodically review and revise its curricula for senior and intermediate grade officers in order to strengthen the focus on—

"(1) joint military operations; and

"(2) preparing officers for joint duty assignments.

"(d) POST-TRAINING DUTY ASSIGNMENTS.—The Secretary shall ensure that—

"(1) unless waived by the Secretary in an individual case, each officer with the joint specialty who graduates from a joint professional military school shall be assigned to a joint duty assignment for that officer's next duty assignment; and

"(2) a high proportion (which shall be significantly greater than 50 percent) of the other officers graduating from a joint professional military school also receive assignments to a joint duty assignment as their next duty assignment.

"(e) OTHER REQUIREMENTS FOR SENIOR OFFICERS.—The Secretary shall take all other practicable measures to improve the training and experience of officers serving in senior joint duty assignments.

**"§ 664. Length of joint duty assignments**

"(a) GENERAL RULE.—The length of a joint duty assignment—

"(1) for general and flag officers shall be not less than three years; and

"(2) for other officers shall be not less than three and one half years.

"(b) WAIVER AUTHORITY.—The Secretary of Defense may waive subsection (a) in any case, but the Secretary shall ensure that the average length of joint duty assignments meets the standards prescribed in that subsection.

"(c) CERTAIN OFFICERS WITH CRITICAL COMBAT OPERATIONS SKILLS.—Joint duty assignments of less than the period prescribed by subsection (a), but not less than two years, may be authorized for the purposes of section 661(c)(2) of this title. Any such assignment shall not be counted for the purposes of determining the average length of joint duty assignments under subsection (b).

**"§ 665. Procedures for monitoring careers of joint officers**

"(a) PROCEDURES.—(1) The Secretary of Defense, with the advice of the Chairman of the Joint Chiefs of Staff, shall establish procedures for overseeing the careers of—

"(A) officers with the joint specialty; and

"(B) other officers who serve in joint duty assignments.

"(2) Such oversight shall include monitoring of the implementation of the career guidelines established under section 661(e) of this title.

"(b) ADVICE OF CHAIRMAN OF JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff shall advise the Secretaries of the military departments with respect to duty assignments of—

"(1) officers with the joint specialty; and

"(2) other officers serving in joint duty assignments.

"(c) FUNCTION OF JOINT STAFF.—The Secretary shall take such action as necessary to enhance the capabilities of the Joint Staff so that it can—

"(1) monitor the promotions and career assignments of officers with the joint specialty and of other officers who have served in joint duty assignments; and

"(2) otherwise advise the Chairman on joint personnel matters.

**"§ 666. Reserve officers not on the active duty list**

"The Secretary of Defense shall establish personnel policies emphasizing training and experience in joint matters for reserve officers not on the active duty list. Such policies shall, to the extent practicable for the re-

serves components, be similar to the policies provided by this chapter.

"§ 667. Annual report to Congress

"(a) IN GENERAL.—The Secretary of Defense shall include in the annual report of the Secretary to Congress (in that portion of the report relating to management) the following information:

"(1) The number of officers qualifying for the joint specialty and their education and training.

"(2) The promotion rate for officers in the joint specialty compared with the promotion rates for officers in the same armed force and at the same competitive category, shown for all officers of the armed force and for officers serving on the headquarters staff of the military department concerned.

"(3) The promotion rates of other officers serving in joint duty assignments, compared in the same manner as specified in paragraph (2).

"(4) Promotion rates for officers below the zone, shown for officers with the joint specialty and other officers who have served in joint duty assignments, compared in the same manner as specified in paragraph (2).

"(5) An analysis of assignments of officers after selection for the joint specialty.

"(6) The average length of tours of duty in joint duty assignments—

"(A) for general and flag officers, shown separately for assignments to the Joint Staff and other joint duty assignments; and

"(B) for other officers, shown separately for assignments to the Joint Staff and other joint duty assignments.

"(7) In any case in which the information under paragraphs (2) through (6) shows a significant imbalance between officers serving in joint duty assignments and other officers, a description of what action has been taken (or is planned to be taken) by the Secretary to correct the imbalance.

"(8) Any other information or comparative data that shows performance of the Department of Defense and the performance of each military department in carrying out this chapter and section 626a of this title.

"(b) ANNUAL REPORT OF THE SECRETARY DEFINED.—In this section, the term 'annual report of the Secretary' means the annual report of the Secretary of Defense required by section 133(c) of this title.

"§ 668. Definitions

"(a) JOINT MATTERS.—In this chapter, the term 'joint matters' means matters relating to the integrated employment of land, sea, and air forces, including matters relating to—

"(1) national military strategy;

"(2) long-range and contingency planning; and

"(3) command and control of combat operations under unified command.

"(b) JOINT DUTY ASSIGNMENT.—

"(1) IN GENERAL—The Secretary of Defense shall by regulation define the term 'joint duty assignment' for the purposes of this chapter. That definition shall be limited to assignments in which the officer gains significant experience in joint matters and shall exclude—

"(A) assignments for joint training or joint education; and

"(B) assignments within an officer's own military department.

"(2) PUBLICATION.—The Secretary shall publish a list showing—

"(A) the positions that are joint duty assignment positions under such regulation and the number of such positions; and

"(B) of the positions listed under subparagraph (A), those that are critical joint duty assignment positions and the number of such positions.".

(b) CLERICAL AMENDMENTS.—The tables of chapters at the beginning of subtitle A, and at the beginning of part II of subtitle A, of title 10, United States Code, are amended by inserting after the item relating to chapter 37 the following new item:

"38. Joint Officer Management..... 661".

SEC. 302. PROMOTION POLICY FOR JOINT SERVICE OFFICERS.

(a) COMPOSITION OF SELECTION BOARDS.—Section 612 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) Each selection board that will consider officers who have served in joint duty assignments shall include at least one officer designated by the Chairman of the Joint Chiefs of Staff who is currently serving in a joint duty assignment. The Secretary of Defense may waive the preceding sentence in the case of any selection board of the Marine Corps.".

(b) REVIEW OF PROMOTION LISTS BY CHAIRMAN OF JCS.—Section 618 of such title is amended—

(1) by redesignating subsections (b), (c), (d), and (e) as subsections (c), (d), (e), and (f), respectively; and

(2) by inserting after subsection (a) the following new subsection (b):

"(b)(1) After completing the requirements of subsection (a), the Secretary concerned shall submit the report to the Chairman of the Joint Chiefs of Staff.

"(2) The Chairman shall review the report in accordance with guidelines prescribed by the Secretary of Defense. After reviewing the report of a selection board, the Chairman may recommend for promotion officers who—

"(A) were considered by the board and not recommended for promotion; and

"(B) have served or are serving in joint duty assignments.

"(3) The number of such officers that the Chairman recommends for promotion in any competitive category considered by the board may not exceed 10 percent of the number of officers that the board was authorized to recommend for promotion in that competitive category (but in any case the Chairman may recommend one such officer).

"(4) After reviewing the report of a selection board, the Chairman shall return the report to the Secretary concerned with the names of officers (if any) who were not recommended for promotion by the selection board and who the Chairman recommends for promotion under paragraph (2). Except as provided under paragraph (5), each such name shall be added to the report of the selection board.

"(5) If the Chairman recommends officers for promotion under paragraph (2), and if (after consulting with the Chairman) the Secretary concerned disagrees with any such recommendation of the Chairman, the Secretary—

"(A) may return the report, together with the Chairman's recommendations and comments, to the selection board for further proceedings in accordance with subsection (a);

"(B) may convene a special selection board in the manner provided for under section 628 of this title for consideration of any such officer on his record; or

"(C) may take other appropriate action to satisfy the concerns of the Chairman.

"(6) If, after completion of all actions taken under paragraph (5), the Secretary concerned and the Chairman remain in disagreement with respect to the selection for promotion of an officer, the Secretary concerned shall indicate such disagreement, and the reasons for such disagreement, as part of his transmittal of the report of the selection board to the Secretary of Defense under subsection (c). Such transmittal shall include the name of each officer recommended by the Chairman."; and

(3) by adding at the end of paragraph (1) of subsection (c) (as redesignated by paragraph (1)) the following new sentences: "If the Secretary concerned and the Chairman of the Joint Chiefs of Staff disagree with respect to a recommendation for promotion by the Chairman under subsection (b), the Secretary of Defense shall, before transmitting the report to the President, decide the matter by directing that the name of an officer recommended for promotion by the Chairman be added to, or not be added to, the report of the selection board for officers recommended for promotion. After final action by the Secretary of Defense, the report of the selection board, as modified in accordance with subsection (b) and the decisions of the Secretary of Defense, shall be considered for all purposes to be the report of the selection board.".

(c) PROMOTION POLICIES FOR JOINT SERVICE OFFICERS.—

(1) RELATIVE PROMOTION RATES.—Chapter 36 of such title is amended by inserting after section 626 the following new section:

"§ 626a. Promotion policy for joint service officers

"The Secretary of Defense shall establish policies to ensure that, whenever practicable, selection of officers on the active-duty list for promotion under this chapter is carried out in a manner consistent with the following policies:

"(1) JOINT STAFF OFFICERS.—Officers who are serving on, or have served on, the Joint Staff shall, as a group, be promoted at a rate not less than the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staff of their armed force.

"(2) JOINT SPECIALTY OFFICERS.—Officers with the joint specialty under chapter 38 of this title shall, as a group, be promoted at a rate not less than the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staff of their armed force.

"(3) OTHER JOINT ASSIGNMENT OFFICERS.—Officers who are serving in, or have served in, joint assignments (other than officers covered by paragraphs (1) and (2)) shall, as a group, be promoted at a rate determined by the Secretary of Defense between—

"(A) the rate for all officers of that armed force in the same grade and competitive category; and

"(B) the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staffs of the military departments.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter II of such chapter is amended by adding at the end the following new item:

"626a. Promotion policy for joint service officers.".

SEC. 303. JOINT DUTY ASSIGNMENT AS PREREQUISITE FOR PROMOTION TO GENERAL OR FLAG OFFICER RANK.

Section 619 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e)(1) An officer may not be selected for promotion to the grade of brigadier general or, in the case of the Navy, rear admiral (lower half) unless the officer has served in a joint duty assignment.

"(2) Subject to paragraph (3), the Secretary of Defense may waive paragraph (1)—

"(A) when necessary for the good of the service;

"(B) in the case of an officer whose proposed selection for promotion is based primarily upon scientific and technical qualifications for which joint requirements do not exist;

"(C) in the case of a medical officer, dental officer, veterinary officer, medical service officer, nurse, biomedical science officer, chaplain, or judge advocate; and

"(D) until January 1, 1992, in the case of an officer who the Secretary determines served before the date of the enactment of this subsection in an assignment (other than a joint duty assignment) that involved significant experience in joint matters.

"(3)(A) A waiver may be granted under paragraph (2) only on a case-by-case basis in the case of an individual officer.

"(B) In the case of a waiver under paragraph (2)(A), the Secretary shall provide that the first duty assignment as a general or flag officer of an officer for whom the waiver is granted shall be in a joint duty assignment.

"(C) The authority of the Secretary of Defense to grant a waiver under paragraph (2)(B) or (2)(C) may only be delegated to the Deputy Secretary of Defense or an Assistant Secretary of Defense.

"(4) The Secretary of Defense shall prescribe regulations to carry out this subsection. Such regulations shall specifically identify those categories of officers for which selection for promotion to brigadier general is based primarily upon scientific and technical qualifications for which joint requirements do not exist.".

SEC. 304. ANNUAL REPORT ON IMPLEMENTATION.

The Secretary of Defense shall include in the annual report of the Secretary to Congress under section 133(c) of title 10, United States Code, for each year from 1987 through 1991 (in that portion of the report relating to management) a detailed report on the implementation of this title and the amendments made by this title.

SEC. 305. TRANSITION.

(a) JOINT SPECIALTY.—

(1) INITIAL SELECTIONS.—The Secretary of Defense shall make the initial selections of officers for the joint specialty under chapter 38 of title 10, United States Code, as added by section 301, from among officers in such grades as the Secretary determines.

(2) SPECIAL RULES.—In making such selections, the Secretary—

(A) may waive the requirement of either subparagraph (A) or (B) (but not both) of section 661(c)(1) of title 10, United States Code, as added by section 301, in the case of officers in a grade above captain or, in the case of the Navy, lieutenant and below the grade of brigadier general or rear admiral (lower half); and

(B) may waive the requirements of both subparagraphs (A) and (B) of such sentence in the case of general and flag officers who have served in joint duty assignments.

(3) SUNSET.—The authority provided by this section shall expire two years after the date of the enactment of this Act.

(b) JOINT DUTY ASSIGNMENTS.—(1) Section 661(d) of title 10, United States Code, as added by section 301, shall be implemented as rapidly as possible and not later than two years after the date of the enactment of this Act.

(2) The list of positions that are joint duty assignments required to be published by section 668(b)(2) of such title shall be published not later than the end of the six-month period beginning on the date of the enactment of this Act.

(c) CAREER GUIDELINES.—The career guidelines required to be established by section 661(e) of such title, the procedures required to be established by section 665(a) of such title, and the personnel policies required to be established by section 666 of such title shall be established not later than the end of the six-month period beginning on the date of the enactment of this Act. The provisions of section 665(c) of such title shall be implemented not later than the end of such period.

(d) TRAINING AND EDUCATION.—

(1) CAPSTONE COURSE.—Subsection (a) of section 663 of such title, as added by subsection (a), shall apply with respect to officers selected in reports of officer selection boards submitted to the Secretary concerned after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) REVIEW OF MILITARY EDUCATION SCHOOLS.—(A) The first review under subsections (b) and (c) of such section shall be completed not later than 120 days after the date of the enactment of this Act. The Secretary of Defense shall submit to Congress a report on the results of the review at each Department of Defense school not later than 60 days thereafter.

(B) Such subsections shall be implemented so that the revised curricula take effect with respect to courses beginning after August 1987.

(e) PROMOTION POLICY.—(1) The amendments made by subsections (a) and (b) of section 302 shall take effect with respect to selection boards convened under section 611(a) of title 10, United States Code, after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) Section 626a of title 10, United States Code, as added by section 302(c), shall take effect with respect to selection boards convened under section 611(a) of title 10, United States Code, after the end of the 180-day period beginning on the date of the enactment of this Act.

## TITLE IV—MILITARY DEPARTMENT ORGANIZATION

SEC. 401. REORGANIZATION OF MILITARY DEPARTMENTS BY THE SECRETARY OF DEFENSE.

(a) IN GENERAL.—The Secretary of Defense shall reorganize the executive part of the military departments in accordance with the provisions of this title.

(b) REORGANIZATION POLICIES.—In carrying out the reorganization required by subsection (a), the Secretary of Defense shall implement the following policies:

(1) Each military department shall have a single integrated staff for the executive part of the department, rather than separate civilian secretariat and military staffs.

(2) Commissioned officers serving on the new military department staff shall not constitute or be organized as a separate component within the staff (other than the personal staff of a Service Chief).

(3) The functional assignments of the assistant secretaries of the military departments shall be as uniform as possible across the military departments. In implementing this policy, the Secretary shall limit exceptions to the greatest extent possible.

(4) Senior civilian officials on the department staff who are political appointees shall not be placed in a position subordinate to a military officer.

(5) The size of the department staffs shall be substantially reduced from the combined size of the prior secretariat and military staffs, with functions to be shifted to appropriate joint staffs or to subordinate commands outside the seat of government.

(6) The existing staff functions in the executive part of a military department relating to the reserve components shall not be abolished or consolidated with other elements of the military department staff (other than the consolidation of existing military staff and civilian secretariat staff functions relating to the reserve components).

(7) The position of Administrative Assistant in the Department of the Army provided for under section 3016 of title 10, United States Code, shall not be abolished and the other military departments may be authorized to have a similar position.

(c) LIMITATION ON FUTURE ADMINISTRATIVE REORGANIZATION OF THE MILITARY DEPARTMENTS.—After the reorganization required by this section is implemented, no reorganization may be made within the Department of Defense that would be inconsistent with the policies set forth in subsection (b).

(d) SUPERVISORY CONTROL OF MILITARY PERSONNEL.—Nothing in this title limits the authority of a Service Chief, under the authority, direction, and control of the Secretary concerned, to exercise supervisory control over members of the Armed Forces under his jurisdiction, especially with respect to personnel matters, in the manner exercised by the Service Chief before the enactment of this Act.

SEC. 402. EXECUTIVE PART OF MILITARY DEPARTMENTS.

(a) IN GENERAL.—The executive part of each of the military departments is composed of the following:

(1) The Secretary of the military department.

(2) The Under Secretary.

(3) The Assistant Secretaries.

(4) The general counsel.

(5) The Chief of Staff and, in the case of the Department of the Navy, the Chief of Naval Operations and the Commandant of the Marine Corps.

(6) The Vice Chief of Staff or, in the case of the Department of the Navy, the Vice Chief of Naval Operations and the Assistant Commandant of the Marine Corps.

(7) Deputy Chiefs of Staff and, in the case of the Department of the Navy, Deputy Chiefs of Naval Operations.

(8) The Administrative Assistant, in the case of the Department of the Army and any other military department with a similar position.

(9) Other offices or positions provided by law to be in the executive part of the military department.

(10) Civilian personnel in the military department assigned or detailed to the executive part of the military department.

(11) Other members of the Armed Forces assigned or detailed to the executive part of the military department.

(b) ASSISTANT SECRETARIES.—

(1) FUNCTIONS.—The Assistant Secretaries of the military departments shall be assigned the following areas of responsibility by the Secretary of Defense:

(A) Manpower functions.

(B) Reserve affairs functions.

(C) Financial management and comptroller functions.

(D) Research and development functions.

(E) Acquisition functions.
(F) Logistics functions.
(G) Installations functions.
(H) In the case of the Department of the Army, civil works functions.

(2) NUMBER.—There shall be four Assistant Secretaries in each military department, plus an additional Assistant Secretary in the Department of the Army for civil works functions.

(c) PERSONAL STAFFS OF SERVICE SECRETARIES AND SERVICE CHIEFS.—The Secretary of each military department and each Service Chief may each have a personal staff of not more than 30 persons. The Administrative Assistant, and the staff of the Administrative Assistant, of a military department shall not be counted as part of the personal staff of the Secretary of the military department under this subsection.

(d) LIMITATION ON SIZE OF MILITARY DEPARTMENT STAFF.—The total number of persons assigned or detailed to the department staff or staffs of a military department may not exceed 85 percent of the total number of persons on the service secretariat and headquarters staff or staffs of that military department before the reorganization of that department under this Act. The Secretary of Defense shall ensure that the reduction of the number of persons on staffs of military headquarters results in a reduction in the number of persons that are assigned to duty in the Washington, D.C., area.

SEC. 403. LIMITATION OF DEPARTMENT STAFF FUNCTIONS.

(a) JOINT STAFF.—The Secretary of Defense, in carrying out the reorganization required by this title, shall provide that operation and planning responsibilities that are duplicated by the staff of the Joint Chiefs of Staff shall be shifted to that staff.

(b) DECENTRALIZATION OF NON-HEADQUARTERS FUNCTIONS.—The Secretary of Defense, in carrying out the reorganization required by this title, and the Secretaries of the military departments shall provide that functions that may be performed by subordinate commands outside of the Washington, D.C., area shall be reassigned to those commands.

SEC. 404. RESPONSIBILITIES OF SERVICE SECRETARIES.

(a) INTELLIGENCE ACTIVITIES.—Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of a military department is responsible to the Secretary of Defense for the effective supervision and control of the intelligence activities of that military department.

(b) OPERATIONAL READINESS.—The Secretary of a military department, in organizing, training, and equipping forces under the jurisdiction of the Secretary, shall ensure the operational readiness of such forces.

SEC. 405. IMPLEMENTATION AND REPORT.

(a) IMPLEMENTATION.—The Secretary of Defense shall complete implementation of this title not later than September 30, 1987.

(b) REPORT.—The Secretary shall submit to Congress a report on such implementation. The report shall be submitted not later than 30 days after the date provided under subsection (a). The report shall include a draft of legislation to make conforming changes to title 10, United States Code, and other appropriate provision of law to reflect the reorganization carried out pursuant to section 401 and the effect of the other provisions of this title.

SEC. 406. DEFINITION.

For purposes of this title, the term "Service Chief" means any of the following:
(1) The Chief of Staff of the Army.
(2) The Chief of Naval Operations.
(3) The Chief of Staff of the Air Force.
(4) The Commandant of the Marine Corps.

## TITLE V—MISCELLANEOUS

SEC. 501. ANNUAL REPORT ON NATIONAL SECURITY STRATEGY.

(a) REPORT REQUIREMENT.—The President shall submit to the Committees on Armed Services and Foreign Relations and the Select Committee on Intelligence of the Senate and the Committees on Armed Services and Foreign Affairs and the Permanent Select Committee on Intelligence of the House of Representatives each year a comprehensive written report on the national security strategy of the United States. The President shall submit such report on the same date each year on which he submits the budget to Congress pursuant to section 1105 of title 31, United States Code.

(b) CONTENTS OF REPORT.—The report referred to in subsection (a) shall include—

(1) a comprehensive discussion of the vital interests, goals, and objectives of the United States throughout the world;

(2) a coordinated and comprehensive description of the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary to deter aggression and to implement the national security strategy of the United States;

(3) a discussion of the proposed short-term and long-term uses of the political, economic, military, and other elements of the national power of the United States to protect or promote the interests and achieve the goals and objectives referred to in clause (1);

(4) a discussion of the adequacy of the capabilities of the United States to carry out the national security strategy of the United States, including an evaluation of the balance among the capabilities of all elements of the national power of the United States to support the implementation of the national security strategy; and

(5) such other pertinent information as may be necessary to help inform Congress on matters relating to the overall foreign policy strategy and military strategy of the United States.

(c) CLASSIFICATION.—The report referred to in subsection (a) shall be transmitted in a classified and an unclassified form.

SEC. 502. MANAGEMENT STUDIES OF OFFICE OF THE SECRETARY OF DEFENSE.

(a) SECRETARY OF DEFENSE STUDY.—The Secretary of Defense shall conduct a study on the functions and organization of the Office of the Secretary of Defense. The study shall examine the functions, divisions of responsibility, and management structure of the Office, including each of the matters specified in subsection (c).

(b) SERVICE SECRETARIES AND CHAIRMAN OF THE JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff and the Secretaries of the military departments shall each conduct a study of the functions and organization of the Office of the Secretary of Defense. The Chairman and Secretaries shall each submit a report to the Secretary of Defense on such study at a time specified by the Secretary. Each such report shall include a discussion of and recommendations concerning each matter specified in subsection (c).

(c) MATTERS TO BE INCLUDED.—The studies required by subsections (a) and (b) shall include consideration of the following:

(1) Whether the present allocation of functions to, and the organizational structure of, the Office constitutes the most effective, efficient, and economical allocation and structure.

(2) Whether the present organization of the Office is the most effective and efficient for the functions of policy initiation, development, and articulation.

(3) Whether the present organization of the Office best ensures that military strategy and military planning are dictated by considerations of national policy and strategy.

(4) Whether effective civilian control of the Department of Defense is best provided by the present structure of the Office, including civilian control of—
(A) policy planning;
(B) force planning;
(C) program development;
(D) budget development;
(E) program execution; and
(F) program review.

(5) Means to improve and strengthen the evaluation function, with particular reference to the findings and recommendations set forth in the final report of the Defense Organization Project of the Georgetown University Center for Strategic and International Studies, entitled "Toward A More Effective Defense" and published in February 1985.

(6) Means to improve and strengthen the oversight function within each element of the Office.

(7) Factors inhibiting efficient and effective execution of the functions of the Office, including factors relating to—
(A) duplication of functions (both within the Office and between the Office and other elements of the Department);
(B) insufficient information; and
(C) insufficient resources (including personnel).

(8) Alternative allocations of authorities and functions of the Office and other reorganization proposals for the Office, including the desirability of—
(A) establishing the Office by law;
(B) establishing Under Secretaries of Defense for mission-oriented areas of responsibility;
(C) establishing the Secretaries of the military departments as Undersecretaries of Defense;
(D) eliminating functional descriptions or designations of Assistant Secretaries of Defense by law;
(E) revising the planning, programming, and budgeting system to strengthen policy and strategy direction;
(F) decentralizing functions of the Office;
(G) reducing the number of officials reporting directly to the Secretary of Defense; and
(H) changing the number of military and civilian personnel in the Office.

(d) ANALYSIS OF CIVILIAN CONTROL.—The Secretary of Defense, in considering under subsection (c)(4) whether effective civilian control of the Department of Defense is best provided by the current structure of the Office, shall examine the functions performed in the Office by members of the Armed Forces on active duty and the functions performed by members in a retired status serving in civilian positions. Such examination shall include determination of—

(1) the number of positions in the Office in grades GS-9 (or the military equivalent) and above held by members of the Armed Forces on active duty, shown for each pay grade by number and as a percentage of the total number of positions in the Office in the pay grade concerned; and

(2) the number of such positions held by members of the Armed Forces in a retired status, shown in the same manner as provided under paragraph (1).

(e) CONSULTATION WITH OTHER APPROPRIATE OFFICIALS.—The Secretary of Defense, in car-

rying out the study required by subsection (a), shall consult with and obtain the views of the Under Secretaries and Assistant Secretaries of Defense, the directors of the defense agencies, and such other officials as the Secretary considers appropriate.

(f) INDEPENDENT CONTRACTOR STUDY.—The Secretary shall provide for an independent study to be carried out by a contractor to consider the same matters considered in the study of the Secretary under subsection (a). The Secretary shall ensure that the contractor has full access to such information as the contractor requires and that the contractor otherwise receives full cooperation from all Department of Defense officials and entities.

(g) REPORT TO CONGRESS.—(1) The Secretary of Defense shall submit to Congress a report on the Secretary's study under subsection (a). The report shall include—

(A) the findings and conclusions of the Secretary with respect to each of the matters set forth in subsection (c);

(B) the findings and statistical determinations required under subsection (d); and

(C) any recommendations of the Secretary for organizational changes in the Office of the Secretary of Defense and a description for the means for implementing each such recommendation.

(2) The Secretary shall include with the report a copy of each report to the Secretary under subsection (b) and a copy of the report of the independent contractor under subsection (e), together with such comments on each such report as the Secretary considers appropriate.

(3) The report under this subsection shall be submitted not later than one year after the date of the enactment of this Act.

SEC. 503. REDUCTION OF REPORTING REQUIREMENTS.

(a) POLICY.—It is the policy of Congress to reduce the administrative burden placed on the Department of Defense by requirements for reports, studies, and notifications to be submitted to Congress through the elimination of outdated, redundant, or otherwise unnecessary report requirements.

(b) COMPILATION OF EXISTING REPORT REQUIREMENTS.—(1) The Secretary of Defense shall compile a list of all provisions of law currently in effect that require the President, with respect to national defense functions of the Government, or any official or employee of the Department of Defense to submit in writing any report, notification, or study to Congress or any committee of Congress.

(2) The Secretary shall submit to Congress the list compiled under paragraph (1) not later than six months after the date of the enactment of this Act. The Secretary shall include with such list (with respect to each report, notification, or study shown on the list) the following:

(A) The date the requirement for such report, notification, or study was first imposed by law.

(B) The Secretary's assessment of the continuing utility of such requirement to Congress and to the executive branch.

(C) The Secretary's assessment of the administrative burden of such requirement and how such burden relates to the utility of the report, notification, or study.

(D) The Secretary's recommendation as to whether such requirement should be retained, modified, or repealed.

(3) The matter submitted under paragraph (2) shall also include any recommendation of the Secretary for consolidation of different requirements for reports, notifications, and studies and a draft of legislation to implement any changes in law recommended by the Secretary.

(c) PARTIAL TERMINATION OF PROGRAMS ON LIST.—Except as provided in subsection (d), effective as of the end of the first session of the 100th Congress, each provision of law shown on the list submitted under subsection (b) that is contained in title 10, 32, or 37, United States Code, or in any Act authorizing appropriations or making appropriations for military functions of the Department of Defense (including military construction and military family housing functions) and that is recommended by the Secretary of Defense under subsection (b)(2)(D) to be repealed shall not be effective to the extent such provision requires the submission in writing of a report, notification, or study shown on the list.

(d) EXCEPTIONS.—Subsection (c) shall not apply to any provision of law enacted on or after the date of enactment of this Act or to any provision of law that requires the submission of the following reports, notifications, and studies:

(1) The annual reports, statements, and recommendations required by section 133(c) of title 10, United States Code, relating to the accomplishments of the Department of Defense.

(2) The annual report required by section 133(e) of such title, relating to foreign policy, major military missions, and military force structure.

(3) The reports required by subsection (b)(5) of section 136a of such title and the annual report required by subsection (g) of such section, relating to operational test and evaluation activities.

(4) The annual report required by section 133a of such title, relating to North Atlantic Treaty Organization readiness.

(5) The reports required by section 1464(c) of such title, relating to the status of the Department of Defense Military Retirement Fund.

(6) The annual report required by section 2208(k) of such title, relating to the condition and operation of working-capital funds.

(7) The notifications required by section 2233a(a)(1) of such title, relating to expenditures and contributions for acquisition of facilities for reserve components.

(8) The notifications required by section 2304(c)(7) of such title, relating to the use of procurement procedures other than competitive procedures.

(9) The notifications required by section 2306(h)(3) of such title, relating to cancellation ceilings in certain multiyear contracts.

(10) The annual report required by section 2313(d)(4) of such title, relating to subpoenas issued by the Director of the Defense Contract Audit Agency to obtain contractor records.

(11) The annual report required by section 2349 of such title, relating to North Atlantic Treaty Organization acquisition and cross-servicing agreements.

(12) The semiannual report required by section 2357 of such title, relating to contracts in excess of $50,000 entered into by the military departments for research and development.

(13) The notifications required by section 2394(b)(2) of such title, relating to contracts for energy or fuel.

(14) The annual report required by section 2397(e) of such title, relating to the names of certain employees and former employees of defense contractors.

(15) The notifications required by clauses (B) and (C) of section 2401(b)(1) of such title, the cost analyses required by section 2401(e)(1) of such title, and the reports required by section 2401(e)(2) of such title, all relating to the long-term lease or charter of vessels and aircraft by the military departments.

(16) The notifications required by subsection (e)(1) of section 2403 of such title and the annual report required by subsection (e)(2) of such section, relating to waivers of certain requirements for contractor guarantees.

(17) The notifications required by paragraphs (1) and (2) of section 2407(d) of such title, relating to certain contracts awarded by the Department of Defense in connection with North Atlantic Treaty Organization cooperative agreements.

(18) The annual report required by section 2457(d) of such title, relating to the policy to standardize equipment, ammunition, and fuel procured for the use of United States military forces stationed in Europe under the North Atlantic Treaty.

(19) The reports required by subsection (a) or (e) of section 2662 of such title and the annual report required by subsection (b) of such section, relating to certain real property transactions.

(20) The proposals referred to in section 2667a(b)(1) of such title, relating to sale and replacement of nonexcess real property.

(21) The notifications required by section 2672(b) of such title, relating to acquisitions of interests in land for more than $100,000.

(22) The notifications required by section 2676(d) of such title, relating to reductions in scope and increases in cost of a land acquisition.

(23) The notifications required by section 2687(b) of such title, relating to base closures and realignments.

(24) The annual report required by section 2779(b)(4) of such title, relating to the use of funds appropriated for the elimination of certain losses caused by fluctuations in currency exchange rates of foreign countries.

(25) The reports required by section 133b of such title, relating to sales or transfers of certain defense articles.

(26) The reports required by section 2803(b) of such title, relating to emergency military construction projects carried out under section 2803 of such title.

(27) The reports required by section 2804(b) of such title, relating to military construction projects not authorized by law.

(28) The notifications required by paragraphs (2) and (3) of section 2805(b) of such title, relating to minor construction in connection with certain relocations of activities from one installation to another.

(29) The reports required by section 2806(c)(2) of such title, relating to contributions for North Atlantic Treaty Organization Infrastructure.

(30) The notifications required by subsection (b) of section 2807 of such title and the reports required by subsection (c) of such section, relating to architectural and engineering services and construction design in connection with military construction or military family housing projects.

(31) The notifications required by section 2808(b) of such title, relating to military construction projects in the event of a declaration of war or national emergency.

(32) The justifications and economic analyses required by section 2809(a)(4) of such title, relating to long-term contracts for the construction, management, and operation of certain facilities.

(33) The notifications and justifications required by section 2823(b) of such title, re-

lating to disagreements on the availability of suitable alternative housing at locations in the United States where family housing is proposed to be constructed.

(34) The notifications required by section 2827(b) of such title, relating to relocation of military family housing units.

(35) The economic analyses required by section 2828(g)(6)(A) of such title, relating to leasing military family housing facilities.

(36) The notifications required by section 2834(b) of such title, relating to agreements with the Secretary of State for the use of Department of State housing and related services by Department of Defense personnel.

(37) The notifications required by subsections (d) and (e) of section 2853 of such title, relating to reductions in the scope of work or increases in the cost of military construction projects.

(38) The notifications required by section 2854(b) of such title, relating to repair, restoration, or replacement of damaged or destroyed military facilities.

(39) The annual request required by section 2859 of such title, relating to military construction authorizations.

(40) The annual report required by section 2861(a) of such title, relating to military construction activities and military family housing activities.

(41) The annual report required by section 138(c)(3) of such title, relating to military and civilian personnel and strength levels, certain other manpower requirements, base structures, and certain requirements for and information on officers.

(42) The annual report required by section 138(d)(2) of such title, relating to average student training loads.

(43) The annual report required by section 138(e) of such title, relating to operations and maintenance.

(44)(A) The annual and supplemental reports required by section 139 of such title, relating to weapons development and procurement schedules, including the matter required by section 53(b) of the Arms Export Control Act (95 Stat. 1524; 22 U.S.C. 2795b(b)) to be included in such annual reports.

(B) The Selected Acquisition Reports required by section 139a of such title. The notifications in lieu of such supplemental reports under subsection (b) of such section.

(46) The notifications required by subsection (d)(3) of section 139b of such title and reports required by subsection (e) of such section, relating to increases in program acquisition unit costs and procurement unit costs of certain major defense acquisition programs.

(47) The notifications required by section 7307(b)(2) of such title, relating to the disposition of naval vessels to foreign nations.

(48) The quarterly report required by section 7434 of title 10, United States Code, relating to the production from the naval petroleum reserve.

(49) The annual report required by section 406(i) of title 37, United States Code, relating to dependents accompanying members of the Armed Forces stationed outside the United States.

(50) The statements and quarterly report required by subsections (c) and (e) of section 709 of the Department of Defense Appropriation Authorization Act, 1975 (88 Stat. 408; 50 U.S.C. App. 2403-1(e)), relating to the export of certain goods, technology, and industrial techniques.

(51) The notifications, summaries, certifications, and reports required by subsections (a), (b), and (c) of section 502 of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note), relating to conversion of performance of commercial and other type functions from Department of Defense personnel to private contractors.

(52) The notifications required by section 1201(c) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 678), relating to transfers of amounts of authorizations.

(53) The reports and assessments required by section 1231 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 693), relating to certain intercontinental ballistic missile systems.

(54) The reports required by section 307(b)(3) of the Department of Defense Authorization Act, 1985 (98 Stat. 2515; 10 U.S.C. 2304 note), relating to waivers of a prohibition on contracting out certain logistics activities.

(55) The annual report required by section 1002(d)(1) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22 U.S.C. 1928 note), relating to the supply of munitions and certain aircraft facilities in support of the North Atlantic Treaty Organization.

(56) The annual report required by section 1002(d)(2) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22 U.S.C. 1928 note), relating to the status and cost of the United States commitment to the North Atlantic Treaty Organization and certain activities of other North Atlantic Treaty Organization members.

(57) The annual reports required by subsections (c) and (d) of section 1003 of the Department of Defense Authorization Act, 1985 (98 Stat. 2576; 22 U.S.C. 1928 note), relating to allied contributions to the common defense.

(58) The annual report required by section 1102 of the Department of Defense Authorization Act, 1985 (98 Stat. 2850; 10 U.S.C. 2872 note (formerly 10 U.S.C. 139 note)), relating to the Strategic Defense Initiative and any other antiballistic missile defense program.

(59) The notifications required by section 1501(c) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2626), relating to transfers of amounts of authorizations.

(60) The reports required by section 1536(g) of the Department of Defense Authorization Act, 1985 (98 Stat. 2633; 46 U.S.C. 1120 note), relating to the Commission on Merchant Marine and Defense.

(61) The certification required by section 125(a)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 601), relating to any new contract for the procurement of 5-ton trucks.

(62) The legislative environmental impact statement required by section 209(c) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 610), relating to full-scale development of a small intercontinental ballistic missile or the selection of basing areas for the deployment of such missile.

(63) The certification required by section 222 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 613), relating to termination of a prohibition of deployment of a strategic defense system.

(64) The reports required by section 223 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 613), relating to the Strategic Defense Initiative.

(65) The quarterly reports required by section 502(c) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 621), relating to the obligation of funds appropriated for civilian personnel.

(66) The report required by section 1002 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 705), relating to Soviet compliance with arms control commitments.

(67) The annual report required by section 1221(d)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 727), relating to a research program to support the polygraph activities of the Department of Defense.

(68) The annual reports required by section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745); relating to unobligated balance in appropriation accounts.

(69)(A) The certifications required by subsections (b) and (c)(2) of section 1411 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), relating to the procurement or assembly of binary chemical weapons.

(B) The report required by subsection (e) of such section, relating to consultations among North Atlantic Treaty Organization member nations concerning North Atlantic Treaty Organization's chemical deterrent posture.

(70) The annual reports required by section 704 of the Military Construction Authorization Act, 1982 (Public Law 97-99; 95 Stat. 1377), relating to contracts for construction in the United States and its possessions.

(71) The economic analyses required by section 802(d)(1) of the Military Construction Authorization Act, 1984 (97 Stat. 784; 10 U.S.C. 2821 note), relating to proposed military housing rental guarantee agreements.

(72) The notifications required by section 803(b)(2) of the Military Construction Authorization Act, 1984 (97 Stat. 785; 10 U.S.C. 2821 note), relating to waivers of a requirement to use manufactured or factory-built housing fabricated in the United States by a United States contractor for military family housing construction in foreign countries.

(73) The report required by section 840(d) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 998), relating to the sale of land at Fort Jackson, South Carolina.

(74) The notifications required by the proviso in section 8005(m) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473 (98 Stat. 1923)), relating to unusual cost overruns incident to overhaul, maintenance, and repair for certain ships.

(75) The annual report required by section 8104(b) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473; (98 Stat. 1942)), relating to consultations with members of common defense alliances concerning Strategic Defense Initiative research.

(76) The notifications required by section 8020 or 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; (99 Stat. 1206)), relating to transfers of working capital funds.

(77) The notifications required by section 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; (99 Stat. 1206)), relating to the obligation of working capital funds to procure war reserve material inventory.

*(78) The notifications required by section 8042 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1210)), relating to the availability of appropriated funds for intelligence or special activities different from activities justified to the Congress.*

*(79) The notification required by section 8075 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1214), relating to the acquisition of certain types of weapons, subsystems, and munitions of European North Atlantic Treaty Organization manufacture.*

*(80) The certification required by section 8097 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1219), relating to the obligation or expenditure of funds to carry out a test of the Space Defense System (anti-satellite weapon) against an object in space.*

*(81) The annual report required by the third proviso in the undesignated paragraph under the heading "FOREIGN CURRENCY FLUCTUATION, CONSTRUCTION, DEFENSE" in the Military Construction Appropriation Act, 1980 (Public Law 96-130; 93 Stat. 1019), relating to transfers of appropriated funds to eliminate losses in military construction or expenses of family housing caused by fluctuations in foreign currency exchange rates of foreign countries.*

*(82) The reports required by section 125(a) of the Military Construction Appropriations Act, 1985 (as contained in section 101(e) of Public Law 98-473; 98 Stat. 883), relating to terminations of a prohibition on the availability of appropriated military construction funds to foreign governments ineligible to receive such funds by reason of inadequate drug control measures.*

*(83)(A) The semiannual report required by section 5(b) of the Inspector General Act of 1978 (5 U.S.C. App. 3), relating to activities of the Inspector General of the Department of Defense.*

*(B) The reports required by section 5(d) of such Act (5 U.S.C. App. 3), relating to particular cases of problems, abuses, or deficiencies which have come to the attention of the Inspector General of the Department of Defense.*

*(C) The statements required by paragraphs (3) and (4) of section 8(b) of such Act (5 U.S.C. App. 3), relating to the exercise of certain authority of the Secretary of Defense with respect to the activities of the Inspector General of the Department of Defense.*

*(84) The requirement to furnish information and to report to Congress concerning intelligence activities as provided in title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.).*

*(85) Reports and information required to be furnished under the following provisions of law:*

*(A) Section 1601(e) of title 10, United States Code, relating to the Defense Intelligence Senior Executive Service.*

*(B) Section 1604(e) of title 10, United States Code, relating to termination of certain Defense Intelligence Agency personnel.*

*(C) Section 1605 of title 10, United States Code, relating to benefits and allowances for certain Defense Intelligence Agency civilian personnel.*

*(D) Section 431 of title 37, United States Code, relating to benefits and allowances for certain military personnel assigned to the Defense Intelligence Agency.*

*(e) CHANGE FROM QUARTERLY TO ANNUAL REPORT.—Section 406(i) of title 37, United States Code, is amended—*

*(1) by striking out "quarter" in the matter preceding clause (1); and*

*(2) by striking out "quarter" in clauses (1) and (2) and inserting in lieu thereof "fiscal year".*

## *TITLE VI—JOINT CHIEFS OF STAFF*

### *SEC. 601. CHAIRMAN OF JOINT CHIEFS OF STAFF TO BE PRINCIPAL MILITARY ADVISER.*

*(a) ROLE OF CHAIRMAN AS HEAD OF JCS AND PRINCIPAL MILITARY ADVISER.—(1) Subsections (a) and (b) of section 141 of title 10, United States Code, are amended to read as follows:*

*"(a) There are in the Department of Defense the Joint Chiefs of Staff, headed by the Chairman of the Joint Chiefs of Staff. In addition to the Chairman, the Joint Chiefs of Staff consist of the following:*

*"(1) The Chief of Staff of the Army.*

*"(2) The Chief of Naval Operations.*

*"(3) The Chief of Staff of the Air Force.*

*"(4) The Commandant of the Marine Corps.*

*"(b) The Chairman of the Joint Chiefs of Staff is the principal military adviser to the President, the National Security Council, and the Secretary of Defense. The Joint Chiefs of Staff, as a body, shall provide advice to the President and the Secretary of Defense on matters with respect to which such advice is requested.".*

*(2) Subsection (c) of such section is amended—*

*(A) by striking out the matter preceding clause (1) and inserting in lieu thereof the following:*

*"(c) Subject to the overall authority and direction of the President and the Secretary of Defense, the Chairman (in consultation, as appropriate, with the other members of the Joint Chiefs of Staff and with the commanders of the unified and specified commands) shall—";*

*(B) by striking out "and" at the end of paragraph (7);*

*(C) by redesignating paragraph (8) as paragraph (9); and*

*(D) by inserting after paragraph (7) the following new paragraph (8):*

*"(8) submit program recommendations and budget proposals to the Secretary during each budget cycle based on—*

*"(A) guidance provided by the Secretary;*

*"(B) program and budget proposals submitted by the commanders of the unified and specified combatant commands; and*

*"(C) recommendations (as appropriate) submitted by the military departments and other components of the Department of Defense; and".*

*(b) CHAIRMAN TO FORWARD JCS ADVICE.—Section 142(b)(3) of such title is amended by striking out "of those issues upon which the Joint Chiefs of Staff have not agreed" and inserting in lieu thereof "of the military advice of the Joint Chiefs of Staff as a body on those matters with respect to which such advice is requested by the President or the Secretary of Defense (including advice on those matters on which the members of the Joint Chiefs of Staff have not agreed)".*

*(c) ADVICE CONCERNING ESTABLISHMENT OF COMBATANT COMMANDS.—Section 124(a) of such title is amended by inserting "of the Chairman" after "advice and assistance".*

*(d) CONFORMING AMENDMENT.—Section 5081(d) of such title is amended by striking out "to the President and".*

### *SEC. 602. RIGHT OF INDIVIDUAL MEMBERS OF JCS TO PROVIDE SEPARATE VIEWS.*

*Section 141(d) of title 10, United States Code, is amended—*

*(1) by inserting "(1)" after "(d)"; and*

*(2) by adding at the end thereof the following new paragraph:*

*"(2) A member of the Joint Chiefs of Staff other than the Chairman may submit to the Secretary of Defense any opinion in disagreement with military advice of the Chairman or of the Joint Chiefs of Staff. The Chairman shall submit to the Secretary of Defense any opinion by another member of the Joint Chiefs of Staff in disagreement with military advice of the Chairman that is submitted to the Secretary. Any such opinion in disagreement shall accompany such military advice. If that military advice is submitted to the President, such opinion in disagreement shall be submitted with such military advice. After first informing the Secretary of Defense, such a member of the Joint Chiefs of Staff may submit to the President any opinion in disagreement with military advice of the Chairman or of the Joint Chiefs of Staff.".*

### *SEC. 603. CHAIN OF COMMAND.*

*Section 142(c) of title 10, United States Code, is amended—*

*(1) by inserting "(1)" after "(c)"; and*

*(2) by adding at the end thereof the following new paragraph:*

*"(2) The President or Secretary of Defense may direct that the national military chain of command runs to the commanders of the unified and specified combatant commands through the Chairman.".*

### *SEC. 604. SUPERVISION OF COMBATANT COMMANDS.*

*Section 124(c)(2) of title 10, United States Code, is amended by striking out "acts as the spokesman for the commanders of the combatant commands" and inserting in lieu thereof "supervises the commanders of the combatant commands and acts as their spokesman".*

### *SEC. 605. TERM OF CHAIRMAN.*

*(a) EXTENSION OF TERM TO FOUR YEARS.—Section 142(a) of title 10, United States Code, is amended—*

*(1) by inserting "(1)" after "(a)";*

*(2) by striking out "for a term of two years,"; and*

*(3) by adding at the end thereof the following new paragraphs:*

*"(2) Except as provided in paragraph (3), the Chairman serves for a term of four years.*

*"(3) In the event of the death, retirement, resignation, or reassignment of the officer serving as Chairman before the end of the term for which the officer was appointed, an officer appointed to fill the vacancy shall serve as Chairman only for the remainder of the original term.".*

*(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to appointments to the position of Chairman of the Joint Chiefs of Staff made on or after the date of the enactment of this Act, except that the first such appointment made on or after the date of the enactment of this Act shall be for a term ending on June 30, 1990.*

### *SEC. 606. DEPUTY CHAIRMAN.*

*(a) ESTABLISHMENT OF POSITION OF DEPUTY CHAIRMAN.—(1) Chapter 5 of title 10, United States Code, is amended by inserting after section 142 the following new section:*

***"§ 142a. Deputy Chairman***

*"(a)(1) There is a Deputy Chairman of the Joint Chiefs of Staff. The Deputy Chairman*

*shall be appointed by the President, by and with the advice and consent of the Senate, from the officers of the regular components of the armed forces.*

*"(2) The Chairman and Deputy Chairman may not be members of the same armed force. However, the Secretary of Defense may waive the limitation in the preceding sentence for a limited period of time.*

*"(3) The Deputy Chairman serves at the pleasure of the President for a term of four years and may be reappointed in the same manner for one additional term. However, in time of war declared by Congress there is no limit on the number of reappointments.*

*"(b)(1) The Deputy Chairman exercises such duties as may be delegated by the Chairman with the approval of the Secretary of Defense.*

*"(2) When there is a vacancy in the office of Chairman or in the absence or disability of the Chairman, the Deputy Chairman acts as Chairman and performs the duties of the Chairman until a successor is appointed or the absence or disability ceases.*

*"(c) The Deputy Chairman is the director of the Joint Staff.*

*"(d) The Deputy Chairman may attend all meetings of the Joint Chiefs of Staff but may not vote on a matter before the Joint Chiefs of Staff except when acting as Chairman.*

*"(e) The Deputy Chairman, while so serving, holds the rank of general or, in the case of an officer of the Navy, admiral and outranks all other officers of the armed forces except the Chairman. The Deputy Chairman may not exercise military command over the Joint Chiefs of Staff or over any of the armed forces.".*

*(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 142 the following new item:*

*"142a. Deputy Chairman.".*

*(b) EXEMPTION FROM GRADE LIMITATIONS.—Section 525(b)(3) of such title is amended by inserting "or Deputy Chairman" after "Chairman".*

*(c) CONFORMING AMENDMENT.—Subsection (b) of section 143 of such title is repealed.*

*SEC. 607. JOINT STAFF.*

*(a) JOINT STAFF TO BE UNDER THE CHAIRMAN.—Subsection (a) of section 143 of title 10, United States Code, is amended by inserting "Chairman of the" after "There is under the".*

*(b) MANAGEMENT OF JOINT STAFF.—(1) Subsection (c) of such section is redesignated as subsection (b) and is amended to read as follows:*

*"(b) The Joint Staff shall perform such duties as the Chairman prescribes.".*

*(2) Subsection (d) of such section is redesignated as subsection (c) and is amended by striking out "Joint Chiefs of Staff in discharging their" and inserting in lieu thereof "Chairman in discharging his".*

*(c) TENURE OF MEMBERS OF JOINT STAFF.—Subsection (e) of such section is redesignated as subsection (d) and is amended by inserting after the first sentence the following new sentence: "Such a tour of duty, however, may be extended with the approval of the Secretary of Defense.".*

*(d) OPERATION OF JOINT STAFF.—Such section is further amended by adding at the end thereof the following new subsection (e):*

*"(e) The Secretary of Defense shall ensure that the Joint Staff is independently organized and operated so that the Joint Staff, and the members of the Joint Staff, support the Chairman of the Joint Chiefs of Staff in meeting the congressional purpose set forth in the last clause of section 2 of the National Security Act of 1947 (50 U.S.C. 401) to provide—*

*"(1) for the unified strategic direction of the combatant forces;*

*"(2) for their operation under unified command; and*

*"(3) for their integration into an efficient team of land, naval, and air forces.".*

*SEC. 608. CONSIDERATION OF JOINT SERVICE IN SENIOR GENERAL AND FLAG OFFICER APPOINTMENTS.*

*Section 601 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:*

*"(d) In the case of an officer who is selected for recommendation to the President for an initial appointment to the grade of lieutenant general or vice admiral, or to the grade of general or admiral, the Chairman of the Joint Chiefs of Staff shall submit to the President the evaluation of the Chairman of the performance of that officer as a member of the Joint Staff and in other assignments involving joint military experience. Such recommendation shall be submitted to the President at the same time as the submission of the recommendation for the appointment.".*

*SEC. 609. PARTICIPATION IN NATIONAL SECURITY COUNCIL MEETINGS.*

*Section 101 of the National Security Act of 1947 (50 U.S.C. 402) is amended by adding at the end thereof the following new subsection:*

*"(e) The Chairman (or in his absence the Deputy Chairman) of the Joint Chiefs of Staff shall, subject to the direction of the President, attend meetings of the National Security Council and may, as directed by the President, participate in its deliberations.".*

*SEC. 610. REPORT TO CONGRESS ON PLANS FOR FURTHER IMPROVEMENTS.*

*(a) REQUIREMENT FOR REPORT.—The Secretary of Defense shall submit to Congress a report containing plans for the manner in which the matters described in subsection (b) could be implemented.*

*(b) MATTERS FOR WHICH PLANS TO BE DEVELOPED.—The matters referred to in subsection (a) are the following:*

*(1) Creation of a joint specialty for officers within each of the Armed Forces, including—*

*(A) measures to ensure the preferential selection for duty in joint assignments of officers with such a joint specialty;*

*(B) means to provide a role for the Chairman of the Joint Chiefs of Staff in the consideration and selection for promotion of officers who have served on the Joint Staff or in other joint positions; and*

*(C) procedures to ensure the representation of officers serving in joint positions on each promotion board considering officers for selection for promotion to a grade above the grade of lieutenant colonel or, in the case of the Navy, the grade of commander.*

*(2) Modifications to administrative directives in effect on the date of the enactment of this Act in order to specify that the military chain of command runs from the President to the Secretary of Defense and from the Secretary of Defense through the Chairman of the Joint Chiefs of Staff to the commanders of the unified and specified combatant commands.*

*(3) Provision for a program and budget for each of the unified and specified combatant commands—*

*(A) separate from the programs and budgets of the military department and other elements of the Department of Defense; and*

*(B) developed and administered by the commanders of those commands under the supervision of the Chairman.*

*(4) Establishment of procedures under which the Chairman (with the support of the Joint Staff and the advice of the other members of the Joint Chiefs of Staff) may recommend to the Secretary of Defense a force posture and five-year defense program to achieve national security objectives within the policy and budgetary guidelines established by the President and Secretary of Defense.*

*(5) Establishment of procedures for periodic submission to the President and Secretary of Defense by the Chairman of a report containing the Chairman's recommendations for such modifications to the unified command plan as the Chairman considers to be required to ensure that the combatant commands are properly structured to contribute to achieving national objectives, with each such report to be preceded by the formal review of—*

*(A) the international situation as it relates to United States theater forces; and*

*(B) the adequacy of the existing structure of the combatant commands, in responding to these conditions, to provide for the unified and strategic direction of the combatant forces, for their operation under unified command, and for their integration into an efficient team of land, naval, and air forces, in accordance with the congressional purpose set forth in the last clause in section 2 of the National Security Act of 1947 (50 U.S.C. 401).*

*(6) Establishment within the Joint Staff of a directorate of net assessment reporting directly to the Chairman to furnish him the necessary staff expertise to render his independent judgment on the capabilities of United States forces to successfully execute combat operations under unified command.*

*(c) DEADLINE FOR REPORT.—The report required by this section shall be submitted not later than six months after the date of the enactment of this Act.*

*In lieu of the Senate amendment to the title of the bill, amend the title so as to read: "An Act to amend title 10, United States Code, to reorganize the Department of Defense.".*

Mr. NICHOLS [during the reading]. Mr. Speaker, I ask unanimous consent that the Senate amendments and the House amendments to the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. GLICKMAN). Is there objection to the request of the gentleman from Alabama?

Mr. WHITEHURST. Mr. Speaker, reserving the right to object, I shall not object, but I take this time to yield to the gentleman from Alabama [Mr. NICHOLS] and allow him to explain the purpose of his unanimous-consent request.

Mr. NICHOLS. Mr. Speaker, I thank the gentleman for yielding.

As the gentleman knows, the House passed the Joint Chiefs of Staff Reorganization Act, H.R. 3622, last November 20 by a vote of 383 to 27.

The JCS bill, as amended, was passed by the Senate on May 7 by a vote of 95 to 0. The Senate amendment expanded the scope of the House

bill to include all major elements of the Department of Defense.

Last Tuesday, August 5, by a vote of 406 to 4, the House approved my amendment to the Department of Defense reorganization bill that would reorganize the Department of Defense. My amendment, and the House JCS bill, taken together, constitute a comprehensive reform of the Department of Defense of comparable scope to the Senate amendment to H.R. 3622 which is now at the Speaker's table. The rule on the Department of Defense Authorization Act would allow, after passage of the Department of Defense authorization bill this coming Thursday, a motion that would have the effect of amending the Senate amendment to the House JCS bill with the original text of the JCS bill and the DOD reorganization amendment that passed last week. The motion allowed by the rule would further allow a request for a conference with the Senate.

It is my intention with this unanimous-consent request and three others to follow to effect the procedure set out in the rule. If the House accepts my request, we will gain almost an entire week of work in conference on this important legislation. It is now a foregone conclusion that what I am asking to be done now will be done in any case by this House on Thursday. But that time, however, it will be too late to convene a conference and accomplish any meaningful work before the recess.

The amendments that I have placed at the desk consist of the text of the JCS bill passed by the House and the amendment to the Defense authorization bill that was accepted on Tuesday with one exception: Both pieces of legislation contained language that would create a Deputy Chairman of the JCS. The amendments at the desk contain only the language accepted by the House last Tuesday.

□ 1220

Mr. WHITEHURST. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. GLICKMAN). Is there objection to the request of the gentleman from Alabama?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Alabama?

There was no objection.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3622

Mr. NICHOLS. Mr. Speaker, I ask unanimous consent that the House insist on its amendments to the Senate amendments to the bill, H.R. 3622, and request a conference with the Senate thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama? The Chair hears none and, without objection, appoints the following conferees: Messrs. ASPIN, NICHOLS, SKELTON, MAVROULES, DICKINSON, HOPKINS, and KASICH.

There was no objection.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Wednesday, August 13, 1986.

## INDIAN SELF-DETERMINATION AMENDMENTS OF 1986

Mr. UDALL. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4174) to amend the Indian Self-Determination Act of 1974, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4174

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this act may be cited as the "Indian Self-Determination Amendments of 1986."

SEC. 2. (a) The Congress finds that:

(1) the Indian Self-Determination and Education Assistance Act of 1975, P.L. 93-638, 25 U.S.C. §§ 450, et seq., (the "Act") has furthered the development of local self-government and education opportunities for Indian tribes but its goals and progress have been impeded by lack of clarity and direction on the part of Federal agencies regarding their roles in implementing the Federal policy of Indian self-determination;

(2) the Federal responsibility for welfare of Indian tribes demands effective self-government by Indian tribal communities; and

(3) additional legislation is necessary to assure that Indian tribes have an effective voice in the planning and implementation of programs for the benefit of Indians.

SEC. 3. Section 4 of the Act is amended as follows:

(1) In subsection (b), after the words "village corporation" add "or regional association".

(2) At the end of subsection (c), replace the semi-colon by a colon and add the following:

"Provided, That in areas where the Indian Health Service has no direct care facilities and the tribes are served by a tribal organization, such tribal organization shall be eligible to receive a contract under the authority of this Act if it has the approval of each tribe it proposes to serve.

(3) Resignate subsection (f) as subsection (e) and add the following new subsection.

"(f) Construction means the planning, design, construction, repair, improvement, and expansion of buildings or facilities including, but not limited to, housing, sanitation, roads, schools, administration and health facilities, irrigation and agricultural and works and water conservation, flood control, or port facilities.".

(4) Add the following new subsection (g):

"(g) Contract Support Costs means reasonable costs for activities which must be carried on by a tribal organization as a contractor under the Act to ensure compliance with the terms of the contract and prudent management but which (i) normally are not carried on by the respective Secretary in his direct operation of the program or (ii) are provided by the Secretary in support of the contracted program from resources other than those under contract.".

SEC. 4. Subsection (a) of section 102 is amended by inserting the words "including construction programs" after the words "administer programs" and by inserting after the words "subsequent thereto" the following:

"including (i) any program or portion thereof, including construction program, administered by the Secretary for the benefit of Indians for which appropriations are made to agencies other than the Department of the Interior, and (ii) any program, or portion thereof, for the benefit of Indians without regard to the agency or office of the Department of the Interior within which it is performed;".

SEC. 5. (a) Subsection (a) of section 103 of the Act is amended by inserting after the words "as amended" a comma and the following:

"or any program, or portion thereof, which the Secretary is authorized to administer for the benefit of Indians including (i) any such program, or portion thereof for which appropriations are made to agencies other than the Department of Health and Human Services and (ii) any such program, or portion thereof, without regard to the agency, or office within which it is performed within the Department of Health and Human Services".

(b) Subsection (c) of section 103 of the Act is amended to read as follows:

"(c) Notwithstanding the provisions of section 2671, title 28, any tribal organization which has entered into a contract, grant or cooperative agreement with the Secretary of Health and Human Services shall be treated as an agency within the Department of Health and Human Services for purposes of the Federal Torts Claims Act with respect to any tort arising out of its performance of such contract, grant or cooperative agreement. For purposes of this subsection and the Federal Tort Claims Act, the Secretary of Health and Human Services is designated as the head of the agency within the meaning of section 2672, title 28.".

SEC. 6. Subsection (e) of section 105 of the Act is amended by deleting the words "on or before December 31, 1985.".

SEC. 7. (a) Subsection (a) of section 106 of the Act is amended by changing the period at the end thereof to a colon and adding the following:

*"Provided further,* That any request by an Indian tribe or tribal organization for a waiver of such laws or regulations or other regulations of the appropriate Secretary shall be granted unless declined in accordance with the criteria provided in section 102 or 103 of this Act and under the procedures established by regulations for the declination of tribal requests under such sections."

(b) Subsection (e) of section 106 of the Act is further amended by changing the period at the end of the sentence to a colon and inserting in lieu the following: *"Provided,* That at his discretion, the appropriate Sec-

retary may transfer the title to the Indian tribes to any personal property found to be in excess to the need of the Bureau of Indian Affairs or Indian Health Service.".

SEC. 8. Section 106 of the Act is amended by changing subsection (h) to read as follows:

"(h)(1) The amount of funds provided under the terms of contracts entered pursuant to this Act shall be no less than appropriate Secretary would have otherwise provided for his direct operation of the programs or portion thereof for the period covered by the contract: *Provided*, That—

"(i) for other than school or education programs, to such amount shall be added contract support costs which shall be negotiated with each contractor annually and which shall include costs attributable to all non-school or non-education programs for which the tribal organization has contracted pursuant to sections 102 and 103 of this Act, and

"(ii) for school and education programs, the Secretary of the Interior shall adopt regulations establishing a formula for determining the amount of administrative overhead costs necessary to sustain the administration of such programs. This formula shall among others, include such factors as school enrollment, education program scope, organization and administrative plans, support services plan, size of facilities, size or area within the school's service area boundaries, isolation, unique regional costs, presence of non-educational programs, personnel training plan, and the allowable indirect costs standards. Funds for administrative overhead costs allocated by this formula shall be promptly added to each contract.

"(2) Once contract obligations are negotiated, the contract amount may be increased or decreased only with the consent of the contractor to reflect an increase or decrease in the level of appropriations.

"(3) Any savings in operation or administration of such contract shall be utilized to provide additional services or benefits under the contract and may be carried over to the succeeding fiscal year without any reduction in the funding to which the contractor is otherwise entitled. Grounds for declining to carry over such saving shall be limited to those grounds specified in sections 102 and 103 of the Act.

"(4) At the request of any Indian tribe, the appropriate Secretary shall disclose the most current amount of funding planned, obligated and expended for any program, or portion thereof, administered for the benefit of such tribe down to the fourth level of each agency's accounting system.

"(5) The appropriate Secretary shall include in annual budget requests to the Congress a request for the funds necessary to provide contract support costs for all contracts anticipated in the fiscal period covered by the request and shall provide a supplemental report to the Congress on or before June 15th of each year identifying any deficiency of funds requested below estimated needs.".

SEC. 9. Section 106 of the Act is further amended by adding the following new subsection (i):

"(i) The appropriate Secretary shall insure the responsive and efficient consideration of tribal requests under section 102, 103 and 104 of the Act by designating an official within the Bureau of Indian Affairs or the Indian Health Service, as appropriate, to supervise the review of applications and the negotiations, award and monitoring of contracts, grants or cooperative agreements by the appropriate agency. These two officials shall be charged with the duty to further the purposes of this Act. The appropriate Secretary shall also delegate to such official the authority to review, at the request of the contractors, decisions to decline such contract, grant or cooperative agreement applications subject to the right of any applicant to an appeal and hearing as provided in this Act.".

SEC. 10. Title I of the Act is amended by adding a new section 111 as follows:

"SEC. 111. (a) The appropriate Secretary shall designate officials who are not employed by the Bureau of Indian Affairs or the Indian Health Service for the purpose of conducting hearings in declination appeals.

"(b) Appeals and hearings on any declination to contract based on insufficient funding shall be conducted under the same procedures as apply in the case of other declinations.

"(c) The appropriate agency shall give notice of any disallowance of costs within 365 days of receiving any required audit report and shall provide for an appeal and hearing to the appropriate officials on any such disallowance. Any right of action or other remedy relating to any such disallowance shall be barred unless notice has been given within the designated period.".

"SEC. 11. Title 1 of this Act is further amended by adding a new section 112 as follows:

"SEC. 112. All contracts, grants and cooperative agreements entered into or issued pursuant to this Act shall be subject to the Contract Dispute Act of 1978, P.L. 95-563.".

SEC. 12. Title 1 of the Act is further amended by adding a new section 113 as follows:

"SEC. 113. Whenever an indirect cost rate is negotiated annually between a tribe or tribal organization and the cognizant federal agency, that rate shall be applicable to all contracts and grants made with such tribe or tribal organization pursuant to sections 102, 103 and 104 of this Act. If not otherwise specifically prohibited by any other provisions of law, such rate shall be applicable to any other federal program administered by such tribe or tribal organization, and each federal agency responsible for such program shall apply such negotiated indirect cost rate and pay the full indirect costs incurred by the tribe or tribal organization in connection with the administration of such program. Whenever, in any fiscal year, a tribe or tribal organization does not receive full payment of its indirect costs from any federal, state or other entity funding a program, such lack of full payment shall not be considered in determining the Federal indirect cost rate for the subsequent fiscal years.".

SEC. 13. Section 8 of the Act is amended by adding after the period, the following sentence:

"In the event such funds are obligated but not expended during such succeeding fiscal year they may be expended during the next succeeding fiscal year. If the funds are to be expended in the succeeding fiscal years for the purpose for which they were originally appropriated, contracted or granted, no additional justification or documentation of such purposes need be provided by the tribal organization to the agency as a condition of receiving and expending such funds. At least 80% of such funds, as determined by the agency and the contractor or grantee, shall be made available on the first day of the succeeding fiscal year.".

The SPEAKER pro tempore. Is a second demanded?

Mr. McCAIN. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Arizona [Mr. UDALL] will be recognized for 20 minutes and the gentleman from Arizona [Mr. MCCAIN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Arizona [Mr. UDALL].

Mr. UDALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4174 is a bill to amend the Indian Self-Determination Act of 1975. The purpose of that act was to promote self-determination for Indian tribes by authorizing them to enter into contracts with Federal agencies for the administration of Federal programs.

Since the act was passed, Indian tribes have encountered many problems in contracting these programs from the Federal agencies. The tribes have complained that the agencies, instead of focusing on self-determination, have mainly attempted to transform the tribes into regular Government contractors. Because the Federal contracting requirements and the bureaucratif regulations are too rigid and burdensome, Indian tribes have not been able to implement their own agenda and priorities for self-determination.

H.R. 4174's intent is to facilitate the contracting process between the tribes and the Federal agencies and to give Indian tribes a stronger voice in their own self-determination.

Mr. Speaker, this bill is widely supported by the Indian community and would resolve many problems encountered by Indian tribes in their effort toward self-determination. I therefore urge my colleagues to vote in favor of H.R. 4174.

Mr. McCAIN. Mr. Speaker, I yield myself such time as I may consume,

Mr. Speaker, I rise in support of H.R. 4174, the Indian Self-Determination Act Amendments of 1986. In 1975, Congress passed the Indian Self-Determination Act—Public Law 93-638—with a stated purpose of encouraging tribes to contract for the administration of programs previously run by the Indian Health Service and the Bureau of Indian Affairs.

H.R. 4174 would clarify and strengthen certain provisions to allow tribes access to other programs, and provide that funding of a program under a 638 contract will be no less than what the appropriate Secretary would have provided for his direct operation of the program. H.R. 4174 is designed to allow tribes a greater voice

in the provision of programs and services to the tribes.

The bill does not contain any new authorizations, and the committee has tried to address the concerns of the Bureau of Indian Affairs, and of the Indian Health Service. This bill has bipartisan support in the Congress, and strong support among Indian tribes. I urge my colleagues to support H.R. 4174.

Mr. UDALL. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. Mr. Speaker, I rise in support of H.R. 4174. I believe that this bill is an important and good one. In the decade since the passage of Public Law 93-638, many tribes have made strong and concerted efforts toward self-determination by contracting for programs which provide services to their people. A great number of the tribes in my district have successfully established such 638 programs. Through the establishment of these programs, a number of problems with the original Public Law 93-638 language have been discovered. This bill addresses these problems and facilitates tribal opportunities to contract for and run successfully contract programs.

At the May hearing on H.R. 4174, representatives of several tribes and tribal enterprises in my district offered their suggestions on improving the language in the original bill. During the Interior Committee markup, an amendment I offered to incorporate these tribal comments was accepted. I feel that H.R. 4174 now addresses the problems and inadequacies in the original Public Law 93-638.

The purpose of this bill is to encourage self-determination by resolving problems with indirect cost determinations and cost overruns. It stipulates that in doing Public Law 93-638 contracts, funds provided by the BIA and the IHS will be no less than the Secretary would use to administer the programs. The bill also states that reasonable support costs must be included when determining amounts needed to run the contract programs. This provision ensures that money intended to be used in the provision of services is used for provision of services and not for "indirect" costs, such as accounting, which must be done to satisfy 638 or agency regulations.

This bill is particularly important now in these times of critical Federal deficits. It is very important that tribes continue to be encouraged to take over programs under Public Law 93-638. This bill will encourage and support tribal efforts to run their own programs by giving them a fair and even chance at doing so. I am pleased to be an original cosponsor of this bill, which will have a positive impact on the tribes in my district. I urge my colleagues to support it.

GENERAL LEAVE

Mr. UDALL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 4174, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

Mr. McCAIN. Mr. Speaker, I yield back the balance of my time.

Mr. UDALL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Arizona [Mr. UDALL] that the House suspend the rules and pass the bill, H.R. 4174, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## FEDERAL LAND EXCHANGE FACILITATION ACT OF 1986

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4814) Entitled the "Federal Land Exchange Facilitation Act of 1986," as amended.

The Clerk read as follows:

H.R. 4814

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Federal Land Exchange Facilitation Act of 1986".

FINDINGS AND PURPOSES

SEC. 2. (a) The Congress finds and declares that—

(1) land exchanges are a very important tool for Federal and State land managers and private landowners to consolidate Federal, State, and private holdings of land or interests in land for purposes of more efficient management and to secure important objectives including the protection of fish and wildlife habitat and aesthetic values; the enhancement of recreation opportunities; the consolidation of mineral and timber holdings for more logical and efficient development; the expansion of communities; the promotion of multiple-use values; and fulfillment of public needs;

(2) needs for land ownership adjustments and consolidation consistently outpace available funding for land purchases by the Federal Government and thereby make land exchanges an increasingly important method of land acquisition and consolidation for both Federal and State land managers and private landowners;

(3) the Federal Land Policy and Management Act of 1976 and other laws provide a basic framework and authority for land exchanges involving lands under the jurisdiction of the Secretary of the Interior and the Secretary of Agriculture; but

(4) such existing laws are in need of certain revisions to streamline and facilitate land exchange procedures and expedite exchange timetables.

(b) The purposes of this Act are to—

(1) facilitate and expedite land exchanges pursuant to the Federal Land Policy and Management Act of 1976 and other laws applicable to exchanges involving the Secretaries of the Interior and Agriculture by:

(A) providing more uniform rules and regulations pertaining to land appraisals which reflect nationally recognized appraisal standards but which also reflect any differences between appraisals of lands and interests being considered for acquisition by the Federal Government and appraisals of lands and interests being considered for transfer out of Federal ownership;

(B) establishing procedures and timetables for the arbitration of appraisal disputes; and

(C) providing to the Secretary having jurisdiction over the Federal land involved unified surveying and other authority for land exchanges; and

(2) provide sufficient resources to the Secretaries of the Interior and Agriculture to insure that land exchange activities can proceed consistent with the public interest.

LAND EXCHANGES AND APPRAISALS

SEC. 3. (a) Section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716) is hereby amended by adding the following new subsections:

"(d)(1) The Secretary of the Interior and the Secretary of Agriculture shall promulgate regulations providing that unless it is mutually agreed otherwise prior to the expiration of ninety days after entering an agreement to initiate an exchange of land or interests therein pursuant to this Act or other applicable law, no later than ninety days after entering into such an agreement the Secretary concerned and the other party or parties involved in the exchange shall arrange for an appraisal of the lands or interests therein involved in the exchange in accordance with subsection (g) of this section.

(2) If within one hundred and eighty days after the submission of an appraisal for review and approval by the Secretary concerned, the Secretary concerned and the party or parties involved cannot agree to accept the findings of the appraisal, the appraisal shall be submitted to an arbitration to be conducted in accordance with the real estate valuation arbitration rules of the American Arbitration Association. Such arbitration shall be binding on the Secretary concerned and the other party or parties involved in the exchange insofar as concerns the value of the lands which were the subject of the appraisal.

(3) Within thirty days after the completion of the arbitration, the Secretary concerned and the party or parties involved in the exchange shall determine whether to proceed with the exchange, modify the exchange to reflect the findings of the arbitration or any other factors, or to terminate the exchange. A decision to terminate the exchange may be made by either the Secretary or the other party or parties involved.

"(4) After submission of an appraisal for review by the Secretary concerned but prior to submission of an appraisal to arbitration pursuant to paragraph (2) of this subsection, if both the Secretary concerned and the other party or parties involved in an exchange determine it is in the best interest of consummating an exchange pursuant to this Act or other applicable law, they may mutually agree to employ a process of bargaining

or some other process (instead of arbitration) to determine the values of the properties involved in the exchange, or they may mutually agree to suspend or modify any of the following:

"(A) The arbitration requirements of this subsection.

"(B) The deadlines for submission of an appraisal to arbitration.

"(C) The deadline for determinations subsequent to completion of an arbitration.

"(e) Notwithstanding any other provision of law, and unless the Secretary or Secretaries involved in an exchange of land or interests therein pursuant to this Act or other applicable law agree otherwise, the Secretary having jurisdiction over Federal land which would be included in such exchange is henceforth authorized to and shall have the responsibility to perform all necessary land surveys. All surveys shall be in accordance with the manual of surveying instructions of the Secretary of the Interior in effect at the time of survey and shall be filed with the Secretary of the Interior.

"(f) Unless mutually agreed otherwise by the Secretary concerned and the other party or parties involved in an exchange pursuant to this Act or other applicable law, all patents or titles to be issued for lands or interests therein to be acquired by the Federal Government and lands or interests therein to be transferred out of Federal ownership shall be issued simultaneously.

"(g)(1) Within one year of the enactment of subsections (d) through (i) of this section, the Secretaries of the Interior and Agriculture shall promulgate new and comprehensive rules and regulations governing exchanges of land and interests therein pursuant to this Act and other applicable law. Such rules and regulations shall fully reflect the changes in law made by subsections (d) through (i) of this section and shall include provisions pertaining to appraisals of lands and interests therein involved in such exchanges.

"(2) The provisions of the rules and regulations issued pursuant to paragraph (1) of this subsection governing appraisals shall reflect nationally recognized appraisal standards, including, to the extent appropriate, The Uniform Appraisal Standards for Federal Land Acquisition: *Provided*, however, That the provisions of such rules and regulations shall—

"(A) Insure that appraisal standards henceforth cover both the acquisition and disposal of land by the Federal government and adequately reflect any differences involved between appraising lands or interests therein being acquired by the Federal government and appraising lands or interests therein being transferred out of Federal ownership; and

"(B) Permit the Secretary to make adjustments to the relative values assigned to properties involved in an exchange in order to reflect the costs (including, but not limited to, such costs as land surveys, mineral examinations, archaeological surveys and salvage, removal of encumbrances, arbitration pursuant to subsection (d) of this section, curing deficiencies preventing highest and best use, and other costs to comply with laws, regulations and policies applicable to exchange transactions), time and other factors necessary to bring the Federal and non-Federal lands or interests therein involved to their highest and best use for the appraisal and exchange purposes.

"(h) Until such time as new and comprehensive rules and regulations governing exchange of land and interests therein are promulgated pursuant to subsection (g) of this section, land exchanges may proceed in accordance with existing laws and regulations, and nothing in this Act shall be construed to require any delay in, or otherwise hinder, the processing and consummation of land exchanges pending the promulgation of such new and comprehensive rules and regulations. Where the Secretary concerned and the party or parties involved in an exchange have agreed to initiate an exchange of land or interests therein prior to the date of enactment of this Act, the time deadlines and other provisions of subsections (d) through (i) of this section shall not apply to such exchanges unless the Secretary concerned and the party or parties involved in the exchange mutually agree otherwise.

"(i)(1) Notwithstanding the provisions of this Act and other applicable laws which require that exchanges of lands or interests therein be for equal value, where the Secretary concerned determines it is in the public interest and that the consummation of a particular exchange will be expedited thereby, the Secretary concerned may exchange lands or interests therein which are of approximately equal value in cases where:

"(A) the combined value of the lands or interests therein to be transferred from federal ownership by the Secretary concerned in such exchange is not more than $150,000; and

"(B) the Secretary concerned finds in accordance with the regulations to be promulgated pursuant to subsection (g) of this section that a determination of approximately equal value can be made without formal appraisals, as based on a certification by a qualified appraiser; and

"(C) the definition of and procedure for determining 'approximately equal value' has been set forth in regulations by the Secretary concerned and the Secretary concerned documents how such determination was made in the case of the particular exchange involved.

(2) As used in this subsection, the term 'approximately equal value' shall have the same meaning as it does in the Act of January 22, 1983 (commonly known as the 'Small Tracts Act').".

(b) The first sentence of section 206(b) (43 U.S.C. 1716(b)) of the Federal Land Policy and Management Act of 1976 is hereby amended by inserting the word "concerned" after the words "the Secretary".

LAND EXCHANGE FUNDING

SEC. 4. In order to ensure that there are increased funds and personnel available to the Secretaries of the Interior and Agriculture to consider, process, and consummate land exchanges pursuant to the Federal Land Policy and Management Act of 1976 and other applicable law, there are hereby authorized to be appropriated for fiscal years 1988 through 1997 an annual amount not to exceed $4,000,000 which shall be used jointly or divided among the Secretaries as they determine appropriate for the consideration, processing, and consummation of land exchanges pursuant to the Federal Land Policy and Management Act of 1976, as amended, and other applicable law. Such moneys are expressly intended by Congress to be an addition to, and not offset against, moneys otherwise annually requested by the Secretaries, and appropriated by Congress for land exchange purposes.

SEC. 5. (a) Section 205 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1715(c)) is amended in the first sentence of subsection (c) by striking out "Lands and interests" and inserting in lieu thereof "Except as provided in subsection (e), lands and interests".

(b) Section 205 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1715(c)) is further amended by adding at the end thereof the following new subsection:

"(e) Lands acquired by the Secretary pursuant to this section or section 206 in exchange for lands which were revested in the United States pursuant to the provisions of the Act of June 9, 1916 (39 Stat. 218) or reconveyed to the United States pursuant to the provisions of the Act of February 26, 1919 (40 Stat. 1179), shall be considered for all purposes to have the same status as, and shall be administered in accordance with the same provisions of law applicable to, the revested or reconveyed lands exchanged for the lands acquired by the Secretary.".

SEC. 6. Nothing in this Act shall be construed as amending the Alaska Native Claims Settlement Act (P.L. 92-203, as amended) or the Alaska National Interest Lands Conservation Act (P.L. 96-487, as amended) or as enlarging or diminishing the authority with regard to exchanges conferred upon either the Secretary of the Interior or the Secretary of Agriculture by either of such Acts.

The SPEAKER pro tempore. Is a second demanded?

Mr. MARLENEE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio [Mr. SEIBERLING] will be recognized for 20 minutes and the gentleman from Montana [Mr. MARLENEE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4814, the Federal Land Exchange Facilitation Act is a modest but, I think, very worthwhile measure.

A number of us, including the gentleman from Colorado [Mr. STRANG] and other members of the committee, introduced the bill in order to streamline some of the procedures now applicable to land exchanges involving the Forest Service or the Department of the Interior.

The bill would not fundamentally revise the legal framework which is already in place for land exchanges. Rather, it is aimed at giving the Interior and Agriculture Departments more usable tools to work out such exchanges. The bill is not premised on any idea that exchanges can be considered an adequate substitute for Federal land purchases for conservation, where authorized by Congress, nor is it a substitute for continued adequate funding for such acquisitions.

However, land exchanges can be a useful option for solving various Federal and private land management

problems and it is my belief that this bill can help in making them an even better instrument for advancing the public interest in appropriate cases.

The bill as reported to the House has been improved through the committee process so as to remove any element of controversy, so far as I am aware.

To briefly summarize, the bill as reported is aimed at facilitating land exchanges by overcoming bottlenecks and roadblocks that now have the effect of impeding the completion of exchanges even in those cases where both the agency and the other party or parties involved wish for the exchange to be consumated.

Nothing in this bill limits the discretion of the landmanaging agencies as to which exchange possibilities they may wish to pursue, or relieves them from the requirement that they determine that a particular exchange would be in the public interest.

The bill would explicitly authorize the Forest Service to do survey work for National Forest lands, but such surveys would have to be done in accordance with the general standards established by the Interior Department. Interior would remain responsible for issuing titles to lands being transferred out of Federal ownership.

The central feature of the bill would be establishment of the general rule that cases of disagreements over the appraised values of lands involved in an exchange would be resolved through arbitration, unless the parties to the exchange agree to proceed otherwise. But such an arbitration, while it would dispose of questions as to the appraised values, would not force either party to go forward with an exchange. After an arbitration, as before, either party could decide not to go forward for whatever reason, and if such a decision was made within the allotted time, the exchange would not occur.

We have also included a number of other provisions suggested by the Department of Agriculture that they believe will be helpful in facilitating exchanges or improved management of the national forests.

Mr. Speaker, as I mentioned, this is a modest but good bill. I believe that it can be a useful refinement of existing law dealing with exchanges, and I urge its passage.

Mr. MARLENEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, when this bill was considered by the Interior Committee I urged a degree of caution. I still have strong reservations about it.

Although the sponsors argue that the bill only makes minor technical adjustments to existing law and regulations, the changes suggested make major philosophical changes in the way exchanges are handled from several points including budgetary, use of Federal land, and from the standpoint of congressional oversight.

I believe some of the concerns of the Forest Service and BLM have been met, but I believe the BLM remains strongly opposed. Their concerns are legitimate and not a turf battle as the chairman of the Public Lands Subcommittee has suggested.

One of their major concerns and one which I share is from a budgetary standpoint. The bill proposes to use Federal land to pay for the costs of exchanges—costs that the private party would otherwise assume. This is because of the difficulty in financing the Federal Government's share of the administrative costs of exchanges through appropriated funds. Under this legislation the agency could take these expenses into account and compensation would be made in land rather than in cash. Obviously the intent is to bypass the budget and appropriations process of the Congress. Further, one could take this idea and use it on countless public land projects and pay for certain projects in land whenever the agency coffers were empty. Basically this means you are giving away or selling off Federal lands to a vested few, those who are involved in the exchange rather than identifying land and opening it up to sale to the general public.

From a congressional standpoint, streamlining a law can have drawbacks that relate to public participation and congressional oversight. If an exchange is truly in the public interest and time factors are involved, the Congress certainly has the right to mandate the exchange and mandate special handling of the exchange.

What is the real purpose of this legislation? If it is to expedite exchanges, there is certainly some question whether it will accomplish much of anything, and may cause more confusion and delay.

The major holdup in exchanges is because of the overly zealous, far-reaching effects of the National Wildlife Federation lawsuit which has frozen all realty actions on millions of acres of BLM land. If we want to do something meaningful, we could strike down that lawsuit.

I also question the bill in terms of recreational needs. Should we be moving on this legislation at a time when the President's commission is looking at recommendations for major changes in the way we manage public lands?

I also doubt that expedited exchanges will benefit the everyday recreationalists or hunter. Scattered tracts of public land are used extensively by them for motorized recreation and hunting. Exchanges tend to block up lands in single purpose categories such as parks or wilderness where public access is not as easy. I am told by some people that exchanges benefit wildlife. No doubt they do but they are not the type of public land my constituents like to use on a casual, daily basis because they are often remote, inaccessible areas.

Why does the world come to an end because of a backlog of exchanges? Every agency in Government is forced to make priority decisions. Why can't our land managing agencies do the same?

I believe the bottomline on an exchange is the personnel involved. We have dedicated agency people doing a hell of a good job. I believe we should listen to their concerns before we move forward on this bill.

Last, the substitute contains a new section 5 dealing with O&C lands proposed by my colleague from Oregon Mr. [BOB SMITH]. I support this provision.

□ 1235

Mr. ROBERT F. SMITH. Mr. Speaker, will the gentleman yield?

Mr. MARLENEE. I yield to the gentleman from Oregon.

Mr. ROBERT F. SMITH. Mr. Speaker, I thank my colleague, the gentleman from Montana [Mr. MARLENEE], for yielding.

Mr. Speaker, I would like to thank my colleague from Montana, Mr. [MARLENEE], and the distinguished chairman of the Subcommittee on Public Lands, Mr. SEIBERLING, for adding a new section 5 to the bill. This section allows lands coming into Federal ownership in an Oregon and California railroad grant lands (O&C) or Coos Bay Wagon Road grant lands exchange to receive the same management status as the exchanged lands. This section, identical to my bill H.R. 4214, was incorporated into the bill presently under consideration during subcommittee markup.

As I indicated, the purpose of section 5 is to authorize the Secretary of the Interior to manage lands received in exchange for O&C or Coos Bay Wagon Roads under the same laws as the lands which were released. The current law, as interpreted, acts as a disincentive for such exchanges that would otherwise be mutually beneficial to both the Federal Government and the localities. The management objectives of these grant lands differ from those of public lands. The receipts sharing formulas are different, and the funding mechanism differs as well. Because of these potential revenue losses, county and State officials are reluctant to endorse otherwise good land use opportunities. It also allows the Federal Government to continue its historic practice of seeking land exchanges to create contiguous ownership where checkerboard patterns exist now, and improve public land management.

I may add that a committee of the other body has also reported identical legislation to section 5. During committee hearings in the other body, the Department of the Interior indicated the administration's strong support for enactment. The Associate Director of the Bureau of Land Management, during committee hearings, stated that enactment of this legislation would "enable a viable exchange program to go forward."

Once again I thank the chairman and ranking member of the subcommittee for accommodating my request for this language, and urge my colleagues to support this bill, H.R. 4814, the Federal Land Exchange Facilitation Act of 1986.

Mr. STRANG. Mr. Speaker, will the gentleman yield?

Mr. MARLENEE. I yield to the gentleman from Colorado.

Mr. STRANG. I thank the gentleman for yielding.

Mr. Speaker, as an original cosponsor of H.R. 4814, I am pleased to rise in support of this legislation and to recognize some of the concerns expressed by my distinguished colleague, the gentleman from Montana [Mr. MARLENEE].

The chairman of the subcommittee, Mr. SEIBERLING, has explained the details of the bill. I very much appreciate his strong support and rapid consideration of the bill. In addition to wide bipartisan support, the bill enjoys broad-based constituent support as well.

The purpose of the bill is to streamline land exchange processes of the Forest Service and the Bureau of Land Management. In doing so, the goal is not only to expedite land exchanges, consistent with sound management and environmental practices, but also to save money on the part of the Federal Government and local governments or private individuals seeking exchanges.

The bottom line is one of efficiency, consistency, fairness, and economy. I urge my colleagues to support passage of H.R. 4814.

Mr. MARLENEE. Mr. Speaker, I would like to say that I have a great deal of respect for the chairman of the Subcommittee on Public Lands, and I have worked with him on a number of pieces of legislation. I know that he has some concerns about the exchange, about the process, and about getting this bill passed to facilitate exchanges.

I will not urge my colleagues to oppose the bill. I am not asking them to oppose the bill, but I am asking them to look very carefully at this piece of legislation to see that it is not abused in future exchange processes, and I am quite certain that there will be some modification of this legislation in the other body.

Mr. SEIBERLING. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, let me just say that I am a little bit surprised to hear the gentleman from Montana speak in opposition to this bill. As the gentleman from Oregon [Mr. ROBERT F. SMITH] and the gentleman from Colorado [Mr. STRANG] both alluded to, the Department of the Interior and the Forest Service already have a program and it is one that has received great emphasis since the Reagan administration took office, which tries to develop a more rational land-management pattern so that the Federal Government is not in the position of trying to manage isolated tracts of land scattered all over the country.

When this administration came in, they started out with a program of trying to dispose of isolated tracts and acquiring land within existing Federal lands where there were isolated holdings. The land-exchange process is made to order for dealing with this kind of situation. So I am a little bit surprised at this late date to hear somebody on that side opposing this bill, which is simply an effort to provide more flexible and better controlled methods of handling land exchanges and appraisals within the Federal system.

That is the only purpose of this bill. I am surprised that there is any opposition to the bill, but I feel that the gentleman is of course entitled to express his views. I really feel that there is nothing in this bill that is going to produce anything but a more flexible, less costly, and more effective way for the Federal Government to deal with its land administration problems.

Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from New Mexico [Mr. RICHARDSON], a member of the committee.

Mr. RICHARDSON. Mr. Speaker, I am proud to be an original cosponsor of this bill, which will go a long way toward expediting Federal land exchanges and eliminating a lot of red-tape. H.R. 4814 has enjoyed a wide variety of support from various States to 18 western and national outdoor groups who have reviewed the legislation and endorse its enactment.

Mr. Speaker, this bill will provide more uniform rules and regulations pertaining to land appraisals and set up regulations to arbitrate appraisal disputes—which is one of the biggest stumbling blocks in completing a transaction. In addition, the bill provides for unified surveying, title transfer, and other authority for land exchanges in which the Secretary of the Interior has jurisdiction over Federal lands. Overall, the bill will facilitate and expedite land exchanges.

Mr. Speaker, I commend my colleagues, the chairman of the House Public Lands Subcommittee, JOHN SEIBERLING, and Congressman MIKE STRANG of Colorado, for their leadership role on this legislation. I urge my colleagues to support the bill.

□ 1245

Mr. SEIBERLING. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from the State of Oregon [Mr. WEAVER], a member of our committee.

Mr. WEAVER. Mr. Speaker, I thank the gentleman for yielding me this time. I want to compliment him on this bill. It is a good reform and one that is needed.

There is a section in the bill dealing with the Oregon and California railroad land-grant lands, a majority of which are in my congressional district.

I asked the gentleman from Ohio [Mr. SEIBERLING], chairman of the committee, to place an amendment in the substitute that would facilitate the BLM handling any trades with the O&C lands. What this amendment essentially does is say if, O&C lands are traded, the lands received back by the government will then become O&C lands as were the lands traded out. I appreciate very much the chairman of the committee accepting my amendment and making this transfer of O&C lands more fair. We in the Fourth Congressional District of Oregon thank the gentleman.

Mr. SEIBERLING. Mr. Speaker, I yield such time as he may consume to the gentleman from Washington [Mr. MORRISON].

Mr. MORRISON of Washington. Mr. Speaker, I am pleased to be an original cosponsor of the Federal Land Exchange Facilitation Act and to see it come to the floor today. In these times of budgetary constraint, the Department of the Interior and the Forest Service will have to rely increasingly on land exchanges to consolidate their holdings or to acquire lands desirable for conservation or other public purposes.

Since there are several laws and regulations already in place governing the exchange of land between the Federal Government and States or private parties, why do we need another piece of legislation? One reason is that the rules and regulations used by the Forest Service, the Fish and Wildlife Service, the Park Service, and the Bureau of Land Management do not agree with each other, leading to needless confusion, particularly when a single exchange involves more than one agency. H.R. 4814 requires the Secretaries of Agriculture and Interior to revise their rules and regulations with an eye to Government-wide consistency.

A number of my constituents have been involved in land exchanges with the Forest Service and have kept me well-informed of the problems they encountered. Perhaps the most frustrating roadblock occurs when there is basic agreement between the landholder and the Forest Service that a particular exchange is desirable, but a dispute about the value of the lands puts the exchange into a limbo that can last for months or even years.

As the Interior Committee notes in its report, the role of the Forest Service and the Department of the Interior as both interested party and judge and jury in land appraisals can lead these agencies to delay final resolution of a dispute in order to win favorable terms. The layers of bureaucracy provide many opportunities to do so. To the extent that these delays discourage private landholders from dealing with the Federal Government, they do a disservice to the public interest.

H.R. 4814 requires that within 90 days of reaching an informal or formal agreement to initiate a land exchange, the government must make arrangements with the landholder for an appraisal by whomever and on whatever terms the two parties agree to. The bill also contains a mechanism for conflict resolution in the event a dispute over a completed appraisal drags on for more than 6 months. The purpose of these provisions is simply to speed decisions and not to stack them in favor of the private landholder. The bill in no way relieves the government from its duty to ensure that exchanges are in the public interest.

The Agriculture Committee and the Subcommittee on Forests, Family Farms, and Energy, of which I am the ranking member, agreed to waive review of this legislation in the interest of expediting its consideration. I can speak for myself only in supporting the bill, but I can assure my colleagues that the subcommittee will oversee its implementation and will search for other ways to improve the land exchange procedure.

Mr. MARLENEE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GLICKMAN). The question is on the motion offered by the gentleman from Ohio [Mr. SEIBERLING] that the House suspend the rules and pass the bill, H.R. 4814, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

## ADMIRALTY ISLAND LAND EXCHANGE ACT OF 1986

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4883) to provide options for land exchanges involving lands on Admiralty Island, AK, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4883

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE AND PURPOSE.

(a) SHORT TITLE.—This Act may be cited as the "Admiralty Island Land Exchange Act of 1986".

(b) PURPOSE.—The purpose of this Act is to provide an offer for Shee Atika, Incorporated, and Sealaska Incorporated, Alaska Native Corporations, to voluntarily relinquish and convey to the United States certain lands and interests therein on Admiralty Island and receive in lieu thereof lands and other valuable consideration as provided herein, and to provide for acquisition of certain other lands and interests.

SEC. 2. DEFINITIONS AND MAPS.

(a) GENERAL DEFINITIONS.—As used in this Act:

(1) The term "the Act" means the Alaska National Interest Lands Conservation Act (Public Law 96-487 as amended).

(2) The term "Secretary" means the Secretary of Agriculture.

(3) The terms "lands", "Federal lands", and "public lands" have the same meanings as specified in section 102 of the Act.

(4) The term "Cube Cove lands" means the surface and subsurface lands and interests in lands on Admiralty Island conveyed to Shee Atika Incorporated and Sealaska Incorporated pursuant to section 506(c) of the Act and pursuant to the land exchange agreement dated October 17, 1985 between the Corporations and the United States.

(5) The term "Shee Atika" means Shee Atika, Incorporated, an Alaska Native Urban Corporation (as such term is defined in section 102(9) of the Act) existing under the laws of the State of Alaska.

(6) The term "Sealaska" means Sealaska Corporation, an Alaska Native Regional Corporation (as such term is defined in section 102(7) of the Act) existing under the laws of the State of Alaska.

(7) The term "Corporations" means Sealaska and Shee Atika.

(8) The term "Settlement Act" means the Alaska Native Claims Settlement Act (85 Stat. 688; Public Law 92-203 as amended).

(9) The term "subsurface estate" shall have the same meaning when used in this Act as such term has when used in the Settlement Act.

(b) LAND DEFINITIONS.—As used in this Act:

(1) The term "Baranof Island Lands" means those lands above mean high tide generally depicted on a map entitled "Baranof Island Lands" dated May 1986, and consisting of approximately 11,400 acres.

(2) The term "Bay of Pillars Lands" means those lands above mean high tide generally depicted on a map entitled "Bay of Pillars Lands" dated August 1986 and consisting of approximately 12,100 acres.

(3) The term "Greens Creek Subsurface Lands" means the subsurface estate to those lands generally depicted on a map entitled "Greens Creek Subsurface Lands" dated May 1986, and consisting of approximately 15,000 acres.

(4) The term "Greens Creek Surface Lands" means those lands generally depicted on a map entitled "Greens Creek Surface Lands" dated May 1986 and consisting of approximately 4,000 acres.

(5) The term "Hetta Inlet Subsurface Lands" means the subsurface estate to those lands generally depicted on a map entitled "Hetta Inlet Subsurface Lands" dated May 1986 and consisting of approximately 4,709 acres.

(c) MAPS.—All maps referred to in this Act shall be on file with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate and also on file and available for public inspection in the office of the Chief, Forest Service, Washington, D.C. The acreages cited in this Act was approximate, and in the event of discrepancies between cited acreages and the lands depicted on referenced maps, the maps shall control, but such maps shall not be construed as attempts by the United States to convey State or private lands.

SEC. 3. OFFER TO SHEE ATIKA.

For and in consideration of the relinquishment and conveyance to the United States of all Shee Atika's rights, title, and interest in Cube Cove lands, the lands, interests in lands, and other valuable consideration listed in paragraphs (1) through (6) of this section are offered to Shee Atika for its voluntary acceptance as provided in section 5, subject to valid existing rights and rights reserved to the United States:

(1) The surface and subsurface estate of Baranof Island Lands.

(2) The surface estate of the Bay of Pillars Lands.

(3) An opportunity to have two-fifths (40 percent) equity ownership of any corporation or partnership formed to receive the subsurface estate to the Greens Creek Subsurface Lands, or the entire equity ownership of such a corporation or partnership as provided in section 6.

(4) Acceptance by Shee Atika as provided in section 5, and conveyance of the Cube Cove lands to the United States, shall be deemed to constitute satisfaction of all principal and interest (including penalties) due on any outstanding loans (including loan guarantees on which default has occurred) to Shee Atika and its subsidiaries by the Bureau of Indian Affairs.

(5) The Secretary's contractual agreement to construct a road of approximately 20 miles in length (proposed Forest Road No. 7579) as provided in section 11 and generally located on the map entitled "Baranof Island Lands".

(6) A payment by the United States to Shee Atika in the sum of $25,000,000 in 2 installments. The first installment of $15,000,000 shall be paid in accordance with section 15 and no later than 180 days after the date of Shee Atika's acceptance pursuant to section 5. The second installment of $10,000,000 shall be paid in the next fiscal year following payment of the first installment but no later than 12 months after payment of the first installment.

SEC. 4 OFFER TO SEALASKA.

For and in consideration of the relinquishment and conveyance to the United States of all Sealaska's subsurface estate and other right, title, and interest in Cube Cove lands, the interests in lands referred to in paragraphs (1), (2), and (3) are offered to Sealaska for its voluntary acceptance as provided in section 5, subject to valid existing rights and rights reserved to the United States and the provisions of section 6(b):

(1) An opportunity to have three-fifths (60 percent) equity ownership in any corporation or partnership formed pursuant to section 6 to receive the Greens Creek Subsurface Lands, and leasehold interest in the

Green Creek Surface Lands as provided in section 9.

(2) The Hetta Inlet Sursurface Lands.

(3) Any federally owned subsurface estate underlying lands conveyed to Goldbelt, Incorporated, at Hobart Bay pursuant to the exchange agreement dated April 11, 1979, ratified by section 506(b) of the Act.

SEC. 5. ACCEPTANCE.

(a) PROCEDURE.—Within the periods after the enactment of this Act specified in subsection (b) of this section, Shee Atika or both the corporations may accept the offers provided in sections 3 and 4, respectively, by delivering to the Secretary properly executed and certified corporate resolutions binding upon the corporation or corporations with respect to the offers, and an opinion of the appropriate counsel of the respective corporations stating that the corporation is empowered to take such action and that the action comports with all requirements of Federal and State law and the rules and bylaws of the corporation. If the Secretary deems the resolutions and counsel's opinions delivered by Shee Atika or by both corporations to be legally sufficient and all requirements of this Act fulfilled, the Secretary shall so notify the President of each accepting and the Secretary shall forthwith proceed to implement exchanges authorized by this Act with each such corporation.

(b) DEADLINES.—

(1) SHEE ATIKA.—No acceptance by Shee Atika pursuant to subsection (a) of this section shall be effective unless the documents described in such subsection are delivered on or before the one-hundred-twentieth day after the date of enactment of this Act, except to the extent a later date may be allowed by the Secretary pursuant to subsection (c) of this section.

(2) SEALASKA.—No acceptance by Sealaska pursuant to subsection (a) of this section shall be effective unless the documents described in such subsection are delivered on or before the ninetieth day after the date of enactment of this Act, except to the extent a later date may be allowed by the Secretary pursuant to subsection (c) of this section.

(c) ADDITIONAL TIME.—If the Secretary finds that a resolution or opinion of counsel delivered pursuant to subsection (a) of this section is inadequate, the Secretary shall apprise the relevant corporation and give such corporation an opportunity to remedy the inadequacy. In no event shall the Secretary permit the time to remedy to exceed 30 calendar days beyond the relevant deadline specified in subsection (b) of this section.

SEC. 6. ACCEPTANCE CONTINGENCIES.

(a) ACCEPTANCE BY SHEE ATIKA ONLY.—If, pursuant to section 5, Shee Atika accepts the offer of section 3, but Sealaska fails to accept the offer of section 4, then there shall be conveyed to any corporation which is formed to receive such estate and which is wholly owned by Shee Atika the entire undivided subsurface estate to the Greens Creek Subsurface Lands, and the Secretary shall reduce the Bay of Pillars Lands offered by section 3(2) to a total offer of 4,800 acres, and no surface leases shall be issued by the Secretary.

(b) REJECTION BY SHEE ATIKA.—If Shee Atika fails to accept the offer of section 3, the provisions of sections 3 and 4 shall not be effective, the Secretary shall not accept any conveyances tendered in accordance with section 5, no conveyances shall be made pursuant to section 7, no leases shall be issued pursuant to section 9, and no other provisions of this Act relating to Shee Atika or Sealaska shall have any force or effect.

(c) CORPORATION OPTION.—If both the Corporations accept the offers of sections 3 and 4, and if no later than 60 days after the latter of such corporations to accept has informed the Secretary of such acceptance both corporations further inform the Secretary that they have taken appropriate steps to form a new corporation or partnership to receive conveyance of the interests described in sections 3(3) and 4(1), the Secretary is authorized and directed to convey such interests to such new corporation or partnership. Any such corporation or partnership shall be formed on the basis of 60 percent equity ownership by Sealaska and 40 percent equity ownership by Shee Atika, unless Sealaska fails to accept the offer of section 4, in which case such corporation or partnership shall be wholly owned by Shee Atika. Any such corporation or partnership shall be formed and governed pursuant to applicable law of the State of Alaska.

SEC. 7. CONVEYANCES.

(a) INTERIM CONVEYANCE.—Upon acceptance by Shee Atika, or both Shee Atika and Sealaska, and the conveyance to the United States by the accepting corporation or corporations of the interests of such corporation or corporations in the Cube Cove lands, the Secretary shall notify the Secretary of the Interior, and no later than 180 days after such notification the Secretary of the Interior shall issue interim conveyances to the appropriate lands and interests in lands, except that leasehold interests provided in section 9 shall be issued only by the Secretary. All nonleasehold lands conveyed to either Shee Atika or Sealaska shall be considered as lands conveyed pursuant to the Settlement Act. Lands or interests therein conveyed to Shee Atika pursuant to this Act shall be deemed to have been conveyed as of December 9, 1981, but this effective date shall not be construed in any way so as to obligate any payments by the United States, or to require the escrow of any funds which may have been generated on such lands prior to the effective date of this Act.

(b) RELEASES.—Upon notification from the Secretary pursuant to subsection (a) that Shee Atika has conveyed to the United States its interests in the Cube Cove lands, the Bureau of Indian Affairs shall promptly execute and deliver to Shee Atika appropriate releases or other documents evidencing the satisfaction of loans as provided in section 3(4).

(c) SURVEYS.—No later than two years after the issuance of an interim conveyance to Shee Atika or Sealaska pursuant to subsection (a), the Secretary of the Interior shall make a boundary survey of the lands which are the subject of such interim conveyance.

SEC. 8. CUBE COVE LANDS.

(a) EFFECT OF ACCEPTANCE.—Upon an acceptance by Shee Atika pursuant to section 5—

(1) All timber harvest and related activities on the Cube Cove lands (except as occurring under a contract in existence on May 21, 1986) shall cease. At the end of any such timber harvest and related activities pursuant to such contract, the Secretary, notwithstanding any other provision of law, on the harvested portion of the Cube Cove lands shall carry out the removal of culverts, bridges, timber harvest equipment, and other personal property, and the closing and seeding of road surfaces in accordance with management practices applicable to Tongass National Forest commercial forest lands. In carrying out such steps, the Secretary shall to the maximum extent practicable employ local residents, in accordance with the provisions of section 1308 of the Act. All such steps shall be completed as soon as possible, but no later than three years after an acceptance by Shee Atika pursuant to this Act.

(2) Corps of Engineers permit Number 071-OYD-2-810133, Chatham Strait 92, shall be assigned to the Secretary for use in connection with the steps required by paragraph (1).

(b) STATUS AFTER ACCEPTANCE.—(1) Upon their conveyance to the United States pursuant to this Act, the Cube Cove lands shall be incorporated into the Admiralty Island National Monument and Admiralty Island Wilderness and shall be managed accordingly.

(c) REPORTS.—The Secretary shall incorporate into each report submitted to the Congress pursuant to section 706(b) of the Act after the date of enactment of this Act information regarding each of the following:

(A) State selections of land in the Tongass National Forest, and the effects of such selections on management of the Tongass National Forest.

(B) An account of the status of the adjustment of 15,000,000 board feet annually which the Secretary in the first such report identified as having been applied to the original yield calculation in the forest plan in anticipation that Native corporations and selection rights on Admiralty Island would exchange those rights or lands received in fulfillment thereof for lands elsewhere in the Tongass National Forest.

SEC. 9. MINING ACTIVITIES AT GREENS CREEK.

(a) SURFACE LEASE.—Upon an acceptance by both Sealaska and Shee Atika, in accordance with the provisions of sections 5 and 6, the Secretary shall issue to Sealaska a use and occupancy lease to the Greens Creek Surface lands on the following terms and conditions:

(1) The lease shall permit the use and occupancy of the area solely for purposes related to mining or milling.

(2) An operating plan or plans approved by the Secretary shall be required for mining and related operations utilizing all or any portion of the Greens Creek Subsurface Lands, the Greens Creek Surface Lands, or both such lands. Operations pursuant to such plan or plans shall be subject to standards and procedures for control and mitigation of surface disturbances and environmental impacts required by the Act and other applicable law, except that the provisions of section 503(f)(2)(A) of the Act shall not apply to the Greens Creek Surface Lands while a lease issued pursuant to this section is in effect.

(3) Within the leasehold area, the lessee shall be allowed to harvest and sell any timber required to be removed for mining and access related activities, subject to reasonable conditions established by the Secretary in order to protect values of the Admiralty Island National Monument. No other commercial use of timber or other surface resources on the leasehold area shall be permitted.

(4) Public occupancy and use of the Greens Creek Surface Lands during the term of the lease shall be governed by the provisions of the Greens Creek Final Environmental Impact Statement. The lease holder shall continue to permit the use of any roads, docks, and related access facili-

ties in accordance with the requirements of permits issued pursuant to applicable law.

(5) The Secretary shall require reclamation of the surface to standards as established by the provisions of the Greens Creek Final Environmental Impact statement upon relinquishment or termination of the leasehold. The Secretary shall continue to require the posting of an adequate reclamation bond pending completion of such reclamation activities.

(6) The lease shall terminate 25 years from the date of issuance, and shall then be renewed for an additional 25 years, without charge but subject to the terms specified in this section and such other reasonable terms consistent with this Act as the Secretary shall prescribe, unless the lessee voluntarily elects to relinquish the lease at the end of the first 25 year period. If mining activities are ongoing at the end of the period ending 50 years after the date of initial issuance of the lease, or at the time of an earlier relinquishment of the lease, the Secretary, in his discretion and subject to valid existing rights, including rights of access may permit continued surface occupancy and use.

(7) A lease issued pursuant to this subsection may be assigned or transferred by its holder, who shall provide appropriate notice to the Secretary concerning such assignment or transfer. An assigned or transferred lease shall remain subject to the terms and conditions imposed pursuant to this section. A lease issued pursuant to this subsection may be relinquished by the holder thereof at any time.

(8) Leases issued pursuant to this section shall be subject to valid existing rights, including the rights of holders of valid mining claims for access to such claims and for utilization of so much of the surface of such claims as necessary for maintenance and development of such claims.

(b) SAVINGS CLAUSE.—Except as specifically provided in this section, nothing in this Act shall be construed as modifying the applicability to mining or related activities in the Greens Creek area or any other position of the Tongass National Forest of any laws, regulations, standards, or rules applicable to such activities on the day before the date of enactment of this Act. Nothing in this Act shall be construed as limiting the ability of any party otherwise entitled to bring such an action to bring an action based on a claim that any such activities are inconsistent with any such law, regulation, standard, or rule.

SEC. 10. RESERVATIONS.

(a) VALID EXISTING RIGHTS AND PERPETUAL EASEMENTS.—Any and all conveyances of land by the United States pursuant to this Act shall be subject to valid existing rights and to the perpetual easements delineated on the maps referenced in this Act, which easements are hereby reserved in the United States for such purposes as the Secretary deems necessary for National Forest and other public purposes, and such conveyances shall also be subject to the Federal administrative sites and installations which the Secretary prior to patent of such lands determines were existing as of the date of enactment of this Act.

(b) TERMS OF RESERVATIONS.—The following terms shall apply to reservations in the United States made by subsection (a):

(1) Public easements shall be identified by the Secretary for actual or potential uses as reasonably necessary to guarantee a full right of public use of and access to adjacent Federal lands for public recreation, hunting, transportation, docks, and other public uses.

(2) Site easements may be utilized for any National Forest and other public purpose and shall be reasonably compact areas delineated by the Secretary.

(3) All easements reserved by this section shall include the right of the Secretary to utilize without charge any timber, rock and common varieties of mineral materials located within the easement area for uses allowed within such area. The owner of the adjacent lands may use any easement in accordance with applicable regulations of the Secretary.

(4) All easements reserved by this Act shall be located as generally depicted on the maps referenced in this Act. The actual surveyed location of the easements may be modified on-the-ground by the Secretary due to the feasibility of construction, maintenance, use and the avoidance of unnecessary costs or time delays due to acts of God, unfavorable engineering requirements, unsuitable terrain such as excess slope, erosive surface, muskeg, wetlands and/or hazards, or potentially adverse impacts on or disruption to fish, wildlife, botanical, or other resources.

(5) Any valid existing right shall continue to have whatever right of access as is now provided for under existing law, and this section shall not operate in any way to diminish or limit such right of access.

SEC. 11. BARANOF ROAD.

The road offered by section 3(5) shall be generally located as indicated on the map entitled "Baranof Island Lands" referred to in section 2(b)(1). Utilizing monies available pursuant to section 15, the Secretary shall during the 12 years following the date of an acceptance by Shee Atika construct the road to that standard generally utilized for logging roads elsewhere on the Tongass National Forest. At least 5 miles of such road shall be constructed within 3 years after the date of such acceptance, and at least 10 miles of such road shall be constructed within 6 years after the date of such acceptance. The Secretary may utilize without charge such timber, rock and common varieties of mineral materials from the right of way and adjacent lands as are necessary or desirable for construction. The United States shall retain a perpetual easement to utilize the road for public access and National Forest purposes, but the Secretary shall permit use of such easement for general public access only to the extent consistent with protection of the resources and values of the Tongass National Forest.

SEC. 12. STATUS OF RELINQUISHED LANDS.

Cube Cove lands and interests therein conveyed by Shee Atika and Sealaska to the United States pursuant to this Act shall not be subject to any levy, foreclosure, or any other action which would encumber or divest the United States of any right, title, or interest in such lands. No action may be brought by any party in any United States district court pursuant to title 28, United States Code, section 2409a, to quiet title to such lands.

SEC. 13. WITHDRAWALS AND INTERIM MANAGEMENT.

(a) WITHDRAWALS.—Subject to valid existing rights, all lands identified in sections 3 and 4 as available for conveyance to Shee Atika, Sealaska, or both, pursuant to this Act are withdrawn from all forms of location, entry, and selection under the mining and public land laws of the United States, from leasing under the mineral and geothermal leasing laws, and against issuance of preliminary permits and licenses pursuant to the Federal Power Act. This withdrawal shall expire at midnight local time at Juneau, Alaska, on the day 180 days after the date of enactment of this Act unless prior to such hour either Shee Atika or both Shee Atika and Sealaska accept the offers afforded them under this Act, in which case this subsection shall remain in effect until the appropriate lands are conveyed pursuant to this Act.

(b) INTERIM MANAGEMENT.—Subject to valid existing rights, during the acceptance period of 120 days after the date of enactment of this Act, and thereafter if either Shee Atika or both the Corporations accept the offers afforded them herein, the Secretary and the Secretary of the Interior shall manage the lands available for conveyance or leasing to the Corporations so as to maintain their existing character and resources until conveyed or leased.

(c) SAVINGS PROVISIONS.—Nothing in this Act shall be deemed as a cloud of title of lands or interests therein owned on the date of enactment of this Act by Shee Atika or Sealaska nor shall this Act be construed in any way as affecting the existing ownership or as limiting the use of lands owned by the respective Corporations on the date of enactment of this Act. Nothing in this Act shall be construed to limit the ability of Shee Atika to harvest timber on Cube Cove lands during the time periods prescribed in section 5 for acceptance of this offer, or require that any agency of the United States withhold action on any permit or other application pending before it during such time periods. Nothing in this Act shall be construed to limit the authority of the Secretary to enter into land exchanges with either Shee Atika or Sealaska pursuant to existing exchange authorities. Nothing in this Act shall be construed as a taking by the United States of lands which as of the date of enactment of this Act are not the property of the United States.

SEC. 14. JUDICIAL REVIEW.

(a) SPECIAL RULES.—With respect to any conveyances or transfers of lands and interests in lands to and from the United States pursuant to this Act, or the issuance of any leases by the United States pursuant to section 9 of this Act, or the location of easements pursuant to this Act, the application of laws, rules, and regulations shall be limited as provided in paragraphs (1) through (7) as follows:

(1) The National Environmental Policy Act of 1969 (83 Stat. 852) shall not apply and an environmental impact statement or environmental assessment shall not be required. This paragraph shall not preclude the Secretary from exercising sole discretion to prepare any environmental assessment or environmental impact statement if the Secretary desires, but such assessment or statement shall not be subject to judicial review.

(2) Section 810 of the Act shall not apply.

(3) Sections 17(b) and 22(k) of the Settlement Act shall not apply.

(4) Sections 208, 306, 402, and 404 of the Clean Water Act (33 U.S.C. 1261, et seq.) shall not apply.

(5) Section 10 of the Rivers and Harbors Act (33 U.S.C. 403) shall not apply.

(6) The Coastal Zone Management Act (16 U.S.C. 1451, et seq.) shall not apply.

(7) The Historic Preservation Act (80 Stat. 915), the American Indian Religious Freedom Act (92 Stat. 469), and the Archaeologi-

cal Resources Protection Act (88 Stat. 174) shall not apply.

Nothing in this section shall be construed as limiting the applicability of any law, rule, or regulation to any action or activity other than those specified in this subsection.

(b) CLAIMS.—

(1) LIMITATION.—Except for actions described in section 9(b), actions alleging that an action or activity described in subsection (a) of this section undertaken by a Federal officer or agency pursuant to this Act is in excess of statutory jurisdiction, authority, limitation, or statutory right may only be brought no later than the 60th day following the date of such action or activity.

(2) JURISDICTION.—Any action based on a claim based on the provisions of this Act shall be barred unless prior to the expiration of any applicable time limit a complaint is filed in the United States District Court for the District of Alaska, and such court shall have exclusive jurisdiction with respect to any such action.

(3) STANDING.—Except with respect to an action described in section 9(b), the only parties who shall have standing to bring any action challenging any action or activity described in subsection (a) of this section by a Federal officer or agency shall be—

(A) Shee Atika,

(B) Sealaska,

(C) the State of Alaska,

(D) Kootznoowoo Incorporated, and

(E) parties with valid existing property rights or valid rights arising under a contract with the United States, but only to the extent such property or contract rights can be shown to be affected by this Act.

SEC. 15. FUNDING.

(a) SOURCE.—Payments required by section 3(6), all costs associated with road construction required by section 3(5), and all costs to the government associated with the activities required pursuant to section 8 shall be defrayed from receipts from timber and other resources from National Forest System lands, notwithstanding any other law providing for the distribution of such receipts. All funds required for these purposes are authorized and shall be made available without appropriation to the Secretary by the Secretary of the Treasury and these funds shall not be subject to deferral, rescission or any reduction under the Congressional Budget and Impoundment Control Act of 1974 or any other authority. This section shall not affect payments to States and counties as provided by the Act of May 23, 1908, and section 13 of the Act of March 11, 1911 (16 U.S.C. 500).

(b) LIENS.—Before the Secretary pays Shee Atika the first installment of the payment specified in section 3(6), Shee Atika shall provide the Secretary with written releases satisfactory to the Secretary from all liens and encumbrances to the title of the Cube Cove lands, except for valid existing rights as of the date the Cube Cove lands were conveyed by the United States to Shee Atika. In cooperation with Shee Atika, the Secretary is authorized to establish such procedures and take such steps as the Secretary, in his discretion, deems necessary or desirable to provide for the release of all liens and encumbrances to the Cube Cove lands and for payment of the net balance to Shee Atika. If Shee Atika is unable to provide the Secretary with a written release for any lien or encumbrance as required by this section, at the request of Shee Atika the Secretary shall release to a court of competent jurisdiction an amount as prescribed by such court as necessary to secure release of any such lien, and the remaining amount shall be paid over to Shee Atika. Nothing in this Act shall preclude Shee Atika from assigning all or part of the cash payment offered in this Act for the benefit of Shee Atika's creditors.

(c) CREDITS.—If on the date of Shee Atika's acceptance pursuant to section 5, the Secretary and Shee Atika have entered an agreement pursuant to section 504(k) of the Act as amended by Public Law 99-235, and a payment or payments have been made to Shee Atika pursuant to or in consideration for such agreement, the amount of any such payment or payments shall be credited against the first installment of the payment specified in section 3(6), and such installment shall be reduced accordingly.

SEC. 16. STATUS OF LANDS CONVEYED.

(a) SATISFACTION OF ENTITLEMENTS.—In the event that the offer contained in section 3 of this Act is accepted by Shee Atika, the lands, interests therein, and rights conveyed by this Act shall constitute full satisfaction of all rights and entitlements of Shee Atika under the Settlement Act and the Act, and shall supersede and void all previous land selections of, and conveyances to, Shee Atika of lands on Admiralty Island. Of the offer contained in section 4 of this Act, the lands, interests therein, and rights conveyed by this Act shall likewise constitute full satisfaction of the land entitlement rights of Sealaska arising from its relinquishment of interests to Cube Cove Lands, and shall supersede and void all previous land selections of and conveyances to Sealaska of subsurface rights on Cube Cove Lands pursuant to this Act. Nothing in this Act shall be deemed to in any way create or establish a fiduciary relationship between the United States and Shee Atika, Sealaska or any other corporation or entity.

(b) SCOPE OF OFFER.—All lands listed in sections 3 and 4 are of approximate acreages and are subject to valid existing rights and to reservations as provided in this Act.

SEC. 17. MISCELLANEOUS.

(a) AMENDMENT TO SECTION 103.—Section 103 of the Act is hereby amended by inserting "(but not as National Forest Monuments)" after the words "and national recreation areas" in the third sentence of subsection (b) of such section.

(b) AMENDMENTS TO SECTION 504.—Section 504 of the Act as amended by Public Law 99-235 is hereby further amended by striking from paragraph (2) of subsection (e) of such section the words and figures "December 2, 1986" and by inserting in lieu thereof "December 2, 1986, except that with respect to any such claim involving lands within the Greens Creek area of the Admiralty Island National Monument such shall occur on December 2, 1987".

(c) TRANSFERS.—Lands transferred, exchanged, or granted pursuant to section 506(a)(2) of the Act shall be deemed to have been transferred, exchanged, or granted as of December 31, 1979: *Provided,* That this effective date shall not be construed in any way so as to obligate any payments by the United States, or as to require the escrow of any funds which may have been generated on such lands prior to December 2, 1980.

(d) AMENDMENTS TO SECTION 506.—(1) Section 506(a)(5) of the Act is hereby amended by adding at the end thereof the following new subparagraph:

"(C) If such sale is voluntarily terminated, or is cancelled or forfeited in accordance with applicable laws and regulations, for one year after such termination, cancellation, or forfeiture all lands within the sale area and lands between such sale area and lands lying to the east of such sale area which have been or may be conveyed to Kootznoowoo pursuant to this paragraph (5), shall be made available to Kootznoowoo, Incorporated, for exchange, on the basis of equal timber and other property values and other terms mutually agreeable to the Secretary of Agriculture and Kootznoowoo, Incorporated, for lands previously selected by or conveyed to Kootznoowoo, Incorporated, pursuant to this paragraph (5).".

(2) Section 506(a)(8) of the Act is hereby amended by adding at the end thereof the following new subparagraph:

"(D)(i) The Secretary of Agriculture is authorized and directed to acquire the lands and interests of Kootznoowoo, Incorporated on Admiralty Island specified in clause (iv) of this subparagraph.

"(ii) The acquisition shall be by the exchange of Federal lands and interests for those acquired from Kootznoowoo and shall be for equal value as determined by consideration of relevant market and other data and negotiations between the parties, and arbitration, if necessary.

"(iii) No later than 120 days after the date of enactment of the Admiralty Island Exchange Act of 1986, the Secretary shall offer to acquire, by exchange for some or all of the Federal lands identified in part (iv) of this subparagraph, the following lands and interests of Kootznoowoo on the 3,500 acres conveyed to Kootznoowoo on Admiralty Island under the terms of section 506(a)(3)(A): all rights to the commercial harvest of timber (but reserving other surface and subsistence uses) and all right, title, and interest in the subsurface estate of such lands (but reserving sand, gravel, and other common varieties of mineral materials on such lands). Any rights to timber on Admiralty Island acquired by the United States from Kootznoowoo shall be retained by the United States, and such timber shall not be harvested except in accordance with section 503(d) of this Act.

"(iv) As compensation for lands and interests acquired pursuant to this subparagraph (D), the Secretary, on behalf of the United States, shall offer to convey in exchange all or such part of the following Federal lands (as depicted on the maps entitled "Kootznoowoo Selection Lands" dated July 1986) in fee, in the order listed, as is necessary to achieve equality of value between the Kootznoowoo lands and interests acquired and the Federal lands conveyed: (I) North Point Higgins Coast Guard Base; (II) Betton Island and Back Island; (III) Hawk Inlet; (IV) Couverden Point; (V) Porpoise Islands; (VI) Southeast End of Krestof Island; (VII) Pleasant Island; (VIII) Shelter Island; (IX) Eagle River; (X) Douglas Island; (XI) Seal Cove; (XII) Nahenia Bay; and (XIII) other Federal lands in Southeast Alaska outside any conservation system unit identified by the Secretary in consultation with Kootznoowoo, Incorporated, to the extent that lands identified in this clause are insufficient to provide equal value for the lands to be conveyed to the United States.

"(v) Upon receipt of a notice setting forth the Secretary's offer and the Secretary's valuation of the lands and interests to be acquired by the United States and those offered to Kootznoowoo, Kootznoowoo shall have 60 days within which to either accept the offer or to notify the Secretary that the corporation differs with the Secretary's valuation of lands and interests involved in the exchange and desires to submit this

issue to arbitration on terms which are acceptable to both parties. If Kootznoowoo neither accepts the offer nor requests an arbitration within 60 days after Kootznoowoo's receipt of the offer, the Secretary may in his discretion either rescind the offer or provide additional time for Kootznoowoo to respond. If Kootznoowoo accepts the offer, conveyance of the exchange lands between the Secretary and Kootznoowoo shall be within 60 days of acceptance by Kootznoowoo, whether following the Secretary's offer or the conclusion of arbitration.".

(e) SHAREHOLDER HOMESITES.—Section 21 of the Settlement Act, as amended by section 1407 of the Act, is further amended by inserting ", a Regional Corporation, or an Urban Corporation" after the words "Village Corporation" each time such words occur in subsection (j) of such section 21.

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio [Mr. SEIBERLING] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill is aimed at consolidating land ownership on Admiralty Island, AK, so as to facilitate mineral exploration and development in a nonwilderness area while also enhancing the protection of the resources and values of the wilderness areas within the Admiralty Island National Monument.

Toward these ends, the bill extends to Shee Atika, Inc., and Sealaska, Inc., two Alaska Native corporations with holdings on the island, an offer to exchange those holdings for other lands, cash, and other things of value.

Included in the offer are subsurface rights. The transfer of these to private ownership would lead to expanded and prolonged mineral exploration and development in the Greens Creek area on Admiralty Island, which was specifically recognized in the Alaska Lands Act of 1980 as an area where such exploration and development would take place.

The bill also amends several provisions of the Alaska Lands Act dealing with Admiralty Island so as to enhance the protection of the national monument and the wilderness area.

Mr. Speaker, this is not a new subject. Proposals to provide a special protective status for Admiralty Island date at least back to 1901, when President Theodore Roosevelt proposed that the island be designated as a bear sanctuary. In 1978, President Carter designated most of the island as a national monument. The 1980 Alaska Lands Act provided a legislative designation for the monument, and designated most of the monument as wilderness.

The 1980 act also provided for transfer to Shee Atika, Inc., and Sealaska, Inc., of the surface and subsurface estates, respectively, in about 23,000 acres of land within the monument boundaries. This represented part of the land transferred to these and other Alaska Native corporations pursuant to the Alaska Native Claims Settlement Act of 1971.

The 1980 act also included special provisions to facilitate mineral exploration and development in the Greens Creek area on Admiralty Island, which is within the monument boundaries but outside the wilderness area. Those provisions allowed continued exploration and validation of claims until December 2, 1985. Last year, Congress acted to maintain the status of existing claims until December 2, 1986. This bill would permit extension for another year, to December 2, 1987.

Those involved in mineral exploration and development in the Greens Creek area would like to have such activities continue in ways not permitted under the Alaska Lands Act provisions. Those seeking to enhance the protected status of the national monument as a whole have sought to facilitate an exchange whereby Shee Atika and Sealaska would transfer their present holdings on Admiralty Island for other lands and things of value, so that their present holdings could be incorporated into the national monument and the wilderness. H.R. 4883 is intended to make possible both of these objectives.

The bill is designed to be an offer for an exchange of closely approximate values. If Shee Atika should accept the offer, it would transfer to the United States the surface estate in about 23,000 acres on Admiralty Island, and in return would receive lands, cash, and other things of value. The cash component would be $25 million, to be paid in installments of $15 million and $10 million in successive fiscal years. In addition, the United States would forgive about $11 million which Shee Atika owes under two Bureau of Indian Affairs loans.

If Sealaska accepts the offer, it would not receive cash, but would receive lands and interests therein closely approximating the values of its present subsurface holdings underlying the Shee Atika lands on Admiralty Island, which it would transfer to the Federal Government.

Mr. Speaker, in conclusion, let me express my appreciation for the cooperation and assistance that the gentleman from Alaska has provided with regard to working out this rather complicated and important matter. With his help, I believe that our committee has produced a sound, balanced bill that is fair to the interests of all concerned, including the American people who are the owners of the Admiralty Island National Monument, and the State of Alaska which has a strong interest in the increased economic development that this bill will make possible.

I urge the passage of the bill.

Mr. Speaker, I reserve the balance of my time.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, at this time, I would like to thank the gentleman from Ohio [Mr. SEIBERLING], the chairman of the committee, for the work that he and his staff and our staffs respectively have put into this legislation. It is legislation that is historical. It is a solution to a very serious problem.

Mr. Speaker, I rise in strong support of H.R. 4883, a bill to provide for a land exchange in the Tongass National Forest in southeast Alaska. The legislation we have before us today is a carefully crafted compromise designed to end years of bitter struggle between Natives of the same family and region, and environmentalists. Because of litigation and endless court actions, the Natives of Shee Atika, Inc., have been unable to achieve the economic development from their lands promised them under the Alaska Native Claims Settlement Act of 1971. Because their lands are located on Admiralty Island National Monument in southeastern Alaska, environmental groups have sued to enjoin their harvest of timber, paralyzing their economic future and forcing them to near-bankruptcy. As in the case of most environmental lawsuits, they are designed to inflict economic damage, coming at the most critical moments of investment of time and capital. In this case, once Shee Atika had invested millions in the developmental stage of their timber operations, the environmentalists sued to preclude them from economically moving timber already cut off of Admiralty Island. It is akin to allowing a farmer to harvest all of his crops and then blocking the road to the market.

The suits have had their desired effect, and today Shee Atika faces an uphill battle to financial solvency. This legislation would assist them in that end, and by so doing, return to

the United States 23,000 acres of national monument lands on Admiralty Island. It is not a perfect compromise; they seldom are. Nevertheless, it is a workable deal. I urge the Members adopt the measure.

□ 1255

Mr. Speaker, I again thank the chairman and all parties involved in trying to solve this very ticklish situation that was created, I actually believe, against the congressional will, as an attempt that we tried to solve; a monument that could be destroyed.

By this legislation, we will be able to preserve it and make it the one area that we can continue to be proud of in southeast Alaska.

Mr. SEIBERLING. Mr. Speaker, I yield 2 minutes to the distinguished chairman of the National Parks and Recreation Subcommittee of the Interior and Insular Affairs Committee, the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for yielding, and I want to commend the subcommittee chairman, Mr. SEIBERLING, and the ranking member on that subcommittee and of our committee, Mr. YOUNG, for their work on this Admiralty Island land exchange.

Indeed, this legislation does, as the chairman outlined in his initial remarks, provide for the consolidation of land and for the monument; and most of this grows out of policies that were moving in different directions at the same time and, obviously, that policy resulted in a great deal of litigation in which neither those conservationists that sought the monument protection or those that sought economic development were very happy about it.

The consequence, of course, and the solution as proposed here is to provide consolidation of those lands so that we would avoid the conflicts that have been inherent in the double-track policy that has affected Admiralty Island. That is, by moving the timber harvesting that is now going on by Shee Atika, and the economic development by Sealaska to areas where that will be consolidated in terms of Admiralty Island mineral extraction and move off of Admiralty Island with regard to cutting of timber.

I hope that this will work. It obviously provides some waivers and some legal exceptions which I think are not a precedent for action with respect to other land decisions or policy decisions with regards to Alaska or anyplace else, but I think, in this case, the judgment, the decision was that they were necessary to make this as near permanent a solution as possible for the future.

I commend those that have worked on this measure and rise to offer my support.

Mr. SEIBERLING. Mr. Speaker, I yield myself 2 additional minutes.

Let me thank my colleagues on both sides of the aisle for their support of this legislation. This legislation had its incipience 3 years ago when the Committee on Interior and Insular Affairs, under the leadership of Chairman UDALL, made an inspection trip to Alaska. Among other things, we visited the Greens Creek mineral development site. At that time, it was pointed out to us that the development of that area could not take place under the deadlines that were then in effect. The other problems on Admiralty Island have already been mentioned by the other speakers. It seemed to me that this was an opportunity to try to resolve these various issues in one piece of legislation.

For 2 years almost, negotiations have gone forward with all the parties concerned. While I do not think anybody is 100-percent happy with this result, it does seem to me that it is a fair, balanced result, and from the standpoint of the overall public interest, it is a desirable one.

Let me just say one other thing, Mr. Speaker. The U.S. Government and in particular the Congress, have a continuing responsibility with respect to native peoples under the Constitution. In addition to that, in the treaty under which the United States acquired Alaska from Russia, we undertook to protect the interests of Alaska Native populations.

In this particular case, through no fault of their own, these Native village corporations have found themselves in an increasingly difficult economic situation because of continued controversies over the management of lands on Admiralty Island.

This is an effort to resolve the factors that gave rise to those controversies, promote balanced economic development in southeast Alaska, which the Federal Government has already made commitments to do, and at the same time to restore these Native corporations to a viable economic position as best we can.

So I feel that this is a piece of legislation that is in the public interest and also carrying out treaty and constitutional responsibilities of the Congress and the Federal Government.

Mr. Speaker, on that basis, I strongly urge support of this legislation.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, the gentleman from Ohio [Mr. SEIBERLING] is absolutely correct in his statement, and I would like to at this time acknowledge again his dedication to the State of Alaska.

I very rarely agree with many of his dedicated moments and thoughts, but there is no one who understands the issue greater and a gentleman that has a great opportunity, that I think he has given the State of Alaska of understanding the issues.

I would suggest that, one that respects another colleague that takes the time to visit and to study and to understand, although he may differ from my opinions, I have the greatest respect for. I am going to deeply miss him because of his efforts and his belief for the State of Alaska, because he does know what he is talking about; he is not always right as far as I am concerned, but he does understand his position well and presents it very admirably.

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, looking back some years to the rather strenuous contests that the gentleman from Alaska [Mr. YOUNG] and I had over the Alaska lands legislation, let me say that despite our differences at that time and occasionally on other issues, that I have enjoyed working with him on the committee. He is a real gentleman, he is a great guy, and I hope I can go fishing with him sometime in Alaska, and that way we will see eye to eye, and the only argument we will have is over who caught the biggest fish.

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GLICKMAN). The question is on the motion offered by the gentleman from Ohio [Mr. SEIBERLING] that the House suspend the rules and pass the bill, H.R. 4883, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

---

## ESTABLISHING THE SAN PEDRO RIPARIAN NATIONAL CONSERVATION AREA, ARIZONA

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4811) to establish the San Pedro Riparian National Conservation Area in Cochise County, Arizona, in order to assure the protection of the riparian, wildlife, archaeological, paleontological, scientific, cultural, educational, and recreational resources of the conservation area, and for other purposes as amended.

The Clerk read as follows:

H.R. 4811

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. ESTABLISHMENT OF SAN PEDRO RIPARIAN NATIONAL CONSERVATION AREA.

(a) ESTABLISHMENT.—In order to protect the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreational resources of the public lands surrounding the San Pedro River in Cochise County, Arizona, there is hereby established the San Pedro Riparian National Conservation Area (hereafter in this Act referred to as the "conservation area").

(b) AREA INCLUDED.—The conservation area shall consist of public lands as generally depicted on a map entitled "San Pedro Riparian National Conservation Area—Proposed" dated July 1986, comprising approximately 43,000 acres.

(c) MAP.—As soon as is practicable after enactment of this Act, a map and legal description of the conservation area shall be filed by the Secretary of the Interior (hereafter in this Act referred to as the "Secretary") with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. Each such map shall have the same force and effect as if included in this Act. Such map shall be on file and available for public inspection in the Office of the Director of the Bureau of Land Management, Department of the Interior, and in the Bureau of Land Management offices of the State Director for Arizona, and the district office responsible for the management of the conservation area.

SEC. 2. MANAGEMENT OF THE CONSERVATION AREA.

(a) GENERAL AUTHORITIES.—The Secretary shall manage the conservation area in a manner that conserves, protects, and enhances the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreational resources of the conservation area. Such management shall be guided by this Act and, where not inconsistent with this Act, by the provisions of the Federal Land Policy and Management Act of 1976 (hereinafter in this Act referred to as "FLPMA").

(b) USES.—The Secretary shall only allow such uses of the conservation area as he finds will further the primary purposes for which the conservation area is established. Except where needed for administrative or emergency purposes, the use of motorized vehicles in the conservation area shall only be allowed on roads specifically designated for such use as part of the management plan prepared pursuant to section 3 of this Act. The Secretary shall have the power to implement such reasonable limits to visitation and use of the conservation area as he finds appropriate for the protection of the resources of the conservation area, including requiring permits for public use, or closing portions of the conservation area to public use.

(c) LIVESTOCK.—In order to provide an opportunity for the study, evaluation, and monitoring of riparian areas in the absence of livestock grazing, the Secretary shall not, subject to valid existing contractual rights, issue any permit for the grazing of livestock on lands designated as part of the conservation area by this Act for a period of 15 years from the date of enactment of this Act.

(d) WITHDRAWALS.—Subject to valid existing rights, all Federal lands within the conservation area are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws; from location, entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto.

(e) ENFORCEMENT.—Any person who violates any provision of this Act or any regulation promulgated by the Secretary to implement this Act shall be subject to a fine of up to $10,000 or imprisonment for up to one year, or both.

SEC. 3. MANAGEMENT PLAN.

(a) DEVELOPMENT OF PLAN.—No later than 2 years after the enactment of this Act, the Secretary shall develop a comprehensive plan for the long-range management and protection of the conservation area. The plan shall be developed with full opportunity for public participation and comment, and shall contain provisions designed to assure protection of the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreation resources and values of the conservation area.

(b) RECOMMENDATIONS.—The Secretary shall, in the comprehensive plan referred to in subsection (a), develop recommendations to Congress on whether additional lands should be included in the conservation area.

(c) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative agreements with appropriate State and local agencies, pursuant to section 307(b) of FLPMA, to better implement the plan developed pursuant to subsection (a).

(d) RESEARCH.—In order to assist in the development of appropriate management strategies for the conservation area, the Secretary may authorize research on matters including the environmental, biological, hydrological, and cultural resources of the conservation area, pursuant to section 307(a) of FLPMA.

SEC. 4. ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—The Secretary shall establish a San Pedro Riparian National Conservation Area Advisory Committee, whose purpose shall be to advise the Secretary with respect to the preparation and implementation of the comprehensive, long-range plan required pursuant to section 3 of this Act.

(b) REPRESENTATION.—There shall be 7 members of the Committee, who shall be appointed by the Secretary. Members of the Committee shall be appointed for terms of three years, except that of the members first appointed 2 shall be appointed for terms of 1 year and 3 shall be appointed for terms of 2 years. The Secretary shall appoint one member from nominations supplied by the Governor of the State of Arizona, and one member from nominations supplied by the Supervisors of Cochise County, Arizona. The other members shall be persons with recognized backgrounds in wildlife conservation, riparian ecology, archeology, paleontology, or other disciplines directly related to the primary purposes for which the conservation area was created.

SEC. 5. LAND ACQUISITION.

The Secretary may acquire lands or interests in lands within the boundaries of the conservation areas by exchange, purchase, or donation, except that any lands or interests therein owned by the State or local government may be acquired by donation or exchange only. Any purchase or exchange of lands to be added to the conservation area shall require the consent of the owner of those lands or rights.

SEC. 6. REPORT TO CONGRESS.

No later than 5 years after the enactment of this Act, and every 10 years thereafter, the Secretary shall report to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, on the implementation of this Act. Such report shall include a detailed statement on the condition of the resources within the conservation area and of the progress of the Bureau of Land Management in achieving the purposes of this Act.

SEC. 7. AUTHORIZATION.

There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. MARLENEE. Mr. President, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio [Mr. SEIBERLING] will be recognized for 20 minutes and the gentleman from Montana [Mr. MARLENEE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4811 would designate a San Pedro Riparian National Conservation Area on Bureau of Land Management lands in Arizona. Its purpose is to protect an outstanding desert riparian area which the BLM recently acquired in southern Arizona. The reason BLM acquired the area was to protect it, and this bill is intended to help them accomplish that.

The San Pedro River area is a rare remnant of the desert streamside forests that have mostly been lost to development over the years. It is an unusually rich wildlife area, with an incredible total of 260 different species of birds, as well as an abundance of other wildlife. The river flows north out of Mexico, and serves as a corridor into the United States for many species only rarely seen here.

In addition, the area has important archeological, historic, and paleontological resources.

This would be the fourth national conservation area designated by Congress. Each one is managed by the BLM, but each has its own, unique mandate. H.R. 4811 would require the BLM to manage the San Pedro area to protect the resources I have mentioned, it would withdraw the area from mining, and it would prevent the Secretary of the Interior from issuing new grazing permits in the area for a period of 15 years.

Mr. Speaker, I want to thank our colleague JIM KOLBE, whose district includes the area affected by this bill, and the distinguished Arizonians on the Interior Committee, Chairman Mo

UDALL and Representative JOHN MCCAIN, as well as the other members of the Arizona delegation, for working out the language the committee has reported to the House. The strong bipartisan support for this bill from the Arizona delegation is testimony to the importance all Arizonians give to their natural heritage, and to their recognition that the San Pedro River area is a unique and valuable area that fully deserves the recognition and the protection that this bill would provide.

I strongly urge my colleagues to pass this legislation.

□ 1305

Mr. Speaker, I reserve the balance of my time.

Mr. MARLENEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4811, a bill to designate approximately 43,000 acres of BLM land in Arizona as the San Pedro National Conservation Area.

Conservation area designations are some what rare—only three such areas exist currently. However, I believe it is a useful designation because it allows us to shape the management of the area to fit particular needs while leaving the basic management scheme as one of multiple use.

In this regard, two issues came up during our hearings and markups on this legislation of concern to me because they do restrict multiple uses of the area. One, the bill bans grazing for 15 years. While I can appreciate the chairman's fear that overgrazing could occur, I believe grazing is a useful, discretionary tool which should be available to the BLM and should be addressed in the management plan for the area. The authors of the bill did, however, agree to a 15-year sunset after which time grazing can resume in the area.

Second, I was concerned that an effort might be made to close the area to hunting. I have been assured by the authors of the bill that this is not the case. Wildlife management will continue to be under the control of the State and nothing in the legislation affects their authority.

I commend my colleague from Arizona [Mr. KOLBE], in whose district the area is, and the gentleman from Arizona [Mr. MCCAIN], a member of the committee, for their leadership on this bill and urge my colleagues to support it.

Mr. MCCAIN. Mr. Speaker, will the gentleman from Montana yield?

Mr. MARLENEE. I yield to the gentleman from Arizona.

Mr. MCCAIN. I thank the gentleman for yielding.

Mr. Speaker, I also very much appreciate the gentleman's important support of this bill. I understand his concerns particularly in the area of hunting. We really very much appreciate his support of this bill.

Mr. Speaker, I would like to speak in strong support of this bill. The San Pedro Riparian National Conservation Area will be a welcome addition to the lands already set aside in my State of Arizona for the purpose of preserving our natural heritage. It contains important riparian, aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreational resources which are not presently well represented in my State.

This legislation contains some important features which I believe are important. First, grazing will be banned for 15 years. This will give us a unique opportunity to have a river in Arizona that exists in a near natural state, which does not exist, that I am aware of, anywhere else in Arizona. At the same time we will have the opportunity to review the effect of this procedure and the chance to modify it if the results indicate we should. Second, ORV use will be limited in the area. ORV use will not be prohibited but it will be controlled to certain defined areas. I do not think this area is compatible with unrestricted ORV use.

This legislation retains the unique approach of a management council with plenty of local representation to assist BLM in devising a long-term management plan for the use of the San Pedro Area. This should insure that the wishes of those who will make the most use of this area are given maximum input. I think this is a wise approach.

Finally, I would like to congratulate Congressman KOLBE for his unflagging efforts to gain passage of this measure and extend my personal thanks to Mr. SEIBERLING and Chairman UDALL for their time and attention to this relatively small matter. I am sure the people of Cochise County and all of Arizona appreciate the efforts of these three gentleman in preserving such a unique area as the San Pedro for them and their children.

Mr. Speaker, this bill along with the Arizona wilderness bill and others has contributed an enormous amount to the preservation of the great natural beauty of the most beautiful State in our Nation and that of Arizona. I am grateful and proud to have the opportunity today to be part of an effort to complete that very important effort of that great preservation of the wonderful State of Arizona.

Mr. KOLBE. Mr. Speaker, will the gentleman yield?

Mr. MARLENEE. I would be happy to yield to my colleague, JIM KOLBE, who is the author of this particular piece of legislation and in whose district this legislation would create a conservation district.

I would also request of the gentleman that I have the opportunity early on to view that area with him and at some later time we can go back and review the progress that is made in conservation and in improved vegetation habitation in that particular area.

Mr. Speaker, I yield to the gentleman from Arizona [Mr. KOLBE].

Mr. KOLBE. Mr. Speaker, I look forward to having the opportunity to show the gentleman from Montana as well as the distinguished chairman of the subcommittee this area, as I explained to him in a letter. I am looking forward to showing them myself.

Mr. Speaker, I rise in support of H.R. 4811. This is a bill I sponsored, with every member of the Arizona delegation, to designate the San Pedro riparian national conservation area in Cochise County, AZ. For those Members who believe that Arizona is a sunbaked and desolate State, with only the Grand Canyon as a redeeming feature, then I hope that what we say here today will dispel that myth.

We're all proud of the districts and State we represent—and I'm no exception to that. I grew up on a ranch in Santa Cruz County, in southeastern Arizona, where we have rolling green hills, streams that nourish giant cottonwoods, and air as clean and clear as anywhere on Earth. The House of Representatives has played an active role in seeing that we're able to maintain that natural beauty, and for that, Mr. Speaker, I salute my colleague from Ohio, Mr. SEIBERLING; the distinguished members of the House Interior Committee, including JOHN MCCAIN who is also a sponsor of this legislation; and most especially the chairman of the Interior Committee, my colleague from Arizona, and cosponsor, MO UDALL.

The San Pedro River—the subject of this legislation—flows north from Mexico into the United States. It passes near the city of Sierra Vista, and the towns of Hereford, Charleston, Fairbank, and Saint David. The area for designation consists of 43,000 acres lying in a narrow strip along 30 miles of river bottom between Saint David and Hereford. Along this river can be found one of the most important areas in the country for riparian wildlife, as well as archaeological and historical sites.

The ecosystem along the river is one of the best remaining in Arizona. Because of the year round water, and the riparian forests, the San Pedro is home to approximately 161 species of birds, including nearly 20 percent of the Nation's nesting population of the rare gray hawk.

It's home to 80 species of mammals, including racoons, muledeer, whitetail deer, javelina and bobcats.

It's home to at least 12 species of fish and 69 species of reptiles and amphibians.

And finally, the area is home to over 100 known prehistoric and historic

sites and nine known fossil sites. We can only guess as to how many more will be discovered given the time to study the area.

The Federal Government acquired this land a few months ago by means of a land exchange. Since then it has been closed to the public until legislation can be passed and a management plan prepared. But controlled access to the area could eventually include significant opportunities for hiking, horseback riding, bird watching, nature studies, camping, and hunting. The extent of these possible uses will be determined in the management plan based on the guidelines dictated in H.R. 4811.

The purposes of this bill are several:

To place the area under the stewardship of the Bureau of Land Management;

To define the resources which Congress believes to be preeminent, and therefore to be protected;

To provide direction to the bureau as they attempt to formalize their management guidelines;

To ensure that the bureau is carrying out the purposes of this act in line with congressional intent by requiring a report to the House and Senate on the progress and implementation of this act;

To ensure full public participation and comment by establishing an advisory council to assist in the development of the management plan and in carrying out that plan;

To establish legal enforcement provisions which would enable the U.S. Government to prosecute individuals found guilty of violating the provisions or regulations of this act.

I want to take a moment to mention that I believe the Bureau of Land Management in the State of Arizona, including Dean Bibles, the State director, and Les Rosenkrance the manager of the Safford District BLM Office, and their entire staff, deserves commendation for the job they have done on this project. The kind of support this bill enjoys in Arizona is directly related to their work. They have done a marvelous job of educating the public about the importance of this area, holding numerous public hearings throughout the State to hear everyone's concerns about possible uses and abuses in the area. In March, they completed a complicated land exchange in order to acquire the property at no cost to the taxpayer, and they are working with a volunteer management steering committee in developing the management guidelines in order to ensure that the process continues in a very wide open and public way.

Without their dedication and high professionalism, this bill, and the support that exists for its passage, would not exist.

I would also like to commend the majority and minority staff of the House Interior Committee. They have worked with my staff to ensure that the concerns of all interested groups would be addressed in this bill. The result was a substantial redraft of the original legislation which more clearly fits the unusual and particular needs of this land.

The changes to my bill which were adopted in committee significantly improves the bill by more specifically directing the kind of management that is foreseen for this area. It accomplishes this, I might add, without unnecessarily tying the hands of the actual land managers, those folks who are in the field and must deal with the reality of managing large, valuable tracts of land in a manner that will protect and enhance this area for the enjoyment of generations to come.

As one member of the committee stated when the bill was marked up last week, this bill is an example of reality dictating the substance of legislation, rather than legislation being thrust upon reality.

The list of groups who have expressed support for passage of this bill include the Sierra Club, the Audubon Society, the Arizona Chapter of the Wildlife Society, the Arizona Nature Conservancy, the Arizona Native Plant Society, the Arizona Game and Fish Commission, as well as the Bureau of Land Management and the Office of Management and Budget. This is a farflung group of varied interests and perspectives. The 3 months since I introduced this legislation have been filled with numerous meetings, conferences and telephone calls to make sure that this legislation is right for the land. I can stand here today and say that, with the help of all of these groups, and many other interested individuals, this legislation is right.

I urge my colleagues to pass this legislation today, that we might let the other body know that we want this legislation passed this session.

Mr. MCCAIN. Mr. Speaker, will the gentleman from Montana yield further?

Mr. MARLENEE. I yield to the gentleman from Arizona [Mr. MCCAIN].

Mr. MCCAIN. Mr. Speaker, I would just like to mention that our great Arizona historian Marshall Trimble in his book "Arizona Adventure" talks about the riparian habitat in Arizona in the days gone by. In his book he says:

In the high country, abundant stands of quaking aspens were a gourmet's delight for the wily, paddle-tailed critters. Further downstream, cottonwood and willows lined the banks of rivers and streams. During this pristine period, prior to giant irrigation projects, tree-cutting and overgrazing, the verdant land was a veritable paradise.

I believe this legislation today can at least restore a small part of Arizona to that degree of pristine beauty.

Mr. MARLENEE. Mr. Speaker, I reserve the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield myself 1 minute.

As has already been pointed out, this bill makes no changes in existing law relating to hunting on public lands. All it does is to provide a general guide to the BLM as to the objectives that it is to follow in managing this land and developing a management plan.

I would point out, however, that that does include the right and duty where necessary to limit access to certain areas, and by controlling access it may obviously have an effect on hunting in those areas, but it is all to be done within the overall framework of this bill. It does not change the existing law with respect to which entity, the State or the Federal Government, decides which species may be hunted and where.

I just wanted to clarify that point for the RECORD.

Mr. MARLENEE. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I yield to the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. I thank the gentleman for yielding.

Mr. Speaker, the BLM and the Forest Service do have the ability and the right to limit access, ingress, or egress on any of the current public lands that they are managing.

Mr. SEIBERLING. That is correct. And, as has already been pointed out, this area presently is closed by the BLM pending action by Congress on this legislation.

□ 1320

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MARLENEE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. UDALL. Mr. Speaker, I am very pleased to rise in strong support today of H.R. 4811, which would designate the San Pedro Riparian National Conservation Area. This new area lies in Cochise County, AZ which I represented here in Congress for many years.

The lands covered by the bill are 43,000 acres of private lands that were acquired by the BLM in a major land exchange earlier this year. The lands are all in a narrow strip along about 30 miles of the San Pedro River that runs north from the Mexican border. Arizonans, as well as Federal officials, have been interested in protecting these special lands for many years.

The riparian area still retains about 75 percent of its native flora which is very unusual for a river in the Southwest. The nearby Gila, for example, has retained only about 10 percent and the Pecos about 15 percent. It is habitat for at least 20 species of raptors, a third of the entire United States population of gray hawks, and a total of about 210 species of birds. The diversity of mammals is considered the greatest of any area of comparable size in the country. The water that attracts

wildlife also has attracted man for thousands of years so the area is rich in archeological sites from early man, through 20th century Indians and Spanish settlers. The public recreation possibilities are outstanding.

The bill designates the area a "national conservation area." There are no real standards for what makes a national conservation area and we have approached the construction of this particular designation very carefully. Although generally my committee frowns on such designations because they are not well defined, we also recognize that this particular situation presents an opportunity to craft a management scheme that fits the unusual circumstances on the San Pedro.

The basic approach is to define the essential resources of the area—wildlife, archeologic, paleontologic, scientific, cultural, educational and recreational—and instruct BLM to draft a management plan promoting activities that further the protection and development of these resources while discouraging or prohibiting all activities that do not.

BLM is given pretty wide latitude in this regard, but there are some significant exceptions. First, all mining is banned after two current contracts signed by the former private landholder expire. Second, all vehicles are banned except on roads designated for their use by the management plan.

And finally, grazing is banned for at least 15 years. Like all too much of the lands in the Southwest, and especially its riparian lands, this area has been overgrazed. Our purpose in banning grazing, however, is not to make an antigrazing statement. Rather, it is an effort to create a riparian zone that has not been grazed by livestock, to study its ecosystem and provide a benchmark by which we can judge other riparian areas that may be characterized by good, bad, or indifferent grazing management practices. The ban against livestock grazing expires in 15 years so BLM can be given an opportunity to reevaluate this approach at that time. I want to emphasize that the fact that the ban sunsets in 15 years should in no way be interpreted as congressional intent to resume grazing after 15 years. It is my strong belief that grazing should be reintroduced only if the land managers believe it is necessary to do so for the ecological health of the riparian area and only then in such limited areas and for such limited time as they think is necessary.

There are essentially three current commercial activities in the area. All of them are operating under contracts with the former private landowner. These contracts all expire at the end of this year or the next. BLM intends to move all three of them—a grazing operation, a sand and gravel mine, and a "slumpblock" operation—out of the area when their contracts expire, and we fully support that intention.

Mr. Speaker, we have had unusual bipartisan cooperation and support from the very beginning of the effort to conserve the San Pedro. I want to offer a special note of appreciation to Dean Bibles, the Arizona State Director of BLM, for making the acquisition and protection of this area a personal priority and for meeting this challenge with great skill and dedication. I also would like to thank the rest of the Arizona congressional delegation for their help and to offer my congratulations to those many private citizens in southern Arizona who have worked so hard for this day for many years.

The SPEAKER pro tempore (Mr. GLICKMAN). The question is on the motion offered by the gentleman from Ohio [Mr. SEIBERLING] that the House suspend the rules and pass the bill, H.R. 4811, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

## SOCORRO COUNTY, NM, LAND CONVEYANCE

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4971) to direct the Secretary of the Interior to convey certain interests in lands in Socorro County, NM, to the New Mexico Institute of Mining and Technology, as amended.

The Clerk read as follows:

H.R. 4971

*Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,*

SECTION 1. TRANSFER OF LANDS.

(a) CONVEYANCE.—Subject to valid existing rights and except as provided in section 3, the Secretary of the Interior (hereafter in this Act referred to as the "Secretary") is authorized and directed to convey to the New Mexico Institute of Mining and Technology (hereafter in this Act referred to as the "Institute"), Sorocco, New Mexico, at fair market value, as determined by the Secretary, all right, title and interest of the United States in and to the public lands aggregating approximately 8,501.55 acres in Sorocco County, New Mexico, as generally depicted on a map entitled "New Mexico Institute of Mining and Technology Land Transfer, Socorro, New Mexico," dated 1985, to be used for research and education.

(b) SURVEY.—The conveyance required by subsection (a) shall occur only after the Institute performs and provides to the Secretary a survey of the archeological resources of the area which identifies the mitigation measures, if any, that the Institute, in coordination with the State of New Mexico Historic Preservation Office, will implement following the conveyance and shall be conditioned on the implementation of such mitigation measures.

SEC. 2. MAPS AND DESCRIPTION OF LANDS.

As soon as practicable after the enactment of this Act, the Secretary shall submit a map and legal description of the public lands designated in the first section of this Act to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives. Such a map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors or legal description may be corrected. The Secretary shall place such map and legal description on file, and make them available for public inspection, in the Office of the Director, New Mexico State Office, Bureau of Land Management, Santa Fe, New Mexico.

SEC. 3. RESERVATION OF RIGHTS.

There are reserved to the United States all minerals that may be found in the lands described in the first section: *Provided, however,* That such lands, except for valid existing rights, shall not be available for location and patent under the U.S. Mining Law, Act of May 10, 1872, 17 Stat. 91, 30 U.S.C. 22, 28, 28b.

The SPEAKER pro tempore. Is a second demanded?

Mr. MARLENEE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio [Mr. SEIBERLING] will be recognized for 20 minutes and the gentleman from Montana [Mr. MARLENEE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill would authorize and direct the Secretary of the Interior to convey to the New Mexico Institute of Mining and Technology the surface estate in 8,500 acres of Federal lands in Socorro County, NM.

The conveyance would be for fair market value as determined by the Secretary, and the mineral rights in the lands would be retained by the United States.

The conveyance would allow the expansion of the field laboratory which the New Mexico Institute of Mining and Technology uses for research purposes.

Legislation is required if the sale is to occur in a timely manner, as BLM has not completed the necessary revisions of its plans to enable them to dispose of the lands.

Mr. Speaker, the administration testified they had no objection to the bill, and I note that a similar bill (S. 1963) has been passed by the other body.

Our committee has reported the bill with a number of technical amendments which will require us to send this matter back to the Senate for further action. However, so far as I know, the changes are not controversial and I urge passage of the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. MARLENEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4971, a bill to convey, after payment of fair market value, approximately 8,501 acres of public land in Socorro County, NM, to the new Mexico Institute of Mining and Technology. Preliminary estimates are that the land is valued at $650,000 or approximately $75 to $80 an acre.

The land will be purchased by the institute for use by them as a testing area for explosives. We were told in our hearing on this bill that acquisition of the land is very important to the college and local community which depend on them a great deal for employment. Acquisition of additional testing sites will allow the college to better compete for several Government research contracts. In particular, we were told they are working on ways to better protect our embassies from such things as car bombs.

BLM supports the legislation. Section 202 of the Federal Land Policy and Management Act [FLPMA] would allow BLM to sell the land. However, a revison in the land use plan would have to be made first, which could take a long time. We are told that the institute is anxious to move ahead quickly.

The legislation protects valid existing rights, such as the mining claims and geothermal leases which exist on the land.

I commend my colleague from New Mexico [Mr. RICHARDSON], for his efforts in moving this legislation. I hope we can continue to work in a bipartisan fashion on other bills of this type.

I urge my colleagues to support the legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from New Mexico [Mr. RICHARDSON], the author of the bill.

Mr. RICHARDSON. Mr. Speaker, this bill is not only important to the future research capabilities for the New Mexico Institute of Mining and Technology in Socorro, MN, but for our Nation as a whole.

This is a relatively simple, noncontroversial bill which would allow New Mexico Tech—to buy at fair market value—some 8,505.55 acres of Bureau of Land Management land so that valuable educational research and testing work can continue to take place.

At the present time, the university's field laboratory does not have enough usable space. If the university's present laboratory space is not expanded an important component of our Nation's defense related research and testing capabilities will be hurt.

New Mexico Tech is nationally known for the work it has completed in the areas of petroleum recovery research, military hardware research, and explosive technology research. The entire military community is looking to New Mexico Tech to assume more of a role to fulfill their explosive testing obligations. This work requires large expanses of land for safety and security reasons. The land that would be conveyed to the school is necessary to meet both line-of-site and safety requirements. The land is adjacent to the present laboratory and is well situated for security purposes. The land will allow for economies of operation that might otherwise not exist in a location removed from the existing facility.

Mr. Speaker, this bill is fiscally responsible. The administration has no objection to the bill as the land would be purchased at fair market value. In addition, the bill recognizes and respects all current land uses. All valid and existing rights are protected, such as—grazing permits, geothermal leases and mining claims. The school has agreed to undertake, at its own expense, a survey of any archeological resources and will install air, water, and ground monitoring equipment.

This bill is necessary. New Mexico Tech needs to have clear title to this land because they cannot lease it from the Bureau of Land Management. BLM would be prohibited from issuing any permits or leases under the Federal Land Policy and Management Act [FLPMA] of 1976, because of the unique purpose that the land would be used for. The only way to ensure that these nationally important research projects can continue is if the bill is enacted into law.

Mr. Speaker, the testing at New Mexico Tech has proven to be economical—costing one-eighth to one-tenth of what it costs the Federal Government to conduct similar tests. The bill is supported by the Socorro, NM, city and county governments and the State of New Mexico. The ultimate effect of the expansion of the educational research and testing facility at New Mexico Tech would mean up to 200 to 300 new jobs.

Mr. Speaker, New Mexico Tech is a unique and important component in our overall defense related testing facilities. I would appreciate the support of my colleagues on this bill.

Mr. Speaker, another issue that was brought up in the markup and in the hearings on the legislation is the protection of the isopod, which is a unique species. The gentleman from New Mexico, in explaining what an isopod was, made a gross error in calling it a bug.

The bill protects the isopod by ensuring that a water reservoir is built.

In order to clarify the nature of an isopod, which was raised by the gentleman from Idaho [Mr. CRAIG], a distinguished biologist and also colleague, the gentleman from Minnesota [Mr. VENTO], will explain the correct terminology. Mr. Speaker, I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, it is important that we clarify the record, because in both the full committee and in the subcommittee the isopod was referred to as a bug by my colleague, the gentleman from New Mexico. The gentleman from New Mexico claimed that the Library of Congress informed him that it was a bug, but I doubt that they would subscribe to the authorship of such nomenclature. Then it was described by one of my other colleagues as being an arachnid.

It is not an arachnid, and it is certainly not an insect, but rather an isopod is a crustacean, a small crustacean that occurs in this New Mexico environment. I believe it is a freshwater environment. Isopoda is one of the orders in the larger group of invertebrates known as arthropods. No doubt the references in this instance are to a specific isopod, for as a group they can be found under almost any rock in a damp habitat.

Mr. Speaker, I commend my colleague, the gentleman from New Mexico, for his work in trying to provide adequate protection for this type of species.

Mr. RICHARDSON. Mr. Speaker, I thank the gentleman for that clarification.

For that reason, Mr. Speaker, and the others that I listed, I urge support for this bill. I also think my colleagues who, in a bipartisan way, have helped us produce this consensus legislation.

I also thank the gentleman from Ohio [Mr. SEIBERLING] for his outstanding work on behalf of all people, isopods included, around this country, and for his leadership on environmental issues. We certainly are going to miss the gentleman.

Mr. SEIBERLING. Mr. Speaker, I yield myself 30 seconds.

Mr. Speaker, maybe when we leave this body, we should form a new organization called "Anthropods for Isopods," and see what other invertebrates we can find that need protection.

Seriously, I think the gentleman has done a real service to the institute and to the people of his State and to the country. This institute is conducting extremely important work for the national defense and the national security, and they need this additional land. The bill provides the appropriate protection for isopods and other natural resources.

Mr. Speaker, I urge approval of the bill.

Mr. Speaker, I yield back the balance of my time.

□ 1330

Mr. MARLENEE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. GRAY of Illinois). The question is on the motion offered by the gentleman from Ohio [Mr. SEIBERLING] that the House suspend the rules and pass the bill, H.R. 4971, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 1963) to direct the Secretary of the Interior to convey certain interests in lands in Socorro County, NM, to the New Mexico Institute of Mining and Technology, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 1963

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

TRANSFER OF LANDS

(a) Subject to valid existing rights and except as provided in section 3, the Secretary of the Interior (hereafter in this Act referred to as the "Secretary") is authorized and directed to convey to the New Mexico Institute of Mining and Technology (hereafter in this Act referred to as the "Institute"), Socorro, New Mexico, at fair market value, as determined by the Secretary, all right, title, and interest of the United States in and to the public lands aggregating approximately 8,501.55 acres in Socorro County, New Mexico, as generally depicted on a map entitled "New Mexico Institute of Mining and Technology Land Transfer, Socorro, New Mexico" dated 1985, to be used for research and education.

(b) The conveyance required by subsection (a) shall occur only after the Institute performs and provides to the Secretary a survey of the archeological resources of the area which identifies the mitigation measures, if any, that the Institute, in coordination with the State of New Mexico Historic Preservation Office, will implement following the conveyance and shall be conditioned on the implementation of such mitigation measures.

MAPS AND DESCRIPTION OF LANDS

SEC. 2. As soon as practicable after the date of the enactment of this Act, the Secretary of the Interior shall submit a map and legal description of the public lands designated in the first section of this Act to the Committee on Energy and Natural Resources of the Senate, and the Committee on Agriculture and the Committee on Interior and Insular Affairs of the House of Representatives. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary of the Interior shall place such map and legal description on file, and make them available for public inspection, in the Office of the Director, New Mexico State Office, Bureau of Land Management, Santa Fe, New Mexico.

RESERVATION OF RIGHTS

SEC. 3. There are reserved to the United States all minerals that may be found in the lands described in the first section, *Provided, however,* That such lands, except for valid existing rights, shall not be available for location and patent under the United States Mining Law, Act of May 10, 1872 (17 Stat. 91; 30 U.S.C. 22, 28, 28b).

MOTION OFFERED BY MR. SEIBERLING

Mr. SEIBERLING. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. SEIBERLING moves to strike all after the enacting clause of the Senate bill, S. 1963, and to insert in lieu thereof the text of H.R. 4971 as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill (H.R. 4971) was laid on the table.

## GENERAL LEAVE

Mr. SEIBERLING, Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

## CUYAHOGA VALLEY NATIONAL RECREATION AREA AMENDMENTS

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4645) to modify the boundaries of the Cuyahoga Valley National Recreation Area, as amended.

The Clerk read as follows:

H.R. 4645

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. BOUNDARY ADJUSTMENT.

Section 2 of the Act entitled "An Act to provide for the establishment of the Cuyahoga Valley National Recreation Area", approved December 27, 1974 (16 U.S.C. 460ff et seq.), is amended as follows:

(1) In subsection (a), strike "numbered 655-90,001-A and dated May 1978" and insert "numbered 644-80,054 and dated July 1986".

(2) At the end of subsection (a), insert the following:

"The recreation area shall also comprise any lands designated as 'City of Akron Lands' on the map referred to in the first sentence which are offered as donations to the Department of the Interior or which become privately owned. The Secretary shall revise such map to depict such lands as part of the recreation area.".

(3) In subsection (b), after the first sentence, insert the following:

"The Secretary may not acquire fee title to any lands included within the recreation area in 1986 which are designated on the map referred to in subsection (a) as 'Scenic Easement Acquisition Areas'. The Secretary may acquire only scenic easements in such designated lands. Unless consented to by the owner from which the easement is acquired, any such scenic easement may not prohibit any activity, the subdivision of any land, or the construction of any building or other facility if such activity, subdivision, or construction would have been permitted under laws and ordinances of the unit of local government in which such land was located on April 1, 1986, as such laws and ordinances were in effect on such date.".

The SPEAKER pro tempore. Is a second demanded?

Mr. LAGOMARSINO. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to bring to the House H.R. 4645, introduced by our colleague, JOHN SEIBERLING.

The measure would authorize the inclusion of approximately 1,100 acres within the park, with all but two parcels being added on to the present southern boundary of the park. Of the additions, approximately 640 acres are proposed to be acquired in fee and 487 acres in easements, plus donation.

The vast majority of the contemplated fee acreage is owned by the city of Akron, which under the provisions of the park's enabling act can only be acquired by donation. H.R. 4645, as amended, clarifys the status of lands owned by the city of Akron. The bill specifies that the city-owned property identified will be included in the boundary only upon its donation to the United States or in the event the city disposes of the land to private interests.

The remaining fee acreage included in H.R. 4645 consists of the right-of-way for the historic steam railroad that operates in the park. The scenic easements authorized by the legislation will, if so acquired, protect one parcel in the Brecksville portion of the park, while the remainder of the easements would protect the southern viewshed of the park. H.R. 4645, as amended, stipulates that unless con-

sented to by the owner, no scenic easement acquired may prohibit any activity, subdivision, or construction on the property acquired if so permitted under local laws and ordinances which are in effect in the local political subdivision in which the land is located, as of April 1, 1986.

Mr. Speaker, I want to take this opportunity to commend the gentleman from Ohio [Mr. SEIBERLING] for putting together this farsighted proposal. Our colleague, JOHN SEIBERLING, has announced that he will conclude his service and therefore this measure will be his last formal touch to the Cuyahoga Valley NRA area, but certainly we will continue to seek his counsel whether formal or informal as we guide policy with respect to Cuyahoga Valley NRA—it certainly represents the realization of JOHN SEIBERLING's work close to his home and doubtless his heart. This measure adds very little to the present administrative demands of the park. The policy advocated will provide the National Park Service with new flexibility to deal with future changes in the use and management of lands that are important to the park.

I urge adoption of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as you know, this bill would increase the Cuyahoga Valley National Recreation Area by approximately 1,127 acres. Of that amount, 640 acres would be acquired in fee title with conservation easements purchased for the remaining 487 acres. Of the acreage to be acquired in fee, 60 acres are owned by the Chessie Railroad and will be used for a historic steam train. The railroad right-of-way is a priority acquisition for the National Park Service and will enhance the transportation system for the National Recreation Area.

I would like to commend the bill's sponsor, the gentleman from Ohio, Mr. SEIBERLING, for his sincere efforts to improve this bill and alleviate some of the concerns expressed earlier with regard to the bill. Furthermore, I would hope that the gentleman's intent that the Park Service not acquire any of the lands authorized in this bill becomes a reality. During these times of necessary fiscal restraint, I feel it is important that new acquisitions not be authorized unless absolutely critical, in an effort to reduce the current backlog of authorized, but unacquired park lands. However, I understand the gentleman's intent to have this bill serve as an insurance policy against future high-rise developments adjacent to the national recreation area. Hopefully, local zoning will prevent such actions and render Park Service acquisition of the lands and interests unnecessary. However, I believe the gentleman's intentions are meritorious and I therefore support enactment of H.R. 4645.

Mr. Speaker, I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. I thank the gentleman for yielding to me.

Mr. Speaker, first of all, let me thank my distinguished colleague, Mr. VENTO, the chairman of the subcommittee, and the ranking minority member, Mr. LAGOMARSINO, for their sympathetic consideration of this legislation and for the kind words they have just said.

Mr. Speaker, I would feel very great misgivings about retiring from this body at the end of the year were it not for the fact that the future of this national recreation area, which is very dear to my heart, is likely to remain in their hands as well as the distinguished chairman of the Interior Appropriations Subcommittee, Mr. YATES and Mr. RALPH REGULA, the ranking minority member on that subcommittee.

They have all shown great consideration for ensuring that the needs of this important national asset are properly considered, I appreciate all that they have done in the past, and I have great confidence that they will continue that kind of support in the future.

I also want to thank the Director of the Park Service, Mr. William Mott, whose interest in this and other urban national recreation areas has established a new high for the Park Service and whose particular interest and knowledge about the Cuyahoga National Recreation Area has given me great satisfaction.

Mr. Speaker, H.R. 4645 makes only minor changes in the boundaries of the Cuyahoga Valley National Recreation Area [CVNRA] but is important in fine-tuning the current boundaries and providing the Park Service with a means of protecting key scenic areas in the park from future incompatible development that could mar the scenic quality of the valley.

As reported from committee, the bill takes a nonintrusive approach toward this objective that is not likely to involve any cost to the Government in the foreseeable future.

It provides for the boundary to include lands presently owned by the city of Akron but only if those lands are donated by the city or transferred to private ownership. In this way, those lands could one day form a protected southern gateway to the national recreation area. However, they will remain outside the park and under complete control of the city of Akron as long as they are needed for municipal purposes. If the lands eventually are donated to the Park Service, of course, it would be at no cost to the CVNRA.

The bill would add three scenic easement zones, the two largest of which are at the southern end of the park. Within these zones the Park Service could not use eminent domain to acquire from residential property owners any development rights permitted under local zoning in effect as of April 1986. No fee title could be acquired by the Park Service in these areas, but only easement purchases, and these only to the extent needed to prevent development that is presently prohibited by current zoning laws. So as long as such zoning is in force, there will be no need for any purchase by the Park Service in these areas. This would not only be a boon to property owners who want to preserve the residential character of the area, but would also increase the scenic value of lands already purchased at the southern boundary of the park which are extremely sensitve to scenic intrusion from development to the south.

The bill also authorizes the entire Cuyahoga Valley Line steam train tracks to be included in the boundaries. The right-of-way is currently owned by the Chessie System, but the Park Service is negotiating to acquire it. To facilitate operation of the train and preserve an important corridor for future rail transportation of visitors to the park, this means adding some 90 acres of the Chessie right-of-way between the northern southern boundaries of the park and the terminal facilities in Cleveland and Akron. Since the acquisition of those portions of the line already within the boundary of the park would have left so-called uneconomic remainders outside the park, the Park Service would have had to pay for the resultant reduction in value of the portions outside of the park even if it did not acquire them—so this provision is not expected to increase land acquisition costs in the CVNRA.

I urge my colleagues to support this modest measure to give the Park Service the tools it needs to protect the important recreational, scenic, and historic resources in the CVNRA.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I just want to point out to my colleagues that when I said that this recreation area was close to the home and to the heart, obviously, of our colleague Mr. SEIBERLING. I was incorrect; his home is actually in the Cuyahoga Valley National Recreation Area. He has himself been very generous in terms of supporting that recreation area by donation of easements to the recreation area and himself has personally negotiated with many of the landowners and constituents that also, incidentally have to elect him,

negotiating away some of their rights in this area. No mean task, Mr. Speaker.

□ 1340

So JOHN SEIBERLING has been as hard and tough in terms of developing public policy here with respect to his own area as he has been with respect to so many other areas where the deft touch of the gentleman from Ohio, Mr. JOHN SEIBERLING, has been left in public policy from Alaska to Florida. Our conservation units and resources are in far better shape because of his contributions.

I wanted to make these observations and to correct my statement so the record is clear. I thank the gentleman from Ohio, for his kind comments about our work, and in the future we will continue to look forward to his help regarding the Cuyahoga National Recreation Area as well as other topics.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. GRAY of Illinois). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 4645, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

## AUTHORIZING THE ESTABLISHMENT OF A PEACE GARDEN

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4467) to authorize the establishment of a Peace Garden on a site to be selected by the Secretary of the Interior, as amended.

The Clerk read as follows:

H.R. 4467

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. ESTABLISHMENT OF PEACE GARDEN.

The Secretary of the Interior, acting through the Director of the National Park Service is authorized to enter into an agreement with the Peace Garden Project, Incorporated (a nonprofit corporation organized under the laws of the State of California) pursuant to which the Peace Garden Project, Incorporated may construct a garden to be known as the "Peace Garden" on a site on Federal land in the District of Columbia to honor the commitment of the people of the United States to world peace. The site for the Peace Garden shall be selected by the Secretary of the Interior, subject to the approval of the Commission of Fine Arts and the National Capital Planning Commission.

SEC. 2. PROCEDURES AND DOCUMENTATION.

(a) PROCEDURES.—The site selection, design and contruction of the Peace Garden shall comply with all procedures, rules, policies, and provisions of law applicable to the establishment of commemorative works on Federal land in the District of Columbia.

(b) DOCUMENTATION.—The agreement under section 1 shall require that the Peace Garden Project, Incorporated provide complete documentation of the design and construction of the Peace Garden to the Director of the National Park Service. Such documentation shall be permanently maintained.

SEC. 3. PREPARATION AND APPROVAL OF DESIGN PLANS.

The agreement under section 1 shall require the Peace Garden Project, Incorporated to be responsible for the preparation of the design plans for the Peace Garden. Such plans shall be subject to the approval of the Secretary of the Interior, the Commission of Fine Arts, and the National Capital Planning Commission.

SEC. 4. APPROVAL FOR COMMENCEMENT OF CONSTRUCTION.

The Peace Garden Project, Incorporated may not commence construction of the Peace Garden until both of the following conditions have been met:

(1) The Secretary of the Interior has determined that the full amount of funds estimated to be necessary for the completion of such construction in accordance with the design plans approved under section 3 are available from non-Federal sources.

(2) An additional amount equal to 10 percent of the estimated construction cost has been made available from non-Federal sources to the Secretary of the Interior to provide for maintenance of the Peace Garden.

SEC. 5. MAINTENANCE.

The Secretary of the Interior shall, upon the completion of the construction of the Peace Garden, maintain the garden. Notwithstanding any other provision of law, the Secretary may retain and use for such purpose the monies made available under paragraph (2) of section 4.

SEC. 6. PAYMENT OF EXPENSES.

The United States may not pay any expense of the construction of the Peace Garden except that technical advice may be provided by the Secretary of the Interior as he deems necessary.

SEC. 7. EXPIRATION OF AUTHORITY.

The authority to establish the Peace Garden under this Act shall expire at the end of the 5-year period beginning on the date of the enactment of this Act, unless construction of such garden begins during such period.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4467, introduced by my good friend and colleague, GEORGE MILLER, authorizes the Peace Garden Project, Inc., to establish a Peace Garden here in our Nation's Captial. This garden will serve to further demonstrate our national commitment to world peace and to reinforce its importance to all of us.

As a Nation, we are dedicated to peace. Visitors to our National Capital, however, seeing all the great memorials to military heroes and service, might well not perceive their purpose and commitment to peace and what it means to our Nation. Presently, this city does not reflect the degree of our commitment to peace as fully as it could. The Peace Garden project proposes to modify this appearance by constructing a garden dedicated to the principles of peace. Such a garden would be nonsectarian and non-ideological, and reflect American values and design.

H.R. 4467 authorizes the Secretary of the Interior, acting through the Director of the National Park Service, to enter into an agreement with the Peace Garden Project, Inc., to design and construct such a Peace Garden in Washington, DC. The bill requires approvals from the Secretary of the Interior, the Commission of Fine Arts, and the National Capital Planning Commission. The Peace Garden Project, Inc., is also responsible for raising the funds for the garden's construction and toward its maintenance.

Mr. Speaker, I wish to commend our colleague, GEORGE MILLER for his work on H.R. 4467. This is a good bill working for the worthy goal of lasting peace.

I urge all of my colleagues to support this bill.

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. VENTO. I am happy to yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, I would like to add my comments in commendation of our colleague, the gentleman from California [Mr. GEORGE MILLER] and also of the gentleman from Minnesota [Mr. VENTO], for moving this legislation.

As has already been pointed out, it is fitting and appropriate that we have some memorial in Washington in recognition of the tremendous desire of this Government and the people of the United States to promote the cause of peace both here and abroad. In the words of Abraham Lincoln, we have "to do all that may achieve and cherish a just and lasting peace among ourselves with all nations."

During the hearing on this bill, I was moved to recall an old English poem from the Elizabethan period by an anonymous poet which I felt expressed the philosophy behind this bill, and for the RECORD, I will give it to my colleagues right now. it is very short. It goes like this:

A garden is a lovesome thing, God wot.
Rose plot, fringed pool, ferned grot.
The veriest school of peace.
And yet the fool contends that God is not.
Not God, in gardens?
Nay, when the eye is cool,
I have a sign.
'Tis very sure God walks in mine.

Mr. VENTO. Mr. Speaker, I thank the gentleman from Ohio [Mr. SEIBERLING], and I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to make a few brief comments on H.R. 4467.

This bill would authorize the establishment of a Peace Garden to honor the U.S. commitment to world peace. The garden will be located on Federal land in the District of Columbia on a site selected by the Secretary of Interior, presumably outside of the National Mall or West Potomac Park. The garden will be developed and constructed by a nonprofit organization, the Peace Garden project. The bill provides that the authority to establish the garden will expire 5 years after its enactment unless construction has begun.

I want to commend the subcommittee chairman, Mr. VENTO, for his efforts to improve the bill during the committee process. The changes made were in keeping with the intent of a bill this body passed earlier this year which developed standards for the establishment of commemorative works within the National Capital region of the National Park System. One of the most significant perfecting amendments requires that 10 percent of the estimated construction cost be provided to the Secretary of the Interior by the organization for future maintenance of the garden.

Mr. Speaker, H.R. 4467 provides that no Federal funds may be used to establish the garden. In addition, future maintenance costs should be minimal due to the trust fund provision. Furthermore, I believe that such a garden would enhance the beauty of our Nation's Capital and serve as a reminder of our commitment to world peace. Therefore, I support its passage.

Mr. Speaker, I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 4467, as amended.

The question was taken; and (two-thirds have voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

## INDIANA DUNES NATIONAL LAKESHORE AMENDMENTS

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4037) relating to the Indiana Dunes National Lakeshore, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4037

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. INDIANA DUNES NATIONAL LAKESHORE.

(a) BOUNDARY CHANGES.—The first section of the Act entitled "An Act to provide for the establishment of the Indiana Dunes National Lakeshore, and for other purposes", approved November 5, 1966 (16 U.S.C. 460u), is amended by striking out "December 1980, and bearing the number 626-91014" and inserting in lieu thereof "July 1986, and numbered 626-80033".

(b) DEFINITION OF IMPROVED PROPERTY.—Section 4 of such Act is amended by striking out the first sentence and substituting: "As used in this Act, the term 'improved property' means a detached, one-family dwelling which meets each of the following criteria.

"(1) The construction of the dwelling began before the date (shown in the table contained in this section) corresponding to the appropriate map.

"(2) The property is located within the boundaries delineated on the map described in such table which corresponds to such date.

"(3) The property is not located within the boundaries of any other map referred to in such table which bears an earlier date.

The term 'appropriate map', means a map identified as 'Boundary Map-Indiana Dunes National Lakeshore' (or 'A Proposed Indiana Dunes National Lakeshore' in the case of a dwelling the construction of which was begun before January 4, 1965) which is dated and numbered as provided in the following table.

| Property Within Boundaries of Map | Construction Began Before |
|---|---|
| Dated January 1986, #626-80033 | February 1, 1986 |
| Dated December 1980, #626-91014 | January 1, 1981 |
| Dated September 1976, #626-91007 | February 1, 1973 |
| Dated September 1966, #LNPNE-1008-ID | January 4, 1965 |

The term 'improved property' also includes the land on which the dwelling is situated which meets both of the following criteria:

"(A) The land is in the same ownership as the dwelling.

"(B) The Secretary has designated the land as reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use.

Such term also includes any structures accessory to the dwelling which are situated on the lands so designated. The maps referred to in this section shall be on file and available for public inspection in the Office of the Director of the National Park Service, Department of the Interior. The Secretary shall designate the land referred to in subparagraph (B).".

(c) RETAINED RIGHTS.—Section 5(a) of such Act (16 U.S.C. 460u-5a) is amended as follows:

(1) Strike out "the first section" and inserting in lieu thereof "section 4, dated December 1980, and numbered 626-91014."

(2) Strike out ": Provided, That" and substitute a period followed by "In the case of improved property within the boundaries of the map dated December 1980 and numbered 626-91014".

(3) After "(a)" strike "Except for" and insert "(1) Except for owners described in paragraph (2) and".

(4) Strike "(1)" in each place it appears and substitute "(A)" and strike "(2)" and substitute "(B)".

(5) Add the following at the end thereof:

"(2)(A) In the case property included within the boundaries of the lakeshore after 1980, any owner or owners of record of improved propery may retain a right of use and occupancy for noncommercial residential purposes for a term ending at either of the following:

"(i) A fixed term not to extend beyond September 30, 2010, or such lesser fixed term as the owner or owners may elect at the time of acquisition.

"(ii) A term ending at the death of any owner or of a spouse of any owner, whichever occurs last.

The owner shall elect the term to be reserved.

"(B) The retention of rights under subparagraph (A) shall be available only to individuals who are homeowners of record as of July 1, 1986, who have attained the age of majority as of that date and who make a bona fide written offer not later than July 1, 1991 to sell to the Secretary.".

(d) AUTHORIZATION.—Section 9 of such Act (16 U.S.C. 460u-9) is amended as follows:

(1) In the first sentence strike "$11,000,000" and insert in lieu thereof "$25,000,000".

(2) Add after the last paragraph "In addition to any other sums authorized for the acquisition of lands and interests in lands pursuant to the provisions of this Act there are authorized to be appropriated in additional $3,807,000 to be used for such purposes. The Secretary shall conduct a feasibility study of establishing U.S. Highway 12 as the 'Indiana Dunes Parkway' under the jurisdiction of the National Park Service. The Secretary shall submit the results of such study to the Committee on Interior and Insular Affairs of the United States

House of Representatives and the Committee on Energy and National Resources of the United States Senate within 2 years after the enactment of this sentence. Effective October 1, 1986, there is authorized to be appropriated such sums as may be necessary for the purposes of conducting the feasibility study.".

(e) OWNER CONSENT REQUIRED.—Section 13 of such Act (16 U.S.C. 460u-13) is amended by striking out "the first section" and inserting in lieu thereof "section 4, dated December 1980, and numbered 626-91014".

(f) MAP REFERENCE.—Section 16 of such Act (16 U.S.C. 460u-16) is amended by inserting at the end of the first sentence "on the map referred to in section 4, dated September 1976, and numbered 626-9100".

(g) RIGHTS-OF-WAY.—Section 15 of such Act is amended by adding the following at the end thereof: "The Secretary may acquire only such interest in the rights-of-way designated 'Crossing B' and 'Crossing C' on the map dated July 1986 and numbered 626-80033 as he determines to be necessary to assure public access to the banks of the Little Calumet River and the banks of Salt Creek within 50 feet on either side of the centerline of said river and creek.".

(h) COOPERATIVE AGREEMENT AND STUDY.—Add the following new section at the end of such Act:

"SEC. 24. LITTLE CALUMET RIVER AND BURNS/PORTAGE WATERWAY.

"(a) COOPERATIVE AGREEMENT.—The Secretary may enter into a cooperative agreement with the Little Calumet River Basin Development Commission, the State of Indiana or any political subdivision thereof for the planning, management, and interpretation of recreational facilities on the tract within the boundaries of Indiana Dunes National Lakeshore identified as tract number 09-177 or on lands under the jurisdiction of the State of Indiana or political subdivision thereof along the Little Calumet River and Burns Waterway. The cooperative agreement may include provisions for the planning of public facilities for boating, canoeing, fishing, hiking, bicycling, and other compatible recreational activities. Any recreational developments on lands under the jurisdiction of the National Park Service planned pursuant to this cooperative agreement shall be in a manner consistent with the purposes of this Act, including section 6(b).

"(b) STUDY.—The Secretary shall conduct a study regarding the options available for linking the portions of the lakeshore which are divided by the Little Calumet River and Burns/Portage Waterway so as to coordinate the management and recreational use of the lakeshore. The Secretary shall submit the results of the study to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and National Resources of the United States Senate within 2 years after the enactment of this section. Effective October 1, 1986, there is authorized to be appropriated such sums as may be necessary for the purposes of conducting the study.".

**The SPEAKER pro tempore. Is a second demanded?**

**Mr. LAGOMARSINO. Mr. Speaker, I demand a second.**

**The SPEAKER pro tempore. Without objection, a second will be considered as ordered.**

**There was no objection.**

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4037 was introduced by our colleague PETER VISCLOSKY. The legislation, as amended, would modify the boundaries of the Indiana Dunes National Lakeshore, make adjustments in the development and land acquisition ceilings and authorize a cooperative agreement and several studies on lands related to the national lakeshore.

As an urban national park unit, carved out of a major population and industrial center, the national lakeshore has developed in an area greatly altered by residential and industrial development. With over 2 million visitors annually, the extensive sand beaches, dunes, marshes, woodlands, and prairie vegetation found within the national lakeshore provide a rich resource for residents of and visitors to the area.

The changes proposed by the legislation before the House today will further enhance the use and management of this national lakeshore. H.R. 4037, as amended, authorizes the inclusion of eight parcels within the "lakeshore boundary." The Committee on Interior and Insular Affairs received extensive testimony and even petitions from affected landowners on including additional property within the boundary. The parcels included represent some of the most significant in terms of addressing the resource protection and utilization needs of the lakeshore. Likewise, with the existing authority for development and land acquisition funding having been exhausted, the funding increases included in H.R. 4037 will enable the National Park Service to meet identified development and land acquisition needs.

H.R. 4037, as amended, also includes language giving the Secretary authority to enter into a cooperative agreement concerning the development of recreational facilities along the Little Calumet River and Burns/Portage Waterway. This cooperative agreement is intended to be limited to technical assistance only. The bill also includes language authorizing a study of U.S. Highway 12 through the lakeshore for possible designation as the "Indiana Dunes Parkway" and a study of the options available for linking the east and west units of the national lakeshore.

Mr. Speaker, I think the gentleman from Indiana [Mr. VISCLOSKY] has done an excellent job in putting together a proposal that reflects positively on the national lakeshore and its neighboring communities. The legislation before us today will further the care and management of this national resource for the benefit of all the people of the United States.

I urge adoption of H.R. 4037.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to comment briefly on H.R. 4037.

As the subcommittee chairman has explained, this measure, as approved by the Subcommittee on National Parks and Recreation, would add approximately 860 acres to the Indiana Dunes National Lakeshore and increase its appropriations ceiling for development by $14 million. The bill also authorizes studies to establish ways to link the east and west units of the lakeshore and to determine the feasibility of establishing U.S. Highway 12 as the "Indiana Dunes Parkway." In addition, the bill authorizes cooperative agreements between the Federal, State and local agencies to develop recreational facilities within the lakeshore.

Mr. Speaker, I believe this bill was improved during the committee process and I want to commend the bill's sponsor, Mr. VISCLOSKY for his cooperation in resolving some of the issues associated with this bill. I believe he's done a good job and I'm pleased the subcommittee chairman, Mr. VENTO, is moving this bill forward.

Although I strongly feel that Congress needs to carefully consider the authorization of new funding for studies, such as those included in H.R. 4037, particularly during these times of fiscal restraint, I believe that the intent of the bill is meritorious and that several of its provisions will serve to improve the Indiana Dunes National Lakeshore. Therefore, I support its passage.

Mr. VENTO. Mr. Speaker, I yield such time as he may consume to the gentleman from Indiana [Mr. VISCLOSKY.]

□ 1350

Mr. VISCLOSKY. Mr. Speaker, first of all, I want to use this opportunity to thank my subcommittee chairman, the gentleman from Minnesota [Mr. VENTO], as well as the gentleman from California and the staff for the fine cooperation I have had during the last year and a half in developing this legislation, in amending it and trying to perfect its provisions. They have been of great help and it could not have been done without them and I certainly want the record to reflect that.

I would also like before I begin my remarks to make one item extremely clear and that regards parcel 2(i) as identified on the map in section 1(A);

that is to say, as with section 10 in the existing act, the exercise of the authority of the Secretary to acquire interest in the right of way designated as parcel 2(i) as identified on the map in section 1(A) is not intended to permit the diminishment or interruption, change in ownership or change in operation of any existing electrical or railroad right-of-way on the above referenced parcel.

I would like to take this time now, Mr. Speaker, simply to emphasize the three elements that I attach the most importance to regarding the passage of this bill.

The first is that a natural area has been set aside in northwest Indiana, an area that is undergoing great structural change. We would like to develop this resource so that we can have new job opportunities by improving the quality of life, new job opportunities in the short term through the increase of the developmental ceiling and possible recreational development between the Ogden Dunes and the national steel area; also job opportunities in the future because we have improved the quality of life.

Second, as far as the recreational development of the dunes themselves, to make sure that access is assured for all the people living in northwest Indiana, the great Chicago metropolitan area and the Nation as a whole.

Last and paramount is to make sure that additional natural areas are preserved for future generations. I believe the legislation accomplishes all three of these goals in a balanced fashion that has met the objections of all the parties involved and has sought to be positive in supporting the emphasis in areas that they are concerned about.

I would also encourage the Members of this body to support passage.

Mr. VENTO. Mr. Speaker, I yield 4 minutes to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Speaker, I thank my colleague, the gentleman from Minnesota. I appreciate this opportunity to speak on this important measure which I wholeheartedly support.

It was my great fortune in life to have at one time served on the staff of the former U.S. Senator from Illinois, Paul Douglas. Paul Douglas was elected to the U.S. Senate in 1948 and served for 18 years.

Paul Douglas said of himself when he came to the U.S. Senate that it was his goal to save the world. After having served one term, he decided that he would be satisfied if he could just save the State of Illinois, and by the time he was ready to retire he said that he would have been happy just to save the Indiana Dunes.

Those who can recall the valiant effort made by Paul Douglas from 1957 to 1966 know that he was richly rewarded in 1966 when we passed the legislation which created the Indiana Dunes National Lakeshore.

There were many Members of Congress, in fact, many still sitting today, who played an integral role in the creation of the Indiana Dunes and helped Paul Douglas make this dream a reality. Among those from Illinois included my colleague who serves now from Illinois, MEL PRICE. In fact, the gentleman who is now serving as the Speaker in this particular Chamber, the gentleman from Illinois [KENNY GRAY] played an important role in the creation of the Indiana Dunes.

The gentleman from Arizona [Mr. MO UDALL] was also instrumental in that, as well as former Congressman Abner Mikva, who went on to become a Federal judge.

It is interesting as we stand here today to pass this important legislation expanding the Indiana Dunes National Lakeshore that we are, in fact, about to celebrate the 20th anniversay of that momentous legislative accomplishment. Twenty years ago Paul Douglas, caught up in what was to be his last political campaign, called on then Speaker John McCormack to lobby for him on the floor of this very House of Representatives and successfully brought the votes together to create the Indiana Dunes.

In a few weeks we will be commemorating the 10th anniversary of the death of Paul Douglas. It is fitting that as we do that we take a step forward in this Chamber on a project that was so near and dear to his heart.

Mr. Speaker, I rise in support of this bill. I commend it to my colleagues and I ask them to join me in pledging the support of this generation to the noble cause of saving the Indiana Dunes.

Mr. VENTO. Mr. Speaker, I just want to commend the gentleman for his observation of Paul Douglas' role and others with regard to the Indiana Dunes. There have been and continues to be an outstanding effort to try to improve the public policy and the designations that have been made in the past. It is a continuing battle to preserve these urban parks. The gentleman from Indiana [Mr. VISCLOSKY], our colleague on the committee, and the important work done on the Appropriations Committee by Mr. YATES and Mr. DURBIN, are absolutely essential if we are to finally realize what the hopes of those who initially sponsored these measures were. There is a lot of work to be done here. It may not receive as much attention as it should, but it is very significant in realizing the dream of what the Indiana Dunes envisioned when Paul Douglas initiated the policy and what we have to do tomorrow in achieving its realization.

Our colleague, the gentleman from Indiana [Mr. VISCLOSKY], is working hard on that with others and I commend these gentleman for their continuing attention and interest in the national lakeshore.

Mr. LAGOMARSINO. Mr. Speaker, I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GRAY of Illinois). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 4037, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

## MAKING IN ORDER, DURING CONSIDERATION OF H.R. 4428, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1987, THE OFFERING OF MONTGOMERY AMENDMENTS BY ANOTHER MEMBER

Mr. MONTGOMERY. Mr. Speaker, because of an emergency in my home, it is possible that I may be unable to be here when my amendments to H.R. 4428 are called up.

I ask unanimous consent that, notwithstanding the requirements of the rule (H. Res. 531), amendments made in order to H.R. 4428, if offered by me, be in order if offered by the gentleman from Missouri [Mr. SKELTON].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

## JOB TRAINING PARTNERSHIP AMENDMENTS OF 1986

Mr. HAWKINS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5185) to make certain amendments to the Job Training Partnership Act, as amended.

The Clerk read as follows:

H.R. 5185

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE; REFERENCES.

(a) SHORT TITLE.—This Act may be cited as the "Job Training Partnership Amendments of 1986".

(b) REFERENCES.—References in this Act to "the Act" are references to the Job Training Partnership Act.

SEC. 2. DEFINITION OF ECONOMICALLY DISADVANTAGED.

Section 4(8)(B) of the Act is amended by striking out "six-month period" and inserting in lieu thereof "12-month period".

SEC. 3. DESIGNATION OF SERVICE DELIVERY AREAS BASED ON LABOR MARKET AREAS.

Section 101(a)(4)(A)(ii) of the Act is amended by striking out "a labor market area" and inserting in lieu thereof "one or more labor market areas.".

SEC. 4. LITERACY AND DROPOUT PREVENTION PROGRAMS.

Section 123 of the Act is amended—

(1) in subsection (a)—

(A) by striking out "and" at the end of paragraph (1);

(B) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; and"; and

(C) by inserting at the end of such subsection the following new paragraph:

"(3) to provide, in accordance with agreements under subsection (a)—

"(A) literacy training to youth and adults;

"(B) dropout prevention and reenrollment services to youth, giving priority to youth who are at risk of becoming dropouts;

"(C) a State-wide school-to-work transition program operated in a manner consistent with section 205(e); or

"(D) any combination of the activities described in subparagraphs (A), (B), and (C) of this paragraph."; and

(2) in subsection (c)—

(A) by striking out the first sentence of paragraph (2)(B) and inserting in lieu thereof the following: "At least 80 percent of the funds available under this section shall be used for clauses (1) and (3) of subsection (a) for the Federal share of the cost of carrying out activities described in such clauses, and at least 40 percent of the funds available under this subparagraph shall be used for clause (3) for the Federal share of the cost of carrying out activities described in such clause."; and

(B) by striking out "clause (1)" in paragraph (3) and inserting in lieu thereof "clause (1) and (3)".

SEC. 5. INTRASTATE HOLD HARMLESS ALLOCATION REQUIREMENT.

(a) Section 202(a) of the Act is amended—

(1) in paragraph (2), by striking out "Of" and inserting in lieu thereof "Subject to the provisions of paragraph (3), of";

(2) by redesignating paragraph (3) as paragraph (4); and

(3) by inserting after paragraph (2) the following new paragraph:

"(3) For fiscal years beginning after September 30, 1986, no service delivery area within any State shall be allocated an amount equal to less than 90 percent of its allocation percentage for the fiscal year preceding the fiscal year for which the determination is made. The allocation percentage for a service delivery area is the percentage which the service delivery area received of the total amount allocated pursuant to this subsection to all service delivery areas in all the States for such preceding fiscal year. If the amounts appropriated pursuant to section 3 (a) and (b) are not sufficient to provide an amount equal to at least 90 percent of such allocation percentages to each such area, the amounts allocated to each area shall be ratably reduced.".

(b) Section 251(b) of the Act is amended by striking out "section 202(a) (2) and (3)" and inserting in lieu thereof "section 202(a) (2), (3), and (4)".

SEC. 6. USE OF FUNDS TO SUPPORT SUMMER YOUTH PROGRAMS.

Section 203(b)(2) of the Act is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end thereof the following new subparagraph:

"(B) A service delivery area may use funds provided under this part to provide or support remedial education under part B of this title during the interval between participants' regular school years, if the service delivery area sets forth in its plan a description of the methods by which the services, facilities, or equipment provided or supported will be available for use by participants under this part and part B throughout the program year. Any funds made available under part B of this title that are used to provide or support such remedial education may be counted toward not more than one-fourth of the amount required (by paragraph (1)) to be expended under this part to provide authorized services to eligible youth.".

SEC. 7. USE OF INCENTIVE GRANT FUNDS.

Section 202(b)(3)(B) of the Act is amended—

(1) by striking out "which do not qualify for incentive grants under this subparagraph"; and

(2) by adding at the end thereof the following: "Funds available under this subparagraph may, without regard to section 108(a), be used by the Governor or a service delivery area during not more than five program years to develop and implement a data collection system to track the postprogram experience of participants under this part.".

SEC. 8. AVAILABILITY OF SUMMER YOUTH PROGRAMS DURING NONSUMMER MONTHS.

Section 253(a) of the Act is amended by inserting before the period at the end the following: ", except that a service delivery area may, within the jurisdiction of any local educational agency that operates its schools on a year-round, full-time basis, offer the programs under this part to participants during a vocation period treated as the equivalent of a summer vacation".

SEC. 9. PROHIBITION OF MATCHING ON GRANTS FROM SECRETARY'S DISCRETIONARY FUNDS UNDER TITLE III.

Section 301(c) of the Act is amended by adding at the end thereof the following new sentence: "Such criteria shall not include any requirement that, in order to receive assistance under this subsection, the State shall provide a matching amount with funds available from one or more other sources.".

SEC. 10. IDENTIFICATION OF DISLOCATED WORKERS.

Section 302(a) of the Act is amended—

(1) by striking out "or" at the end of clause (2);

(2) by striking out the period at the end of clause (3) and inserting in lieu thereof a semicolon and the word "or"; and

(3) by inserting at the end thereof the following:

"(4) were self-employed (including farmers) and are unemployed as a result of general economic conditions in the community in which they reside or because of natural disaster, subject to the next sentence.

The Secretary shall establish categories of self-employed individuals and of economic conditions and natural disasters to which clause (4) of the preceding sentence applies.".

SEC. 11. TAXATION OF JOB CORPS OPERATIONS PROHIBITED.

Section 437(c) of the Act is amended to read as follows:

"(c) Transactions conducted by a private for-profit contractor or a nonprofit contractor in connection with the contractor's operation of a Job Corps Center, program, or activity shall not be considered as generating gross receipts. Such contractors shall not be liable, directly or indirectly, to any State or subdivision thereof (nor to any person acting on behalf thereof) for any gross receipts taxes, business privilege taxes measured by gross receipts, or any similar taxes imposed on, or measured by, gross receipts in connection with any payments made to or by such contractor for operating a Job Corps Center, program, or activity. Such contractors shall not be liable to any State or subdivision thereof to collect or pay any sales, excise, use, or similar tax imposed upon the sale to or use by such contractors of any property, service, or other item in connection with the operation of a Job Corps Center, program, or activity.".

SEC. 12. COOPERATIVE LABOR MARKET INFORMATION.

Section 462 of the Act is amended—

(1) by inserting before the period at the end of the first sentence in subsection (d)(1) the following: ", taking into account both urban and rural areas"; and

(2) by adding at the end thereof the following new subsection:

"(f)(1) The Secretary shall develop a means by which statistical data relating to permanent dislocation of farmers and ranchers due to farm and ranch failures can be collected and shall collect such data.

"(2) The Secretary shall publish a report based upon such data as soon as practicable after the end of each calendar year. Such report shall include a comparison of data contained therein with data currently used by the Bureau of Labor Statistics in determining the Nation's annual employment and unemployment rates and an analysis of whether farmers and ranchers are being adequately counted in such employment statistics.".

The SPEAKER pro tempore. Is a second demanded?

Mr. GUNDERSON. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from California [Mr. HAWKINS] will be recognized for 20 minutes and the gentleman from Wisconsin [Mr. GUNDERSON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. HAWKINS].

Mr. HAWKINS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Job Training Partnership Amendments of 1986, H.R. 5185, does not make major programmatic changes in current law. It seeks only to make clarifying and perfecting changes in the existing act, and therefore, has broad bipartisan committee support.

In 1982, Congress enacted the Job Training Partnership Act which established employment and training programs for the Nation's disadvantaged youth, adults, and dislocated workers. Since that time, the committee has

conducted extensive oversight on implementation of the act. After more than 3 years of operation, certain amendments have become necessary. These amendments stem primarily from issues which arose after JTPA's enactment. The purpose of these amendments is to address these concerns without disrupting basic program operations.

The major impetus behind the need for these amendments stems from the fact that existing law does not include a substate hold harmless provision for title II-A, the basic training program for adults and youth, and title II-B, the Summer Youth Employment and Training Program. As a result, many service delivery areas are experiencing significant fluctuations in their funding levels which undermine program stability. H.R. 5185 mandates a 90-percent substate hold harmless provision based on the allocation for the preceding program year. This provision takes effect July 1, 1987.

Another compelling reason for these amendments is to clarify the use of the 6-percent incentive grant set-aside to include preventative technical assistance and postprogram data collection. Recently, the Department of Labor promulgated regulations which prohibit the use of these funds for such purposes after October 1, 1986. The committee supports the Department's new postprogram data collection plans and believes that States and service delivery areas should be permitted to utilize the 6-percent funds for this purpose. These new postprogram data collection plans will provide the national data necessary to implement longer term performance standards as originally envisioned in the act. The committee also believes that ongoing technical assistance should be available to all service delivery areas, not just those who fail to exceed performance standards.

H.R. 5185 addresses the plight of the growing numbers of dislocated farmers. When JTPA was first enacted, the farm crisis had not grown to the magnitude that it has today. This bill clarifies that self-employed individuals, including farmers, are eligible to participate in the Dislocated Worker Program if they are unemployed as a result of general economic conditions in the community.

Finally, the bill attempts to improve services to disadvantaged youth by targeting a portion of the education coordination grants for literacy training, dropout prevention, or statewide school-to-work transition assistance or any combination thereof. The bill also encourages service delivery areas to provide remediation for disadvantaged youth in need of such service who are served under the Summer Youth Employment Program. However, this bill should not be viewed as a panacea for addressing the severe youth unemployment problem facing our Nation today. Much more needs and should be done.

Mr. Speaker, I urge my colleagues to support H.R. 5185.

Mr. GUNDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 5185, the Job Training Partnership Act Amendments of 1986, and urge my colleagues to join with us in support of this legislation, for it represents a strong bipartisan effort to update and perfect America's job training programs.

As the distinguished chairman of our committee indicated earlier, since 1982 the Job Training Partnership Act has been the cornerstone for the Federal Government's efforts to provide employment and training assistance, No. 1, to the economically disadvantaged youth and adults in our society; and No. 2, to those workers who have become dislocated from their jobs.

In particular, this program has worked well because it is truly a partnership between the Federal Government, the State, and local governments, and business and industry. However, there are still a number of problems within JTPA for which fine tuning changes are needed. And today that is exactly our goal, to try to provide these technical changes, to make sure that this legislation will continue to be responsive to all populations that it is designed to serve.

The intent of this bill, first and foremost as I indicated, is to make these fine tuning, updating and technical changes, but to do so in a way that avoids substantive alterations in the act, a problem that many of us experienced with the previous Employment and Training Act known as CETA.

The chairman has discussed at length the intrastate hold-harmless provisions that are included under this act and as a result I am not going to spend much time on that particular issue. However, I would like to elaborate on a few of the other important points included in this legislation. One such area of interest relates to the provision of services to disadvantaged youth.

□ 1405

The need for increased remedial education—in particular, services targeted at our high-risk youth—has become an increased concern among all of us involved with education and training in our society. As a result, we want to enhance even further the targeting for this population that was included in the original 1982 act.

We attempt to improve services to disadvantaged youth in a couple of different ways. First, our bill provides incentives to service-delivery areas to provide remedial education to our youth participating in the Summer Youth Employment Program. Second, we place more emphasis on literacy, dropout prevention, and school-to-work transition programs by requiring that approximately 40 percent of our States' educational coordination money go toward these programs serving high-risk youth.

Another areas over which I and a number of my rural colleagues on both sides of the aisle have experienced a great deal of concern, and on which we have placed a great deal of attention over the past few months has been in dealing with the problems of those unfortunate constituents of ours who have been dislocated by the farm crisis. As a result, we have made a number of changes to update the Job Training Partnership Act in response to this continuing economic crisis which confronts our Nation's farmers. These changes are intended to: First, encourage the delivery of services to these dislocated farmers and their family members who are otherwise eligible; and second, to direct the Secretary of Labor to improve existing data collection methods to more accurately account for this population in need of such transitional assistance.

When enacted in 1982, the farm crisis had not yet risen to the proportion it has today. Therefore, the need to specifically address the employment and training needs of displaced farmers was not addressed in the statute. Since that time, as the problems of the agricultural sector have increased, it has become more and more evident that those increasing numbers of farmers leaving farming are and will be in need of substantive employment and training services.

Despite last year's efforts by the Department of Labor to issue new regulations allowing distressed farmers to participate in both titles II-A and title III of JTPA, there still seems to be some concern in certain areas of this country that we are experiencing problems in identifying and serving the displaced farm or rural population.

As a result of these findings, title II-A is modified in this legislation to change the definition of the economically disadvantaged. We do this in a way that would change the time period on which eligibility is based for determining who in particular is eligible for title II-A Program participation. This alteration to the statute should assist many farmers in qualifying for job search, support, and job training assistance under this program.

Present eligibility is based on a 6-month lookback or 6 months' prior income. The legislation that we have in front of us would change this from a 6-month to a 12-month lookback which gives a much more realistic view of the economic circumstances of the financially distressed farmer. The pur-

pose of this is quite obvious. If you think of a typical farmer who happens to have just sold his crop, a 6-month income review would reflect this sale which will probably result in a substantial, short-term income increase to that farmer. But this 6-month lookback will not recognize that despite that increased income, he has had high costs earlier in the year. A 12-month review would take into account these costs, reflecting more accurately that farmer's true income.

What we do in title III of JTPA, the Dislocated Worker Program, is to identify as eligible the dislocated self-employed and dislocated farmer through this clarifying amendment we simply allow the self-employed including farmers and for the most part even their small-town entrepreneur brothers and sisters, to become eligible for the dislocated workers program. Further, in the Education and Labor Committee report language, we encourage the Department of Labor and the States to develop definitions for dislocated farmers that would allow for earlier intervention for these individuals making the transition from farming to alternative employment much more effective.

Finally, in title IV of the Job Training Partnership Act, we require the Secretary of Labor to develop methods for collecting data on permanently dislocated farmers in order that we may adequately identify farmers who may qualify for services under JTPA. We further require that the Secretary report such findings to the Congress, including a comparison of this data with that used by the Bureau of Labor Statistics in determining our national unemployment rates, with an analysis of whether or not farmers are being adequately accounted for in such employment land unemployment statistics.

To bring all of this down to plain English, what we are talking about here is an effort to address the concern that evidence suggests that in rural areas we do not adequately calculate unemployment statistics. As an example, if you take a farm family which has become dislocated from that farm, chances are pretty good you have not only eliminated the job of the man on that farm, but you have also perhaps eliminated the wife from a full-time job, and perhaps even a son or daughter who might be working for the most part full time on the farm. Present unemployment statistics do not in any way, shape, or form account for all of this. We want to find a way, not to spend more money, but to more accurately reflect unemployment ratios across this country so that the areas which truly have the greatest unemployment are going to be benefited in terms of the formulas governing distribution of our Federal funds under the Job Training Partnership Act, and other Federal programs influenced by such statistics.

With that, I want to pay a special tribute to the distinguished chairman of our full committee, the gentleman from California [Mr. HAWKINS], and the distinguished ranking minority member [Mr. JEFFORDS], for their work along with the gentleman from California [Mr. MARTINEZ], the gentleman from Montana [Mr. WILLIAMS] and myself and others on the bipartisan way in which we have moved through what I believe are very positive changes for all of our country's employment training programs.

Mr. HAWKINS. Mr. Speaker, I yield 5 minutes to the gentleman from Montana [Mr. WILLIAMS].

Mr. WILLIAMS. Mr. Speaker, I was delighted to join Chairman HAWKINS, Mr. JEFFORDS, Chairman MARTINEZ, and Mr. GUNDERSON in introducing amendments to the Job Training Partnership Act (H.R. 5185). This bipartisan bill represents a consensus of opinion on the Education and Labor Committee and should be adopted by the House in expeditious fashion.

There are several issues that I would like to call to the attention of my colleagues as we move from action today to conference with the Senate: First, with regard to a compromise on the hold harmless provision, I would recommend that we look at a 2-year base and at total availability or only provide the hold harmless to SDA's with very limited carry in; and second, with regard to a compromise on the education component, I would recommend that we encourage the effort with incentives that do not create a situation where SDA's spend less money on youth.

One issue that this bill did not address is the growth in the number of service delivery areas [SDA's] under the Job Training Partnership Act resulting in a sharp increase in the number of SDA's receiving relatively small allocations under title IIA. With limited resources, economies of scale must somehow achieve a balance with the wish of the Congress for locally determined and managed delivery systems.

According to a study by Job Training Partnership, Inc., in program year 1986, there are now 62 SDA's receiving allocations of less than $500,000, and 175 SDA's with allocations less than $1,000,000. This is a marked increase over the prior year, since in program year 1985, 35 SDA's received allocations below $500,000, and 138 SDA's received allocations below $1,000,000.

These facts are driven by the following statistics. In fiscal year 1982, there were 476 prime sponsors under the Comprehensive Employment and Training Act [CETA]. Through program year 1985 of JTPA, there were 597 SDA's, while in program year 1986, there are now 627 SDA's, an increase of 151 over CETA or a dramatic 32-percent increase. To be fair, this increase is somewhat overstated since balance-of-state areas counted as one prime sponsor under CETA, while under JTPA, they were broken up into SDA's.

The bill includes a provision encouraging the development of a remedial education component in the Summer Youth Employment Program [SYEP]. This bill is a culmination of my efforts to achieve recognition of this need. In 1985, I introduced H.R. 1090 to mandate the inclusion of a competency-based remedial education component in SYEP. Eighty-four Members of the House cosponsored this effort and hearings were held on the bill on May 22, 1985. This year I revised the bill in light of these hearings and comments we received from all partners in the JTPA system. On January 23, 1986, I introduced H.R. 4050 to encourage a remedial education component rather than mandate it. Ninety-five Members of the House joined me in cosponsoring this bill.

The bill being debated today incorporates three components from H.R. 4050: First, encouraging a remedial education component within the Summer Youth Employment Program; second, allowing programs to be conducted during the interval between the participant's regular school year; and, third, providing a 90-percent hold harmless for the SYEP allocations to service delivery areas.

H.R. 5185 also incorporates a number of the amendments that I introduced in H.R. 4115 on February 4, 1986. These include: First, designating of service delivery areas based on one or more labor market areas; second, providing a 90-percent hold harmless for the title II–A allocations to service delivery areas; and, third, prohibiting a matching requirement on grants from the Secretary's discretionary funds under title III.

□ 1415

Mr. HAWKINS. Mr. Speaker, I yield 2 minutes to the gentleman from Alabama [Mr. ERDREICH].

Mr. ERDREICH. Mr. Speaker, I appreciate the gentleman yielding me this time and want to compliment the committee for moving these technical amendments to the Job Training Partnership Amendments Act of 1986.

I just want to add, though, as someone who participated in the manpower program at the local level in Jefferson County, AL, last year we were able to train barely 4,500 adults and had some 2,600 jobs available for summer youth, with more than 12,000 summer youths seeking employment. I realize in this era of limited funding that it is difficult to expand upon these much needed programs, but if there were any time in our Nation's history that

we need, in a very major way, to rethink our training activities, it is 1986 and into the future. We need a large, new program with a comprehensive approach from the private sector and public involvement to deal with the severe dislocation going on in my own State in the steel industry, the textile industry and other areas of major sectoral changes in our economy.

Job training is a No. 1 priority, I think, for the future economic growth of this country. I commend the committee for bringing these amendments forward.

I hope we can fashion new legislation in the future that will deal with this basic problem in America.

Mr. LIGHTFOOT. Mr. Speaker, I rise in support of H.R. 5185, a bill making changes in the Job Training Partnership Act [JTPA]. I commend my colleagues on the Education and Labor Committee for bringing this bill to the floor today. I also want to thank them for acknowledging the job training needs of farmers affected by the downturn in agricultural economy and by including provisions in the bill to better serve and accommodate these farmers and other self-employed people.

In November 1985, at my request, the Government Operations' Subcommittee on Employment and Housing held a hearing in Council Bluffs, IA, to examine the role of the Job Training Partnership Act in serving dislocated farmers. The main reason for this hearing was to discuss how JTPA was serving the farm community, the problems encountered while serving farmers, and how we might improve JTPA to better accommodate this group of people.

At the hearing we heard that farmers were being served under JTPA, but that it was a difficult task. Some of the reasons for the difficulties were that farmers were harder to reach, harder to convince that JTPA could help them, and harder to qualify for the program because of the way their income is determined.

The witnesses suggested several changes which could be made in JTPA to resolve these problems. First, it was agreed that service delivery areas needed to do a better job reaching out to the farm population to encourage them to check into the program for assistance.

Outreach and support groups were mentioned as ways to increase farmer participation in the program and to inform more farmers of the program's benefits. One farmer testified that if more farmers knew how the program could help them fine tune their skills in order to find new employment, then more would be interested in enrolling in the program.

Second, it was suggested at the hearing that the eligibility criteria be adjusted to take into consideration the special financial circumstances of farmers. In particular, it was advocated that title II–A eligibility under the economically disadvantaged training program be revised to allow for a lookback period of 12 months rather than the current 6 months. Under title II–A, an individual must be considered economically disadvantaged, which is determined by reviewing the applicant's last 6 months of income.

In the case of the farmer, a 6-month lookback period does not accurately reflect his financial picture because a farmer typically determines his income on a yearly basis. Further, in an example cited during the hearing, one service delivery area director had to turn away a farmer who had sold his soybeans prior to coming into the JTPA office.

The income for the soybeans pushed him above the eligibility guidelines, but if the director had been allowed to take into consideration the farmer's income and expenses for the past year, then the farmer would have been eligible. Overall, his expenses has been greater than his income for the year, but not for the 6-month period in which is used to determine eligibility.

I am pleased that the bill before us today revises the definition of economically disadvantaged to allow for a 12-month period over which a family's income must fall below the poverty level or other measurements in order to qualify for title II–A assistance. This change alone should help more farmers qualify for assistance under JTPA.

Another change included in this bill was discussed at the hearing was expanding the definition of dislocated workers under title III to include self-employed people and farmers. In April 1985, the Department of Labor issued a policy statement clarifying that title III participants could include dislocated farmers. Many States, including Iowa, were already serving farmers under title III, but the Department's policy statement assures these States that they were acting within the law. This language codifying that farmers and self-employed people can be considered dislocated workers guarantees that this population will be served under title III. It also acknowledges JTPA's role in serving this special population.

Finally, H.R. 5185 requires the Department of Labor to establish a better way to identify dislocated farmers and to collect data on this population to determine how current economic conditions have caused a permanent dislocation of farmers. Further, the Secretary of Labor is required to compare this information with the official employment/unemployment statistics gathered by the Bureau of Labor Statistics.

This information will be helpful in determining labor trends in rural areas. It has long been argued that the Bureau of Labor Statistics' official unemployment statistics do not accurately reflect the true unemployment picture in rural areas. Generally, this is due to the fact that farmers and their wives do not easily fit into the definition of who is considered unemployed and very few rural areas are sampled when monthly unemployment figures are determined.

In the November 1985 JTPA hearing and in a March 1986 Employment and Housing Subcommittee hearing to examine official unemployment statistics in rural and urban areas, I advocated that funding for Federal programs, including JTPA, should not be allocated on the basis of unemployment figures. This would make sure that rural areas are not disadvantaged because of the undercounting of the unemployed.

A General Accounting Office study conducted last November underscores the importance of allocating program funding based upon factors other than unemployment statistics. This study estimated that if the official unemployment rate was underreported by 1 to 3 percent in rural areas, then this could translate into a 7- to 21-percent reduction in JTPA funds going into rural areas.

The provision in this bill calling upon the Department of Labor to gather better statistics on rural labor trends, especially those affecting the farm community, should help identify the number of dislocated farmers who might be seeking job training assistance. It would also provide us with a better picture of unemployment in rural areas and lead to a more accurate distribution of funding under JTPA.

Overall, the bill before us today makes positive changes to ensure that more farmers are eligible for services under JTPA. It includes several of the provisions contained in a farmer JTPA bill introduced earlier this summer by Congressman GUNDERSON and me. It also recognizes that farmers can and should be served under JTPA and that their special circumstances should be considered when determining eligibility.

However, one area not directly addressed by this legislation, but which I hope the Department of Labor reviews, is the question of when a farmer can enter the program for assistance. In the case of a factory worker, he or she can start training under the title III program while still employed and still receiving an income. Even if they are no longer working, in most cases these workers are receiving unemployment compensation.

In the case of farmers, however, it is unclear when a farmer can and should enter JTPA's title III program. During the November hearing, witnesses advocated that farmers should be allowed to begin the program before they are completely out of farming. In some cases, this would provide them with an income to help pay for living expenses. It would also allow for a smoother transition from farming to another career. I hope the Department of Labor works with the States on the difficult question of when farmers can seek help under JTPA.

In conclusion, this is a good bill because it fine tunes JTPA without making major changes. One problem with the past employment program, CETA, was that Congress was continually changing the program. We need to make sure that this does not happen to JTPA. However, we must also make sure that Congress revises JTPA when necessary to meet the needs of a changing work force. I encourage my colleagues to vote for this bill.

Mr. GILMAN. Mr. Speaker, I rise in strong support of H.R. 5185, expanding and improving the Job Training Partnership Act [JTPA] and I want to express my appreciation to the gentleman from California, the distinguished chairman of the Committee on Education and Labor, Mr. HAWKINS, and other members of the committee, for bringing this package before us today.

Since it was adopted during the 97th Congress, JTPA has provided job training for economically disadvantaged and other individuals who face serious barriers to employment. Just

some of the many successful job training programs administered through JTPA are: Job Corps, the Work Incentive Program [WIN], employment and training assistance for dislocated workers, and general job training. JTPA replaced the CETA Program, and represents, I believe, a vast improvement in the delivery and management of employment training services. H.R. 5185 extends and clarifies JTPA in several important areas, contributing to the overall effectiveness of the JTPA.

As the U.S. economy continues its upward trend, there are still far too many Americans who are out of work. The programs authorized under JTPA, provide these citizens, citizens who want to work but who because of lack of training or the need for retraining, are unable to find suitable employment. H.R. 5185 extends to substates the hold harmless provision in JTPA which ensures that a State will receive at least 90 percent of their previous year's funding under the program, regardless of fluctuations in the unemployment figure. Current law requires that 40 percent of State grant money be used for youth programs; however many States have not met the requirement. H.R. 5185 allows State SDA's to use basic State grant money for summer youth-employment programs that provide remedial education for up to 25 percent of their 40 percent requirement.

This is an important provision which recognizes the strong link between remedial education and an individual's overall potential on the job market. Additionally, H.R. 5185 improves the eligibility criteria, extending from 6 to 12 months the period over which a family's income must fall below the poverty level or other measurements in order to qualify as economically disadvantaged. By incorporating this change, we will be making certain that only those who most need this assistance receive it.

Two other timely provisions address the current farm crisis: First, expanding the definition of dislocated workers for the purposes of employment, training, and assistance, to include the self-employed and farmers; and second, requiring the Department of Labor to compile statistical data for publication on the permanent dislocation of farmers and ranchers.

Mr. Speaker, this is an important, necessary piece of legislation, which will enhance and improve all JTPA Programs accordingly, I urge and invite you to support this measure.

Mr. FORD of Michigan. Mr. Speaker, I rise in support of H.R. 5185, the Job Training Partnership Act Amendments of 1986.

Mr. Speaker, H.R. 5185 received the unanimous approval of the Committee on Education and Labor. The bill represents a consensus developed through extensive oversight that a few clarifying changes to the act are needed at this time.

These amendments are as insightful as they are timely. They refine the act to ensure program stability, target areas needing immediate attention and expand program services to address a recent crisis. The changes take care of immediate needs, yet avoid making sweeping changes which would impair administrative efficiency. This a wise and prudent course of action. I commend and congratulate the bipartisan coalition from the Committee on Education and Labor for their skillful approach to the problem.

H.R. 5185 will correct a deficiency in the law that was causing program instability, clarify congressional intent with respect to assisting service providers, and require and encourage more intensive concentration of services in several critical areas.

The major provisions of the bill will reduce the fluctuations in the funding of service delivery areas by including a substate hold harmless for titles II-A and B of the act; target funds for programs to combat the high incidences of school dropout and illiteracy; and encourage SDA's to provide remedial education in the summer youth program. The bill also recognizes the recent farm crisis by encouraging the delivery of employment and training services to displaced farmers.

The amendments address only those areas which need urgent correction or accommodation, and avoid extensive programmatic changes that could disrupt programs which have been operational for a very short period of time in terms of administrative experience.

This legislation is an expeditious yet judicious response to our Nation's job training needs. I urge the overwhelming approval of my colleagues.

Mr. JEFFORDS. Mr. Speaker, I rise today in support of this bill, H.R. 5185, the JTPA Amendments of 1986. First, I want to thank the chairman, Mr. HAWKINS, for his leadership and willingness to work with the Republicans on the Education and Labor Committee in putting this bill together. Further, I want to congratulate Mr. MARTINEZ and Mr. GUNDERSON for their efforts, especially with respect to the dislocated farmer provisions in the bill.

The Job Training Partnership Act [JTPA] was passed and signed into law in late 1982 it has been hailed by the President as the most important domestic legislation of his administration. JTPA assumed substantial changes from the previous employment and training programs we had enacted. First, a greater role was given to the private sector. Second, the emphasis in the law was on training. Third, the States were given greater administrative responsibility under the program. Fourth, the program was performance, not program, driven. Those of us involved in the initial development of JTPA also agreed that stability was essential to the success of any structure and program implemented under the law. For over 3 years we have managed to forestall any attempt to amend the law, allowing the program to take hold before any changes were made.

Even now, as we propose these amendments, there is little support for any wholesale rewriting of the law. In fact, the information we have regarding program performance is positive. This bill is not in response to major disappointment with the law. It is not intended to make significant program changes or redirection. Instead, it is to fine tune, to correct oversights, and to clarify and strengthen original legislative intent.

These amendments address a variety of concerns. However, two provisions form the overriding reason for these amendments. First, when JTPA was enacted, a holdharmless provision was included to protect States from dramatic shifts in funding levels. Unfortunately, because we could not anticipate how many substate units there would be, the law did not include a hold-harmless provision for substate entities. Subsequently, there have been significant shifts in funding among substate units within some States. This bill contains a substate hold-harmless provision that we believe provides a temporary resolution to the problem. Ultimately, the distribution formula factors under the law will need to be reviewed, but until that time, this provision should bring interim relief to the funding uncertainties that some substate units have experienced.

Second, it is necessary to clarify our intent with respect to the use of a specified portion of funds under the law. Currently, States have the authority to hold 6 percent of their allocation of funds at the State level for incentive grants and technical assistance. Recently, the Department of Labor issued guidelines that would place restrictions as of October 1, 1986 on the use of these funds. In order to assure that such restrictions do not go into effect, these amendments must be passed. It was not our intent in enacting JTPA to withhold "preventative" technical assistance. Without these amendments, the Department would not allow the 6-percent funds to be used for this purpose.

Further, under the law, postprogram follow-up data are to be collected. The Department has recently outlined the type of data to be collected for these purposes. No additional funding was provided to enable States or substate units to collect this information. These amendments allow the 6-percent funds to be used for a period not to exceed 5 years for the development and implementation of a postprogram data collection system. The long-term implications of collecting such data cannot be ignored. Without it, we will not have the tools by which to assess the overall effectiveness of JTPA.

Several other provisions are included in these amendments: targeting education funds at the State level toward dropout prevention, illiteracy and school-to-work transition programs; addressing sales and use tax issues related to Job Corps centers; providing remediation as part of the Summer Youth Employment Program; assuring that self-employed individuals and farmers can be served under dislocated worker provisions of the law; and clarifying that the discretionary moneys under the dislocated worker program do not include a match requirement.

Each of these provisions improves the law. I believe that with these amendments, not only will we have clarified our original intent, but in several cases, assured that those who participate in these programs receive better, more comprehensive services, without eliminating flexibility from those who administer and provide the services.

I am pleased to have joined with Mr. HAWKINS and others in introducing and supporting these bipartisan amendments to the Job Training Partnership Act. These amendments are a reasonable response to the concerns of the field, while continuing to support the original intent of the law. I urge my colleagues to support these amendments.

Mr. GUNDERSON. Mr. Speaker, I yield back the balance of my time.

Mr. HAWKINS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GRAY of Illinois). The question is on the motion offered by the gentleman from California [Mr. HAWKINS], that the House suspend the rules and pass the bill, H.R. 5185, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 5185, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent that the Committee on Education and Labor be discharged from the further consideration of the Senate bill (S. 2069) to amend the Job Training Partnership Act.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2069

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SHORT TITLE

SECTION 1. This Act may be cited as the "Job Training Partnership Act Amendments of 1986".

TRAINING PROGRAMS FOR OLDER INDIVIDUALS

SEC. 2. Section 124(d) of the Job Training Partnership Act (hereafter in this Act referred to as the "Act") is amended to read as follows:

"(d)(1) An individual shall be eligible to participate in the training program authorized by this section—

"(A) if the individual has attained 55 years of age; and

"(B)(i) is economically disadvantaged, or

"(ii) has a low income.

"(2) For the purpose of this subsection, low income includes any individual whose income is not more than 125 percent of the poverty guideline established pursuant to the Community Services Block Grant Act.".

PRESIDENTIAL AWARDS FOR OUTSTANDING BUSINESS INVOLVEMENT IN JOB TRAINING PROGRAMS

SEC. 3. Part D of title I of the Act is amended by adding at the end thereof the following new section:

"PRESIDENTIAL AWARDS FOR OUTSTANDING BUSINESS INVOLVEMENT IN JOB TRAINING PROGRAMS

"SEC. 172. (a)(1)(A) The President is authorized to make Presidential awards for outstanding achievement by business in the job training partnership program authorized by this Act. The President is authorized to make such awards to individual executive officers who, and business concerns which, have demonstrated outstanding achievement in planning and administering job training partnership programs or in contributing to the success of the job training partnership program.

"(B) In making the awards pursuant to subparagraph (A) of this paragraph, the President shall consider the effectiveness of the program for which the award is made.

"(2) The President is authorized to make Presidential awards for model programs in the job training partnership program authorized by this Act which demonstrate effectiveness in addressing the job training needs of groups of individuals with multiple barriers to employment.

"(b)(1) Each year the President is authorized to make such awards under subsection (a) of this section as the President determines will carry out the objectives of this Act.

"(2) the President shall establish such selection procedures, after consultation with the Secretary and the Governors of the States, as may be necessary.".

WITHIN STATE ALLOCATION

SEC. 4. (a)(1) Section 202(a) of the Act is amended—

(A) by striking out "Of" in paragraph (2) and by inserting in lieu thereof the following: "Subject to the provisions of paragraph (3), of";

(B) by redesignating paragraph (3) as paragraph (4); and

(C) by inserting after paragraph (2) the following new paragraph:

"(3)(A) Each Governor may provide that any service delivery area within a State may receive more than the allocation for a fiscal year determined under this subsection for that fiscal year, but in no event more than 90 percent of the average share or amount which the service delivery area received for each fiscal year for the 3 fiscal years prior to the fiscal year for which the determination is made.

"(B) Each fiscal year in which a Governor revises the allocation pursuant to subparagraph (A) of this paragraph, the Governor shall reallocate the allocations among service delivery areas not affected by the adjustments made pursuant to subparagraph (A) of this paragraph.".

(2) For the purpose of determining the hold harmless for the program year beginning July 1, 1986, under the amendment made by paragraph (1) of this subsection, the Governor shall recalculate the 9-month transition period described in section 161(c)(1) of the Job Training Partnership Act on a 12-month basis.

(b) The last sentence of section 202(b)(3)(B) of the Act is amended by striking out "which do not qualify for incentive grants under this subparagraph".

SERVICES TO YOUTH

SEC. 5. Section 203(b)(1) of the Act is amended by adding at the end thereof the following new sentence: "For the purpose of the preceding sentence, the term 'eligible youth' includes individuals who are 14 and 15 years of age.".

SUMMER YOUTH EMPLOYMENT PERFORMANCE STANDARDS

SEC. 6. (a) Part B of title II of the Act is amended by inserting at the end thereof the following:

"REMEDIAL EDUCATION SET-ASIDE AND PERFORMANCE STANDARDS

"SEC. 255. (a) For fiscal year 1987 and for each of the three succeeding fiscal years, in each service delivery area 25 percent of the amount available for this part for such year for the service delivery area shall be reserved for the conduct of remedial education programs.

"(b) During the period described in subsection (a), the Secretary shall develop standards to be applied to programs conducted under this part. Such standards may include (A) improvement in basic educational skills, (B) improvement in English language proficiency, and (C) attainment of recognized youth employment competencies prescribed pursuant to section 106(b)(2)(A).

"(c) Beginning after September 30, 1990, the Secretary shall establish and apply standards of performance for programs under this part based upon subsection (b).".

(b) The table of contents of the Act is amended by inserting after item "Sec. 254." the following new item:

"Sec. 255. Performance standards.".

IDENTIFICATION OF DISLOCATED WORKERS

SEC. 7. (a) Section 302(a) of the Act is amended—

(1) by striking out "or" at the end of clause (2);

(2) by striking out the period at the end of clause (3) and inserting in lieu thereof a semicolon and the word "or"; and

(3) by inserting at the end thereof the following:

"(4) were self-employed and are unemployed as a result of general economic conditions in the community in which they reside or because of natural disasters subject to the next sentence.

The Secretary shall establish categories of self-employed individuals and of economic conditions and natural disasters to which clause (4) of the preceding sentence applies.".

(b) Section 302(d) of the Act is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Whenever the State determines that it is practicable, the State is authorized, in carrying out the provisions of this title, to assist eligible individuals who reside outside the State but are employed in a labor market area, part of which is located within the State or employed in a service delivery area that is contiguous to a service delivery area in the State.".

REFERRAL OF APPLICANTS

SEC. 8. Section 424 of the Act is amended by adding at the end thereof the following new subsection:

"(d) The Secretary shall improve the coordination between training programs authorized by this Act conducted in service delivery areas and the Job Corps program. In carrying out the provisions of the preceding sentence, the Secretary shall assure that applicants for programs in service delivery areas should be referred to Job Corps centers, and vice versa, where the requirement of this subsection is appropriate and feasible.".

VETERANS' AMENDMENTS

SEC. 9. (a)(1) Section 4(5) of the Act is amended by inserting after "handicapped" a comma and the following: "including disabled veterans".

(2) Section 4(27) of the Act is amended by adding at the end thereof the following new subparagraph:

"(C) The term 'recently separated veteran' means any veteran who applies for participation under any title of this Act within 48 months of the discharge or release from active military, naval, or air service.

"(D) The term 'Vietnam era veteran' means a veteran any part of whose active military service occurred between August 5, 1964, and May 7, 1975.".

(b) Section 106(d)(3) of the Act is amended by striking out "and offenders" and inserting in lieu thereof "disabled and Vietnam era veterans, including veterans who served in the Indochina Theater between August 5, 1964, and May 7, 1975, and offenders".

(c) Section 108(c)(2)(B)(ii) of the Act is amended by inserting after "handicapped individuals" a comma and the following: "including disabled veterans".

(d) Section 121(c)(10) of the Act is amended by adding before the period at the end thereof a comma and the following: "including Veterans' Administration programs".

(e) Section 123(c)(1) of the Act is amended by inserting after "offenders" a comma and the following: "veterans,".

(f) Section 124(b) of the Act is amended by inserting after "nonprofit private organizations" a comma and the following: "including veterans organizations".

ADDITIONAL EXPERIMENTAL AND DEVELOPMENTAL PROJECTS AUTHORIZED

SEC. 10. Section 453(a) of the Act is amended—

(1) by inserting "(1)" after the subsection designation, and

(2) by adding at the end thereof the following new paragraph:

"(2) From funds made available under this part, the Secretary may provide financial assistance for pilot projects for the training of individuals who are threatened with loss of their jobs due to technological changes, international economic policies or, general economic conditions.".

PROJECTS FOR SPECIAL POPULATIONS

SEC. 11. (a) Part D of title IV of the Act is amended by adding at the end thereof the following new section:

"PROJECTS FOR SPECIAL POPULATIONS

"SEC. 456. In carrying out this part, the Secretary shall include projects designed to serve populations with multiple barriers to employment, such as individuals listed in section 203(a)(2) and individuals not otherwise targeted for assistance under this Act, with special consideration for displaced homemakers and the handicapped.".

(b)(1) Section 4 of the Act is amended by inserting at the end thereof the following new paragraph:

"(29) The term 'displaced homemaker' means an individual who—

"(A) was a full-time homemaker for a substantial number of years; and

"(B) derived the substantial share of his or her support from—

"(i) a spouse and no longer receives such support due to the death, divorce, or permanent disability of the spouse; or

"(ii) public assistance on account of dependents in the home and no longer receives such support.".

(2) The table of contents of the Act is amended by adding after item "Sec. 455." the following new item:

"Sec. 456. Projects for special populations.".

MOTION OFFERED BY MR. HAWKINS

Mr. HAWKINS. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. HAWKINS moves to strike out all after the enacting clause of the Senate bill (S. 2069) and to insert in lieu thereof the provisions of H.R. 5185 as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

The title of the Senate bill was amended so as to read: "An Act to make certain amendments to the Job Training Partnership Act."

A motion to reconsider was laid on the table.

A similar House bill, H.R. 5185, was laid on the table.

## PERMISSION FOR COMMITTEE ON EDUCATION AND LABOR TO SIT ON TUESDAY, AUGUST 12, 1986, DURING THE 5-MINUTE RULE

Mr. HAWKINS. Mr. Speaker, I ask permission for the Committee on Education and Labor to meet during proceedings under the 5-minute rule on tomorrow, August 12, 1986.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

## PROVIDING FOR FURTHER CONDITIONS FOR OFFERING OF AMENDMENTS TO H.R. 4428, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1987

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that, during further consideration of the bill (H.R. 4428) pursuant to House Resolution 531, notwithstanding the requirement of the rule that amendments made in order pursuant to paragraph 3 of section 2 of the rule be offered only in the order listed in the report of the Committee on Rules (H. Rept. 99-766), the chairman of the Committee on Armed Service or his designee may ask unanimous consent of the Committee of the Whole that he be permitted to offer en bloc certain amendments made in order under the rule, including modifications in the text of any amendment, that no amendment to such amendments en bloc be in order, that such amendments en bloc not be subject to a demand for a division of the question in the House or in the Committee of the Whole, that such amendments en bloc be debatable for not to exceed 30 minutes, and that the original proponents of amendments offered en bloc may have their statement inserted in the RECORD immediately before the disposition of the amendments en bloc.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

## NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1987

The SPEAKER pro tempore. Pursuant to House Resolution 523 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 4428.

□ 1422

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 4428) to authorize appropriations for fiscal year 1987 for the Armed Forces for procurement, for research, development, test, and evaluation, for operation and maintenance, and for working capital funds, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, with Mr. GEJDENSON (Chairman pro tempore) in the Chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. When the Committee of the Whole rose on Friday, August 8, 1986, amendments made in order pursuant to paragraph 2 of House Resolution 531 had been completed. The committee amendment in the nature of a substitute, as modified, made in order as original text for the purpose of amendment by House Resolution 523 is considered as having been read for amendment under the 5-minute rule.

The text of H.R. 4428, as modified, is printed herewith, said text including certain modifications agreed to on Tuesday, August 5, 1986, and pursuant to provisions of House Resolution 523 but not including amendments adopted by the Committee of the Whole on Tuesday, August 5, 1986, and August 8, 1986:

H.R. 4428

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

*SECTION 1. SHORT TITLE.*

*This Act may be cited as the "National Defense Authorization Act for Fiscal Year 1987".*

*SEC. 2. ORGANIZATION.*

*This Act is divided into four divisions as follows:*

*(1) Division A—Department of Defense Authorization.*

*(2) Division B—Military Construction Authorization.*

*(3) Division C—Other National Defense Authorizations.*

*(4) Division D—Miscellaneous General Provisions.*

## DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATION

SEC. 100. SHORT TITLE.

This division may be cited as the "Department of Defense Authorization Act, 1987".

## TITLE I—PROCUREMENT

### PART A—FUNDING AUTHORIZATIONS

SEC. 101. ARMY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement for the Army as follows:

(1) For aircraft, $2,741,700,000.

(2) For missiles, $2,361,900,000.

(3) For weapons and tracked combat vehicles, $3,924,300,000.

(4) For ammunition, $2,100,600,000.

(5) For other procurement, $5,093,600,000, of which—

(A) $824,900,000 is for tactical and support vehicles;

(B) $2,861,500,000 is for communications and electronics equipment; and

(C) $1,407,200,000 is for other support equipment.

(b) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from a procurement account of the Army for fiscal year 1987 is the amount authorized to be appropriated for such account under subsection (a) plus the following:

(1) For aircraft, $22,200,000.

(2) For missiles, $0.

(3) For weapons and tracked combat vehicles, $0.

(4) For ammunition, $0.

(5) For other procurement, $47,600,000.

SEC. 102. NAVY AND MARINE CORPS.

(a) AIRCRAFT.—(1) Funds are hereby authorized to be appropriated for procurement of aircraft for the Navy for fiscal year 1987 in the amount of $9,758,000,000.

(2) The maximum amount that may be obligated for procurement of aircraft for the Navy for fiscal year 1987 is the amount authorized to be appropriated under paragraph (1).

(b) WEAPONS.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 in the total amount of $5,587,600,000 for procurement of weapons (including missiles and torpedoes) for the Navy.

(2) Funds appropriated or otherwise made available for procurement of weapons (including missiles and torpedoes) for the Navy for fiscal year 1987 may not be obligated in excess of the following amounts:

(A) For missile programs, $4,538,400,000.

(B) For torpedo programs:

For the MK-48 torpedo program, $214,800,000.

For the MK-46 torpedo program, $97,900,000.

For the MK-60 CAPTOR mine program, $59,500,000.

For the MK-50 torpedo program, $94,900,000.

For the antisubmarine rocket (ASROC) program, $13,600,000.

For the vertical Launched ASROC program, $74,300,000.

For the modification of torpedoes and related equipment, $97,700,000.

For the torpedo support equipment program, $32,500,000.

For the antisubmarine warfare range support program, $20,100,000.

(C) For other weapons:

For the MK-15 close-in weapon system program, $105,600,000.

For the MK-75 76-millimeter gun mount program, $14,900,000.

For other weapons programs, $72,700,000.

(D) For spares and repair parts, $150,700,000.

(c) SHIPBUILDING AND CONVERSION.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for shipbuilding and conversion for the Navy in the total amount of $9,153,900,000.

(2) Funds appropriated or otherwise made available for shipbuilding and conversion for fiscal year 1987 may not be obligated in excess of the following amounts:

For the SSN-688 nuclear attack submarine program, $2,332,600,000.

For the SSN-21 nuclear attack submarine program, $454,300,000.

For the aircraft carrier service life extension program (SLEP), $83,500,000.

For the CG-47 Aegis cruiser program, $2,725,600,000.

For the DDG-51 guided missile destroyer program, $1,750,100,000.

For the LHD-1 amphibious assault ship program, $232,000,000.

For the TAO-187 fleet oiler program, $275,500,000.

For the TAGOS ocean surveillance ship program, $98,300,000.

For the AOE fast combat support ship program, $612,700,000.

For the oceanographic research ship program, $33,000,000.

For the strategic sealift and sealift enhancement ready reserve program, $48,500,000.

For the TACS auxiliary crane ship program, $61,100,000.

For service craft and landing craft, $58,900,000.

For ship contract design, $69,400,000.

For outfitting and post delivery, $393,900,000.

(d) OTHER PROCUREMENT, NAVY.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for other procurement for the Navy in the amount of $5,848,000,000.

(2) Funds appropriated or otherwise made available for other procurement for the Navy for fiscal year 1987 may not be obligated in excess of the following amounts:

(A) For the ship support equipment program, $990,400,000.

(B) For the communications and electronics equipment program, $1,910,700,000.

(C) For aviation support equipment, $735,800,000.

(D) For the ordnance support equipment program, $1,169,100,000, of which $54,000,000 is available only for procurement of six Coherent Receiver Transmitter production kits for the MK-92 system.

(E) For civil engineering support equipment, supply support equipment, and command support equipment, $739,600,000.

(F) For spares and repair parts, $302,400,000.

(e) MARINE CORPS.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement for the Marine Corps in the amount of $1,497,100,000.

(2) Funds appropriated or otherwise made available for procurement for the Marine Corps for fiscal year 1987 may not be obligated in excess of the amount authorized to be appropriated in paragraph (1).

SEC. 103. AIR FORCE.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft and missiles and for other procurement for the Air Force as follows:

(1) For aircraft, $16,746,800,000.

(2) For missiles, $6,071,000,000.

(3) For other procurement, $8,854,800,000, of which—

(A) $975,400,000 is for munitions and associated support equipment;

(B) $300,200,000 is for vehicular equipment;

(C) $2,142,900,000 is for electronics and telecommunications equipment; and

(D) $5,535,100,000 is for other base maintenance and support equipment.

(b) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from a procurement account of the Air Force for fiscal year 1987 is the amount authorized to be appropriated for such account under subsection (a) plus the following:

(1) For aircraft, $423,200,000.

(2) For missiles, $61,800,000.

(3) For other procurement, $98,800,000.

SEC. 104. DEFENSE AGENCIES.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the Defense Agencies in the amount of $1,406,200,000.

(b) LIMITATION OF OBLIGATION.—Funds appropriated or otherwise made available for procurement for fiscal year 1987 for the Defense Agencies may not be obligated in excess of the amount authorized to be appropriated in subsection (a).

SEC. 105. AMOUNT FOR GUARD AND RESERVE EQUIPMENT.

(a) FY87 LIMITATION ON OBLIGATIONS FOR UNBUDGETED ITEMS.—Of the amount appropriated or otherwise made available to the Department of Defense for fiscal year 1987 for procurement, not more than $509,100,000 may be obligated or expended for procurement of equipment for the reserve components of the Armed Forces (including the National Guard) for items not included in the President's budget for fiscal year 1987, as set forth in the budget justification documents submitted to Congress in support of the budget request for the Department of Defense.

(b) FUTURE BUDGET REQUESTS FOR GUARD AND RESERVE EQUIPMENT.—Section 138 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(j) In each budget submitted by the President to Congress under section 1105 of title 31, amounts requested for procurement of equipment for the reserve components of the armed forces (including the National Guard) shall be set forth separately from other amounts requested for procurement for the armed forces.".

SEC. 106. AUTHORIZATION OF APPROPRIATIONS FOR CHEMICAL DEMILITARIZATION PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1987 for the destruction of lethal chemical agents and munitions in accordance with section 1412 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 747), in the amount of $120,100,000.

(b) LIMITATION OF OBLIGATION.—Funds appropriated or otherwise made available for procurement for fiscal year 1987 for the program described in subsection (a) may not be obligated in excess of the amount authorized to be appropriated in that subsection.

SEC. 107. STRATEGIC BOMBER CONTINGENCY FUND.

(a) DESIGNATION OF FUND.—(1) The amount of $200,000,000 described in paragraph (2) shall be administered as a Strategic Bomber Contingency Fund in accordance with this section.

(2) Of amounts appropriated for procurement of aircraft for the Air Force for fiscal

year 1985 that remain available for obligation, $200,000,000 shall be available only for the purpose of the Strategic Bomber Contingency Fund under this section.

(b) AUTHORIZED USES OF AMOUNTS IN FUND.—

(1) OBLIGATION FOR ADDITIONAL LONG-LEAD ITEMS FOR B-1B AIRCRAFT.—Subject to subsection (e), the Strategic Bomber Contingency Fund shall be available for procurement of long-lead production components and subsystems for the B-1 aircraft. The Secretary of Defense shall obligate not less than $100,000,000 of such amount for procurement of such components and subsystems not later than 30 days after the later of—

(A) October 1, 1986, or

(B) the date of the enactment of an appropriation law referred to in subsection (e).

(2) COMPETITIVE ALTERNATIVE SOURCES FOR ATB— The Secretary of Defense (subject to subsection (e)) may use amounts in the Strategic Bomber Contingency Fund not used for the purpose described in paragraph (1) to establish competitive alternative sources for the Advanced Technology Bomber.

(c) REPORT ON ATB PROGRAM.—Not later than February 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report concerning the progress of the Advanced Technology Bomber program.

(d) REPORT ON USE OF FUNDS.—Not later than March 1, 1987, the Secretary of Defense shall submit to such committees a report on the plans of the Secretary for unobligated funds forming the balance of the Strategic Bomber Contingency Fund (beyond the amount required to be obligated under subsection (b)(1) and other amounts obligated under subsection (b)). Such report shall describe whether, and to what extent, the Secretary plans to—

(1) use such funds for a purpose described in subsection (b); or

(2) seek the submittal of a rescission with respect to such funds.

(e) AUTHORITY SUBJECT TO APPROPRIATION ACTS.—The authority to obligate funds forming the Strategic Bomber Contingency Fund is effective only to the extent provided in an appropriation law enacted after the date of the enactment of this Act.

(f) LIMITATION ON TOTAL NUMBER OF B-1 AIRCRAFT.—The Secretary of Defense may not obligate or expend funds for the assembly or integration of more than 100 B-1 aircraft.

(g) CONGRESSIONAL NOTICE.—This section is subject to section 1512 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2627).

SEC. 108. ADVANCED TECHNOLOGY BOMBER.

(a) LIMITATION ON AMOUNT AVAILABLE FOR FY87.—(1) The Secretary of Defense may not obligate funds appropriated pursuant to authorizations in this Act for the Advanced Technology Bomber program in an amount greater than the amount appropriated for such program for fiscal year 1986 unless—

(A) the Secretary prepares an acquisition strategy for such program; and

(B) the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing the acquisition strategy for such program.

(2) If the Secretary proposes to revise the acquisition strategy prepared under paragraph (1) after the report on that strategy is submitted under that paragraph, the Secretary shall submit to the committees a report describing the proposed revision. Such a revision may not be implemented until 60 days after the date on which the report on the revision is received by those committees.

(3) The Secretary shall ensure that contracts for the Advanced Technology Bomber program are awarded in accordance with the acquisition strategy for the program.

(b) COMPETITIVE ALTERNATIVE SOURCES.—(1) The acquisition strategy prepared under subsection (a) for the Advanced Technology Bomber program shall provide that there will be competitive alternative sources available for the system (and each major subsystem) under the program during the production stage.

(2) In carrying out this subsection, the Secretary may provide that the requirement for competitive alternative sources for a system or subsystem is satisfied even though the sources for that system or subsystem do not develop or produce identical systems if the systems developed or produced serve similar functions and compete effectively with each other.

(c) WAIVER AUTHORITY.—(1) In preparing an acquisition strategy under subsection (a), the Secretary may waive part or all of subsection (b) with respect to production under the program if the Secretary determines that the application of that subsection to production under the program—

(A) would increase the total cost for the program;

(B) would result in unacceptable delays in fulfilling the needs of the Department of Defense; or

(C) would be adverse to the national security interests of the United States.

(2) If the Secretary grants a waiver under paragraph (1), the report submitted under subsection (a) with respect to the acquisition strategy for the Advanced Technology Bomber program—

(A) shall include notice that the waiver has been made; and

(B) shall set forth the reasons for the waiver, together with supporting documentation of comparative cost and schedule estimates and other background material.

(d) FINANCIAL ANALYSIS.—(1) The Secretary of Defense shall conduct a detailed financial analysis on the projected cost of procurement of 132 advanced technology bomber aircraft. On the basis of such analysis, the President shall certify to Congress the projected cost of such procurement. Such certification shall be submitted with the submittal to Congress of the President's budget for fiscal year 1988 budget.

(2) Not more than 60 days after the date of the enactment of the Department of Defense Appropriation Act for fiscal year 1987, the Secretary shall submit to Congress a written report setting forth the results of the analysis required under paragraph (1). The Secretary shall include in such report the current estimate of the projected total cost for the procurement of 132 advanced technology bombers.

(3) The Secretary shall transmit a copy of the report under paragraph (2) to the Comptroller General of the United States for review and shall make available to the Comptroller General (consistent with those provisions of title 31, United States Code, replacing the Budget and Accounting Act, 1921, and provisions of law contained in the amendments made by Public Law 96-226) such additional data and information as the Comptroller General requires for the purposes of such review. Such data and information as the Comptroller General receives under this section shall not be disclosed to anyone other than those persons specially agreed upon by the Comptroller General and the Secretary of Defense to have access to that data and information. Any report by the Comptroller General concerning data and information provided pursuant to this section may, consistent with the classification of such report, be provided to Congress and shall be prepared with due regard to the sensitivity of the information received in such matter as to avoid disclosure of data which could adversely affect ongoing contract negotiations or the national security.

(e) DEFINITION.—In this section, the term "major subsystem", with respect to the Advanced Technology Bomber program, means a subsystem of the system developed under such program that is purchased directly by the United States and for which—

(1) the amount estimated by the Secretary of Defense for research, development, test and evaluation is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the research, development, test, and evaluation expenditure threshold for a major defense acquisition program; or

(2) the amount estimated by the Secretary of Defense for production is 10 percent or more of the amount specified in that section as the production expenditure threshold for a major defense acquisition program.

SEC. 109. EXTENSION OF AUTHORITY PROVIDED THE SECRETARY OF DEFENSE IN CONNECTION WITH THE NATO AIRBORNE WARNING AND CONTROL SYSTEM (AWACS) PROGRAM.

Effective on October 1, 1986, section 103(a) of the Department of Defense Authorization Act, 1982 (Public Law 97-86; 95 Stat. 1100), is amended by striking out "fiscal year 1986" both places it appears and inserting in lieu thereof "fiscal year 1987".

SEC. 110. MULTIYEAR CONTRACTS FOR FISCAL YEAR 1987.

(a) ARMY.—(1) The Secretary of the Army may not enter into a multiyear contract for procurement for the UH-60A Black Hawk and EH-60A Quick Fix Airframe Program.

(2) The Secretary of the Army may enter into a multiyear contract under section 2306(h) of title 10, United States Code, for the following programs:

(A) Patriot Missile system.

(B) Stinger Missile system.

(b) NAVY.—The Secretary of the Navy may not enter into a multiyear contract for procurement of the following programs:

(1) F/A-18 aircraft.

(2) HARM Missile.

(c) AIR FORCE.—The Secretary of the Air Force may not enter into a multiyear contract for procurement of the following programs:

(1) Defense Support Program.

(2) Complementary Expendable Launch Vehicle.

(d) LIMITATIONS ON AUTHORIZED MULTIYEAR PROCUREMENTS.—During fiscal year 1987, the Secretary of a military department may enter into a multiyear contract under section 2306(h) of title 10, United States Code, with respect to the procurement of a program only if—

(1) the multiyear contract contains options to allow changes in quantity of the end-item to be procured under the contract of not more than 30 percent in any program year; and

(2) the Secretary certifies to Congress that multiyear contracting for such program provides a saving of at least 12 percent over the amount that would be spent under annual contracts.

SEC. 111. DEPLETED URANIUM PENETRATORS.

The Secretary of Defense may only procure ammunition containing a depleted uranium

penetrator component if the procurement of such component is on a Government-furnished material basis from at least two sources in the existing production base for such component.

SEC. 112. PROCUREMENT OF NEW FLIGHT INSPECTION AIRCRAFT.

(a) PROCUREMENT.—The Secretary of the Air Force shall, before the end of the 180-day period beginning on the date of the enactment of this Act, commence procurement of new flight inspection aircraft. Such procurement shall be carried out using funds—

(1) previously authorized and appropriated for such purpose; and

(2) such additional funds as the Secretary determines to be required for such procurement, to be derived from funds appropriated for fiscal year 1987 pursuant to authorizations of appropriations of this Act.

(b) COMPETITION.—The procurement described in subsection (a) shall be conducted using competitive procedures in accordance with the requirements of chapter 137 of title 10, United States Code.

(c) SPECIFICATIONS.—The performance characteristics of the aircraft required to be procured by subsection (a) shall be as specified in paragraph 2C(2) of Department of the Air Force Program Management Directive for Flight Inspection Aircraft dated July 11, 1984.

SEC. 113. AIR FORCE FIGHTER COMPETITION.

(a) MULTIYEAR CONTRACTS.—Subject to provisions of appropriations Acts, the Secretary of the Air Force may award a multiyear contract, that employs economic order quantity procurement, for the purchase of Air Defense Aircraft in accordance with section 2306(h) of title 10, United States Code, without prior notice to Congress if the results of the competitive source selection demonstrate that—

(1) a multiyear contract will yield significant savings over the amount that would have resulted under an annual contract with the selected offeror; and

(2) those savings have a positive present value.

(b) CANCELLATION CEILING.—Subject to provisions of appropriations Acts, the cancellation ceiling associated with the first year of a multiyear contract under subsection (a) may be carried as an unfunded contingent liability subject to section 2306(h)(5) of title 10, United States Code.

PART B—PROGRAM LIMITATIONS

SEC. 121. TESTING OF BRADLEY FIGHTING VEHICLE.

(a) TEST PLAN FOR SURVIVABILITY ENHANCEMENTS.—(1) The Secretary of Defense shall carry out live-fire testing of the Bradley Fighting Vehicle in accordance with this section.

(2) In developing a plan for such testing, the Secretary shall develop a plan for testing and evaluating proposed survivability enhancements for the vehicle. Such plan—

(A) shall include a proposal and an expedited schedule for testing the concept of the so-called "minimum casualty vehicle"; and

(B) shall be developed in consultation with the Assistant Secretary of Defense for Operational Test and Evaluation and the National Academy of Sciences.

(3) After developing the plan required by paragraph (2), the Secretary shall certify to Congress that the conditions and plan for the live-fire testing of the Bradley Fighting Vehicle represent the most realistic and suitable conditions and plan to evaluate the proposed survivability enhancements.

(4) The Comptroller General shall—

(A) review all materials of the Department of Defense used to develop the plan with respect to which the certification under paragraph (3) is made; and

(B) submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives a report giving the assessment of the Comptroller General as to the realism and suitability of the conditions and plan to evaluate the proposed survivability enhancements of the Bradely Fighting Vehicle.

(b) CONDUCT OF LIVE-FIRE TESTING.—(1) The Secretary of the Army shall conduct live-fire testing of the Bradley Fighting Vehicle so as to test proposed survivability enhancements of such vehicle in accordance with the plan with respect to which the certification under subsection (a)(3) was made.

(2) The Assistant Secretary of Defense for Operational Test and Evaluation shall review the results of such testing.

(3) The Comptroller General shall provide oversight of the testing.

(4) The Assistant Secretary and the Comptroller General shall each observe the conduct of the testing.

(c) REPORTS.—(1) The Secretary of Defense shall submit to Congress a report on the results of the live-fire testing of the Bradley Fighting Vehicle.

(2) The Comptroller General shall review the report of the Secretary of Defense under paragraph (1) and shall submit to Congress a report giving the Comptroller General's evaluation of such report.

SEC. 122. OTHER LIMITATIONS ON ARMY PROCUREMENT.

(a) 120-MILLIMETER MORTAR PROGRAM.—(1) Except as provided in paragraph (3), funds appropriated or otherwise available for procurement for the Army may not be obligated for procurement of 120-millimeter mortars manufactured or assembled outside the United States or for procurement of ammunition manufactured outside the United States for 120-millimeter mortars.

(2) Funds appropriated or otherwise made available for procurement for the Army may not be obligated for procurement of 120-millimeter mortars or for ammunition for 120-millimeter mortars until the Secretary of the Army—

(A) purchases and validates a technical data package for the manufacture and assembly of such mortars; and

(B) conducts a cost-effectiveness analysis of potential domestic sources for the manufacture of such mortars using that technical data package.

(3) Paragraph (1) does not apply to procurement of mortars required—

(A) for testing, evaluation, or type classification; or

(B) for equipping the Ninth Infantry Division.

(b) COPPERHEAD PROJECTILE PROGRAM.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of ammunition for the Army may not be obligated for the Copperhead Projectile program until the Secretary of Defense certifies to Congress that a second production source for that program has been established.

(c) MOTORCYCLES.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement for the Army may not be obligated for procurement of motorcycles until the Secretary of the Army certifies to Congress that the acquisition strategy of the Army for procurement of motorcycles includes consideration of—

(1) life-cycle costs;

(2) safety;

(3) maintenance; and

(4) durability.

(d) AIR-TO-AIR STINGER MISSILE.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of aircraft for the Army may not be obligated for the modification program for the air-to-air Stinger missile until—

(1) the Secretary of the Army establishes a comprehensive acquisition plan for procurement of air-to-air Stinger missiles for Army aircraft;

(2) such plan is integrated into the overall Army forward area air defense plan; and

(3) a report on such plan is submitted to the Committees on Armed Services of the Senate and House of Representatives and a period of 30 days passes after receipt of such report.

(e) 10-TON TRUCK PROGRAM.—The Secretary of the Army shall acquire and validate the technical data package for the Heavy Expanded Mobility Tactical Truck (HEMTT).

(f) OPTION TO CONTINUE PRODUCTION OF HEMMT TRUCKS.—

(1) REQUIREMENT TO PROCURE ADDITIONAL HEMMT TRUCKS.—In order to preserve the option for continued production of Heavy Expanded Mobility Tactical Trucks (HEMTT), the Secretary of the Army (subject to paragraph (3)) shall modify the existing contract for such trucks to permit the exercise of the original contract option for 412 additional HEMTT trucks in fiscal year 1986 and shall obligate $49,900,000 for procurement of such trucks under such contract option.

(2) SOURCE OF FUNDS.—Funds shall be derived for purposes of this subsection from amounts appropriated for procurement for the Army for fiscal year 1985 or 1986 that remain available for obligation.

(3) AUTHORITY SUBJECT TO APPROPRIATION ACTS.—The authority of the Secretary to exercise a contract option and obligate funds under paragraph (1) is effective only to the extent provided in appropriation laws enacted after the date of the enactment of this Act.

(4) DEADLINE FOR OBLIGATION.—Funds required to be obligated by paragraph (1) shall be obligated not later than 30 days after the later of—

(A) October 1, 1986, or

(B) the date of the enactment of an appropriation law referred to in paragraph (3).

(g) AT-4 LIGHTWEIGHT MULTIPURPOSE SYSTEM/M72E4 LIGHT ANTIARMOR WEAPON.—None of the funds appropriated pursuant to the authorizations of appropriations in this title may be obligated or expended for the AT-4 Lightweight Multipurpose System until the Secretary of the Army—

(1) completes development and operational testing of the M72E4 light antiarmor weapon;

(2) type classifies such weapon; and

(3) acquires a technical data package for such weapon.

SEC. 123. BIGEYE BOMB.

(a) LIMITATION ON OBLIGATION.—Of funds appropriated for fiscal year 1987 for other procurement for the Navy, $10,000,000 shall be available for the Bigeye bomb program, but none of such amount may be obligated for such program until—

(1) all operational testing of the Bigeye bomb programed to be carried out using funds appropriated for fiscal year 1986 is completed; and

(2) the Secretary of Defense submits to Congress a report—

(A) describing such testing and the results of such testing; and

(B) on the basis of such results, certifying that the bomb meets all design and performance specifications.

(b) GAO REPORT.—The Comptroller General shall monitor the testing described in subsection (a) and shall submit to Congress a report on such testing. The report shall include an analysis of the testing and such comments on the report and certification of the Secretary under that subsection as the Comptroller General considers appropriate.

(c) REPORT ON LONG-RANGE STAND-OFF CHEMICAL WEAPONS.—(1) The Secretary of Defense shall submit to Congress a report on the military requirements for long-range stand-off chemical weapons. The report shall address the military advantages and disadvantages of such weapons and the potential of such weapons as a substitute for the Bigeye bomb.

(2) The report shall be submitted before the date on which the President's budget for fiscal year 1988 is submitted to Congress.

SEC. 124. DDG-51 DESTROYER PROGRAM.

(a) REPEAL OF LIMITATION.—Section 102(h) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2501), is repealed.

(b) PLAN FOR RACER SYSTEM.—The Secretary of the Navy shall plan for the installation of the RACER system on the "second flight" of DDG-51 vessels. Such planning shall include the preparation of a ship design that includes the RACER system.

SEC. 125. BASIC POINT MISSILE SYSTEM ON AMPHIBIOUS VESSELS.

The Secretary of the Navy shall maintain in an operational status the Basic Point Defense Missile System on any amphibious vessel equipped on the date of the enactment of this Act with such system until a follow-on system, of comparable capability, is available for immediate replacement of the system on such vessel. This section does not apply to a vessel that is retired.

SEC. 126. OTHER LIMITATIONS ON NAVY PROCUREMENT.

(a) SH-2F AIRCRAFT.—Funds appropriated for fiscal year 1987 for procurement of aircraft for the Navy may be obligated for procurement of SH-2F aircraft only for aircraft that are configured so as to incorporate the T-700 engine.

(b) P-3G AIRCRAFT.—Funds appropriated for fiscal year 1987 for procurement of aircraft for the Navy may be obligated for advance procurement of P-3 aircraft—

(1) only for P-3G update IV aircraft; and

(2) only after the use of competitive procedures.

SEC. 127. LIMITATIONS ON AIR FORCE PROCUREMENT.

(a) F-15E FIGHTER PROGRAM.—None of the funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may be obligated for the F-15E aircraft program until the Secretary of the Air Force—

(1) decides whether to recommend to the President that for fiscal years after fiscal year 1987 the Air Force procure the F-15E aircraft or the Advanced Tactical Fighter aircraft; and

(2) reports that decision to Congress.

(b) ADVANCED CRUISE MISSILE.—Funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may not be obligated until the Secretary of the Air Force—

(1) decides whether to recommend to the President that for fiscal years after fiscal year 1987 the Air Force procure the Advanced Cruise Missile or the SHRAM II weapon system.

(2) reports that decision to Congress.

(c) C-17 AIRCRAFT PROGRAM.—Funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may not be obligated for the C-17 aircraft program until 60 legislative days after the date on which the Committees on Armed Services of the Senate and House of Representatives receive the report of the Comptroller General on such program requested by the Committee on Armed Services of the House of Representatives on April 28, 1986. If a decision is made that the C-17 aircraft is not to be procured, funds available for procurement of such aircraft may be used for the procurement of additional Air Force airlift aircraft, including the C-5B aircraft.

(d) AMRAAM PROGRAM.—(1) Funds appropriated or otherwise made available for fiscal year 1987 for procurement of missiles for the Air Force may not be obligated for low-rate production procurement of the Advanced Medium-Range Air-to-Air Missile (AMRAAM) until—

(A) the results of the flight test of the performance of the missile are evaluated against the established program specifications (DS32050000B, as amended by the draft development concept paper of June 14, 1985);

(B) the Secretary of the Air Force reports such results to the Committees on Armed Services of the Senate and House of Representatives; and

(C) a period of 60 days passes after such Committees receive the report of such results.

(2) The program for flight testing the AMRAAM missile shall include testing of AMRAAM missiles that incorporate the producibility enhancements established for the program. Such testing shall be carried out before full-rate production is begun. Such production may not then be begun until the Secretary submits a report on the test results of the flight test program to the respective Committees on Armed Services and a period of 60 calendar days expire after receipt of such report.

(3) The cost of the AMRAAM program may not exceed $7,000,000,000 (in fiscal year 1984 dollars), based upon procurement of 24,000 missiles.

(e) T-46A TRAINER AIRCRAFT PROGRAM.—(1) The maximum program production cost for the T-46A Trainer aircraft program is $3,100,000,000 (in fiscal year 1986 dollars), based upon procurement of 650 production aircraft. The maximum production unit cost for such program is $4,800,000 (in fiscal year 1986 dollars). The program production cost and the production unit cost for such program determined for the purposes of this paragraph shall be determined without regard to amounts for initial spares.

(2) If during any fiscal year either maximum cost specified in paragraph (1) is exceeded, the Secretary of the Air Force may not procure any T-46A Trainer aircraft during a later fiscal year until the Secretary has conducted a competition for procurement of that aircraft.

(f) F-16 AIRCRAFT PROGRAM.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of aircraft for the Air Force may not be obligated for the F-16 aircraft program until—

(1) the Secretary of Defense, after considering the recommendations of the Joint Requirements and Management Board of the Department of Defense, establishes an acquisition plan for such program;

(2) the plan is submitted to the Committees on Armed Services of the Senate and House of Representatives; and

(3) a period of 30 days passes after receipt of such plan by the Committees.

(g) LIMITATION ON PROCUREMENT OF T-9 NOISE SUPPRESSORS.—The Secretary of the Air Force may not obligate or expend any amounts appropriated or otherwise made available to the Air Force for purposes of procuring A/F32T-9 Noise Suppressor Systems unless in procuring such systems the Secretary uses competitive procedures (within the meaning of such term in section 2302(2) of title 10, United States Code).

## TITLE II—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces for research, development, test, and evaluation in amounts as follows:

(1) For the Army, $4,818,064,000.

(2) For the Navy (including the Marine Corps), $9,097,089,000.

(3) For the Air Force, $14,129,058,000.

(4) For the Defense Agencies, $7,678,782,000, of which—

(A) $136,800,000 is authorized for the activities of the Deputy Under Secretary of Defense, Test and Evaluation; and

(B) $11,300,000 is authorized for the Director of Operational Test and Evaluation.

(b) GENERAL AUTHORIZATION FOR CIVILIAN PAY CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1987, in addition to the amounts authorized to be appropriated in subsection (a), such amounts as may be necessary for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided by funds authorized to be appropriated in subsection (a).

(c) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from an account for which funds are authorized to be appropriated in subsection (a) is the amount authorized to be appropriated for such account under that subsection plus any amount authorized for such account under subsection (b) plus the following:

(1) For the Army, $5,000,000.

(2) For the Navy, $0.

(3) For the Air Force, $3,900,000.

(4) For the Defense Agencies, $0.

SEC. 202. AUTHORIZATION OF APPROPRIATIONS FOR FOREIGN CURRENCY PURCHASES.

There is hereby authorized to be appropriated for fiscal year 1987 the amount of $3,500,000 for the purchase of foreign currencies from the Treasury Department to pay expenses incurred in carrying out programs of the Department of Defense.

SEC. 203. LIMITATIONS ON FUNDS FOR THE ARMY.

(a) COPPERHEAD GUIDED PROJECTILE.—The Secretary of the Army may not carry out or enter into a contract for any product improvement or modifications to the Copperhead Guided Projectile until the Secretary of Defense—

(A) submits to the Committees on Armed Services of the Senate and the House of Representatives a plan that is designed to provide maximum commonality of all subsystems (to include guidance and control and fuze between the Copperhead and Five-Inch Guided Projectiles); and

(B) certifies to such Committees in writing that a second source contract has been

entered into for production of the Copperhead and Five-Inch Guided Projectiles.

(b) PRODUCT IMPROVEMENT OR MODIFICATION.—For purposes of subsection (a), a product improvement or modification is any change to the production configuration of the Copperhead Guided Projectile as in effect on January 1, 1986.

(c) EXPIRATION OF LIMITATION.—The limitation in subsection (a) expires upon the enactment of a law making appropriations for the Department of Defense for fiscal year 1988.

SEC. 204. LIMITATIONS ON FUNDS FOR THE NAVY.

(a) V-22 OSPREY AIRCRAFT.—Of the funds authorized in section 201 for the Navy, not more than $340,000,000 is available for the V-22 Osprey aircraft. Not more than one-half of such amount may be obligated or expended until the Secretary of the Navy certifies to the Committees on Armed Services of the Senate and the House of Representatives in writing that—

(1) such aircraft is capable of performing the antisubmarine warfare mission currently performed by the S-3A aircraft; and

(2) such aircraft is the most cost effective aircraft to perform that mission.

(b) STANDOFF ATTACK MISSILE.—

(1) IN GENERAL.—Of the amount authorized in section 201 for the Navy, not more than $37,500,000 is available for the Standoff Land Attack Missile (SLAM) program.

(2) LIMITATION.—(A) No funds may be obligated or expended for the Standoff Land Attack Missile (SLAM) program until—

(i) the Secretary of the Navy completes a trade-off analysis of the SLAM program with the Medium Range Air-to-Surface Missile; and

(ii) 15 days of continuous session of Congress expire following the submission to Congress by the Secretary of the Navy of a report containing the results of the analysis described in clause (i).

(B) For purposes of subparagraph (A)(ii), the continuity of a session of Congress is broken only by an adjournment of Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such period.

(c) INTER-COOLED RECOUPERATED CYCLE GAS TURBINE PROPULSION SYSTEM.—Funds appropriated for fiscal year 1987 or any previous fiscal year may not be used for research, development, test, and evaluation of the Inter-Cooled Recouperated Cycle Gas Turbine Propulsion System.

(d) MARINE INTEGRATED FIRE AND AIR SUPPORT SYSTEM (MIFASS).—Funds appropriated for fiscal year 1987 or any previous fiscal year may not be used for research, development, test, and evaluation of the Marine Corps Marine Integrated Fire and Air Support System (MIFASS).

(e) MARINE CORPS PEGASUS ENGINE.—Of the funds appropriated pursuant to authorizations in this title not less than $16,000,000 shall be used for safety and reliability improvements for the Marine Corps AV-8B aircraft Pegasus engine program.

(f) AVIONICS RACK SYSTEM.—Of the funds appropriated pursuant to authorizations in this title not less than $10,000,000 shall be used for test and evaluation of the Floating Beam Avionics Racking system and the interface of that system with the Navy's S-3A antisubmarine warfare aircraft and other aircraft.

(g) RANKINE CYCLE ENERGY RECOVERY (RACER) SYSTEM.—Funds appropriated for fiscal year 1987 may not be used for research, development, test, and evaluation for the DDG-51 class ship until the Secretary of the Navy notifies the Committees on Armed Services of the Senate and the House of Representatives that—

(1) testing of the Rankine Cycle Energy Recovery (RACER) system has resumed;

(2) testing of that system will continue through completion of land-based and at-sea testing; and

(3) compatibility of the RACER system with the second flight of the DDG-51 class ship will be maintained and no design changes will be implemented on the DDG-51 class ships that will obviate the installation or retrofit of the RACER system.

(h) LOW-COST SEEKER MISSILE.—Of the funds authorized in section 201 for the Navy, $39,704,000 is available only for the Low-Cost Seeker Missile program.

(i) FUNDS FOR LIBYAN LESSONS-LEARNED EQUIPMENT MODIFICATIONS.—Of the amount appropriated for research, development, test, and evaluation for the Navy for fiscal year 1987, $50,000,000 may not be obligated or expended until the Secretary of the Navy submits to the Committees on Armed Services of the Senate and House of Representatives a written certification that the expenditure—

(1) is directly related to the Libyan lessons-learned study; and

(2) will be used for equipment modifications and associated development, test, and evaluation that will have a significant affect on the war-fighting capacity of the United States.

(j) 5-INCH ROLLING AIRFRAME MISSILE.—Funds appropriated to the Department of Defense for fiscal year 1987 (or any prior fiscal year) may not be obligated or expended for the 5-Inch Rolling Airframe Missile until the Secretary of Defense—

(1) enters into a firm fixed price production contract for such missile with the development contractor or any other alternative production source at a total unit price of not more than $110,000 (in fiscal year 1986 dollars) for the first procurement lot of missiles with not-to-exceed options for any later purchase of such missiles at $110,000 or less; and

(2) certifies to the Committees on Armed Services of the Senate and House of Representatives that the average unit fly-away cost for the entire planned procurement of such missiles shall not exceed $85,000 per unit (using fiscal year 1986 dollars as the base year index).

SEC. 205. LIMITATION ON FUNDS FOR THE AIR FORCE.

(a) CRUISE MISSILE SHORT-RANGE ATTACK MISSILE II.—Of the funds authorized in section 201 for the Air Force, not more than $148,000,000 is available for research, development, test, and evaluation of either (but not both) the Advanced Cruise Missile or the Short-Range Attach Missile II system.

(b) AMRAAM.—Of the amount authorized in section 201 for the Air Force, not more than $39,000,000 is available for the Advanced Medium Range Air-to-Air Missile (AMRAAM) program. Funds appropriated for fiscal year 1987 may not be obligated or expended for such program until the Secretary of Defense advises the Committees on Armed Services of the Senate and House of Representatives in writing that the certification required by section 210(b) of the Department of Defense Authorization Act, 1986 (Public Law 99-145, 99 Stat. 611), remains valid.

(c) SPACE DEFENSE SYSTEM.—Of the amount authorized in section 201 for the Air Force, not more than $140,000,000 is available for the Space Defense system. None of such amount may be used for the production verification of the Miniature Homing Vehicle.

(d) LOW-COST SEEKER MISSILE.—Of the funds authorized in section 201 for the Air Force, $17,375,000 is available only for the Low-Cost Seeker Missile program.

SEC. 206. LIMITATION ON FUNDS FOR DEFENSE AGENCIES.

(a) MEDICAL APPLICATION OF FREE ELECTRON LASER.—Of the amount authorized in section 201 for the Defense Agencies (including the Strategic Defense Initiative Organization), $15,000,000 may be used only for the application of Free-Electron Lasers for medical research and material.

(b) ASSISTANT SECRETARY OF DEFENSE (C3I).—Of funds appropriated for fiscal year 1987, not more than $488,857,000 shall be available for the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence for research, development, test, and evaluation of electronic warfare systems. Of such amount, not less than $125,000,000 is available only for the development and demonstration of the Integrated Communication Navigation Identification Avionics and the Integrated Electronic Warfare System and the Associated Very High-Speed Integrated Circuit Based Modular Architecture programs.

(c) LASER PANTOGRAPHY.—Of the amount authorized to be appropriated for the Defense Agencies in section 201 for Microwave/Millimeter Wave Monolithic Integrated Circuit Technology efforts, $4,000,000 is available only for the Laser Pantography project.

SEC. 207. CONVENTIONAL DEFENSE INITIATIVE.

(a) IN GENERAL.—In this Act, Congress commences a program of Conventional Defense Initiatives to provide an emphasis on improving the conventional weapons of the Armed Forces (and the testing of such weapons) and to enhance cooperation with the other member nations of the North Atlantic Treaty Organization. The initiative is intended to improve the fighting power and survivability of the combat forces of the United States and to raise the threshold for nuclear war.

(b) AMOUNT AUTHORIZED.—Of the amount authorized in section 201 for the Army, Navy, and Air Force, $462,313,000 is available only for the Conventional Defense Initiatives program.

SEC. 208. STRATEGIC DEFENSE INITIATIVE.

Of the amount authorized in section 201 for research, development, test, and evaluation for the Defense Agencies, not more than $3,400,000,000 is available for the Strategic Defense Initiative (SDI) program.

SEC. 209. TACTICAL BALLISTIC MISSILE DEFENSE.

(a) AUTHORITY FOR PROGRAM.—The Secretary of Defense shall provide that the Strategic Defense Initiative Organization (SDIO) of the Department of Defense shall carry out a research, development, and test program in accordance with this subsection. The program shall be carried out through a separate office established within the SDIO. Through such program, the Secretary shall carry out research, development, and test of systems for defense against tactical ballistic missiles. In carrying out such program, the Secretary shall, to the extent practicable, make use of technologies for defense against intercontinental ballistic missiles developed through programs of the Strategic Defense Initiative.

(b) FUNDING.—Of the funds appropriated pursuant to the authorization in section 201 for the Strategic Defense Initiative, up to $50,000,000, shall be available to initiate de-

velopment and deployment of an antitactical ballistic missile system.

SEC. 210. MODIFICATION OF LINKAGE OF DEPLOYMENT OF THE MX MISSILE AND DEVELOPMENT OF SMALL MOBILE MISSILE.

(a) LIMITATION.—The Secretary of Defense may not deploy more than 10 MX missiles until—

(1) the major elements (including the guidance and control subsystems) of a mobile missile weighing less than 37,000 pounds as a part of an intercontinental ballistic missile system have been tested;

(2) the major elements of the prototype small mobile intercontinental ballistic missile system (including the missile, the prototype mobile transporter-launcher basing system, and the command, control, and communications system) have been designed and functionally integrated and the system has been validated;

(3) contractors for the full-scale engineering development of such missile system have been selected and full-scale engineering development contracts have been awarded to those contractors;

(4) full-scale engineering development of such a mobile system has begun; and

(5) the Secretary has provided to the Committees on Armed Services of the Senate and the House of Representatives written certification that the small mobile missile system program has been structured to provide an initial operational capability of not later than December 31, 1992.

(b) REPEAL OF PRIOR MX LIMITATION.—Subsections (a) and (b) of section 1231 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 693), are repealed.

SEC. 211. COOPERATIVE MEDICAL RESEARCH PROGRAM WITH VETERANS' ADMINISTRATION.

(a) AUTHORITY FOR PROGRAM.—The Secretary of Defense shall, in cooperation with the Administrator of Veterans' Affairs, establish a cooperative medical research program to be administered by the Secretary and the Administrator.

(b) FUNDING.—Not less than $10,000,000 of each of the following amounts is available only for the cooperative medical research program established under subsection (a):

(1) ARMY.—The amount authorized in section 201 for the Army.

(2) NAVY.—The amount authorized in section 201 for the Navy.

(3) AIR FORCE.—The amount authorized in section 201 for the Air Force.

(c) DEADLINE.—The Secretary of Defense shall, before the end of the 30-day period beginning on the date of the enactment of a law making appropriations for the Department of Defense for fiscal year 1987—

(1) establish the program required to be established under subsection (a); and

(2) make available the amounts appropriated for that program.

SEC. 212. HIGH-SPEED ANTI-RADIATION MISSILE (HARM).

No funds appropriated or otherwise made available to the Department of Defense may be used for research, development, test, and evaluation for the High-Speed Anti-Radiation Missile (HARM) unless the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that—

(1) the Block IV design (or any derivative of the Block IV design) shall be integrated into the HARM at no cost to the government; and

(2) the development, test, and evaluation of the Low-Cost Seeker Missile compatible with the HARM shall be completed.

SEC. 213. CONVERSION OF POSITION OF DIRECTOR OF OPERATIONAL TEST AND EVALUATION TO ASSISTANT SECRETARY LEVEL.

(a) ASSISTANT SECRETARY OF DEFENSE.—Section 136 of title 10, United States Code, is amended—

(1) by striking out "eleven" in subsection (a) and inserting in lieu thereof "12"; and

(2) by adding at the end of subsection (b) the following new paragraph:

"(7) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Operational Test and Evaluation. That Assistant Secretary shall have the functions and shall perform the duties prescribed by section 136a of this title.".

(b) STAFF.—Section 136a of such title is amended by adding at the end the following new subsection:

"(i) The Assistant Secretary shall have a professional staff of not less than 40 military and civilian personnel of the Department of Defense.".

(c) CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Section 136a of such title is amended—

(A) in subsection (a)(1)—

(i) by striking out the first sentence;

(ii) by striking out "The Director" the first place it appears and inserting in lieu thereof "The Assistant Secretary of Defense for Operational Test and Evaluation";

(iii) by striking out "of Director"; and

(iv) by striking out "The Director" the second place it appears and inserting in lieu thereof "The Assistant Secretary";

(B) by striking out "Director" each place it appears in subsections (b) through (g) and inserting in lieu thereof "Assistant Secretary"; and

(C) in subsection (h)—

(i) by striking out "the Director of" and inserting in lieu thereof "the Assistant Secretary of Defense for"; and

(ii) by striking out "Director under" and inserting in lieu thereof "Assistant Secretary under".

(2) EXECUTIVE SCHEDULE.—Section 5315 of title 5, United States Code, is amended—

(A) by striking out "Director of Operational Test and Evaluation, Department of Defense."; and

(B) by striking out "(11)" after "Assistant Secretaries of Defense" and inserting in lieu thereof "(12)".

(d) CLERICAL AMENDMENTS.—

(1) HEADING.—The heading of section 136a of such title is amended to read as follows:

"§ 136a. Assistant Secretary of Defense for Operational Test and Evaluation: powers and duties".

(2) TABLE OF SECTIONS.—The item relating to such section in the table of sections at the beginning of chapter 4 of such title is amended to read as follows:

"136a. Assistant Secretary of Defense for Operational Test and Evaluation: powers and duties.".

(e) TRANSITION.—The conversion by the amendments made by this section of the position of Director of Operational Test and Evaluation of the Department of Defense to Assistant Secretary of Defense for Operational Test and Evaluation shall not affect the appointment in such position of the person serving in such position on the date of the enactment of this Act.

SEC. 214. LIVE-FIRE TESTING AND OPERATIONAL TESTING.

(a) TESTING REQUIREMENTS.—

(1) IN GENERAL.—Chapter 139 of title 10, United States Code, is amended by adding at the end the following new sections:

"§ 2364. Live-fire testing: covered systems, major munitions programs, and missile programs

"(a) REQUIREMENTS.—The Secretary of Defense shall provide that—

"(1) a contract for production of a covered system may not be entered into until live-fire testing of the system is completed in accordance with this section; and

"(2) a contract for production of a major munitions program or a missile program may not be entered into until live-fire testing of the program is completed in accordance with this section.

"(b) DIRECTOR OF LIVE-FIRE TESTING.—

"(1) APPOINTMENT.—There is in the Department of Defense a Director of Live-Fire Testing. The Director shall be appointed from civilian life by the Secretary of Defense and shall be under the Director of Defense Research and Engineering.

"(2) DUTIES.—The Director shall—

"(A) before full-scale engineering development begins with respect to a covered system, major munitions program, or missile program—

"(i) review the adequacy of the plan, schedule, and proposed funding of the Secretary of the military department concerned for live-fire testing of that system or program; and

"(ii) report to the Director of Defense Research and Engineering on the adequacy or inadequacy of the plan for such live-fire testing and (if the Director of live-fire testing determines that the plan is inadequate) on what would constitute an adequate test plan; and

"(B) while such live-fire testing is carried out, continue to review the adequacy and progress of such testing.

"(3) IMPROVEMENT OF TESTING.—(A) The Director shall carry out programs to improve the conduct of live-fire tests by the Department of Defense and shall develop improved methods, instruments, and facilities for such tests.

"(B) The Secretary of Defense shall provide to the Director specific funds for the functions of the Director under subparagraph (A).

"(4) OVERSIGHT OF TESTING.—The Director—

"(A) may observe any live-fire test conducted by the Secretary of a military department; and

"(B) shall have access to all live-fire test data and reports produced by the Secretary of a military department.

"(5) STAFF OF DIRECTOR.—The Secretary shall provide to the Director an adequate staff to enable the Director to carry out the duties of the Director under this section.

"(c) LIVE-FIRE TESTING BY SERVICE SECRETARIES.—

"(1) IN GENERAL.—The Secretary of the military department concerned shall carry out live-fire testing of each covered system, major munitions program, or missile program for which the Secretary has responsibility for development and production. Such testing—

"(A) shall be planned and funded by that Secretary; and

"(B) shall be carried out early enough during the developmental phase of the system or program to allow any design deficiency demonstrated by the testing to be corrected and integrated into the design of the system, munition, or missile before production is begun.

"(2) SUBMISSION OF TEST PLAN.—Before full-scale engineering development of the system, munitions program, or missile program is

begun (or, in the case of a naval vessel, before contract design is begun), the Secretary concerned shall submit to the Director the plan, schedule, and proposed funding for live-fire testing of the system or program to be carried out by the Secretary.

"(3) REPORT TO DIRECTOR.—After such testing is completed, the Secretary concerned shall submit to the Director a report (in both classified and unclassified forms) on the test conducted by the Secretary. Such report shall include—

"(A) a complete description of the firing parameters used in the test;

"(B) an analysis of the effect on the target of each test shot, with primary emphasis on effect on potential casualties;

"(C) a comparison (including a description and justification of the merit and criteria used in carrying out the comparison) of the results of such live-fire test with results of—

"(i) any live-fire test of the system, munition, or missile that would be replaced by the system, munition, or missile tested; or

"(ii) if there is no system, munition, or missile that would be replaced by the system, munition, or missile tested or if such system, munition, or missile was not subjected to live-fire tests, any live-fire test of the system, munition, or missile that is the nearest competition to the system, munition, or missile tested;

"(D) a description of the potential shortcomings of the system, munition, or missile that were revealed by the testing and (if any were revealed) the plan of the Secretary concerned to incorporate into the design of the system, munition, or missile changes that are necessary to overcome such shortcomings and the associated costs; and

"(E) a test plan for further live-fire testing to verify that the planned design changes are effective in overcoming such shortcomings.

"(4) INDEPENDENT LIVE-FIRE TEST.—If in any case the Director determines that the plan of the Secretary of a military department for a live-fire test is inadequate to determine vulnerability of users of a system or the lethality of a munition or missile, the Director may independently plan and carry out a live-fire test of the system, munition, or missile involved. Such testing may be conducted at the same time as, or after, a similar test by the Secretary concerned. Funds for such testing shall be provided from the program budget for the program concerned.

"(d) USE OF SURROGATE FOREIGN ROUNDS OR TARGETS.—In the case of a live-fire test of a covered system for which sufficient actual foreign rounds are not available or of a major munitions program or missile program for which sufficient actual foreign targets are not available, the Director—

"(1) shall establish plans for obtaining or producing surrogate foreign rounds or surrogate foreign targets or United States targets, as appropriate;

"(2) shall test the realism of such surrogates; and

"(3) when required, shall obtain such surrogate rounds or targets.

"(e) USE OF SURROGATES FOR TESTING.—In the case of a covered system for which the Director determines that it is extraordinarily expensive to test an actual prototype or production model, the Director shall configure or produce realistic surrogates of the system for test purposes.

"(f) REPORT TO DIRECTOR, DEFENSE RESEARCH AND ENGINEERING.—Before production of a covered system, major munitions program, or missile program begins, the Director shall submit to the Director of Defense Research and Engineering a report on each live-fire test conducted with respect to that system or program. The report shall include an analysis of the adequacies and inadequacies of the test and any differences in interpretation of the Director and Secretary concerned of the firing results, and any differences and conclusions. Each such report shall be independent of, and uncoordinated with, the report of the Secretary concerned and shall be submitted in both classified and unclassified forms.

"(g) REPORT TO DEFENSE COMMITTEES.—At the conclusion of live-fire testing for a covered system, major munitions program, or missile program, the Director shall submit to the defense committees a report on such testing.

"(h) WAIVER.—The Secretary of Defense may waive the application of this section to a covered system, munitions program, or missile program if the Secretary, before such system or program enters full-scale engineering development, certifies to Congress that live-fire testing of such system or program (even if a surrogate is used as provided in subsection (e)) would be extraordinarily expensive and unnecessary.

"(i) DEFINITIONS.—In this section:

"(1) COVERED SYSTEM.—The term 'covered system' means a vehicle, weapon platform, or conventional weapon system—

"(A) that includes features designed to provide some degree of protection to users in combat; and

"(B) that is a major system within the meaning of that term in section 2302(5) of this title.

"(2) MAJOR MUNITIONS PROGRAM.—The term 'major munitions program' means—

"(A) a munitions program for which more than 1,000,000 rounds are planned to be acquired; or

"(B) a conventional munitions program that is a major system within the meaning of that term in section 2302(5) of this title.

"(3) LIVE-FIRE TESTING.—The term 'live-fire testing' means—

"(A) in the case of a covered system, testing for vulnerability and survivability of the system in combat by firing foreign conventional munitions (including all threat munitions that would likely be encountered by the system in combat) at the system configured for combat, with the primary emphasis on testing vulnerability with respect to potential user casualties; and

"(B) in the case of a major munitions program or a missile program, testing for lethality by firing the munition or missile concerned at foreign targets configured for combat, including each principal foreign target against which the munition or missile is intended to be used during combat.

"(4) CONFIGURED FOR COMBAT.—The term 'configured for combat', with respect to a weapon system, platform, or vehicle, means loaded or equipped with all dangerous conventional materials (including all flammables and explosives) that would normally be on board in combat.

"(5) DEFENSE COMMITTEES.—The term 'defense committees' has the meaning given that term in section 2362(e)(3) of this title.

**"§ 2365. Operational testing: certain major defense acquisition programs**

"(a) INDEPENDENT TEST AND EVALUATION BY SERVICE SECRETARIES.—

"(1) IN GENERAL.—The Secretary of the military department concerned shall conduct an independent operational test and evaluation with respect to a major defense acquisition program under which there is to be acquired a conventional weapons system that—

"(A) is a major system within the meaning of that term in section 2302(5) of this title; and

"(B) is designed for use in combat.

"(2) LIMITATION ON PRODUCTION CONTRACTS.—(A) An operational test and evaluation required by paragraph (1) shall be conducted before a major defense acquisition program may proceed into the production stage.

"(B) A contract for production of a major defense acquisition program may not be entered into until the requirements of this section with respect to such program are fulfilled.

"(C) Subparagraph (B) does not apply to a contract for production of weapons systems that are required for operational test and evaluation required by paragraph (1).

"(3) DESCRIPTION OF INDEPENDENT TEST AND EVALUATION.—(A) Except as provided in subparagraph (B), an operational test and evaluation is not independent for purposes of this subsection if any person employed by the contractor for the system being tested is involved in any stage of the operational test and evaluation.

"(B) This paragraph does not apply to the involvement in an operational test and evaluation of a person employed by the contractor who is involved in depot-level maintenance of the system being tested to the same extent and in the same manner as that person would be involved in such maintenance in time of war.

"(b) SIDE-BY-SIDE TESTING.—

"(1) IN GENERAL.—The operational test and evaluation required by subsection (a) shall include a side-by-side test of the system being acquired with equal-cost quantities of—

"(A) the system intended to be replaced (if the system being acquired is intended to replace another system); or

"(B) the nearest, most effective competitor of the system being acquired (if the system being acquired is not intended to replace another system) that is manufactured in the free world.

"(2) COST OF SYSTEMS.—For purposes of the side-by-side test described in paragraph (1)—

"(A) the cost of the system being acquired is the projected program unit cost included in the most recent Selected Acquisition Report with respect to that system; and

"(B) the cost of the system intended to be replaced or the competitor system is the cost of acquiring that system.

"(c) INDEPENDENT ANALYSIS OF RESULTS OF OPERATIONAL TEST AND EVALUATION.—

"(1) IN GENERAL.—The Assistant Secretary for Operational Test and Evaluation shall independently analyze the results of each operational test and evaluation carried out under subsection (a). At the conclusion of that operational test and evaluation, the Assistant Secretary shall submit a report to the Secretary of Defense on that analysis.

"(2) INDEPENDENT OPERATIONAL TEST AND EVALUATION.—If in any case the Assistant Secretary determines that the operational test and evaluation carried out under subsection (a) is inadequate to determine effectiveness, suitability, vulnerability of users, or lethality, the Assistant Secretary may independently plan and carry out an operational test and evaluation of the system involved.

"(3) REIMBURSEMENT OF COSTS.—The Secretary of Defense shall provide that costs of the Assistant Secretary incurred incident to operational test and evaluation under para-

graph (1) or (2) (as such costs are determined by the Assistant Secretary) shall be reimbursed to funds available to the Assistant Secretary from funds available for the system concerned.

"(d) CONTENT OF REPORTS.—Each report under subsection (c) shall include an analysis of whether the extent and realism of the test and evaluation performed were adequate to assess confidently, in comparison with the system intended to be replaced or the competitor system, each of the following to the extent appropriate with respect to the particular item or component tested:

"(1) SURVIVABILITY.—The ability of the system to survive (with primary emphasis on casualties) when hit in a combat situation by weapons likely to be encountered in such a situation.

"(2) MAINTAINABILITY.—The ability of military personnel of average skill, operating under the stress of combat, to maintain the system in an operational status.

"(3) PROBABILITY OF SYSTEM FAILURE.—The probability of system failure in a combat situation under the maintenance conditions described in paragraph (2).

"(4) MOBILITY.—The time required to move, with no prior notice, combat units containing the system in a realistic combat environment over typical deployment distances and battlefield distances.

"(5) MANEUVERABILITY.—The maneuverability of the system in a combat situation with respect to—

"(A) survival; and

"(B) firing advantage.

"(6) EFFECTIVENESS.—The effectiveness of the system as indicated by results of the side-by-side test required in subsection (b)(1).

"(e) SUBMISSION OF REPORTS TO DEFENSE COMMITTEES.—Each report of the Assistant Secretary under subsection (c) shall be submitted to the defense committees in precisely the same form and with precisely the same content as the report originally was submitted to the Secretary and shall be accompanied by such comments as the Secretary of Defense may wish to make on such report.

"(f) APPROVAL OF TEST PLANS.—

"(1) IN GENERAL.—Operational testing of a major defense acquisition program may not be conducted until the Assistant Secretary approves in writing the adequacy of the plans (including the adequacy of projected levels of funding) for operational test and evaluation to be conducted in connection with that program.

"(2) WAITING PERIOD.—(A) A final decision within the Department of Defense to proceed with a major defense acquisition program beyond low-rate initial production may not be made until 15 days of continuous session of Congress expire following after the date that the defense committees receive the report required under subsection (e).

"(B) For purposes of subparagraph (A), the continuity of a session of Congress is broken only by an adjournment of Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such period.

"(g) WAIVER.—In time of war or mobilization, the President may suspend the operation of any provision of this section.

"(h) DEFINITIONS.—In this section:

"(1) MAJOR DEFENSE ACQUISITION PROGRAM.—The term 'major defense acquisition program' means a program subject to the Selected Acquisition Report requirements of section 139a of this title.

"(2) OPERATIONAL TEST AND EVALUATION.—The term 'operational test and evaluation' has the meaning given that term in section 136a(a)(2)(A) of this title.

"(3) DEFENSE COMMITTEES.—The term 'defense committees' has the meaning given that term in section 2362(e)(3) of this title.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"2364. Live-fire testing: covered systems, major munitions programs, and missile programs.
"2365. Operational testing: certain major defense acquisition programs.".

(b) ANNUAL REPORT.—Subsection (g)(1) of section 136a of such title is amended—

(1) by striking out "January 15" in the second sentence and all that follows through "is prepared" and inserting in lieu thereof "10 days after the transmission of the budget for the next fiscal year pursuant to section 1105 of title 31";

(2) by striking out "evaluation and" in the third sentence and inserting in lieu thereof "evaluation,"; and

(3) by striking out "activities" in the third sentence and inserting in lieu thereof "activities, and the resources and personnel assigned to the Director to enable the Director to carry out his duties under this section".

(c) CONFORMING AMENDMENTS.—Such section is further amended—

(1) by striking out clause (i) of subsection (a)(2)(A) and inserting in lieu thereof the following:

"(i) the field test under realistic operational conditions of a production representative item of a weapon system, equipment or munition for purposes of assessing and determining the effectiveness and suitability of the weapon system, equipment, or munition for use by typical users, and, if appropriate, additional operational testing including analysis of tactical and doctrinal concepts for and key components of weapon systems, equipment, or munitions; and";

(2) in subsection (b)—

(A) by adding "and" at the end of paragraph (4);

(B) by striking out paragraph (5); and

(C) by redesignating paragraph (6) as paragraph (5);

(3) by striking out subsection (c);

(4) by redesignating subsections (d) and (e) as subsections (c) and (d), respectively;

(5) by striking out subsection (f);

(6) by redesignating subsection (g) (as amended by subsection (b)) as subsection (e) and in that subsection striking out "such comments" in the third sentence and inserting in lieu thereof "a detailed explanation of the points of agreement and disagreement between the Assistant Secretary and the Secretary of the military department concerned with respect to each evaluation conducted by the Secretary during the preceding fiscal year and such other comments"; and

(7) by redesignating subsection (h) and subsection (i) (as added by section 213(b)) as subsections (f) and (g), respectively.

(d) EFFECTIVE DATES.—

(1) LIVE-FIRE TESTING REQUIREMENTS.—Section 2364 of title 10, United States Code, as added by subsection (a), shall apply with respect to systems, munitions programs, and missile programs that have not begun full-scale engineering development by the end of the 90-day period beginning on the date of the enactment of this Act.

(2) OPERATIONAL TESTING REQUIREMENTS.—Section 2365 of title 10, United States Code, as added by subsection (a), and the amendments made by subsection (b) shall apply with respect to major defense acquisition programs under which, on the date of the enactment of this Act, the Secretary of Defense or the Secretary of the military department concerned has not entered into a contract to proceed beyond low-rate initial production.

SEC. 214. LIMITATION ON TESTING OF ANTI-SATELLITE WEAPONS.

(a) MORATORIUM.—The Secretary of Defense may not carry out a test of the Space Defense System (anti-satellite weapon) against an object in space after the date on which the President certifies to Congress that the Soviet Union has dismantled all of its dedicated anti-satellite weapons. Notwithstanding any other provision of this Act or any other provision of law, no other limitation shall apply during fiscal year 1987 with respect to the testing of the Space Defense System (anti-satellite weapon) against an object in space.

(b) EXPIRATION OF MORATORIUM.—Subsection (a) expires on October 1, 1987.

## TITLE III—OPERATION AND MAINTENANCE

SEC. 301. OPERATION AND MAINTENANCE FUNDING.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces and other activities and agencies of the Department of Defense for expenses, not otherwise provided for, for operation and maintenance in amounts as follows:

For the Army, $20,742,770,000.
For the Navy, $24,437,000,000.
For the Marine Corps, $1,845,700,000.
For the Air Force, $19,562,600,000.
For the Defense Agencies, $6,728,097,000.
For the Army Reserve, $789,800,000.
For the Naval Reserve, $907,500,000.
For the Marine Corps Reserve, $64,800,000.
For the Air Force Reserve, $927,100,000.
For the Army National Guard, $1,790,100,000.
For the Air National Guard, $1,783,100,000.
For the National Board for the Promotion of Rifle Practice, $4,330,000.
For the Military Health Care Account, $1,569,503,000.
For Defense Claims, $153,100,000.
For the Court of Military Appeals, $3,400,000.
For Foreign Currency Fluctuations, Defense, $495,000,000.
For Environmental Restoration, Defense, $385,900,000.

(b) GENERAL AUTHORIZATION FOR CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1987, in addition to the amounts authorized to be appropriated in subsection (a), such sums as may be necessary—

(1) for unbudgeted increases in fuel costs;

(2) for unbudgeted increases as the result of inflation in the cost of activities authorized by subsection (a); and

(3) for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in subsection (a).

(c) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from an appropriation account for which funds are authorized to be appropriated by this section or section 302 or 303 is the amount authorized to be appropriated for that account plus any amount authorized under subsection (b).

SEC. 302. WORKING CAPITAL FUNDS.

Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces and other activities and agencies of the Department of Defense for providing capital for working-capital funds in amounts as follows:

For the Army Stock Fund, $286,700,000.

For the Navy Stock Fund, $458,500,000.

For the Marine Corps Stock Fund, $44,400,000.

For the Air Force Stock Fund, $239,400,000.

For the Defense Stock Fund, $126,800,000.

SEC. 303. AUTHORIZATION OF APPROPRIATIONS FOR ASSISTANCE TO PAN AMERICAN GAMES.

Funds are hereby authorized to be appropriated for fiscal year 1987 for assistance to the Tenth International Pan American Games in accordance with section 304 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 583), in the amount of $15,000,000.

SEC. 304. PROHIBITIONS ON MANAGING CIVILIAN PERSONNEL BY END STRENGTHS AND ON CONTROLLING PERSONNEL NOT FUNDED BY GOVERNMENT.

(a) IN GENERAL.—Section 140b of title 10, United States Code, is amended—

(1) by inserting "(a)" at the beginning of the text of such section;

(2) by inserting "and" before "(2)";

(3) by striking out ", and (3)" and all that follows through "such fiscal year";

(4) by striking out the period at the end of the second sentence and inserting in lieu thereof "or any constraint or limitation (known as an 'end-strength') on the number of such personnel who may be employed on the last day of such fiscal year."; and

(5) by adding at the end the following:

"(b) The number of, and the amount of funds available to be paid to, indirectly funded Government employees of the Department of Defense may not be—

"(1) subject to any constraint or limitation on the number of such personnel who may be employed on the last day of a fiscal year;

"(2) managed on the basis of any end-strength; or

"(3) controlled under any policy of the Secretary of a military department for control of civilian manpower resources.

"(c) In this section, the term 'indirectly funded Government employees' means civilian employees of the Department of Defense—

"(1) who are employed by industrial-type activities or commercial-type activities described in section 2208 of this title; and

"(2) whose salaries and benefits are funded from sources other than appropriated funds.".

(b) EFFECTIVE DATE.—Subsections (b) and (c) of section 140b of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1986.

(c) CONFORMING AMENDMENTS.—Section 138(c) of title 10, United States Code, is amended—

(1) by striking out paragraph (2);

(2) by redesignating paragraph (3) as paragraph (2) and in subparagraph (A) of that paragraph—

(A) by striking out "annual" before "active duty" the first place it appears in the first sentence;

(B) by striking out "the annual civilian personnel end strength level" in the first sentence and inserting in lieu thereof "projecting civilian personnel strength levels";

(C) by striking out "next fiscal year, and shall include in that report justification for the strength levels recommended and an explanation of the relationship between the personnel strength levels recommended for that fiscal year" and inserting in lieu thereof "next fiscal year. The Secretary shall include in that report justification for the strength levels recommended for active duty end strengths and projected for civilian personnel and an explanation of the relationship between such strength levels";

(3) by redesignating paragraph (4) as paragraph (3) and in that paragraph striking out "or civilian"; and

(4) by redesignating paragraph (5) as paragraph (4).

SEC. 305. CONTRACT PERSONNEL TO BE INCLUDED IN BUDGET JUSTIFICATION.

Section 2203 of title 10, United States Code, is amended by adding at the end the following new sentences: "The Secretary of Defense shall provide that the budget justification documents for such budget include information on the number of employees of contractors estimated to be working on contracts of the Department of Defense during the fiscal year for which the budget is submitted. Such information shall be set forth in terms of employee-years or such other measure as will be uniform and readily comparable with civilian personnel of the Department of Defense.".

SEC. 306. PROCUREMENT OF CERTAIN BAKERY AND DAIRY PRODUCTS OUTSIDE THE UNITED STATES.

(a) PROCUREMENT OF BAKERY AND DAIRY PRODUCTS.—Chapter 143 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2422. Bakery and dairy products: procurement outside the United States

"(a) The Secretary of Defense may authorize any element of the Department of Defense that procures bakery and dairy products for use by the armed forces outside the United States to procure any products described in subsection (b) through the use of procedures other than competitive procedures.

"(b) The products referred to in subsection (a) are bakery or dairy products produced by the Army and Air Force Exchange Service in a facility outside the United States that began operating before July 1, 1986.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2422. Bakery and dairy products: procurement outside the United States.".

SEC. 307. FUNCTIONS OF MILITARY COMMISSARIES; PURCHASE OF ALCOHOLIC BEVERAGES BY NONAPPROPRIATED FUND INSTRUMENTALITIES.

(a) IN GENERAL.—Chapter 147 of title 10, United States Code, is amended by adding at the end the following new sections:

"§ 2486. Commissary stores: merchandise that may be sold; uniform surcharges

"(a) Commissary stores are similar to commercial grocery stores and may sell merchandise similar to that sold in commercial grocery stores.

"(b) Merchandise sold in commissary stores may include items in the following categories:

"(1) Health and beauty aids.

"(2) Meat and poultry.

"(3) Fish and seafood.

"(4) Produce.

"(5) Food and non-food grocery items.

"(6) Bakery goods.

"(7) Dairy products.

"(8) Tobacco products.

"(9) Delicatessen items.

"(10) Frozen foods.

"(11) Other categories designated in regulations prescribed by the Secretary of a military department and approved by the Secretary of Defense.

"(c) An adjustment of or surcharge on sales prices in commissary stores under section 2484(b) or 2685(a) of this title or for any other purpose shall be applied as a uniform percentage of the sales price of all merchandise sold in commissary stores.

"§ 2487. Commissary stores: limitations on release of sales information

"(a) In order to protect commercially valuable information, the Secretary of a military department, except as provided in subsection (b), may not release to the public those portions of computer data generated by electronic scanners used in military commissaries, and those portions of reports generated by such scanners, that contain the following information:

"(1) The unit prices of items sold.

"(2) The number of units of items sold.

"(b) Information subject to subsection (a) may be released under a written agreement. Any such agreement shall require payment for such information and shall specify the amount of such payment.

"(c) Amounts received by the United States under an agreement described in subsection (b) with respect to a commissary shall be deposited in the Commissary Trust Revolving Fund of the military department under which the commissary is operated.

"§ 2488. Nonappropriated fund instrumentalities: purchase of alcoholic beverages

"(a) The Secretary of Defense shall provide that—

"(1) covered alcoholic beverage purchases made for resale on a military installation located in the United States shall be made from the most competitive source, price and other factors considered, except that

"(2) in the case of malt beverages and wine purchased for resale on a military installation located in the contiguous States, such purchases shall be made from, and delivery shall be accepted from, a source within the State in which the military installation concerned is located.

"(b) If a military installation located in the contiguous States is located in more than one State, a source of supply in any State in which the installation is located shall be considered for the purposes of subsection (a)(2) to be a source within the State in which the installation is located.

"(c) In this section:

"(1) The term 'covered alcoholic beverage purchases' means purchases of alcoholic beverages by a nonappropriated fund instrumentality of the Department of Defense with nonappropriated funds.

"(2) The term 'State' includes the District of Columbia.".

(b) REPEAL OF LIMITATION ON FY86 FUNDS.—Section 8099 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190), is repealed.

(c) EXEMPTION FROM WRITTEN NOTICE REQUIREMENTS.—Section 2305(b) of title 10, United States Code, is amended by adding at the end of paragraph (4) the following new subparagraph:

"(E) Subparagraph (D) does not apply with respect to the award of a contract for the acquisition of perishable subsistence items.".

(d) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"2486. Commissary stores: merchandise that may be sold; uniform surcharges.
"2487. Commissary stores: limitation on release of sales information.
"2488. Nonappropriated fund instrumentalities: purchase of alcoholic beverages.".

SEC. 308. AUTHORITY FOR SECRETARY OF DEFENSE TO ACCEPT GIFTS FOR THE DEFENSE DEPENDENTS' EDUCATION SYSTEM.

(a) IN GENERAL.—Chapter 155 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2605. Acceptance of gifts for defense dependents' education system

"(a) The Secretary of Defense may accept, hold, administer, and spend any gift (including any gift of an interest in real property) made on the condition that it be used in connection with the operation or administration of the defense dependents' education system provided for under the Defense Dependents' Education Act of 1978 (20 U.S.C. 921 et seq.). The Secretary may pay all necessary expenses in connection with the acceptance of a gift under this subsection.

"(b) There is established in the Treasury a fund to be known as the 'Department of Defense Dependents' Education Gift Fund'. Gifts of money, and the proceeds of the sale of property, received under subsection (a) shall be deposited in the fund. The Secretary may disburse funds deposited under this subsection for the benefit or use of the defense dependent's education system, subject to the terms of the gift.

"(c) Subsection (c) of section 2601 of this title applies to property that is accepted under subsection (a) in the same manner that such subsection applies to property that is accepted under subsection (a) of that section.

"(d)(1) Upon request of the Secretary of Defense, the Secretary of the Treasury may—

"(A) retain money, securities, and the proceeds of the sale of securities, in the Department of Defense Dependents' Education Gift Fund; and

"(B) invest money and reinvest the proceeds of the sale of securities in that fund in securities of the United States or in securities guaranteed as to principal and interest by the United States.

"(2) The interest and profits accruing from those securities shall be deposited to the credit of the fund and may be disbursed as provided in subsection (b).

"(e) In this section, the term 'gift' includes a devise of real property or a bequest of personal property.

"(f) The Secretary of Defense shall prescribe regulations to carry out this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2605. Acceptance of gifts for defense dependents' education system.".

SEC. 309. RENOVATION OF FACILITIES.

(a) IN GENERAL.—Chapter 169 of title 10, United States Code, is amended by adding at the end of subchapter I the following new section:

"§ 2810. Renovation of facilities

"(a) The Secretary concerned may carry out renovation projects that combine maintenance, repair, and minor construction projects for an entire single-purpose facility, or one or more functional areas of a multipurpose facility, using funds available for operations and maintenance.

"(b) The amount obligated on such a renovation project may not exceed the maximum amount specified by law for a minor construction project under section 2805 of this title.

"(c) Construction of new facilities or additions to existing facilities may not be carried out under the authority of this section."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2810. Renovation of facilities.".

SEC. 310. PROHIBITION OF PURCHASE OF PETROLEUM PRODUCTS FROM COMPANIES PRODUCING OIL IN ANGOLA.

(a) GENERAL RULE.—The Secretary of Defense may not enter into a contract for the purchase of a petroleum product from a company if the company (or a subsidiary or partnership of the company)—

(1) is engaged in the production of petroleum products in Angola; or

(2) during the preceding 12 months has purchased petroleum products, directly or indirectly, from Angola.

(b) PETROLEUM PRODUCT DEFINED.—For the purposes of this section, the term "petroleum product" means crude oil, residual fuel oil, or any refined petroleum product (including any natural gas liquid or any natural gas liquid product).

(c) EFFECTIVE DATE.—This section shall take effect six months after the date of the enactment of this Act. Purchases of petroleum products before the date on which this section takes effect shall not be considered for purposes of subsection (a)(2).

SEC. 311. PROHIBITION OF CONTRACTS FOR THE PERFORMANCE OF CERTAIN ARMY AMMUNITION ACTIVITIES.

(a) PROHIBITIONS OF CONTRACTING.—The Secretary of Defense and the Secretary of the Army may not enter into a contract for the performance by contractor personnel of functions performed by employees of the Department of Defense at the Crane Army Ammunition Activity, Crane, Indiana, or the McAlester Army Ammunition Plant, McAlester, Oklahoma.

(b) EXCEPTION.—The prohibition in subsection (a) does not apply to a contract (or the renewal of a contract) for the performance of a function that on the date of the enactment of this Act is under contract for performance by contractor personnel.

SEC. 312. EXTENSION OF AUTHORIZATION FOR HUMANITARIAN ASSISTANCE.

(a) TRANSPORTATION, ADMINISTRATION, AND DELIVERY OF HUMANITARIAN RELIEF SUPPLIES TO AFGHAN REFUGEES.—Section 305 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 617), is amended—

(1) by inserting after "sum of $10,000,000" in subsection (a) the following: "and for fiscal year 1987 the sum of $3,000,000";

(2) by striking out "for the purpose of" in subsection (a) and inserting in lieu thereof "for the purposes of (1)";

(3) by inserting after "Soviet Union" in subsection (a) the following: ", (2) paying administrative costs of providing such transportation, and (3) providing for the acquisition of transportation assets for the distribution of supplies as part of such relief"; and

(4) by adding at the end the following new subsection:

"(d) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to the authorization in subsection (a) shall remain available until expended, if so provided in appropriation Acts."

(a) TRANSPORTATION OF HUMANITARIAN RELIEF SUPPLIES WORLDWIDE.—Section 1540 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2637), is amended—

(1) effective on October 1, 1986, by striking out "fiscal years 1985 and 1986" and inserting in lieu thereof "fiscal year 1987"; and

(2) by adding at the end the following new subsection:

"(f) There is hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1987 the sum of $3,000,000 to carry out this section.".

(c) DISTRIBUTION OF EXCESS NONLETHAL SUPPLIES FOR HUMANITARIAN RELIEF.—Section 2547(b) of title 10, United States Code, is amended to read as follows:

"(b) Excess supplies made available for humanitarian relief purposes under this section shall be transferred—

"(1) to the Secretary of State, who shall be responsible for the distribution of such supplies; or

"(2) following notification to the Secretary of State, to a component of the Department of Defense which plans to distribute such supplies under otherwise authorized humanitarian and civic assistance programs.".

SEC. 313. NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE.

(a) PERSONNEL SERVICES.—Section 4308 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) The Secretary may provide personnel services (in addition to pay and non-travel related allowances for members of the armed forces) in carrying out the authority of the Secretary under this section and sections 4310 through 4312 of this title.".

(b) ALLOWANCES FOR COMPETITORS AT NATIONAL MATCHES.—Section 4313 of such title is amended—

(1) by striking out "draw not more than" in subsection (a) and all that follows through the end of the subsection and inserting in lieu thereof "be paid a subsistence allowance in such amount as the Secretary of the Army shall prescribe."; and

(2) by striking out "of five cents a mile" in subsection (b) and inserting in lieu thereof "in such amount as the Secretary of the Army shall prescribe".

## TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

SEC. 401. END STRENGTHS FOR ACTIVE FORCES.

The Armed Forces are authorized strengths for active-duty personnel as of September 30, 1987, as follows:

(1) The Army, 780,800.
(2) The Navy, 583,300.
(3) The Marine Corps, 198,800.
(4) The Air Force, 606,470.

SEC. 402. END STRENGTHS FOR SELECTED RESERVE.

(a) IN GENERAL.—For fiscal year 1987, the Selected Reserve of the reserve components of the Armed Forces shall be programmed to attain strengths as of September 30, 1987, of not less than the following:

(1) The Army National Guard of the United States, 459,310.
(2) The Army Reserve, 326,600.
(3) The Naval Reserve, 153,013.
(4) The Marine Corps Reserve, 44,263.
(5) The Air National Guard of the United States, 115,013.

(6) The Air Force Reserve, 80,489.

(7) The Coast Guard Reserve, 13,000.

(b) ADJUSTMENTS.—The end strengths prescribed by subsection (a) for the Selected Reserve of any reserve component shall be proportionately reduced by—

(1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component which are on active duty (other than for training) at the end of the fiscal year; and

(2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at the end of the fiscal year.

SEC. 403. END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVE COMPONENTS.

(a) IN GENERAL.—Within the end strengths prescribed in section 402, the reserve components of the Armed Forces are authorized, as of September 30, 1987, the following number of Reserves to be serving on full-time active duty or, in the case of members of the National Guard, on full-time National Guard duty for the purpose of organizing, administering, recruiting, instructing, or training the reserve components or the National Guard:

(1) The Army National Guard of the United States, 25,231.

(2) The Army Reserve, 12,657.

(3) The Naval Reserve, 20,510.

(4) The Marine Corps Reserve, 1,645.

(5) The Air National Guard of the United States, 8,169.

(6) The Air Force Reserve, 665.

(b) AUTHORITY TO INCREASE END-STRENGTH LIMIT.—Upon a determination by the Secretary of Defense that such action is in the national interest, the end strengths prescribed by subsection (a) may be increased by a total of not more than the number equal to 2 percent of the total end strengths prescribed.

SEC. 404. MILITARY TRAINING STUDENT LOADS.

(a) IN GENERAL.—For fiscal year 1987, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 76,758.

(2) The Navy, 72,483.

(3) The Marine Corps, 19,433.

(4) the Air Force, 43,911.

(5) The Army National Guard of the United States, 18,262.

(6) The Army Reserve, 15,858.

(7) The Naval Reserve, 3,493.

(8) The Marine Corps Reserve, 3,944.

(9) The Air National Guard of the United States, 3,566.

(10) The Air Force Reserve, 2,127.

(b) ADJUSTMENTS.—The average military student loads for the Army, the Navy, the Marine Corps, and the Air Force and the reserve components authorized in subsection (a) for fiscal year 1987 shall be adjusted consistent with the personnel strengths authorized in sections 401 and 402. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the reserve components in such manner as the Secretary of Defense shall prescribe.

## TITLE V—DEFENSE PERSONNEL POLICY

### PART A—ACTIVE FORCES

SEC. 501. ASSIGNMENT OF ACTIVE-DUTY MEMBERS OUTSIDE THE UNITED STATES.

(a) REPEAL OF 12-WEEK REQUIREMENT.—Section 671 of title 10, United States Code, relating to assignment of members outside the United States before the completion of training, is amended by striking out "until he has had twelve weeks of basic training or its equivalent" and inserting in lieu thereof "until the member has completed basic training or its equivalent".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to individuals who begin basic training on or after the date of the enactment of this Act.

SEC. 502. WEARING OF RELIGIOUS APPAREL BY MEMBERS OF THE ARMED FORCES WHILE IN UNIFORM.

(a) IN GENERAL.—Chapter 45 of title 10, United States Code, is amended—

(1) by redesignating section 774 as section 775; and

(2) by inserting after section 773 the following new section 774:

"§ 774. Religious apparel: wearing while in uniform

"(a) GENERAL RULE.—Except as provided under subsection (b), a member of the armed forces may wear an item of religious apparel while wearing the uniform of the member's armed force.

"(b) EXCEPTIONS.—The Secretary concerned may prohibit the wearing of an item of religious apparel—

"(1) in circumstances with respect to which the Secretary determines that the wearing of the item would interfere with the performance of the member's military duties; or

"(2) if the Secretary determines, under regulations under subsection (c), that the item of apparel is not neat and conservative.

"(c) REGULATIONS.—The Secretary concerned shall prescribe regulations concerning the wearing of religious apparel by members of the armed forces under the Secretary's jurisdiction while the members are wearing the uniform. Such regulations shall be consistent with subsections (a) and (b).

"(d) RELIGIOUS APPAREL DEFINED.—In this section, the term 'religious apparel' means apparel the wearing of which is part of the observance of the religious faith practiced by the member.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by striking out the item relating to section 774 and inserting in lieu thereof the following:

"774. Religious apparel: wearing while in uniform.

"775. Applicability of chapter.".

(c) REGULATIONS.—The Secretary concerned shall prescribe the regulations required by section 774(c) of title 10, United States Code, as added by subsection (a), not later than the end of the 120-day period beginning on the date of the enactment of this Act.

SEC. 503. SERVICE OF MEMBERS ON STATE AND LOCAL JURIES.

(a) IN GENERAL.—Chapter 49 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 982. Members: service on State and local juries

"(a) A member of the armed forces on active duty may not be required to serve on a State or local jury if the Secretary concerned determines that such service—

"(1) would unreasonably interfere with the performance of the member's military duties; or

"(2) would adversely affect the readiness of the unit, command, or activity to which the member is assigned.

"(b) A determination by the Secretary concerned under this section is conclusive.

"(c) The Secretary concerned shall prescribe regulations for the administration of this section.

"(d) In this section, the term 'State' includes the District of Columbia, the Commonwealth of Puerto Rico, and each territory of the United States.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"982. Members: service on State and local juries.".

SEC. 504. EXTENSION OF EXPIRING AUTHORITY FOR SPOT PROMOTIONS OF NAVY LIEUTENANTS.

Section 5721(f) of title 10, United States Code, is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1987".

SEC. 505. REPEAL OF REQUIREMENT REGARDING ENLISTMENT OF WOMEN IN THE AIR FORCE DURING FISCAL YEAR 1987.

Section 551(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2530), is amended by striking out "the period beginning on October 1, 1986" and all that follows through the end of the subsection and inserting in lieu thereof "fiscal year 1988, not less than 22 percent shall be women.".

SEC. 506. AUTHORITY TO EXEMPT PHYSICIANS AT UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES FROM REDUCTIONS IN RETIRED PAY.

Section 2113(f) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(f)"; and

(2) by adding at the end the following:

"(2) The Board may exempt, at any time, a physician who is a member of the faculty from the restrictions in subsections (a), (b), and (c) of section 5532 of title 5, if the Board determines that such exemption is necessary to recruit or retain well-qualified physicians for the faculty of the University. An exemption granted under this paragraph shall terminate upon any break in employment with the University by a physician of three days or more. An exemption granted under this paragraph to a person shall apply to the retired pay of such person beginning with the first month after the month in which the exemption is granted.".

### PART B—RESERVE FORCES

SEC. 511. AUTHORITY FOR PRESIDENT TO CALL SELECTED RESERVE MEMBERS TO ACTIVE DUTY.

Section 673b(c) of title 10, United States Code, is amended by striking out "100,000" and inserting in lieu thereof "200,000".

SEC. 512. PAY, ALLOWANCES, AND BENEFITS FOR MEMBERS OF THE RESERVE COMPONENTS.

(a) MEDICAL AND DENTAL CARE.—(1) Section 1074a of title 10, United States Code, is amended to read as follows:

"§ 1074a. Medical and dental care: members on duty other than active duty for a period of more than 30 days

"(a) Under joint regulations prescribed by the administering Secretaries, the following persons are entitled to the benefits described in subsection (b):

"(1) Each member of a uniformed service who incurs or aggravates an injury, illness, or disease in the line of duty while performing—

"(A) active duty for a period of 30 days or less; or

"(B) inactive-duty training.

"(2) Each member of a uniformed service who incurs or aggravates an injury, illness, or disease while traveling directly to or from the place at which that member is to perform or has performed—

"(A) active duty for a period of 30 days or less; or

"(B) inactive-duty training.

"(b) A person described in subsection (a) is entitled to—

"(1) the medical and dental care appropriate for the treatment of the injury, illness, or disease of that person until the resulting disability cannot be materially improved by further hospitalization or treatment; and

"(2) subsistence during hospitalization.

"(c) A member is not entitled to benefits under this section if the injury, illness, or disease, or aggravation of an injury, illness, or disease described in subsection (a)(2), is the result of the gross negligence or misconduct of the member.".

(2) The item relating to section 1074a in the table of sections at the beginning of chapter 55 of such title is amended to read as follows:

"1074a. Medical and dental care: members on duty other than active duty for a period of more than 30 days.".

(b) PAY AND ALLOWANCES FOR DISABLED MEMBERS.—Section 204 of title 37, United States Code, is amended as follows:

(1) Subsections (g) and (h) are amended to read as follows:

"(g) A member of a reserve component of a uniformed service is entitled to the pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service whenever such member—

"(1) is called or ordered to active duty for a period of more than 30 days; and

"(2) is physically disabled in line of duty from injury, illness, or disease.

"(h)(1) A member of a reserve component of a uniformed service is entitled, upon request, to a portion of the monthly pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for each month for which the member demonstrates a loss of income from non-military compensation as a result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty for a period of 30 days or less;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from that duty or training.

"(2)(A) Subject to subparagraphs (B) and (C), pay and allowances paid under paragraph (1) shall be in an amount which offsets the loss of income from non-military compensation.

"(B) Pay and allowances may not be paid under paragraph (1) to a member who is enrolled in any other income protection insurance plan to the extent that such payment would result in total benefits to the member of more than the demonstrated loss of income from non-military compensation.

"(C) The total amount of pay and allowances paid under paragraph (1) and compensation paid under section 206(a) of this title for any period may not exceed the amount of pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for that period.

"(3) Pay and allowances may be paid under paragraph (1)—

"(A) for a period of not more than six months; or

"(B) for a longer period, if the Secretary concerned determines that it is in the interests of fairness and equity to do so.

"(4) A member is not entitled to benefits under this subsection if the injury, illness, disease, or aggravation of an injury, illness, or disease described in paragraph (1)(B) is the result of the gross misconduct of the member.

"(5) Regulations with respect to procedures for paying pay and allowances under paragraph (1) shall be prescribed—

"(A) by the Secretary of Defense for the armed forces under the jurisdiction of the Secretary; and

"(B) by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(2) Subsection (i) is repealed.

(3) Subsection (j) is redesignated as subsection (i).

(c) INACTIVE-DUTY TRAINING PAY FOR DISABLED MEMBERS.—Section 206(a) of title 37, United States Code, is amended by striking out "entitled to basic pay" the second place it appears and all that follows and inserting in lieu thereof the following: "entitled to basic pay—

"(1) for each regular period of instruction, or period of appropriate duty, at which the member is engaged for at least two hours, including that performed on a Sunday or holiday;

"(2) for the performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary may prescribe; or

"(3) for a regular period of instruction that the member is scheduled to perform but is unable to perform because of physical disability resulting from an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing—

"(i) active duty for a period of 30 days or less; or

"(ii) inactive-duty training; or

"(B) while traveling directly to or from that duty or training (unless such injury, illness, disease, or aggravation of an injury, illness, or disease is the result of the gross negligence or misconduct of the member).".

(d) RETIREMENT FOR DISABILITY.—(1) Sections 1204 and 1206 of title 10, United States Code, are amended by striking out "resulting from an injury".

(2)(A) The heading of section 1204 of such title is amended to read as follows:

"§ 1204. Members on active duty for 30 days or less: retirement".

(2) The heading of section 1205 of such title is amended to read as follows:

"§ 1205. Members on active duty for 30 days or less: temporary disability retired list".

(3) The heading of section 1206 of such title is amended to read as follows:

"§ 1206. Members on active duty for 30 days or less: separation".

(4) The items relating to sections 1204, 1205, and 1206 in the table of sections at the beginning of chapter 61 of such title are amended to read as follows:

"1204. Members on active duty for 30 days or less: retirement.

"1205. Members on active duty for 30 days or less: temporary disability retired list.

"1206. Members on active duty for 30 days or less: separation.".

(e) DEATH BENEFITS.—(1) Section 1475(a) of title 10, United States Code, is amended by striking out "from an injury incurred by him after December 31, 1956," in paragraph (3).

(2) Section 1476 of such title is amended—

(A) by striking out subsection (a) and inserting in lieu thereof the following:

"(a)(1) Except as provided in section 1480 of this title, the Secretary concerned shall pay a death gratuity to or for the survivors prescribed in section 1477 of this title of each person who dies within 120 days after discharge or release from—

"(A) active duty; or

"(B) inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance, in an inactive status, at an educational institution under the sponsorship of an armed force or the Public Health Service).

"(2) A death gratuity may be paid under paragraph (1) only if the Administrator of Veterans' Affairs determines that the death resulted from an injury or disease incurred or aggravated during—

"(A) the active duty or inactive-duty training described in paragraph (1); or

"(B) travel directly to or from such duty.";

(B) by striking out subsection (b); and

(C) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively.

(3) Section 1481(a) of such title is amended—

(A) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) a member of a reserve component of an armed force who dies while—

"(A) on active duty;

"(B) performing inactive-duty training;

"(C) performing authorized travel directly to or from active duty or inactive-duty training; or

"(D) hospitalized or undergoing treatment for an injury, illness, or disease incurred or aggravated while on active duty or performing inactive-duty training;"; and

(B) by striking out paragraph (3).

(f) TECHNICAL AND CONFORMING AMENDMENTS.—(1) Title 10, United States Code, is amended as follows:

(A) Sections 3687, 3721, 3722, 6148, 8687, 8721, and 8722 are repealed.

(B)(i) The table of sections at the beginning of chapter 353 is amended by striking out the item relating to section 3687.

(ii) The table of sections at the beginning of chapter 355 is amended by striking out the items relating to sections 3721 and 3722.

(iii) The table of sections at the beginning of chapter 561 is amended by striking out the item relating to section 6148.

(iv) The table of sections at the beginning of chapter 853 is amended by striking out the item relating to section 8687.

(v) The table of sections at the beginning of chapter 855 is amended by striking out the items relating to sections 8721 and 8722.

(C) Sections 1076(a)(2)(B) and 1086(c)(2)(B) are amended by striking out "injury or illness" and inserting in lieu thereof "injury, illness, or disease".

(D) Sections 3723 and 8723 are amended by striking out "was injured, or contracted a disease," and inserting in lieu thereof "incurred an injury, illness, or disease,".

(2)(A) Sections 318, 319, 320, and 321 of title 32, United States Code, are repealed.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the items relating to sections 318, 319, 320, and 321.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to persons who, after the date of enactment of this Act—

(1) incur or aggravate an injury, illness, or disease; or

(2) die.

## TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

### PART A—PAY AND ALLOWANCES

SEC. 601. ENHANCEMENT OF AVIATION OFFICER CONTINUATION PAY.

(a) ELIMINATION OF OFFSET FOR RECEIPT OF HAZARDOUS DUTY INCENTIVE PAY.—Section 301b(e) of title 37, United States Code, is amended by striking out paragraph (4).

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to payments made for periods beginning after September 30, 1986, under agreements entered into under section 301b of title 37, United States Code.

SEC. 602. AUTHORITY TO PAY ROTC MEMBERS IN ADVANCE FOR FIELD TRAINING.

(a) IN GENERAL.—Section 1006 of title 37, United States Code, is amended by adding at the end the following new subsection:

"(j) Under regulations prescribed by the Secretary concerned, not more than one month's pay may be paid in advance to a member of the Senior Reserve Officers' Training Corps who is ordered to field training or a practice required under section 2109 of title 10.".

(b) EFFECTIVE DATE.—Subsection (j) of title 37, United States Code, as added by subsection (a), shall apply with respect to pay payable for months beginning after the later of September 30, 1986, and the date of the enactment of this Act.

### PART B—TRAVEL AND TRANSPORTATION

SEC. 611. TRANSPORTATION OF MOTOR VEHICLES FOR MEMBERS MAKING PERMANENT CHANGES OF STATION.

Section 2634 of title 10, United States Code, is amended—

(1) by striking out "in the case of" and all that follows through "debarkation" in subsection (a)(4) and inserting in lieu thereof "by other surface transportation"; and

(2) by striking out ", or his designee," in the second sentence of subsection (a);

(3) by striking out the first and second sentences of subsection (b) and inserting in lieu thereof the following: "In this section, the term 'change of permanent station' means the transfer or assignment of a member of the armed forces from a permanent station inside the continental United States to a permanent station outside the continental United States or from a permanent station outside the continental United States to another permanent station.".

SEC. 612. REIMBURSEMENT FOR ACTUAL LODGING EXPENSES PLUS PER DIEM FOR MEMBERS ENTITLED TO TRAVEL ALLOWANCES.

(a) IN GENERAL.—Section 404(d) of title 37, United States Code, is amended—

(1) by striking out "per diem in place of subsistence in an amount not more than $50 determined by the Secretaries concerned to be sufficient" in paragraph (1)(B) and inserting in lieu thereof "payment in lieu of subsistence as provided in paragraph (2) of this subsection in an amount sufficient";

(2) by striking out "to be" in paragraph (1)(B) after "travel is"; and

(3) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) Under regulations prescribed by the Secretaries concerned, a member of a uniformed service entitled to travel and transportation allowances under subsection (a) of this section is entitled to any of the following:

"(A) A per diem allowance at a rate not to exceed that established by the Secretaries concerned.

"(B) Reimbursement for the actual and necessary expenses of official travel not to exceed an amount established by the Secretaries concerned.

"(C) A combination of payments described in subparagraphs (A) and (B) of this paragraph.

"(3) A per diem allowance or maximum amount of reimbursement established for purposes of paragraph (2) of this subsection shall be established, to the extent feasible, by locality.

"(4) For travel consuming less than a full day, the payment prescribed by regulation under paragraph (2) of this subsection shall be allocated in such manner as the Secretaries concerned prescribe.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to travel performed after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 613. PER DIEM FOR DEPENDENTS RECEIVING TRANSPORTATION ALLOWANCE.

(a) IN GENERAL.—Section 406 of title 37, United States Code, is amended as follows:

(1) The first sentence of subsection (e) is amended by striking out ", as the case may be," and inserting in lieu thereof the following: "(as the case may be), plus a per diem,".

(2) Subsection (f) is amended by inserting after "member" the following: ", plus a per diem for the member's dependents,".

(3) Subsection (g)(1) is amended by inserting after "404(c) of this title" the following: ", and to a per diem for his dependents".

(4) Subsection (h)(1) is amended by striking out ", as the case may be," and inserting in lieu thereof the following: "(as the case may be), plus a per diem,".

(5) Subsection (j) is amended by inserting after "household effects," the following: "plus a per diem for the member's dependents,".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to travel performed after the later of September 30, 1986, and the date of the enactment of this Act.

SEC. 614. MODIFICATION OF FAMILY SEPARATION ALLOWANCE.

(a) DENIAL OF ALLOWANCE TO CERTAIN MEMBERS.—(1) Section 427(b) of title 37, United States Code, is amended—

(1) by inserting "(1)" after "(b)";

(2) by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively;

(3) by designating the second sentence as paragraph (2) and striking out "clause (2) or (3)" in that sentence and inserting in lieu thereof "subparagraph (B) or (C) of paragraph (1)"; and

(4) by adding at the end the following:

"(3) A member who elects to serve a tour of duty unaccompanied by his dependents at a permanent station to which the movement of his dependents is authorized at the expense of the United States under section 406 of this title is not entitled to an allowance under this subsection. The Secretary concerned may waive the preceding sentence in situations in which it would be inequitable to deny the allowance to the member because of unusual family or operational circumstances.".

(b) SAVINGS PROVISION.—Notwithstanding the amendments made by subsection (a), a member who on September 30, 1986, was assigned to a permanent station to which the movement of his dependents was authorized at the expense of the United States under section 406 of title 37, United States Code, and who elected to serve a tour of duty at that station unaccompanied by his dependents, shall, until he departs that station as a result of a change of permanent station, be entitled to receive the allowance authorized by section 427(b) of such title without regard to paragraph (3) of such section, as added by subsection (a).

(c) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986.

SEC. 615. TRANSPORTATION AND TRAVEL ALLOWANCES FOR ESCORTS FOR CERTAIN DEPENDENTS.

(a) IN GENERAL.—(1) Chapter 7 of title 37, United States Code, is amended by adding at the end the following new section:

"§ 431. Travel and transportation: members escorting certain dependents

"(a) Under regulations prescribed by the Secretary concerned, a member of a uniformed service may be provided round trip transportation and travel allowances for travel performed or to be performed under competent orders as an escort for the member's dependent when travel by the dependent is authorized by competent authority and the dependent is incapable of traveling alone because of age, mental or physical incapacity, or other extraordinary circumstances.

"(b) Whenever possible, the Military Airlift Command or Military Sealift Command shall be used, on a space-required basis, for the travel authorized by this section.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"431. Travel and transportation: members escorting certain dependents.".

(b) EFFECTIVE DATE.—Section 431 of title 37, United States Code, as added by subsection (a), shall apply with respect to travel performed after September 30, 1986.

### PART C—BENEFITS FOR SURVIVORS AND FORMER SPOUSES

SEC. 631. COURT-ORDERED SURVIVOR ANNUITIES FOR FORMER SPOUSES.

(a) GENERAL RULE.—Paragraph (4) of section 1450(f) of title 10, United States Code, is amended to read as follows:

"(4) A court order may require a person to elect (or to enter into an agreement to elect) under section 1448(b) of this title to provide an annuity to a former spouse (or to both a former spouse and child).".

(b) CONFORMING AMENDMENTS.—

(1) Section 1448(b)(5) of such title is amended by inserting "(A) whether the election is being made pursuant to the requirements of a court order, or (B)" after "setting forth".

(2) Paragraph (2) of section 1450(f) of such title is amended—

(A) by striking out "enters into" and all that follows through "pursuant to such agreement" and inserting in lieu thereof "is required by a court order to elect under section 1448(b) of this title to provide an annuity to a former spouse (or to both a former spouse and child), or who enters into a writ-

ten agreement (whether voluntary or required by a court order) to make such an election, and who makes an election pursuant to such order or agreement,";

(B) by striking out "in a case in which such agreement" at the beginning of subparagraph (A) and inserting in lieu thereof "in a case in which the election is required by a court order, or in which an agreement to make the election";

(C) by striking out "relating to the agreement to make such election" and inserting in lieu thereof "relating to such election, or the agreement to make such election,"; and

(D) by striking out "in which such agreement" at the beginning of subparagraph (B) and inserting in lieu thereof "of a written agreement that".

(3) Paragraph (3)(A) of such section is amended—

(A) by striking out "voluntary" both places it appears;

(B) by inserting "or if such person is required by a court order to make such an election," after "applicable State law" the first place it appears; and

(C) by inserting "requires such election or" after "on its face, which".

(c) EFFECTIVE DATE.—The amendments made by this section apply to court orders issued on or after the date of the enactment of this Act.

SEC. 632. MISCELLANEOUS SURVIVOR BENEFIT AND FORMER SPOUSE AMENDMENTS.

(a) ANNUITY FOR A DEPENDENT CHILD.—

(1) REPEAL OF COMMON-ACCIDENT LIMITATION.—(A) Subsection (d)(2) of section 1448 of title 10, United States Code, is amended by striking out "if the member and the member's spouse die as a result of a common accident" and inserting in lieu thereof "if there is no surviving spouse or if the member's surviving spouse subsequently dies".

(B) Subsection (f)(2) of such section is amended by striking out "if the person and the person's spouse die as a result of a common accident" and inserting in lieu thereof "if there is no surviving spouse or if the person's surviving spouse subsequently dies".

(2) AMOUNT OF ANNUITY FOR DISABLED CHILD OVER AGE 62.—(A) Subsection (a) of section 1451 of such title is amended—

(i) by inserting "or is a dependent child" in paragraphs (1)(A) and (2)(A) after "under 62 years of age"; and

(ii) by inserting "(other than a dependent child)" in paragraphs (1)(B) and (2)(B) after "beneficiary".

(B) Subsection (c)(1) of such section is amended—

(i) by inserting "or is a dependent child" in subparagraph (A) after "under 62 years of age"; and

(ii) by inserting "(other than a dependent child)" in subparagraph (B) after "receiving the annuity".

(3) EFFECTIVE DATES.—The amendment made by paragraph (1) shall apply only to claims arising on or after the date of the enactment of this Act. The amendments made by paragraph (2) shall apply to payments for periods after the later of September 30, 1986, and the date of the enactment of this Act.

(b) AGE AT WHICH REMARRIAGE TERMINATES SPOUSE SURVIVOR BENEFIT.—

(1) REDUCTION FROM AGE 60 TO AGE 55.—Section 1450(b) of such title is amended by striking out "age 60" both places it appears and inserting in lieu thereof "age 55".

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall apply with respect to remarriages that occur on or after the date of the enactment of this Act, but only with respect to payments for periods after the later of September 30, 1986, and the date of the enactment of this Act.

(c) REVISION OF DEFINITION OF DISPOSABLE RETIRED PAY FOR PURPOSES OF COURT ORDERS.—(1) Section 1408(a)(4) of such title is amended—

(A) by striking out "(other than" and all that follows through "title)" in the matter preceding subparagraph (A); and

(B) by striking out subparagraph (E) and inserting in lieu thereof the following:

"(E) in the case of a member entitled to retired pay under chapter 61 of this title, are equal to the amount of retired pay of the member under that chapter computed using the percentage of the member's disability on the date when the member was retired (or the date on which the member's name was placed on the temporary disability retired list); or".

(2) The amendments made by paragraph (1) shall apply with respect to court orders issued after the date of the enactment of this Act.

SEC. 633. REVISION OF OPEN PERIOD TO ELECT FORMER SPOUSE AND CHILD COVERAGE.

Section 716(b) of the Survivor Benefit Plan Amendments of 1985 (title VII of Public Law 99-145; 99 Stat. 674) is amended—

(1) by striking out "the date of the enactment of this Act" and inserting in lieu thereof "March 1, 1986,";

(2) by striking out ", within the one-year period beginning on that date of enactment,"; and

(3) by adding at the end the following new sentence: "Such an election must be made—

"(1) not later than March 1, 1987, in the case of a person who made the election to provide an annuity for a former spouse before November 8, 1985; and

"(2) not later than the end of the one-year period beginning on the date of the enactment of the Department of Defense Authorization Act, 1987, in the case of a person who made the election to provide an annuity for a former spouse during the period beginning on November 8, 1985, and ending on February 28, 1986.".

SEC. 634. EXTENSION OF MEDICAL BENEFITS FOR CERTAIN FORMER SPOUSES.

Section 645(c) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2549), is amended by striking out "during the two-year period" and inserting in lieu thereof "until the later of (1) April 1, 1988, and (2) the last day of the two-year period".

PART D—EDUCATIONAL ASSISTANCE PROGRAM

SEC. . TUITION ASSISTANCE FOR ARMY RESERVE COMPONENT OFFICERS.

(a) IN GENERAL.—Section 2007 of title 10, United States Code, is amended—

(1) by inserting "on active duty" in subsection (a)(3) after "a commissioned officer"; and

(2) by adding at the end of the following new subsection:

"(c)(1) Subject to paragraph (2) and (3), the Secretary of the Army may pay not more than 75 percent of the charges of an educational institution for the tuition or expenses of an officer in the Selected Reserve of the Army National Guard or the Army Reserve for education or training of such officer in a program leading to a baccalaureate degree.

"(2) The Secretary may not pay charges under paragraph (1) for tuition or expenses of an officer unless the officer agrees to remain a member of the Selected Reserve for at least four years after completion of the education or training for which the charges are paid.

"(3) The Secretary may not pay charges under paragraph (1)—

"(A) for a warrant officer; or

"(B) for an officer on active duty or full-time National Guard duty.".

(b) LIMITATION ON AMOUNT FOR FISCAL YEAR 1987.—The total amount obligated by the Secretary of the Army under subsection (c) of section 2007 of title 10, United States Code, as added by subsection (a), during fiscal year 1987 may not exceed $4,200,000.

(c) EFFECTIVE DATE.—Subsection (c) of section 2007 of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1986.

PART E—COST REDUCTIONS

SEC. 651. COST REDUCTIONS FOR FISCAL YEAR 1987.

(a) PCS MOVES.—The total amount expended by the Department of Defense during fiscal year 1987 for permanent change of station moves may not exceed $2,209,060,000.

(b) SELECTIVE REENLISTMENT BONUS.—(1) During fiscal year 1987, the Secretary concerned may not pay more than 50 percent of an amount paid to any person under section 308 of title 37, United States Code, in a lump sum.

(2) During fiscal year 1987, the total amount obligated for payments under such section with respect to reenlistments and extensions of enlistments after September 30, 1986, may not exceed $291,600,000.

(c) ENLISTMENT BONUSES.—An enlistment bonus under section 308a of title 37, United States Code, may not be paid by the Secretary of the Navy or the Secretary of the Air Force with respect to an enlistment after September 30, 1986.

(d) ENLISTED TO OFFICER RATIO.—The Secretary of Defense shall require that officer personnel strengths be managed so as to attain a ratio within the armed forces (other than the Coast Guard) of enlisted members to officers of not less than 6.12 to 1 by September 30, 1987, with a goal of achieving a ratio of 6.5 to 1 by September 30, 1990.

(e) RESERVE UNIT AND INDIVIDUAL TRAINING.—During fiscal year 1987, the amount spent for reserve unit and individual training may not exceed $5,084,500,000.

## TITLE VII—UNIFORM CODE OF MILITARY JUSTICE

SEC. 701. SHORT TITLE; REFERENCES TO UNIFORM CODE OF MILITARY JUSTICE.

(a) SHORT TITLE.—This title may be cited as the "Military Justice Amendments of 1986".

(b) REFERENCES TO UCMJ.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice).

SEC. 702. ESTABLISHMENT OF DEFENSE OF LACK OF MENTAL RESPONSIBILITY.

(a) IN GENERAL.—(1) Subchapter VII is amended by inserting after section 850 (article 50) the following new section (article):

"§ 850a. Art. 50a. Defense of lack of mental responsibility

"(a) It is an affirmative defense in a trial by court-martial that, at the time of the commission of the acts constituting the offense, the accused, as a result of a severe mental disease or defect, was unable to appreciate the nature and quality or the

wrongfulness of the acts. Mental disease or defect does not otherwise constitute a defense.

"(b) The accused has the burden of proving the defense of lack of mental responsibility by clear and convincing evidence.

"(c) Notwithstanding the provisions of section 852 of this title (article 52), the accused may be found not guilty under this section only if—

"(1) a majority of the members of the court-martial present at the time the vote is taken determines that the defense of lack of mental responsibility has been established; or

"(2) in the case of a court-martial composed of a military judge only, the military judge determines that the defense of lack of mental responsibility has been established.".

(2) The table of sections at the beginning of such subchapter is amended by inserting after the item relating to section 850 (article 50) the following new item:

"850a. 50a. Defense of lack of mental responsibility.".

(b) EFFECTIVE DATE.—Section 850a of title 10, United States Code, as added by subsection (a)(1), shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 703. APPLICATION FOR ENLISTED MEMBERS TO SERVE ON COURT-MARTIAL.

(a) IN GENERAL.—Section 825(c)(1) (article 25(c)(1)) is amended by striking out "has requested in writing" and inserting in lieu thereof "has requested orally on the record or in writing".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only to a case in which arraignment is completed on or after the effective date of this part.

SEC. 704. COURT-MARTIAL JURISDICTION OVER RESERVE MEMBERS.

(a) JURISDICTION OVER RESERVE MEMBERS UNDER CERTAIN CIRCUMSTANCES.—(1) Paragraph (3) of section 802(a) (article 2(a)) is amended to read as follows:

"(3) Members of a reserve component while—

"(A) on active duty; or

"(B) on inactive-duty training, but in the case of members of the Army National Guard of the United States or the Air National Guard of the United States only when in Federal service.".

(2) Section 802 (article 2) is further amended by adding at the end the following new subsection:

"(d)(1) A member of a reserve component who is charged with having committed an offense against this chapter may be called or ordered to active duty involuntarily for the purpose of—

"(A) investigation under section 832 of this title (article 32);

"(B) trial by court-martial; or

"(C) nonjudicial punishment under section 815 of this title (article 15).

"(2) A member of a reserve component may not be called or ordered to active duty under paragraph (1) except with respect to an offense committed while the member was—

"(A) on active duty; or

"(B) on inactive-duty training, but in the case of members of the Army National Guard of the United States or the Air National Guard of the United States only when in Federal service.

"(3) Authority to call or order a member to active duty under paragraph (1) shall be exercised under regulations prescribed by the Secretary concerned.".

(b) CONTINUED AMENABILITY TO JURISDICTION.—Section 803 (article 3) is amended by adding at the end the following new subsection:

"(d) A member of a reserve component who is subject to this chapter is not, by virtue of the termination of a period of active duty or inactive-duty training, relieved from amenability to the jurisdiction of this chapter for an offense against this chapter committed during such period of active duty or inactive-duty training.".

(c) AUTHORITY TO ADMINISTER OATHS.—Section 936 (article 136) is amended by inserting "or performing inactive-duty training" in subsections (a) and (b) after "active duty".

(d) ARTICLES TO BE EXPLAINED.—The text of section 937 (article 137) is amended to read as follows:

"(a)(1) The sections of this title (articles of the Uniform Code of Military Justice) specified in paragraph (3) shall be carefully explained to each enlisted member at the time of (or within six days after)—

"(A) the member's initial entrance on active duty; or

"(B) the member's initial entrance into a duty status with a reserve component.

"(2) Such sections (articles) shall be explained again—

"(A) after the member has completed six months of active duty or, in the case of a member of a reserve component, after the member has completed basic or recruit training; and

"(B) at the time when the member reenlists.

"(3) This subsection applies with respect to sections 802, 803, 807–815, 825, 827, 831, 837, 838, 855, 877–934, and 937–939 of this title (articles 2, 3, 7–15, 25, 27, 31, 37, 38, 55, 77–134, and 137–139).

"(b) The text of the Uniform Code of Military Justice and of the regulations prescribed by the President under such Code shall be made available to a member on active duty or to a member of a reserve component, upon request by the member, for the member's personal examination.".

(e) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply only to an offense committed on or after the effective date of this part.

SEC. 705. STATUTE OF LIMITATIONS.

(a) REVISION OF STATUTES OF LIMITATION.—Subsections (a), (b), and (c) of section 843 (article 43) are amended to read as follows:

"(a) A person charged with absence without leave or missing movement in time of war, or with any offense punishable by death, may be tried and punished at any time without limitation.

"(b)(1) Except as otherwise provided in this section (article), a person charged with an offense is not liable to be tried by court-martial if the offense was committed more than five years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command.

"(2) A person charged with an offense is not liable to be punished under section 815 of this title (article 15) if the offense was committed more than two years before the imposition of punishment.

"(c) Periods in which the accused is absent without authority or fleeing from justice shall be excluded in computing the period of limitation prescribed in this section (article).".

(b) TIME FOR REINSTATEMENT OF CHARGES.—Such section is further amended by adding at the end the following new subsection:

"(g) If charges or specifications are dismissed as defective or insufficient for any cause and the period prescribed by the applicable statute of limitations—

"(1) has expired; or

"(2) will expire within six calendar months of the date of dismissal of the charges and specifications,

trial and punishment under new charges and specifications are not barred by a statute of limitations if the new charges and specifications are received by an officer exercising summary court-martial jurisdiction over the command within six calendar months of the dismissal of the charges or specifications.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to an offense committed on or after the date of the enactment of this Act.

SEC. 706. TIME FOR DEFENSE POST-TRIAL SUBMISSIONS.

(a) SIMPLIFICATION OF TIME FOR SUBMISSION.—Subsection (b) of section 860 (article 60) is amended—

(1) by striking out paragraph (3);

(2) by redesignating paragraph (2) as paragraph (3) and inserting a comma in that paragraph after "case"; and

(3) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) The accused may submit to the convening authority matters for consideration by the convening authority with respect to the findings and the sentence. Except in a summary court-martial case, such a submission shall be made within 10 days after the accused has been given an authenticated record of trial and, if applicable, the recommendation of the staff judge advocate or legal officer under subsection (d). In a summary court-martial case, such a submission shall be made within seven days after the sentence is announced.

"(2) If the accused shows that additional time is required for the accused to submit such matters, the convening authority or other person taking action under this section, for good cause, may extend the applicable period under paragraph (1) for not more than an additional 20 days.".

(b) RECOMMENDATIONS OF STAFF JUDGE ADVOCATE.—Subsection (c)(2) of such section is amended by striking out "and, if applicable, under subsection (d),".

(c) CONFORMING AMENDMENTS.—Subsection (d) of such section is amended—

(1) in the third sentence, by striking out "who shall have five days from the date of receipt in which to submit any matter in response" and inserting in lieu thereof "who may submit any matter in response under subsection (b)"; and

(2) by striking out the fourth sentence.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply in cases in which the sentence is adjudged on or after the effective date of this part.

SEC. 707. DETAIL OF JUDGE ADVOCATES.

(a) REPRESENTATION OF UNITED STATES INTERESTS.—Section 806(a) (article 6(a)) is amended by inserting after the second sentence the following: "A judge advocate who is assigned or detailed to perform the functions of a civil office in the Government of the United States under section 973(b)(2)(B) of this title may perform such duties as may be requested by the agency concerned, including representation of the United States in civil and criminal cases.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)—

(1) shall take effect on the date of the enactment of this Act; and

(2) may not be construed to invalidate an action taken by a judge advocate, pursuant to an assignment or detail under section 973(b)(2)(B) of title 10, United States Code, before the date of the enactment of this Act.

SEC. 708. EFFECTIVE DATE.

Except as provided in sections 702(b), 705(c), and 707(b), the amendments made by this title shall take effect on the earlier of—

(1) the last day of the 120-day period beginning on the date of the enactment of this Act; or

(2) the date specified in an Executive order for such amendments to take effect.

## TITLE VIII—DEPARTMENT OF DEFENSE MANAGEMENT

### PART A—MANAGEMENT OF CERTAIN PROCUREMENT MATTERS

SEC. 801. CONTRACTS FOR OVERHAUL, REPAIR, AND MAINTENANCE OF NAVAL VESSELS.

(a) IN GENERAL.—Section 7299a of title 10, United States Code (relating to construction of combatant and escort vessels and assignment of naval vessel projects), is amended by adding at the end the following new subsections:

"(c) In evaluating bids or proposals for a contract for the overhaul, repair, or maintenance of a naval vessel, the Secretary of the Navy shall, in determining the price of work to be performed in an area outside the area of the homeport of the vessel, consider all costs of performing the work in that area (including costs to the Navy of performing the work in that area that are subject to estimation before contract award).

"(d)(1) Notwithstanding subsections (b) and (c), the Secretary may award a contract for short-term work for the overhaul, repair, or maintenance of a naval vessel only to a contractor that is able to perform the work at the homeport of the vessel, if the Secretary determines that adequate competition is available among firms able to perform the work at the homeport of the vessel.

"(2) In this subsection, the term 'short-term work' means work that will be for a period of six months or less.".

(b) REPEAL OF LIMITATION ON FY86 FUNDS.—Section 8104 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1221)), is repealed.

SEC. 802. HANDLING OF HAZARDOUS WASTE GENERATED DURING REPAIR OR MAINTENANCE OF NAVAL VESSELS.

(a) REQUIRED CONTRACT PROVISIONS.—Chapter 633 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 7311. Repair or maintenance of naval vessels: handling of hazardous waste

"(a) CONTRACTUAL PROVISIONS.—The Secretary of the Navy shall ensure that a contract entered into for repair or maintenance of a naval vessel includes the following provisions:

"(1) IDENTIFICATION OF HAZARDOUS WASTES.—Provisions identifying the type and amounts of hazardous wastes that are expected to be generated during the performance of the repair or maintenance.

"(2) COMPENSATION.—Provisions specifying that the contractor shall be compensated under the contract for work performed by the contractor for duties of the contractor specified under paragraph (3).

"(3) STATEMENT OF WORK.—Provisions specifying the responsibilities of the Navy and of the contractor, respectively, for the removal, handling, storage, transportation, and disposal of hazardous wastes generated during the performance of the repair or maintenance.

"(b) RENEGOTIATION OF CONTRACT.—The Secretary of the Navy shall renegotiate a contract described in subsection (a) if—

"(1) the contractor, during the performance of repair or maintenance under the contract, discovers hazardous wastes different in type or amount from those identified in the contract; and

"(2) such hazardous wastes originated on the naval vessel on which the repair or maintenance is being performed.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"7311. Repair or maintenance of naval vessels: handling of hazardous waste.".

SEC. 803. LIMITATION ON TRANSFER OF CERTAIN TECHNICAL DATA PACKAGES.

(a) TECHNICAL DATA PACKAGES FOR PRODUCTION OF LARGE-CALIBER CANNON.—(1) Chapter 433 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 4542. Technical data packages for large-caliber cannon: prohibition on transfers to foreign countries; exception

"(a) GENERAL RULE.—Funds appropriated to the Department of Defense may not be used—

"(1) to transfer to a foreign country a technical data package for a defense item being manufactured or developed in an arsenal; or

"(2) to assist a foreign country in producing such a defense item.

"(b) EXCEPTION.—The Secretary of the Army may use funds appropriated to the Department of Defense to transfer a technical data package, or to provide assistance, described in subsection (a) if—

"(1) the transfer or provision of assistance is to a friendly foreign country (as determined by the Secretary of Defense in consultation with the Secretary of State);

"(2) the Secretary of the Army determines that such action—

"(A) would have a clear benefit to the preservation of the production base for the production of cannon at the arsenal concerned; and

"(B) would not transfer technology (including production techniques) considered unique to the arsenal concerned; and

"(3) the Secretary of Defense enters into an agreement with the country concerned described in subsection (c).

"(c) COPRODUCTION AGREEMENTS.—An agreement under this subsection shall be in the form of a Government-to-Government Memorandum of Understanding and shall include provisions that—

"(1) prescribe the content of the technical data package or assistance to be transferred to the foreign country participating in the agreement;

"(2) require that production by the participating foreign country of the defense item to which the technical data package or assistance relates be shared with the arsenal concerned;

"(3) subject to such exceptions as may be approved under subsection (d), prohibit transfer by the participating foreign country to a third party or country of—

"(A) any defense article, technical data package, technology, or assistance provided by the United States under the agreement; and

"(B) any defense article produced by the participating foreign country under the agreement; and

"(4) require the Secretary of Defense to monitor compliance with the agreement and the participating foreign country to report periodically to the Secretary of Defense concerning the agreement.

"(d) TRANSFERS TO THIRD PARTIES.—A transfer described in subsection (b)(3) may be made if—

"(1) the defense article, technical data package, or technology to be transferred is a product of a cooperative research and development program in which the United States and the participating foreign country were partners; or

"(2) the President—

"(A) complies with all requirements of section 3(d) of the Arms Export Control Act (22 U.S.C. 2753(d)) with respect to such transfer; and

"(B) certifies to Congress, before the transfer, that the transfer would provide a clear benefit to the production base of the United States for large-caliber cannon.

"(e) NOTICE AND REPORTS TO CONGRESS.—(1) The Secretary of the Army shall submit to Congress a notice of each agreement entered into under this section.

"(2) The Secretary shall submit to Congress a semi-annual report on the operation of this section and of agreements entered into under this section.

"(f) ARSENAL DEFINED.—In this section, the term 'arsenal' means a Government-owned, Government-operated defense plant that manufactures large-caliber cannon.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"4542. Technical data packages for large-caliber cannon: prohibition on transfers to foreign countries; exception.".

(b) EFFECTIVE DATE.—Section 4542 of title 10, United States Code, as added by subsection (a), shall apply with respect to funds appropriated for fiscal years after fiscal year 1986.

SEC. 804. INFORMATION CONCERNING USE IN MAJOR SYSTEMS OF COMPONENTS MANUFACTURED OUTSIDE THE UNITED STATES.

(a) INCLUSION OF INFORMATION IN COMPREHENSIVE ANNUAL SELECTED ACQUISITION REPORTS.—Section 139a(c)(3) of title 10, United States Code, is amended—

(1) by striking out "and" at the end of subparagraph (B);

(2) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new subparagraph:

"(D) for each major defense acquisition program included in the report, information detailing the use of components manufactured outside the United States, including the dollar value and country of origin of such components.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)(3) shall apply to comprehensive annual Selected Acquisition Reports submitted for fiscal years beginning after the date of the enactment of this Act.

SEC. 805. REQUIREMENTS CONCERNING TRANSPORTATION OF MEMBERS OF THE ARMED FORCES BY CHARTERED AIRCRAFT.

(a) IN GENERAL.—(1) Chapter 157 of title 10, United States Code, is amended by adding at the end the following new section:

*"§ 2640. Charter air transportation of members of the armed forces*

*(a) REQUIREMENTS.—(1) The Secretary of Defense may not enter into a contract with an air carrier for the charter air transportation of members of the armed forces unless the air carrier—*

*"(A) meets, at a minimum, the safety standards established by the Secretary of Transportation under title VI of the Federal Aviation Act of 1958 (49 U.S.C. App. 1421 et seq.);*

*"(B) has at least 12 months of experience operating services in air transportation that are substantially equivalent to the service sought by the Department of Defense; and*

*"(C) undergoes a technical safety evaluation.*

*"(2) For purposes of paragraph (1)(C), a technical safety evaluation—*

*"(A) shall include inspection of a representative number of aircraft; and*

*"(B) shall be conducted in accordance with regulations prescribed by the Secretary, after consultation with the Secretary of Transportation.*

*(b) INSPECTIONS.—The Secretary shall provide for inspections of each air carrier that contracts with the Department of Defense for the charter air transportation of members of the armed forces. The inspections shall be conducted in accordance with standards established by the Secretary, after consultation with the Secretary of Transportation, and shall include, at a minimum, the following:*

*"(1) An on-site capability survey of the air carrier conducted at least once every two years.*

*"(2) A performance evaluation of the air carrier conducted at least once every six months.*

*"(3) A preflight safety inspection of each aircraft conducted not more than 72 hours before each flight to ensure a high degree of flying safety.*

*"(4) Operational check-rides on aircraft conducted periodically.*

*(c) COMMERCIAL AIRLIFT REVIEW BOARD.—The Secretary shall establish a Commercial Airlift Review Board within the Department of Defense. The Board shall consist of personnel from the Department of Defense and other Government personnel as may be appropriate. The duties of the Board shall be—*

*"(1) to make recommendations to the Secretary on suspension and reinstatement of air carriers under subsection (d);*

*"(2) to make recommendations to the Secretary on waivers under subsection (g); and*

*"(3) to carry out such other duties and make recommendations on such other matters as the Secretary considers appropriate.*

*"(d) SUSPENSION AND REINSTATEMENT.—(1) The Secretary shall establish guidelines for the suspension of air carriers under contract with the Department of Defense for the charter air transportation of members of the armed forces and for the reinstatement of air carriers that have been so suspended. The guidelines—*

*"(A) shall require the immediate determination of whether to suspend an air carrier if an aircraft of the air carrier is involved in a fatal accident; and*

*"(B) may require the suspension of an air carrier—*

*"(i) if the carrier is in violation of any order, rule, regulation, or standard prescribed under title VI of the Federal Aviation Act of 1958 (49 U.S.C. App. 1421 et seq.); or*

*"(ii) if an aircraft of the air carrier is involved in a serious accident.*

*"(2) The Commercial Airlift Review Board shall make recommendations to the Secretary on suspension and reinstatement under this subsection.*

*"(3) The Secretary shall include in each contract subject to this section the provisions on suspension and reinstatement established under this subsection.*

*"(e) AUTHORITY TO LEAVE UNSAFE AIRCRAFT.—A representative of the Military Airlift Command, the Military Traffic Management Command, or such other agency as may be designated by the Secretary of Defense (or if there is no such representative reasonably available, the senior officer on board a chartered aircraft) may order members of the armed forces to leave a chartered aircraft if the representative (or officer) determines that a condition exists on the aircraft which may endanger the safety of the members.*

*"(f) FAA INFORMATION.—The Secretary shall request the Secretary of Transportation to provide to the Secretary a report on each inspection performed by Federal Aviation Administration personnel, and the status of corrective actions taken, on each aircraft of an air carrier under contract with the Department of Defense for the charter air transportation of members of the armed forces.*

*"(g) WAIVER.—After considering recommendations by the Commercial Airlift Review Board, the Secretary may waive any provision of this section in an emergency.*

*"(h) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section, including requirements and identification of inspecting personnel with respect to preflight safety inspections required by subsection (b)(3).*

*"(i) DEFINITIONS.—In this section:*

*"(1) The terms 'air carrier', 'aircraft', 'air transportation', and 'charter air transportation' have the meanings given such terms by sections 101(3), 101(5), 101(10), and 101(15), respectively, of the Federal Aviation Act of 1958 (49 U.S.C. App. 1301(3), 1301(5), 1301(10), and 1301(15)).*

*"(2) The term 'members of the armed forces' means members of the Army, Navy, Air Force, and Marine Corps.".*

*(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:*

*"2640. Charter air transportation of members of the armed forces.".*

*(b) DEADLINE FOR REGULATIONS.—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe the regulations required by section 2640 of title 10, United States Code, as added by subsection (a).*

*(c) EFFECTIVE DATE.—Section 2640 of title 10, United States Code, as added by subsection (a), shall apply only to contracts which are entered into on or after the date on which the regulations required by subsection (b) are prescribed.*

*SEC. 806. FUEL SOURCES FOR HEATING SYSTEMS ON MILITARY INSTALLATIONS.*

*(a) USE OF MOST COST-EFFECTIVE FUEL IN NEW HEATING SYSTEMS.—(1) Section 2690 of title 10, United States Code, is amended to read as follows:*

*"§ 2690. Fuel sources for heating systems*

*"(a) The Secretary of the military department concerned shall provide that the primary fuel source to be used in any new heating system constructed on lands under the jurisdiction of the military department is the most cost-effective fuel for that heating system over the life cycle of the system.*

*"(b) The Secretary of Defense shall prescribe regulations for the determination of the life-cycle cost effectiveness of a fuel for the purposes of subsection (a).*

*"(c) In the case of a military installation in the Federal Republic of Germany, the Secretary of the military department concerned shall, where practical, use the German utility system for purposes of heating.".*

*(2) The item relating to such section in the table of sections at the beginning of chapter 159 of such title is amended to read as follows:*

*"2690. Fuel sources for heating systems.".*

*(b) REPEAL OF REQUIREMENT FOR CONVERSION OF EXISTING STEAM-GENERATING PLANTS.—Section 8110 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1222)), is repealed.*

*PART B—HEALTH CARE MANAGEMENT*

*SEC. 811. IMPROVEMENT OF MILITARY HEALTH-CARE DELIVERY SYSTEM.*

*(a) IN GENERAL.—(1) Chapter 55 of title 10, United States Code, is amended by adding at the end the following new sections:*

*"§ 1096. Contracts for medical care for retirees, dependents, and survivors: alternative delivery of health care*

*"(a) IN GENERAL.—The Secretary of Defense, after consulting with the other administering Secretaries, may contract for the delivery of health care to which covered beneficiaries are entitled under this chapter. The Secretary may enter into a contract under this section with any of the following:*

*"(1) Health maintenance organizations.*

*"(2) Preferred provider organizations.*

*"(3) Individual providers, individual medical facilities, or insurers or consortiums of such providers, facilities, or insurers.*

*"(b) SCOPE OF COVERAGE UNDER HEALTH CARE PLANS.—A contract entered into under this section may provide for the delivery of—*

*"(1) selected health care services;*

*"(2) total health care services for selected covered beneficiaries; or*

*"(3) total health care services for all covered beneficiaries who reside in a geographical area designated by the Secretary.*

*"(c) CHARGES FOR HEALTH CARE.—The Secretary of Defense may prescribe by regulation a premium, deductible, copayment, or other charge for health care provided under this section.*

*"(d) DEFINITION.—In this section, the term 'covered beneficiary' means a beneficiary under this chapter other than a beneficiary under section 1074(a) of this title.*

*"§ 1097. Military Health Care Account*

*"(a) ESTABLISHMENT OF ACCOUNT.—*

*"(1) ESTABLISHMENT.—There is hereby established in the Department of Defense an account to be known as the 'Military Health Care Account'. All sums appropriated to carry out the functions of the Secretary of Defense with respect to the Civilian Health and Medical Program of the Uniformed Services shall be appropriated to the account.*

*"(2) AVAILABILITY OF AMOUNTS.—Amounts appropriated to the account shall remain available until obligated or expended under subsection (c) or (d).*

*"(b) ALLOCATION OF AMOUNTS IN ACCOUNT FOR PROVISION OF MEDICAL CARE BY SERVICE SECRETARIES.—*

*"(1) REQUESTS FOR ALLOCATIONS.—The Secretary of a military department shall, before the beginning of a fiscal year quarter, pro-*

vide to the Secretary of Defense a description of the amounts necessary to pay for charges for benefits under the program for covered beneficiaries under the jurisdiction of the Secretary for that quarter.

"(2) ALLOCATION BY SECRETARY OF DEFENSE.—The Secretary of Defense shall, subject to amounts provided in advance in appropriation Acts, make available to each Secretary of a military department the amount from the account that the Secretary of Defense determines is necessary to pay for charges for benefits under the program for covered beneficiaries under the jurisdiction of that Secretary for that quarter.

"(c) EXPENDITURE OF AMOUNTS FROM ACCOUNT BY SERVICE SECRETARIES.—The Secretary of a military department shall provide medical and dental care to covered beneficiaries for a fiscal-year quarter from amounts appropriated to the Secretary and from amounts from the account made available for that quarter to the Secretary by the Secretary of Defense.

"(d) OBLIGATION OF AMOUNTS FROM ACCOUNT BY SECRETARY OF DEFENSE.—The Secretary of Defense may obligate or expend funds from the account for purposes of entering into a contract under section 1096 of this title to the extent amounts are available in the account.

"(e) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section.

"(f) DEFINITIONS.—In this section:

"(1) The term 'account' means the Military Health Care Account established in subsection (a).

"(2) The term 'Civilian Health and Medical Program of the Uniformed Services' means the program authorized under sections 1079 and 1086 of this title and includes contracts entered into under section 1091 or 1096 of this title and demonstration projects under section 1092 of this title.

"(3) The term 'covered beneficiary' has the meaning given that term in section 1095(d) of this title.

"(4) The term 'program' means the Civilian Health and Medical Program of the Uniformed Services.

**"§ 1098. Health care enrollment system**

"(a) ESTABLISHMENT OF SYSTEM.—The Secretary of Defense, after consultation with the other administering Secretaries, shall establish a system of health care enrollment for covered beneficiaries who reside in the United States.

"(b) DESCRIPTION OF SYSTEM.—Such system shall—

"(1) allow covered beneficiaries to elect a health care plan from eligible health care plans designated by the Secretaries; or

"(2) if necessary in order to ensure full use of facilities of the uniformed services in a geographical area, assign covered beneficiaries who reside in such area to a health care plan.

"(c) HEALTH CARE PLANS AVAILABLE UNDER SYSTEM.—A health care plan designated by the Secretary of Defense shall provide all health care to which a covered beneficiary is entitled under this chapter. Such a plan may consist of any of the following:

"(1) Use of facilities of the uniformed services.

"(2) The Civilian Health and Medical Program of the Uniformed Services.

"(3) Any other health care plan contracted for by the Secretary of Defense.

"(d) ISSUANCE OF REGULATIONS.—The Secretary of Defense, after consultation with the other administering Secretaries, shall prescribe regulations to carry out this section.

"(e) DEFINITIONS.—In this section:

"(1) The term 'Civilian Health and Medical Program of the Uniformed Services' has the meaning given that term in section 1097(f)(2) of this title.

"(2) The term 'covered beneficiary' has the meaning given that term in section 1096(d) of this title.

**"§ 1099. Diagnosis-related groups**

"(a) ESTABLISHMENT OF DRGs.—The Secretary of Defense, after consultation with the other administering Secretaries, shall establish by regulation the use of diagnosis-related groups as the primary criteria for allocation of resources to facilities of the uniformed services.

"(b) CONTENT OF REGULATIONS.—Such regulations shall establish a system of diagnosis-related groups similar to that established under section 1886(d)(4) of the Social Security Act (42 U.S.C. 1395ww(d)(4)). Such regulations shall include the following:

"(1) A classification of inpatient treatments by diagnosis-related groups and a similar classification of outpatient treatment.

"(2) A methodology for classifying specific treatments within such groups.

"(3) An appropriate weighting factor for each such diagnosis-related group which reflects the relative resources used by a facility of a uniformed service with respect to treatments classified within that group compared to treatments classified within other groups.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"1096. Contracts for medical care for retirees, dependents, and survivors: alternative delivery of health care.
"1097. Military Health Care Account.
"1098. Health care enrollment system.
"1099. Diagnosis-related groups.".

(b) REPORTS TO CONGRESS.—

(1) HEALTH CARE ENROLLMENT SYSTEM.—Not later than March 1, 1987, the Secretary of Defense shall submit to Congress a report detailing—

(A) the establishment and initial implementation of a system of health care enrollment under section 1098(a) of title 10, United States Code (as added by subsection (a)); and

(B) the plan of the Secretary for completing the implementation of such system.

(2) DIAGNOSIS-RELATED GROUPS.—The Secretary shall submit to Congress—

(A) not later than May 1, 1987, a report on plans of the Secretary for establishing diagnosis-related groups for inpatient services under section 1099(a) of title 10, United States Code (as added by subsection (a)); and

(B) not later than May 1, 1988, a report on plans of the Secretary for establishing diagnosis-related groups for outpatient services under such section.

(c) EFFECTIVE DATES.—The Secretary of Defense shall prescribe regulations—

(1) as required by section 1097(e) of title 10, United States Code (as added by subsection (a)), to take effect after September 30, 1986;

(2) as required by section 1098(d) of such title (as added by subsection (a)), to gradually implement the system of health care enrollment for covered beneficiaries during the period beginning on October 1, 1987, and ending on September 30, 1990; and

(3) as required by section 1099(a) of such title (as added by subsection (a)), to take effect—

(A) in the case of inpatient treatments, after September 30, 1987; and

(B) in the case of outpatient treatments, after September 30, 1988.

SEC. 812. MEDICAL INFORMATION SYSTEMS ACQUISITION.

(a) SELECTION OF MEDICAL INFORMATION SYSTEM.—

(1) IN GENERAL.—After carrying out the testing required by subsection (b) and the demonstration project described in subsection (c), the Secretary of Defense shall designate for use in all military medical treatment facilities the medical information system tested that is the most advantageous to the Government based on the recommendations of the Secretary required by subsection (e).

(2) RESTRICTION.—The Secretary may not obligate or expend funds appropriated or otherwise made available to the Department of Defense to—

(A) deploy a medical information system in military medical treatment facilities before the Secretary submits the report required by subsection (e); or

(B) conduct an extended benchmark test of the system known as the Composite Health-Care System.

(3) WAITING PERIOD.—The Secretary may not designate a medical information system under paragraph (1) until the end of the 30-day period beginning on the date on which the Comptroller General submits the report required by subsection (f)(2)(B).

(b) OPERATIONAL TESTING OF MEDICAL INFORMATION SYSTEMS.—

(1) IN GENERAL.—The Secretary shall carry out operational tests on medical information systems for purposes of selecting the medical information system for use in military medical treatment facilities that is the most advantageous to the Government based on the recommendations of the Secretary required by subsection (e).

(2) REQUIREMENTS FOR TEST.—(A) The tests required by paragraph (1) shall be carried out over a one-year period at six test sites designated by the Secretary.

(B) Each test site designated by the Secretary shall include not less than one medium-to-large military medical treatment facility and not less than one small military medical treatment facility.

(C) Each branch of the services shall be represented at not less than one of the test sites designated by the Secretary.

(D) The Secretary shall designate vendors to participate in the tests required by paragraph (1), including—

(i) not less than three vendors for the system known as the Composite Health-Care System; and

(ii) not less than one vendor who uses and adapts the existing Veterans' Administration software with respect to the hospital management computer system of the Veterans' Administration known as the Veterans' Administration's decentralized hospital computer program.

(E) Each vendor that participates in such tests shall—

(i) demonstrate the functions included in phases I, II, and IID of Solicitation No. DAHC26-85-R-0009 (relating to acquisition of the Composite Health-Care System); and

(ii) calculate an incremental price and delivery schedule, at the appropriate level, for each of the functions offered in phases I, II, IID, and III of such solicitation.

(3) SPECIAL INTEREST USER GROUPS.—The Secretary shall establish a special interest user group at each test site designated under paragraph (2)(A) to facilitate the implementation and development of the medical information system at each such site. Each such group shall include—

(A) representatives from the program office of the Tri-Service Medical Information Systems of the Department of Defense;

(B) representatives from the military medical treatment facilities at the site; and

(C) representatives of the vendor.

(c) VETERANS' ADMINISTRATION DECENTRALIZED HOSPITAL COMPUTER PROGRAM.—

(1) IN GENERAL.—The Secretary shall continue to carry out the demonstration project required by section 1203 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 718), with respect to the hospital-management computer system of the Veterans' Administration known as the Veterans' Administration Decentralized Hospital Computer Program.

(2) EXTENSION OF DEMONSTRATION PROJECT.—The Secretary shall extend the duration of the demonstration project described in paragraph (1) so that such project shall be completed on the same date as the tests required by subsection (b).

(3) USE OF ALL COMPONENTS OF DHCP.—Section 1203 of the Department of Defense Authorization Act, 1986, is amended in subsection (c)—

(A) by striking out "available"; and

(B) by inserting "that are available at least six months before the date on which the demonstration project is expected to be completed" after "software)".

(d) EVALUATIONS.—

(1) MILITARY EVALUATION TEAMS.—The Secretary shall establish teams of military medical personnel assigned to military medical facilities to assist in evaluating each medical information system being tested. Each such team shall travel to each test site included in the operational tests under subsection (b) or the demonstration project described in subsection (c) in order to compare all the medical information systems being tested.

(2) INDEPENDENT EVALUATION.—The Secretary shall enter into a contract with an independent technical firm to conduct an evaluation of the demonstration project. For purposes of this paragraph, an independent technical firm is a technical firm that is not involved in any aspect of the operational tests under subsection (b) or the demonstration project described in subsection (c).

(3) CONTENT OF EVALUATIONS.—An evaluation under this paragraph shall include—

(A) an assessment of the benefits (including quality and timeliness of care) and cost-effectiveness of the use of each of the medical information systems tested under subsection (b) or under the demonstration project described in subsection (c) and the technical factors of each of such systems;

(B) an assessment of the impact of initiatives of the Department of Defense (including proposed reform, initiative of the Department of Defense with respect to the Civilian Health and Medical Program of the Uniformed Services (commonly known as "Project Imprint") on the functioning and required workload of each medical information system tested; and

(C) the formulation of a life cycle management plan for automation of military medical facilites.

(e) REPORT.—The Secretary shall submit to Congress a report describing the testing carried out under subsection (b) and the demonstration project referred to in subsection (c). The report shall include—

(1) specific findings and recommendations by the Secretary with respect to—

(A) the benefits (including quality and timeliness of care) and cost-effectiveness of the use of each of the medical information systems tested under subsection (b) or under the demonstration project described in subsection (c) and the technical factors of each of such systems; and

(B) the benefits to be achieved by each function referred to in subsection (b)(2)(E);

(2) a plan for implementing the systems recommended by the Secretary under paragraph (1);

(3) findings and recommendations with respect to the impact of the initiatives described in subsection (d)(3)(B); and

(4) a complete life cycle management plan for automation of military medical facilities.

(f) EVALUATIONS AND REPORTS BY COMPTROLLER GENERAL.—

(1) SELECTION OF VENDORS.—(A) The Comptroller General shall evaluate the selection of vendors by the Secretary for the testing of the Composite Health-Care System.

(B) The Comptroller General shall submit to Congress a report on such evaluation before the end of the 45-day period beginning on the date that the Secretary completes the selection of vendors for such testing.

(2) EVALUATION BY COMPTROLLER GENERAL.—(A) The Comptroller General shall evaluate the conduct of the evaluations required by subsection (d) and the report of the Secretary required by subsection (e).

(B) The Comptroller General shall submit to Congress a report on such evaluation before the end of the 45-day period beginning on the date that the Secretary submits such report to Congress.

(g) DEFINITIONS.—In this section:

(1) The term "medical information system" means a computer-based information system that—

(A) receives data normally recorded concerning patients;

(B) creates and maintains from such data a computerized medical record for each patient; and

(C) provides access to data for patient care, hospital administration, research, and medical care resource planning.

(2) The term "medium-to-large military medical treatment facility" means a military hospital with 150 or more beds.

(3) The term "military medical treatment facility" means a hospital, medical center, or clinic under the jurisdiction of the Secretary of a military department or the Secretary of Defense.

(4) The term "Secretary" means the Secretary of Defense.

(5) The term "small military medical treatment facility" means a military hospital with fewer than 50 beds or a free-standing ambulatory clinic.

SEC. 813. CHAMPUS CATCHMENT AREAS.

(a) REIMBURSEMENT FOR INPATIENT SERVICES WITHIN CATCHMENT AREA.—Section 1079(a)(7) of title 10, United States Code, is amended by striking out "pays for at least 75 percent of the services" and inserting in lieu thereof "provides primary coverage for the services".

(b) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on October 1, 1986.

## TITLE IX—PROCUREMENT POLICY REFORM

SEC. 900. SHORT TITLE.

This title may be cited as the "Defense Procurement Improvement Act of 1986".

### PART A—MANAGEMENT OF THE ACQUISITION PROCESS

SEC. 901. DUTIES OF UNDER SECRETARY OF DEFENSE FOR ACQUISITION.

(a) DUTIES OF POSITIONS.—

(1) IN GENERAL.—Section 134a of title 10, United States Code, is amended to read as follows:

"§ 134a. Under Secretary of Defense for Acquisition: appointment; powers and duties; precedence

"(a) There is an Under Secretary of Defense for Acquisition, appointed from civilian life by the President, by and with the advice and consent of the Senate. The Under Secretary shall be appointed from among persons who have an extensive management background in the private sector.

"(b) Subject to the authority, direction, and control of the Secretary of Defense, the Under Secretary of Defense for Acquisition—

"(1) is responsible for setting overall policy for, and supervises, all acquisition activities of the Department of Defense; and

"(2) shall perform such duties and exercise such powers as the Secretary of Defense may prescribe.

"(c) The Under Secretary—

"(1) is the senior procurement executive for the Department of Defense for the purposes of section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3));

"(2) is the Defense Acquisition Executive for purposes of regulations and procedures of the Department providing for a Defense Acquisition Executive; and

"(3) to the extent directed by the Secretary, supervises all other officers in the Office of the Secretary of Defense who have acquisition responsibilities.

"(d) Supervision of the audit and oversight functions performed by the Defense Contract Audit Agency on the date of the enactment of this section shall be carried out in the same manner as in effect on such date.

"(e) The Secretary of Defense shall prescribe the precedence of the Under Secretary in the Department of Defense.".

(2) CLERICAL AMENDMENT.—The item relating to such section in the table of sections at the beginning of chapter 4 of such title is amended to read as follows:

"134a. Under Secretary of Defense for Acquisition: appointment; powers and duties; precedence.".

(b) INDEPENDENCE OF DIRECTOR OF OPERATIONAL TEST AND EVALUATION.—Section 136a(d) of title 10, United States Code (relating to the Director of Operational Test and Evaluation), is amended by inserting "personally" after "Secretary of Defense" in the first sentence.

(c) ARMED FORCES POLICY COUNCIL.—Section 171(a) of such title (relating to the Armed Forces Policy Council) is amended—

(1) by redesignating paragraphs (3) through (11) as paragraphs (4) through (12), respectively;

(2) by inserting after paragraph (2) the following new paragraph (3):

"(3) the Under Secretary of Defense for Acquisition;"; and

(3) by striking out "Under Secretaries of Defense" in paragraph (7) (as so redesignated) and inserting in lieu thereof "Under Secretary of Defense for Policy and the Director of Defense Research and Engineering".

(d) PREVENTION OF DUPLICATION OF CERTAIN CONTRACT AUDIT AND OVERSIGHT ACTIVITIES.—Chapter 131 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2214. Audit and oversight of contractor activities: coordination and prevention of duplicative policies

"(a) COORDINATION.—The Secretary of Defense shall prescribe procedures to ensure that Department of Defense policies for the audit and oversight of contractor activities are coordinated and carried out in a manner to prevent duplication of audit and oversight activities by different elements of the Department.

"(b) CONSULTATION.—In carrying out this section, the Secretary shall consult with the Under Secretary of Defense for Acquisition and the Inspector General of the Department of Defense.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2214. Audit and oversight of contractor activities: coordination and prevention of duplicative policies.".

SEC. 902. STREAMLINING PROGRAM MANAGEMENT.

(a) IN GENERAL.—

(1) PROGRAM TO STREAMLINE MANAGEMENT.—The Secretary of Defense shall conduct, through the Secretaries of the military departments, a program with respect to increasing the efficiency of the management structure of major defense acquisition programs by reducing the number of officials through whom a program manager reports to the senior procurement executive of the military department concerned.

(2) DESIGNATION OF PARTICIPATING PROGRAMS.—The Secretary shall require that the Secretary of each military department designate at least two major defense acquisition programs of that department, and as many as practicable, to participate in the program described in paragraph (1).

(3) ELIGIBILITY.—A program may be designated under paragraph (2) only if the program has not proceeded into full-scale engineering development as of September 30, 1986.

(b) GUIDELINES.—The Secretary of Defense shall issue guidelines governing the management of the major defense acquisition programs designated by the Secretaries of the military departments under subsection (a)(2). Such guidelines shall include the following requirements:

(1) PROGRAM EXECUTIVE OFFICER.—The Secretary concerned shall designate a program executive officer for each program.

(2) SUPERVISION OF PROGRAM MANAGER.—The program manager for each program shall report directly, without intervening review or approval, to the program executive officer for that program. The program manager shall consider recommendations received from the competition advocate for the department with respect to decisions concerning that program.

(3) SUPERVISION OF PROGRAM EXECUTIVE OFFICER.—The program executive officer for a program shall report directly, without intervening review or approval, to the senior procurement executive of the military department concerned designated pursuant to section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3)).

(c) DEFINITION.—In this section, the term "major defense acquisition program" has the meaning given that term in section 139a(a)(1) of title 10, United States Code.

SEC. 903. MILESTONE AUTHORIZATION AND BASELINING.

(a) PROGRAM STABILITY.—

(1) Chapter 4 of title 10, United States Code, is amended by inserting after section 139c the following new section:

"§ 139d. Major defense acquisition programs: enhanced program stability

"(a)(1) The Secretary of Defense shall include in a request to Congress for funding for a major defense acquisition program, before full-scale engineering development and before full-rate production, the following:

"(A) In the case of the full-scale engineering development stage—

"(i) a baseline description of the total program; and

"(ii) the total program cost (including the cost of all elements included in the baseline description), which may not exceed the amount of the independent estimate for that program submitted to the Secretary under section 139c of this title.

"(B) In the case of the production stage, a revision of the most recent baseline description and of the most recent total program cost.

"(2) The Secretary shall include in the baseline description of a program all elements related to the development, production, and initial provisioning of the system to be developed under the program, including—

"(A) system performance;
"(B) number of end items;
"(C) scheduling;
"(D) testing;
"(E) initial training; and
"(F) initial provisioning.

"(b) The Secretary of Defense shall designate for each fiscal year not more than three major defense acquisition programs in each military department to be considered for multiyear authorization under subsection (c). A program may not be designated under this subsection if—

"(1) the program is being submitted for approval by Congress to proceed into the full-rate production stage; and

"(2) initial operational test and evaluation of the program has not been completed.

"(c)(1) If a program designated by the Secretary of Defense under subsection (b) is approved by Congress to proceed into the full-scale engineering development stage, or into the full-rate production stage, Congress shall authorize funds for that stage in a single amount sufficient to carry out that stage, but not for a period in excess of five years.

"(2) The Secretary concerned may not begin full-scale engineering development, or full-rate production, for such a program until Congress authorizes funds for that stage in an amount sufficient to carry out that stage.

"(d)(1) If, in carrying out a full-scale engineering development or full-rate production for which Congress has authorized funds, the Secretary concerned determines that there is a significant adverse program deviation—

"(A) the Secretary concerned shall notify Congress in writing of that determination and of the significant adverse program deviation before the end of the 10-day period beginning on the date that the determination is made; and

"(B) except as provided in paragraph (2), funds appropriated for that program may not be obligated on or after the date of that determination.

"(2) The prohibition in paragraph (1)(B) on the obligation of funds for a major defense acquisition program shall cease to apply at the end of the 45-day period beginning on the date on which the Secretary concerned submits the report required under paragraph (1)(A), except that the Secretary may not obligate funds appropriated for the fiscal year following the fiscal year in which the deviation occurred unless such funds are authorized by law.

"(3) In this subsection, the term 'significant adverse program deviation', with respect to a program, means—

"(A) an adverse change in the capability of the system being acquired under the program that results in a capability for the system that does not meet the thresholds specified in the current baseline description for the program;

"(B) an increase in the current total program cost, in constant year dollars, above the total program cost associated with that baseline description; or

"(C) a delay in program schedule beyond the threshold specified in the current baseline description.

"(e)(1) After Congress authorizes funds for full-scale engineering development, or for full-rate production, for a program under this section, the Secretary of Defense or the Secretary concerned may (except as provided in subsection (d)) change the current baseline description with respect to the program and the total program cost associated with that baseline description.

"(2) The Secretary of Defense or the Secretary concerned shall notify the Committees on Armed Services of the Senate and House of Representatives of a change under paragraph (1) not later than 10 days after the date on which the change is made.

"(3) Except for a change required by mandatory safety concerns, authority under paragraph (1) may only be delegated—

"(A) in the case of the Secretary of Defense, to the Deputy Secretary of Defense or to the Under Secretary of Defense for Acquisition; and

"(B) in the case of a Secretary of a military department, to the Under Secretary (or to any other official designated by the Secretary concerned as the Service Acquisition Executive of that military department).

"(f) The Secretary is not required to report under section 139a of this title on any program that is designated under subsection (b).

"(g) In this section, the term 'major defense acquisition program' has the meaning given that term in section 139a(a)(1) of this title.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 139c the following new item:

"139d. Major defense acquisition programs: enhanced cost control.".

(b) EFFECTIVE DATE.—The Secretary of Defense shall make the designations required by subsection (b) of section 139d of title 10, United States Code, as added by subsection (a), as part of the budget submission of the Department of Defense for fiscal year 1988.

SEC. 904. COMPARABLE BUDGETING FOR SIMILAR SYSTEMS.

(a) MATTERS TO BE INCLUDED IN ANNUAL DEFENSE BUDGETS.—In preparing the defense budget for any fiscal year, the Secretary of Defense shall—

(1) specifically identify each common procurement weapon system included in the budget;

(2) take all feasible steps to minimize variations in procurement unit costs for any such system as shown in the budget requests of the different armed forces requesting procurement funds for the system; and

(3) identify and justify in the budget all such variations in procurement unit costs for common procurement weapon systems.

(b) ASSISTANT SECRETARY (COMPTROLLER).—The Secretary of Defense shall carry out this section through the Assistant Secretary of Defense (Comptroller).

(c) DEFINITIONS.—In this section:

(1) DEFENSE BUDGET.—The term "defense budget" means the budget of the Department of Defense included in the President's budget submitted to Congress under section 1105 of title 31 United States Code, for a fiscal year.

(2) COMMON PROCUREMENT WEAPON SYSTEM.—The term "common procurement weapon system" means a weapon system for which two or more of the Army, Navy, Air Force, and Marine Corps request procurement funds in a defense budget.

SEC. 905. PREFERENCE FOR NONDEVELOPMENTAL PRODUCTS.

(a) IN GENERAL.—

(1) ESTABLISHMENT OF PREFERENCE.—Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2325. Preference for nondevelopmental items

"(a) IN GENERAL.—

"(1) STATEMENT OF PROCUREMENT REQUIREMENTS.—The Secretary of Defense shall ensure, that, to the maximum extent practicable—

"(A) requirements of the Department of Defense with respect to a procurement of supplies are stated in the broadest possible functional description; and

"(B) such requirements are defined so that nondevelopmental items may be procured to fulfill such requirements when such items are adequate to meet the needs of the Department.

"(2) REGULATIONS.—The Secretary of Defense shall prescribe regulations to carry out this section.

"(b) DEFINITION.—In this section, the term 'nondevelopmental item' means—

"(1) any item of supply, or component of such item, that is available in the commercial marketplace;

"(2) any previously-developed item of supply, or component of such item, that is in use by a department or agency of the United States, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement; or

"(3) any item of supply, or component of such item, described in paragraph (1) or (2) that requires only minor modification in order to meet the requirements of the procuring agency.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2325. Preference for nondevelopmental items.".

(3) EFFECTIVE DATE.—The Secretary of Defense shall prescribe regulations as required by section 2325(a)(2) of title 10, United States Code (as added by subsection (a)(1)), before the end of the 120-day period beginning on the date of the enactment of this Act.

(b) EVALUATION BY COMPTROLLER GENERAL.—

(1) EVALUATION.—The Comptroller General shall conduct an independent evaluation of the actions taken by the Secretary of Defense to carry out the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1)).

(2) REPORT.—The Comptroller General shall submit to Congress a report on the evaluation required by paragraph (1). Such report shall include—

(A) an analysis of the effectiveness of the actions taken by the Secretary to carry out the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1));

(B) a description of any programs conducted to notify acquisition personnel of the Department of Defense of the requirements of such section and to train such personnel in the appropriate procedures for carrying out such section;

(C) a description of each law, regulation, and procedure which prevents or restricts maximum practicable use of nondevelopment items to fulfill the supply requirements of the Department of Defense; and

(D) such recommendations for additional legislation as the Comptroller General considers necessary or appropriate to promote maximum procurement of nondevelopmental items to fulfill the supply requirements of the Department of Defense.

(3) The report required by paragraph (2) shall be submitted before the end of the one-year period beginning on the date of the enactment of this Act.

(c) REMOVAL OF IMPEDIMENTS TO ACQUISITION OF NONDEVELOPMENTAL ITEMS.—

(1) REPORT.—The Secretary of Defense shall submit to the defense committees a report—

(A) identifying all statutes and regulations that are determined by the Secretary to impede the acquisition of nondevelopmental products by the Department of Defense; and

(B) recommending any legislation that the Secretary considers necessary or appropriate to promote maximum procurement of nondevelopmental items to fulfill the supply requirements of the Department of Defense.

(2) ACTIONS BY SECRETARY.—The Secretary shall take appropriate steps to remove any impediments identified by the Secretary under paragraph (1)(A) that are under the jurisdiction of the Secretary.

(3) DEFENSE COMMITTEES.—In this subsection, the term "defense committees" means the Committees on Armed Services and on Appropriations of the Senate and House of Representatives.

SEC. 906. REPORT ON OPPORTUNITIES FOR ADVANCEMENT FOR PROGRAM MANAGERS AND OTHER ACQUISITION PERSONNEL.

(a) REPORT.—The Secretary of Defense shall submit to Congress a report that describes methods to enhance career opportunities for program managers and other acquisition personnel of the Department of Defense.

(b) DEADLINE FOR REPORT.—The report shall be submitted not later than the end of the 90-day period following the date of the enactment of this Act.

PART B—AMENDMENTS TO EXISTING LAW

SEC. 911. SMALL BUSINESS SET-ASIDES.

(a) PROPORTION OF CONTRACTS SET ASIDE DETERMINED ON INDUSTRY CATEGORY BASIS.—Paragraph (3) of section 15(a) of the Small Business Act (15 U.S.C. 644(a)(3)) is amended—

(1) by inserting "in each industry category" after "Government", and

(2) by adding at the end the following new sentences: "For purposes of clause (3) of the first sentence of this subsection, an industry category is a discrete group of similar goods and services. Such groups shall be determined by the Administration in accordance with the four-digit standard industrial classification codes contained in the Standard Industrial Classification Manual published by the Office of Management and Budget, except that the Administration shall limit such an industry category to a greater extent than provided under such classification codes if the Administration receives evidence indicating that further segmentation for purposes of this paragraph is warranted due to special capital equipment needs or special labor or geographic requirements or to recognize a new industry. A market for goods or services may not be segmented under the preceding sentence due to geographic requirements unless the Government typically designates the area where work for contracts for such goods or services is to be performed and Government purchases comprise the major portion of the entire domestic market for such goods or services and, due to the fixed location of facilities, high mobilization costs, or similar economic factors, it is unreasonable to expect competition from business concerns located outside of the general areas where such concerns are located.".

(b) AWARDING OF CONTRACTS AT FAIR MARKET PRICES.—(1) Section 15(a) of such Act (15 U.S.C. 644(a)) is further amended by adding at the end the following new sentence: "A contract may not be awarded under this subsection if the award of the contract would result in a cost to the awarding agency which exceeds a fair market price.".

(2) Section 8(a)(1)(A) of such Act (15 U.S.C. 637(a)(1)(A)) is amended by striking out the semicolon at the end and adding in lieu thereof the following: ". A contract may not be awarded under this subsection if the award of the contract would result in a cost to the awarding agency which exceeds a fair market price;".

(c) ASSURANCE AS TO COMPOSITION OF LABOR FORCE.—(1) Section 8(a) of such Act (15 U.S.C. 637(a)) is amended by adding at the end the following new paragraph:

"(13)(A) A concern may not be awarded a contract under this subsection as a small business concern unless the concern agrees that—

"(i) in the case of a contract for services (except construction), the concern will perform at least 50 percent of the cost of the contract with its own employees; and

"(ii) in the case of a contract for procurement of supplies (other than procurement from a regular dealer in such supplies), the concern will perform work for at least 50 percent of the cost of manufacturing the supplies (not including the cost of materials).

"(B) The Administrator may change the percentage under clause (i) or (ii) of subparagraph (A) if the Administrator determines that such change is necessary to reflect conventional industry practices. A percentage established under the preceding sentence may not differ from a percentage established under section 15(n).

"(C) Not later than 180 days after the date of the enactment of this paragraph, the Administration shall establish, through public rulemaking, requirements similar to those specified in subparagraph (A) to be applicable to contracts for general and specialty construction and to contracts for any other industry category not otherwise subject to the requirements of such subparagraph. The

percentage applicable to any such requirement shall be determined in accordance with subparagraph (B), except that such a percentage may not differ from a percentage established under section 15(n) for the same industry category.".

(2) Section 15 of such Act (15 U.S.C 644) is amended by adding at the end the following new subsection:

"(n)(1) A concern may not be awarded a contract under this subsection as a small business concern unless the concern agrees that—

"(A) in the case of a contract for services (except construction), the concern will perform at least 50 percent of the cost of the contract with its own employees; and

"(B) in the case of a contract for procurement of supplies (other than procurement from a regular dealer in such supplies), the concern will perform work for at least 50 percent of the cost of manufacturing the supplies (not including the cost of materials).

"(2) The Administrator may change the percentage under subparagraph (A) or (B) of paragraph (1) if the Administrator determines that such change is necessary to reflect conventional industry practices. A percentage established under the preceding sentence may not differ from a percentage established under section 15(n).

"(3) Not later than 180 days after the date of the enactment of this paragraph, the Administration shall establish, through public rulemaking, requirements similar to those specified in paragraph (1) to be applicable to contracts for general and specialty construction and to contracts for any other industry category not otherwise subject to the requirements of such subparagraph. The percentage applicable to any such requirement shall be determined in accordance with paragraph (2), except that such a percentage may not differ from a percentage established under section 15(n) for the same industry category.".

(d) DISCLOSURE OF INFORMATION CONCERNING APPLICANTS FOR PROCUREMENT SET-ASIDES.—(1) Section 8 of such Act is amended by adding at the end the following new subsection:

"(k)(1) The head of any Federal agency shall, within five days of the agency's decision to set aside a procurement for an identifiable small business concern under this section, provide the name and address of the small business concern expected to receive the procurement and the names and addresses of the principals of such concern to any person who requests such information.

"(2) The Secretary of Defense may decline to provide information under paragraph (1) in order to protect national security interests.".

(2) Section 15 of such Act is amended by adding at the end the following new subsection:

"(o)(1) The head of any Federal agency shall, within five days of the agency's decision to set aside a procurement for small business concerns under this section, provide the names and addresses of the small business concerns expected to respond to the procurement to any person who requests such information.

"(2) The Secretary of Defense may decline to provide information under paragraph (1) in order to protect national security interests.".

(e) REVIEW OF SIZE STANDARDS.—(1) Section 3 of the Small Business Act is amended by inserting "(1)" after "SEC. 3. (a)" and adding at the end of subsection (a) the following:

"(2) Within six months after the date of the enactment of this paragraph, the Small Business Administration shall establish a program for the review of the size standards for eligibility of business concerns for a procurement restricted to small business concerns under section 8(a) or 15(a).

"(3) If the Administrator determines, on the basis of any such review, that contracts awarded under the set-aside programs under such sections exceed 30 percent of the dollar value of the total contract awards for that industry category, as determined under the last sentence of section 15(a)(3), the Administrator shall adjust the size standards for such industry category establishing eligibility for a set-aside program to a size that will likely reduce the number of contracts which may be set aside to approximately 30 percent of the value of contracts to be awarded under such sections.

"(4) The Administrator shall conduct a review under the program established under paragraph (2) at least once during every three years. Such review shall be completed and appropriate size standard adjustments made with the expiration of 180 days after each three-year review period. The first review shall review the periods of fiscal years 1984, 1985, and 1986 and shall begin on January 1, 1987.".

(f) EFFECTIVE DATE.—The amendments made by this section shall take effect at the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 912. TRUTH IN NEGOTIATIONS ACT AMENDMENTS.

(a) STRENGTHENING OF PREVENTION OF UNEARNED AND EXCESSIVE CONTRACTOR PROFITS.—Chapter 137 of title 10, United States Code, is amended by inserting after section 2306 the following new section:

"§ 2306a. Cost or pricing data: truth in negotiations

"(a) REQUIRED COST OR PRICING DATA AND CERTIFICATION.—(1) The head of an agency shall require offerors, contractors, and subcontractors to make cost or pricing data available as follows:

"(A) An offeror for a prime contract under this chapter to be entered into using procedures other than sealed-bid procedures shall be required to submit cost or pricing data before the award of the contract if the price of the contract to the United States is expected to exceed $100,000.

"(B) The contractor for a contract under this chapter shall be required to submit cost or pricing data before the pricing of a change or modification to the contract if the price adjustment is expected to exceed $100,000 (or such lesser amount as may be prescribed by the head of the agency).

"(C) An offeror for a subcontract (at any tier) of a contract under this chapter shall be required to submit cost or pricing data before the award of the subcontract if—

"(i) the price of the subcontract is expected to exceed $100,000; and

"(ii) the prime contractor and each higher-tier subcontractor have been required to make available cost or pricing data under this subsection.

"(D) The subcontractor for a subcontract covered by subparagraph (C) shall be required to submit cost or pricing data before the pricing of a change or modification to the subcontract if the price adjustment is expected to exceed $100,000 (or such lesser amount as may be prescribed by the head of the agency).

"(2) A person required, as an offeror, contractor, or subcontractor, to submit cost or pricing data under paragraph (1) (or required by the head of the agency concerned to submit such data under subsection (c)) shall be required to certify that, to the best of the person's knowledge and belief, the cost or pricing data submitted are accurate, complete, and current.

"(3) Cost or pricing data required to be submitted under paragraph (1) (or under subsection (c)), and a certification required to be submitted under paragraph (2), shall be submitted to the contracting officer for the prime contract concerned (or to a representative of the contracting officer designated by the contracting officer for the purposes of the negotiation of the contract).

"(4) Except as provided under subsection (b), this section applies to contracts entered into by the head of an agency on behalf of a foreign government.

"(b) EXCEPTIONS.—This section need not be applied to a contract or subcontract—

"(1) for which the price agreed upon is based on—

"(A) adequate price competition;

"(B) established catalog or market prices of commercial items sold in substantial quantities to the general public; or

"(C) prices set by law or regulation; or

"(2) in an exceptional case when the head of the agency determines that the requirements of this section may be waived and states in writing his reasons for such determination.

"(c) AUTHORITY TO REQUIRE COST OR PRICING DATA—When cost or pricing data are not required to be submitted by this section, such data may nevertheless be required to be submitted by the head of the agency if the head of the agency determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract or subcontract.

"(d) PRICE REDUCTIONS FOR DEFECTIVE COST OR PRICING DATA.—(1)(A) A prime contract (or change or modification to a prime contract) under which a certificate under subsection (a)(2) is required shall contain a provision that the price of the contract to the United States, including profit or fee, shall be adjusted to exclude any significant amount by which it may be determined by the head of the agency that such price was increased because the contractor (or any subcontractor required to make available such a certificate) submitted defective cost or pricing data.

"(B) For the purposes of this section, defective cost or pricing data are cost or pricing data which, as of the date of agreement on the price of the contract (or another date agreed upon between the parties), were inaccurate, incomplete, or noncurrent. If for purposes of the preceding sentence the parties agree upon a date other than the date of agreement on the price of the contract, the date agreed upon by the parties shall be as close to the date of agreement on the price of the contract as is practicable.

"(2)(A) A contractor shall not be allowed to offset an amount against the amount of a contract price adjustment under a contract provision required by paragraph (1) unless—

"(i) the contractor certifies to the contracting officer (or to a representative of the contracting officer designated by the contracting officer) that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset; and

"(ii) the contractor proves that the cost or pricing data were available before the date of agreement on the price of the contract (or price of the modification) and that the data were not submitted as specified in subsection (a)(3) before such date.

"(B) A contractor shall not be allowed to offset an amount otherwise authorized to be offset under subparagraph (A) if the United States proves that, had the cost or pricing data referred to in subparagraph (A)(ii) been submitted to the United States before the date of agreement on the price of the contract (or price of the modification), the submission of such cost or pricing data would not have resulted in an increase in that price in the amount to be offset.

"(3) In determining for purposes of a contract price adjustment under a contract provision required by paragraph (1) whether, and to what extent, a contract price was increased because the contractor (or a subcontractor) submitted defective cost or pricing data, it shall be a defense that the United States did not rely on the defective data submitted by the contractor or subcontractor.

"(4) It is not a defense to an adjustment of the price of a contract under a contract provision required by paragraph (1) that—

"(A) the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted by the contractor or subcontractor because the contractor or subcontractor—

"(i) was the sole source of the property or services procured; or

"(ii) otherwise was in a superior bargaining position with respect to the property or services procured;

"(B) the contracting officer should have known that the cost and pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

"(C) the contract was based on an agreement between the contractor and the United States about the total cost of the contract and there was no agreement about the cost of each item procured under such contract; or

"(D) the prime contractor or subcontractor did not submit a certification of cost and pricing data relating to the contract as required under subsection (a)(2).

"(e) INTEREST AND PENALTIES FOR CERTAIN OVERPAYMENTS.—(1) If the United States makes an overpayment to a contractor under a contract with the Department of Defense subject to this section and the overpayment was due to the submission by the contractor of defective cost or pricing data, the contractor shall be liable to the United States—

"(A) for interest on the amount of such overpayment, to be computed—

"(i) for the period beginning on the date the overpayment was made to the contractor and ending on the date the contractor repays the amount of such overpayment to the United States; and

"(ii) at the current rate prescribed by the Secretary of the Treasury under section 6621 of the Internal Revenue Code of 1954; and

"(B) if the submission of such defective data was a knowing submission, for an additional amount equal to the amount of the overpayment.

"(2) Except as provided under subsection (d), the liability of a contractor under this subsection shall not be affected by the contractor's refusal to submit a certification under subsection (a)(2) with respect to the cost or pricing data involved.

"(f) RIGHT OF UNITED STATES TO EXAMINE CONTRACTOR RECORDS.—(1) For the purpose of evaluating the accuracy, completeness, and currency of cost or pricing data required to be submitted by this section with respect to a contract or subcontract, the head of the agency, acting through any authorized representative of the head of the agency who is an employee of the United States or a member of the armed forces, shall have the right to examine all records of the contractor or subcontractor related to—

"(A) the proposal for the contract or subcontract;

"(B) the discussions conducted on the proposal;

"(C) pricing of the contract or subcontract; or

"(D) performance of the contract or subcontract.

"(2) The right of the head of an agency under paragraph (1) shall expire three years after final payment under the contract or subcontract.

"(3) In this subsection, the term 'records' includes books, documents, and other data.

"(g) COST OR PRICING DATA DEFINED.—In this section, the term 'cost or pricing data' means all facts that, as of the time of agreement on the price of a contract (or the price of a contract modification), a prudent buyer or seller would reasonably expect to affect price negotiations significantly. Such term does not include information that is judgmental and not subject to verification.".

(b) CONFORMING AMENDMENTS.—(1) Subsection (f) of section 2306 of such title is amended to read as follows:

"(f) So-called 'truth-in-negotiations' provisions relating to cost or pricing data to be submitted by certain contractors and subcontractors are provided in section 2306a of this title.".

(2) Section 934(a) of the Defense Procurement Improvement Act of 1985 (title IX of Public Law 99-145; 99 Stat. 700) is repealed.

(c) CLERICAL AMENDMENTS.—(1) The heading of section 2306 of title 10, United States Code, is amended to read as follows:

"§ 2306. Kinds of contracts".

(2) The table of sections at the beginning of chapter 137 of such title is amended by striking out the item relating to section 2306 and inserting in lieu thereof the following:

"2306. Kinds of contracts.
"2306a. Cost or pricing data: truth in negotiations.".

(d) EFFECTIVE DATES.—(1) Except as provided in paragraph (2), section 2306a of title 10, United States Code, as added by subsection (a), and the amendments made by subsection (b) shall apply with respect to contracts entered into after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) Subsection (e) of such section 2306(a) shall apply with respect to contracts entered into after November 7, 1985.

SEC. 913. RIGHTS IN TECHNICAL DATA.

(a) RIGHTS IN TECHNICAL DATA.—Subsection (a) of section 2320 of title 10, United States Code, is amended to read as follows:

"(a)(1) The Secretary of Defense shall prescribe regulations to define the legitimate interest of the United States and of a contractor or subcontractor in technical data pertaining to a product or process. Such regulations shall be included in regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation. Such regulations may not impair any right of the United States or of any contractor or subcontractor with respect to patents or copyrights or any other right in technical data otherwise established by law.

"(2) Such regulations shall include the following provisions:

"(A) In the case of a product or process that is developed by a contractor or subcontractor exclusively with Federal funds, the United States shall have the unlimited right to use, release, or disclose technical data pertaining to the product or process.

"(B) In the case of a product or process that is developed by a contractor or subcontractor exclusively at private expense, the contractor or subcontractor may limit the right to use, release, or disclose to persons outside the Government technical data pertaining to the product or process.

"(C) Notwithstanding subparagraph (B), the Government may use, release, or disclose technical data pertaining to a product or process to persons outside the Government if such technical data is otherwise publicly available or if—

"(i) such use, release, or disclosure—

"(I) is necessary for emergency repair and overhaul; or

"(II) is a use, release, or disclosure to a foreign government that is in the interest of the United States and is required for evaluational or informational purposes; and

"(ii) such use, release, or disclosure is made subject to a prohibition that the person to whom the data is released or disclosed may not further use, release, or disclose such data.

"(D) In the case of a product or process that is developed in part with Federal funds and in part at private expense, rights in technical data pertaining to such product or process shall be established as early in the acquisition process as practicable (preferably during contract negotiations), based upon consideration of the following factors:

"(i) The statement of congressional policy and objectives in section 200 of title 35, the statement of purposes in section 2(b) of the Small Business Innovation Development Act of 1982 (15 U.S.C. 638 note), and the declaration of policy in section 2 of the Small Business Act (15 U.S.C. 631).

"(ii) The interest of the United States in increasing competition and lowering costs by developing and locating alternative sources of supply and manufacture.

"(iii) The interest of the United States in encouraging contractors to develop at private expense items for use by the government.

"(E) A contractor or subcontractor, or a prospective contractor or subcontractor, that develops a product or process exclusively at private expense may not be required, as a condition of being responsive to a solicitation or as a condition for the award of a contract, to sell or otherwise relinquish to the United States any rights in technical data that would permit the use by, or release or disclosure of, such data to persons outside the Government except under the conditions described in paragraph (2)(C).

"(F) The Secretary of Defense may—

"(i) enter into a contract with a contractor or subcontractor for the acquisition of rights in technical data pertaining to a product or process developed by such contractor or subcontractor exclusively at private expense if necessary to develop alternative sources of supply and manufacture; or

"(ii) agree to limit rights of the United States in technical data pertaining to a product or process developed entirely or in part with Federal funds if the United States receives a royalty-free license to use, release, or disclose the data for purposes of the United States (including purposes of competitive procurement).

"(2) The Secretary of Defense shall include definitions of the terms 'developed' and 'pri-

vate expense' in regulations prescribed under paragraph (1).

"(3) In this subsection, the term 'Federal Acquisition Regulation' means the single system of Government-wide procurement regulations as defined in section 4(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(4)).".

(b) VALIDATION OF PROPRIETARY DATA RESTRICTIONS.—Subsections (a) and (b) of section 2321 of title 10, United States Code, are amended to read as follows:

"(a) A contract for supplies or services entered into by the Department of Defense which provides for the delivery of technical data shall provide that a contractor or subcontractor at any tier shall be prepared to furnish to the contracting officer a written justification for any restriction asserted by the contractor or subcontractor on the right of the United States to use such technical data.

"(b)(1) The Secretary of Defense shall ensure that there is a thorough review of the appropriateness of any restriction on the right of the United States to use, release, or disclose technical data delivered under a contract. Such review shall be conducted before the end of the three-year period beginning on the date on which final payment is made on a contract under which technical data is required to be delivered, or the date on which the technical data is delivered under such contract, whichever is later.

"(2)(A) If the Secretary determines, at any time before the end of the three-year period beginning on the date on which final payment is made on a contract under which technical data is required to be delivered, or the date on which the technical data is delivered under such contract, whichever is later, that a challenge to a restriction asserted in the contract is warranted, the Secretary shall provide written notice to the contractor or subcontractor asserting the restriction. Such a determination shall be based on a finding by the Secretary that reasonable grounds exist to question the current validity of the asserted restriction and that the continued adherence to the asserted restriction by the United States would make it impracticable to procure the item competitively at a later time. Such notice shall—

"(i) state the specific grounds for challenging the asserted restriction;

"(ii) require a response within 60 days justifying the current validity of the asserted restriction; and

"(iii) state that evidence of a validation by any agency of the Department of Defense of a restriction identical to the asserted restriction within the three-year period preceding the challenge shall serve as justification for the asserted restriction if—

"(I) the validation occurred after a review of the validated restriction under this subsection; and

"(II) the validated restriction was asserted by the same contractor or subcontractor to whom such notice is being provided.".

"(B) Notwithstanding subparagraph (A), if technical data delivered under a contract is otherwise publicly available, the United States may challenge a restriction on the use, release, or disclosure of such technical data at any time.".

(c) CONFORMING AMENDMENTS.—Section 1202 of the Department of Defense Authorization Act, 1985 (10 U.S.C. 2301 note), is amended—

(1) by inserting "and" at the end of paragraph (4);

(2) by striking out "; and" at the end of paragraph (5) and inserting in lieu thereof a period; and

(3) by striking out paragraph (6).

(d) DEADLINE FOR REVISION OF REGULATIONS.—The regulations required by section 2320(a)(1) of title 10, United States Code (as amended by subsection (a)), shall be prescribed not later than 180 days after the date of the enactment of this Act.

SEC. 914. PRICES FOR PRODUCTS SOLD COMMERCIALLY.

(a) ESTABLISHMENT OF COMMERCIAL PRICING REQUIREMENT.—

(1) IN GENERAL.—Section 2323 of title 10, United States Code, is amended to read as follows:

"§ 2323. Commercial pricing for items of supply

"(a) LIMITATION ON PRICE OF COMMERCIALLY AVAILABLE SUPPLIES.—Except in the case of an offer submitted with a written statement under subsection (b)(2) and except as provided in subsection (c), if the head of an agency, using procedures other than competitive procedures, enters into a contract with a contractor for the purchase of items which such contractor also offers for sale to the general public, the price charged the United States for such items under the contract may not exceed the lowest commercial price charged by the contractor in sales of such items to the general public, under similar circumstances, terms, and conditions, during a period described in subsection (b)(1).

"(b) REQUIREMENTS FOR INCLUSION IN OFFER.—The head of an agency, with respect to an offeror who submits an offer to the head of an agency to enter into a contract for the supply of items under a contract awarded using procedures other than competitive procedures, and who also offers such items for sale to the general public, shall require that the offeror—

"(1) certify in such offer that, to the best of the knowledge and belief of the offeror, the price proposed in the offer does not exceed the lowest commercial price at which such offeror sold such items during the most recent regular monthly, quarterly, or other period for which sales data are reasonably available; or

"(2) submit with such offer a written statement—

"(A) specifying the amount of the difference between the price proposed in the offer and the lowest commercial price at which such offeror sold such items during a period described in paragraph (1); and

"(B) providing a justification for that difference.

"(c) EXCEPTION TO LIMITATION.—Subsections (a) and (b) do not apply in the case of a contract with respect to which the contracting officer includes in the file on the contract a written determination by such officer that the use of the lowest commercial price with respect to such contract is not appropriate because of—

"(1) national security considerations; or

"(2) significant differences between the terms of the commercial sales of the items to be acquired under such contract and the terms of such contract, including differences in—

"(A) quantity;

"(B) quality;

"(C) delivery requirements; or

"(D) other terms and conditions.

"(d) AUDITING.—

"(1) IN GENERAL.—In order to verify any certification or statement made under subsection (b) with respect to a contract, the contracting officer who awards such contract, or any representative of the contracting officer who is an employee of the United States or a member of the armed forces, during the time period specified in paragraph (2), may examine and audit all records of sales (including contract terms and conditions) maintained by or for the contractor that are directly pertinent to such certification or statement.

"(2) TIME LIMITATION.—The head of an agency shall require an offeror who submits a certification or written statement under subsection (b) to make available the records, books, data, and documents described in paragraph (1) for examination, audit, or reproduction for the purposes of such paragraph during the three-year period beginning on the date that the offeror submits such certification or statement to such head of an agency.

"(3) EFFECT ON OTHER RIGHTS.—The authority established in this section is in addition to the authority of the head of an agency under section 2306(f) of this title.

"(e) REGULATIONS.—The Secretary of Defense, after consultation with the Secretary of Transportation and the Administrator of the National Aeronautics and Space Administration, shall prescribe regulations to carry out this section. Such regulations may not require the disclosure or submission of any data related to any element underlying the price of a commercial product not otherwise required by law.

"(f) LOWEST COMMERCIAL PRICE.—In this section, the term 'lowest commercial price' means the lowest price at which a sale was made to the general public of a particular item. Such term does not include the price at which a sale was made to—

"(1) to any agency of the United States;

"(2) a dealer, distributor, or original equipment manufacturer of the contractor, or any other remarketer unless the Government can demonstrate that the sale is under the same terms and conditions as a sale to a dealer, distributor, or original equipment manufacturer of the contractor, or any other remarketer;

"(3) a subsidiary, affiliate, or parent business organization of the contractor, or any other branch of the same business entity;

"(4) an educational institution if the item sold is to be used for educational purposes; or

"(5) a customer located outside the United States.

"(g) APPLICABILITY.—This section does not apply to a contract entered into utilizing simplified small purchase procedures established under section 2304(g) of this title.".

(2) CLERICAL AMENDMENT.—The table of sections for chapter 137 of such title is amended by striking out the item relating to section 2323 and inserting in lieu thereof the following:

"2323. Commercial pricing for items of supply.".

(b) EFFECTIVE DATE.—The Secretary of Defense shall prescribe regulations as required by section 2323(e) of title 10, United States Code (as amended by subsection (a)(1)), before the end of the 30-day period beginning on the date of the enactment of this Act.

SEC. 915. FUNDING OF PROCUREMENT TECHNICAL ASSISTANCE PROGRAMS SERVING DISTRESSED AREAS.

(a) DEFINITION.—Section 2411(2) of title 10, United States Code, is amended by striking out "entity' means an eligible entity (within the meaning of paragraph (1)(B))" and inserting in lieu thereof "area' means an area".

(b) SERVICE AREAS.—Section 2413(b) of such title is amended by striking out "is a distressed entity" and inserting in lieu thereof "serves a distressed area".

SEC. 916. EDUCATIONAL REQUIREMENTS FOR ACQUISITION PERSONNEL.

Section 1622(b)(1) of title 10, United States Code, is amended by striking out "attended" and inserting in lieu thereof "completed".

PART C—MISCELLANEOUS

SEC. 921. SAFEGUARDING OF MILITARY WHISTLEBLOWERS.

(a) FINDINGS.—The Congress makes the following findings:

(1) In the course of their duties, members of the Armed Forces may become aware of information evidencing wrongdoing or waste of funds.

(2) It is generally the duty of members of the Armed Forces to report such information through the chain of command.

(3) Reporting such information through the chain of command does not always result in correction and may, in some cases, be futile.

(4) Members of the Armed Forces who become aware of such information should be encouraged to disclose it to an Inspector General or Member of Congress if necessary.

(5) Members of the Armed Forces who disclose such information should be protected from adverse personnel consequences (or threats thereof) as a result of such disclosures.

(6) Members of the Armed Forces who believe they have been subject to retaliation (or the threat thereof) should have the right to a speedy Inspector General investigation and administrative review of their cases.

(b) WHISTLEBLOWER PROTECTION.—(1) Section 1034 of title 10, United States Code, relating to communicating with a Member of Congress, is amended to read as follows:

"§ 1034. Communicating with a Member of Congress or Inspector General

"(a) RESTRICTING COMMUNICATIONS WITH MEMBERS OF CONGRESS AND INSPECTORS GENERAL PROHIBITED.—

"(1) GENERAL RULE.—No person may restrict a member of an armed force in communicating with a Member of Congress or an Inspector General.

"(2) EXCEPTIONS.—Paragraph (1) does not apply to a communication that—

"(A) is unlawful; or

"(B) violates a regulation necessary to the security of the United States.

"(b) PROHIBITION OF RETALIATORY PERSONNEL ACTIONS.—No person may take (or threaten to take) an unfavorable personnel action, or withhold (or threaten to withhold) a favorable personnel action, as a reprisal against a member of an armed force for making or preparing a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted.

"(c) INSPECTOR GENERAL INVESTIGATION.—

"(1) INVESTIGATION OF CERTAIN ALLEGATIONS.—The Inspector General of the Department of Defense shall expeditiously investigate an allegation by a member of the armed forces that a reprisal prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication to a Member of Congress or an Inspector General making a complaint or disclosing information that the member of the armed forces reasonably believes evidences—

"(A) a violation of a law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(2) TIME FOR ALLEGATION.—The Inspector General is not required to make an investigation under paragraph (1) in the case of an allegation made more than 90 days after the reprisal (or threatened reprisal) that is the subject of the allegation.

"(3) INVESTIGATION OF SUBJECT MATTER OF DISCLOSURE.—If the Inspector General has not already done so, the Inspector General shall commence a separate investigation of the information that the member believes evidences wrongdoing as described in subparagraph (A) or (B) of paragraph (1).

"(4) REPORT.—Not later than 10 days after completion of an investigation under this subsection, the Inspector General shall submit a report on the results of the investigation to the Secretary of Defense. The Inspector General shall provide an unclassified copy of that report to the member concerned.

"(5) TIME FOR REPORT.—If, in the course of an investigation of an allegation under this section, the Inspector General determines that it is not possible to submit the report required by paragraph (2) within 30 days of the date of receipt of the allegation being investigated, the Inspector General shall provide to the Secretary of Defense and to the member making the allegation a notice—

"(A) of that determination (including the reasons why the report may not be submitted within that time); and

"(B) of the time when the report will be submitted.

"(6) CONTENT OF REPORT.—The report on the results of the investigation shall contain a thorough review of the facts and circumstances relevant to the allegation and the complaint or disclosure and shall include documents acquired during the course of the investigation, including summaries of interviews conducted. If a person agrees to be interviewed only on the condition that the person's identity not be disclosed, the report shall not contain any information about such interview. The report shall contain no findings of disputed fact or recommendations as to the disposition of the complaint.

"(7) DELEGATION.—The Inspector General of the Department of Defense may delegate any function, power, or duty of the Inspector General under this subsection to any other Inspector General in the Department of Defense.

"(d) CORRECTION OF RECORDS.—

"(1) BOARDS FOR CORRECTION OF MILITARY RECORDS.—In resolving an allegation made by a member of an armed force to whom the Inspector General has reported under subsection (c), a correction board acting under section 1552 of this title, on the request of the member or otherwise, may—

"(A) direct further investigation;

"(B) direct the production of evidence;

"(C) direct the examination of witness;

"(D) receive oral argument; or

"(E) direct or conduct an evidentiary hearing.

"(2) LEGAL ASSISTANCE.—A member to whom the Inspector General has reported under subsection (c) is entitled to the assistance of a judge advocate in filing a petition for correction under section 1552 of this title.

"(3) BOARD DECISIONS.—The Board shall issue a final decision with respect to the petition within 120 days after the filing of such petition. If the Board fails to issue such a final decision within such time, the member shall be deemed to have exhausted administrative remedies under section 1552 of this title to the extent that such exhaustion may be required in any judicial proceeding concerning the relief sought in the petition for correction. The decision of the Board shall be in writing and shall include findings of fact and a statement of reasons. The Board shall cause its decision to be served on the petitioner by first class mail to the address listed in the petition for correction within 10 days of the date of the decision. A determination by the Board by a preponderance of the evidence that a personnel action adversely affecting a member would not have been taken in the absence of a complaint or disclosure of information described in subsection (c)(1) shall constitute a determination of a prohibited retaliatory personnel action under subsection (b).

"(4) CORRECTIVE ACTION.—The Board shall order such action as is necessary to correct the record and the effect of a prohibited retaliatory personnel action.

"(5) DISCIPLINARY ACTION.—If the Board determines that a prohibited retaliatory personnel action, as defined in subsection (b), has occurred, the Board shall refer the record of the matter to the officer exercising general court-martial jurisdiction over the person who committed the prohibited retaliatory personnel action.

"(e) REGULATIONS.—The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, shall prescribe regulations to carry out this section. Such regulations shall include regulations for which violations are subject to section 892 of this title (article 92 of the Uniform Code of Military Justice).".

(2) The item relating to such section in the table of sections at the beginning of chapter 53 of such title is amended to read as follows:

"1034. Communicating with a Member of Congress or Inspector General.".

(c) DEADLINE FOR REGULATIONS.—The Secretary of Defense and the Secretary of Transportation shall prescribe regulations required by subsection (e) of section 1034 of title 10, United States Code, as added by subsection (a), not later than 120 days after the date of the enactment of this Act.

SEC. 922. PROTECTION OF CONTRACTOR EMPLOYEES FROM REPRISAL FOR DISCLOSURE OF CERTAIN INFORMATION.

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Contractor employees: protection from reprisal for disclosure of certain information

"(a) PROHIBITION OF REPRISALS.—(1) A contractor of the Department of Defense may not take a reprisal action against any officer or employee of that contractor for disclosing to an appropriate Government official information relating to a contract (or the negotiation or competition for a contract) between such contractor and the Department of Defense which the officer or employee reasonably believes evidences—

"(A) a violation of law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(2) In this section, the term 'appropriate Government official' includes—

"(A) an officer or employee of the Department of Defense;

"(B) a Member of Congress or an officer or employee of Congress, the General Accounting Office, the Congressional Budget Office, or the Office of Technology Assessment;

"(C) any other officer or employee of the United States whose duties include the investigation or enforcement of any law, rule, or regulation relating to defense acquisition; and

"(D) a member or employee of any authorized commission established for purposes related to defense acquisition.

"(b) REMEDIES.—(1) An officer or employee of a defense contractor who believes that such officer or employee has been subject to a reprisal prohibited by subsection (a) may file a complaint with the Secretary of Defense.

"(2)(A) Under procedures prescribed by the Secretary of Defense by regulation, the Secretary shall investigate each complaint filed under paragraph (1).

"(B) If, after an investigation under subparagraph (A), the Secretary believes there is a reasonable likelihood that a reprisal prohibited by subsection (a) has occurred, the Secretary shall provide the contractor with an opportunity to show cause why the Secretary should not order corrective action and assess penalties under subparagraph (C).

"(C) If, after considering the presentation of the contractor under subparagraph (B), the Secretary finds that a reprisal prohibited by subsection (a) has occurred, the Secretary shall—

"(i) order the contractor to take action to eliminate the adverse effect of the reprisal on the complainant; and

"(ii) assess a monetary penalty against such contractor.

"(D) The Secretary shall impose penalties, which may include monetary fines and debarment from further contracts, against any contractor who fails to comply promptly with an order of the Secretary under subparagraph (C).

"(E) The Secretary shall issue a decision on a complaint filed under paragraph (1) within 45 days of receipt of the complaint.

"(3)(A) The decision of the Secretary under paragraph (2) shall be a final agency action for purposes of chapter 7 of title 5.

"(B) Failure of the Secretary to decide on a complaint within the period provided in paragraph (2)(E) shall be deemed to be final agency action for purposes of chapter 7 of title 5.

"(C) In any action brought under chapter 7 of title 5 related to a reprisal under subsection (a), a court may assess against the defense contractor, or against the United States, reasonable attorney fees and other litigation costs reasonably incurred by an officer or employee of the contractor who substantially prevails in such action.

"(c) REGULATIONS.—The Secretary of Defense shall prescribe regulations to carry out this section (other than subsection (b)(3)). Such regulations shall provide that any firm which negotiates with the Department of Defense for a contract or competes for a Department of Defense contract thereby submits to the jurisdiction of the Secretary of Defense for purposes of this section.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2408. Contractor employees: protection from reprisal for disclosure of certain information.".

(b) INITIAL REGULATIONS.—The Secretary of Defense shall prescribe the regulations required by subsection (c) of section 2408 of title 10, United States Code, as added by subsection (a), not later than the end of the 90-day period beginning on the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Section 2408 of title 10, United States Code, as added by subsection (a), shall apply with respect to any reprisal action taken on or after the date of the enactment of this Act.

SEC. 923. COST AND PRICE MANAGEMENT.

(a) REPEAL.—Section 2406 of title 10, United States Code, is repealed.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 141 of such title is amended by striking out the item relating to section 2406.

SEC. 924. FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS.

(a) INCREASED USE OF COMPETITIVE PROCEDURES.—Except as provided in subsection (b), the Secretary of Defense may not place work with a federally funded research and development center unless such work is within the purpose, mission, and general scope of effort of such center as established in the sponsoring agreement with such center.

(b) EXCEPTION.—This section does not apply to a federally funded research and development center that performs applied scientific research under laboratory conditions.

(c) STUDY.—The Comptroller General shall conduct a study of the national defense role of federally funded research and development centers. Such study shall consider the following:

(1) The appropriate circumstances for establishing such centers.

(2) The role presently served by such centers in the procurement process of the Department of Defense.

(3) The growth in the size of such centers during fiscal years 1982 through 1986.

(4) The validity of typical reasons given for such growth.

(5) The cost efficiency of such centers, particularly in comparison with other suppliers of similar services.

(6) The appropriateness of the exemption of contracts with such centers from the competitive procedures required by section 2304 of title 10, United States Code.

(7) The relationship of such centers to their sponsors.

(d) REPORT.—(1) The Comptroller General shall submit to Congress a report on the study required by subsection (a). Such report shall include a discussion of each of the matters listed in subsection (a).

(2) The report required by paragraph (1) shall be submitted not later than one year after the date of the enactment of this Act.

(e) LIMITATION.—No funds appropriated pursuant to authorizations in this or any other Act may be expended or obligated on or after the date of the enactment of this Act for purposes of operating a federally funded research center that was not in existence on or before June 1, 1986, until the end of the 60-day period beginning on the date that the head of an agency submits to Congress a report with respect to such center that describes the purpose, mission, and general scope of effort of such center.

## TITLE X—GENERAL PROVISIONS

SEC. 1001. TRANSFER AUTHORITY.

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division between any such authorizations (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations that the Secretary of Defense may transfer under the authority of this section may not exceed $2,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) EFFECT ON OBLIGATION LIMITATIONS.—A transfer made under the authority of this section—

(1) increases by the amount of the transfer the obligation limitation provided in this division on the account (or other amount) to which the transfer is made; and

(2) decreases by the amount of the transfer the obligation limitation provided in this division on the account (or other amount) from which the transfer is made.

(d) NOTICE TO CONGRESS.—The Secretary of Defense shall promptly notify Congress of transfers made under the authority of this section.

SEC. 1002. LIMITATION ON OBLIGATION OF UNAUTHORIZED DEFENSE APPROPRIATIONS.

(a) IN GENERAL.—(1) Part I of subtitle A of title 10, United States Code, is amended by redesignating chapter 9 as chapter 10 and inserting after chapter 8 the following new chapter:

"CHAPTER 9—OBLIGATION OF APPROPRIATIONS

"Sec.
"211. Unauthorized defense appropriations: limitation on obligation; definition.
"212. Appropriated amounts available for obligation: limitation with respect to unauthorized programs, projects, and activities.
"213. Contingent general continuing authorization for Department of Defense operations.
"214. Exclusion of permanent appropriations and trust funds.
"215. Unauthorized defense appropriations: waiver of Impoundment Control Act.
"216. Exemption of National Security Act of 1947.
"217. Rule of construction.
"218. Definition: defense appropriation.

"§ 211. Unauthorized defense appropriations: limitation on obligation; definition

"(a) LIMITATION ON OBLIGATIONS.—An unauthorized defense appropriation may not be obligated—

"(1) except as provided in section 213(b) of this title; or

"(2) unless (and only to the extent that) the obligation of such appropriation is specifically authorized by law after the enactment of such appropriation.

"(b) SPECIFICATION OF UNAUTHORIZED APPROPRIATIONS.—A defense appropriation is unauthorized to the extent it is made without having been authorized by law as required by section 138(a) of this title.

**"§ 212. Appropriated amounts available for obligation: limitation with respect to unauthorized programs, projects, and activities**

"(a) REDUCTION IN AMOUNTS AVAILABLE FOR OBLIGATION ATTRIBUTABLE TO UNAUTHORIZED PROGRAMS, PROJECTS, AND ACTIVITIES.—(1) Of any amount appropriated to the Department of Defense in an appropriation Act, the amount that may be obligated or expended is the amount appropriated reduced by any amount determined with respect to that appropriation under paragraph (2)(B).

"(2) After the enactment of a law making a defense appropriation, the Secretary of Defense shall determine, with respect to each defense appropriation provided in such law—

"(A) whether any part of such appropriation provides funds for an unauthorized program, project, or activity (as defined in subsection (c)); and

"(B) if there are funds provided as part of any such appropriation for an unauthorized program, project, or activity, the total amount of funds provided under such appropriation for all such unauthorized programs, projects, and activities.

"(3) A determination under paragraph (2) shall be made with respect to a defense appropriation for a fiscal year immediately after enactment of the law making that appropriation. However, if as of the enactment of such law there has not been enacted a law specifically authorizing appropriations for that fiscal year for the purposes named in section 138(a) of this title, such determination shall be made immediately after enactment of such an authorization law.

"(4) Not later than 30 days after the enactment of such an appropriation or authorization law (whichever is applicable), the Secretary shall submit to Congress a report identifying—

"(A) any unauthorized program, project, or activity; and

"(B) any amount determined under paragraph (2)(B).

"(b) COMPTROLLER GENERAL REVIEW AND REPORT.—(1) The Comptroller General shall promptly review each report of the Secretary under subsection (a). The Comptroller General shall submit a report to Congress if the Comptroller General determines—

"(A) that the law with respect to which the Secretary submitted a report provides appropriations for an unauthorized program, project, or activity in addition to those identified in the report of the Secretary; or

"(B) that a program, project, or activity identified in that report as an unauthorized program, project, or activity is not unauthorized.

"(2) A report under paragraph (1)—

"(A) shall identify those defense appropriations, and programs, projects, and activities under appropriations, with respect to which the Comptroller General made determinations under subparagraphs (A) and (B), respectively, of such paragraph; and

"(B) shall include such comments and recommendations as the Comptroller General considers appropriate.

"(3) Such a report shall be submitted not later than 30 days after the date on which the report of the Secretary under subsection (a) is received by Congress.

"(c) UNAUTHORIZED PROGRAM, PROJECT, OR ACTIVITY DEFINED.—In this section, the term 'unauthorized program, project, or activity' means a program, project, or activity of the Department of Defense for which an amount is provided under a defense appropriation (whether or not specified in the appropriation Act concerned) in an amount greater than the amount authorized by law to be appropriated for such program, project, or activity (whether or not such authorized amount is specified by law), determined by taking into consideration statutory language, legislative history, and budget documents submitted to Congress by the Department of Defense.

**"§ 213. Contingent general continuing authorization for Department of Defense operations**

"(a) GENERAL RULE.—If as of the first day of a fiscal year there has not been enacted a law specifically authorizing appropriations for that fiscal year for a purpose named in section 138(a) of this title, then funds appropriated or otherwise made available for that fiscal year and for that purpose may not be obligated except as provided in subsections (b) and (c).

"(b) RATE AT WHICH OPERATING FUNDS MAY BE OBLIGATED UNDER GENERAL CONTINUING AUTHORITY.—(1) Funds described in subsection (a) that are appropriated or otherwise made available for a purpose named in paragraph (2) may be obligated at the rate which is the least of the following:

"(A) The rate at which those funds may be obligated as provided under the law appropriating those funds.

"(B) The rate at which funds could be obligated for that purpose for the previous fiscal year.

"(C) The rate at which funds could be obligated if appropriated as requested for that purpose in the President's Budget for the fiscal year concerned.

"(2) Paragraph (1) applies with respect to funds appropriated for any of the following purposes:

"(A) Civilian pay.

"(B) Operation and maintenance activities.

"(C) Continuing research, development, test, and evaluation activities.

"(c) RULE UPON SUBSEQUENT ENACTMENT OF AN AUTHORIZATION.—If subsection (a) is applicable to funds appropriated or otherwise made available for a fiscal year for a purpose described in section 138(a) of this title, then upon the enactment of a law specifically authorizing appropriations for that fiscal year for such purpose—

"(1) this section shall cease to apply with respect to those funds; and

"(2) such funds may be obligated subject to section 211 of this title.

**"§ 214. Exclusion of permanent appropriations and trust funds**

"The provisions of this chapter do not apply to, or affect in any manner, permanent appropriations, trust funds, and other similar accounts administered by the Department of Defense as authorized by law.

**"§ 215. Unauthorized defense appropriations: waiver of Impoundment Control Act**

The provisions of the Impoundment Control Act of 1974 (2 U.S.C. 681 et seq.) do not apply to an unauthorized defense appropriation.

**"§ 216. Exemption of National Security Act of 1947**

"Nothing in this chapter shall be considered to affect the application of section 502 of the National Security Act of 1947 (50 U.S.C. App. 413).

**"§ 217. Rule of construction**

"A provision of law does not supersede this chapter unless it does so by specifically referring to this section and stating that it supersedes this chapter.

**"§ 218. Definition: defense appropriation**

"In this chapter, the term 'defense appropriation' means an amount appropriated or otherwise made available by Congress in an appropriation law for one of the purposes stated in section 138(a) of this title.".

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part I of subtitle A, of title 10, United States Code, are amended by striking out the item relating to chapter 9 and inserting in lieu thereof the following:

"9. Obligation of Appropriations ..... 211.
"10. Regular Components .....[no present sections]".

(b) RESTATEMENT OF REQUIREMENT OF AUTHORIZATION OF DEFENSE APPROPRIATIONS.—(1) Subsection (a) of section 138 of title 10, United States Code, is amended to read as follows:

"(a) Funds may not be appropriated for any fiscal year for the military functions of the Department of Defense for any of the following purposes unless such funds are specifically authorized by law:

"(1) Procurement.

"(2) Research, development, test, or evaluation (or acquisition or production related thereto).

"(3) Operation and maintenance.

"(4) A working-capital fund established under section 2208 of this title.

"(5) Military construction (as defined in subsection (f)).".

(2) The second sentence of section 2208(d) of such title is amended to read as follows: "Further amounts may be provided for working capital-funds from appropriations made for that purpose.".

(c) EFFECTIVE DATE.—Chapter 9 of title 10, United States Code, as added by subsection (a), shall apply with respect to funds appropriated for fiscal years after fiscal year 1986.

SEC. 1003. DEBT COLLECTION.

(a) IN GENERAL.—Chapter 165 of title 10, United States Code, is amended by adding at the end the following new section:

**"§ 2780. Debt collection**

"(a)(1) Subject to paragraph (2), the Secretary of Defense shall enter into one or more contracts with a person for collection services to recover indebtedness owed to the United States Government (arising out of activities related to Department of Defense) that is delinquent by more than three months.

"(2) The authority of the Secretary to enter into a contract under this section for any fiscal year is subject to the availability of appropriations.

"(3) Any such contract shall provide that the person submit to the Secretary a status report on the person's success in collecting such debts at least once each six months. Section 3718 of title 31 shall apply to any such contract, to the extent not inconsistent with this subsection.

"(b) The Secretary shall disclose to consumer reporting agencies, in accordance with paragraph (1) of section 3711(f) of title 31, information concerning any debt described in subsection (a) of more than $100 that is delinquent by more than 31 days.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2780. Debt collection.".

SEC. 1004. LIMITATION ON CERTAIN SPENDING AUTHORITY.

A provision of this Act (including an amendment made by this Act) under which the United States is obligated to make pay-

ments to a person or government who meets the requirements established by law for such payments may only be construed as providing authority to make such payments if the budget authority for such payments is provided for in advance by appropriation Acts.

PART B—SPECIAL OPERATIONS MATTERS

SEC. 1011. ESTABLISHMENT OF NATIONAL SPECIAL OPERATIONS AGENCY.

(a) SHORT TITLE.—This section may be cited as the "Dan Daniel Special Operations Forces Act".

(b) AGENCY CHARTER.—Chapter 8 of title 10, United States Code, is amended—

(1) by redesignating section 191 as section 192; and

(2) by inserting after the table of sections the following new section:

"§ 191. National Special Operations Agency

"(a) ESTABLISHMENT.—(1) There is hereby established in the Department of Defense the National Special Operations Agency (hereinafter in this section referred to as the 'Agency'). The head of the Agency shall be a Director, who shall be appointed by the President, by and with the advice and consent of the Senate. The Director may not be an officer of the armed forces on the active-duty list.

"(2) The Director reports directly to the Secretary of Defense and has rank in the Department of Defense equivalent to that of an Assistant Secretary of Defense. The Director is the principal adviser to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff for all matters pertaining to special operations forces and activities.

"(b) AUTHORITY OF DIRECTOR.—Subject to the authority, direction, and control of the President and the Secretary of Defense, the Director—

"(1) shall exercise command and operational control of all special operations forces (including reserve component forces) of the Department of Defense (other than those forces assigned or allocated to a unified combatant command); and

"(2) shall be responsible for—

"(A) all training, exercises, plans, and doctrine of the Department of Defense relating to special operations, including professional military education and preparation for joint staff assignments; and

"(B) all special operations activities (including special operations missions) assigned to elements of the Department of Defense by the President or Secretary of Defense.

"(c) DEPUTY DIRECTORS.—(1) There shall be not less than three Deputy Directors of the Agency. The Deputy Directors shall include—

"(A) a Deputy Director for Policy, who shall be a civilian;

"(B) a Deputy Director for Programs, who may be a civilian or an officer on the active-duty list; and

"(C) a Deputy Director for Operations, who shall be an officer on the active-duty list and who shall serve in such position in a grade above major general or rear admiral, if appointed to such grade by the President for service in such position under section 601 of this title.

"(2) Deputy Directors shall be selected by the Director, except that officers on the active-duty list shall be selected by the Director in accordance with procedures approved by the Secretary of Defense.

"(d) ASSIGNED FORCES.—(1) Notwithstanding any other provision of law, the Secretary of Defense shall provide that all special operations forces shall be assigned to the Agency. The Secretary may assign or allocate such forces from the Agency to a combatant command.

"(2) Forces assigned to the Agency shall be organized as the Joint Special Operations Command. The Deputy Director for Operations of the Agency shall be the commander of the Joint Special Operations Command.

"(e) THEATER SPECIAL OPERATIONS FORCES.—(1) The Director shall assign to each unified combatant command an officer to serve as the theater special operations commander. Such officer shall also be the liaison of the Agency to the commander of the command. The theater special operations commander assigned to a unified combatant command is under the command of the commander of that command, and the assignment of an officer to a position as theater special operations commander is subject to the approval of the commander of the command.

"(2) The commander of a unified combatant command exercises command and operational control of special operations forces assigned or allocated to that command. Except in the case of elements of the Navy assigned to fleet operations, such operational control shall be exercised through the theater special operations commander.

"(f) BUDGET MATTERS.—(1) The Secretary of Defense shall provide that the budget justification documents of the Department of Defense for any fiscal year shall be prepared so that the presentation of major force programs in those documents sets out funding for all activities and elements of the Agency as a separate major force program category.

"(2) The responsibility for preparation, justification, and execution of budgets for the Agency shall be vested solely in the Director. The Director shall carry out such functions in accordance with guidance furnished by the Secretary of Defense and, in carrying out such functions, shall consider the views and recommendations of the commanders of the combatant commands.

"(g) PERSONNEL.—The Director shall have the authority to select, train, and assign military and civilian personnel of the Agency (including the personnel of forces assigned to the Agency).

"(h) UNAUTHORIZED ACTIVITIES.—This section does not constitute authority to conduct any activity which, if carried out as an intelligence activity by the Department of Defense, would require—

"(1) a finding under section 662 of the Foreign Assistance Act of 1961 (22 U.S.C. 2422); or

"(2) a notice to the intelligence committees under section 501(a)(1) of the National Security Act of 1947 (50 U.S.C. 413).

"(i) REGULATIONS.—The Secretary of Defense shall prescribe regulations for the activities of the Agency. Those regulations shall include provisions authorizing the Director to provide for operational security of special operations forces and activities. The regulations may not authorize the Agency to engage in clandestine foreign intelligence collection or (except in time of war) in covert action activities.

"(j) SPECIAL OPERATIONS FORCES DEFINED.—(1) Except as provided in paragraph (2), the term 'special operations forces', for the purposes of this section, means those forces of the armed forces that—

"(A) are identified as core forces or as augmenting forces in the Joint Chiefs of Staff Joint Strategic Capabilities Plan, Annex E, dated December 17, 1985;

"(B) are described in the Terms of Reference and Conceptual Operations Plan for the Joint Special Operations Command, as in effect on April 1, 1986; or

"(C) are designated as special operations forces by the Secretary of Defense.

"(2) Subject to paragraph (3), the term 'special operations forces' does not include forces identified, described, or designated under paragraph (1) that the Director (in conjunction with the Chairman of the Joint Chiefs of Staff) determines—

"(A) are augmenting forces (rather than core forces); and

"(B) are not necessary to the performance of nonpriority special operations activities.

"(3) When required by the Director, forces described in paragraph (2)—

"(A) shall immediately be assigned or otherwise made available to the Director; and

"(B) shall be considered to be special operations forces for the purposes of this section. The Secretary of Defense shall ensure that this paragraph is implemented so as to give the Director clear and unambiguous authority under the preceding sentence.

"(k) SPECIAL OPERATIONS ACTIVITIES DEFINED.—In this section, the term 'special operations activities' includes each of the following insofar as it relates to special operations:

"(1) Direct action.

"(2) Strategic reconnaissance.

"(3) Unconventional warfare.

"(4) Foreign internal defense.

"(5) Civil affairs.

"(6) Psychological operations.

"(7) Counterterrorism.

"(8) Drug interdiction (including coordination with other Government agencies).

"(9) Humanitarian assistance.

"(10) Theater search and rescue.

"(11) Such other matters as may be specified by the President or Secretary of Defense.".

(c) CLERICAL AMENDMENTS.—The table of sections at the beginning of such chapter is amended—

(1) by redesignating the item relating to section 191 to conform to the redesignation made by paragraph (1)(A); and

(2) by inserting before such item the following new item:

"191. National Special Operations Agency.".

(d) IMPLEMENTATION.—

(1) DIRECTOR.—The nomination of an individual for appointment as Director of the National Special Operations Agency shall be made by the President not later than 30 days after the date of the enactment of this Act.

(2) AGENCY.—The establishment of the National Special Operations Agency, including the assignment of forces to the Agency, shall be completed not later than six months after the date of the enactment of this Act.

(3) INITIAL FUNDING.—The Secretary of Defense may spend unobligated funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 in such sums as necessary in order to carry out this section and section 191 of title 10, United States Code, as added by subsection (a).

(4) PERSONNEL.—The Secretary of Defense shall provide that the initial assignment of personnel to the Agency (including military and civilian personnel) shall, to the maximum extent practicable, be made from among personnel assigned to the headquarters staffs of the Department of Defense, military departments, and military services (including the Joint Staff) whose functions are rendered redundant by the establishment of the Agency.

SEC. 1012. SPECIAL OPERATIONS AIRLIFT READINESS.

(a) CONFIGURATION CONTROL OF SPECIAL OPERATIONS AIRCRAFT.—Funds appropriated or otherwise made available to the Department of Defense for fiscal year 1987 for the development, modification, or procurement of special operations and combat rescue aircraft shall be obligated and expended subject to the following requirements:

(1) PAVE LOW MODIFICATION.—The Secretary of the Air Force shall develop a plan that provides that, during the modification of the airframes for the HH-53H helicopters, there will be a transition from the Pave Low III Enhanced configuration to the Pave Low IV (HH-60H Nighthawk) configuration.

(2) HH-60A/MH-60X DEVELOPMENT.—The Secretary of Defense shall designate the Air Force as the Executive Agent—

(A) for the development of a joint-service HH-60A/MH-60X aircraft variant for special operations and combat rescue missions; and

(B) to ensure maximum commonality and economic procurement for an avionics suite to be adapted to the variant airframe selected by the Navy for those missions.

(3) MH-47E DEVELOPMENT.—The Secretary of the Army shall carry out further development of the MH-47E special operations variant of the CH-47D helicopter—

(A) subject to full and open competition; and

(B) so that such helicopter is configured to maximum commonality between a MH-47E and the joint-service HH-60A/MH-60X and Pave Low IV aircraft, as provided in paragraphs (1) and (2).

(4) CV-22A OSPREY AND MC-130H SYSTEMS.—The Secretary of the Navy shall carry out development of the special operations variant of the CV-22A Osprey tilt-rotor aircraft so that—

(A) such development is expedited to the maximum extent possible; and

(B) the configuration of such aircraft is conformed to the maximum extent possible with that of the aircraft referred to in paragraphs (1), (2), and (3) and the MC-130H Combat Talon II aircraft currently in production.

(b) AIR FORCE HH-60A AIRCRAFT.—The Secretary of the Air Force shall retain the initial HH-60A test aircraft in its existing configuration and shall make such aircraft available as necessary for joint-service testing purposes until sufficient numbers of aircraft under the programs referred to in paragraphs (1) through (4) of subsection (a) have been produced in a common configuration to make continued use of such HH-60A aircraft for such testing purposes unnecessary. At such time, such aircraft may be assigned for operational use in an Air Force special operations/combat rescue squadron.

PART C—REPORTS

SEC. 1021. REPORT ON CHEMICAL WEAPONS DEMILITARIZATION PROGRAM.

(a) REPORT REQUIREMENT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the chemical weapons demilitarization program required by section 1412 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 747). The report shall describe—

(1) methods for carrying out such program that would optimize safety considerations; and

(2) methods for carrying out such program that would optimize cost-effectiveness considerations.

(b) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than February 1, 1987.

PART D—MISCELLANEOUS

SEC. 1031. USE OF MARINE MAMMALS FOR NATIONAL DEFENSE PURPOSES.

(a) IN GENERAL.—Chapter 645 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 7524. Use of marine mammals for national defense purposes

"(a) IN GENERAL.—Notwithstanding the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) and subject to subsection (b), the Secretary of Defense, with the concurrence of the Secretary of Commerce and after consultation with the Marine Mammal Commission established by section 201 of such Act (16 U.S.C. 1401), may authorize the taking of not more than 25 marine mammals each year for national defense purposes. Any mammal taken under this section shall be captured, supervised, cared for, transported, and deployed in a humane manner consistent with conditions established by the Secretary of Commerce.

"(b) RESTRICTIONS.—A mammal may not be taken under this section if such mammal is determined to be a member of an endangered or threatened species under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533).".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new subsection:

"7524. Use of marine mammals for national defense purposes.".

SEC. 1032. CONTRACT SET-ASIDE REQUIREMENTS.

(a) SET-ASIDE REQUIREMENT.—Except as provided in subsection (c), not less than five percent of the amount described in subsection (b) shall be obligated during any fiscal year for contracts entered into with—

(1) small business concerns owned and controlled by socially and economically disadvantaged individuals (as defined by section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and regulations issued under such section);

(2) historically black colleges and universities; or

(3) minority institutions (as defined by the Secretary of Education pursuant to the General Education Provisions Act (20 U.S.C. 1221 et seq.).

(b) AMOUNT TO BE SET ASIDE.—The amount referred to in subsection (a) for any fiscal year is the total of the following amounts:

(1) Funds appropriated to the Department of Defense for such fiscal year for procurement.

(2) Funds appropriated to the Department of Defense for such fiscal year for research, development, test, and evaluation.

(3) Funds appropriated to the Department of Defense for such fiscal year for military construction.

(c) APPLICABILITY.—Subsection (a) does not apply—

(1) to the extent to which the Secretary of Defense determines that compelling national security considerations require otherwise; and

(2) if the Secretary making such a determination notifies Congress of such determination and the reasons for such determination.

(d) ANNUAL REPORT.—(1) Not later than May 1 of each fiscal year, the Secretary of Defense shall submit to Congress a report on the compliance of the Secretary with the requirements of subsection (a) during the preceding fiscal year. Each such report shall include—

(A) a full explanation of any failure to comply with such requirements; and

(B) a plan to remedy such failure.

(2) The first report required by subsection (a) shall be submitted not later than May 1, 1987.

## DIVISION B—MILITARY CONSTRUCTION AUTHORIZATION

SEC. 2001. SHORT TITLE.

This division may be cited as the "Military Construction Authorization Act, 1987".

## TITLE I—ARMY

SEC. 2101. AUTHORIZED ARMY CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES ARMY FORCES COMMAND

Camp Dawson, West Virginia, $8,700,000.
Fort Bragg, North Carolina, $24,600,000.
Fort Campbell, Kentucky, $21,240,000.
Fort Carson, Colorado, $11,300,000.
Fort Devens, Massachusetts, $20,800,000.
Fort Drum, New York, $615,000,000.
Fort Hood, Texas, $13,350,000.
Fort Irwin, California, $820,000.
Fort Lewis, Washington, $25,980,000.
Fort McPherson, Georgia, $2,900,000.
Fort Ord, California, $6,550,000.
Fort Polk, Louisiana, $27,000,000.
Fort Riley, Kansas, $12,500,000.
Fort Sam Houston, Texas, $3,700,000.
Fort Sheridan, Illinois, $2,050,000.
Fort Stewart, Georgia, $1,550,000.

UNITED STATES ARMY WESTERN COMMAND

Wheeler Army Air Field, Hawaii, $2,900,000.
Various locations, Hawaii, $12,000,000.

UNITED STATES ARMY TRAINING AND DOCTRINE COMMAND

Carlisle Barracks, Pennsylvania, $800,000.
Fort Belvoir, Virginia, $5,600,000.
Fort Benning, Georgia, $16,180,000.
Fort Eustis, Virginia, $2,050,000.
Fort Jackson, South Carolina, $1,300,000.
Fort Knox, Kentucky, $3,200,000.
Fort Leavenworth, Kansas, $1,100,000.
Fort Lee, Virginia, $17,600,000.
Fort Leonard Wood, Missouri, $43,200,000.
Fort McClellan, Alabama, $540,000.
Fort Rucker, Alabama, $44,500,000.
Fort Story, Virginia, $2,700,000.

UNITED STATES ARMY MATERIEL COMMAND

Aberdeen Proving Ground, Maryland, $42,750,000.
Anniston Army Depot, Alabama, $1,950,000.
Badger Army Ammunition Plant, Wisconsin, $980,000.
Corpus Christi Army Depot, Texas, $10,650,000.
Detroit Arsenal, Michigan, $1,350,000.
Dugway Proving Ground, Utah, $12,900,000.
Fort Monmouth, New Jersey, $4,900,000.
Fort Wingate, New Mexico, $350,000.
Harry Diamond Laboratory, Maryland, $680,000.
Letterkenny Army Depot, Pennsylvania, $1,900,000.
Lexington-Blue Grass Depot Activity, Kentucky, $540,000.
Navajo Army Depot, Arizona, $3,900,000.
Pueblo Depot Activity, Colorado, $600,000.
Red River Army Depot, Texas, $1,350,000.
Redstone Arsenal, Alabama, $19,500,000.

Savanna Army Depot, Illinois, $320,000.
Seneca Army Depot, New York, $1,100,000.
Sierra Army Depot, California, $2,450,000.
Tooele Army Depot, Utah, $1,850,000.
Umatilla Army Depot, Oregon, $1,050,000.
Yuma Proving Ground, Arizona, $820,000.

UNITED STATES ARMY INFORMATION SYSTEMS COMMAND

Fort Huachuca, Arizona, $17,200,000.

UNITED STATES MILITARY ACADEMY

U.S. Military Academy, New York, $24,500,000.

MILITARY TRAFFIC MANAGEMENT COMMAND

Sunny Point Military Ocean Terminal, North Carolina, $650,000.

ASSISTANT CHIEF OF ENGINEERS

Classified, United States, $7,400,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

UNITED STATES ARMY, JAPAN

Kawakami, Japan, $1,200,000.

EIGHTH UNITED STATES ARMY

Camp Carroll, Korea, $1,740,000.
Camp Casey, Korea, $24,940,000.
Camp Castle, Korea, $4,800,000.
Camp Essayons, Korea, $3,000,000.
Camp Greaves, Korea, $3,650,000.
Camp Hovey, Korea, $9,000,000.
Camp Howze, Korea, $5,850,000.
Camp Humphreys, Korea, $16,100,000.
Camp Jackson, Korea, $1,800,000.
Camp Laguardia, Korea, $2,970,000.
Camp Libby, Korea, $1,100,000.
Camp Liberty Bell, Korea, $780,000.
Camp Long, Korea, $5,600,000.
Camp Market, Korea, $540,000.
Camp Nimble, Korea, $1,950,000.
Camp Page, Korea, $1,400,000.
Camp Pelham, Korea, $2,280,000.
Camp Red Cloud, Korea, $4,550,000.
Camp Stanley, Korea, $4,700,000.
H220, Korea, $2,750,000.
K-16 Army Airfield, Korea, $2,520,000.
Pusan, Korea, $12,940,000.
Second Infantry, Korea, $5,150,000.
Taegu, Korea, $4,900,000.
Yongsan, Korea, $8,760,000.

UNITED STATES ARMY STRATEGIC DEFENSE COMMAND

Kwajalein, $20,600,000.

UNITED STATES ARMY FORCES COMMAND, OVERSEAS

Classified, $4,000,000.

UNITED STATES ARMY EUROPE AND SEVENTH ARMY

Ansbach, Germany, $1,790,000.
Aschaffenburg, Germany, $7,000,000.

UNITED STATES ARMY INTELLIGENCE AND SECURITY COMMAND, OVERSEAS

Location 177, $1,950,000.
Location 276, $3,700,000.
Location 280, $2,100,000.

SEC. 2102. FAMILY HOUSING.

The Secretary of the Army may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Irwin, California, thirty-eight manufactured home spaces, $730,000.
Fort Ord, California, three hundred and eighty-five units, $34,000,000.
Crailsheim, Germany, forty units, $4,100,000.
Darmstadt, Germany, forty units, $3,150,000.
Erlangen, Germany, one hundred and six units, $9,400,000.
Herzo Base, Germany, thirty-four units, $3,300,000.
Schweinfurt, Germany, ninety units, $8,400,000.
Vilseck, Germany, two hundred and twenty-four units, $21,000,000.
Wildflecken, Germany, twenty-four units, $2,050,000.
Various Locations, Germany, one hundred and twenty units, funded in the manner authorized in section 2103(a).
Fort Polk, Louisiana, five hundred and eighty-three units, $37,000,000.
Kwajalein, Marshall Island, one hundred and thirty-six units, $23,000,000.
Aberdeen Proving Ground, Maryland, one hundred and forty units and seventy manufactured home spaces, $10,800,000.
Fort Drum, New York, one thousand and two hundred units, $91,000,000.
Seneca Army Depot, New York, thirty units, $2,900,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may make expenditures, using amounts appropriated pursuant to section 2110(a)(7)(A), to improve existing military family housing units in an amount not to exceed $145,930,000, of which not more than $11,900,000 may be used to convert portions of existing facilities at various locations in Germany to military family housing units, and may make additional expenditures not to exceed $15,671,000 for energy conservation projects using amounts appropriated pursuant to section 2110(b)(1).

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Aschaffenburg, Germany, one hundred and forty-four units, $5,120,000.
Aschaffenburg, Germany, forty-eight units, $2,800,000.
Bremerhaven, Germany, twenty-four units, $1,400,000.
Karlsruhe, Germany, twenty-four units, $1,400,000.
Kitzingen, Germany, one hundred and two units, $5,950,000.
Mainz, Germany, one unit, $69,000.
Worms, Germany, six units, $350,000.
Fort Benjamin Harrison, Indiana, one hundred and sixty-six units, $6,000,000.
Pusan, Korea, forty-eight units, $2,237,000.
Fort Indiantown Gap, Pennsylvania, six units, $166,000.
Fort Sam Houston, Texas, twenty-three units, $930,000.
Fort Myer, Virginia, three units, $140,000.

SEC. 2104. FORT DRUM, NEW YORK.

(a) AUTHORIZATION.—The Secretary of the Army may, in advance of the availability of appropriations authorized to be appropriated by section 2110(c), enter into one or more contracts for the military construction projects authorized by section 2101 at Fort Drum, New York, if each such contract limits the amount of payments that the Federal government is obligated to make under such contract to the amount of appropriations available, at the time the contract is entered into, for obligation under such a contract. Such construction may be accomplished by using one-step turn-key selection procedures or other competitive contracting methods.

(b) FAMILY HOUSING.—(1) Of the family housing units authorized by section 102 of the Military Construction Authorization Act, 1986, to be constructed at Fort Drum, New York—

(A) three of those units shall be constructed for assignment to general officers, and notwithstanding section 2826 of title 10, United States Code, each such unit may be constructed with a maximum net floor area of 3,000 square feet; and

(B) seven of those units shall be constructed for assignment to colonels who hold positions as commanders, and notwithstanding section 2826 of title 10, United States Code, each such unit may be constructed with a maximum net floor area of 2,100 square feet.

(2) For purposes of this subsection, the term "net floor area" has the meaning given that term by section 2826(f) of title 10, United States Code.

SEC. 2105. LAND EXCHANGE, ORLANDO, FLORIDA.

(a) IN GENERAL.—Subject to subsections (b) through (e), the Secretary of the Army may convey to the City of Orlando, Florida, all right, title, and interest of the United States in and to a tract of land located in Orlando, Florida, consisting of approximately 36 acres, together with improvements thereon, comprising the United States Army Reserve training facility located at the former McCoy Air Force Base, Orlando, Florida.

(b) CONSIDERATION.—In consideration for the conveyance by the Secretary under subsection (a), the City shall—

(1) convey to the United States a tract of real property consisting of approximately 36 acres located at Orlando Jetport, Orlando, Florida; and

(2) design, and construct on such real property, suitable replacement facilities, in accordance with the requirements of the Secretary, for the training activities of the United States Army Reserve.

(c) PAYMENT BY THE CITY.—If the fair market value (as determined by the Secretary) of the land and improvements conveyed by the United States to the City under subsection (a) exceeds the sum of the fair market value (as determined by the Secretary) of the property conveyed by the City to the United States and the fair market value of the facilities constructed by the City on the land conveyed to the United States under subsection (b), the City shall pay to the United States the amount of the difference.

(d) LEGAL DESCRIPTION OF THE LAND.—The exact acreages and legal description of properties to be conveyed under subsections (a) and (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the City.

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions as the Secretary considers appropriate to carry out the provisions of this section and to protect the interests of the United States.

SEC. 2106. SALE OF LAND AND REPLACEMENT OF CERTAIN WAREHOUSING FACILITIES.

(a) IN GENERAL.—Subject to subsections (b) through (g), the Secretary of the Army may convey approximately 14.41 acres of real property, and improvements thereon, at Kapalama Military Reservation, Hawaii, and may replace and relocate warehousing facilities located on such property.

(b) CONSIDERATION.—In consideration for the real property and improvements described in subsection (a), the purchaser of such property and improvements shall pay—

(1) for the cost of the design and construction of suitable replacement warehousing facilities to be constructed at Schofield Barracks, Hawaii, in a manner determined by the Secretary;

(2) for any cost incurred by the Department of the Army under this section with respect to the relocation of warehousing facilities; and

(3) the amount described in subsection (d).

(c) SALE AND REPLACEMENT ACTIVITIES.—The Secretary may use any amount received from the purchaser under paragraphs (1) and (2) of subsection (b) for the purpose of carrying out this section.

(d) PAYMENT OF EXCESS INTO TREASURY.—If the fair market value of the real property and improvements described in subsection (a) exceeds the costs described in paragraphs (1) and (2) of subsection (b), as determined by the Secretary, the purchaser shall pay the amount of such difference to the Secretary, and the Secretary shall deposit such amount into the Treasury as miscellaneous receipts.

(e) COMPETITIVE BID PROCEDURES.—The conveyance described in subsection (a) shall be carried out under competitive bid procedures.

(f) LEGAL DESCRIPTION OF LAND.—The exact location and legal description of the real property described in subsection (a) shall be determined by a survey which is satisfactory to the Secretary. The cost of such survey shall be borne by the purchaser.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2107. PLAN FOR CLEANUP OF ROCKY MOUNTAIN ARSENAL.

Section 822(b)(7) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 991), is amended by inserting before the semicolon the following: ", including establishing methods of assisting local governments near the Arsenal with the planning and design of water treatment facilities in appropriate cases".

SEC. 2108. COMMUNITY PLANNING ASSISTANCE.

The Secretary of the Army may not use more than $200,000 from funds appropriated to the Department of the Army for fiscal year 1987 for planning and design purposes to provide planning assistance to local communities located near the newly established light infantry division at Fort Drum, New York, if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate.

SEC. 2109. LAND CONVEYANCE, WHITTIER NARROWS DAM, LOS ANGELES COUNTY, CALIFORNIA.

(a) AUTHORITY TO CONVEY.—Subject to subsections (b) through (f), the Secretary of the Army may convey to Southern California Edison Company approximately 7.44 acres of real property, and improvements thereon, within the Whittier Narrows Flood Control Basin located north of Rush Street and east of Walnut Grove Avenue in Los Angeles County, California, for not less than the fair market value, as determined by the Secretary.

(b) CONSIDERATION.—In consideration for the conveyance authorized by subsection (a), the Secretary may accept land in the Los Angeles area or cash, or both.

(c) CONDITIONS.—(1) The Secretary may convey the real property described in subsection (a) only if—

(A) the Company grants the United States a perpetual easement that enables the Federal Government to carry out necessary flood control activities with respect to such real property; and

(B) the Company agrees to permit the County of Los Angeles to use a portion of such real property for parking in connection with recreation activities at Whittier Narrows Golf Course, as the Secretary considers appropriate.

(d) USE OF FUNDS.—Any funds received by the Secretary under this section shall be deposited into the general fund of the Treasury.

(e) LEGAL DESCRIPTION OF LAND.—The exact location and legal description of the real property described in subsection (a) shall be determined by a survey which is satisfactory to the Secretary. The cost of such survey shall be borne by the company.

(f) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2110. AUTHORIZATION OF APPROPRIATIONS, ARMY.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $3,013,060,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $678,350,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $456,310,000.

(3) For the construction of the Eastern Distribution Center, New Cumberland Army Depot, Pennsylvania, as authorized by section 101 of the Military Construction Authorization Act, 1986, $43,000,000.

(4) For Pershing II security upgrade at various locations, Germany, as authorized by section 101 of the Military Construction Authorization Act, 1986, $7,000,000.

(5) For unspecified minor construction projects under section 2805 of title 10, United States Code, $20,000,000.

(6) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $131,640,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $420,760,000;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,250,000,000, of which—

(i) not more than $31,246,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $142,639,000 may be obligated or expended for the leasing of military family housing units in foreign countries; and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $6,000,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS.—(1) Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects for existing military family housing units of the Department of the Army that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects for military family housing of the Army in an amount not to exceed $15,671,000.

(2) Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 for military construction functions of the Army (other than funds described in paragraph (1)) that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for the construction of an Army aviation museum at Fort Rucker, Alabama, in an amount not to exceed $2,500,000.

(c) ADVANCE AUTHORIZATION OF APPROPRIATIONS FOR FORT DRUM, NEW YORK.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for the military construction projects and land acquisition authorized at Fort Drum, New York, by sections 2101(a) and 2104 as follows:

(1) $221,000,000 in fiscal year 1988.

(2) $214,000,000 in fiscal year 1989.

(d) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2101 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and under subsection (c).

SEC. 2111. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115, 97 Stat. 780), authorizations for the following projects authorized in section 101 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167, 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied personnel housing in the amount of $1,400,000 at Argyroupolis, Greece.

(2) Operations building in the amount of $370,000 at Argyroupolis, Greece.

(3) Multipurpose recreation facility in the amount of $480,000 at Argyroupolis, Greece.

(4) Unaccompanied officer housing in the amount of $600,000 at Perivolaki, Greece.

(5) Operations building in the amount of $410,000 at Perivolaki, Greece.

(6) Multipurpose recreation facility in the amount of $620,000 at Perivolaki, Greece.

(7) Physical fitness training center in the amount of $1,000,000 at Elefsis, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in sections 101 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(2) Child care center in the amount of $1,980,000 at Presidio of San Francisco, California.

(3) Barracks in the amount of $6,600,000 at Presidio of San Francisco, California.

(4) Multipurpose recreation facility in the amount of $1,150,000 at Koropi, Greece.

(5) Multipurpose recreation facility in the amount of $960,000 at Katsimidi, Greece.

(6) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(7) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(8) Barracks with dining facility in the amount of $2,350,000 at Elefsis, Greece.

## TITLE II—NAVY

SEC. 2201. AUTHORIZED NAVY CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES MARINE CORPS

Headquarters Marine Corps, Arlington, Virginia, $3,020,000.

Marine Corps Air Station, Beaufort, South Carolina, $4,250,000.

Camp H. M. Smith, Oahu, Hawaii, $1,570,000.

Marine Corps Base, Camp Lejeune, North Carolina, $36,120,000.

Marine Corps Air Station, Camp Pendleton, California, $10,410,000.

Marine Corps Base, Camp Pendleton, California, $37,140,000.

Marine Corps Air Station, Cherry Point, North Carolina, $15,510,000.

Marine Corps Air Station, El Toro, California, $13,450,000.

Marine Corps Air Station, Kaneohe Bay, Hawaii, $39,440,000.

Marine Corps Air Station, New River, North Carolina, $21,710,000.

Marine Corps Recruit Depot, San Diego, California, $8,440,000.

Marine Corps Air Station, Tustin, California, $14,910,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, $32,630,000.

Marine Corps Air Station, Yuma, Arizona, $8,860,000.

SPACE AND NAVAL WARFARE SYSTEMS COMMAND

Naval Electronic Systems Engineering Center, Portsmouth, Virginia, $1,870,000.

CHIEF OF NAVAL OPERATIONS

Naval Academy, Annapolis, Maryland, $2,660,000.

Navy Tactical Interoperability Support Activity, Long Beach, California, $510,000.

Naval Legal Service Office, Norfolk, Virginia, $1,080,000.

Naval Legal Service Office Detachment, Oceana, Virginia, $540,000.

Commandant Naval District, Washington, District of Columbia, $2,000,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Air Station, Brunswick, Maine, $1,160,000.

Naval Air Station, Cecil Field, Florida, $8,640,000.

Naval Station, Charleston, South Carolina, $1,400,000.

Naval Ocean Processing Facility, Dam Neck, Virginia, $540,000.

Naval Air Station, Jacksonville, Florida, $9,030,000.

Naval Air Station, Key West, Florida, $10,140,000.

Naval Amphibious Base, Little Creek, Virginia, $6,970,000.

Naval Station, Mayport, Florida, $880,000.

Naval Supply Center Detachment, Mayport, Florida, $3,730,000.

Naval Submarine Base, New London, Connecticut, $4,630,000.

Naval Station, New York, New York, $52,950,000.

Fleet Intelligence Center Europe and Atlantic, Norfolk, Virginia, $1,880,000.

Naval Air Station, Norfolk, Virginia, $1,570,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Station, Adak, Alaska, $24,400,000.

Naval Facility, Adak, Alaska, $5,700,000.

Naval Air Station, Alameda, California, $18,625,000.

Naval Submarine Base, Bangor, Washington, $5,900,000.

Trident Refit Facility, Bangor, Washington, $1,570,000.

Naval Facility, Centerville Beach, California, $1,370,000.

Naval Amphibious Base, Coronado, California, $21,170,000.

Naval Air Station, Fallon, Nevada, $31,200,000.

Naval Air Station, Lemoore, California, $980,000.

Naval Station, Long Beach, California, $7,260,000.

Naval Magazine, Lualualei, Hawaii, $4,350,000.

Naval Air Station, Miramar, California, $40,400,000.

Naval Station, Pearl Harbor, Hawaii, $3,240,000.

Naval Submarine Base, Pearl Harbor, Hawaii, $690,000.

Naval Station, San Diego, California, $19,460,000.

Naval Submarine Base, San Diego, California, $6,500,000.

Naval Station, Seattle, Washington, $2,950,000.

Naval Air Station, Whidbey Island, Washington, $5,180,000.

CHIEF OF NAVAL EDUCATION AND TRAINING

Naval Air Station, Corpus Christi, Texas, $690,000.

Naval Guided Missile School, Dam Neck, Virginia, $3,140,000.

Naval Training Center, Great Lakes, Illinois, $5,300,000.

Naval Construction Training Center, Gulfport, Mississippi, $1,180,000.

Naval Air Station, Kingsville, Texas, $3,780,000.

Combat Systems Technical Schools Command, Mare Island, California, $5,200,000.

Naval Air Station, Memphis, Tennessee, $3,010,000.

Naval Air Station, Meridian, Mississippi, $4,410,000.

Naval Submarine School, New London, Connecticut, $9,540,000.

Naval Education and Training Center, Newport, Rhode Island, $11,700,000.

Surface Warfare Officers School Command, Newport, Rhode Island, $8,840,000.

Fleet Training Center, Norfolk, Virginia, $5,400,000.

Naval Training Center, Orlando, Florida, $12,620,000.

Naval Diving and Salvage Training Center, Panama City, Florida, $2,850,000.

Naval Technical Training Center, Pensacola, Florida, $7,360,000.

Naval Construction Training Center, Port Hueneme, California, $3,240,000.

Fleet Intelligence Training Center, Pacific, San Diego, California, $4,220,000.

Fleet Training Center, San Diego, California, $3,930,000.

Naval Training Center, San Diego, California, $18,170,000.

Naval Technical Training Center, San Francisco, California, $9,820,000.

Naval Air Station, Whiting Field, Florida, $2,120,000.

NAVAL MEDICAL COMMAND

Naval Hospital, Camp Lejeune, North Carolina, $1,670,000.

Naval Hospital, Pensacola, Florida, $690,000.

NAVAL OCEANOGRAPHY COMMAND

Naval Observatory, Washington, District of Columbia, $980,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Adak, Alaska, $14,600,000.

NAVAL SUPPLY SYSTEMS COMMAND

Naval Supply Center, Bremerton, Washington, $500,000.

Naval Supply Center, Jacksonville, Florida, $830,000.

Navy Ships Parts Control Center, Mechanicsburg, Pennsylvania, $1,670,000.

Naval Supply Center, Norfolk, Virginia, $3,140,000.

Naval Supply Center, Oakland, California, $3,490,000.

Naval Supply Center, Pearl Harbor, Hawaii, $11,820,000.

Naval Supply Center, San Diego, California, $2,450,000.

NAVAL AIR SYSTEMS COMMAND

Pacific Missile Range Facility, Barking Sands, Kauai, Hawaii, $8,260,000.

Naval Air Rework Facility, Cherry Point, North Carolina, $37,200,000.

Naval Air Test Center, Patuxent River, Maryland, $21,140,000.

Naval Air Rework Facility, Pensacola, Florida, $8,050,000.

Pacific Missile Test Center, Point Mugu, California, $590,000.

NAVAL FACILITIES ENGINEERING COMMAND

Naval Construction Battalion Center, Gulfport, Mississippi, $17,650,000.

Navy Public Works Center, Norfolk, Virginia, $8,740,000.

Navy Public Works Center, Pearl Harbor, Hawaii, $25,690,000.

Navy Public Works Center, Pensacola, Florida, $2,120,000.

Naval Construction Battalion Center, Port Hueneme, California, $7,120,000.

Navy Public Works Center, San Francisco, California, $450,000.

NAVAL SEA SYSTEMS COMMAND

Charleston Naval Shipyard, Charleston, South Carolina, $10,810,000.

Naval Weapons Station, Charleston, South Carolina, $22,630,000.

Naval Weapons Station, Concord, California, $790,000.

Naval Weapons Support Center, Crane, Indiana, $6,880,000.
Naval Weapons Station, Earle, New Jersey, $54,760,000.
Naval Ordnance Station, Indian Head, Maryland, $1,450,000.
Naval Undersea Warfare Engineering Station, Keyport, Washington, $5,890,000.
Long Beach Naval Shipyard, Long Beach, California, $3,630,000.
Norfolk Naval Shipyard, Portsmouth, Virginia, $5,900,000.
Naval Sea Combat Systems Engineering Station, Norfolk, Virginia, $980,000.
Supervisor of Shipbuilding, Pascagoula, Mississippi, $4,120,000.
Naval Ship System Engineering Station, Philadelphia, Pennsylvania, $400,000.
Portsmouth Naval Shipyard, Kittery, Maine, $12,270,000.
Naval Weapons Station, Yorktown, Virginia, $4,220,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Weapons Center, China Lake, California, $1,370,000.
Naval Surface Weapons Center, Dahlgren, Virginia, $15,960,000.
Naval Coastal Systems Center, Panama City, Florida, $880,000.
Naval Research Laboratory Annex, Quantico, Virginia, $1,500,000.

STRATEGIC SYSTEMS PROJECT OFFICE

Naval Submarine Base, Kings Bay, Georgia, $117,610,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MARINE CORPS

Marine Corps Air Station, Futenma, Okinawa, Japan, $4,270,000.
Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan, $8,950,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Station, Guantanamo Bay, Cuba, $2,600,000.
Naval Air Station, Keflavik, Iceland, $13,840,000.
Naval Facility, Keflavik, Iceland, $1,570,000.
Atlantic Fleet Weapons Training Facility, Roosevelt Roads, Puerto Rico, $4,220,000.
Naval Station, Roosevelt Roads, Puerto Rico, $7,080,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Administrative Support Unit, Bahrain Island, $2,550,000.
Mobile Construction Battalion, Camp Covington, Guam, $15,500,000.
Naval Facility, Guam, $820,000.
Naval Supply Depot, Guam, $400,000.

COMMANDER IN CHIEF, UNITED STATES NAVAL FORCES EUROPE

Naval Support Activity, Naples, Italy, $1,570,000.
Naval Station, Rota, Spain, $4,600,000.
Classified Locations, $15,700,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Area Master Station, Western Pacific, Guam, $480,000.
Naval Communications Station, Harold E. Holt, Exmouth, Australia, $2,180,000.
Naval Communications Area Master Station, Mediterranean, Naples, Italy, $8,250,000.
Naval Communication Station, Thurso, United Kingdom, $350,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Edzell, Scotland, $2,250,000.
Naval Security Group Detachment, Guam, $2,150,000.
Naval Security Group Activity, Sabana Seca, Puerto Rico, $790,000.

NAVAL FACILITIES ENGINEERING COMMAND

Navy Public Works Center, Guam, $1,570,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Underwater Systems Center, Andros Island, Bahamas, $3,730,000.

SEC. 2202. FAMILY HOUSING.

The Secretary of the Navy may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Long Beach, California, three hundred units, $22,900,000.
Naval Air Station, Moffett Field, California, one hundred and twenty-six units, $11,600,000.
Navy Public Works Center, San Francisco, California, three hundred units, $26,450,000.
Marine Corps Air-Ground Combat Center, Twentynine Palms, California, three hundred and ninety-two units and seventy-five mobile home spaces, $35,300,000.
Marine Corps Base, Camp Pendleton, California, one hundred mobile home spaces, $1,800,000.
Marine Corps Base, Camp Lejeune, North Carolina, seventy-five mobile home spaces, $930,000.
Marine Corps Development and Education Command, Quantico, Virginia, fifty mobile home spaces, $790,000.
Naval Station, Keflavik, Iceland, two hundred and fifty units, $48,642,000.

SEC. 2203. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may make expenditures, using amounts appropriated pursuant to section 2210(a)(7)(A), to improve existing military family housing units in an amount not to exceed $51,580,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Mare Island, Vallejo, California, one hundred units, $5,200,000.
Marine Corps Logistics Base, Albany, Georgia, one unit, $33,300.
Navy Public Works Center, Great Lakes, Illinois, two hundred and ten units, $9,400,000.
Naval Air Station, Brunswick, Maine, forty-four units, $1,274,600.
Naval Construction Battalion Center, Gulfport, Mississippi, one unit, $28,700.
Naval Air Station, Fallon, Nevada, forty-four units, $1,868,500.
Naval Station, New York, New York, one hundred and twenty units, $9,600,000.
Naval Air Development Center, Warminster, Pennsylvania, six units, $256,800.
Naval Education and Training Center, Newport, Rhode Island, one hundred and eighty-six units, $10,200,000.
Navy Public Works Center, Guam, one unit, $64,700.
Navy Public Works Center, Guam, one hundred and nine units, $10,360,000.
Naval Air Station, Agana, Guam, one hundred units, $9,517,000.
Naval Air Station, Agana, Guam, one unit, $58,600.

SEC. 2204. ACQUISITION OF EXISTING HOUSING UNITS ON GUAM.

The Secretary of the Navy may acquire, without reimbursement, 89 existing family housing units constructed and used by the Federal Aviation Administration on land in Finegayan, Guam, held by the Secretary of the Navy under the provisions of section 1158 of title 49, United States Code.

SEC. 2205. INCREASE IN TITLE TOTAL AMOUNT FOR MILITARY CONSTRUCTION PROJECT AT KINGS BAY, GEORGIA.

Section 602(c) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 981), is amended by striking "may not exceed the total amount authorized" and all that follows and inserting the following:

"may not exceed—

"(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a);

"(2) the amount specified in subsection (b); and

"(3) $85,600,000 (the balance of the amount authorized under section 201(a) for military construction projects at Kings Bay, Georgia).".

SEC. 2206. GRANTING OF EASEMENTS AND REPLACEMENT OF FAMILY HOUSING UNITS AND OTHER FACILITIES AT MARINE CORPS AIR STATION, EL TORO, CALIFORNIA.

(a) AUTHORITY TO GRANT EASEMENTS.—Subject to subsection (b) and other conditions the Secretary may specify in the agreements entered into for the purpose of carrying out this section, the Secretary of the Navy may grant to the County of Orange, California, one or more easements through the Marine Corps Air Station, El Toro, California.

(b) MANDATE TO REPLACE FAMILY HOUSING AND OTHER FACILITIES.—(1) Subject to subsection (c), the Secretary shall provide for the replacement of all family housing units and other facilities that are to be demolished as a result of any easement granted under subsection (a).

(2) An easement granted under subsection (a) shall not become effective until the Secretary determines that—

(A) family housing units have been constructed to replace all the family housing units to be demolished as a result of such easement; and

(B) such replacement units meet the applicable requirements specified in the agreements referred to in subsection (a).

(3) Until the determination referred to in paragraph (2) is made, the Secretary shall continue to use, as military family housing, the housing units that are to be demolished as a result of an easement becoming effective.

(c) FUNDING.—(1) The Secretary may use not more than $2,300,000 of the amount appropriated pursuant to section 2210(a)(7)(A) for payment in connection with the construction of replacement family housing units required by subsection (b).

(2) The Secretary may make available amounts for the construction of such replacement family housing units at the times specified in the agreements referred to in subsection (a).

(3) The Secretary may not make any funds available for the replacement of facilities that are not family housing facilities.

SEC. 2207. LAND EXCHANGE, LONG BEACH NAVAL STATION, CALIFORNIA.

(a) AUTHORITY TO EXCHANGE.—Subject to subsections (b) through (d), the Secretary of the Navy may exchange approximately 16 acres of real property (and improvements

thereon) adjacent to Admiral Kidd Park at the Long Beach Naval Station, California, to the City of Long Beach, California, for real property (and improvements thereon) located on Hill Street, between Webster Avenue and the Terminal Island Freeway, in Long Beach, California.

(b) CONDITION.—If the fair market value of the real property and improvements conveyed to the City under subsection (a) exceeds the fair market value of the real property and improvements conveyed to the United States as described in such subsection, the City shall pay the difference to the United States. The Secretary shall deposit any funds received under this subsection as miscellaneous receipts in the Treasury.

(c) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the real property exchanged under this section shall be in accordance with surveys that are satisfactory to the Secretary.

(d) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2208. LEASE AND DEVELOPMENT OF CERTAIN REAL PROPERTY, SAN DIEGO, CALIFORNIA.

(a) IN GENERAL.—Subject to subsections (b) through (g), the Secretary of the Navy may enter into leases of real property located within the Broadway Complex of the Department of the Navy, San Diego, California.

(b) CONSIDERATION.—(1) In consideration for leasing the real property described in subsection (a), the Secretary shall obtain, without compensation or at substantially below market value, facilities or the use of facilities, or both, constructed on such real property by the lessees.

(2) The Secretary shall provide that the value of the facilities or the use of facilities, or both, obtained under paragraph (1) shall be at least equal to the value of the use of the real property leased under subsection (a), as determined by the Secretary.

(c) CONDITIONS.—(1) The Secretary shall provide that the real property leased under subsection (a) be developed in a manner that is in the best interests of the Department of the Navy, taking into consideration the appropriate use of the real property and the maximum economic return that can be realized by the Department with respect to such property.

(2) A lease may not be entered into under this section until 21 days after the Secretary submits a plan for the development of the real property described in subsection (a) to the Committees of the Armed Services of the Senate and the House of Representatives, including a justification of how this plan is more advantageous to the United States than developing the real property with Federal funds.

(d) COMPETITIVE PROCEDURES.—Each lease entered into under subsection (a) shall be awarded through the use of competitive procedures.

(e) RIGHT TO ACQUIRE.—The Secretary may provide that, upon the termination of a lease entered into under this section, the United States shall have the right of first refusal to acquire all right, title, and interest to the facilities constructed on the real property subject to such lease.

(f) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with the leases authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(g) LIMITATION.—The Secretary may obligate or expend amounts to obtain facilities or use of facilities under subsection (b)(1) only to the extent funds are available for such purpose.

SEC. 2209. CERTAIN ENLISTED QUARTERS, GUAM.

Section 201(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 970), is amended—

(1) by striking out "Naval Magazine, Guam, $11,270,000." and inserting in lieu thereof "Naval Magazine, Guam, $6,570,000."; and

(2) by striking out "Naval Station, Guam, $10,200,000." and inserting in lieu thereof "Naval Station, Guam, $14,900,000.".

SEC. 2210. AUTHORIZATION OF APPROPRIATIONS, NAVY.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,210,683,000 as follows:

(1) For military construction projects inside the United States authorized by section 2201(a), $1,138,005,000.

(2) For military construction projects outside the United States authorized by section 2201(b), $105,420,000.

(3) For military construction projects at Kings Bay, Georgia, authorized by section 2201(a) of the Military Construction Authorization Act, 1986, $40,905,000.

(4) For unspecified minor construction projects under section 2805 of title 10, United States Code, $15,000,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $143,770,000.

(6) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $5,400,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $204,292,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $557,891,000, of which—

(i) not more than $5,214,100 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $17,244,900 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2201 of this division may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2211. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115, 97 Stat. 780), authorizations for the following projects authorized in section 201 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167, 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Land acquisition in the amount of $830,000 at the Naval Weapons Station, Concord, California.

(2) Unaccompanied enlisted personnel housing in the amount of $10,000,000 at the Naval Air Station, Jacksonville, Florida.

(3) Electrical distribution lines in the amount of $7,200,000 at the Mare Island Naval Shipyard, Vallejo, California.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in sections 201 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied enlisted personnel housing in the amount of $10,740,000 at the Marine Corps Air Station, Yuma, Arizona.

(2) Antenna support facility in the amount of $320,000 at the Naval Security Group Activity, Adak, Alaska.

(3) Data processing center in the amount of $6,160,000 at the Naval Supply Center, Bremerton, Washington.

(4) Unaccompanied enlisted personnel housing in the amount of $12,130,000 at the Naval Air Station, Whidbey Island, Washington.

(5) Unaccompanied enlisted personnel housing in the amount of $6,600,000 at the Naval Station, Mare Island, Vallejo, California.

(6) Engine test cell in the amount of $9,700,000 for the Naval Air Rework Facility, Cherry Point, North Carolina.

(7) Security building in the amount of $850,000 for the Naval Station, Norfolk, Virginia.

(8) Unaccompanied enlisted personnel housing in the amount of $1,580,000 for the Naval Station, Panama Canal, Panama.

(9) Heating, ventilation and air conditioning in the amount of $4,540,000 for the Naval Air Station, Alameda, California.

(10) Land acquisition in the amount of $4,750,000 for the Marine Corps Air Station, El Toro, California.

(11) Maintenance hangar in the amount of $5,000,000 for the Naval Air Station, Fallon, Nevada.

(12) Construction battalion unit complex in the amount of $1,090,000 for the Naval Station, Mare Island, Vallejo, California.

(13) Airframes shop in the amount of $1,680,000 for the Pacific Missile Test Center, Point Mugu, California.

(14) Unaccompanied enlisted personnel housing in the amount of $6,650,000 for the Pacific Missile Test Center, Point Mugu, California.

(15) Maintenance hangar in the amount of $13,200,000 for the Marine Corps Air Station, Tustin, California.

(16) Oil spill prevention facility in the amount of $710,000 for the Marine Corps Air Station, Tustin, California.

(17) Energy monitoring and control system in the amount of $1,100,000 for the Naval Air Station, Chase Field, Texas.

(18) Host nation infrastructure support in the amount of $2,970,000 for various locations.

## TITLE III—AIR FORCE

SEC. 2301. AUTHORIZED AIR FORCE CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amount shown for each of the following installations and locations inside the United States:

AIR FORCE LOGISTICS COMMAND

Hill Air Force Base, Utah, $20,550,000.
Kelly Air Force Base, Texas, $10,900,000.
McClellan Air Force Base, California, $28,900,000.
Newark Air Force Station, Ohio, $3,000,000.
Robins Air Force Base, Georgia, $16,055,000.
Tinker Air Force Base, Oklahoma, $32,900,000.
Wright-Patterson Air Force Base, Ohio, $19,500,000.

AIR FORCE SYSTEM COMMAND

Arnold Air Force Station, Tennessee, $3,530,000.
Edwards Air Force Base, California, $14,100,000.
Eglin Air Force Base, Florida, $720,000.
Hanscom Air Force Base, Massachusetts, $4,000,000.
Patrick Air Force Base, Florida, $2,600,000.
Sunnyvale Air Force Station, California, $2,600,000.

AIR TRAINING COMMAND

Chanute Air Force Base, Illinois, $11,300,000.
Keesler Air Force Base, Mississippi, $1,970,000.
Lackland Air Force Base, Texas, $16,000,000.
Laughlin Air Force Base, Texas, $3,700,000.
Mather Air Force Base, California, $740,000.
Randolph Air Force Base, Texas, $2,250,000.
Williams Air Force Base, Arizona, $4,900,000.

AIR UNIVERSITY

Gunter Air Force Station, Alabama, $2,900,000.
Maxwell Air Force Base, Alabama, $5,310,000.

ALASKAN AIR COMMAND

Eielson Air Force Base, Alaska, $12,590,000.
Elmendorf Air Force Base, Alaska, $8,170,000.
Galena Airport, Alaska, $11,600,000.
King Salmon Airport, Alaska, $4,050,000.
Shemya Air Force Base, Alaska, $22,300,000.

MILITARY AIRLIFT COMMAND

Altus Air Force Base, Oklahoma, $310,000.
Andrews Air Force Base, Maryland, $25,430,000.
Charleston Air Force Base, South Carolina, $6,290,000.
Kirtland Air Force Base, New Mexico, $11,800,000.
Little Rock Air Force Base, Arkansas, $2,750,000.
McChord Air Force Base, Washington, $6,400,000.
McGuire Air Force Base, New Jersey, $13,595,000.
Norton Air Force Base, California, $1,450,000.
Pope Air Force Base, North Carolina, $3,400,000.
Scott Air Force Base, Illinois, $1,100,000.
Travis Air Force Base, California, $8,200,000.

PACIFIC AIR FORCES

Hickam Air Force Base, Hawaii, $4,700,000.

SPACE COMMAND

Cape Cod Air Force Station, Massachusetts, $4,300,000.
Cavalier Air Force Station, North Dakota, $2,820,000.
Falcon Air Force Station, Colorado, $6,400,000.
Peterson Air Force Base, Colorado, $3,640,000.

SPECIAL PROJECT

Various Locations, $37,056,000.

STRATEGIC AIR COMMAND

Beale Air Force Base, California, $9,516,000.
Blytheville Air Force Base, Arkansas, $3,870,000.
Carswell Air Force Base, Texas, $490,000.
Castle Air Force Base, California, $2,630,000.
Dyess Air Force Base, Texas, $4,130,000.
Ellsworth Air Force Base, South Dakota, $10,910,000.
Fairchild Air Force Base, Washington, $7,520,000.
F. E. Warren Air Force Base, Wyoming, $3,550,000.
Grand Forks Air Force Base, North Dakota, $23,130,000.
Griffiss Air Force Base, New York, $1,590,000.
Grissom Air Force Base, Indiana, $3,850,000.
Holbrook Radar Bomb Score Site, Arizona, $630,000.
K. I. Sawyer Air Force Base, Michigan, $1,730,000.
La Junta Radar Bomb Scoring Site, Colorado, $5,460,000.
Loring Air Force Base, Maine, $1,300,000.
Malmstrom Air Force Base, Montana, $33,770,000.
March Air Force Base, California, $14,440,000.
McConnell Air Force Base, Kansas, $35,740,000.
Minot Air Force Base, North Dakota, $33,100,000.
Offutt Air Force Base, Nebraska, $24,970,000.
Pease Air Force Base, New Hampshire, $2,200,000.
Plattsburgh Air Force Base, New York, $9,610,000.
Vandenburg Air Force Base, California, $2,700,000.
Whiteman Air Force Base, Missouri, $10,700,000.
Wurtsmith Air Force Base, Michigan, $11,740,000.

TACTICAL AIR COMMAND

Avon Park Auxiliary Air Field, Florida, $4,100,000.
Bangor International Airport, Maine, $1,250,000.
Base 39, Classified Location, $2,300,000.
Bergstrom Air Force Base, Texas, $1,860,000.
Davis-Monthan Air Force Base, Arizona, $12,430,000.
England Air Force Base, Louisiana, $2,300,000.
George Air Force Base, California, $9,550,000.
Holloman Air Force Base, New Mexico, $14,760,000.
Homestead Air Force Base, Florida, $6,550,000.
Indian Springs Auxiliary Air Field, Nevada, $1,700,000.
Langley Air Force Base, Virginia, $9,640,000.
Luke Air Force Base, Arizona, $24,140,000.
MacDill Air Force Base, Florida, $3,730,000.
Moody Air Force Base, Georgia, $900,000.
Mountain Home Air Force Base, Idaho, $14,760,000.
Nellis Air Force Base, Nevada, $23,800,000.
Seymour-Johnson Air Force Base, North Carolina, $2,760,000.
Shaw Air Force Base, South Carolina, $3,700,000.
Tyndall Air Force Base, Florida, $15,310,000.
WESTCONUS, Various Locations, $10,300,000.

UNITED STATES AIR FORCE ACADEMY

Air Force Academy, Colorado, $12,620,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MILITARY AIRLIFT COMMAND

Lajes Field, Portugal, $15,750,000.
Rhein-Main Air Base, Germany, $1,300,000.

PACIFIC AIR FORCES

Kadena Air Base, Japan, $7,365,000.
Misawa Air Base, Japan, $10,300,000.
Totsuka Air Base, Japan, $700,000.
Yokosuka Air Base, Japan, $600,000.
Yokota Air Base, Japan, $4,900,000.
Camp Humphreys, Korea, $8,300,000.
Camp Red Cloud, Korea, $1,450,000.
Kimhae Air Base, Korea, $3,620,000.
Kunsan Air Base, Korea, $8,170,000.
Kwang-Ju Air Base, Korea, $600,000.
Osan Air Base, Korea, $14,350,000.
Suwon Air Base, Korea, $3,850,000.
Taegu Air Base, Korea, $5,170,000.
Saipan, $5,200,000.

SPACE COMMAND

Sondrestrom Air Base, Greenland, $5,860,000.
Thule Air Base, Greenland, $9,790,000.
Woomera Air Station, Australia, $2,300,000.

STRATEGIC AIR COMMAND

Andersen Air Force Base, Guam, $7,600,000.

TACTICAL AIR COMMAND

Keflavik Naval Air Station, Iceland, $1,600,000.
Masirah, Oman, $3,500,000.
Thumrait, Oman, $3,400,000.

UNITED STATES AIR FORCES IN EUROPE

Florennes Air Base, Belgium, $1,200,000.
Bitburg Air Base, Germany, $5,350,000.
Hahn Air Base, Germany, $12,640,000.
Lindsey Air Station, Germany, $1,200,000.
Ramstein Air Base, Germany, $31,230,000.
Sembach Air Base, Germany, $11,870,000.
Spangdahlem Air Base, Germany, $8,310,000.
Wueschheim Air Station, Germany, $310,000.
Zweibrucken Air Base, Germany, $6,740,000.
Iraklion Air Station, Greece, $320,000.
Aviand Air Base, Italy, $4,200,000.
Camp Darby, Italy, $270,000.
Comiso Air Station, Italy, $3,230,000.
San Vito Air Station, Italy, $3,790,000.
Camp New Amsterdam, The Netherlands, $1,500,000.
Woensdrecht Air Base, The Netherlands, $30,780,000.
Ankara Air Station, Turkey, $6,780,000.
Incirlik Air Base, Turkey, $12,250,000.
Pirinclik Air Station, Turkey, $3,000,000.

Martlesham Heath, United Kingdom, $1,650,000.
RAF Alconbury, United Kingdom, $17,170,000.
RAF Bentwaters, United Kingdom, $7,550,000.
RAF Chicksands, United Kingdom, $950,000.
RAF Croughton, United Kingdom, $630,000.
RAF Fairford, United Kingdom, $4,450,000.
RAF Lakenheath, United Kingdom, $500,000.
RAF Mildenhall, United Kingdom, $4,700,000.
RAF Molesworth, United Kingdom, $2,430,000.
RAF Upper Heyford, United Kingdom, $11,700,000.
RAF Welford, United Kingdom, $1,590,000.
RAF Wethersfield, United Kingdom, $650,000.
RAF Woodbridge, United Kingdom, $3,400,000.
Base 30, Classified Location, $2,950,000.
Overseas Classified Location, $11,500,000.
Various Locations, Europe, $3,953,000.

SEC. 2302. FAMILY HOUSING.

The Secretary of the Air Force may construct or acquire family housing units (including land acquisition) at the following installations, in the number of units shown, and in the amount shown, for each installation:

Bitburg Air Base, Germany, three hundred and thirty-two units, $26,415,000.
Hahn Air Base, Germany, one hundred and fifty units, $11,300,000.
La Junta Air Force Station, Colorado, forty units, $4,000,000.
Beale Air Force Base, California, family housing maintenance shop, $180,000.
Davis-Monthan Air Force Base, Arizona, family housing management office, $300,000.
McGuire Air Force Base, New Jersey, family housing management office, $325,000.
Pope Air Force Base, North Carolina, family housing management office, $300,000.
Edwards Air Force Base, California, twenty-four mobile home spaces, $376,000.

SEC. 2303. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may make expenditures, using amounts appropriated pursuant to section 2306(a)(6)(A), to improve existing military family housing units, including energy conservation projects, in an amount not to exceed $58,644,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Eielson Air Force Base, Alaska, eighty-eight units, $6,186,000.
Elmendorf Air Force Base, Alaska, twelve units, $760,000.
Air Force Academy, Colorado, one unit, $120,000.
Peterson Air Force Base, Colorado, four units, $149,000.
MacDill Air Force Base, Florida, one hundred and fifty-eight units, $4,430,000; seven units, $553,000; seventy-one units, $2,103,000.
Scott Air Force Base, Illinois, one hundred and twelve units, $4,690,000.
Barksdale Air Force Base, Louisiana, one hundred and fourteen units, $5,342,000.
Bangor Air Force Station, Maine, one unit, $30,000.
Andrews Air Force Base, Maryland, seven units, $518,000.
Pease Air Force Base, New Hampshire, two-hundred units, $7,177,000.
Plattsburgh Air Force Base, New York, twenty-nine units, $2,272,000.
Shaw Air Force Base, South Carolina, one hundred and twenty-five units, $4,385,000; seventy-four units, $2,598,000.
Carswell Air Force Base, Texas, two hundred and three units, $7,478,000.
Lackland Air Force Base, Texas, sixty-four units, $1,920,000.
Randolph Air Force Base, Texas, five units, $402,000.
Reese Air Force Base, Texas, one hundred units, $2,895,000.
Langley Air Force Base, Virginia, five units, $441,000.
Andersen Air Force Base, Guam, two hundred units, $14,517,000.
Kadena Air Base, Japan, one hundred units, $5,054,000; three units, $240,000.

SEC. 2304. RESTRICTION ON CERTAIN MILITARY CONSTRUCTION FUNDING.

Funds appropriated for military construction may not be used during fiscal year 1987 in connection with the basing at any military installation or facility other than Little Rock Air Force Base, Jacksonville, Arkansas, the eight KC-135 tanker aircraft that, as of June 1, 1986, were based at such Air Force base and assigned to the 189th Air Refueling Group of the Air National Guard.

SEC. 2305. LIMITATION ON CERTAIN EXTENSION OF AUTHORIZATION AND OBLIGATION OF CERTAIN APPROPRIATIONS.

(a) LIMITATION ON AUTHORIZATION.—The extension of authorization in section 2307 for 140 units of family housing at Fort MacArthur, California, shall become effective on the date on which the Secretary of Defense submits to the Committees on Armed Services of the Senate and the House of Representatives a report containing a description of—

(1) all Federal land in the Los Angeles, California, metropolitan area that is suitable for military family housing;

(2) the family housing needs of each military department in such area; and

(3) the sites at which the personnel who will reside in the military family housing planned for the area will carry out their military responsibilities.

(b) LIMITATION ON OBLIGATION OF PRIOR YEAR APPROPRIATIONS.—Funds appropriated for military family housing units at Fort MacArthur, California, for fiscal year 1983 or fiscal year 1985 that have not been obligated by June 9, 1986, may not be obligated until the date on which the Secretary of Defense submits the report described in subsection (a).

SEC. 2306. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,206,440,000 as follows:

(1) For military construction projects inside the United States authorized by section 2301(a) $835,042,000.

(2) For military construction projects outside the United States authorized by section 2301(b), $347,158,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,000,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $127,260,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $32,700,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $108,840,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $739,440,000, of which—

(i) not more than $5,600,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $74,176,000 may be obligated or expended for the leasing of military family housing units in the foreign countries.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects of the Department of the Air Force that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects authorized in section 2301(a) in an amount not to exceed $9,470,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2301 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and the amount specified in subsection (b).

(d) USE OF CERTAIN FUNDS.—The Secretary of the Air Force may use not more than $350,000 of the amount appropriated pursuant to subsection (a)(3) to acquire a 20-acre tract of real property, and improvements thereon, located adjacent to Lake Wateree near Shaw Air Force Base, South Carolina.

SEC. 2307. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515) and subject to section 2305 of this division, authorizations for the following projects authorized in section 302 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Fort MacArthur, California, 140 units, $15,100,000.

(2) RAF Greenham Common, United Kingdom, 250 units, $22,441,000.

(3) RAF Bentwaters, United Kingdom, 200 units, $20,163,000.

## TITLE IV—DEFENSE AGENCIES

SEC. 2401. AUTHORIZED CONSTRUCTION PROJECTS AND LAND ACQUISITION FOR THE DEFENSE AGENCIES.

(a) INSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Scott Air Force Base, Illinois, $7,600,000.

DEFENSE LANGUAGE INSTITUTE

Defense Language Institute, Monterey, California, $5,400,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Estero Bay, California, $680,000.
Hazardous Materials and Waste Storage Facility, Fort Stewart, Georgia, $730,000.
Hazardous Materials and Waste Storage facility Naval Air Station, Brunswick, Maine, $510,000.
Hazardous Materials and Waste Storage Facility, Kirtland Air Force Base, New Mexico, $620,000.
Defense Construction Supply Center, Columbus, Ohio, $860,000.
Hazardous Materials and Waste Storage Facility, Navy Ship Parts Control Center, Mechanicsburg, Pennsylvania, $318,000.
Defense Fuel Support Point, Charleston, South Carolina, $460,000.
Defense Fuel Support Point, Naval Supply Center, Charleston, South Carolina, $5,130,000.
Hazardous Materials and Waste Storage Facility, Fort Bragg, North Carolina, $825,000.
Defense Depot, Memphis, Tennessee, $1,160,000.
Hazardous Materials and Waste Storage Facility, Fort McCoy, Wisconsin, $260,000.

DEFENSE MAPPING AGENCY

Aerospace Center, St. Louis, Missouri, $16,700,000.

DEFENSE MEDICAL FACILITIES OFFICE

Edwards Air Force Base, California, $3,950,000.
March Air Force Base, California, $2,350,000.
Fort Ord, California, $530,000.
Vandenberg Air Force Base, California, $1,900,000.
Pearl Harbor, Hawaii, $9,700,000.
Mountain Home Air Force Base, Idaho, $30,500,000.
Fort Polk, Louisiana, $2,650,000.
Andrews Air Force Base, Maryland, $2,000,000.
Keesler Air Force Base, Mississippi, $3,100,000.
McGuire Air Force Base, New Jersey, $3,800,000.
Camp Lejeune, North Carolina, $3,900,000.
Fort Hood, Texas, $3,450,000.
Randolph Air Force Base, Texas, $13,700,000.
Fort Sam Houston, Texas, $10,000,000.

DEFENSE NUCLEAR AGENCY

Armed Forces Radiobiology Research Institute, Bethesda, Maryland, $790,000.
Field Command, Kirtland Air Force Base, New Mexico, $900,000.

JOINT TACTICAL COMMAND, CONTROL, AND COMMUNICATIONS AGENCY

Fort Huachucha, Arizona, $9,890,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $5,200,000.
Classified Location, $3,000,000.
Classified Location, $4,000,000.
Classified Location, $1,000,000.

DEPARTMENT OF DEFENSE SECTION 6 SCHOOLS

Fort McClellan, Alabama, $2,830,000.
Fort Benning, Georgia, $1,080,000.
Robbins Air Force Base, Georgia, $2,440,000.
Fort Campbell, Kentucky, $1,340,000.
Fort Knox, Kentucky, $4,350,000.
Governors Island, New York, $2,600,000.
Camp Lejeune, North Carolina, $1,190,000.
Dahlgren, Virginia, $1,130,000.
Quantico, Virginia, $420,000.

UNIFORMED SERVICES UNIVERSITY OF HEALTH SCIENCES

Bethesda, Maryland, $900,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Chimu Wan, Japan, $6,640,000.
Defense Fuel Support Point, Tsurumi, Japan, $3,520,000.
Defense Reutilization and Marketing Office, Bupyong, Korea, $1,290,000.
Defense Fuel Support Point, Toegeywon, Korea, $1,010,000.

DEFENSE MEDICAL FACILITIES OFFICE

Boeblingen, Germany, $3,650,000.
Grafenwoehr, Germany, $3,950,000.
Karlsruhe, Germany, $6,800,000.
Vilseck, Germany, $5,600,000.
Camp Edwards, Korea, $1,800,000.
Camp Long, Korea, $1,850,000.
Camp Pelham, Korea, $720,000.
Camp New Amsterdam, The Netherlands, $6,000,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Florennes, Belgium, $1,260,000.
Naval Air Station, Bermuda, $4,280,000.
Aschaffenburg, Germany, $6,600,000.
Bad Kissingen, Germany, $1,330,000.
Baumholder, Germany, $1,600,000.
Dexheim, Germany, $2,430,000.
Erlangen, Germany, $3,220,000.
Gelnhausen, Germany, $1,130,000.
Grafenwoehr, Germany, $2,500,000.
Hahn, Germany, $3,470,000.
Heidelberg, Germany, $3,190,000.
Hessisch-Oldendorf, Germany, $2,310,000.
Hohenfels, Germany, $1,190,000.
Kaiserslautern, Germany, $7,880,000.
Nuernberg, Germany, $8,580,000.
Schwaebish Gmuend, Germany, $1,640,000.
Stuttgart, Germany, $4,530,000.
Wuerzburg, Germany, $7,760,000.
Seoul, Korea, $510,000.
Woensdrecht, The Netherlands, $7,420,000.

SEC. 2402. FAMILY HOUSING.

The Secretary of Defense may construct or acquire three family housing units (including land acquisition) at classified locations in the total amount of $270,000.

SEC. 2403. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $516,403,000 as follows:

(1) For military construction projects inside the United States authorized by section 2401(a), $175,843,000.

(2) For military construction projects outside the United States authorized by section 2401(b), $115,660,000.

(3) For the construction of a research and engineering facility at Fort Meade, Maryland, authorized by section 401(a) of the Military Construction Authorization Act, 1986, $38,000,000.

(4) For the construction of the Madigan Army Medical Center, Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,100,000.

(5) For unspecified minor construction projects under section 2805 of title 10, United States Code, $4,000,000.

(6) For construction projects under the contingency construction authority of the Secretary of Defense under section 2804 of title 10, United States Code, $5,000,000.

(7) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $88,200,000.

(8) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $270,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $17,330,000, of which not more than $14,027,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2858 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2401 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2404. EXTENSION OF PRIOR YEAR AUTHORIZATIONS.

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), the authorizations for the following projects authorized in sections 401 and 402 of such Act shall remain in effect until October 1, 1987, or the date of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Defense property disposal office in the amount of $1,950,000 at Pearl Harbor Naval Shipyard, Hawaii.

(2) Six family housing units at classified locations in the amount of $693,000.

## TITLE V—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

SEC. 2501. AUTHORITY OF THE SECRETARY OF DEFENSE TO MAKE CONTRIBUTIONS.

(a) IN GENERAL.—The Secretary of Defense may make contributions for the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2502 and the amount collected from the North Atlantic Treaty Organization as a result of construction previously financed by the United States.

(b) LIMITATION.—The Secretary may obligate funds under this section only to the extent funds are appropriated for use under section 2806 of title 10, United States Code.

SEC. 2502. AUTHORIZATION OF APPROPRIATIONS, NATO.

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of

the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program as authorized by section 2501, in the amount of $247,000,000.

SEC. 2503. AMENDMENT TO NATO INFRASTRUCTURE PROGRAM.

(a) IN GENERAL.—Section 2806(a) of title 10, United States Code, is amended by inserting "and for related expenses" after "headquarters)".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, and shall apply only with respect to contributions made with funds appropriated for fiscal years after fiscal year 1986.

SEC. 2504. RESTRICTION ON CERTAIN FUNDING.

The Secretary of Defense may not obligate or expend any funds after fiscal year 1987 with respect to the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, until the Secretary submits to the Committees on Armed Services of the Senate and the House of Representatives—

(1) a comprehensive master plan for establishing adequate active defenses for—

(A) air bases in Europe at which operations of United States aircraft are planned; and

(B) sites in Europe used by the United States for logistic support of the North Atlantic Treaty Organization or for prepositioned overseas materiel configured to unit sets; and

(2) a report containing a certification by the Secretary that sufficient funds have been budgeted by the Department of Defense in the fiscal year 1988 five-year defense plan to meet the objectives of such comprehensive master plan.

## TITLE VI—GUARD AND RESERVE FORCES FACILITIES

SEC. 2601. AUTHORIZATION FOR GUARD AND RESERVE FACILITIES.

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $121,100,000, and

(B) for the Army Reserve, $86,700,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $44,500,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $140,000,000, and

(B) for the Air Force Reserve, $58,900,000.

## TITLE VII—GENERAL PROVISIONS

### PART A—EXPIRATION OF AUTHORIZATIONS

SEC. 2701. EXPIRATION OF AUTHORIZATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), all authorizations contained in titles I, II, III, IV, and V for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later.

(b) EXCEPTION.—The provisions of subsection (a) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

### PART B—MILITARY CONSTRUCTION PROGRAM PROVISIONS

SEC. 2711. CODIFICATION OF CERTAIN AMOUNTS REQUIRED TO BE SPECIFIED BY LAW.

(a) MAXIMUM AMOUNT FOR UNSPECIFIED MINOR MILITARY CONSTRUCTION PROJECTS.—Section 2805 of title 10, United States Code, is amended—

(1) in subsection (a), by striking out "the amount specified by law as the maximum amount for a minor military construction project" in clause (2) and inserting in lieu thereof "$1,000,000";

(2) in subsection (b)(1), by striking out "50 percent" and all that follows through "project" and inserting in lieu thereof "$500,000"; and

(3) in subsection (c), by striking out "20 percent" and all that follows through "project" and inserting in lieu thereof "$200,000".

(b) MAXIMUM AMOUNT FOR ARCHITECTURAL AND ENGINEERING SERVICES.—Section 2807(b) of such title is amended by striking out "the maximum amount specified by law for the purposes of this section" and inserting in lieu thereof "$300,000".

(c) MAXIMUM AMOUNT PER UNIT FOR AN IMPROVEMENT PROJECT FOR FAMILY HOUSING UNITS.—Section 2825(b)(1) of such title is amended by striking out "an amount specified by law for such purpose" and inserting in lieu thereof "$30,000".

(d) MAXIMUM ANNUAL RENTAL FOR A FAMILY HOUSING UNIT IN THE UNITED STATES.—Section 2828(b) of such title is amended—

(1) in paragraph (2), by striking out "the amount specified by law as the maximum annual domestic family housing unit lease amount" and inserting in lieu thereof "$10,000"; and

(2) in paragraph (3)(A), by striking out "the maximum annual domestic" and all that follows through the period and inserting in lieu thereof "$10,000 but does not exceed $12,000.".

(e) MAXIMUM ANNUAL RENTAL FOR A FAMILY HOUSING UNIT OUTSIDE THE UNITED STATES.—Section 2828(e)(1) of such title is amended by striking out "the amount specified by law as the maximum annual foreign family housing unit lease amount" and inserting in lieu thereof "$16,800".

(f) MAXIMUM NUMBER OF FAMILY HOUSING UNITS LEASED IN FOREIGN COUNTRIES.—Section 2828(e)(2) of such title is amended by striking out "shall be specified by law" and inserting in lieu thereof "is 32,000".

(g) MAXIMUM ANNUAL RENTAL FOR FAMILY HOUSING FACILITIES, OR FOR REAL PROPERTY RELATED TO FAMILY HOUSING FACILITIES, LEASED IN A FOREIGN COUNTRY.—Section 2828(f) of such title is amended by striking out "the amount specified by law for such purpose" and inserting in lieu thereof "$250,000".

SEC. 2712. FAMILY HOUSING IN FOREIGN COUNTRIES.

(a) IN GENERAL.—Subsection 2828(e)(1) of title 10, United States Code, is amended by striking out "200" and inserting in lieu thereof "220".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply only with respect to funds appropriated for fiscal years after fiscal year 1986.

SEC. 2713. PLANNING AND DESIGN.

(a) IN GENERAL.—Section 2807 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(d) For study, planning, design, architectural, and engineering services related to military construction and family housing projects, the Secretaries of the military departments may incur obligations for contracts or portions of contracts using military construction and family housing appropriations from different fiscal years to the extent that those appropriations are available for obligation.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only to funds appropriated for fiscal years after fiscal year 1986.

SEC. 2714. BUDGETING FOR GUARD AND RESERVE.

Section 2859 of title 10, United States Code, is amended by adding at the end the following sentence: "Beginning with fiscal year 1988, the Secretary of Defense shall provide that at least 10 percent of the total amount requested for military construction authorization (excluding the amount requested for military family housing) for a fiscal year shall be requested for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of this title (including the cost of acquisition of land for those facilities).".

### PART C—REAL PROPERTY TRANSACTIONS

SEC. 2721. PROPERTY MANAGEMENT.

In accordance with the provisions of section 202 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 483) governing transfers of excess property, the Administrator of General Services shall transfer, without reimbursement, to the Secretary of the Army approximately 235 acres of real property (and improvements thereon) near Beltsville, Maryland, for such use as the Secretary of the Army considers appropriate.

SEC. 2722. AUTHORIZATION OF LAND CONVEYANCE TO CITY OF ARCADIA, CALIFORNIA.

(a) IN GENERAL.—Subject to subsection (b), the County of Los Angeles, California, may convey the land described in the Act entitled "An Act to convey certain land in the county of Los Angeles, State of California", approved March 24, 1933, to the City of Arcadia, California.

(b) REVERTER.—Any conveyance made under subsection (a) may be made only on the condition that the land shall revert to the United States if it is used for purposes other than public park, playground, and recreation purposes.

### PART D—MISCELLANEOUS

SEC. 2731. PROHIBITION OF FUNDING FOR CERTAIN MILITARY CONSTRUCTION CONTRACTS ON GUAM.

(a) IN GENERAL.—Except as provided in subsection (b), funds appropriated pursuant to any authorization made by this division may not be expended with respect to any contract for a military construction project on Guam if any work is carried out on such project by any person who is a nonimmigrant described in section 101(a)(15)(H)(ii) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)).

(b) EXCEPTION.—In any case in which there is no acceptable bid made in response to a solicitation by the Secretary of a military department for bids on a contract for a mili-

tary construction project on Guam and the Secretary concerned makes a determination that the prohibition contained in subsection (a) is a significant deterrent to obtaining bids on such contract, the Secretary concerned may make another solicitation for bids on such contract and the prohibition contained in subsection (a) shall not apply to such contract after the end of the 21-day period beginning on the date on which the Secretary concerned transmits a report concerning such contract to the Committees on Armed Services of the Senate and the House of Representatives.

(c) EFFECTIVE DATE.—This section shall apply only to contracts entered into, amended, or otherwise modified on or after the date of the enactment of this division.

SEC. 2732. POSTAL FACILITIES.

(a) ARMY.—Section 4779 of title 10, United States Code, is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

(b) AIR FORCE.—Section 9779 of such title is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

SEC. 2733. REPORT.

The Secretary of the Army shall, within 45 days of the date of the enactment of this Act, submit a real estate acquisition report for the lease of temporary facilities located in Rio Rancho, New Mexico, for the Hawk Missile Battalion of the New Mexico Army National Guard that is to be permanently located near Rio Rancho, New Mexico.

## DIVISION C—OTHER NATIONAL DEFENSE AUTHORIZATIONS

## TITLE I—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

SEC. 3001. SHORT TITLE.

This title may be cited as the "Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987".

### PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

SEC. 3011. OPERATING EXPENSES.

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,327,454,000, to be allocated as follows:

(A) For research and development, $895,200,000, of which $17,000,000 shall be used for the plasma separation process program.

(B) For weapons testing, $539,800,000.

(C) For production and surveillance, $1,833,604,000.

(D) For program direction, $58,850,000.

(2) For the defense inertial confinement fusion program, $148,200,000, to be allocated as follows:

(A) $61,000,000 shall be used to support the program at the Lawrence Livermore National Laboratory.

(B) $33,000,000 shall be used to support the program at the Los Alamos National Laboratory.

(C) $29,000,000 shall be used to support the program at the Sandia National Laboratory, Albuquerque, New Mexico.

(D) $25,200,000 shall be used for supporting services.

(3) For verification and control technology, $90,500,000.

(4) For defense nuclear materials production, $1,565,990,000, to be allocated as follows:

(A) For uranium enrichment for naval reactors, $176,000,000.

(B) For other uranium enrichment, $14,500,000.

(C) For production reactor operations, $616,660,000.

(D) For processing of defense nuclear materials, including naval reactors fuel, $493,830,000, of which $70,900,000 shall be used for special isotope separation.

(E) For supporting services, $242,100,000.

(F) For program direction, $22,900,000.

(5) For defense nuclear waste and byproduct management, $431,050,000, to be allocated as follows:

(A) For interim waste management, $314,345,000.

(B) For long-term waste management technology, $75,205,000.

(C) For terminal waste storage, $39,100,000.

(D) For program direction, $2,400,000.

(6) For nuclear materials safeguards and security technology development program, $60,100,000.

(7) For security investigations, $33,300,000.

(8) For naval reactors development, $523,800,000.

SEC. 3012. PLANT AND CAPITAL EQUIPMENT.

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for plant and capital equipment (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 87-D-101, general plant projects, various locations, $29,000,000.

Project 87-D-121, general plant projects, various locations, $32,000,000.

Project 87-D-122, short-range attack missile II (SRAM II) warhead production facilities, various locations, $5,000,000.

Project 87-D-123, protective clothing decontamination facility, Rocky Flats Plant, Golden, Colorado, $500,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $5,300,000, for a total project authorization of $9,000,000.

Project 86-D-104, strategic defenses facility, Sandia National Laboratories, Albuquerque, New Mexico, $7,000,000, for a total project authorization of $11,000,000.

Project 86-D-105, instrumentation systems laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $5,800,000, for a total project authorization of $12,000,000.

Project 86-D-106, laboratory data communications center, Los Alamos National Laboratory, Los Alamos, New Mexico, $1,000,000, for a total project authorization of $4,000,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $2,420,000, for a total project authorization of $5,420,000.

Project 86-D-123, environmental hazards elimination, various locations, $16,840,000, for a total project authorization of $25,540,000.

Project 86-D-124, safeguards and site security upgrading, Phase II, Mound Plant, Miamisburg, Ohio, $1,880,000, for a total project authorization of $4,880,000.

Project 86-D-125, safeguards and site security upgrade, Phase II, Pantex Plant, Amarillo, Texas, $8,410,000, for a total project authorization of $9,910,000.

Project 86-D-130, tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $29,700,000, for a total project authorization of $34,700,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, Phase I, various locations, $29,950,000, for a total project authorization of $130,750,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $6,500,000, for a total project authorization of $27,600,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Las Vegas, Nevada, $5,400,000, for a total project authorization of $20,000,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $330,000, for a total project authorization of $3,030,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $19,000,000, for a total project authorization of $38,800,000.

Project 85-D-113, power plant and steam distribution system, Pantex Plant, Amarillo, Texas, $1,790,000, for a total project authorization of $24,790,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $13,440,000, for a total project authorization of $34,040,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $9,160,000, for a total project authorization of $28,160,000.

Project 85-D-125, tactical bomb production facilities, various locations, $12,800,000, for a total project authorization of $28,800,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $3,000,000, for a total project authorization of $40,500,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $13,300,000, for a total project authorization of $79,240,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $14,500,000, for a total project authorization of $155,200,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $9,280,000, for a total authorization of $38,280,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $27,220,000, for a total project authorization of $40,220,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, Phase III, various locations, $97,904,000, for a total project authorization of $838,304,000.

Project 82-D-144, simulation technology laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,000,000, for a total project authorization of $40,000,000.

(2) For materials production:

Project 87-D-146, general plant projects, various locations, $32,100,000.

Project 87-D-149, reduced chemical discharges to process sewers, Richland, Washington, $3,150,000.

Project 87-D-150, radioactive liquid effluent treatment facility, partial design only, Richland, Washington, $4,000,000.

Project 87-D-152, environmental protection plantwide, Savannah River, South Carolina, $1,500,000.

Project 87-D-159, environmental, health, and safety improvements, Phase I, Feed Materials Production Center, Fernald, Ohio, $10,000,000.

Project 86-D-149, productivity retention program, Phase I and II, various locations, $65,625,000, for a total project authorization of $89,825,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $2,760,000, for a total project authorization of $7,220,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $2,480,000, for a total project authorization of $4,980,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $8,410,000, for a total project authorization of $10,410,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina, $7,605,000, for a total project authorization of $9,105,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $15,650,000, for a total project authorization of $18,150,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $13,610,000, for a total project authorization of $16,610,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory, Idaho, $32,430,000, for a total project authorization of $54,430,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $23,500,000, for a total project authorization of $41,500,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $27,500,000, for a total project authorization of $53,300,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $5,765,000, for a total project authorization of $32,665,000.

Project 84-D-135, process facility modifications, Richland, Washington, $24,475,000, for a total project authorization of $56,975,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $500,000, for a total project authorization of $20,100,000.

Project 82-D-124, restoration of production capabilities, Phases II, III, IV, and V, various locations, $3,511,000, for a total project authorization of $352,045,000.

(3) For defense waste and byproducts management:

Project 87-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $24,535,000.

Project 87-D-172, WESF K-3 filter upgrade, Richland, Washington, $500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $2,800,000.

Project 87-D-174, 241-AQ tank farm, Richland, Washington, $2,100,000.

Project 87-D-175, steam system rehabilitation, Phase I, Richland, Washington, $900,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, Phase III, Idaho National Engineering Laboratory, Idaho, $700,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $2,000,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $960,000.

Project 86-D-172, B-plant F-filter, Richland, Washington, $2,949,000, for a total project authorization of $3,949,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $8,072,000, for a total authorization of $10,572,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory, Idaho, $5,258,000, for a total project authorization of $7,258,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $1,044,000, for a total project authorization of $6,744,000.

Project 85-D-159, new waste transfer facilities, Savannah River, South Carolina, $4,118,000, for a total project authorization of $24,118,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory, Idaho, $2,703,000, for a total project authorization of $6,953,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $123,967,000, for a total project authorization of $721,467,000.

(4) For naval reactors development:

Project 87-N-101, general plant projects, various locations, $4,800,000.

Project 87-N-102, Kesselring site facilities upgrade, Knolls Atomic Power Laboratory, West Milton, New York, $5,000,000.

Project 87-N-103, computation laboratory addition, Bettis Atomic Power Laboratory, West Mifflin, Pennsylvania, $2,300,000.

(5) For capital equipment not related to construction:

(A) For weapons activities, $273,570,000.

(B) For the defense inertial confinement fusion program, $9,500,000.

(C) For materials production, $110,120,000.

(D) For defense waste and byproducts management, $35,505,000.

(E) For verification and control technology, $4,200,000.

(F) For nuclear safeguards and security, $4,800,000.

(G) For naval reactors development, $46,700,000.

SEC. 3013. AUTHORIZATION FOR STRATEGIC DEFENSE INITIATIVE.

Of the funds authorized to be appropriated in sections 3011 and 3012, $371,000,000 is authorized for programs, projects, and activities of the Strategic Defense Initiative.

PART B—RECURRING GENERAL PROVISIONS

SEC. 3021. REPROGRAMMING.

(a) NOTICE TO CONGRESS.—(1) Except as otherwise provided in this title—

(1) no amount appropriated pursuant to this title may be used for any program in excess of 105 percent of the amount authorized for that program by this title or $10,000,000 more than the amount authorized for that program by this title, whichever is the lesser, and

(2) no amount appropriated pursuant to this title may be used for any program which has not been presented to, or requested of, the Congress,

unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy (hereinafter in this part referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

SEC. 3022. LIMITS ON GENERAL PLANT PROJECTS.

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this title if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the Committees on Armed Services and Appropriations of the Senate and House of Representatives explaining the reasons for the cost variation.

SEC. 3023. LIMITS ON CONSTRUCTION PROJECTS.

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 3012 of this title, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 3024. FUND TRANSFER AUTHORITY.

(a) IN GENERAL.—Funds appropriated pursuant to this title may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

(b) SPECIFIC TRANSFER.—The Secretary of Defense may transfer to the Secretary of Energy not more than $200,000,000 of the funds appropriated for fiscal year 1987 to the Department of Defense for research, development, test, and evaluation for the Defense Agencies for the performance of the work for which the funds were authorized to be appropriated, and funds so transferred shall be merged with appropriations of the Department of Energy. The authority granted in this subsection may not be exercised until—

(1) the Secretary of Defense notifies the Committees on Armed Services and Appropriations of the Senate and House of Representatives of the intent of the Secretary to exercise such authority; and

(2) a period of 30 days passes after such Committees receive such notification.

SEC. 3025. AUTHORITY FOR CONSTRUCTION DESIGN.

(a) IN GENERAL.—(1) Within the amounts authorized by this title for plant engineering and design, the Secretary may carry out advance planning and construction designs (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such planning and design does not exceed $2,000,000.

(2) In any case in which the total estimated cost for such planning and design exceeds $300,000, the Secretary shall notify the Committees on Armed Services and Appropriations of the Senate and House of Representatives in writing of the details of such project at least 30 days before any funds are obligated for design services for such project.

(b) SPECIFIC AUTHORITY REQUIRED.—In any case in which the total estimated cost for advance planning and construction design in connection with any construction project exceeds $2,000,000, funds for such design must be specifically authorized by law.

SEC. 3026. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN.

In addition to the advance planning and construction design authorized by section 3012, the Secretary may perform planning and design utilizing available funds for any Department of Energy defense activity construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 3027. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY.

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3028. ADJUSTMENTS FOR PAY INCREASES.

Appropriations authorized by this title for salary, pay, retirement, or other benefits for Federal employees may be increased by such amounts as may be necessary for increases in such benefits authorized by law.

SEC. 3029. AVAILABILITY OF FUNDS.

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART C—SPECIAL PROGRAM PROVISIONS

SEC. 3031. PROTECTION OF SENSITIVE TECHNICAL INFORMATION.

(a) SECRETARY OF ENERGY DETERMINATION.—Whenever any invention or discovery is made or conceived in the course of or under any Government contract or subcontract of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy, the Secretary of Energy shall decide (in each such case) whether to assert, or not to assert, a claim that such invention or discovery is the property of the Government. Any such decision shall be made within a reasonable time.

(b) MILITARY LIAISON COMMITTEE.—In making a determination under this section, the Secretary shall consider the recommendation and written determination of the Military Liaison Committee (established by section 27 of the Atomic Energy Act of 1954 (42 U.S.C. 2037)) as to whether or not, if such a claim is not asserted—

(1) national security will be compromised;

(2) sensitive technical information (whether classified or unclassified) under the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy for which dissemination is controlled under Federal statutes and regulations will be released to unauthorized persons;

(3) an organizational conflict of interest contemplated by Federal statutes and regulations will result; or

(4) failure to assert such a claim will adversely affect the operation of any program of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy.

(c) CONSULTATIONS BY COMMITTEE.—(1) In making a recommendation and determination under subsection (b) for matters pertaining to the Naval Nuclear Propulsion Program, the Committee shall consult the Director of that program.

(2) In making a recommendation and determination under subsection (b) for matters affecting nuclear weapons and other atomic energy defense activities of the Department of Energy, the Committee shall consult the Assistant Secretary of Energy for Defense Programs.

(d) CONSULTATION WITH SECRETARY OF DEFENSE.—In carrying out this section, the Secretary of Energy shall consult with the Secretary of Defense.

SEC. 3032. RESTRICTION ON USE OF FUNDS TO PAY PENALTIES UNDER ENVIRONMENTAL LAWS.

Funds appropriated to the Department of Energy for fiscal year 1987 pursuant to authorizations of appropriations in this title for the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy may not be used to pay a penalty, fine, forfeiture, or settlement in regard to a defense activity or facility of the Department of Energy due to a failure to comply with any environmental requirement, or to perform work or services required by another Federal agency or by a State or local agency in regard to a defense activity or facility of the Department of Energy due to a failure to comply with any environmental requirement, if—

(1) the Secretary of Energy finds that, from a practical standpoint, compliance with that requirement was, or is, impossible within the time prescribed for compliance with such requirement; or

(2) the President has specifically requested appropriations for compliance with such requirement and funds have not been appropriated for such purpose or funds appropriated for such purpose have been sequestered, deferred, or rescinded by law.

SEC. 3033. STUDY OF PRODUCTION REACTOR SAFETY.

(a) REQUIREMENT FOR INDEPENDENT STUDY.—(1) The Secretary of Energy shall request the National Academy of Sciences and the National Academy of Engineering—

(A) to make an independent assessment of the safety of continuing operations of the "N" Production Reactor, located near Richland, Washington, including any technical and safety issues raised by the nuclear reactor accident at Chernobyl in the Soviet Union; and

(B) to provide a report on such assessment, together with findings and recommendations, concurrently to Congress and the Secretary not later than March 1, 1987.

(2) The assessment should—

(A) be made by distinguished scientists and engineers drawn from the councils of the National Academy of Sciences, the National Academy of Engineering, and the National Institute of Medicine chosen with regard for their special competence and expertise; and

(B) be conducted in a manner that would allow for appropriate public participation in the review process consistent with statutory requirements to prevent the unauthorized disclosure of classified information.

(b) REVIEW AND COMMENT BY SECRETARY.—The Secretary shall review the findings and recommendations contained in the report under subsection (a) and shall separately provide to Congress a report containing—

(1) the Secretary's comments on such findings and recommendations; and

(2) a description (including cost assessments) of plans of the Secretary to correct any technical problems described in the report or to carry out recommendations set forth in the report.

SEC. 3034. COMMUNITY ASSISTANCE PAYMENTS.

Section 1532 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1986 (title XV of Public Law 99-145; 99 Stat. 773) is amended by adding at the end the following new subsection:

"(d) RULE OF CONSTRUCTION.—The authority of the Secretary of Energy under subsection (a) to provide a final financial settlement with Anderson County and Roane County, Tennessee, and with the City of Oak Ridge, Tennessee, and terminate all annual assistance payments made to those entities pursuant to section 91 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2391) does not affect any other right, function, or duty of the Secretary with respect to such Act (42 U.S.C. 2301), and the Secretary shall consider the purposes of such Act a continuing atomic energy defense function of the Department of Energy.".

SEC. 3035. AUTHORITY FOR DEPARTMENT OF ENERGY CONTRACTOR EMPLOYEES TO CARRY FIREARMS BEYOND BOUNDARIES OF A DOE FACILITY.

Section 161k. of the Atomic Energy Act of 1954 is amended—

(1) by inserting "and subcontractors (at any tier)" in the second sentence after "employees of its contractors";

(2) by striking out "owned by the United States and" in the second sentence and in-

serting in lieu thereof "under the jurisdiction of the United States";

(3) by inserting "or being transported to or from such facilities" in the second sentence after "contracted to the United States";

(4) by inserting after the third sentence the following new sentence: "An employee of a contractor or subcontractor authorized to carry firearms under this subsection may make such arrests only when the individual to be arrested is within, or in direct flight from, the area of such offense."; and

(5) by striking out the semicolon at the end and inserting in lieu thereof the following: ". The Secretary, with the approval of the Attorney General, shall issue guidelines to implement this subsection;".

## TITLE II—NATIONAL DEFENSE STOCKPILE

SEC. 3101. SHORT TITLE.

This title may be cited as the "Strategic and Critical Materials Stock Piling Amendments of 1986".

SEC. 3102. STOCKPILE REQUIREMENTS.

(a) PURPOSE OF STOCKPILE.—Section 2 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98a) is amended by adding at the end the following new subsection:

"(c) It is the intent of Congress—

"(1) that the National Defense Stockpile be used to serve the interest of national defense only and not be used for economic or budgetary purposes; and

"(2) that the quantities of materials stockpiled under this Act should be sufficient to sustain the United States for a period of not less than three years in the event of a national emergency.".

(b) ESTABLISHMENT OF STOCKPILE REQUIREMENTS BY LAW.—Section 3 of such Act (50 U.S.C. 98b) is amended to read as follows:

"ESTABLISHMENT BY LAW OF STOCKPILE REQUIREMENTS

"SEC. 3. (a) The materials that are strategic and critical materials for the purposes of this Act, and the quality and quantity of each such material to be acquired for the purposes of this Act and the form in which each such material shall be acquired and stored, shall be established by law.

"(b) Such materials when acquired, together with the other materials described in section 4, shall constitute and be collectively known as the National Defense Stockpile (hereinafter in this Act referred to as the 'stockpile').

"(c) Determinations under subsection (a) shall be known as 'stockpile requirements'.".

(c) INITIAL LEVEL OF STOCKPILE REQUIREMENTS.—The determinations in effect as of October 1, 1984, under section 3(a) of the Strategic and Critical Materials Stock Piling Act shall be the stockpile requirements for the purposes of such section, as amended by this title, until otherwise provided by law.

SEC. 3103. TRANSFER OF CERTAIN STOCKPILE FUNCTIONS TO THE SECRETARY OF DEFENSE.

(a) IN GENERAL.—Sections 5, 6, 10, and 11 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d, 98e, 98h-1, 98h-2) are amended by striking out "President" each place it appears and inserting in lieu thereof "Secretary".

(b) DEFINITION OF SECRETARY.—Section 12 of such Act (50 U.S.C. 98h-3) is amended by adding at the end the following new paragraph:

"(3) The term 'Secretary' means the Secretary of Defense.".

(c) TECHNICAL AMENDMENT.—Section 11(b) of such Act (50 U.S.C. 98h-1) is amended by striking out "each year" and all that follows through "the next fiscal year" and inserting in lieu thereof "each year, at the time that the Budget is submitted to Congress pursuant to section 1105 of title 31, United States Code, for the next fiscal year,".

SEC. 3104. ANNUAL RECOMMENDATION OF STOCKPILE REQUIREMENTS BY SECRETARY OF DEFENSE.

The Strategic and Critical Materials Stock Piling Act is amended by adding at the end the following new section:

"ANNUAL RECOMMENDATIONS BY SECRETARY OF DEFENSE

"SEC. 14. (a) IN GENERAL.—In order to assist Congress in establishing stockpile requirements under section 3, the Secretary shall submit to Congress an annual report on stockpile requirements. Each such report shall be submitted with the annual report submitted under section 11(b) and shall include—

"(1) the Secretary's recommendations with respect to stockpile requirements; and

"(2) the matters required under subsections (b) through (e).

"(b) NATIONAL EMERGENCY PLANNING ASSUMPTIONS.—Each report under this section shall set forth the national emergency planning assumptions used in determining the stockpile requirements recommended by the Secretary. Assumptions to be set forth include assumptions relating to each of the following:

"(1) Length and intensity of the assumed emergency.

"(2) The military force structure to be mobilized.

"(3) Losses from enemy action.

"(4) Military, industrial, and essential civilian requirements to support the national emergency.

"(5) The availability of supplies of strategic and critical materials from foreign sources, taking into consideration possible shipping losses.

"(6) Domestic production of strategic and critical materials.

"(7) Civilian austerity measures.

"(c) CONSIDERATION OF MATERIALS BASED ON NET IMPORT RELIANCE.—

"(1) IN GENERAL.—In determining the materials to be recommended to Congress under subsection (a)(1) as strategic and critical materials (and the quantity and quality of such materials to be recommended), the Secretary shall consider—

"(A) whether each of the materials determined under paragraph (3) should be recommended as a strategic and critical material; and

"(B) in the case of any such material, whether the quantity determined under paragraph (5) with respect to such material is the appropriate quantity of such material to be established by Congress as the stockpile requirement for that material.

"(2) MATTERS TO BE INCLUDED IN REPORT.—In each report under this section, the Secretary shall identify—

"(A) each material determined under paragraph (3); and

"(B) the quantity determined under paragraph (5) with respect to each such material.

"(3) MATERIALS TO BE IDENTIFIED.—The Secretary shall identify each material that the Secretary determines is necessary for the security of the United States, essential to the economy of the United States, and obtained from foreign sources.

"(4) CLASSIFICATION OF MATERIALS BASED ON NET IMPORT RELIANCE.—Each of the materials identified under paragraph (3) shall be classified by the Secretary for the purposes of this section as follows:

"(A) CLASS A MATERIALS.—A material shall be classified as a class A material if—

"(i) the material is not produced in the United States or is produced in the United States in limited quantities; and

"(ii) the net import reliance of the United States for the material is greater than or equal to 65 percent.

"(B) CLASS B MATERIALS.—A material shall be classified as a class B material if—

"(i) the material is produced in the United States but is not available in sufficient quantities in the United States; and

"(ii) the net import reliance of the United States for the material is greater than or equal to 30 percent but less than 65 percent.

"(C) CLASS C MATERIALS.—A material shall be classified as a class C material if—

"(i) the material is produced in substantial quantities in the United States; and

"(ii) the net import reliance of the United States for the material is less than 30 percent.

"(5) QUANTITY TO BE DETERMINED.—For each material identified under paragraph (3), the Secretary shall determine the following:

"(A) CLASS A MATERIALS.—In the case of a material classified under paragraph (4) as a class A material, the Secretary shall determine the quantity of such material equal to three years' net imports of such material.

"(B) CLASS B MATERIALS.—In the case of a material classified under paragraph (4) as a class B material, the Secretary shall determine the quantity of such material equal to two years' net imports of such material.

"(C) CLASS C MATERIALS.—In the case of a material classified under paragraph (4) as a class C material, the Secretary shall determine the quantity of such material equal to one year's net imports of such material.

"(6) DETERMINATION OF NET IMPORTS.—For purposes of paragraph (5), a year's net imports of a material is the quantity of the material equal to the amount by which—

"(A) the sum of—

"(i) the average annual imports of such material into the United States during the base period; and

"(ii) the average annual shipment of such material from the stockpile as excess material during the base period; exceeds

"(B) the average annual exports of such material from the United States during the base period.

"(7) BASE PERIOD DEFINED.—For purposes of paragraph (6), the term 'base period' means the most recent period of five calendar years for which data is available.

"(d) EFFECT OF ESTABLISHING STOCKPILE REQUIREMENTS IN ACCORDANCE WITH DETERMINATIONS UNDER SUBSECTION (c).—The Secretary shall include in each report under this section an analysis of the effect (including the cost and the impact on world markets) of establishing the stockpile requirements in accordance with the materials, and the quantities of materials, identified under subsection (c).

"(e) DIFFERENCES BETWEEN RECOMMENDATIONS AND NET IMPORT RESULTS.—When the stockpile requirements recommended by the Secretary in a report under this section differ from the materials and quantities that are identified under subsection (c), the Secretary shall also include in the report a detailed explanation for such differences, including—

"(1) a description of the assumptions used to determine the recommended stockpile requirements; and

"(2) a detailed analysis supporting the recommended quantity and quality for each

material recommended as a strategic and critical material.

"(f) PERIODIC REVIEW.—The Secretary shall conduct a detailed review of the stockpile requirement for each strategic and critical material at least once every five years. If the Secretary determines at any time that the stockpile requirement for a material should be revised, the Secretary shall submit to Congress a report that—

"(1) notifies Congress of that determination;

"(2) sets forth the Secretary's recommended stockpile requirement for that material; and

"(3) sets forth the assumptions used by the Secretary in determining that recommended requirement.".

SEC. 3105. STOCKPILE MANAGEMENT.

The Strategic and Critical Materials Stock Piling Act is amended by adding after section 14 (as added by section 3104) the following new sections:

"INTERAGENCY AGREEMENTS

"SEC. 15. (a) AUTHORITY TO ENTER INTO AGREEMENTS.—The Secretary may enter into an interagency agreement with the head of any other department or agency for the performance of functions of the Secretary relating to section 6.

"(b) REIMBURSEMENT.—The Secretary shall reimburse the head of any such agency for expenses incurred by that agency in the administration of functions relating to the stockpile assigned to that agency by the Secretary under such an interagency agreement.

"APPROPRIATIONS TO BE MADE TO DEPARTMENT OF DEFENSE

"SEC. 16. Appropriations for the operation and management of the stockpile and for deposit to the National Defense Stockpile Transaction Fund shall be made as part of appropriations made to the Department of Defense for the military functions of the Department.".

SEC. 3106. EXTENSION OF USES OF STOCKPILE TRANSACTION FUND AND CODIFICATION OF REVOLVING FUND PROVISIONS.

(a) IN GENERAL.—Section 9(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)) is amended—

(1) by striking out the second sentence of paragraph (1); and

(2) by striking out paragraphs (2) and (3) and inserting in lieu thereof the following:

"(2) Subject to section 5(a)(1), moneys covered into the fund under paragraph (1) are hereby made available (subject to such limitations as may be provided in appropriation Acts) for—

"(A) the acquisition of strategic and critical materials under section 6(a)(1);

"(B) transportation, storage, and other incidental expenses related to such acquisition;

"(C) development of current specifications of stockpile materials and the upgrading of existing stockpile materials to meet current specifications (including transportation related to such upgrading);

"(D) testing and quality studies of stockpile materials; and

"(E) other reasonable requirements for management of the stockpile.

"(3) Moneys in the fund shall remain available until expended.".

(b) CONFORMING AMENDMENT.—Section 110 of Public Law 97-377 (96 Stat. 1911) is amended by striking out "Notwithstanding" and all that follows through "That during" and inserting in lieu thereof "During".

(c) APPLICABILITY OF AMENDMENTS.—The amendments made by subsection (a) apply with respect to funds covered into the National Defense Stockpile Fund before, on, or after the date of the enactment of this Act.

SEC. 3107. MISCELLANEOUS TECHNICAL AMENDMENTS.

(a) TECHNICAL AMENDMENTS.—Section 4(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c(a)) is amended—

(1) by striking out "on the day before the date of the date of the enactment of the Strategic and Critical Materials Stock Piling Revision Act of 1979" in paragraphs (1) and (3) and inserting in lieu thereof "on July 29, 1979", and

(2) by striking out "on or after the date of the enactment of the Strategic and Critical Materials Stock Piling Revision Act of 1979" in paragraph (2) and inserting in lieu thereof "after July 29, 1979".

(b) CLARIFYING AMENDMENT.—Section 6(a)(3) of such Act (50 U.S.C. 98e(a)(3)) is amended by striking out "the form most" and inserting in lieu thereof "a form more".

## TITLE III—CIVIL DEFENSE

SEC. 3201. AUTHORIZATION OF APPROPRIATIONS FOR CIVIL DEFENSE FUNCTIONS.

There is hereby authorized to be appropriated for fiscal year 1987 the sum of $126,565,000 to carry out the provisions of the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.).

## DIVISION D—MISCELLANEOUS GENERAL PROVISIONS

SEC. 4001. CLERICAL AMENDMENTS.

(a) AMENDMENTS TO TITLE 10.—Title 10, United States Code, is amended as follows:

(1) The text of section 775 (as amended by section 502) is amended to read as follows:

"This chapter applies in—

"(1) the United States;

"(2) the territories, commonwealths, and possessions of the United States; and

"(3) all other places under the jurisdiction of the United States.".

(2) Section 976(a)(1) is amended by striking out the second comma before "(B)".

(3) Section 1035 is amended—

(A) by striking out "armed force" in subsection (a) and inserting in lieu thereof "armed forces"; and

(B) by striking out "the date designated by the President by Executive order as the date of the termination of combatant activities in Vietnam" in subsection (b) and inserting in lieu thereof "May 7, 1975".

(4) Section 1087(b)(2) is amended by striking out "title XVIII" and all that follows and inserting in lieu thereof "title XVIII of the Social Security Act (42 U.S.C. 1395c et seq.).".

(5) Section 1094(d) is amended by realigning paragraph (2) so as to be indented two ems (rather than four ems).

(6) Section 1208 (a)(2)(A) is amended by striking out "after February 2, 1901".

(7) Section 1216(d) is amended by striking out "who is in pay grade" and all that follows through "Air Force" and inserting in lieu thereof "who is a general officer or flag officer or is a medical officer".

(8)(A) Section 1447(2)(A) is amended by striking out "or retainer" both places it appears.

(B) Section 1448(a)(5) is amended by striking out "an annuity by virtue of eligiblity under paragraph (1)(B)" in the fourth sentence and inserting in lieu thereof "a reserve-component annuity".

(C) Section 1450(c) is amended by inserting "dependency and indemnity" before "compensation" the first place it appears in the first sentence.

(D) Section 1451(a)(1)(A) is amended by striking out "subsection" and inserting in lieu thereof "section".

(E) Section 1452(h) is amended by striking out "and retainer".

(9) Section 1603 is amended—

(A) by striking out "this" after "Nothing in"; and

(B) by striking out "this sections 1601 and 1602 of this title" and inserting in lieu thereof "those sections".

(10) The heading of section 1623 is amended to read as follows:

"§ 1623. Education, training, and experience requirements: flag and general officers".

(11) Section 2236(b) is amended by striking out ", territory, the Commonwealth of Puerto Rico, or the District of Columbia, as the case may be,".

(12) The item relating to section 2319 in the table of sections at the beginning of chapter 137 is amended to read as follows:

"2319. Encouragement of new competitors.".

(13) Section 2302(2)(A) is amended by striking out "(41 U.S.C." and inserting in lieu thereof "(40 U.S.C.".

(14) Section 2304(b)(2) is amended by striking out "15 U.S.C. 639;" and inserting in lieu thereof "15 U.S.C. 638,".

(15) Section 2407(g)(2) is amended by striking out "the Military Cargo Preference Act of 1904 (10 U.S.C. 2631) and the Cargo Preference Act of 1954 (46 U.S.C. 1241(b))" and inserting in lieu thereof "section 2631 of this title and section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. App. 1241(b))".

(16) Section 2672 is amended—

(A) by inserting "(1)" in subsection (a) after "(a)";

(B) by striking out "he or his designee" in clause (A) of subsection (a) and inserting in lieu thereof "the Secretary";

(C) by designating the second sentence of subsection (a) as paragraph (2);

(D) by transferring the third sentence of subsection (a) to the end of the section and designating that sentence as subsection (c); and

(E) by striking out "interest" in the section heading and inserting in lieu thereof "interests".

(17)(A) Section 2676(c)(2)(B) is amended by striking out "the agreed" and all that follows through "exceeds the" and inserting in lieu thereof "the agreed price for the land or, in the case of land to be acquired by condemnation, the amount to be deposited with the court as just compensation for the land, exceeds the".

(B) The amendment made by subparagraph (A) shall take effect as if included in the enactment of section 802(2) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1519).

(18) Section 2683(b) is amended by striking out "this" before "subsection (a)".

(19) Section 2775 is amended—

(A) in subsection (a)(1), by striking out "it is" and all that follows through "that the" and inserting in lieu thereof "(as determined under regulations prescribed by the Secretary of Defense or the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy) the";

(B) in subsection (b)—

(i) by inserting a comma after "Secretary of Defense"

(ii) by striking out "when the Coast Guard" and inserting in lieu thereof "with respect to the Coast Guard when it"; and

(iii) by inserting a comma after "Navy"; and

(C) in subsection (e), by striking out "when the Coast Guard" and inserting in lieu thereof "with respect to the Coast Guard when it".

(20) Section 2809 is amended—

(A) in subsection (a)(1)—

(i) by striking out "contracts" and inserting in lieu thereof "a contract";

(ii) by striking out "facilities" the first place it appears and inserting in lieu thereof "a facility";

(iii) by striking out "military installations" and inserting in lieu thereof "a military installation";

(iv) by inserting a comma after "waste water treatment";

(v) by striking out "cases" and inserting in lieu thereof "a case"

(vi) by striking out "facilities" the second place it appears and inserting in lieu thereof "facility"; and

(vii) by striking out "long-term contracts" and inserting in lieu thereof "a long-term contract";

(B) in subsection (a)(2), by striking out "subsection (a)" and inserting in lieu thereof "this section";

(C) in subsection (a)(3), by striking out "twenty" and inserting in lieu thereof "20";

(D) in subsection (a)(4), by striking out "the" before "Congress"; and

(E) in subsection (b), by striking out "the authority of subsection (a) of".

(21)(A) Section 2860 is amended—

(i) by striking out "defense agency" and inserting in lieu thereof "to the Secretary of Defense";

(ii) by inserting "for obligation" after "remain available"; and

(iii) by striking out "the" before "appropriation Acts".

(B) The item relating to that section in the table of sections at the beginning of subchapter III of chapter 169 is amended by striking out the last three words.

(22) The items relating to chapter 138 in the table of chapters at the beginning of subtitle A, and in the table of chapters at the beginning of part IV of subtitle A, are amended by striking out "2321" and inserting in lieu thereof "2341".

(23) Section 5155(c) is amended by striking out "commodore" and inserting in lieu thereof "rear admiral (lower half)".

(24) The heading of section 5442 is amended by striking out the second colon and inserting in lieu thereof a semicolon.

(b) AMENDMENTS TO TITLE 37.—

(1) Section 302(h) is amended by striking out "paragraph (1) of this subsection" and inserting in lieu thereof "subsection (c)(2) or (f) of this section".

(2) Section 404(d)(1)(C) of title 37, United States Code, is amended by striking out "clause (1) of this subsection" and inserting in lieu thereof "subparagraph (A) of this paragraph".

(3) The heading of section 405a of such title is amended to read as follows:

"§ 405a. Travel and transportation allowances: departure allowances".

(c) AMENDMENTS TO TITLE 14.—Sections 256(b) and 288(a) of title 14, United States Code, are amended by striking out "commodore" and inserting in lieu thereof "rear admiral (lower half)".

SEC. 4002. TECHNICAL CORRECTION TO DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1985.

(a) CORRECTION OF BAQ SAVE-PAY.—Section 602(a)(2) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2534), is amended—

(1) by striking out "During the period" and all that follows through "paragraph (1)" and inserting in lieu thereof "(A) During the period described in subparagraph (B)";

(2) by striking out "on or after January 1, 1985, and before the date of any such change" and inserting in lieu thereof "during such period"; and

(3) by adding at the end the following:

"(B) The period referred to in subparagraph (A) is the period beginning on January 1, 1985, and ending on the effective date of a change made by law in the rates of basic allowance for quarters that increases the rates for such allowance to a level not less than 7 percent greater than the rates in effect on January 1, 1985.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

SEC. 4003. TECHNICAL CORRECTIONS TO PROVISIONS ENACTED BY DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1986.

(a) AVIATION PAY.—Paragraph (1) of section 301(a) of title 37, United States Code (as amended by section 635(a)(1)(A) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 647)), is amended to read as follows:

"(1) involving frequent and regular participation in aerial flight as a crew member, as determined by the Secretary concerned, except for a member who is entitled to incentive pay under section 301a of this title;".

(b) CLARIFICATION OF VHA SAVE PAY.—Section 602(f)(2) of the Department of Defense Authorization Act, 1985 (Public Law 98-525) (as amended by section 603(b) of the Department of Defense Authorization Act, 1986 (99 Stat. 637)), is amended—

(1) by striking out "departs that station as a result of" in subparagraph (B)(i) and inserting in lieu thereof "changes residence in conjunction with"; and

(2) in subparagraph (C)—

(A) by striking out "Any member" and inserting in lieu thereof "A member"; and

(B) by striking out "under paragraph" and all that follows and inserting in lieu thereof ", except that such a member serving an unaccompanied tour of duty in Alaska or Hawaii may be paid a variable housing allowance based on the residence of the member's dependents in another State.".

(c) DENTAL OFFICERS' SAVE PAY.—Section 639(d) of the Department of Defense Authorization Act, 1986 (99 Stat. 651), is amended—

(1) by striking out "shall be entitled to such pay in an annual amount that is not less than" and inserting in lieu thereof "may (notwithstanding the provisions of such section and in the discretion of the Secretary concerned) be paid such pay, in order to prevent inequities, in an annual amount equal to"; and

(2) by striking out "was entitled on September 30, 1985." and inserting in lieu thereof "would have been entitled on September 30, 1985, in accordance with the status of the officer (as determined by the Secretary concerned) during the period for which the pay is paid. Notwithstanding the preceding sentence, an officer may not be paid special pay by reason of this paragraph in an amount greater than the amount of special pay to which the officer was entitled under such sections on September 30, 1985.".

(d) RESERVE MEDICAL OFFICERS SPECIAL PAY.—Subparagraph (B) of section 302(h)(1) of title 37, United States Code (as amended by section 640 of the Department of Defense Authorization Act, 1986 (99 Stat. 652)), is amended to read as follows:

"(B) who is on active duty under a call or order to active duty for a period of less than one year;".

(e) REPEAL OF DUPLICATIVE AMENDMENTS.—Subsection (a) of section 1102 of the Department of Defense Authorization Act, 1986 (99 Stat. 708), and the amendments made by that subsection are repealed, and the Arms Export Control Act shall apply as if that subsection had not been enacted.

(f) CORRECTION OF SECTION REFERENCE.—Section 719(h)(1) of the Defense Production Act of 1950 (50 U.S.C. App. 2169(h)(1)), as amended by section 934(b) of such Act, is amended by striking out "Public Law 92-41" in the third sentence and inserting in lieu thereof "section 105(b)(2) of the Renegotiation Act of 1951".

(g) CORRECTION OF SECTION AMENDED.—Section 522(a)(2) of Department of Defense Authorization Act, 1986 (99 Stat. 631), is amended by striking out "Section 3851(c)" and inserting in lieu thereof "Section 3851(d)", and the subsection inserted by the amendment made by that section is redesignated as subsection (d).

(h) EFFECTIVENESS OF AMENDMENTS.—

(1) The amendments made by subsections (a) through (d) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

(2) The amendments made by subsections (f) and (g) shall apply as if included in the enactment of the Department of Defense Authorization Act, 1986 (Public Law 99-145).

SEC. 4004. CIVIL AIR PATROL.

(a) PAYMENT OF EXPENSES OF PLACING EQUIPMENT INTO SERVICEABLE CONDITION.—Section 9441(b)(9) of title 10, United States Code, is amended by striking out "a major item of equipment furnished to the Civil Air Patrol under clause (1)" and inserting in lieu thereof "major items of equipment (including aircraft, motor vehicles, and communications equipment) owned by the Civil Air Patrol".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to funds appropriated for fiscal years after fiscal year 1986.

Amend the title so as to read: "A bill to authorize appropriations for fiscal year 1987 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, to improve the defense acquisition process, and for other purposes.".

The CHAIRMAN pro tempore. Amendments printed in House Report 99-766 are in order at this point. Said amendments shall be considered only in the order listed and may be offered by the Members designated for each amendment in said report. The time on each amendment shall not exceed the time designated in said report, equally divided and controlled by the proponent and a Member opposed thereto. Debate is limited to 10 minutes on any amendment offered to said amendments or offered to a substitute for said amendments. Pro forma amendments for the purpose of debate are only in order if offered by the chairman or ranking minority member of the Committee on Armed Services. The Chair will announce the

number of the next eligible amendment.

Pursuant to the order of the House of today, the chairman of the Committee on Armed Services, or his designee, may make a unanimous-consent request in the Committee of the Whole to consider amendments printed in House Report 99-766 en bloc and if the unanimous consent is granted in Committee, said amendments shall not be subject to amendment or to a division of the question but shall be debatable for 30 minutes each,

Mr. DICKINSON. Mr. Chairman, I make the point of order that a quorum is not present.

The CHAIRMAN (Mr. ROSTENKOWSKI). Evidently a quorum is not present.

Members will record their presence by electronic device.

The call was taken by electronic device.

The following Members responded to their names:

□ 1435

The CHAIRMAN. Three hundred fifty Members have answered to their names, a quorum is present, and the Committee will resume its business.

Pending is amendment No. 1 offered by the gentleman from Florida [Mr. BENNETT].

AMENDMENT OFFERED BY MR. BENNETT

Mr. BENNETT. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. BENNETT: Page 8, line 18, strike out "$6,071,000,000" and insert in lieu thereof "$4,971,000,000".

At the end of part A of title I of division A (page 21, after line 14), add the following new sections:

SEC. 114. PROHIBITION ON USE OF FUNDS FOR MX MISSILE PROGRAM.

None of the funds appropriated or otherwise made available to the Air Force for fiscal year 1987 may be obligated or expended for test missiles under the MX missile program.

SEC. 115. INCREASED AUTHORIZATIONS FOR CONVENTIONAL WEAPONS PROGRAMS.

(a) ARMY.—The amount authorized to be appropriated in section 101(a)(4) for ammunition for the Army is increased by $85,000,000, none of which shall be available for nuclear weapons programs or chemical weapons programs.

(b) NAVY AND MARINE CORPS.—The amounts authorized to be appropriated in section 102 for the Navy and Marine Corps are increased as follows:

(1) For aircraft procurement, Navy, $46,800,000 of which—

(A) $45,800,000 is for modification of aircraft for the following progams and amounts:

(i) A-4 series, $10,000,000.

(ii) EA-6 series, $3,000,000.

(iii) F-4 series, $1,600,000.

(iv) SH-60 series, $1,800,000.

(v) Common ECM equipment $29,400,000.

(B) $1,000,000 is for repair parts for the AH-IT aircraft.

(2) For weapons procurement, Navy, $10,500,000 for Other Missiles Support.

(3) For Other Procurement, Navy $29,800,000, of which—

(A) $10,400,000 is for supply support equipment for automated materials handling systems; and

(B) $19,400,000 is for personnel and command support equipment for the following programs and amounts:

(i) Training Support Equipment, $5,100,000.

(ii) Commercial Support Equipment, $3,900,000.

(iii) Naval Reserve Support Equipment, $5,000,000.

(iv) Oceanographic Support Equipment, $5,400,000.

(4) For Marine Corps Procurement, $25,000,000, of which—

(A) $21,200,000 is for mortar ammunition.

(B) $3,800,000 is for weapons procurement for the following programs and amounts;

(i) Mortar, medium extended range, 100 units for $2,200,000.

(ii) Machine gun, auto saw 5.56-millimeter, $700,000.

(iii) Mk-19 40-millimeter machine gun, for $900,000.

(c) AIR FORCE.—The amount authorized to be appropriated in section 103 for Other Procurement, Air Force, is increased by $52,900,000 as follows:

(1) $37,900,000 for munitions and associated support costs, in quantities and amounts as follows:

(A) Cartridge caliber 5.56 millimeter, 28,193 units and $3,900,000.

(B) Cartridge 20 millimeter combat, 1,273 units and $3,700,000.

(C) Cartridge 30 millimeter API, 199 units and $8,300,000.

(D) Bomb hard target, 2000 pound, 500 units and $10,000,000.

(E) Target, Aerial tow target assembly, 248 units and $6,200,000.

(F) Other Items, MJU-10B Flare, 40 units and $5,800,000.

(2) $15,000,000 for other base support, of which—

(A) $5,000,000 is for tactical shelters.

(B) $10,000,000 is for mobility equipment.

The CHAIRMAN. Under the rule, the gentleman from Florida [Mr. BENNETT] will be recognized for 20 minutes, and a Member opposed will be recognized for 20 minutes.

PARLIAMENTARY INQUIRY

Mr. DICKINSON. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. DICKINSON. Mr. Chairman, I wonder if the chairman could elucidate for this Member and Members of the House as to how this would happen. This is a unique rule.

The gentleman from Florida [Mr. BENNETT] has 20 minutes as a proponent of the amendment. There will be 20 minutes for the opponents, which, if I understand it correctly, will be divided between majority and minority and then the gentleman from Florida, the proponent, would also have 10 minutes to close.

Would the Chair please advise?

The CHAIRMAN. The Chair will recognize the opponent of the amendment for 20 minutes. The gentleman who is opposed to the amendment will designate to other Members the time allocation.

Mr. DICKINSON. I see. So the opposition would not necessarily be split between the majority and minority; just one Member in opposition?

The CHAIRMAN. The gentleman is correct.

Mr. DICKINSON. Mr. Chairman, I will stand in opposition to the amendment then.

The CHAIRMAN. The gentleman from Alabama [Mr. DICKINSON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I now offer an amendment with Representative FRANK to eliminate the funding for the 12 MX test missiles sought in this bill. These missiles are very vulnerable and very expensive, and the money saved from this program can best be used for needed conventional capabilities and to decrease the national debt.

Admittedly, the MX is vulnerable because its silos fail to sufficiently protect the weapon from incoming Soviet missiles, designed to destroy our weapons before they could be launched.

That existing silos are not strong enough to protect them is attested to by Secretary of Defense Weinberger. He has said of them:

> I would feel that simply putting the MX into existing silos would not answer two or three concerns that I have, namely that the location of these are well-known and are not hardened sufficiently—nor could they be—to be of sufficient strategic value to count as a strategic improvement of our forces.

Although in 1985 the Secretary felt that hardening of the silos could help, the Research and Development Subcommittee repudiated that idea after evidence was submitted that Soviet accuracy has outdistanced any planned hardening proposals.

After reaching a political compromise in 1985 to place 50 MX missiles in existing silos, the Pentagon researched this expensive hardening possibility. But as Gen. Brent Scowcroft told the Armed Services Committee, "In the race between accuracy and hardening, eventually hardening has to lose," So. the fact remains, the MX is an expensive and vulnerable weapon.

Putting the MX into existing ICBM silos taunts the Soviets into thinking that the United States is preparing to use this weapon as part of a first strike. They reason, we can assume, that these would be first strike weapons for otherwise we would not allow such accurate and destructive weapons to be so lightly protected and vulnerable.

The 12 test missiles that we discuss today serve one real purpose: they encourage a more numerous buy of MX missiles than was agreed to last year. That prospect has been rejected by Congress because of the admitted vulnerability of the missiles when last year Congress set a cap where only 50 MX's can be deployed. Congress should retain that cap.

The tests planned for MX will not begin until 1989 and Congress last year authorized four test missiles for those very tests. That should be adequate to keep the production lines open for future test missiles.

Quoting the Congressional Budget Office, on MX testing they say:

> Cutbacks would be consistent with a decision that the limited deployment of the MX does not warrant the expense of heavy testing; especially in light of constrained budgets and the slowing of other modernization programs.

It is foolish and wasteful for the administration to come to us now outlining a heavy testing program when only 50 will be deployed. The Air Force should come back to us next year with a reasonable and well thought-out test program for the 50 missiles that will be deployed. Until that time, it does not make sense for Congress to approve additional test missiles, espcially since we do not need them for 3 more years. This is a matter that should not be rushed into, but rather considered reasonably and cautiously.

THE NEED FOR CONVENTIONAL DEFENSE

Defense strategists—experts in war scenarios—all agree: If war comes, it will not at first be nuclear. The escalation to nuclear weapons will come as a desperate move, when one side achieves an overwhelming conventional advantage against the other.

According to Gen. Bernard Rogers, Commander of NATO Forces in Europe, if the Soviets and the Warsaw Pact invaded Western Europe, we would reach that desperate point in only a few days, less than 2 weeks. Clearly, we must strengthen our conventional forces so that we do not allow this unthinkable nightmare of nuclear war to occur.

Improving our conventional forces will provide a better deterrence than 50 sitting ducks. Funds for MX test missiles can be better applied to procuring things which will actually improve our defenses. Using $250 million from MX test missile funds will allow us to improve the readiness and sustainability of our conventional forces by buying desperately needed arms and ammunition. These purchases include unglamarous, but vital conventional weapons and munitions. These programs can make the difference in a real conventional conflict.

Mr. Chairman, the amendment that Congressman FRANK and I submit will not only add $250 million for needed conventional weapons but it also releases $850 million to help reduce the national debt—an objective we can all approve as meritorious.

Mr. Chairman, I have just come back from a weekend at Charlottesville with my family. I revisited, there, the extraordinary home of Monticello of that extraordinary man, Thomas Jefferson. And I am reminded of what he wrote of our political forefathers when they first approached their duties of bringing our new Nation into existence. He wrote:

> The difficulties with our representatives were of habit and despair, not of reflection and conviction. Experience soon proved that they could bring their minds to rights.

So we in our day should throw off our slavery to reliance on redundant nuclear weapons, particularly when they are so vulnerable, and we should concentrate on achieving conventional war strength which could make reliance on nuclear war less of a probability.

□ 1450

Mr. DICKINSON. Mr. Chairman, I yield 5 minutes to the gentleman from California [Mr. BADHAM].

Mr. BADHAM. Mr. Chairman, I would like to focus on some of the realities of the amendment offered by the distinguished member of the committee, the gentleman from Florida [Mr. BENNETT].

The gentleman says that the missile is vulnerable, and because the missile is vulnerable, we do not have to test it. That is an interesting departure here on the floor of the U.S. House of Representatives to be sure.

I certainly do not today nor have I ever impugned the integrity or the intent of the distinguished gentleman from Florida who does not like the MX missile. The gentleman is certainly entitled to that attitude.

But let us, ladies and gentlemen, look at the facts as they are. We have Minuteman II's and Minuteman III's

in silos. We have Trident I's and we have Pershing II's that are operational.

I am sure that the gentleman from Florida would not want to misspeak himself by saying that if a missile is vulnerable we do not need to test it. But the fact remains we are still testing Minuteman II, Minuteman III, Trident I, and Pershing II.

Ladies and gentlemen, if the Peacekeeper missile is vulnerable, you can certainly bet your bottom dollar that these other older missiles are vulnerable. Why should we test them and not test the Peacekeeper?

The basic idea is that the author of the amendment wants to eliminate the line that produces Peacekeeper missiles.

Now we are producing and we have funded for operational, armed Peacekeeper missiles in the number of 50, to go into silos. We have already done that. We are talking now today about the test program.

I will have to add here that the Peacekeeper operational test and evaluation program for Peacekeeper is the most modest missile test program ever in the history of this country's strategic assets.

We have funded, I repeat, the 50 missiles that are going to be operational, and we have to have spares to test. Are these spares going to be converted to destabilizing missiles with new warheads? The answer is "No." We already took care of that problem. We are not producing any warheads that could be put on any new Peacekeepers.

So what the gentleman from Florida who offers the amendment, and I am sure in good faith, is offering to do is have a missile that the gentleman says is vulnerable and not have any test assets.

We do not now, we will not in the future, and we have not in the past eliminated test missiles for active missiles for a test program. We must test them to insure reliability.

As an example, the test assets desired for Peacekeeper or MX are 108, compared to Minuteman II, 171; Minuteman III, 242; Trident I, 334, Pershing II, 120. To cut off this test program now is to say that we should not be testing assets to make sure they work today and will work in the future.

I will agree if it is the gentleman's point to say that the Peacekeeper missile and the test thus far provided has been the most accurate missile ever produced by this country. I witnessed a missile shot from Vandenberg Air Force Base, and when we got the telemetry rough data back, an amazing statement, in my view, was made. The results of the warhead splash downs of that test shot were so accurate that the test results were classified. Ladies and gentlemen, that is technologically accuracy of which this Nation can be truly proud.

The final word that I would say in this is, please, do not cut off a test program. Do not cut off a program that keeps the line going so that we can test the assets that we have. We are not building new warheads; we are asking that we preserve the test program so that we even modestly might preserve that test program for this good and accurate missile.

Mr. BENNETT. Mr. Chairman, I yield myself such time as I might consume.

Mr. Chairman, since the gentleman has raised the question of purpose and intent, and I was not going to deal with all these purposes and intents, I will say, however, to start off with that I certainly favor testing the missile. We have already provided for four test missiles, and we are not going to test the first one for 3 years. Therefore, I think that is an adequate number, and so do those who have looked at this matter.

Since we are looking a little bit at intent, Secretary Weinberger in his report to Congress actually said:

> In keeping with recent congressional limitations, we plan to put only 50 MX's in existing Minuteman silos. In addition, we will investigate survival modes for placing a second 50 missiles.

And we find out that there are 193 MX missiles they want to get for 50 flights. That is 119 missiles still to be bought and earmarked for the rest of the program at a cost of $14 billion.

□ 1500

They certainly do not need all those missiles for testing and that is what my amendment would cut back. It would postpone until next year the question of how many more missiles they need for testing since they are not going to use any of them for the next 3 years and they have already got four.

So my intention is clear: Not to cut off all testing but to cut off this proportion; 74 percent of all they are seeking is to go for testing, and that has never been true in any other program.

Mr. Chairman, I yield 6 minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. I thank the gentleman for yielding me this time.

Mr. Chairman, I want to thank the gentleman from Florida and express my admiration for his continued work on this. I appreciated the gentleman from California several times reassuring us that he was not impugning the integrity of the gentleman from Florida. I want to reassure him that I do not even think that was necessary; I think the integrity of the gentleman from Florida stands on its own.

The gentleman has just outlined what the issue is here. I do not believe we are talking here, as far as the Defense Department is concerned, about test missiles. We have got an example of the Defense Department's unwillingness to let loose of the MX.

In today's Defense Week, we are told that the director of the Air Force effort to find a new basing mode for the MX is flirting again with Dense Pack. They have run through every possible and several impossible modes of basing the MX. So we are now getting reruns of ideas that did not make any sense in the first place.

The gentleman from Florida has made the facts very clear: We have already voted, locked up, gone, 54 MX missiles. Fifty to be deployed and four tests. So no one here is saying they do not need tests. Although I do wonder sometimes if the average Pentagon vehicle has about 16 spare tires for every 4-wheeled vehicle. The spare tire supply to the Pentagon is probably one of the more lucrative side subcontracts.

We have already said they have got four tests. As a matter of fact, in our bill, which I think is going to pass; I do not see anyone trying to change it, we limit them to deploying only 10 until they work out Midgetman. So if we have gotten this bill through, the way it comes forward with the amendment of the gentleman from Florida, they will be authorized to do 66 MX missiles of which only 10 can be deployed.

That is a ratio of deployment to test which even the shakiest weapon, it would seem to me, would feel a little embarrassed about. To say that we are only going to let them deploy 10 but we are going to vote as of now 56 to hang around, that is dubious at any time.

Let us remember that we are here under the threat of sequestration. We are in the midst of a desperate effort to find places to cut this budget. We are telling elderly sick people, we are telling environmentally concerned groups, we are telling unemployed workers, we are telling people who have lost their jobs to imports not now, we cannot afford it; we are in a terrible financial crisis. The rhetoric of financial crisis has filled this Chamber.

How does it make sense, if you believe any of that, to say, "Oh, by the way, we have already voted them 54 MX missiles and we have told them they can only deploy 50 at most and only 10 until they work out the Midgetman, but we are going to spend $1.1 billion now for 12 that will not be needed under their own plans for 3 years.

If you are really in a financially difficult situation, as I assumed every Member in this Chamber thought we were, do you really go out and make a $1.1 billion expenditure for missiles that you may need 3 years from now?

It is exacerbated by the fact that the Pentagon has not reconciled itself to having only 50 MX missiles. They do not think it makes any sense; they have never had a strategic rationale for it. Give them the 12 now and we can guarantee you that they will be back saying, "Well, you have already voted 66, now we will maybe take 7 or 8 for spares. Let us get to 100."

The only way to get the Pentagon to accept the reality that 50 is the outer limit for deployment of the MX's is to say no to these additional 12 this year because everyone here who has seen defense procurement, and I do not mean to impugn the motives of the people in the Pentagon. These are conscientious people who genuinely believe, as we all know, that 50 MX's does not make sense.

The people who do the strategic planning there think we were wrong. Most of us think we were right. Conscientiously believe that 50 is wrong, what they are planning to do is to, by installment, get us to a position where they can come in and say, "Well, you have already voted 66 of them, how about a couple more here and a couple more there?"

One hundred and twenty-three spares is what they are talking about for a program of 50 missiles. I do not believe and no one here believes that they are reconciled to the 50. So what we are saying is, "Yes, there ought to be some tests." As the gentleman from Florida pointed out, 50 MX missiles have been voted for deployment and 4 for tests. These tests are not to take place for several years. If they want to come back a year from now, having accepted the 50 as a limitation, having gone in good faith to deal with Midgetman and then say, "Well, we need a couple of more for testing," we can talk about that as a test and as spares. But now we are talking about the Pentagon installment plan. There are rafts of statements from the newspapers. Not secret leaks, explicit statements from Secretary Weinberger and others. They want more than the 50. They are going back to new basing modes.

We have got a terrible financial crisis. We are offering an amendment here, crafted by the gentleman from Florida, with the support of a lot of the rest of us, that says you can save over $800 million. We also, in this amendment, put $250 million into some conventional ammunition and conventional weapons where we have been told we have shortfalls.

Here was a chance, and this is indisputable, with no damage whatever to the strategic plans of the Pentagon because they have 54 already voted, so they have already got the 50 to be deployed and 4 to begin the program of testing spares except it is not supposed to begin for several years and they are asking for 12 as an advance payment on 1988, when they will need them, and they want to spend $1.1 billion for that. We say "no." Let us deal with this terrible problem of Gramm-Rudman and of sequestration and of our deficit. Let us save over $800 million. Let us put another couple of hundred million into the conventional area where there may be, we would hope not, but there may well be some short-term need.

That is what this amendment does. It is an effort, if you believe that there should be only 50, to plan rationally. The Pentagon has not accepted the 50, they are trying to get more, and the amendment offered by the gentleman from Florida is the only way to enforce that limitation.

Mr. DICKINSON. Mr. Chairman, I yield 5 minutes to the gentleman from New York [Mr. STRATTON].

Mr. STRATTON. I thank the gentleman for yielding me this time.

Mr. Chairman, the pending amendment kills the MX Program. It completely reverses the careful compromise that was crafted last year between the Congress and the administration.

Agreement was reached to deploy 50 MX missiles and provide adequate test missiles to support that deployment. Today, the House is being asked to undo that agreement and the fragile consensus that emerged.

For years, we searched for a way to modernize our land-based strategic forces. Last year we were successful. Now, with the pending amendment we face going back to the drawing board.

I would be the first to support additional funds for our conventional forces. Raising the nuclear threshold is in everyone's interest. But that objective can only be achieved by a combination of means: arms control, adequate strategic deterrence and mobile, ready and well-sustained conventional forces.

Within the severe budgetary constraints imposed on us by Gramm-Rudman, the committee bill represents a careful balance between strategic and conventional forces. The pending amendment destroys that balance.

At a time we are seeking to negotiate with the Soviet Union we can ill afford to unilaterally terminate a strategic weapon system. We tried that with the B-1B aircraft. Our effort went unrewarded.

I urge the House to reject the siren and illusory appeal of the so-called conventional defense initiative and stay with the committee bill.

□ 1510

Mr. BENNETT. Mr. Chairman, may I inquire as to how much time remains on each side?

The CHAIRMAN pro tempore (Mr. DASCHLE). The gentleman from Florida [Mr. BENNETT] has 6 minutes remaining and the gentleman from Alabama [Mr. DICKINSON] has 10 minutes remaining.

Mr. BENNETT. Mr. Chairman, we will be concluding the debate, and I would prefer that the other side go ahead.

Mr. DICKINSON. Mr. Chairman, I yield 2 minutes to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Chairman, let me say that I rise in opposition to this amendment. We have spent an enormous amount of time in this body deliberating the issue of the MX. We had also thought that we had finally put this issue to bed several years ago when we came down to the realization that 50 Peacekeeper missiles would be the number we would deploy.

Yet when we have a force of 50 missiles, we have to keep in mind the fact that we must have some test missiles. I think this amendment to eliminate those test missiles is the wrong signal to send. The program is on its way, and it has been doing extremely well. The testing has to continue whenever we have a program of this magnitude.

Therefore, Mr. Chairman, I rise in opposition to this amendment and I urge others to support the position of the committee, which was to provide the funding for the test missiles.

Mr. BENNETT. Mr. Chairman, I yield 2 additional minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Chairman, I thank the gentleman from Florida [Mr. BENNETT].

If I understand my friend, the gentleman from New York [Mr. STRATTON] correctly, he invoked the name of my colleague, the gentleman from Massachusetts [Mr. MAVROULES], who serves on the Armed Services Committee and who told me earlier that he intended to vote for the amendment offered by the gentleman from Florida [Mr. BENNETT] and myself.

He also mentioned CBO. As I understand it from CBO, they have evaluated three potential test options, one on the high side at 123, and down to a low side that is much lower. All three options, it is true, do talk about 12 this year. But the point the gentleman from Florida and I are making here is that we are not contesting that ultimately this number of test missiles will be required, and more. What we are saying is that the Pentagon does not even intend to accept 50 as the outer limit for deployment. They already have 54 voted, and the committee bill, which no one here intends to try to change, as I understand it, will restrict them to deploying 10 by the end of this calendar year and would only allow them to deploy anything even up to the 50 if they do some things on Midgetman, on which they are dragging their feet.

So no one argues that the 12 are remotely close to being necessary for a couple of years, and at a time of terrible fiscal problems, the question is: What is the most sensible way to deal with this? Do we commit $1.1 right now and add to the deficit by hundreds of millions for this 1988 purchase, or do we say to the Pentagon, "We really don't think you understand what we mean. You can have the 50 and the 4 spares, and when you show finally that you have accepted that, then we will talk about the number of testing spares."

The problem is that the 123 spares the Pentagon is asking for for 50 missiles—and that is a very large ratio—is based on the fact that they do not accept the 50. My friend, the gentleman from New York, says that is a fact, and I guess the gentleman from New York is now accepting the 50. I would be glad to yield to him if I have misunderstood him, but I am assuming the gentleman from New York is saying now that 50 will be the outer limit. I welcome that. I had not previously understood that to be his position. If we could only get the Pentagon now to follow the lead of the gentleman from New York [Mr. STRATTON] in this particular regard, we will have accomplished something, and then we can go back to the spares.

So the question we have right now is not whether or not there should be tests, but given a Pentagon that does not think 50 is enough and wants to at least double the number and given our terrible fiscal crisis, does it make sense to let the Pentagon have the 12 spares right now and add all that money to the deficit right now when they do not need them for several years?

Mr. DICKINSON. Mr. Chairman, do I understand the gentleman from Florida [Mr. BENNETT] has one speaker remaining, and that will be himself?

Mr. BENNETT. Mr. Chairman, I will be the concluding speaker in my remaining 4 minutes.

Mr. DICKINSON. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, to very briefly recap and put this in perspective, those of us who have been around for a little while will remember that the MX missile program started out to be 200 MX missiles. This is what had been deemed necessary by the Department of Defense and the administration.

Subsequently this figure was cut in half due to action in this body and in the other body. Subsequently, our action on this floor cut that figure in half to 50 missiles, which was ultimately approved. Last year we approved 40 and the Senate approved 50. Then in a spirit of compromise and because it was tied in with the so-called Midgetman, we approved 50 MX missiles, and that is what is approved now. I would reiterate that the MX and the small mobile missile—the so-called Midgetman—were approved as part of a package.

I think it is unfortunate that we have to revisit this every year, that we have to refight the fight and to put some certainty into the program so that the contractors and the Department of Defense will know how to allocate their funds and will be able to enter into contracts and subcontracts with vendors. The contractors will work more efficiently if they have a situation in which they have some stability and know where they stand, because the constant changes in funding simply costs money and produces no beneficial results.

The point we have reached today is that we have 50 operational missiles approved. In order to find out if they are good, if they are workable, and how accurate they are, we have to have a certain number of test missiles. Our scientists in the Department of Defense say that we need a large number of test missiles to build into the program the degree of confidence that is required. They say as many as 123 test shots are needed in order to define and work out the problems and identify bugs and have good, workable, reliable missiles that will be put into the silos.

We did this last year. We set 50 as the number that was going to be required. That was as a result of arbitration and give and take on both sides. Now the Department of Defense this year has asked for 21 missiles to test. The committee, because of monetary restraints and other reasons, cut this 21-missile request to 12.

Now, there are two reasons for test missiles. One is to see what we can learn about their reliability and their maintainability and the degree of confidence that we would put in that missile system.

□ 1520

The second is to find out as the system ages what deterioration, if any, has occurred.

We all remember the terrible accident when the Shuttle blew up recently with the loss of life of all aboard. The reason that occurred was that there was a seal ruptured. If an adequate testing program had been in place and if the danger signs had been heeded, that accident need not have occurred.

This is a program that tests the reliability of missiles sitting in their silos. The missiles have to be tested for reliability as they age. DOD calculates the appropriate number to be tested. based on 50 operational missiles. We are asking for the number of test missiles that are necessary.

The effect of the amendment of the gentleman from Florida, who incidentally opposes and would like to have zero missiles, is to kill the program.

We agreed last year to have a scaled back program of 50 missiles. In order to have a reliable, dependable program, we have to be able to test.

What we did in this bill in our committee was to scale back the request for the number of test missiles from 21 to 12. I think we would be very shortsighted in the extreme to authorize the production and installation of 50 missiles and not have adequate testing, and that is all we are talking about in the Bennett amendment.

I would hope that the committee would turn down this amendment. It is really out of hand. We have had adequate discussion pro and con. We know what it is.

If we are to have the 50 missiles, then we have to have adequate testing. This amendment simply attacks the testing, which really gives us information, that we need to verify the performance of the approved 50 missiles.

I would urge the Members of the House to vote no on the Bennett amendment.

Mr. Speaker, I yield back the balance of my time.

Mr. BENNETT. Mr. Chairman, to conclude, I would like to point out that it is not myself nor the gentleman from Massachusetts [Mr. FRANK] nor anybody else who has raised a question of doubt about the agreement that was reached. It is in fact the administration. Defense Secretary Weinberger specifically spoke recently in his report to Congress of a desire to place the second 50 missiles, not the first 50 missiles, but the second 50 missiles. He is talking about deploying the second 50 missiles, although the agreement was 50 in all.

Now, it has been said that there is a sly attempt on my part and on the part of the gentleman from Massachusetts, but it is not so. It is the revelation that the administration does not wish to abide by the agreement they have.

Now, the next thing I would like to mention is that there are plenty of missiles now available to test. We are not cutting off testing missiles. In fact, we are openminded as to the future testing of missiles; but in view of the fact that the administration wants to have a hundred deployed, contrary to the agreement, we want to slow down the acquisition of the testing. No tests will occur anyway for 3 years and we have got more missiles to test with right now.

Now, if you pass this amendment, you will make available $250 million for conventional weapons, which are very much needed for ammunition, particularly, you will make available $850 million to balance the budget and in that direction a very much needed thing at this particular time with regard to this bill to keep it as it should be.

So to summarize, this amendment is designed to see to it that we do not have a surplusage of things for testing and that we live within reasonable limits.

The CBO, as has already been mentioned in their report, says even if you cut out 72 missiles, and this amendment does not attempt to do that, if you cut out 72 of the requested missiles, it says that would not be so bad. It says the added risk might be reasonable, however, since in most cases the MX would contribute less than 1 percent of the surviving warheads for retaliation. In return for substantial added risk, this option would save up to $8 billion or $7.9 billion. Now, that is the most extreme position taken by the CBO. Probably Congress would be more liberal and I think myself I might be more liberal than that.

Several options are stressed here. One would bring in about $5 billion to the Treasury. The one we have suggested here would bring in about $1.2 billion distributed as outlined, but that does not mean that we could never get anymore test missiles. We might do that in the future. It is just because the administration has announced that it is not desirous of continuing its obligation under the agreement and wants to go from 50 to 100 missiles that has prompted me to offer this particular amendment, which would see that the test missiles we have on hand are thoroughly adequate for the purpose. For 3 years we are not going to do any testing, anyway.

So, Mr. Chairman, I hope the committee will approve this amendment.

The CHAIRMAN. All time on the amendment has expired.

The question is on the amendment offered by the gentleman from Florida [Mr. BENNETT].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. FRANK. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 178, noes 210, not voting, 43 as follows:

[Roll No. 316]

□ 1535

The Clerk announced the following pairs:

On this vote:

Ms. Mikulski for, with Mr. Campbell against.

Mr. Morrison of Connecticut for, with Mr. Lewis of California against.

Mr. Crockett for, with Mrs. Holt against.

Mr. Garcia for, with Mr. Pepper against.

Mr. LaFalce for, with Mr. Taylor against.

Mr. Miller of California for, with Mr. Darden against.

Messrs. PETRI, DERRICK, ANNUNZIO, McHUGH, and BROOKS changed their votes from "no" to "aye."

□ 1545

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. BENNETT

The CHAIRMAN pro tempore. The Chair informs the Committee that the next amendment to be taken up by the Committee will be the amendment No. 2 offered by the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. BENNETT: Page 8, line 18, strike out "$6,071,000,000" and insert in lieu thereof "$4,971,000,000".

At the end of part A of title I of division A (page 21, after line 14), add the following new section:

SEC. 114. INCREASED AUTHORIZATIONS FOR CONVENTIONAL WEAPONS PROGRAMS.

(a) ARMY.—The amounts authorized to be appropriated in section 101 for the Army are increased as follows:

(1) For ammunition, $119,000,000, none of which shall be available for nuclear weapons programs or chemical weapons programs, of which $34,000,000 is for Proj. 155mm, HE Adam M731.

(2) For Other Procurement, Army, $32,800,000, of which—

(A) $18,000,000 is for tactical and support vehicles for the following programs and amounts:

(i) Chassis Trailer, GP, 3½ ton, $3,700,000.

(ii) Semitrailer, Tank, 7,500 gal., $7,300,000.

(iii) Semitrailer, Van Supply, 12 ton, $7,000,000.

(B) $14,800,000 is for other support equipment in the following programs and amounts

(i) Tug Inland and Coastal Waterways, $10,000,000.

(ii) Railway Car, Tank, Pol, $4,800,000.

(b) NAVY AND MARINE CORPS.—The amounts authorized to be appropriated in section 102 for the Navy and Marine Corps are increased as follows:

(1) For aircraft procurement, Navy, $46,800,000, of which—

(A) $45,800,000 is for modification of aircraft for the following programs and amounts:

(i) A-4 series, $10,000,000.

(ii) EA-6 series, $3,000,000.

(iii) F-4 series, $1,600,000.

(iv) SH-60 series, $1,800,000.

(v) Common ECM equipment $29,400,000.

(B) $1,000,000 is for spares and repair parts for the AH-IT aircraft.

(2) For weapons procurement, Navy, $50,500,000, of which—

(A) $10,500,000 is for Other Missiles Support.

(B) $40,000,000 is for the MK-60 Captor.

(3) For Shipbuilding and Conversion, Navy, $49,800,000 for one TAGOS surtass ship.

(4) For Other Procurement, Navy, $29,800,000, of which—

(A) $10,400,000 is for supply support equipment for automated materials handling systems; and

(B) $19,400,000 is for personnel and command support equipment for the following programs and amounts:

(i) Training Support Equipment, $5,100,000.

(ii) Commercial Support Equipment $3,900,000.

(iii) Naval Reserve Support Equipment, $5,000,000.

(iv) Oceanographic Support Equipment, $5,400,000.

(5) For Marine Corps Procurement, $25,000,000, of which—

(A) $21,200,000 is for mortar ammunition.

(B) $3,800,000 is for weapons procurement for the following programs and amounts:

(i) Mortar, medium extended range, 100 units for $2,200,000.

(ii) Machine gun, auto saw 5.56-millimeter, $700,000.

(iii) Mk-19 40-millimeter machine gun, for $900,000.

(c) AIR FORCE.—The amount authorized to be appropriated in section 103 for Other Procurement, Air Force, is increased by $196,000,000 as follows:

(1) $47,000,000 for munitions and associated support costs, in quantities and amounts as follows:

(A) 2.75 inch rocket motor, $1,800,000.

(B) 2.75 inch rocket head wp, $7,300,000.

(C) Cartridge caliber 5.56 millimeter, 28,193 units and $3,900,000.

(D) Cartridge 20 millimeter combat, 1,273 units and $3,700,000.

(E) Cartridge 30 millimeter API, 199 units and $8,300,000.

(F) Bomb hard target, 2,000 pound, 500 units and $10,000,000.

(G) Target, Aerial tow target assembly, 248 units and $6,200,000.

(H) Other Items, MJU-10B Flare, 40 units and $5,800,000.

(2) $11,400,000 for electronic and telecommunications programs, of which—

(A) $7,000,000 is for traffic control and landing systems.

(B) $4,400,000 is for North Atlantic Defense C3.

(C) $15,000,000 is for MAC Command and Control support.

(D) $31,800,000 is for Range Improvements.

(E) $3,700,000 is for radar bomb scorer.

(F) $30,000,000 is for Joint Tactical Communications Prog.

(G) $20,000,000 is for Tactical C-E Equipment.

(H) $20,300,000 is for radio equipment.

(I) $1,900,000 is for the fiber optic equipment.

(3) $15,000,000 for other base support, of which—

(A) $5,000,000 is for tactical shelters.

(B) $10,000,000 is for mobility equipment.

The CHAIRMAN pro tempore. Under the rule, the gentleman from Florida [Mr. BENNETT] will be recognized for 20 minutes, and a Member opposed will be recognized for 20 minutes.

Mr. BENNETT. Mr. Chairman, I have a request for a modification of this amendment.

The CHAIRMAN pro tempore. The Clerk will report the modification.

The Clerk read as follows:

Modifications to the amendment offered by Mr. BENNETT: Delete the amendment proposed to page 8, line 8.

At the end of the section proposed to be inserted by the amendment, add the following:

(d) LIMITATION.—The funds authorized by this section are not authorized if the amount authorized to be appropriated for the Strategic Defense Initiative under this Act exceeds $3,125,000,000.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. STRATTON. Mr. Chairman, I object.

The CHAIRMAN pro tempore. Objection is heard.

The gentleman from Florida [Mr. BENNETT] will be recognized for 20 minutes on his original amendment and a Member opposed thereto will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I will take the time since I have been forced to do so. I was going to enter into a colloquy to discuss the merits of this amendment, but since the gentleman from New York [Mr. STRATTON] wishes to force the issue this way, this amendment is similar to the amendment that we had before in its uncorrected form. I was expected to take out the MX missile entirely from that, and that is what my request was, to take the MX missile out entirely.

But since the gentleman from New York wants to debate it on this issue, I will be happy to debate it, because I think it is a good amendment. It is a better amendment than the one we just turned down. It is a better one because of the fact that it provides for $550 million for conventional weaponry. Therefore, it is twice as good an amendment, more than twice as good an amendment as the one we just turned down.

This provides for things that have been requested urgently by the Department of Defense in the field of ammunition and conventional warfare. It is a very meritorious amendment.

Mr. Chairman, I would like to say that the reason why I have introduced these amendments with regard to the MX, since it has now been reconstituted as an MX amendment, which it was not originally intended to be, but now since it has been, because of the objection of the gentleman from New York, I would say the reason why I introduced amendments to provide for a relook at the MX spare was that the administration has repeatedly said that it would like to have 100 MX missiles, even though the agreement last year was for 50 MX missiles, not 100, but for 50.

Now, when that occurred, I thought something ought to be done to bring this back to the attention of Congress, because they agreed last year to 50. Now they are saying they want to have 100, and they are asking for scores of additional MX missiles for they say testing. But the CBO thinks that is sort of a different situation than what is likely to actually transpire, and they have suggested three separate options. Those options show that you can get rid of 72 of these spare missiles and not do any serious harm to the program at all. It is not needed to have all of these missiles. It is obvious that the Department of Defense is trying to get 100 missiles in the silos.

As a matter of fact, Secretary Weinberger said so. He said he wanted to find 50 other places to deploy these missiles which we now say, or which the chairman at least says, are supposed to be spares. They are not supposed to be spares; they are missiles which are expected to be procured for actual firing.

These missiles are extremely vulnerable missiles. That has been testified to over and over. There is nothing wrong with the missiles per se. It is a pretty good missile. But they are very vulnerable because, as Secretary Weinberger has testified, it would be silly to

put them in a Minuteman missile silo, and yet that is exactly where they are going to go. He has testified that is not so.

Now a while ago the gentleman from New York said that there is no other ground missiles. Of course there are 100 or more of the Minuteman missiles. They are pretty good missiles. There are cruise missiles, and they are all ground-based missiles. There are other things which are down the road like the Midgetman. So we have other missiles.

It is just my feeling if we are going to buy additional MX's or other kinds of intercontinental missiles, they ought to be good missiles. They ought to be the best that our money can buy. They ought to be so that they would be able to be fired instead of taunting the Russians to feel that they are undoubtedly going to be first-strike missiles because they are not going to be protected.

We ought to have a situation where we have a strong national defense based upon missiles that are not vulnerable, ones which will not be utilizable in time of distress, and ones which will not forment anger which may result in our own injury against ourselves that otherwise we would not have. The missiles would end up taunting the Russians, and I think it is a good thing to eliminate these extras which the CBO does not find are necessary.

I reserve the balance of my time.

Mr. DICKINSON. Mr. Chairman, will the gentleman yield for a clarifying question on his amendment?

Mr. BENNETT. On the gentleman's own time.

Mr. DICKINSON. Forget it.

The CHAIRMAN pro tempore. Does any Member on the Committee rise in opposition to the amendment?

Mr. STRATTON. Mr. Chairman, I announced that I was an opponent of the amendment earlier.

The CHAIRMAN pro tempore. The gentleman from New York [Mr. STRATTON] is recognized for 20 minutes.

Mr. STRATTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I do not think it is going to be necessary to take 20 minutes. We have already voted in the House that we do not want to cut back on the funds for the MX system, and that we want to maintain at least some kind of land based missile system that will protect us from the enormous development that the Soviet Union has put in land based missiles. That was demonstrated by the vote that was just taken.

Now the gentleman from Florida [Mr. BENNETT] who wanted to cut $250 million out of the MX system, which was rejected, wants to cut $500 million out of that system.

□ 1555

We had a few misstatements that intruded in the debate previously. The gentleman from Massachusetts [Mr. FRANK] for example, said that we were looking at some new basing system. I defy the gentleman from Massachusetts to find in the bill a dollar or a nickel that is directed toward a new basing system.

We are going on the current basing system and we are going to provide the test missiles that are required by the Congressional Budget Office because if you do not have the appropriate number of missiles, you cannot utilize or depend on the system itself.

I think that bit of information got across to the majority of the House, and I urge that the amendment which is even more devastating than the earlier one be soundly rejected.

Mr. BENNETT. Mr. Chairman, I yield myself such time as I may consume.

Unfortunately, Mr. Chairman, the gentleman from New York apparently never read the amendment. It was read, and it has the same figure of cut in it that the other amendment had.

The difference between this amendment and the one that was just turned down is that of the money that is saved by this amendment, $550 million would go to conventional weaponry. Of the money that was saved in the other one, only $250 million was; but with this same overall figure of cut same overall figure, $1.1 billion. So that is just a technical correction.

I would not have wanted to do this; this is an accidental typographic error that the MX is in this amendment at all. This is not the amendment I wanted to have. I wanted to have the modified amendment, which was one that did not do anything except take money out of this bill and put it into conventional weapons, and it was only going to come, according to my language, only going to come from any savings in SDI; no connection at all to the MX, only SDI.

That is the effort that I made, but it was turned down on technical grounds, so I am talking about this amendment. I would not expect, in view of the last vote we had, to ask for a record vote on this; but I think that since I was turned down so technically, I wanted to explain to you, and I wanted you to understand what I am trying to do.

Basically there is no greater motive that I have or that I think anybody in this House has, than to try to see if we can get us back on ground where we can win a conventional war.

It is perfectly awful, the situation we are now in Europe. We ought to correct it. General Rogers says within 10 days, we will be wiped out or we will have to go to nuclear war. That is a grave error; our country should not allow that to exist. I am attempting, wherever I can, to cure that situation.

When I could pick it up out of spares for the MX which are not needed for years to come, as my last amendment was; that is all it did. They are not needed for years to come. I thought that was a wise thing to do. And this amendment I have before the body right now was an amendment which was designed to get conventional weaponry out of whatever we save out of SDI, having no connection with MX at all. A typographical error made it necessary for me to ask for modification. The chairman of the committee, in his wise tactics, he has been here a long time and is a very able man, was able to kill that amendment which I wanted to have.

So that was my purpose, and I yield to the gentleman from Massachusetts [Mr. MAVROULES].

Mr. MAVROULES. Mr. Chairman, I just want to take a minute or two, and I thank the gentleman for yielding to me.

For the Members of the House, I think it is very important to put this in perspective. The reason we are having these amendments here today—they would not be coming before us by Mr. BENNETT or Mr. FRANK if indeed the Pentagon would just back off.

We reached agreement last year, Mr. Chairman, that we would have 50 MX missiles siloed and we would give them enough for their testing purposes, and for that matter, replacement.

What do we get from the Pentagon? They have already come out and stated: "We want the other 48 MX missiles." The reason we have the enormous controversy on the floor today, and it is totally unacceptable as far as I am concerned, is the fact that the Pentagon and this administration are asking for another 48 missiles, which they will try to get next year. That is why we are having the amendments put on the floor today, which is most unfortunate.

So if there is any blame to lay around here, aside from Members of Congress whether they are for or against the MX, it has got to come out of the administration. They have got to stop playing games. We have made a decision over here; they made a decision in the other body; we have agreed to it, and that should be the law. That is the reason we are having these problems, Mr. Chairman; it is so unnecessary.

Mr. STRATTON. Mr. Chairman, I yield 3 minutes to the gentleman from California [Mr. BADHAM].

Mr. BADHAM. Mr. Chairman, Caspar Weinberger, the Secretary of Defense, would like to have 100 MX missiles. He would probably like to have 200 MX missiles. The fact remains that this body and the other body agreed, and we go by that agree-

ment, that there are not going to be more than 50.

This amendment is a rehash of the last amendment. Last year we decided we were going to have 50 MX missiles. In the previous vote, we decided we were going to have a test program. The distinguished gentleman from Florida decided to knock that down. This House did not accept that.

Now he is saying that if we could knock down the test program that was approved last year and this year, we ought to take that money and put it into conventional weapons.

So I think we voted last time, and I think we ought to vote this one down now.

Mr. BENNETT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I think the gentleman from California, in looking at my record and looking at the things that he talks about might be inaccurate in some of the things he has said, my staff tells me he is. I myself did not actually hear what the gentleman said; but the gentleman did start off his last conversation about me by saying he was not taking any umbrage or something like that about my good character. I appreciate the gentleman's good feelings about that; I have not taken any umbrage about the gentleman's, either.

We are all trying to do the best we can, to have a strong America, and that is true however you vote on these issues. It is just that our country is in bad shape with regard to conventional weaponry; and I think we have to do something about it. We cannot continue to mess around with this, and pretend like it is something not important.

It is very important, and our country could be in a nuclear war unnecessarily, because we are not taking care of our conventional needs. So I have attempted to structure amendments that would make it possible to get this kind of conventional assistance.

If the gentleman has better amendments to offer, he should have done it; but my amendment that we are talking about now had absolutely nothing to do with the MX. That was a typographical error, and I tried to correct it, but was not allowed to correct it. It was not intended to go to the MX. I have to talk about the MX because that is now in the amendment, because I was not allowed to correct my amendment. I do think it was a mistake not to cut out these extra spares since we are going to have enough of these for 3 years anyway, and since the administration frankly has said it wants to double the number of actual MX's in the silos despite the agreement.

In view of that, I thought it was worthwhile talking about to see if we could not pick up some of this money for conventional weaponry.

Mr. Chairman, I reserve the balance of my time.

Mr. STRATTON. Mr. Chairman, I yield back the balance of my time.

Mr. BENNETT. Mr. Chairman, I yield myself such time as I may consume; I will only take a minute or two, and I do not intend to call for a rollcall on this, because it is a conflict situation.

Mr. Chairman, I do want to conclude by saying that if there are any other opportunities in this bill, and I do not know where they will be, but if there are any opportunities to pick up money for conventional weaponry, we really should do it, because if we have ever made a serious error, in my opinion, since I have been here, Congress on national defense is not adequately taking care of our conventional situation.

Time has run out. I quoted earlier a quotation from an autobiography that Jefferson wrote. I had never read this autobiography until last weekend when I was down at Monticello. My wife bought it for me and I read it.

It said there, in the early days of our country, the two things that were most harassing, most difficult, were habit and despair. Habit and despair.

□ 1605

I think there is a lot of habit today in our country and a lot of despair in our country today that has no foundation in reality except for our own imperfection.

We are in the habit in America, particularly in this Congress, of thinking that all our problems can be solved out in outer space or by weaponry which is very exotic, nuclear weaponry and things of that type. I think just exactly the opposite is true. Time has moved on from that stand. We are no longer in that stand. The threat we have today is the inability on our own part to take care of the conventional strengths of our country. We must correct it. We ought to correct it in this bill. We have not corrected it in this bill, in my opinion, and I gave two opportunities to do something in the field of correcting it. I hope next year we do correct it. That is the main purpose that I introduced this legislation, these two amendments, to see if we could find someplace where we could find money where we could apply it to the things that are really going to cause us to have a nuclear war or really going to cause us to lose a conventional war. We must give attention to that field in the future and, if possible, in this bill.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore (Mr. DASCHLE). All time on the amendment has expired.

The question is on the amendment offered by the gentleman from Florida [Mr. BENNETT].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. CONTE. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 179, noes 217, not voting 35, as follows:

[Roll No. 317]

□ 1620

The Clerk announced the following pairs:

On this vote:

Ms. Mikulski for, with Mr. Campbell against.

Mr. Morrison of Connecticut for, with Mr. Lewis of California against.

Mr. Crockett for, with Mr. Taylor against.

Mr. Savage for, with Mr. Pepper against.

Mr. LaFalce for, with Mr. Darden against.

Mr. RICHARDSON and Mr. WALDON changed their votes from "no" to "aye."

So the amendment was rejected.

The result of the vote is announced as above recorded.

AMENDMENT OFFERED BY MR. SPRATT

Mr. SPRATT. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore (Mr. DASCHLE). The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. SPRATT:

Page 32, after line 21, add the following new paragraphs:

(3) Of the funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement, none of the funds may be obligated for the T-46A Trainer aircraft program. Funds appropriated or otherwise made available to the Air Force for fiscal years 1986 to procure the T-46A Trainer aircraft shall remain available to carry out paragraph (4) during fiscal year 1987, if so provided in appropriation Acts. If any funds are unobligated after carrying out paragraph (4), the funds may be used to procure T-46A Trainer aircraft during fiscal year 1987.

(4) Before the Secretary of the Air Force enters into a contract for the T-46A Trainer aircraft, the Secretary shall evaluate and compare the performance and cost of the proposed T-46A Trainer aircraft, a modified and upgraded existing T-37 aircraft, and a T-37 aircraft with new technology (or other aircraft that meets the trainer requirements of the T-46A Trainer aircraft). The evaluation shall include the development of a prototype of the T-37 (or other) aircraft and a fly-off to compre the T-46A Trainer aircraft and the prototype aircraft. The Secretary shall submit a report to the Committees on Armed Services and Appropriations of the House of Representatives and the Senate on the results of such evaluation.

Page 32, line 22, insert before "Funds" the following "Of the amounts authorized for procurement for the Air Force for fiscal year 1987, $2,533,300,000 shall be available to procure F-16 aircraft during fiscal year 1987.".

Mr. STRATTON. Mr. Chairman, I rise in opposition to the amendment offered by the gentleman from South Carolina [Mr. SPRATT].

The CHAIRMAN pro tempore. Under the rule, the gentleman from South Carolina [Mr. SPRATT] will be recognized for 20 minutes and the gentleman from New York [Mr. STRATTON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from South Carolina [Mr. SPRATT].

Mr. SPRATT. Mr. Chairman, I yield such time as he may consume to the gentleman from Illinois [Mr. YATES] for a personal explanation.

PERSONAL EXPLANATION

Mr. YATES. Mr. Chairman, I missed the vote on rollcall number 316 because of illness in the family.

Had I been present, I would have voted "aye."

Mr. SPRATT. Mr. Chairman, I ask unanimous consent to offer a perfecting amendment to the amendment.

The reason for this request is that, as printed, the amendment refers to an amount of obligated funds that is not outdated. After the adoption of the amendment cutting the defense budget from $292 billion to $285 billion, the amount referred to in the last paragraph of my amendment is no longer relevant. Therefore, I would request unanimous consent to add a subparagraph (h), the text of which the Clerk has at the desk.

The CHAIRMAN pro tempore. The Clerk will report the modification to the amendment.

The Clerk read as follows:

Modification to the amendment offered by Mr. SPRATT: Page 33, after line 17, add the following new paragraph:

(h) ADDITIONAL F-15 AND F-16 AIRCRAFT.—Of the amounts appropriated for the Air Force for fiscal 1987, $151,000,000 may be used only for the procurement of additional F-15 aircraft or F-16 aircraft.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from South Carolina?

□ 1630

Mr. STRATTON. Mr. Chairman, I object.

The CHAIRMAN pro tempore. Objection is heard.

AMENDMENT OFFERED BY MR. DENNY SMITH TO THE AMENDMENT OFFERED BY MR. SPRATT

Mr. DENNY SMITH. Mr. Chairman, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. DENNY SMITH to the amendment offered by Mr. SPRATT: Page 33, after line 17, add the following new paragraph:

(h) ADDITIONAL F-15 AND F-16 AIRCRAFT.—Of the amounts appropriated for the Air Force for fiscal 1987, $151,000,000 may be used only for the procurement of additional F-15 aircraft or F-16 aircraft.

Mr. STRATTON. Mr. Chairman, I rise in opposition to the amendment of the gentleman from Oregon [Mr. SMITH].

The CHAIRMAN pro tempore. The gentleman from New York [Mr. STRATTON] will be recognized as the Member in opposition to the amendment.

POINT OF ORDER

Mr. McGRATH. Mr. Chairman, I have a point of order.

Mr. CHAIRMAN pro tempore. The gentleman will state it.

Mr. McGRATH. Mr. Chairman, is the 5 minutes on either side for this perfecting amendment coming out of the 20 minutes originally allotted for the main amendment?

Mr. CHAIRMAN pro tempore. The Chair will inform the gentleman that under the rule, the gentleman from Oregon is offered 5 minutes outside of the 20 minutes allotted to present his amendment.

Mr. McGRATH. I thank the Chair.

Mr. DENNY SMITH. Mr. Chairman, I think the ranking Member on this side of the aisle would accept this amendment. I think it is a good amendment. It allows us to take the

dollars that have been involved in this program and to send them where they can be utilized.

Mr. DICKINSON. Mr. Chairman, will the gentleman yield?

Mr. DENNY SMITH. I yield to the gentleman from Alabama.

Mr. DICKINSON. I thank the gentleman for yielding to me.

Mr. Chairman, there is $151 million here that is to be deleted. The gentleman has said that this money should go to the purchase of the F-15 and the F-16. This was in the original procurement package approved by the committee. It fell out when the markdown of the levels occurred the other day. My amendment simply says that if this money is taken out of the bill it will go for the two types of aircraft that we should have.

I think it is a good amendment and I urge its support.

Mr. DENNY SMITH. Mr. Chairman, I think this is a wise use of the money and something that should be done. I do not intend to take the 5 minutes. I will speak in support of Mr. SPRATT's amendment, and I think that this perfecting amendment improves the amendment as offered by Mr. SPRATT.

Mr. SPRATT. Mr. Chairman, will the gentleman yield?

Mr. DENNY SMITH. I yield to the gentleman from South Carolina.

Mr. SPRATT. I thank the gentleman for yielding to me.

Mr. Chairman, the purpose of this perfecting amendment is quite simple and is quite appropriate if this amendment which I am offering is to be fairly and clearly considered.

As originally filed, this amendment dealing with the T-46 called for reallocating the $151 million being authorized for the T-46 to the F-16 program. Last Friday, we adopted an amendment which reduced the amount which is being appropriated for the F-16 by $490 million.

Consequently, the amount authorized for the F-16, as referred to in the amendment as originally filed is no longer relevant; it is a different amount. The purpose of this amendment, purely technical, is simply to adjust the amount so that the correct amount being allocated to the F-15 and F-16 is referred to.

This amendment, therefore, simply says, as the old amendment said, as the amendment originally says, that $151 million shall be transferred from the T-46A to the F-16 and the F-15. It simply clarifies where the money is going and what the correct amount of money is. It is a necessary amendment after the action we took last week in reducing the overall authorization level from $292 billion to $285 billion.

Mr. BADHAM. Mr. Chairman, will the gentleman yield?

Mr. DENNY SMITH. I yield to the gentleman from California.

Mr. BADHAM. I thank the gentleman for yielding to me.

Mr. Chairman, we may be on different sides of this issue but the issue before us right now is that if money by the larger proposal is to be reduced from the T-46, and that trainer aircraft is the thing, it should: One, properly stay in aircraft procurement Air Force, and so this is a technical, perfecting amendment and should be adopted so we can get on with the main debate under this issue.

Mr. DENNY SMITH. I thank the gentleman.

Mr. Chairman, I think it is very clear that this would increase the amount of dollars going to the F-15 and the F-16 for more efficient procurement.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Florida [Mr. CHAPPELL].

Mr. CHAPPELL. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong opposition to the amendment. We need to consider these aircraft on the basis of their merit. I am a strong supporter of the F-16 and the F-15. I am a strong supporter of the T-46. We have got every opportunity to decide on the merits of how we are going to spend money on the F-15 and the F-16.

We ought to be considering here without any problem whatsoever the merits of the T-46. We have been into this problem for several years now trying to bring on board the proper trainer for the Air Force. We have had numerous hearings in my subcommittee. Our subcommittee supports it strongly. I came on board rather reluctantly but the Air Force convinced me that we had to have a new trainer aircraft.

They made the point that it was as important as the strategic B-1 Bomber at the time they were making the issue, because this airplane takes too long to get out to the area, too long to get back from the area, too short a time in training with the pilots with the trainees, and it is too expensive and it is unsafe.

I have seen evidence that all of that is true. We ought to go ahead with the T-46. We need it. We need it now. While we have the old T-37 it is just old. It is 25 years old. If you want to waste over $500 million then you would support the amendment. But if you want to do what is right with an aircraft the way we have two prototypes in being, where the tests have been going well, where the production problems have virtually been settled, then you will vote down this amendment and let us decide on the T-46 on its merits and the F-15 and F-16 on their merits.

I urge to vote down the amendment.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. I thank the gentleman for yielding me this time.

Mr. Chairman, let me ask a question of the maker of the original amendment. It is my understanding the language of the perfecting amendment does nothing more than categorize where those funds, if your amendment is passed, will go?

Mr. SPRATT. That is correct.

Mrs. BYRON. If this perfecting amendment is passed, it does absolutely nothing to delete the funds then for the T-46?

Mr. SPRATT. That is correct.

The basic amendment does that. That amendment is not being changed. But as originally filed, this reference is to certain appropriation for the F-16. That number was changed last Friday. Consequently, this is an effort to have a correct reference for the appropriated level.

Mrs. BYRON. I had originally intended to speak in opposition to the perfecting amendment. I withdraw my objection to the perfecting amendment. I have no problem with this perfecting amendment per se.

I do have a great problem with the original amendment.

Mr. SPRATT. I understand that and you can address that when we debate it. We are simply trying to bring it to the floor in a coherent form consistent with the way the bill stands at this time.

□ 1640

Mr. STRATTON. Mr. Chairman, we accept the amendment.

Mr. SPRATT. Mr. Chairman, I thank my chairman, the gentleman from New York [Mr. STRATTON] for that.

The CHAIRMAN pro tempore. (Mr. DASCHLE). The question is on the amendment offered by the gentleman from Oregon [Mr. DENNY SMITH], to the amendment offered by the gentleman from South Carolina [Mr. SPRATT].

The amendment to the amendment was agreed to.

The CHAIRMAN pro tempore. The Chair recognizes the gentleman from South Carolina [Mr. SPRATT], for 20 minutes.

PARLIAMENTARY INQUIRIES

Mr. SPRATT. Mr. Chairman, may I rise to a parliamentary inquiry with the Chair at this time?

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. SPRATT. Mr. Chairman, the gentleman from Alabama [Mr. DICKINSON] has a substitute which he will offer to this amendment. It has been filed and noticed, and once he offers that amendment as his substitute, he will gain additional time.

For purposes of allocating time during this debate, I would like to propose to all sides that the time that will

be made available to him on the substitute be consolidated with the rest of the time as we divide it among ourselves.

The CHAIRMAN pro tempore. Does the gentleman ask unanimous consent?

Mr. SPRATT. I do indeed, Mr. Chairman.

The CHAIRMAN pro tempore. The gentleman will clarify his request. Does the gentleman seek a total of 40 minutes, 20 minutes to be divided on either side?

Mr. SPRATT. It would be 5 minutes on either side of the substitute, and we are asking that the time be consolidated.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from South Carolina?

Mr. McGRATH. Mr. Chairman, reserving the right to object, let me see if I understand the parliamentary implications.

The gentleman from Alabama [Mr. DICKINSON] offers a substitute, and that is 10 minutes that will come out of the 40 minutes allotted to the gentleman?

The CHAIRMAN pro tempore. Under the proposed request the gentleman is correct. The amount of time allocated for the substitute offered by the gentleman from Alabama would not otherwise be part of the 20 minutes allocated for the amendment offered by the gentleman from South Carolina under the rule.

Mr. McGRATH. I thank the Chair, and I withdraw my reservation of objection.

Mr. DICKINSON. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman from Alabama will state it.

Mr. DICKINSON. Mr. Chairman, I want to make sure I understood the unanimous-consent request. I thought I understood him to say—and I would certainly support it—that I am entitled to 20 minutes on my substitute and he is entitled to 20 minutes on his amendment as perfected. We would simply combine the time to 40 minutes and give 20 minutes to either side; is that correct?

Mr. SPRATT. I would say to the gentleman that we have 40 minutes.

Mr. DICKINSON. Yes.

Mr. SPRATT. And the gentleman would get 5 minutes on his side and 10 minutes on his substitute as offered to my amendment. What I am proposing is that those 10 minutes be added to the 40 minutes already provided, and that we divide the 25 minutes on each side evenly.

Mr. DICKINSON. It is all right with me, Mr. Chairman.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

AMENDMENT OFFERED BY MR. DICKINSON AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. SPRATT, AS AMENDED

Mr. DICKINSON. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The CHAIRMAN. pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. DICKINSON as a substitute for the amendment offered by Mr. SPRATT, as amended: At the end of title I of division A (page 33, after line 17), insert the following new section:

SEC. 128. ADDITIONAL LIMITATIONS ON FUNDS FOR THE AIR FORCE.

(a) LIMITATION ON T-46 TRAINER AIRCRAFT.—Notwithstanding any other provision of this title, no funds appropriated for the Air Force for fiscal year 1987 may be used for the T-46 trainer-aircraft.

(b) ADDITIONAL F-15 AND F-16 AIRCRAFT.—Of the amounts appropriated for the Air Force for fiscal 1987, $151,000,000 may be used only for the procurement of additional F-15 aircraft or F-16 aircraft.

(c) REPORT.—(1) The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report concerning the allocation of the funds described in subsection (b).

(2) The report required by paragraph (1) shall be submitted not later than the end of the 30-day period beginning on the date of the enactment of this Act.

The CHAIRMAN pro tempore. The Chair will inform the Committee that under the unanimous-consent agreement the gentleman from South Carolina [Mr. SPRATT] has 25 minutes, and the gentleman from New York [Mr. STRATTON], and the gentleman from Alabama [Mr. DICKINSON] will share 25 minutes.

The Chair recognizes the gentleman from Alabama [Mr. DICKINSON].

Mr. STRATTON. Mr. Chairman, I am the opponent of the original amendment, I am the opponent of the amendment that the gentleman from Alabama is offering, and I believe I am entitled to one-half of the time, which is 25 minutes.

The CHAIRMAN pro tempore. The Chair understood that under the unanimous-consent request agreement just offered by the gentleman from South Carolina, the opposition to the amendment offered by the gentleman from South Carolina is represented by the gentleman from New York and the gentleman from Alabama and they were to share opposition time of 25 minutes to be allocated equally.

Mr. STRATTON. But the gentleman from Alabama is not in opposition to the amendment.

PARLIAMENTARY INQUIRY

Mr. BADHAM. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The Chair recognizes the gentleman from California.

Mr. BADHAM. I thank the Chair.

Mr. Chairman, in my parliamentary inquiry, is it not true that if the gentleman from South Carolina and the gentleman from Alabama, who had virtually identical amendments, one substituting for the other, were in the same direction, they would share half of the time, and the gentleman from New York, who is opposed to the substance of the amendments offered by the two gentlemen, would have the balance of the time, which is also 25 minutes?

The CHAIRMAN pro tempore. The Chair will respond by saying that if that was the intent of the unanimous-consent request made by the gentleman from South Carolina, the Chair will recognize it. That was not the way the unanimous-consent request was understood.

Is that the request? Is that the intent of the unanimous-consent request?

Mr. SPRATT. Mr. Chairman, that is agreeable with me, and I think that is a fair way of allocating the time.

The CHAIRMAN pro tempore. Under the unanimous-consent agreement, without objection, the gentleman from South Carolina [Mr. SPRATT] will be allocated 12½ minutes, the gentleman from Alabama [Mr. DICKINSON] will be allocated 12½ minutes, and the gentleman from New York [Mr. STRATTON] will be allocated 25 minutes.

There was no objection.

Mr. DICKINSON. Mr. Chairman, may I be recognized at this point?

The CHAIRMAN pro tempore. The gentleman from Alabama [Mr. DICKINSON] is recognized in support of his substitute.

Mr. DICKINSON. I thank the Chair.

Mr. STRATTON. A point of order, Mr. Chairman. Did the Chair address me?

The CHAIRMAN pro tempore. The Chair was informing the Committee of the time, the gentleman from South Carolina [Mr. SPRATT] has 12½ minutes, the gentleman from Alabama [Mr. DICKINSON] has 12½ minutes, and the gentleman from New York [Mr. STRATTON] on this substitute and on the amendment offered by the gentleman from South Carolina [Mr. SPRATT] has an aggregate time of 25 minutes.

Mr. STRATTON. I understand the time, Mr. Chairman, but I thought the Chair was recognizing me in opposition.

The CHAIRMAN pro tempore. The Chair recognizes the gentleman from Alabama [Mr. DICKINSON] who has just offered a substitute.

Mr. DICKINSON. Mr. Chairman, let me try to explain where we are. It is really pretty simple.

In the committee bill, there was an amendment offered in the Procure-

ment Subcommittee headed by the gentleman from New York [Mr. STRATTON] which prevailed. That amendment took away from the administration's budget request certain sums of money affecting the F-15 and F-16 and adding $151 million for the T-46 trainer. In other words, they took out the Air Force program and put in the program espoused by the gentleman from New York.

Now, the gentleman from South Carolina [Mr. SPRATT] has said he is opposed to that and he wants to delete the $151 million and say that if that money is saved, it will go back to its original purpose. I think it is a good idea.

What is wrong with the T-46 program? Why do we not want that in the first place? Well, there are several reasons. Affordability is one. The T-46 is a $3.1 billion program. The unit cost of the T-46 would be $4.8 million, and in this budget there is $151 million that was not in the administration request.

The Air Force has already negotiated its T-46 advanced development contract and two lots of T-46 production. Fairchild, the New York firm that is building the T-46, was to build 10 in the first production lot, followed with a buy of some 20 in the second lot. The Air Force has the option of buying the second 20, at a firm fixed price. But there has been a substantial overrun in the cost of the first 10. The program is in trouble. With regard to the first 10, they have even quit trying to complete construction of aircraft No. 3. They only have two under construction.

□ 1650

The Air Force has been notified that Fairchild wants to renegotiate the second production lot, because Fairchild says there is no profit in it.

The program is in trouble. The Air Force does not want it.

What it all boils down to is that the gentleman from New York (and everybody else) recognizes the economic impact in the area and wants to force the Air Force to procure a weapons system that they do not want.

You will see a number of people following here that often say, "Why does the Department of Defense buy things that they don't need? Why do the Services buy things that they can't use? Why don't they do things in the most economical way? If something doesn't work, why don't they cancel the program?"

It is going to be interesting to watch this vote, because that is exactly what the T-46 supporters are trying to do now.

The program is in trouble. It has been in trouble for a number of years. It is over cost. It is behind schedule. The contractor cannot perform under the development contract, under the first production lot, or under the second lot. Yet a group here says, "Hey, we've got to have the T-46 though. You've got to buy it."

We have heard all this before with the A-10. The same people built the A-10 aircraft and we were forced to buy that year after year to help New York State, when the Air Force said they did not want it. We fought it every year. We fought it in conference, but there was a group here that had enough clout to get it, so we are doing the same thing again.

The Air Force does not want this aircraft. They are asking us, "Please don't make us buy this aircraft."

It is in trouble. It is costly. We have already reduced the amount of money that we can spend.

Last week, I told the gentleman from New York that if they did not reduce the total spending budget to the detriment of the F-15 and F-16, now I would not offer the amendment.

Well, it fell out and it is interesting that those who voted for the low dollar figure last Friday to reduce spending are the same ones who are saying, "Hey, spend this extra money."

Well, it just does not make sense. Let us at least be consistent. If you want the low dollar figure, all right. We were saddled with that last Friday. Do not come back asking for $151 million add-on as a bailout for someone in the northeastern United States.

I talked this morning to the Secretary of the Air Force. His final words, and I quote, were: "Congressman, don't make us buy this turkey. We don't want it."

What else can you do? What else can you say? The facts are there. I am sorry that it is from an economically depressed area, but we are not buying this is a welfare program. It is not proven. It is over cost and in trouble and we need the F-15. We do need the F-16. They are in production. If you cut the F-15 in half, according to Air Force figures, it is going to cost an additional $6 million per aircraft to procure our F-15's.

So Mr. Chairman, let us vote for the country. Let us not vote for one geographical area that just wants to keep a company afloat.

Mr. STRATTON. Mr. Chairman, I yield myself such time as I may consume, and I rise in opposition to the amendment offered by the gentleman from South Carolina [Mr. SPRATT].

Mr. Chairman, the gentleman from Alabama talked about a turkey. If there is any turkey involved in this situation it is the current trainer that our aircraft pilots are operating, and that went back to the 1950's.

I have in one page here a detailed compilation of the deficiencies in the T-37, that broken down old 1950 trainer that we want our modern pilots with all the jet speed in the world to fly. The T-37 aircraft exhibits the following deficiencies: It is approaching the end of its certified life; excessive fuel consumption of the T-37 relative to that of currently available turbo fan engines result in high operational costs and needless drain on a limited fuel supply; the high cost of ownership results from excessive maintenance man-hour requirements relative to modern aircraft of similar size and complexity. That is your old turkey, the T-37.

The engine noise levels exceed by a factor of two those permissible under the Federal Aviation Regulation, part 36.

Limited range and endurance restrict aircraft sortie and flexibility training utility.

Limited performance restricts the training envelope to the lower altitudes where air space, as we all know, is becoming increasingly more congested, more hazardous, and more difficult to dedicate to pilot training roles.

That is the plane you want to fly? That is the turkey you want to fly? We do not want that kind of a turkey. We have got problems enough in our national airports, and Dulles as well.

It is limited in all weather capability and it therefore restricts total training potential.

The instrument displays are inconsistent with those of modern Air Force aircraft.

That is what the Air Force has to say about the T-37. That is why the T-46 was in fact the winner of the competition when the Air Force went to look for a new modern trainer, and they were delighted with it.

The problems that came at the beginning have all been eliminated.

One of the outstanding test pilots of the Air Force, Senator GOLDWATER, flew the T-46 and he checked it out as being an outstanding aircraft, as did the gentlewoman from Maryland [Mrs. BYRON], who also flew it. She knows a thing or two about aircraft.

So do not talk about this as a turkey. This is a modern plane and we ought not to be dickering around with misapplied and misdirected statements. Let us get the best there is for the young men and the young women who are flying our increasingly complicated aircraft.

Mr. SPRATT. Mr. Chairman, I yield myself 6 minutes.

Mr. DICKINSON. Mr. Chairman, will the gentleman yield?

Mr. SPRATT. I yield to the gentleman from Alabama.

Mr. DICKINSON. Mr. Chairman, I think I misspoke. I had some time I had agreed to yield to the gentleman from South Carolina. Do I still have time?

The CHAIRMAN pro tempore (Mr. DASCHLE). The gentleman from Alabama [Mr. DICKINSON] has 6½ minutes.

Mr. DICKINSON. I thank the Chair.

Mr. SPRATT. Mr. Chairman, the T-46 was intended to be the Air Force's basic trainer. It was intended to replace the current basic trainer, the T-37; but the fact we begin this debate with is this. The Air Force has officially canceled the T-46 program. Now, since the Air Force was terminating the program, there was no request made by the Air Force in the defense budget for the T-46. Indeed, the Air Force has not obligated or spent any of the $170 million which we appropriated for the T-46 in fiscal year 1986, last year. The Air Force decided to cancel the T-46 basically for two reasons.

First, in today's budget environment with diminishing funds for defense, the Air Force decided, prudently I think, that its scarce funds could be spent better on practical aircraft, like the F-16 and the F-15, rather than on the T-46. My amendment respects the Air Force's budget decision. It diverts the $151 million which we are providing for this canceled program back to the F-15 and the F-16, which is where the Air Force wants it to go.

Second, the T-46 program almost from the outset has been on a rocky, rocky course. The development contract with Fairchild, the manufacturer of the airframe, is 65 percent over the ceiling price. The airframe itself is 20-percent overweight, which is a substantial variance; but even before the Air Force made its cancellation decision, the development program has slipped 8 months on its schedule.

Read the SAR, the selected acquisition report, and you will see what the Air Force thinks of this program.

On rollout, this is what they say:

> Roll-out of the first flight test aircraft occurred on 11 February, '85. An Air Force executive review of the air frame contractor's capability to conduct the T-46 program was held after it became apparent that the test aircraft was incapable of first flight on or about the contract date of April 15. The first test aircraft was delivered to the Air Force and transported, not flown, transported to Edwards Air Force Base. There was a contract to operations review and in all eight categories, eight management categories of review, the aircraft was ruled unsatisfactory by the Air Force.

Go on through the SAR, the selected acquisition report, which is the official report filed by the Air Force just last March. The costs at variance in airframe results primarily from increased design engineering changes, manufacturing efforts, such as parts growth, overtime expenses exceeding plan and fuselage and wing fix problems.

This is why the Air Force canceled the program.

Now, in this bill, as it comes to the floor, the House Armed Services Committee is trying to save the T-46, a program the Air Force has decided it does not need right now. The committee would force on the Air Force $151 million which the Air Force has not sought, did not ask for, and it would add this $151 million to $170 million in fiscal year 1986 budget authority, which the Air Force has not spent and is deliberately withholding from obligation on this program.

I think that is bad policy if we force this on the Air Force and I think it will set a precedent that we will regret.

Even so, my amendment would not kill the T-46. The gentleman from Alabama [Mr. DICKINSON] has a substitute which would simply kill the program, deliver the coup de grace; but in deference to those who insist that the T-46 can be made to perform to specifications and will eventually come in on budget, my amendment proposes a prototype competition. It proposes that the Air Force use its prior year funds, it still has $170 million from fiscal year 1986, and solicit proposals for modifying its current trainer, the T-37, to see if it cannot meet the Air Force's requirements for a trainer.

Now, Cessna aircraft, which built nearly a thousand of the T-37's, has already made such a proposal on an unsolicited basis to the Air Force. Cessna has offered to take out two T-37's from the Air Force inventory and to modify each with Garrett F-109 engine, the same engine designed and made for the T-46. Cessna has also offered to take the avionics from the T-46 and put it in the T-37, to put in a modern instrument panel, to put in a new ejection seat; they will repressure the cockpit. All of this Cessna has offered to do just for the cost of the equipment itself, the engines, the avionics and the other equipment, and no profit or price to add on top of that. For that, Cessna will produce two prototypes and will offer these prototypes to the Air Force to be competed or tested against the T-47. If the Air Force likes the modification, the modified old T-37, Cessna said it will build that plane, modify that plane, for $1.9 million. It will bring it up to date, extend its life, put in the new engines, new avionics, new instrument panel, for $1.9 million.

On the other hand, if the Air Force so requests, Cessna is prepared to build new T-37's with new engines, meeting completely new specifications with all the modifications I have mentioned, for $2.576 million.

Now, the projected cost of the T-46, by contrast, is $3.7 million. That unit cost is out of date. It has not been carefully updated due to the simple fact that the Air Force decided to cancel the program and has no reason for updating it.

The CHAIRMAN pro tempore. The time of the gentleman from South Carolina has expired.

Mr. SPRATT. Mr. Chairman, I yield myself 1 additional minute.

Mr. SPRATT. Mr. Chairman, the Congressional Budget Office in a special analysis it made of the T-46 last March warned: "There is considerable risk of growth in T-46 cost"—over and above the $3.7 million unit cost that I cited.

In any event, the new and modified T-37, if purchased new, would be $1.1 million per copy less than the T-46, $1.1 million per copy and spread over a life of 650 airplanes, that promises a savings of $725 million to a billion in constant 1987 dollars. That is the kind of savings we can potentially reach if we would simply look at the possibility of a prototype.

□ 1705

Mr. Chairman, my amendment gives the House an opportunity to do something we continually preach but seldom practice. It gives us an opportunity to have a competitive fly off, a procurement practice the Packard Commission has highly recommended. It gives us an opportunity to try to improve incrementally an existing aircraft, still meet the Air Force's need, and possibly save a billion dollars or more, and it gives us all an opportunity to show that we are for efficiency in procurement.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The time of the gentleman from South Carolina [Mr. SPRATT] has expired.

Mr. SPRATT. Mr. Chairman, I yield myself 10 additional seconds.

Mr. Chairman, I would say to my colleagues, the gentlemen from New York [Mr. STRATTON], [Mr. DOWNEY], and [Mr. MRAZEK], that my amendment gives an opportunity for saving the T-46 which the other body will find hard to decline when we get to conference.

Mr. STRATTON. Mr. Chairman, I yield 4 minutes to the gentleman from Massachusetts [Mr. MAVROULES].

Mr. MAVROULES. I thank the gentleman for yielding time to me.

Mr. Chairman, we talked about the affordability factor. I would like to put that one to sleep once and for all, if I could. Back on March 29, 1986, the Secretary of Defense in the report the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services, stated that the Air Force has indicated that budget constraints forced it to seek cancellation of the program after it acquired the first 10 aircraft. This statement can be challenged by the simple fact that the Air Force will probably allow to lapse in September of this year up to $1.7 billion in fiscal year 1984 unobligated aircraft procurement appropriations. It is very difficult to accept the Air Force explanation based on this fiscal data.

Mr. Chairman, last fall the commander of the Air Force Strategic Air Command, General Welch, who is now the Chief of Staff, in a message on the T-46, said: "Operational safety and logistical deficiencies of (the) T-37 must be corrected. Best way to correct them is with (the) T-46, not with modifications of (the) T-37."

By the way, the present commander of the Air Training Command, General Iosue, stated, "Pouring any money into the T-37 is like pouring money into a rathole."

In the committee report we do have indeed a cost cap of $3.1 billion for fiscal year 1986 dollars for the production of 650 aircraft excluding initial spares. Further, the average weapon system unit cost flyaways support may not exceed $4.8 million in fiscal year 1986 dollars.

In the event that either limitation is breached, the Secretary of the Air Force is required to compete the production of the remaining T-46A aircraft in the following year.

By the way, if the Air Force is that interested at this point, in November 1985 Cessna submitted an unsolicited proposal to the Air Force for evaluation of a new version of the T-37 aircraft. And here we are in August of 1986. To date the Air Force has not responded to the proposal.

I think that the question before all of us today is very simple: Do we indeed want a new trainer to give a greater opportunity to our pilots, or do we want to go back and try to respond to a vintage aircraft? It is about time that we have done everything possible in this House to give to our people, our military personnel, the very best weapons possible for the purposes of training.

I honestly believe that this is a very poor amendment. We have the opportunity, we have the technological background, and by the way, we have the funds, to continue with the T-46 program, and I strongly believe that that is a step forward. I urge my colleagues to reject the amendment.

Mr. SPRATT. Mr. Chairman, I yield 3½ minutes to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Chairman, I rise in support of the Dickinson amendment, and if that fails, I rise in support of the Spratt amendment.

Let us make one thing clear: The Department of Defense and the Air Force have zeroed out the money for the T-46. They want an unequivocal termination of this program. It was contained in the President's budget message and in subsequent statements by the Air Force Chief of Staff and the Secretary of the Air Force.

Even in an era of $30 billion increased requests which the Pentagon wanted from us, they still prioritize this project so low that they want it deleted, and the other body agreed—they deleted it.

There is a show on TV called "Amazing Stories." Steven Spielberg produces it. It is about all kinds of crazy, ironical things that happen in this world.

Let me give you an amazing story. Ronald Reagan's Pentagon wants to zero out a procurement system, and we in the House might not go along with it. That is an amazing story as far as I am concerned.

What irony and paradox. We rail and rail about defense spending and overcharges. We rail about inefficiencies. We rail about mismanagement, exactly the problem with this program, the T-46. And then what do we do when we have the chance to put up or shut up?

The fact of the matter is that the committee decided to shut up and agree with the program. This is our chance to show fiscal integrity, responsibility, and still preserve national security. We can save $2 billion if we vote for the Dickinson amendment. We zero out the program.

Now what happens if we zero it out? Well, there are several options, and I want to be honest with my colleagues. Like the gentleman from New York, I have a parochial interest in this matter, and yet the item might not inure to my benefit. One of the options is to stay with the T-37—it can last 3,000 more hours—and not spend virtually any more money. That plane is made by Cessna, which is in my district. That is a possibility. One of the options is to have a flyoff, as Mr. SPRATT recommends. It means Cessna might get it, Fairchild might get it, or any number of 100 companies might get it.

The plane, the T-46, has been a problem, and a flyoff is deserved.

The other possibility is to modify the existing program. This amendment either zeroes it out, as Mr. DICKINSON wants, or offers the option of a flyoff and puts the money in other places, which Mr. SPRATT wants. But this is money that Ronald Reagan says that we do not need to spend for our national defense. It is the kind of classic thing: "I am for cutting spending except when it comes in my area."

The Pentagon has given us a test. Usually they want to add money; now they want to subtract money. Are we going to fail this test and our pledge to our constituents to hold down Government spending when we have a deficit this year of $240 billion? I hope not. I plead with my colleagues: Save the $2 billion, support your President, support BILL DICKINSON, and if he loses, support JOHN SPRATT.

Mr. DICKINSON. Mr. Chairman, I yield 3 minutes to the gentleman from Oregon [Mr. DENNY SMITH].

Mr. DENNY SMITH. I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in support first of the Spratt amendment, and then the Dickinson amendment. I think that the need for a flyoff in this program or any other program is pretty clear. The Packard Commission was very strong in their recommendation that we fly before we buy.

What we have here is becoming a parochial fight. We can see the gentlemen from the Northeast all ganging up to try and speak on this project. I do not care where this airplane is built; I would like to see a good one purchased. I think the only way that we are going to know that is to design a prototype and fly it.

One of the reasons that I am in favor of the amendment of the gentleman from South Carolina [Mr. SPRATT] is the fact that we are going to get to fly the T-46. If we go with the amendment of the gentleman from Alabama [Mr. DICKINSON], we are going to just wipe out the money completely.

I think that we have spent a lot of development dollars on the T-46, and it is important to the taxpayers to know whether that thing is a turkey, as the Air Force Secretary says, or whether or not it could be made into a better airplane.

A few years ago we were buying all the airplanes we ever purchased through a "fly before buy" kind of procedure. Some Members might remember that about 1960 Lockheed built an airplane, and they tested it quite a bit. It is now the P-3, but beforehand it was the Electra. It had a little vibration in the wing, and the wing came off outboard of one of the outer engines. That airplane was eventually made into a pretty good machine. However, if we are to go ahead and buy the T-46, which does have a known wing problem, we could well have another turkey that it takes quite a few lives and quite a few dollars to get straightened out.

The Packard Commission recommended that we utilize "fly before buy," and here we are getting into a position where parochial political interests are going to drive what we are using to try to defend the country. I do not think that we really need an airplane with a pressurized cabin to teach basic flying training to anybody in this military or any other.

□ 1715

You can learn to fly airplanes, but they do not have to be gold plated.

I do think it is important that we fly off. We have done that in the YF-16 and the YF-17 and the A-10.

Mr. Chairman, very simply, I think it is time to put an end to the paper competition and the door-to-door lobbying campaigns by the manufacturers that pit advertising dollars in the local news media against each other,

not airplanes, one against the other. This is one of those kinds of things where we need a real fly off, and I urge my colleagues to support the gentleman from South Carolina [Mr. SPRATT], first, and the gentleman from Alabama [Mr. DICKINSON], second, in my choice.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Chairman, today with the consideration of the amendment offered by the gentleman from South Carolina [Mr. SPRATT] and the substitute offered by the gentleman from Alabama [Mr. DICKINSON], we make a very important decision on the next generation trainer for the Air Force. We are faced with the choice of giving our young Air Force pilots the new technologically superior Fairchild Republic T-46, or have them continue training in 35-year-old airplanes that are older than they are.

The adoption of the Spratt amendment would be a great mistake.

First, this amendment postpones the day of reckoning despite the obvious need for a new trainer now. In 1981, the Air Force testified as to the pressing need for a new trainer by the year 1986, noting that the T-37 would be "near the end of their structural airworthy life by the late 1980's. The Air Training Command is already losing 20 percent of their training sorties because of weather conditions that the T-37 cannot safely tolerate and when you combine this operational deficiency with others and the fact that the old T-37 inventory is being rapidly depleted by age, you find that the Air Force will not be able to meet its pilot production rates beyond 1987.

The gentleman from South Carolina ignores this by proposing that we in effect slow the rate of production for the T-46 and give Cessna a crack at wresting the contract away. I have two problems with this. First, instead of rewarding Fairchild for correcting their earlier production problems and giving them future incentive, this amendment penalizes them by casting doubt over the program and making it hard for the company to retain qualified personnel. Second, we have already had a competition for this contract! Cessna had their chance! They took their best shot and they lost. The Air Force clearly rejected the idea of an upgraded T-37 because the cost estimates were unsubstantiated and unrealistic, and because the jerry-rigged plane would fail to meet half the Air Force requirements for a new trainer. In contrast, the T-46 flight tests have been a great success. The Air Force is delighted with the plane—just ask the Air Training Command. The Fairchild Republic trainer meets or exceeds all the Air Force requirements. Moreover, evidence indicates that a delay in the T-46 production of the type proposed by this amendment would add—not subtract—a billion dollars to the cost of a new trainer.

The second reason I oppose this substitute is that it would transfer the $151 million authorized by the committee for the T-46 to the F-15 tactical fighter account. Now the F-16's are great planes and I'm all for them, but it makes absolutely no sense to pour more money into the fighter program without providing our young trainees with essential, up-to-date basic training equipment. What good is it to have all this sophisticated weaponry if we don't have the pilots properly trained to use it?

It's time, Mr. Chairman, that we stress the basics by doing first things first. Let's make a conclusive decision today to provide our pilots with the best—the T-46. I commend Chairman ASPIN and the committee for the wise judgment they have reached in this matter and I urge the defeat of the Spratt amendment.

Mr. SPRATT. Mr. Chairman, I yield 1½ minutes to the gentleman from Kansas [Mr. SLATTERY].

Mr. SLATTERY. Mr. Chairman, I rise in support of the Spratt amendment and also the Dickinson amendment. I would just point out, ladies and gentlemen, that this country is facing a $230 billion deficit and we are facing in the next few weeks, in all probability, sequestration under Gramm-Rudman.

The President, in his budget for the Pentagon, recommended a $30 billion increase, and even with that $30 billion increase this program was deleted. Think about that, ladies and gentlemen. We are talking about putting a program back in the budget the President could not find room for when he was recommending a $30 billion increase in the Pentagon budget. It is absolutely ridiculous that we are debating this even today.

The Air Force says they do not want it. The Secretary of the Air Force says he does not want it. The Joint Chiefs do not want it. The Secretary of Defense does not want it and the President does not want it. To suggest that these people do not have some basic understanding about the need for a trainer in this Air Force is just absolutely without merit.

If this amendment is defeated, ladies and gentlemen, we are looking at a textbook case of why this Government cannot cut Government spending, a textbook case right here today on the floor of the House of Representatives. Logic, and reason, and common sense demands, ladies and gentlemen, that we support the Spratt amendment and the Dickinson amendment and cut $1 billion out of the Pentagon budget that the Pentagon says they do not want.

We heard the gentleman from Alabama say that the Secretary of the Air Force this morning said, "Don't make us fly this turkey." What in the world are we doing here today forcing them to spend $1 billion they do not want?

Mr. DICKINSON. Mr. Chairman, might I inquire how much time remains?

The CHAIRMAN pro tempore. The Chair informs the gentleman that the gentleman from Alabama [Mr. DICKINSON] has 3½ minutes remaining, the gentleman from South Carolina [Mr. SPRATT] has three-quarters of a minute remaining, and the gentleman from New York [Mr. STRATTON] has 15 minutes remaining.

Mr. DICKINSON. Mr. Chairman, I reserve the balance of my time.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. MRAZEK].

Mr. MRAZEK. Mr. Chairman, this has really been a fascinating debate. We have heard Long Island maligned, we have heard the Northeast maligned, and we have even heard the turkey maligned. In fact, a lot of different systems have been referred to as turkeys.

In fact, I have listened to my colleagues from Kansas who have so many times in the past taken this floor to say they think the administration is wrong, and now they say let us listen to Caspar Weinberger. I must tell my friends and colleagues from Kansas, Mr. Weinberger is wrong again.

This amendment is an effort to turn back the clock on an aircraft that is clearly too old and inadequate to meet the training needs of the future in this modern Air Force. I think it is important to remember that every pilot who is going to come into the Air Force, young pilots, will have to fly this plane, and they deserve the best.

The Air Force has time and time again rejected any proposals to upgrade the T-37 because of the tremendous cost involved and the simple fact that the T-37 is deficient in every way when matched up to the T-46.

Admittedly, there were some initial problems in this aircraft, as there have been in many other systems. Yet more than 170 hours of test flights have been successfully conducted, and I would point out that eight different Air Force generals all have given rave reviews to the T-46 at this particular time.

The CBO has stated that the number of available T-37B aircraft will not be sufficient to meet the projected pilot production rates beyond 1987.

I would simply conclude by saying that there is merit to both sides of this argument. I hate to hear that the two trainers that young pilots in this Air Force are going to have to fly in the future are both turkeys. I do not know that that is a commendation in any

real form whatsoever, and I would hope that the rest of this debate might be conducted on the relative merits of two systems that hopefully will not cost any American lives in the future.

Mr. McGRATH. Mr. Chairman, will the gentleman yield?

Mr. MRAZEK. I yield to the gentleman from New York.

Mr. McGRATH. Mr. Chairman, I rise in strong opposition to the amendment by the gentleman from South Carolina. This proposal is akin to restarting bottom of the 9th inning when you don't like the outcome of the game. The Air Force has been studying the need for a trainer since the late 1970's. Here we are nearly 10 years later after numerous studies and full-blown competition proposing further delay.

Developing an alternative to the T–46 would take at least a year or two. By that time any existing claims that money would be saved through an alternative will not be accurate. In addition to inflation, enormous unforeseen problems could exist in fitting new engines onto an aircraft designed in the 1950's.

In 1984, the Secretary of the Air Force stated that the T–46 is a "trainer we very desperately need." Today and over the next week, we will authorize research and production of several advanced aircraft—(B–1, Stealth bomber, advanced tactical fighter, F–15C, and F–15E. I think our program to train pilots ought to utilize a jet trainer with instrumentation and capabilities closer to those we are spending billions to develop and build.

I fully understand Air Force budget concerns, however, an investment of little more than $100 million would enable the T–46 program to continue efficiently. We would have no costly production line stoppage, and no expense and delay for a new competition. We would have a sound modern aircraft to train our pilots through the end of this century.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. DOWNEY].

Mr. DOWNEY of New York. Mr. Chairman, we are here today not because the T–46 has some trouble. It did, and we all admit that. We are here today because the senior Senator from the State of Kansas found an opportunity to force the Air Force to say that they did not want the plane that the year before they were crying desperately for.

There are a number of different ways to evaluate what is necessary for the defense of our country. A trainer should very simply be categorized in very quick terms. It is needed.

The T–37, everyone knows, is 30-plus years old. Its useful life is running out. That is clear. The Strategic Air Command commander says so, former Secretary of the Air Force, Verne Orr says so.

Will it cost more money if we cancel this or will it cost less money? It will cost more money, my colleagues, if we go to the bait and switch scheme that the gentleman from South Carolina [Mr. SPRATT] has offered us. We will also be killing the airplane.

□ 1725

For the last year, the Fairchild Co. has managed to swallow a year of not having progress payments, and it is quite clear that if you want to kill the plane, you can kill it the way Mr. DICKINSON wants to kill it, by not giving it the money, or you can kill it the way Mr. SPRATT will do, by studying it again. You can kill it with kindness, but I would urge you, urge you to recognize the fact that there is a requirement for this plane and it is met by the T–46, and it will cost over the lifetime of the project, $1 billion less if we build it now as opposed to later.

We are faced with an unhappy political dilemma. The Air Force, in attempting to prove that it is against something, has chosen this plane even though it has, up to now, provided $486 million in developmental cost, and sung a siren song to the House Armed Services Committee for the last 4 years that the plane was necessary.

It did not sing that song this year, but the House Armed Services Committee decided that young pilots needed new planes to train on. This plane will save money in fuel, maintenance; it is more reliable. We know that for a fact two prototypes have already flown.

So, my colleagues, this is not a question of studying; this is a question of whether you cancel it by cutting the money out or canceling it by studying it. Do not do either. Accept the House Armed Services Committee recommendation to build the plane.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. Dornan].

Mr. DORNAN of California. Mr. Chairman, July 8, the Air Force asked me if I would like to come out and fly the T–46; and I was unable to do so because of some district promises that I had made, so I talked to Senator GOLDWATER and to Mrs. BYRON, and I talked to the test pilots, and I talked to some generals in the Air Force that have four stars on their shoulders.

I said, "Now level with me. With all this talk about serious problems, is there any problem with the engines, these excellent Garrett engines?" "No." They said, "These engines are flying in business jets all around the world; excellent engines."

I said, "Is there anything wrong with the air frame that is any different than any airplane I've ever flown or any airplane any other Member of this Chamber has flown, like Mr. SMITH and the F–4, anything different in this stage of its development than other jet aircraft?" They said "No. Actually, there isn't anything that can't be fixed with just a little effort, and it's way beyond the average at this stage in development of all the other jets we've flown since the midforties."

"Now, taking that fairly into consideration is the need there for a pressurized cockpit and a new primary trainer for our young pilots in the Air Force?" The answer is yes.

One of these Air Force four-star generals, a fighter pilot type, said, "Congressman, in the best of all worlds, of course we would like to have this airplane and make the few fixes that are necessary. But you guys in the Congress are rolling us back on so many fronts and cutting so much that we want that this is one of those priorities that we don't want to have to put up against F–15's or F–16's."

So I think it is only fair to tell the New York delegation that those of us who are not cutting back to the lower figure in our defense think that our young pilots in the Air Force going after those wings of silver deserve this T–46; and I accept the testimony from the other body, and the testimony from the only person in this Chamber who has flown it, Mrs. BYRON, and I say, "Let's vote for these limited funds and get this T–46 program going."

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentlewoman from Maryland [Mrs. BYRON], who has flown this outstanding plane as the gentleman from California has outlined.

Mrs. BYRON. Mr. Chairman, if I had only known, I would have worn my flight suit.

Let me say that I have to rise today, like many of my other colleagues who have talked about parochial interest. I, too, have some parochial interest; not the fact that I happen to have had an opportunity to fly this aircraft, but I happen to be the mother of an Air Force pilot.

I do not think there is anyone that is a parent of a child that does not want only the very best for that child.

Back in July 1982, the award source selection was made to replace the T–37. Fairchild won that source selection. Two of these aircraft have been delivered. The person who made that source selection has said to me that nothing has changed since they made that original decision.

The Air Force has acknowledged that the T–46 has performed in the flight test program satisfactorily. Mr. SPRATT, in his discussion, talked about the aircraft being transported to Edwards; not flying to Edwards. Of course, any new aircraft is not going to be flown to its first test flight station; it has to be transported.

We have so far had 88 tests of this aircraft. In March of this year, I had an opportunity not only to fly the T–46, but to fly the T–37 first for an hour and a half. I had an opportunity to compare the two aircraft. There is no comparison.

I was in the 73d flight; I was the 21st person to fly this aircraft. In my estimation, this amendment should be defeated.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Arizona [Mr. KOLBE].

Mr. KOLBE. Mr. Speaker, I rise in opposition to both the underlying amendment offered by Mr. SPRATT and the substitute amendment offered by Mr. DICKINSON.

I think that the T-46 is vital to the Air Force training program, and I certainly hope that my colleagues will defeat these amendments.

The fact of the matter is, the T-46 trainer will meet the Air Force's need for a new and more capable trainer aircraft, which is safer and more efficient. The current trainers, the T-37's, are by and large more than 25 years old. They are costly to maintain and they are incapable of meeting the requirements that the Air Force has for training of our modern aircraft and our modern pilots.

It seems to me the gist of what we are talking about, or what we have been hearing about here today is, "If it ain't broke, don't fix it." Well, that is great if we are talking about acquiring some relics to hang in the Smithsonian aerospace museum, but that is not what we ought to be talking about here today.

We ought not to be talking about keeping relics; we ought to be talking about getting the very best aircraft that we possibly can for our pilots.

Now much has been made on the floor during this debate of the opposition by the Air Force to the funding for this; but the fact is, they did not used to oppose it. True, they have established some priorities, and many of us last week voted to allow sufficient funding to continue some of these major weapons systems that we think are very important.

As the Air Force officers over and over again, that have spoken on this have said, they need this new aircraft; they need a new trainer; and the T-46 does meet the needs of what they should have. Halting the T-46 production is going to necessitate tremendous modifications to the T-37 fleet that in the long run is going to cost as much as $900 million more than if we continue production of the T-46, the more capable, more maintainable T-46.

The T-46 is a superior aircraft for a number of reasons: It has a pressurized cabin and higher thrust engines, it operates at higher altitudes and in much worse weather conditions than the T-37. The higher altitude means that pilots would have fewer encounters with general aviation.

I urge my colleagues to reject these amendments that are before us.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from California [Mr. BADHAM].

Mr. BADHAN. Mr. Chairman, we have heard a lot in this brief debate about whether or not we need a trainer aircraft; where it is built, what it does, what it does not do, and what do we do with the money if we do not do it, there has been a lot of truth shed on this, but I think we have partially missed the mark.

I think the mark is, and it has been hit by some: Do we need a new trainer aircraft? And the answer is yes. The Air Force says that; the Department of Defense says that; everybody says that who has had anything to do with the aspect of training our Air Force pilots.

Now, I have not flown the T-46, but I have flown the T-37. Fine-working airplane; but it is loud, it is old, it is a gas guzzler, and it is on its last legs.

Now come the people who manufacture that bird, and they tell us, "Well, we can put new wings on it, we can put new engines in it, we can pressurize it, we can put a new cockpit in it," and I do not blame them for saying that.

One underlying fact remains there: There are not enough of them. There are not enough T-37's in the inventory left to rebuild, to fulfill this country's needs. We do, on the other hand, now have about ready to go into production, a T-46. Not your perfect airplane. Not your perfect airplane at all, but it meets today's standards, because it will be quieter, faster, higher flying, easier maintained, state-of-the-art cockpit, and it is something that we need and we need now.

The gentleman from California made comment about the fact that we have to have something because the old ones are wearing out; and that is indeed true, and it is time we got on with it, and it is a matter of priority.

□ 1735

I agree with Mr. DICKINSON, if we do not use the money for this program, of course it should go back into F-15 and F-16. But the fact of the matter is that perhaps as a passionate but in this case nonparochial Member of this body, let me say the T-46 is the way to go and in their heart of hearts the Air Force will tell you that.

The CHAIRMAN pro tempore (Mr. DASCHLE). The Chair informs the Committee that the gentleman from New York [Mr. STRATTON] has 3 minutes remaining, the gentleman from South Carolina [Mr. SPRATT] has three-quarters of a minute remaining, and the gentleman from Alabama [Mr. DICKINSON] has 3½ minutes remaining.

The gentleman from New York [Mr. STRATTON] retains the right to close debate.

Mr. DICKINSON. Mr. Chairman, I yield myself the time remaining on this side.

Mr. Chairman, I think it has been an interesting debate. As I close, I would just like to again reemphasize that we are being asked by a group from New York to substitute our judgment for that of the Department of Defense and the Air Force and say, "You guys don't know what you're talking about. We know more about airplanes than you do. So we will make a judgment as to what airplane you are going to buy."

Mr. STRATTON of New York, Mr. DOWNEY of New York, Mr. LENT of New York, Mr. MRAZEK of New York, Mr. MCGRATH of New York, and Mr. KOLBE of Arizona have all spoken in favor of this plane. Let me tell you this: they talk about how good it is. The contractor at the T-46 rollout ceremony brought out an incomplete aircraft that had some 100 parts made of cardboard and other nonflightworthy material. At the management inspection, this is true, all facts that are in the record, there are eight areas of inspection and the contractor failed in all eight areas of inspection and had 279 discrepancies.

I talked to the Secretary of the Air Force this morning, and he tells me that the contractor was to deliver 10 aircraft in lot 1. They stopped work on the third aircraft and may be able to deliver only 2 of the 10. As to the additional 20, I do not even think they will even bid on those at the present price. The fact is we have a substitute that can be upgraded and fly for 3,000 more hours. What you are asked to vote for today is one of two amendments. The Air Force position—and I am glad the gentleman from New York [Mr. STRATTON] mentioned Mr. GOLDWATER having flown this. Mr. Goldwater does not support this plane. They zeroed it in his committee of which he is chairman, and I am glad the gentleman mentioned his name. They zeroed it in the other body because Mr. GOLDWATER does not support this plane.

So this is where we are. I say the Air Force ought to be able to make its own mind up on the judgment that it has, and I think we ought to zero this program and use the money for the F-15 and F-16. It is just that simple.

Then if they want to come up later and have a competition, develop another trainer, good. The alternative which I would support if mine went down is Mr. SPRATT's. It says, "Let's don't build the T-46, let's have a competition, save the money for a competition but not go forward and build it."

Well, that is only half a loaf. If you want to do the right thing to cut out the waste, fraud, and abuse that we always complain about, give the Air Force and the Department of Defense a chance to manage its own business, give them the choice of saying, "This is a bad program, we have gone through it, it doesn't meet the specs, it

is overpriced, it can't cut the mustard." Let the Air Force for once say that they cannot do it, "We do not want the aircraft, let us modify what we got and save $3 billion.

The alternative, I think, is unacceptable.

Mr. SPRATT. Mr. Chairman, I yield myself the balance of my time.

The CHAIRMAN pro tempore. The gentleman from South Carolina [Mr. SPRATT] is recognized for three-quarters of a minute.

Mr. SPRATT. Mr. Chairman, I have absolutely no parochial interest in this matter. I made this amendment for three reasons: First of all, this program, the T-46, has been canceled by the Air Force and not funded by the other body. DOD asked for no money for it. There is no reason we should unilaterally reinstate the program.

Second, last year we gave the Air Force $170 million for this program. They have not spent it, they have withheld it. Why should we force upon them, shove on the Air Force $150 million more when they are withholding $170 million that we gave them last year?

Finally, Cessna has made the Air Force an attractive proposal. Whether it is a good one or not I do not know.

What my amendment says simply is let us try it. If the T-37 proves its mettle, proves it can do what it is intended to do, it may save us $1 billion.

Those are the reasons I have for my amendment. I urge that the membership adopt it.

Mr. STRATTON. Mr. Chairman, I yield myself 1 minute to respond to the gentleman from Alabama [Mr. DICKINSON].

He said the distinguished Member of the other body who is an Air Force general zeroed the plane out in his committee before he had flown it. After he had flown it, his position was otherwise.

Mr. Chairman, I yield the remainder of my time to the gentleman from New York [Mr. CARNEY] to close debate.

The CHAIRMAN pro tempore. The gentleman from New York [Mr. CARNEY] is recognized for 2½ minutes.

Mr. CARNEY. I thank the Chairman.

Mr. Chairman, we have heard an awful lot about having parochial interests. This is one Member of Congress who does not have a parochial interest. It is not built in my district. Indeed I come from Long Island. But I am unique inasmuch as I am not running again for office.

The only thing I want to do is to do what is right.

I have taken the opportunity to go out and visit one of our training facilities, Williams Air Force Base, in the West. While there I took the opportunity to talk to as many pilots involved in the training of the young men and women that I could find in a 2-day period.

I could not find one single pilot that said to me anything but, "Congressman, if you do anything in this Congress, make sure we get this trainer. The T-37 is old, it is an accident waiting to happen," it is inadequate for training young men and women to fly the expensive aircraft that we purchase.

We are asked to buy $40 million fighters, the F-15, the F-16, the new advanced tactical fighter. Yet we do not want to spend money for the most basic thing, that is training young women and men to fly our most expensive aircraft. That is a mistake. It is such a mistake that the Pentagon knew well that this Congress would recognize it.

The Pentagon deleted the training knowing we would do the prudent thing and put it back in the budget.

The Pentagon has a propensity for whistles and bells. They do not want to cut F-16's or F-15's. And they knew they could rely upon us to do what is right and that is put the T-46 back in the budget.

Why? One, the T-37, as I said, is dangerous, but it is costly as well. The new plane has a 44-percent more efficient fuel consumption rate. The new plane will allow us to train more frequently.

If we have overcast weather, training stops. The T-37 does not have the capability to be flown in overcast weather.

If you have a problem with air space, training stops. We can improve the air space problem because the T-46 has a pressurized cabin. We can go above 18,000 feet, go above where most civilian air craft are flying, and we can train our pilots safely to fly the best planes that we can buy.

Ladies and gentlemen, reject both amendments.

The CHAIRMAN pro tempore. The time of the gentleman has expired.

All time on the amendment has expired.

The question is on the amendment offered by the gentleman from Alabama [Mr. DICKINSON] as a substitute for the amendment offered by the gentleman from South Carolina [Mr. SPRATT], as amended.

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. DICKINSON. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 125, noes 277, not voting 29, as follows:

□ 1800

The Clerk announced the following pair:

On this vote:

Mr. Lewis of California for, with Mr. Campbell against.

Messrs. WEAVER, DURBIN, GORDON, and BATEMAN changed their votes from "aye" to "no."

Messrs. WEBER, HUCKABY, WOLPE, FAWELL, BOULTER, and SMITH of New Hampshire changed their votes from "no" to "aye."

So the amendment offered as a substitute for the amendment, as amended, was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. CONTE. Mr. Chairman, because I was in Massachusetts, being inducted as an honorary brother of the Pi Kappa Alpha Fraternity, University of Massachusetts chapter today, I was unavoidably detained and could not vote on the first Bennett amendment offered to the Defense authorization bill.

Mr. BENNETT's amendment would have deleted funding for 12 MX missiles, and transferred $250 million of the $1.1 billion cut to conventional weapons. Had I been present, I would have voted "yes."

The CHAIRMAN pro tempore (Mr. DASCHLE). The question is on the amendment offered by the gentleman from South Carolina [Mr. SPRATT], as amended.

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SPRATT. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 190, noes 213, not voting 28, as follows:

□ 1810

The Clerk announced the following pair:

On this vote:

Mr. Lewis of California for, with Mr. Campbell against.

Mr. BARNES and Mr. VISCLOSKY changed their votes from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN pro tempore. (Mr. DASCHLE). The Chair will inquire of the gentleman from South Carolina, does the gentleman wish to offer Amendment No. 4?

Mr. SPRATT. Mr. Chairman, I would advise the Chair that I do not intend to call amendment No. 4. I do intend to call amendment No. 11.

The CHAIRMAN pro tempore. The Chair advises the gentleman from Alabama [Mr. DICKINSON] that under the rules he is entitled to offer amendment No. 5. Does the gentleman wish to offer the amendment?

Mr. DICKINSON. Mr. Chairman, I think the House has spoken on that. I will not offer the amendment.

AMENDMENT OFFERED BY MR. MONTGOMERY

Mr. MONTGOMERY. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. MONTGOMERY: Page 10, line 1, strike out "$509,100,000" and insert in lieu thereof "$539,100,000".

Mr. MONTGOMERY. Mr. Chairman, my purpose in offering this amendment is to point out a need for better training devices and simulators back in the National Guard armories and Reserve airfields to further improve the training of reservists and guardsmen.

Mr. Chairman, I will not push this amendment for a vote because in my amendment I add to the authorization and I offer no way to make savings in the bill. The additional add-ons that I make in this amendment, I think when you do offer amendments on the floor certainly you should make some way to have cuts in the bill; so therefore I would like to explain the amendment and then I will ask unanimous consent to withdraw the amendment.

Mr. Chairman, the amendment I am offering would add $30 million for the procurement of nonsystem training devices, such as simulators for the Army National Guard and for the Marine Corps Reserve.

The committee bill provides, and I think this is enough, $53 million for such equipment for the Army National Guard.

Mr. Chairman, I would hope that the Chairman of the Procurement Subcommittee would listen, the gentleman from New York [Mr. STRATTON], to what I am about to say here. There is another $29 million in miscellaneous engineering equipment for the Marine Corps Reserve.

Now, I do not intend to ask for a vote on the amendment. I will withdraw it; however, I would hope that the House conferees will protect the important initiative to then seek to earmark $5 million of the Marine Corps Reserve miscellaneous engineering equipment line for simulators for the Marine Reserves.

□ 1825

Mr. STRATTON. Mr. Chairman, will the gentleman yield?

Mr. MONTGOMERY. I yield to the gentleman from New York.

Mr. STRATTON. Mr. Chairman, I appreciate the gentleman's statement. As the gentleman from Mississippi knows, I have the greatest affection and confidence in his judgment. He has done an outstanding job in equipping the Guard and the Reserve at a time when they were practically stepchildren of the military establishment, and as a result of the gentleman's initiative, the Guard today is far more strong, far more effective. Although the gentleman says that he wants to withdraw his amendment, we will certainly protect his interest in the conference committee, and I am sure that we will continue, as we have done under this leadership, in the coming months to put as much money as we can possibly find into the Guard and Reserve to keep that fine organization going.

I want to thank the gentleman for his statement, and we can reassure him that we will be behind him.

Mr. MONTGOMERY. Mr. Chairman, I thank the chairman very much for what he has said, and I might say that this has been a team effort of the House Armed Services Committee working to improve the initiative and equipment for the National Guard and Reserve.

Let me say this, Mr. Chairman, to point out to my colleagues that the Army National Guard now has 51 percent of all the combat missions in the Army—51 percent. The Army Reserve has 70 percent of all the support missions of the Army. In other words, the Army cannot move without the Army Reserve. It cannot fight without the Army National Guard.

Mr. Chairman, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Mississippi [Mr. MONTGOMERY]?

There was no objection.

The CHAIRMAN pro tempore. (Mr. DASCHLE). Does the gentleman from California [Mr. DELLUMS] wish to offer amendment No. 7?

Does the gentleman from South Carolina [Mr. SPRATT] wish to offer amendment No. 8?

Mr. SPRATT. Mr. Chairman, I do not.

The CHAIRMAN pro tempore. Does the gentleman from South Carolina [Mr. SPRATT] wish to offer amendment No. 9.

Mr. SPRATT. Mr. Chairman, I do not.

The CHAIRMAN pro tempore. Does the gentlewoman from Tennessee [Mrs. LLOYD] wish to offer amendment No. 10?

Does the gentleman from South Carolina [Mr. SPRATT] wish to offer amendment No. 11?

AMENDMENT OFFERED BY MR. SPRATT

Mr. SPRATT. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. SPRATT: Page 3, line 8, strike out $2,361,900,000" and insert in lieu thereof "$2,391,900,000".

Page 3, line 12, strike out "$5,093,600,000" and insert in lieu thereof "$5,150,900,000".

Page 3, line 18, strike out "$1,407,200,000" and insert in lieu thereof "$1,464,500,000".

Page 8, line 17, strike out "$16,746,800,000" and insert in lieu thereof "$17,237,200,000".

The CHAIRMAN pro tempore. Under the rule, the gentleman from South Carolina [Mr. SPRATT] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

The Chair recognizes the gentleman from South Carolina [Mr. SPRATT].

Mr. SPRATT. Mr. Chairman, the purpose of this amendment is simple and straightforward. Its purpose is to restore money for multiyear procurement programs which have been cut below the amount or level necessary to sustain multiyear procurement contracts as a result of the action that we took last week in voting favorably on the Spratt amendment.

My amendment last week cut the authorization level to $286.5 billion. In doing so, the gentleman from Alabama pointed out that we were cutting some programs below the necessary level for sustaining multiyear procurement.

The effect of this amendment is to restore for the F-16, 30 additional aircraft, taking it to 180 aircraft, which is the net level necessary to sustain multiyear procurement; for the Patriot missile, to restore 115 missiles at a cost of $30 million budget authority; and to restore two small projects, a water purification technology and a crane, both of which are under multiyear procurement arrangements.

The amendment also provides that the funds necessary to make these restorations would come from and be dependent upon a reduction in the SDI authorization contained in title II. These additions for multiyear procurement purposes will be made only if SDI funding is reduced below the current level of $3.4 billion.

Mr. ASPIN. Mr. Chairman, will the gentleman yield?

Mr. SPRATT. I yield to the gentleman from Wisconsin, the chairman of the committee.

Mr. ASPIN. Mr. Chairman, I think that this is a very, very good amend-

ment, and I think that in fact it is pretty well agreed on all sides. Perhaps the gentleman could yield to the gentleman from Alabama, and we could settle it.

The CHAIRMAN pro tempore. The Chair informs the Committee that a Member can rise in opposition to the amendment and have the full 5 minutes.

Mr. DICKINSON. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN pro tempore. The gentleman from Alabama [Mr. DICKINSON] is recognized for 5 minutes.

The Chair should perhaps inform the Committee that the gentleman, as the sponsor of the amendment, can retain time.

Mr. SPRATT. Mr. Chairman, I retain my time. I did not yield my time back to the Chair, and as I understand it, the gentleman from Alabama [Mr. DICKINSON] is operating now on his own time.

The CHAIRMAN pro tempore. The gentleman from South Carolina [Mr. SPRATT] retains 3 minutes.

Mr. DICKINSON. Mr. Chairman, it was not my original understanding when I said that I was in support of the concept that it was earmarked on a particular line-item deletion such as SDI. It was my understanding that any recaptured funds could be used against restoring these.

I am supportive of SDI. I am supportive of what the gentleman is trying to do. I only oppose it because I am supportive of SDI and supportive of what he is trying to do, and if the only way in which we can get these moneys restored is from SDI, only for that reason would I oppose it, because I am in favor of both concepts.

Mr. SPRATT. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman from South Carolina.

Mr. SPRAT. We would gladly accept an amendment to provide generally that it would be funded out of undistributed cuts.

Mr. DICKINSON. I would be very supportive of that. I have no problem with it.

Mr. McCURDY. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman from Oklahoma.

Mr. McCURDY. Mr. Chairman, I ask unanimous consent that the amendment include recapture of any funds notwithstanding any result on SDI.

The CHAIRMAN pro tempore. The Chair informs the gentleman that the modification will have to be reduced to writing.

PARLIAMENTARY INQUIRY

Mr. DICKINSON. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. DICKINSON. Mr. Chairman, it is my understanding that the unanimous-consent request was that the amendment offered by the gentleman from South Carolina [Mr. SPRATT] be modified to read instead of SDI that it would be any money recaptured out of an undistributed sum without earmarking where it came from if it were recaptured.

Mr. SPRATT. That is correct.

Mr. DICKINSON. I have no objection to that.

The CHAIRMAN pro tempore. The gentleman from Oklahoma will have to reduce his unanimous-consent request to writing prior to the time the Chair can offer it to the Committee.

Mr. SPRATT. Mr. Chairman, if the Chair will bear with us momentarily, we will have the language to propose as a unanimous-consent request to conform the amendment to our understanding.

Mr. DICKINSON. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, we will have many things that should be restored in this bill. I am for the restoration of most of the projects that have been authorized and included in the budget that came over to us. Many fell out when we reduced the spending level from the budget figure that was given to us of $292 billion down to $285 billion. So there are may worthwhile, supportable projects in here.

If in subsequent discussion on the floor we have funds that are and will be unexpended and we can recapture any part of these funds, I think that the enumerated items here are certainly worthy and worthwhile, and I would be happy to have them added back, but not at the expense of SDI. So I think that it is a good idea.

The CHAIRMAN pro tempore. The Clerk will report the modification proposed by the gentleman from Oklahoma [Mr. McCURDY].

The Clerk read as follows:

Modification of amendment offered by Mr. McCURDY: At the end of the amendment, add the following:

Page 21, after line 14, insert the following new section:

SEC. 114. CONTINGENT AUTHORIZATION.

Of amounts authorized in this title, the following amounts are available only to the extent that amounts are available through reductions in other parts of the bill:

(1) Missile procurement, Army, $30,000,000.

(2) Other procurement, Army, $57,300,000, to be derived from other support equipment.

(3) Aircraft procurement, Air Force, $490,400,000.

□ 1835

The CHAIRMAN pro tempore (Mr. DASCHLE). Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The text of the amendment, as modified, is as follows:

Amendment offered by Mr. SPRATT, as modified:

Page 3, line 8, strike out "$2,361,900,000" and insert in lieu thereof "$2,391,900,000".

Page 3, line 12, strike out "$5,093,600,000" and insert in lieu thereof "$5,150,900,000".

Page 3, line 18, strike out "$1,407,200,000" and insert in lieu thereof "$1,464,500,000".

Page 8, line 17, strike out "$16,746,800,000" and insert in lieu thereof "$17,237,200,000".

Page 21, after line 14, insert the following new section:

SEC. 114. CONTINGENT AUTHORIZATION.

Of amounts authorized in this title, the following amounts are available only to the extent that amounts are available through reductions in other parts of the bill:

(1) Missile procurement, Army, $30,000,000.

(2) Other procurement, Army, $57,300,000, to be derived from other support equipment.

(3) Aircraft procurement, Air Force, $490,400,000.

Mr. DICKINSON. Mr. Chairman, I yield back the balance of my time.

Mr. SPRATT. Mr. Chairman, we have nothing further to say except that this is a good amendment. It will bring us back to prudent procurement of essential programs. I urge support of the amendment and ask for its adoption.

I yield back the balance of my time.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from South Carolina [Mr. SPRATT], as modified.

The amendment, as modified, was agreed to.

The CHAIRMAN pro tempore. The Chair would inquire of the gentlewoman from Maryland [Mrs. BYRON] if she wishes to offer amendment No. 12?

Mrs. BYRON. No, Mr. Chairman.

The CHAIRMAN pro tempore. The Chair would inquire of the gentleman from Texas [Mr. BUSTAMANTE] if he wishes to offer amendment No. 13?

The Chair will inquire of the gentleman from California [Mr. LEVINE] if he wishes to offer amendment No. 14?

AMENDMENT OFFERED BY MR. LEVINE OF CALIFORNIA

Mr. LEVINE of California. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. LEVINE of California: Strike out section 121 (page 2, line 15, through page 23, line 17) and insert in lieu thereof the following:

SEC. 121. TESTING OF BRADLEY FIGHTING VEHICLE.

(a) TEST PLAN FOR SURVIVABILITY ENHANCEMENTS.—(1) The Secretary of Defense shall carry out live-fire testing of the Bradley fighting vehicle in accordance with this section.

(2) In developing a plan for such testing, the Secretary shall develop for comparatively testing and evaluating Army proposed survivability enhancements for the vehicle against a "minimum casualty baseline". Such plan—

(A) shall include a proposal and an expedited schedule for live-fire testing of the

concept of the so-called "minimum casualty baseline" version of the Bradley vehicle, which shall be a minimally-modified vehicle which removes all fuel and ammunition from the troop compartment and which adds a maximum effectiveness spall liner to the walls, roof, and turret of the Bradley;

(B) shall be developed in consultation with the Secretary of the Army, the Assistant Secretary of Defense for Operational Test and Evaluation, and the Assistant Deputy Under Secretary of Defense (live-fire test); and

(C) shall include the firing of Soviet munitions likely to be encountered in combat, the number of which is commensurate with twice the number of rounds fired at fully combat configured Bradleys during Phase I live-fire tests, at fully combat-loaded Army improved Bradleys and at the minimum casualty baseline versions of the Bradley, using the same weapons with the same aimpoints on both vehicles for comparative purposes. The shots fired on both vehicles must be selected at random from actual combat distributions of weapons impact points. This section does not preclude the firing of additional nonrandom shots deemed appropriate by the Army for test purposes.

(3) After developing the plan required by paragraph (2), the Secretary shall certify to Congress that the conditions and plan for the live-fire testing of the Bradley fighting vehicle represent the most realistic and suitable conditions and plan to evaluate the casualty reductions likely to be achieved by the proposed survivability enhancements in combat.

(4) The Comptroller General shall—

(A) review all materials of the Department of Defense used to develop the plan with respect to which the certification under paragraph (3) is made; and

(B) submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report giving the assessment of the Comptroller General as to the realism and suitability of the conditions and plan to evaluate the casualty reductions likely to be achieved by the proposed survivability enhancements of the Bradley fighting vehicle.

(b) CONDUCT OF LIVE FIRE TESTING.—(1) The Secretary of Defense shall conduct live-fire testing of the Bradley fighting vehicle so as to comparatively test the Army-proposed survivability enhancements of such vehicle against the "minimum casualty baseline" in accordance with the plan and with respect to which the certification under subsection (a)(3) was made.

(2) The Secretary of Army, the Assistant Secretary of Defense for Operational Test and Evaluation, and the Assistant Deputy Under Secretary of Defense (live-fire test) shall review the results of such testing and shall submit independent, uncoordinated reports evaluating these results to the Secretary of Defense.

(3) The Comptroller General shall provide oversight of the testing.

(4) The Secretary of the Army, the Assistant Secretary, and the Assistant Deputy Under Secretary of Defense (live-fire test), and the Comptroller General shall each observe the conduct of the testing.

(c) REPORTS.—(1) The Secretary of Defense shall submit to Congress a report on the results of the live-fire testing of the Bradley fighting vehicle, including proposed survivability modifications based on the results of the live-fire tests and the projected costs of such modifications. The Secretary shall make available as an appendix to this report the independent, uncoordinated reports of the Secretary of the Army, the Assistant Secretary of Defense for Operational Test and Evaluation, and the Assistant Deputy Under Secretary of Defense (live-fire test).

(2) The Comptroller General shall review the results of the test firings and the reports to the Secretary of Defense under paragraph (1) and shall submit to Congress a report giving the Comptroller General's evaluation of such results and reports.

(d) OBLIGATION OF PROGRAM FUNDS.—Until the end of the 60-day period beginning on the date the Secretary of Defense submits to Congress the report in subsection (c)(1), the Secretary of the Army may not—

(1) obligate funds for Bradley fighting vehicles authorized for fiscal year 1987, except for long-lead items, or

(2) make a production decision concerning survivability enhancements.

Mr. STRATTON. Mr. Chairman, I oppose the amendment.

Mr. LEVINE of California. Mr. Chairman, is it appropriate at this time to seek a unanimous-consent agreement by which time could be combined between my amendment and the amendment of the distinguished gentlewoman from Maryland [Mrs. BYRON], which will be offered as a perfecting amendment to my amendment.

The CHAIRMAN pro tempore. The Chair will inform the gentleman that it is appropriate.

Mr. LEVINE of California. Mr. Chairman, I ask unanimous consent that the combined amendments be limited by 50 minutes of time, equally divided between proponents and opponents.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from California?

Mr. BADHAM. Mr. Chairman, reserving the right to object, did I not hear that the gentlewoman from Maryland withdrew her amendment, or did not wish to offer it?

The CHAIRMAN pro tempore. The gentlewoman from Maryland has declined to offer her amendment as a primary amendment. The gentlewoman from Maryland can offer an amendment to the amendment of the gentleman from California, under the rule.

Mr. BADHAM. Continuing my reservation of objection, but that has not been done, has it?

The CHAIRMAN pro tempore. The gentleman is correct.

Mr. BADHAM. Further reserving the right to object, if something has been offered, the only amendment before us is the amendment offered by the gentleman from California [Mr. LEVINE] and if there is nothing else before us, the gentleman's unanimous-consent request refers to nothing.

The CHAIRMAN pro tempore. The Chair informs the gentleman that the purpose of the request of the gentleman from California [Mr. LEVINE] for unanimous consent was to allow his amendment and the amendment offered by the gentlewoman from Maryland [Mrs. BYRON] to be considered within the 50 minutes, equally divided and controlled.

Mr. BADHAM. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The CHAIRMAN pro tempore. The gentleman from California [Mr. LEVINE] will be recognized for 25 minutes, and the gentleman from New York [Mr. STRATTON], who has sought recognition in opposition, will be recognized for 25 minutes.

The Chair recognizes the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, more infantrymen will lay their lives on the line by riding, and perhaps fighting, in the Bradley fighting vehicle, than any other weapon in the Army's arsenal. Yet, despite congressional action mandating realistic live-fire tests on the Bradley, such tests have yet to be conducted by the Army.

Our amendment will help ensure that the Army conducts and completes, in a timely way, realistic Bradley live-fire tests.

What is at stake with this amendment is the future of the joint live-fire testing program designed to maximize the survival of our troops in battle—not just those who will rely upon the Bradley, but those who will rely upon other weapons which will also be subjected to these tests.

Unfortunately, given the momentum which develops in the effort to field a new weapons system, realistic testing of the Bradley has not only been inadequate but has actively been resisted by the Bradley's program managers.

In 1983, the Army promised to complete realistic testing on the Bradley by year's end. When that had not been done by mid-1985, Congress enacted legislation requiring realistic tests. When the Army did not meet their statutory deadline of December 1, 1985—one which they agreed was fair—they were less than candid with Congress, both with regard to the timing and substance of the test results. The Army missed its second statutory deadline on June 1, 1986, when the second and final phase of Bradley tests were to have been reported to Congress. As a result, the Bradley test program has ground to a halt.

When the national press concludes that the Pentagon and the Army have been so determined to field the weapons that they have not shown adequate concerns for the safety of our soldiers, as the New York Times concluded today and "ABC News" con-

cluded 6 weeks ago, Congress must take action to require realistic tests.

We have fashioned an amendment which would require such tests. It is a responsible amendment which would mandate a comparative test of different versions of the Bradley to determine which goes furthest in reducing combat casualties. It places a minimum constraint on the Bradley program to encourage the Army to answer serious questions about troop safety. The man who, until recently, was charged with testing the Bradley concluded in an interview last week that "some kind of constraint should be placed on the program until tests are completed."

Finally, let me remind my colleagues that this is not a jobs issue. Our amendment has been structured in such a way so as to not affect the production line or cost a single job. Rather, it is an issue of the safety of our soldiers. We must conduct realistic tests on the Bradley. Our fighting men deserve no less.

The CHAIRMAN pro tempore. The gentleman from California [Mr. LEVINE] has consumed 3 minutes.

Does the gentleman from California wish to yield to the gentlewoman from Maryland [Mrs. BYRON] for the purposes of offering her amendment at this time?

Mr. LEVINE of California. Mr. Chairman, I yield 5 minutes to the gentlewoman from Maryland.

AMENDMENT OFFERED BY MRS. BYRON AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. LEVINE OF CALIFORNIA

Mrs. BYRON. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The Clerk read as follows:

Amendment offered by Mrs. BYRON as a substitute for the amendment offered by Mr. LEVINE of California:

Strike out section 121 (page 2, line 15, through page 23, line 17) and insert in lieu thereof the following:

SEC. 121. LIVE-FIRE TESTING OF BRADLEY FIGHTING VEHICLE.

(a) PLAN FOR TESTING SURVIVABILITY ENHANCEMENTS.—(1) The Secretary of Defense shall carry out live-fire testing of the Bradley Fighting Vehicle in accordance with this section.

(2) In developing a plan for such testing, the Secretary shall include a plan for—

(A) testing and evaluating the survivability enhancements for the Bradley Fighting Vehicle currently proposed by the Army;

(B) testing and evaluating the minimum casualty baseline vehicle (as defined in paragraph (7)); and

(C) comparing the testing and evaluation under subparagraph (A) with the testing and evaluation under subparagraph (B).

(3) The plan under paragraph (2)—

(A) shall include a proposal and an expedited schedule for live-fire testing of the concept of the minimum casualty baseline vehicle;

(B) shall require duplication for both versions of the vehicle tested of all of the live-fire, full-up selected shots from Phase I of the live-fire tests of the Bradley Fighting Vehicle for which there is a change in the vehicles due to enhancements;

(C) shall require the firing against both such vehicles of a matched set of shots, using weapons likely to be encountered in combat, that are drawn at random from combat hit distributions and are equal in number to the number of any selected shots;

(D) may include a requirement for additional selected shots as long as such shots are against both vehicles and are accompanied by an equal number of random shots against both vehicles; and

(E) may include a requirement for the testing of additional vehicles, as long as the same procedures are followed.

(4) The Secretary of Defense shall develop the plan under paragraph (2) in consultation with—

(A) the Secretary of the Army;

(B) the Assistant Secretary of Defense for Operational Test and Evaluation;

(C) the Deputy Director of Developmental Test and Evaluation of the Department of Defense; and

(D) the National Academy of Sciences.

(5) After developing the plan required by paragraph (2), the Secretary shall certify to Congress that the conditions and plan for the live-fire testing of the Bradley Fighting Vehicle represent the most realistic and suitable conditions, and the most realistic and suitable plan, to evaluate the casualty reductions likely to be achieved in combat by the proposed survivability enhancements.

(6) The Comptroller General shall—

(A) review all materials of the Department of Defense used to develop the plan with respect to which the certification under paragraph (5) is made; and

(B) submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives a report giving the assessment of the Comptroller General as to the realisim and suitability of the conditions and plan to evaluate the casualty reductions likely to be achieved in combat by the proposed survivability enhancements of the Bradley Fighting Vehicle.

(7) For purposes of this section, the term "minimum casualty baseline vehicle" means a vehicle produced under the Bradley Fighting Vehicle program that is a minimally modified vehicle in which—

(A) all fuel and ammunition (other than small arms and ready rounds) are removed from the troop compartment; and

(B) a maximum effectiveness spall liner is added to the walls, roof, and turret.

(b) CONDUCT OF LIVE-FIRE TESTING.—(1) The Secretary of Defense shall conduct live-fire testing of the Bradley Fighting Vehicle in accordance with the plan with respect to which the certification under subsection (a)(5) was made so as to test the survivability enhancements of such vehicle proposed by the Army in comparison with the minimum casualty baseline vehicle.

(2) The Secretary of the Army, the Assistant Secretary of Defense for Operational Test and Evaluation, and the Deputy Director of Developmental Test and Evaluation of the Department of Defense shall each—

(A) review the results of such testing; and

(B) submit to the Secretary of Defense an independent report, uncoordinated with any other report under this paragraph, evaluating such results.

(3) The Comptroller General shall provide oversight of the testing.

(4) The Secretary of the Army, the Assistant Secretary, the Deputy Director for Developmental Testing and Evaluation, and the Comptroller General shall each observe the conduct of the testing.

(c) REPORTS.—(1) The Secretary of Defense shall submit to Congress a report on the results of the live-fire testing of the Bradley Fighting Vehicle. Such report shall include a description of any survivability modifications of the vehicle proposed by the Secretary based on live-fire tests and the projected costs of any such modifications. The Secretary shall include as an appendix to such report a copy of each report submitted to the Secretary under subsection (b)(2).

(2) The Comptroller General shall submit to Congress a report giving the Comptroller General's evaluation of—

(A) the results of the test firings; and

(B) the reports submitted to the Secretary of Defense under subsection (b)(2).

(d) OBLIGATION OF PROGRAM FUNDS.—Until the Secretary of Defense submits to Congress the report under subsection (c)(1), the Secretary of the Army may not—

(1) obligate funds for more than 336 units of the Bradley Fighting Vehicle authorized for fiscal year 1987; or

(2) make a production decision concerning survivability enhancements of such vehicle.

Mrs. BYRON (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentlewoman from Maryland?

There was no objection.

Mr. STRATTON. Mr. Chairman, I am an opponent of this amendment as well.

The CHAIRMAN pro tempore. Under the unanimous consent agreement, the gentleman from New York [Mr. STRATTON] has 25 minutes in which to oppose both amendments.

Mr. STRATTON. I thank the Chair.

Mrs. BYRON. Mr. Chairman, I am offering this substitute along with the gentleman from South Carolina, [Mr. SPRATT], as a compromise between what the gentleman from California is proposing and what is currently incorporated in the authorization bill.

Simply put, the amendment we offer differs from Mr. LEVINE's initial proposal in two areas. First, we allow for some additional flexibility with regard to the testing of the Bradley Minimum Casualty Vehicle to the Secretary of Defense and second, our amendment fences only slightly more than half of the Bradley production for fiscal year 1987.

Let me now explain the rationale for these differences. The key issue of the debate for my colleagues who are only slightly familiar with the Bradley Program is the issue of testing. The argument is not whether the Bradley is inferior to the old M-113 armed personnel carrier—it is not. It is whether we should compel the Secretary of Defense to test a concept which may make the Bradley safer.

I am in total agreement with Mr. LEVINE and Mr. SMITH that the mini-

mum casualty concept should be tested and compared to the "enhanced" Bradley which the Army is proposing. Will the minimum casualty vehicle be superior to the enhanced Bradley?—I don't know—it is difficult to predict what the tradeoffs, such as mobility, will be. But we can't find out unless the Secretary of defense tests this concept, and quite frankly, there is a lot of foot-dragging going on in the Pentagon in that respect. This isn't the first time we have seen this happen.

I did have some differences with the gentlemen from California and Oregon on how specific we should be with regard to spelling out the details of the test plan. I have always felt that this was a decision which should be left to the Secretary. However, Mr. SPRATT has proposed, what I believe is a sensible outline for a test plan, which includes random shots along with selected shots when the Defense Department begins testing the minimum casualty vehicle along side enhanced Bradley. I believe that such a test could be carried out in a reasonable timeframe. In addition, our substitute also requires the GAO to provide Congress the necessary oversight with regard to the development and execution of the test plan.

The second issue centers around the fence of the funds needed to buy the Bradley. Our substitute would provide for the minimum production rate of 336 Bradleys while fencing the remaining 257 Bradleys which are authorized in this bill. Due to the foot-dragging that I have found in the proper planning and execution of the testing by the Department of Defense throughout the history of the Bradley, I have come to the conclusion that a fence of almost half of next year's Bradley production will be necessary to show the Defense Department that Congress is serious about the need to test the minimum casualty vehicle.

I am well aware that fencing funds presents some problems. There are questions regarding what happens to multiyear contracts under the program, additional costs for lower production, and most importantly, the possibility of layoffs. All of these factors are of great concern to me. But it is my feeling that a fence along the lines Mr. SPRATT and I have proposed will give the Department of Defense the necessary time—at the very least 14 months—to develope and execute a test of the minimum casualty vehicle without causing an unnecessary gap in the production line. If both the Army and the Department of Defense really believe in the Bradley, I am certain that they will be able to meet the requirements of our substitute, therefore, I urge its adoption.

□ 1845

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. EDWARDS], dean of the California delegation.

Mr. EDWARDS of California. Mr. Chairman, I have consistently voted against weapons systems that destabilize and escalate the arms race.

They cost billions; their future payoff is unknown, and the Soviets just go ahead and build matching systems.

The Bradley Fighting Vehicle is not that kind of weapon. It is an essential component in conventional warfare. The Soviets have a counterpart that carries soldiers into battle alongside the tanks. The Bradley has proven itself superior to the Soviet vehicle.

Already over 2,000 of the Bradley's are operating in U.S. Army forces throughout the United States and Europe. The soldiers like them and trust them. Ask any soldier. He'll tell you that if he's going to war, he wants to go in a Bradley.

This amendment must be defeated. It will mean that production will be slowed and stopped. Our soldiers will be denied the fighting vehicle they need and want.

Yes, there is an ongoing argument about testing—testing that will measure the damage if the vehicle is hit.

Of course we demand rigorous testing, and the bill provides just that. It directs the Pentagon to bring in outside experts. It requires the use of the National Academy of Sciences. It mandates auditing by the General Accounting Office.

Last, Mr. Chairman, I'm not opposing this amendment because the Bradley is built in my part of the country.

Every kind of weapon is built there—nuclear weapons, missiles, essential parts for star wars—billions of dollars annually.

I'll vote against spending for many of these new weapons systems that are destabilizing.

But the Bradley Fighting Vehicle is not one of these. It's an essential for the soldier who does the tough fighting. Don't let him down.

Mr. LEVINE of California. Mr. Chairman, I yield 3 minutes to my friend and colleague, the distinguished gentleman from Oregon [Mr. DENNY SMITH].

Mr. DENNY SMITH. Mr. Chairman, I think the issue here is testing, and the issue is whether the Congress is going to be in charge of what the military does, as I think the Constitution requires that we be, or whether the Army is going to do as it happens to please on any given day.

Let me run you back through the last year or two of my involvement with the Bradley Fighting Vehicle. At no time have I questioned whether it was a good vehicle; I think it probably is as good a track vehicle as we have built.

The problem here is whether the Army is going to tell us what the minimum casualty baseline is, and what we can do to try and make it a better vehicle.

Under the authorizing legislation last year, we told the Army to test this vehicle; to find out whether it was survivable; how we could make it more survivable; what could be done to try and make this a safer vehicle for the fighting men that are going to have to use it.

This amendment will be explained very simply: we fence some money until the Army follows through with what they are supposed to do.

Now, I do not want to see this vehicle canceled. That is not my goal, but it certainly is my goal to try and make the Army reply, by endorsement, I guess, as we used to say in the service, get us the information.

Interestingly enough, last year I went up and watched one of the 10 live fire tests at Aberdeen Proving Ground. The Army fought me every way they could to keep me from going up there. They scheduled it during votes, they did not want me to go, they said we were going to have to be in a bunker for 8 hours; and they finally relented, and we went up there, and sure enough we were not in bunker for more than about 30 minutes.

It was an interesting opportunity to see what happens in a test, and I certainly would recommend to any Member to go up to Aberdeen when the live-fire tests go, if again they do go. I think that it is very important.

Recently, we have been lobbied by the Army quite extensive. I do not know about your office, but mine was sent correspondence by a number of the subcontractors; so I asked the Army by telephone: Would you please provide me a list of subcontractors that are producing the Bradley Fighting Vehicle?

They said, "We will not do that because we don't keep a list." They said, "We do not keep a list of subcontractors."

So I sent a letter to Jack Marsh and to General Wickham and said, "I'd like to have a list of subcontractors; and if you do not provide that to me within a week, I will put this letter into the Congressional Record requesting that you send it, and also I'm going to put in there the letter that I'd like to send to the subcontractors."

Very simply, what I am telling the subcontractors is the same thing I am telling the Members today: We ought to test this vehicle as we ought to test everything to be sure that what we are buying is in the best interests of the country, the Army, and the fighting man.

Mr. Chairman, I urge my colleagues to vote for this amendment. I think it is going to do a lot for the Army and do a great deal for the fighting man.

Mr. STRATTON. Mr Chairman, I yield 3 minutes to the gentleman from Virginia [Mr. WHITEHURST].

□ 1855

Mr. Chairman, as one of the cofounders of the Military Reform Caucus, it is difficult for me to rise in opposition to an amendment put forward by one of its current cochairmen, but rise I must.

The original purpose of the caucus was to stimulate new ideas and to reform our warfighting doctrine to place emphasis on agility, maneuver and offensive boldness. Senator Hart and I conceived of the caucus in terms of ideas—not weapons systems. And I think we were enormously successful. Largely as a result of the caucus, there was a revolutionary doctrinal debate in the Army, and from that debate came a bold new offensive doctrine—the "air-land battle" concept.

The Bradley fighting vehicle is tailor-made for the maneuver doctrine the caucus did so much to foster. In fact, without the Bradley, maneuver doctrine becomes a meaningless term for the Army. You cannot move fast, strike deep and fast and move on to strike again before the enemy can react in an M-113. Only when you put the Bradley alongside the Abrams tank does air-land battle doctrine make any sense for our ground forces.

The debate over the Bradley is nothing new. It is one of the longest running acts in town. It has always been the subject of controversy and there is a logical reason for that controversy. In terms of U.S. Army systems there has never been anything like it in the Army's inventory. And its appearance on the battlefield has revolutionized our fighting doctrine.

The real question before us today is—to paraphrase the Army's recruiting slogan—whether or not the Bradley is all it can be.

Is the Bradley a flawed system that was ill conceived and hastily designed? No. The requirement for the Bradley emerged in the late 1950's. While the Soviets began fielding the BMP in the 1960's, the Army studied the problem. And since 1976 there have been six major studies, all of which contributed to the design that is the Bradley today.

Was the Bradley inadequately tested before fielding? No. It is one of the most tested systems in the world with 18 separate tests in the past 8 years, including extensive vulnerability testing.

Should we dally procurement pending the results of the next phase of the live-fire testing? Most emphatically, no. There is no evidence that the Army has not been forthright, honest, and supportive of the testing that would justify this kind of punitive action.

By all expert accounts, the Bradley is a superb combat vehicle that is critically needed. No less trusted an authority than Gen. Bernard Rogers has personally interceded with a plea to use to continue production. I find no reason to believe that the commander of our forces in Europe would knowingly endanger the lives of his troops by urging us to continue production of a flawed system.

I am persuaded that we should give General Rogers the tools he needs to do the job and that we should vote down this amendment.

Mrs. HOLT. Mr. Chairman, the critics of the Bradley Fighting Vehicle are saying that the Army has designed the wrong system for the wrong war.

I do not know what war the critics think we will be fighting, but I know that the Bradley is a troop carrier with speed and firepower and is ideally suited to the tactical requirements of fast-moving land war.

The military and political leadership of the Defense Department are in unanimous support of the Bradley. It is a proven weapons system, urgently needed and superior to its predecessor in every way. It is one of the most thoroughly tested systems in history.

Senator WARREN RUDMAN, well known as a sharp-eyed foe of wasteful programs and projects, has no reservations about the Bradley. He said, "Much of the criticism of this vehicle is being made by people who have never heard a shot fired in anger."

He also said, "I think there are a number of people around here who want to wear oakleaf clusters for the number of weapons they want to kill. I've been against some weapons, but the Bradley is not one of them."

Where did anybody get the idea that we should kill a weapons system every year just to prove we are doing our job? Let's keep our eyes focused on the job of providing our military personnel with the best equipment that can be developed.

If you want to know about the Bradley, talk to the commanders and soldiers who are intimately familiar with the vehicle. They will tell you that it meets all the requirements for its missions and is vastly superior to the equipment it replaces.

Mr. LEVINE of California. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. BUSTAMANTE].

Mr. BUSTAMANTE. Mr. Chairman, I rise in support of the Levine amendment on the live-fire testing of the Bradley Fighting Vehicle. I want to commend the gentleman from California for his continuing efforts on behalf of our 18-year-old infantrymen. Since 1983, Mr. LEVINE has been calling for realistic live-fire tests to enable us to provide our young men with the safest personnel carrier possible. Out of his commitment to this goal, he has actively participated in the Armed Services Committee hearings on the Bradley, and has become one of the best informed Members of Congress on the subject.

Three years ago questions were raised concerning the vulnerability of the Bradley. Since then, serious allegations have been leveled concerning the conduct of the live-fire testing of the Bradley; allegations that the tests were not being conducted realistically. In addition, the Defense Department's inspector general is currently investigating the circumstances surrounding the resignation of Col. James Burton, who as director of the the live-fire tests, was overseeing the Bradley live-fire tests. These allegations have raised suspicions on whether the Army and the Pentagon are committed to test our weapons systems realistically to ensure that they do not unnecessarily endanger their crews. Consequently, the matter came before the Armed Services Committee's attention.

During the committee hearings, I raised questions on my key concern over the lives and safety of our young infantrymen. My concern derives from the Bradley's light armor and the large amount of highly explosive ammunition which, according to the Army, when struck will present the greatest danger to the infantry riding inside.

Today, 2½ months after the hearings, my questions on the survivability of the Bradley have yet to be answered by the Army.

When are the tests going to be completed? We don't know.

Will the Bradley work as designed? We don't know.

How vulnerable is the Bradley? We don't know.

Are there cost-effective fixes to Bradley vulnerability? We don't know.

What we do know is that we don't have the test results on the Bradley which the Pentagon was required to submit to Congress by June of this year. What's worse is that the tests were suspended in April and have not resumed since then.

Today, 3 years after calling for realistic live-fire tests of the Bradley, the tests are not completed. Yet we are now expected to fund another full production year for the Bradley without definitive data from the Pentagon on whether the Bradley will provide adequate protection to the troops.

Is it the responsibility of Congress to fund the production of a vehicle the Army admits needs to be fixed without knowing wheher it can be fixed, or how much it will cost to fix?

Clearly, the Army request for continuation of procurement requires a "fund in the blind" response on the part of Congress. It is irresponsible for the Army to request such action and it would be irresponsible for the Congress to follow blindly. We have a responsibility to our fighting boys and to the American taxpayer to make sure

we purchase weapons that are safe and cost-effective.

Mr. Chairman, our amendment, the Levine amendment, constitutes the most reasonable response to the Pentagon's non-compliance with the law passed last year. That law required that Congress have all the information on the Bradley live-fire tests before we would have to make a decision on the program this year. Therefore, unless Congress wants to be next year in the same position of funding the program in the blind, we have to offer an additional inducement to the Pentagon to comply with the will of Congress. The Levine amendment provides this inducement in the form of a fence which withholds funds until Congress is provided with the test results. The fence is fair. It helps assure Congress that the Army will keep its commitment to provide us with the test results by December of this year as stated before the committee.

The amendment also provides for the realistic live-fire testing of the Bradley. To insure as much realism as possible and avoid suspicions as to the conduct of the testing, the amendment provides minimal guidelines for the conduct of the testing and requires independent supervision of the tests.

I cannot emphasize enough the importance of reliable realistic live-fire test as the best means to save young men's lives. During our hearings on the Bradley, we heard testimony pointing the pitfalls of not conducting full up live fire tests on the weapons we procure. Let me share with you some of the testimony we heard:

Our weapons systems today are procured with computer-based vulnerability/lethality estimates, little firing data and no full up live firing results. What are the consequences of not conducting realistic combat live fire testing? When actual combat occurs, we discover, too late, serious shortcomings in our weapons systems; shortcoming which cost lives.

In World War II, Korea and Israel, U.S. tanks proved excessively flammable and vulnerable. The Israeli experience of 1973 showed that the U.S. M-60 burned or blew up twice as often when hit as the British centurion, and more often than its predecessor, the M-48. Concern over excessive casualties caused the Israelis to make several changes to their M-60's; different hydraulic fluid, fire extinguishers, special armor packages, etc. This painful experience of excessive casualties also led them to a unique armor concept in their Merkava tank which sacrifices the tank in order to protect the crew.

In Vietnam, U.S. fighters also proved to be unnecessarily flammable and vulnerable. Fire and explosion caused the loss of at least 60 percent of the 5,000 U.S. aircraft downed in Vietnam. During the course of the war, survivability improvement kits had to be hastily developed and installed on fighters such as F-4 and F-105 to reduce their vulnerability.

Clearly realistic live fire tests on the Bradley are not a luxury, they are a necessity if we are to avoid needlessly risking the lives of our soldiers.

Your vote for the Levine amendment is a vote for the young men defending America.

Mr. STRATTON. Mr. Chairman, I yield 3 minutes to the gentleman from Virginia [Mr. DANIEL].

Mr. DANIEL. Mr. Chairman, one of our countries most authoritative and respected military leaders is Bernie Rogers, the Supreme Allied Commander in Europe. General Rogers is also well known to us from his tenure as Army Chief of Staff where he built up a reputation for candor as well as knowledge.

I think it would be useful for us in this debate to hear what General Rogers has to say about the Bradley, so I want to read a letter he wrote recently on the subject:

For many years we have needed an Infantry Fighting Vehicle as an appropriate and adequate complement to our modern armored forces. As Army Chief of Staff I pressed hard for the development of such a system. We are now fielding the Bradley Fighting Vehicle (BFV) in Europe, meeting that long-standing requirement—and meeting it well. The Bradley is a winner. Our soldiers will confirm that statement.

The current controversy over testing of the BFV is of great concern to me, because it threatens to stop production of this extremely important system. I am particularly concerned because the issue seems to center around the Bradley's vulnerability to direct-fire anti-tank weapons—something it was never intended or designed to withstand.

The Bradley Fighting Vehicle is not a tank. Rather it is a vastly superior replacement for the M113 Armored Personnel Carrier. Its purpose is to place infantry troops on the ground where they are needed when the environment will not allow soldiers to walk or move by truck. This vehicle is able to accompany and support our modern tank forces as an integral part of a combined arms team. The Bradley will defeat comparable-threat vehicles in an infantry battle environment. In a tank battle environment the Bradley will deploy dismounted forces whose mission is to protect friendly armor by defeating enemy anti-armor systems. Its TOW and 24mm Chain Gun provide protective fires for armor and dismounted infantry, both day and night. With this capability, the Bradley is a major combat multiplier on the mechanized battlefield.

When it is shown that the Bradley is incapable of doing what it was designed to do, I will be in the vanguard of those demanding that the system be redesigned or scrapped. We must not, however, allow a much-needed, modern and effective infantry system to be scrapped because it is vulnerable to enemy weapons systems which it was never designed or intended to withstand. I need and ask your support to ensure that it is not.

With my respect and best wishes.

Sincerely,

BERNARD W. ROGERS,
*General, U.S. Army,*
*Commander in Chief, Europe.*

I believe the letter speaks for itself and I urge my colleagues to consider it carefully before voting on this issue.

The CHAIRMAN pro tempore. The Chair informs the Committee that the gentleman from New York [Mr. STRATTON] has 17 minutes remaining, and the gentleman from California [Mr. LEVINE] has 11 minutes remaining.

Mr. LEVINE of California. Mr. Chairman, I yield such time as he may consume to the gentleman from Oklahoma [Mr. MCCURDY] for a question.

Mr. MCCURDY. I thank the gentleman for yielding.

Mr. Chairman, I want to get clarified in the record here as to the amendment that the gentleman is offering. Does the amendment the gentleman is offering halt production of the Bradley during the testing of the vehicle?

Mr. LEVINE of California. Our amendment does not halt production nor does our amendment slow production of the Bradley. Particularly with the Byron perfecting amendment our amendment allows the number of vehicles that the Army has indicated will not even slow the production line, let along halt the production line.

Mr. MCCURDY. Mr. Chairman, I thank the gentleman for yielding.

Mr. LEVINE of California. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Arizona [Mr. MCCAIN].

Mr. MCCAIN. Mr. Chairman, I rise in support of the Levine amendment regarding the Bradley fighting vehicle. My colleagues have made an eloquent and persuasive case for their measure, which would fence funding for less than half of the 593 authorized Bradleys pending realistic live fire tests.

I favor this amendment on the merits of the case. The Army wanted an infantry vehicle to accompany tanks into battle. With that in mind, it traded the M-113 personnel carrier, which costs $160 thousand, for the Bradley, which costs almost 10 times as much. Serious concern has since arisen over whether the Bradley can withstand assault on the front lines, the mission for which it was intended.

If the Bradley cannot accompany tanks into battle, we need to know now. We need to determine its vulnerabilities by testing empty vehicles. We don't want to find out later, on some battlefield in the Middle East or Europe, that our young soldiers are dying because the Bradley can't fulfill its mission.

This amendment is basically a question of credibility. We are being asked to spend a billion dollars this year on the Bradley, and we're still not sure whether it can carry out the mission for which it was designed. This is the kind of weapon that robs the Defense Department of the American people's confidence. The Bradley is one good example of why the consensus behind the much needed defense buildup has evaporated.

I urge my colleagues to vote for the Levine amendment. It is not a vote against national security. It is a vote

to protect our young soldiers, those on the front lines of freedom.

□ 1905

It is a vote to restore the credibility in defense spending with the American people. It is a vote to get back to the business of defending this Nation's vital national security interests.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Alabama [Mr. NICHOLS].

Mr. NICHOLS. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the Bradley and in opposition to the amendment. If we halted production on weapons systems every time we were testing improvements to make them less vulnerable, I doubt if we would have any systems in production.

Production improvement is a continuing process, and in most of our major weapons systems, we continue to put improvements into the production line from time to time. As the state of the art advances—the Bradley is no exception, and to suggest that we purchase the Bradley before testing is certainly not the case. The Army did indeed test the Bradley vehicle as early as 1978 and 1979 to correct weaknesses in the M-113 armored personnel carrier from mine explosions. The Bradley hull was not ruptured although soldiers inside would have been injured. It was tested against overhead 155 artillery bursts which failed to penetrate the top of the vehicle and it was tested against the Soviet 14.5 mm machinegun which failed to penetrate the hull of the vehicle.

Mr. Chairman, as an old foot soldier, I have watched, with interest, further tests in 1984, 1985, and 1986 which appeared on television showing the vehicle's vulnerability to direct hits by a 120 mm tank gun, hits by 30 mm cannons, and by Soviet rocket propelled grenades. But I submit, Mr. Chairman, that direct hits of this nature would no doubt cripple, if not put out of commission, the heaviest armored Army vehicle, the Abrams M-1 tank, and I seriously doubt that we would want to put the additional weight on the Bradley necessary to guarantee protection against hits of this nature.

To comment further about testing, let me point out that the test completed in March of this year indicated the advisability of adding additional protection in the form of lining the inside of the vehicle with a kevlar blanket, and further protection provided by additional external armor now being utilized by the country of Israel.

Detailed testings of these two new improvements of the new Bradley are scheduled to start just next month, and will run into early summer of 1987 so that the implication that we are "not testing before we buy" is just not the case in the Bradley fighting vehicle.

But the biggest supporter of the Bradley fighting vehicle are the troops who will be risking their lives in combat. They want the Bradley, so does General Rogers, our commander in Europe. I submit that we would be shortchanging our soldiers still equipped with obsolete M-133 armored personnel carriers if we further delay the production of these needed troop carriers along the provisions set out in the amendment.

Mr. Chairman, the Army is not dragging its feet on live fire testing of the Bradley vehicle. There is no alternative to the Bradley, and we should not slow down or interrupt production of this important program. Let's get on with the production of the Bradley. It merits our support!

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. MCEWEN].

Mr. MCEWEN. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in opposition to the amendment, because I believe it obscures the real issue.

The real issue here is not the independence of the testing process. It is not about how to intercept the results of live fire testing. It is not about how to protect whistle blowers in the Department of Defense. And it is certainly not about the integrity of the Army's leadership. The real issue here is the Bradley itself.

For several years a number of dedicated critics has been seeking to kill this program, despite overwhelming evidence that the troops enthusiastically support it. These critics never challenge the requirement for an infantry fighting vehicle.

Of all these lightly armored fighting vehicles, the Bradley is the best. It is less vulnerable, more agile, and it has more offensive firepower than any other fighting vehicle in the world.

So, it is no surprise that the Bradley's opponents are rarely willing to make a frontal assault on it. The fact of the matter is that if they did—if they asked the Congress for an up or down vote on termination of the Bradley Program, they know the Congress would not do this.

Why? Because the Bradley is one of the few systems DOD has ever developed that meets or exceeds every performance specification set for it by the experts. How could we vote to kill a system that works when we have so many to choose from that don't.

Since the Bradley's opponents are reluctant to attack the Bradley head on, a pattern is emerging of flanking attacks, of which the live fire-testing issue is only the latest. At heart, however, the end result of this amendment would be to cripple the Bradley Program by delaying production and increasing cost by up to 40 percent. Frankly that makes no sense to me.

Infantry commanders understand the Bradley's capabilities and limitations and their tactics take these factors into consideration. The Bradley is the finest infantry fighting vehicle in the world. The Army needs it and we owe it to our soldiers to vote this amendment down and to get on with fielding the Bradley as rapidly as possible.

Mr. LEVINE of California. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from South Carolina [Mr. SPRATT].

Mr. SPRATT. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I support the Bradley. I also support this amendment. The two are not inconsistent.

I also have driven the Bradley, and I like it. But I have also read the report that our committee prepared last year, and the chairman of our Subcommittee on Procurement at the conclusion of that report had this to say about the Bradley Testing Program. The gentleman described it as a rather chaotic approach for managing these tests. If you read through the staff report, Mr. STRATTON said, you get the insight into a system that is flying blind.

There is an agreement on how to do these tests. There is an inadequate paper record. Officials cannot agree on what they agreed to a few weeks earlier, and management is simply chaotic.

He want on to say here that the essential error is that the people who propose and develop weapons should not test them. That ought to be axiomatic.

Well we are taking what the chairman said ought to be axiomatic and we are putting in this amendment which is also axiomatic. We want independent, objective and rigorous testing. We provide for the parties, and we provide for the protocol in this amendment. We provide for the method of testing.

Finally, we give the Army an incentive to get on with it, because we spent some, not all, of the money. This amendment is not going to stop production. This amendment only fences money for a fraction of the units. In fact, if the Army will simply complete tests, as has been already indicated, it can complete them. There will be ample time to use all the money we are providing, plus money not obligated in unused to keep production running at full pace. This gives the Army an incentive by fencing some of the money, not all of it, to get on with the testing and, furthermore, it will give us earlier indications because if the minimum casualty vehicle does indicate it is viable and should be used, we will have time to take some of those recommendations for design and incor-

porate them in units coming off the production lines rather than paying for an expensive retrofit.

This is a well-conceived, well-crafted amendment, and I support it.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Wyoming, [Mr. CHENEY].

Mr. CHENEY. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the Bradley Program and in opposition to the amendment.

The sound and fury surrounding the Bradley live-fire testing has obscured the real issue of whether or not this vehicle meets the Army's need for an infantry fighting vehicle. There is no doubt that this vehicle is vulnerable to antitank munitions—we've known that since the vehicle was introduced. It is not a tank. Any vehicle, ship, or plane can be destroyed under the right set of circumstances. However, in designing and developing any weapons system or piece of military hardware a balance must be struck between capability, vulnerability, cost, weight, size, and a myriad of other considerations. The Bradley should be evaluated on whether or not it meets the Army's requirements for an infantry fighting vehicle and on its performance.

The evidence in regard to meeting the Army's requirements and performance on the battlefield is overwhelmingly favorable. Here is a case of a vehicle that has fully met the requirements of the customer. The Army, starting with the Chief of Staff, and going down to the squad leader of the Bradley in the field has high praise for this vehicle.

Mr. Chairman, like the gentleman from Virginia [Mr. DANIELS], I recently met with troops of the Third Armored Division in Germany and discussed the Bradley with those men who are driving them. They were overwhelmingly enthusiastic in their support for it. It is reliable, maneuverable, provides protection for the crew from over 90 percent of the enemy's weaponry, and is capable of defeating comparable threat vehicles in a battlefield environment.

The first vehicles entered the Army's inventory in 1982 and over 2,400 have been delivered to date. Canceling the program or delaying production of the vehicle at this time would be a crippling blow to the modernization of the U.S. Army; the M-113 armored personnel carrier is not an acceptable alternative on today's battlefield.

We have a responsibility to our soldiers to keep the facts in proper perspective. We cannot afford to allow side issues to distort our judgement and our understanding of major programs. The Bradley provides a significant enhancement of infantry mechanized firepower for our forces. It is needed now and should be fielded on schedule in accordance with the Army's programmed deployment. Evolutionary improvements can and should be added as they are developed.

□ 1915

The CHAIRMAN pro tempore (Mr. DASCHLE). The Chair wishes to inform the committee that the gentleman from New York [Mr. STRATTON] has 11 minutes remaining, the gentleman from California [Mr. LEVINE] has 6 minutes remaining, and the gentleman from New York retains the right to close the debate, but given the amounts of time remaining, the gentleman from New York is now recognized.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Florida [Mr. GIBBONS].

Mr. GIBBONS. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to both of these amendments. The Bradley fighting vehicle is an excellent vehicle. There never will be a perfect vehicle because conditions change on the battlefield from time to time. What will work within one 100-yard perimeter will not work within another 100-yard perimeter.

There are all kinds of things to be considered such as terrain and the condition of that terrain. The heat and the cold; the conditions of streams, defilade and everything else that has to be taken into consideration. The Bradley fighting vehicle is far better than the vehicle we have now. There will never be a perfect vehicle, because any vehicle that is conceived for combat has to be all the compromises that I talked about earlier.

It is as good as you can get for the money we have got. It has been widely tested. No part of it is manufactured in my district, and so I have no interest in it other than just as one soldier to another.

I hope that we will get along with this production. Our infantry needs this kind of protection, and it certainly needs this vehicle.

Mr. LEVINE of California. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. RIDGE].

Mr. RIDGE. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the Bradley and in opposition to any effort to undermine the continued production and maintenance of the Bradley but also in very strong support of the amendment offered by the gentleman from California and the amendment offered by the gentlewoman from Maryland. I am in particularly strong support of the principle of realistic live-fire testing.

As long as we have an Army, as long as we have infantrymen, as long as we have tanks, as long as we maintain a conventional capability, this country will need armored personnel carriers.

Our present workhorse, the M-113, remains in production and costs roughly $150,000 to $160,000. As other branches of the service have done over the years, the Army seeks to upgrade and to improve its equipment and its capability as well. This effort includes a new APC, the Bradley fighting vehicle. This modern version with better armor, better maneuverability, greater mobility, better firepower also has a much larger price tag. Instead of $150,000 per vehicle, it is about $1.5 to $1.6 million per vehicle.

Should Congress spend more to improve its APC? Yes. Must it be a failsafe system? Must it be an invulnerable system with 10 times as much capability and maneuverability? No, we do not demand that. Should the enhanced capability justify the tremendous increase in cost? Absolutely it must.

In our zeal to modernize equipment in all branches of the service, Congress has certainly demonstrated its ability to spend more money. The question remains whether more modern, more complex, more expensive equipment enhances the offensive or defensive capability of those we call upon to use it in combat. This armored personnel carrier, the Bradley fighting vehicle, with its enhanced capability, makes it a different priority target.

I urge my colleagues to support the gentleman's and the gentlewoman's amendments.

Mr. STRATTON. Mr. Chairman, I yield 1½ minutes to the gentleman from Virginia [Mr. OLIN].

Mr. OLIN. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to both amendments. The Bradley is now an effective vehicle. It is fully accepted by those who are using it. There is nothing to be gained by fencing these funds and further delaying the program.

I have done considerable research into the Bradley fighting vehicle during the last year. And, frankly, at first I was very skeptical. I had questions about the survivability of a machine with aluminum armor; survival of both the vehicle itself, and the men riding in it.

This spring I went up to Aberdeen Proving Grounds to witness one of the first live fire shots in phase 2 of the testing. Phase 2 testing utilized the new enhanced reliability armor; also called reactive armor. I was impressed with what I saw. Reactive armor is a second, outer layer of armor plates that redirects the explosive force of the projectile. I saw that little damage was done to the inner layer of armor when it had this second layer of reactive armor.

I witnessed a second test shot, when a hand-held, antitank weapon was fired against the Bradley with reactive armor. Again, I was impressed by the survivability of the Bradley and its contents. These tests were realistic and valid.

The Army has taken delivery of nearly 3,000 Bradleys out of a total expected purchase of 6,882. It is true that most of these Bradleys were purchased before the Army had conducted realistic live fire testing. However, the Army has now been conducting live fire tests for about a year. This testing may not be the most desirable way to procure a weapon, but the point is: The Army conducting successful live fire tests.

I support the completion of phase 2 of the testing. But I do not feel we should hold up the continuation of the program by fencing these funds. I urge my colleagues to defeat both the substitute and the original amendment.

Mr. STRATTON. Mr. Chairman, I yield 1½ minutes to the gentleman from California [Mr. MINETA].

Mr. MINETA. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to this amendment.

We must all be concerned about the reliability and effectiveness of the weapons we will ask our soldiers to use in case of war. As a Korean war veteran, I have a direct appreciation of this basic need.

In my judgment, the Bradley is just such a reliable and effective weapon.

I realize that there has been much debate about the Bradley. Many charges have been made against the Bradley, yet very few of them have even been proven.

For example, some have said the Bradley's aluminum armor is too vulnerable to enemy fire, and that it is a potential "death trap" for its crew. Yet the Bradley has both aluminum and steel armor. On the other hand, the M-113 armored personnel carrier has only aluminum armor, and this is the vehicle some have said is better than the Bradley.

The Bradley is far superior to the M-113 in keeping out bullets, shell fragments and shaped charges. The Bradley will stop a 14.5 mm round, while the M-113 can only stop a 7.62mm round.

The Bradley's unique "shoot on the move" capability makes it particularly able to deliver its passengers to the actual front, while keeping pace with the M-1 tank. The M-113 just does not have this capability.

Yes, the Bradley does not have the strength of a tank—but it was never intended to have that ability.

Some have said the Bradley is too complex, and that it is loaded with expensive and unneeded technological features. These features include laser rangefinders, gyrostabilized turrets, onboard computers, and thermal-imaging sights. These allow the gunner to spot the target and quickly determine the correct range.

The stabilized turret allows the Bradley's 25mm cannon to stay on target even while the vehicle is moving. As for the thermal-imaging sights, these give American troops a great advantage over the Soviets, who have nothing comparable.

These sights show a detailed silhouette of vehicles and troops, even through massive smoke. Should we ever have to use these vehicles in combat, these sights will prove to be a critical advantage.

The Bradley is exactly what the Army says it is: the world's finest tracked, nontank, armored fighting vehicle. Accordingly, I urge the defeat of this amendment.

Mr. LEVINE of California. Mr. Chairman, I yield 30 seconds to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. I thank the gentleman for yielding me this time.

Mr. Chairman, the Bradley or something like it is a good vehicle. It is certainly needed. There are places where it cannot be used effectively, and one of the problems that I had about it when I started looking at it was the policy of where it was going to be used and some of the places it should not be used.

We have 3,000 of them already. I come down on the idea that it would be a good idea to slow up this production in the sense of having further testing because I am not sure the testing has been adequate for the things that need to be done.

I think something like the Bradley has to be here. We now have 3,000 of them. We could logically get some more but I would really like to test them more adequately and thoroughly than has been recently done. I favor therefore the testing amendments.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from Massachusetts [Mr. CONTE], one of the outstanding orators in the House of Representatives.

Mr. CONTE. I thank the gentleman for yielding me this time.

Mr. Chairman, I am quite puzzled about this amendment. I am puzzled by this effort to terminate or significantly slow down the Bradley. It does not make sense. My puzzlement stems from the attack on what is one of our best procurement programs—not one of our lousy ones.

I have been on the Appropriations Committee throughout my 28 years in Congress and believe me, cutting shaky programs and making savings is what my committee is all about. In the Defense Subcommittee we have always tried to use a set of guidelines when we cut a program:

First, is there a need for the thing—whatever it is?

Second, does the thing meet the requirement?

Third, is the thing staying within its expected costs.

Fourth, does the customer—in this case, the Army—like the thing.

Well, the Bradley is the thing. It was built to meet a need to travel cross-country faster than the old APC—armored personnel carrier—and to carry the infantry and supporting firepower so that they can assist the tanks when the tanks need help.

The Israelis found out in the 1973 war, that, even in tank country such as the Sinai, sending unsupported tanks out to do battle is deadly. The brigade that they sent out without infantry support to meet the Egyptians was defeated in detail. Not until the infantry came up did the Israelis have any success.

Well, that was 13 years ago. They used older tanks and M-113 APC's. Today, our M-1 tank is much more mobile, so the old M-113 APC cannot stay close enough behind in protected positions to the M-1 tanks to help when they encounter enemy infantry. Clearly, we had to have a new and radically improved infantry carrier. The Bradley is it.

Guess what. The Bradley fills all of the Army's requirements. It is on cost and the costs are going down. The commanders in the field love it. I say love it. The troops love it. I say again, love it.

The Bradley does everything we want it to do and then some. My gosh, this is a model program, following exactly what we in Congress would demand and hope for. We would be so lucky if all our programs performed as well. It is unbelievable to me that once we get such a good program, a group of our Members would go after it. How can this be?

No one on this Hill has had more heartburn about the funding of defense items than I have. I want an effective national security effort that is funded based on common sense. But, when we decide to do in a program we should take our lead from experts, not from outside organizations whose only aim is to cancel programs.

Just look who supports this program: The Secretary of Defense—who personally canceled the Divads. The Secretary of the Army. All the commanders in the field. The soldiers. The Armed Services Committees on both sides of the Hill as well as both Appropriations Committees.

What is the opposition based on. Tests. That's all—tests. Not tests to examine whether the vehicle can do what it was designed to do. Those tests are done. The Bradley passed them with flying colors and the vehicle has been in production for years. We have

obligated funds for 3,700 and 2,500 have been produced. No, gentlemen, the tests these guys are talking about are designed to literally blow up the vehicle to see how we can make it better.

The rounds we are using in this test will incinerate or destroy any armored vehicle in the world, tank or otherwise. Armored warfare is a very lethal business. But the Bradley reduces that lethality to our troops better than for any vehicle of its type. Withholding this vehicle from the troops will increase their vulnerability. Articles such as the one in today's New York Times are using old, discredited charges once again to cause mischief for this vehicle.

The Army is pleased with what they have learned from the tests. They are going to make the vehicle even better. Of course the detractors will not be satisfied until the Bradley becomes totally invulnerable. If they designed the vehicle it would look like a giant shot put. If that happened, the vehicle would not move.

Modern tacticians all over the world agree on one thing—anything you can see, you can hit; and anything you can hit can be destroyed. The Bradley was not designed to be invulnerable. Rather, its speed, agility, and firepower make it tougher to hit because it can move faster from one covered position to another. The Bradley does that better than any vehicle of its type in the world.

Well, the bottom line is, that the folks who are after the Bradley are out looking for crippled ducks like the Divads to shoot down. But I'm here to tell you that the Bradley is no Divads. The Divads fell short of the requirements, it was behind on production, it had technical problems, and it was up on cost. So, the Divads was killed by Mr. Weinberger who gives his full support to the Bradley. But guess what again, the requirement for a Divads-type weapon is still there and we are going to have to spend money to meet that requirement.

Kill or cripple the Bradley and you still have to meet the requirement for an infantry fighting vehicle. This time, however, the Bradley meets that requirement and meets it very well according to the customer, our experts in Congress on both sides of the Hill, and the Department of Defense. What more do we want? Ask the detractors what they want to replace the Bradley with to meet the requirements and the answers are garbled. The M-113 APC and other variations simply will not do the job.

Look, let's not go after the things that work. The Bradley is on cost, on schedule and on target as far as the soldiers who use it are concerned. If the guys in this body who are following the lead of the project for military procurement want something to shoot down, come join me at Eastern Shore during goose season. You can shoot 'til your heart's content.

The letter from Gen. John A. Wickham, Jr., Chief of Staff, U.S. Army, and John O. Marsh, Jr., Secretary of the Army, follows:

DEPARTMENT OF THE ARMY,
*Washington, DC, August 11, 1986.*

Hon. SAMUEL S. STRATTON,
*House of Representatives,*
*Washington, DC.*

DEAR CONGRESSMEN STRATTON AND WHITEHURST: This letter responds to your request concerning the misleading August 11, New York Times editorial on the Bradley Fighting Vehicle. We can assure you the Army goes to extraordinary lengths to provide safety in the design and testing, as well as doctrine for employment, of modern weapons systems.

The Bradley was designed to give the mechanized infantryman a modern vehicle with speed to support the Abrams tank, while affording protection against small arms and artillery fragments. It also has suppressive firepower capabilities. The tactical employment of mechanized infantry calls for using maneuver, firepower, and the natural protection of terrain to minimize risks to soldiers and their vehicles. In short, sound tactical employment should keep the Bradley and its infantry out of the way of weapons it was not designed to protect against. The Bradley met or exceeded its design specifications for protection against live fire in the 1978 tests.

In keeping with the standard practice of improving weapons systems, the Army conducted additional tests on the Bradley for the purpose of improving survivability against all types of weapons, even those it should not encounter if employed properly on the battlefield. These tests showed that while substantial protection already exists, survivability could be improved with restowage of ammunition, and with addition of a protective liner and explosive armor. Clearly, there was no "rigging" of the tests as the editorial suggests. Ammunition was relocated along with water cans in keeping with the earlier test conclusions.

The Army with support of the Congress already has procured over 3,000 Bradleys. The testing to date is designed to product improve a highly capable weapons system which our soldiers in the field praise and need in the face of an enemy equipped with the most modern weapons. The Army and its most valuable resource, its soldiers, need the Bradley. We need your continuing support for this program which is vital to our war fighting capability.

Sincerely,

JOHN A. WICKHAM, Jr.,
*General, U.S. Army,*
*Chief of Staff.*
JOHN O. MARSH, Jr.,
*Secretary of the Army.*

□ 1925

Mr. LEVINE of California. Mr. Chairman, I yield 1 minute to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Chairman, I rise in support of the Levine-Smith amendment. Honest testing of the Bradley must finally tell the Army how to ensure that it provides the maximum protection possible for our soldiers.

Part of the problem with the Bradley lies in its dual role. It is a fighting vehicle, as well as a troop carrier but unlike troop carriers of the past, it is heavily armed. It has a physical profile that will make it difficult to hide. As a result the Bradley will be advertising itself as a target. It is very disturbing that the Army would accept almost 2,000 Bradleys without adequately addressing this basic problem of its survivability which is the crucial factor that will mean success or failure, life or death on the battlefield.

I share concern over the treatment of Col. James Burton, who supervised the live-fire tests that have been conducted so far. He raised disturbing questions about the Army's conduct of the tests. As result he was punished, rather than rewarded. It is an all-too-familiar story that we hope the Military Whistleblower Protection Act we passed in the House last week would prevent in the future. But, for now, we must not ignore Colonel Burton.

The Levine-Smith amendment says that Congress is serious in its demand for thorough testing of all weapons.

Today we must remember those who have a fundamental stake in our actions—the soldiers who will drive these vehicles.

This is a safety issue. Let us rise above all other concerns.

The Bradley vehicle has been called a rolling powder keg. Let us test the Bradley. We are not talking about stopping it. We are talking about testing it.

Mr. STRATTON. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. BADHAM].

Mr. BADHAM. Mr. Chairman, I yield to the gentleman from Illinois [Mr. PORTER].

Mr. PORTER. Mr. Chairman, I rise in strong support of the Bradley Fighting Vehicle.

The Bradley offers a quantum jump in the capability of our outnumbered infantry forces in Europe. If NATO forces are going to win, we are going to need mobility, to flank invading Soviet columns, and firepower, sufficient to defeat Soviet tanks and infantry fighting vehicles.

The Bradley offers both, not a few years down the line but now, when we need it most.

If we delay the Bradley, we will lose the cost savings so far achieved by the program. Over 2,000 Bradley's have already been delivered. Costs per vehicle have gone down by almost 10 percent. If we are concerned about saving defense dollars, we must not delay the Bradley.

Improvements can be made as the program continues. I would hope that some form of add-on armor, like the Israelis use, and the survivability improvements some have suggested may be made. Yet if we were to delay pro-

duction of every weapon for improvements, we would never get around to produce the forces we need. The Bradley is ready now, under budget and on time. Let's keep it that way.

Mr. BADHAM. Mr. Chairman, I yield to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Chairman, I thank my friend for yielding.

I just want to say that I support the Bradley. It is an incremental increase in protection over the M-113 and the only way to really protect infantrymen is to get them off the battlefield. It will protect them from small arms and from fragmentation. That is more than the M-113 would do. I think we should move along with this system.

Mr. BADHAM. Mr. Chairman, I rise in opposition to these amendments, both the one from the gentlewoman from Maryland and from the gentleman from California.

The Department of the Army clearly, as of today, in criticism of off-the-track editorials in the New York Times say that they need them. They have 3,000 of them. They will work.

If you want to hang more armor in it, you can hang more armor in it.

Does aluminum melt? No, aluminum does not melt.

We have talked about the speed, what it can do. It is the most mobile, fastest, most lethal weapon that we have to accompany tanks.

Direct hits will kill any track vehicle, we know that; but basically I would like to tell you this. A few years ago when we started attacking the Bradley, we attacked it because it was made out of aluminum. We wanted to put live pigs in the thing and shoot the pigs inside the machine because it was made out of aluminum.

Well, I went out and visited the plant out there. They made the M-113 and they made the Marine amphibious vehicle. They made the MLRS vehicle. They took me out in the plant and they said, "We haven't had any complaints on these at all."

We went out in the plant and I said, "Where do you build the M-113's?

"Right here."

"The MLRS?"

"Right here."

I said, "Where is the steel you build them out of?"

They said, "Mr. BADHAM, we have built these vehicles out of aluminum since their inception."

"Have they worked?"

"Yes, sir; they have worked in war, they have worked in peace, they have worked in training."

So we could not attack aluminum anymore. Now we have to attack direct hits on a vehicle that was not designed to withstand direct hits.

Mr. Chairman, I would just say, kill these amendments. They do not help the Army.

The CHAIRMAN pro tempore. The Chair informs the committee that the gentleman from New York retains the right to close debate.

The Chair recognizes the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I yield 45 seconds to the distinguished gentleman from Nevada [Mr. REID].

Mr. FOGLIETTA. Mr. Chairman, will the gentleman yield?

Mr. REID. I yield to the gentleman from Pennsylvania.

Mr. FOGLIETTA. Mr. Chairman, I rise in support of the Levine amendment to require further live fire testing of the Bradley fighting vehicle.

The Bradley fighting vehicle has had a most controversial past. And, as evidenced by today's debate, this controversy continues. While most of us recognize the need to modernize our ground forces, the question is whether the Bradley fighting vehicle is an acceptable replacement to the M-113 armored personnel carrier. What remains unclear is at the heart of today's discussion—can the Bradley survive on the battlefield?

I would like to congratulate the gentlemen from California and Oregon for their efforts to obtain an answer to this fundamental question. I realize the Army and the Department of Defense have been less than forthcoming on information concerning the vehicle's survivability. However, the fact that we have any survivability information on the Bradley is a tribute to these gentlemen's fine efforts.

The question of completing the Bradley's live fire testing deserves our most directed attention. Some supporters of the Bradley claim that the vehicle has in fact undergone live fire tests which prove its survivability. However, what they have neglected to reveal is that these tests were limited and incomplete. The Levine amendment will ensure that the live fire tests are completed and that limited defense dollars will not be squandered away on a system that may not be survivable on the battlefield. This amendment requires fair and reasonable tests to help determine the Bradley's survivability.

The Levine amendment to require live fire tests will not only insure a more capable and useful fighting vehicle for our soldiers, but it will set a precedent for future weapons system acquisitions. Too often we have seen a breakdown in the process to provide our soldiers with weapons that meet battlefield requirements. This amendment sets in motion a responsible approach, versus handing over a weapon system of questionable survivability to our troops, only to find out the answer too late.

I call upon my colleagues to support the Levine amendment.

Mr. REID. Mr. Chairman, I rise in support of these amendments. The amendments are a perfect illustration of the role Congress can play in cutting waste in the military, and ensuring that only the safest and most effective weapons are produced.

The Bradley fighting vehicle program has been a travesty from the start. The Army has plowed ahead with the program despite serious shortcomings in the vehicle and at grave risk to the soldiers who will be operating it. Despite concerns about the vulnerability of this vehicle, the Army produced over 2,400 without any live-fire testing, many of which are actually deployed in the field. The live-fire testing that has taken place has not been helpful in pointing out the problems of the vehicle but has only succeeded in rubberstamping an inferior product.

I opposed this vehicle in 1983 for the same reason I oppose it today: there are serious questions about the safety and security of American soldiers who will be asked to fight in this vehicle.

I am all in favor of producing the next generation of Army fighting vehicles. However, like most taxpayers, I will expect a product that can do the job without unnecessarily endangering the lives of our soldiers. By requiring GAO-certified live-fire tests comparing different models of the Bradley, the amendment will at least give us a chance to salvage this program. My only problem is that they do not go far enough. We should not be fencing spending, we should be eliminating it completely. Nonetheless, I support these amendments because fencing spending is a lot better than putting this vehicle on the battlefield with all its current failings.

Mr. STRATTON. Mr. Chairman, I yield 30 seconds to the gentleman from Georgia [Mr. RAY.]

Mr. RAY. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, on July 14, we received a "Dear Colleague" letter from a gentleman from California quoting ABC's "20/20" program as saying:

> There is no doubt that the Bradley can dish out a lot of punishment with its impressive firepower. But the question is, can it take punishment as well from the weapons it will almost certainly meet on the modern battlefield.
>
> Believe it or not the Army put out about 2,000 Bradleys in the field before attempting to answer this question. This from 20/20.

I'm not sure what enemy weapons the defense experts at "20/20" were talking about but the Bradley was extensively tested and found to protect against small arms, heavy machineguns artillery and mines which it will "almost certainly meet on the modern battlefield."

The Army has also known from the beginning that the Bradley could be

defeated by larger caliber antitank rounds because it weighs 25 tons, not 65 tons. If you want to defeat an antitank round, Mr. Speaker, most any but the most naive person would realize that. I have serious reservations about the wisdom of relying upon the knowledge or opinions of television journalists in trying to make judgments on the floor of the House about national security issues. It is a bit like seeking medical advice from a beautician.

I would prefer to follow the advice of our colleagues whom we look to for expertise on defense matters. In reading over the reports from both the House and Senate Armed Services Committees, both have conducted extensive hearings and staff investigations of the Bradley this year because of the controversy surrounding it. And both committees rejected the approach proposed by the gentleman from California.

In fact, both committees concluded that deferring production or fencing funding until Congress had reviewed the follow-on test reports would be ill-advised. And I am informed that the Defense Committee on the House Appropriations Committee as recently as last week also concluded that the restrictions proposed in this amendment were unnecessary. The Senate Appropriations Committee has yet to mark up but, I believe it will reach essentially the same conclusion.

In order to vote for this amendment it's necessary to disregard the unanimous recommendations of the supreme allied commander in Europe, the Chairman of the Joint Chiefs of Staff, the leadership of both the Army and the Defense Department and three committees of Congress.

Mr. Chairman, A persuasive case has not been made for taking such drastic action in the face of all the expert opinion arguing against it.

I urge the defeat of this amendment.

Mr. STRATTON. Mr. Chairman, I yield one-half minute to the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Chairman, I have here a letter from Brig. Gen. Samuel E. Fleming, Jr., commander of the 155th armored brigade, Mississippi National Guard which I submit for the RECORD. One battalion of the Mississippi Guard is equipped with the Bradley fighting vehicle. They like the Bradley and are proud to be equipped with this modern fighting vehicle. Without Bradley this battalion would be poorly equipped to fight in Europe.

Only one other Guard battalion, a battalion in Texas, is equipped with the Bradley. The wartime requirement for Bradley in the Guard is about 600 vehicles and they have on hand only about 120. About half of their remaining requirement are programmed for future delivery and the balance are not even programmed.

If production of the Bradley is delayed until all the intended testing is completed, delivery of the world's best fighting vehicle to active Army units will be delayed an unacceptably long time and costs will most likely increase greatly. Delivery of badly needed Bradley fighting vehicles to the Guard will be delayed almost to the next century.

Mr. Chairman, I urge continued production now with the addition of product improvements as they may be determined by the ongoing testing. Don't stop or delay production of what is already the world's best fighting vehicle.

Mr. Chairman, I include the following letter from the Mississippi Army National Guard:

HEADQUARTERS, 155TH
ARMORED BRIGADE, TUPELO, MS,
*July 20, 1986.*

Hon. G.V. MONTGOMERY,
*Chairman, Committee on Veterans' Affairs, Washington, DC.*

DEAR MR. CHAIRMAN: Per our conversation last Saturday in Jackson, I am giving you the advantages of the Bradley Fighting Vehicle (BFV) as we see it from working with this vehicle over the past year.

The BFV was basically designed as an infantry fighting vehicle. As such, there is a trade off between survivability and maneuverability, troop, equipment and ammo capacity. Bradleys have been sharply criticized for limited armor protection. In many cases being compared to the M60 and M1 series tanks. It has also been criticized for being unable to carry the traditional ten (10) man squad of infantry as with the M113 series of APC's. The basic fallacy in all these arguments lies in comparing the Bradley with any other system.

Giving up swim capability, maneuverability, speed, fuel economy, ammo capacity, trafficability, and transportability to increase armor protection is going to be a costly tradeoff. However, there is no way to make it totally safe. Any vehicle on the battlefield can be killed by modern anti-armor weapons. We have a good vehicle and now we need to start thinking smart about how to employ it.

The advantages of the Bradley Fighting Vehicle (BFV) are:

1. The BFV is highly mobile and can keep up with the M1 tank on the battlefield.
2. It has more armor than the M113.
3. It has anti-armor capability.
4. It expands the role of the infantryman on the battlefield. He can fight on the move and make long range engagements.
5. It takes a tremendous load off the M1 tank. The commander no longer has to consider every vehicle on the battlefield but can concentrate on "tank on tank."
6. Effective deterrent to the Soviet counterpart, the BMP ½.
7. Firepower: 25mm Chain Gun with thermal sights Coax; (6) M 231 (.233 Cal.) Smoke Screen capability.
8. While individual systems vulnerability may be minimally increased, the gains obtained in terms of additional firepower and tank killing capability significantly decreases force vulnerability.

One recommendation that I would like to make is the addition of "Blazer Add on Armor." This armament which is produced by Israel, has been battlefield tested and is relatively light and inexpensive. Also, it would not result in the sacrifice of any of the above mentioned capabilities.

I hope that this information meets your needs. Should you desire any further information, please do not hesitate to contact me.

Sincerely,
SAMUEL E. FLEMING, Jr.,
*Brigadier General, MSARNG,*
*Assistant Division Commander (RC),*
*1st Cavalry Division.*
TUPELO, MS. 38803-2057.

Mr. LEVINE of California. Mr. Chairman, I yield 45 seconds to the gentleman from Michigan [Mr. WOLPE].

Mr. WOLPE. Mr. Chairman, I rise in strong support of the amendment offered by my distinguished colleague from California, [Mr. LEVINE]. This is the kind of responsible and realistic proposal this body has come to associate with the Congressional Military Reform Caucus, cochaired by Mr. LEVINE, and is exactly the kind of sensible thinking we need to strengthen our national security.

The truth is that the Bradley fighting vehicle continues to be one of the most controversial weapons in the Army's arsenal. At a price of $1½ million per vehicle—almost 10 times more than the carrier it was designed to replace—the Bradley stands as a stark and painful example of Pentagon procurement practices gone awry. It is difficult to believe that the Army could actually resist what is proposed in this amendment. With the lives of over 70,000 young men who could be transported in the Bradley potentially at stake, it is certainly not too much to ask that the vehicle meet minimum survivability tests before committing billions of dollars to their mass production. This amendment simply fences a portion of the committee authorized funds for the Bradley fighting vehicle until adequate live-fire tests have been conducted. Surely we have a right to demand that any new weapons system meet rigid standards of performance, reliability and cost-effectiveness when there is so much at risk.

I urge my colleagues to support the Levine amendment.

But the problem does not end here. There is a much more serious, insidious flaw that we must address if we truly hope to promote a strong and effective national defense. A military policy that says "buy now—plan later," a policy that puts every weapons system imaginable on our Nation's charge account without requiring a defense strategy to justify the expense, contributes nothing to our country's security. Nonetheless, that is exactly the kind of policy that has been driving this administration's defense spending spree.

In the next few years we will face very difficult defense choices—deci-

sions we can no longer afford to postpone. The growing deficit crisis, accompanied by new and increasingly dangerous threats from abroad, requires an immediate and critical review of our Nation's defense policy and the military command structure that directs it. These choices can only be made in an environment that allows for open and objective discussion. I have been deeply disturbed in recent years by the chilling tactic of calling into question the patriotism of any who raise concerns about the policies or programs being pursued by the administration. Too often the litmus test for determining who supports a strong American defense has consisted of nothing more than a simplistic rating based on support for a particular dollar figure for the Pentagon or support for the latest in complex and costly weapons systems.

Clearly, it is time to move on to a more responsible and productive level of debate. There is much for all of us to disagree about—but surely we all agree that we must maintain a strong national defense, adequate to protect our national security interests. With that as an imperative we all can recognize, let us move on to identify the kinds of reforms that can provide the strength and security America needs—for today, tomorrow, and beyond.

It is time for us to reassess our defense needs. In 1961, Secretary of State Robert McNamara directed a top-to-bottom review of our national security needs. That review—now a quarter of a century old—is still the driving force behind American defense planning. The world has changed dramatically in the last 25 years—but American military strategy has not.

Today, our Nation must be able to respond to a host of threats that did not even exist at the time of the McNamara review: among them, the presence of regional conflicts on five of the seven continents; the emergence of state-sponsored terrorism; and the proliferation of nuclear weapons. In fact, one of the most serious of all pending threats to our national security is the prospect of terrorists or renegade states "going nuclear." Yet the fact is that we have allowed shortrun economic and political considerations to regularly take precedence in our country's decisionmaking over the longer run threat posed by the spread of nuclear technology and nuclear explosive material. I do not think that we enhance the security of our Nation by spending almost $4 billion in 1 year on the Star Wars Program to develop a shield against Soviet ballistic missiles, while failing to even acknowledge—much less address—the extreme security risks posed by nuclear proliferation to other countries or terrorist groups. It is not very comforting to learn that the Strategic Defense Initiative Organization, which is developing star wars, maintains that the problem of nuclear weapons being smuggled or otherwise brought into the United States is not in their charter.

Strength for our Nation's future will not come easily—it will require hard thinking, hard choices, and plenty of hard work. I think that Lt. Col. David Evans, a recently retired career Marine Corps officer, accurately summarized our challenge in the following excerpt from an article he authored for the Washington Post: "Faddish jargon has become a substitute for clear and serious thinking about the underlying foundations of combat effectiveness. Poetry devoid of philosophy is merely verse, and spending absent a sound concept of national defense is simply procurement * * *. Mindless buying is producing a military described by one former Army general as a 'force without power'—and at a cost the country cannot afford." It is time to get back to our foundations, to take a close and critical look at our Nation's defense policy, and get on with assuring a strong and secure America.

Mr. CHANDLER. Mr. Chairman, we now have the opportunity before us to express our conviction that Congress must be assured that a weapon system is safe and reliable before it is unconditionally authorized. Congress cannot afford to fund faulty weapons, like the Bradley fighting vehicle, and more importantly, we cannot afford to risk the lives of soldiers who depend on these weapons for protection.

The Levine-Bustamante-Smith-Ridge amendment is not intended to cancel the authorization for 593 additional Bradley vehicles, but rather it seeks to require further testing, which in the long run will strengthen the program. Previous tests of the Bradley have been disappointing, and have shown that the vehicle's current configuration may result in undue casualties.

We must not and cannot settle for a mediocre vehicle, when soldier's lives are at stake. Two thousand Bradleys have already been produced, and though I do not question the great need for this type of vehicle, I have serious reservations about unconditionally authorizing even more money for a flawed vehicle.

This amendment aims to correct this dilemma through responsible requirements which include comparative testing and the completion of congressionally mandated live-fire tests.

The Bradley fighting vehicle should be a weapon the ccuntry can look to proudly and can trust. At this point, that confidence doesn't exist. Support of this amendment will be a critical step toward this goal.

Mr. LEVINE of California. Mr. Chairman, I yield myself the final minute.

Mr. Chairman, let me try to summarize some of the issues that are at stake in this debate. A number of issues have been put on the table, but really this debate boils down to two issues: One, the safety of our soldiers who will be riding in the Bradley; and two, realistic live-fire testing.

This is not a vote to kill the Bradley. This is not a vote to cripple the Bradley. This is not a vote to delay the Bradley. This is not a vote to even slow the production line. With the amendment that I will be accepting from the gentlewoman from Maryland, which is on the floor at this time, this not only allows for the continuation of 18 months of backlog production, but for the authorization of another 336 Bradley's, which is the number that the Army indicates needs to be authorized for the production line not even to be slowed one bit.

All this requires, Mr. Chairman, is that the Army do the realistic live-fire testing that the Congress itself last year voted and enacted into law and that is still not done.

All that these tests will require is realistic live-fire testing on a vehicle in which more soldiers and more infantrymen will put their lives at stake than any other vehicle in the United States.

I urge support for the amendment.

Mr. STRATTON. Mr. Chairman, I yield myself the final minute.

Mr. Chairman, I think when it comes down to the end of this debate that we ought to remember that we have never had, certainly in the 28 years that I have been on the Armed Services Committee, we have never had any military vehicle that everybody loved.

The M-1 tank was regarded for years to be a "lemon."

The Sheridan shillelagh tank was terrible—referred to as a "billion dollar boo-boo".

The 803 interim tank was no good either, we were told.

And the reason that this Bradley vehicle is encountering all this opposition is that everybody wants it to be a tank. But it is not a tank and was not supposed to be a tank.

General Rogers wrote to the chairman of the Armed Services Committee just the other day and said on this matter:

The Bradley fighting vehicle is not a tank. Rather it is a vastly superior replacement for the M113 armored personnel carrier. Its purpose is to place infantry troops on the ground where they are needed when the environment will not allow soldiers to walk or move by truck. This vehicle is able to accompany and support our modern tank forces as an integral part of a combined arms team. The Bradley will defeat comparable-threat vehicles in an infantry battle environment. In a tank battle environment the Bradley will deploy dismounted forces whose mission is to protect friendly armor by defeating enemy anti-armor systems. Its TOW and 25mm Chain Gun provide protective fires for armor and dismounted infantry, both day and night. With this capability, the Bradley is a major combat multiplier on the mechanized battlefield.

That is the thing that nobody is really remembering, and we are voting to try to change the Bradley into a tank where no tank exists.

The CHAIRMAN pro tempore. All time on the amendments has expired.

The question is on the amendment offered by the gentlewoman from Maryland [Mrs. BYRON] as a substitute for the amendment offered by the gentleman from California [Mr. LEVINE].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mrs. BYRON. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 179, noes 223, not voting 29, as follows:

[Roll No. 320]

□ 1950

The Clerk announced the following pairs:

On this vote:

Mr. Morrison of Connecticut for, with Mr. Lewis of California against.

Mr. LaFalce for, with Mr. Darden against.

Mr. Mitchell for, with Mr. Campbell against.

Mrs. MEYERS of Kansas and Messrs. CHAPPELL, GREGG, MARLENEE, WRIGHT, and GEKAS changed their votes from "aye" to "no."

Messrs. ROWLAND of Connecticut, LOWRY of Washington, DURBIN, OBERSTAR, and ROSTENKOWSKI changed their votes from "no" to "aye."

So the amendment offered as a substitute for the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The question is on the amendment offered by the gentleman from California [Mr. LEVINE].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. LEVINE of California. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 123, noes 277, not voting 31, as follows:

[Roll No. 321]

□ 2010

The Clerk announced the following pairs.

On this vote:

Mr. LaFalce for, with Mr. Darden against.

Mr. Morrison of Connecticut for, with Mr. Lewis of California against.

Mr. Mitchell for, with Mr. Campbell against.

Mr. Dixon for, with Mr. Shelby against.

Mr. MARTINEZ changed his vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). Under the rule, amendment No. 15 is in order.

Does the gentleman from Connecticut [Mr. GEJDENSON] desire to offer his amendment?

AMENDMENT OFFERED BY MR. GEJDENSON

Mr. GEJDENSON. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. GEJDENSON:

Page 6, line 2, strike out "$9,153,900,000" and insert in lieu thereof "$10,663,000,000".

Page 6, after line 5, insert the following:

For the Trident submarine program, $1,509,100,000.

The CHAIRMAN pro tempore. Under the rule, the gentleman from Connecticut will be recognized for 5 minutes, and a Member in opposition thereto will be recognized for 5 minutes.

Mr. DICKINSON. Mr. Chairman, I am opposed.

The CHAIRMAN pro tempore. The gentleman from Alabama [Mr. DICKINSON] will be recognized for 5 minutes in opposition.

The Chair recognizes the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Chairman, I yield to the gentleman from South Carolina [Mr. SPRATT] for a technical amendment.

AMENDMENT OFFERED BY MR. SPRATT TO THE AMENDMENT OFFERED BY MR. GEJDENSON

Mr. SPRATT. Mr. Chairman, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. SPRATT to the amendment offered by Mr. GEJDENSON:

At the end of the amendment, add the following:

Page 21, after line 14, insert the following new section:

SEC. 114. CONTINGENT AUTHORIZATION.

The amount authorized to be appropriated in section 102 for the Trident submarine program is authorized to be appropriated only to the extent the amounts restored for multi-year procurement are fully funded, and then only to the extent, that the total of other amounts authorized to be appropriated for the National Defense Function is reduced below $286.4 billion by amendments to this Act adopted after the amendment.

The CHAIRMAN pro tempore. Under the rule the gentleman from South Carolina [Mr. SPRATT] will be recognized for 5 minutes; and the gentleman from Alabama [Mr. DICKINSON] will be recognized for 5 minutes in opposition.

The Chair recognizes the gentleman from South Carolina [Mr. SPRATT] for 5 minutes in support of his amendment to the amendment.

Mr. SPRATT. I thank the Chair.

I will not need nor take the full 5 minutes.

The purpose of this amendment is to make clear that the funds authorized to be appropriated for the Trident submarine by the amendment offered by Mr. GEJDENSON are contingently authorized to be appropriated and will be authorized and made available only, first, after funding the amounts restored for multiyear procurement which we have provided for by previous amendment and then only to the extent that there will be other funds made available, if made available by additional reductions due to amendments adopted hereafter.

I thank the Chairman for this opportunity and yield back the balance of my time.

The CHAIRMAN pro tempore. The gentleman yields back the balance of his time. The gentleman from Alabama [Mr. DICKINSON] is recognized for 5 minutes.

Mr. DICKINSON. Mr. Chairman, I wonder if I might have the attention of the author of the amendment.

We have just recently accepted the gentleman's amendment that would do the same thing, approximately the same thing under the multiyear provision. Now, first off, let me make it amply clear that I am opposed to adding back $1.5 billion in authorization after just voting to cut $7 billion Friday when we rose. This is ridiculous. It is hard to believe.

But anyway, how would this reconcile with the gentleman's amendment to fund multiyear that could be saved in this bill? What would come first? How would this work?

Mr. SPRATT. Mr. Chairman, would the gentleman yield?

Mr. DICKINSON. I yield to the gentleman from South Carolina.

Mr. SPRATT. I thank the gentleman for yielding.

This would, Mr. Chairman, as stated would give priority to the amendment we just adopted because it would provide that any reductions we achieve through amendments adopted hereafter would go first to funding the multiyear procurement provisions, and only to the extent there was a surplus left over after fully funding those pro-

visions would funds be applied for the Trident.

Mr. DICKINSON. I understand then, if after all the multiyear programming that we have authorized is refunded, under the savings here, if there should be an additional amount, then it would go to this?

Mr. SPRATT. That is correct.

Mr. DICKINSON. I understand it. I am still in opposition to it. We will wait until he gets back to the original amendment.

Mr. Chairman, speaking to the original amendment to which this is offered as a perfecting amendment, I find this incredible, really very, very hard to believe. Friday we met here and the gentleman who offered the amendment joined in cutting the budget $7 billion. "We cannot afford to spend up to the budgeted amount." Our chairman, Mr. ASPIN, says, "Hey, when you add the budget authority it also necessarily adds outlay." And he joined with him.

Now the gentleman comes back and says, "Well, hey, I was just kidding about all that because the Trident is built in my backyard so let's put $1.5 billion back in here to increase what we just cut last Friday." Now, this is ludicrous, this is ridiculous, that we would on Friday cut $7 billion because we cannot afford it and then come in here and say, "It is different if it is built in Connecticut. We are going to add $1.5 billion back in here for the Trident." I am really speechless. As a matter of fact, I would be embarrassed to offer this thing myself.

Mr. SPRATT. If the gentleman is speechless, would he yield?

Mr. DICKINSON. I will yield in a moment. The idea that we would be so gullible and think we are so obtuse here that we cannot see what is going on really sort of blows my mind. I really would be embarrassed to offer this if it were my amendment.

Yes, I will be glad to yield to the gentleman from South Carolina.

Mr. SPRATT. I thank the gentleman for yielding.

The purpose of this amendment, which I am making——

Mr. DICKINSON. Well, I understand about the gentleman's amendment.

Mr. SPRATT. Is to keep the add-on spending neutral so that it does not have any effect.

Mr. DICKINSON. I understand your amendment.

Mr. SPRATT. It is to keep the add-on spending neutral.

Mr. DICKINSON. That really does not give me any problem. But even if it is associated with the other amendment I am opposed to it.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore. The gentleman from Connecticut [Mr. GEJDENSON] is recognized.

Does the gentleman from South Carolina seek more time?

Mr. SPRATT. Mr. Chairman, I yielded back the balance of my time.

Mr. GEJDENSON. I will yield to the chairman of the Seapower Committee in a moment, but if I might, while the gentleman is approaching the podium, let me point out that this amendment, if the funds are made available, would only add $83 million in outlays in this year and it is within the budget decision that we have made to date.

Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. BENNETT] the chairman of the Subcommittee on Seapower and Strategic and Critical Materials of the Committee on Armed Services.

PARLIAMENTARY INQUIRY

Mr. DICKINSON. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. DICKINSON. Mr. Chairman, are we working now on the time of the gentleman from Connecticut [Mr. GEJDENSON] or the time of the gentleman from South Carolina [Mr. SPRATT]?

The CHAIRMAN pro tempore. The gentleman from South Carolina has yielded back the balance of his time, so we are operating off the time of the gentleman from Connecticut [Mr. GEJDENSON]. The gentleman from Connecticut has yielded 1 minute to the distinguished gentleman from Florida, and the gentleman from Florida is recognized.

Mr. DICKINSON. Since I rose in opposition to it, I assume then that I would have 5 additional minutes.

The CHAIRMAN pro tempore. The gentleman has 5 minutes remaining.

Mr. DICKINSON. I thank the Chairman.

Mr. BENNETT. Mr. Chairman, assuming the amendment to the amendment is adopted, then I think the amendment of the gentleman from Connecticut is a good amendment. We have had thorough studies of the needed next Trident. We did approve it in our committee. It met approval in the general or full committee. But it was withdrawn because of the tightness of the budget and was not put back because of an arrangement for trying to get competition between various other ships.

So on total it has been studied in the committee, it has been approved both in the subcommittee and in the full committee, and I think it is a good thing to do.

It is a needed ship. If we can get it under this bill, we ought to get it.

The Chairman pro tempore. The gentleman from Alabama [Mr. DICKINSON] is recognized for 5 minutes in opposition to the amendment.

Mr. DICKINSON. I thank the chairman.

Mr. Chairman, aside from the ludicuous aspects of this, let we talk a little bit to the merits because SALT-II imposes limitations on numbers of strategic system, the Poseidon ballistic missile submarine, which is presently being retired even though they are still militarily sound and usable, because of that the committee, that is Mr. BENNETT's subcommittee—this is one of the reasons they elected not to put the Trident in beside the budgetary constraints.

Second, the Navy is critically short of modern surface combatants that would be required to support the sea lanes of communication between the United States and Europe and also NATO. A decision to authorize the Trident submarine this year within the imposed budget constraints and limitations would have required at least two other ships, surface ships, not be built.

□ 2025

The committee also took that into consideration. The ships that would have been displaced would have included either surface combatants or attack submarines.

Third, the Navy is presently seeking to bring a second shipbuilder in into the construction of Trident submarines to gain the benefit of competition. At the present time, we have only one builder of submarines, just one. It would be nice if we had a little competition and if General Boat were not the only game in town, and we could negotiate with someone else who might give a better price.

So for these three reasons, Mr. Chairman, the fact that if we had a choice we would be better off with surface combatants we have 14 Tridents already approved. We need surface ships. If we go with this, we are going to have to continue to decommission Poseidons, and we need another source to build them. Those are three good, valid, cogent reasons why, under the budget contraints, it makes sense to put this over. That, and in addition to the fact it is so ludicrous to vote on Friday to cut back $7 billion in spending authority, and then turn around and add $1.5 billion back and, in the meantime, having lost the F-14, the F-15, the F-16 and any other conventional weapons systems.

I would hope that this committee would stand up and—we cannot laugh it out—but I do hope that we would vote it out.

Mr. GEJDENSON. Mr. Chairman, I yield 1 minute to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr Chairman, let me say that I am in support of the gentleman from Connecticut's amendment.

I would not support it if it was not for the Spratt amendment which says

that this will happen only if the money is available.

I look at the bill that we have before us, and if there is one thing that I think we ought to put back in this bill that we had cut out because of budget constraints, it is that Trident submarine. It is the most survivable form of nuclear deterrent that we have. It is clearly the one item that we ought to put back in. And as long as the Spratt amendment is there that says that this Trident will not go in unless the money is available, I think we would be remiss not to vote for the amendment.

Mr. GEJDENSION. Mr. Chairman, I yield 1 minute to the gentleman from Massachusetts [Mr. MAVROULES].

Mr. MAVROULES. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, we want to keep in mind that this amendment is contingent upon funds being available, so it knocks out any rhetoric or argument about moneys not being there or moneys that were not passed last Friday.

This probably will be one of the best amendments offered in this DOD bill. The sooner we realize that, for the security of our country, the better off we are going to be. If we truly believe that we have the qualitative edge in submarines as a deterrent factor in the nuclear arms race, you have to vote for this amendment. It is the one edge that we do have. We have an opportunity to put the money back or make it available, and certainly to enhance our deterrent factor in nuclear war.

I am certainly behind it.

Mr. GEJDENSON. Mr. Chairman, I yield myself the balance of my time.

Mr. STRATTON. Mr. Chairman, will the gentleman yield?

Mr. GEJDENSON. I yield to the gentleman from New York.

Mr. STRATTON. Mr. Chairman, I just want to say that I had the opportunity about 3 weeks ago to sail on the latest Trident submarine, the *Alaska*. If you have been on a submarine before, the Trident is a totally different kind of ship. It has some 24 huge missiles on it. It has a very substantial speed, and the quality of the young men who are serving on those ships is simply fantastic.

I think that if this is successful, the gentleman from Connecticut may wish to have the submarine that the gentleman is proposing be named the *Connecticut*.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. GEJDENSON. I yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I want to say to the gentleman that I particularly appreciate his amendment and also the Spratt amendment.

I think the fact that, as the chairman said, we are only going to do this if we have the funds available that meets Mr. DICKINSON's objection, makes it a sound amendment. I happen to believe this is the cornerstone of our strategic deterrent. It is totally survivable. We have seen these Tridents out in the Pacific Northwest at the Bangor base.

I might point out that this submarine when constructed would go to King Bay, GA, and would be part of the Georgia fleet.

I think these Tridents, and I have been out on them, are survivable into the foreseeable future, and are the backbone of our deterrent, and I think it is essential that we put the Trident back into the budget.

Mr. GEJDENSON. Mr. Chairman, I thank the gentleman. The gentleman is correct, of course. There is no comparison between the Poseidon class submarines and the Trident.

The increased cost in skipping a year on the Trident would more than eat up any savings, and I would hope that we would accept both amendments.

The CHAIRMAN pro tempore. (Mr. GRAY of Illinois). The question is on the amendment offered by the gentleman from South Carolina [Mr. SPRATT] to the amendment offered by the gentleman from Connecticut [Mr. GEJDENSON].

The amendment to the amendment was agreed to.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Connecticut [Mr. GEJDENSON], as amended.

The question was taken; and the Chairman pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. DICKINSON. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 188, noes 211, not voting 32, as follows:

[Roll No. 322]

□ 2045

The Clerk announced the following pairs:

On this vote:

Mr. Morrison of Connecticut for, with Mr. Shelby against.

Mr. LaFalce for, with Mr. Lewis of California against.

Mr. Dixon for, with Mr. Yates against.

Mr. Darden for, with Mr. Mitchell against.

Mr. COYNE, Mr. SAVAGE, Mrs. ROUKEMA, and Messrs. CRANE, LAGOMARSINO, KEMP, KOLTER, KASICH, LENT, OLIN, MARLENEE, and RUSSO changed their votes from "aye" to "no."

Messrs. GLICKMAN, MINETA, MATSUI, and GEPHARDT changed their votes from "no" to "aye."

So the amendment as amended, was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). Under the rule, the next amendment in order is No. 16 by the gentleman from South Carolina [Mr. SPRATT].

The gentleman from South Carolina declines to offer amendment No. 16.

The next amendment in order is No. 17 by the gentleman from Oregon [Mr. AUCOIN].

AMENDMENT OFFERED BY MR. AU COIN

Mr. AUCOIN. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. AUCOIN: At the end of title I of Division A (page 33, after line 17), add the following new section:

SEC. 128. ADVANCED ANTI-ARMOR WEAPONS.

(a) Of the funds authorized in Section , $48,735,000 is authorized to be apporpriated for the Army Advanced Anti-Armor Weapon System Medium (AAWS-M) program, but funds may be obligated for such program only if—

(1) the Secretary of the Army begins a prototype feasibility demonstration of no more than three candidate systems including a true fire and forget, launch and leave candidate;

(2) the planning and evaluation authority for the feasibility demonstration is the Director of Test and Evaluation of the Department of Defense; and

(3) the actual conduct of the feasibility demonstration is carried out jointly by the Army and the Marine Corps.

(b) Notwithstanding any other provision of law, prior to inititation of full-scale engineering development of the winning AAWS-M candidate, the Secretary of the Army must certify to the Committees on Armed Services and Appropriations of the Senate and the House of Representatives that the winning system satisfies the Army anti-armor requirement, and the Secretary of the Navy, upon recommendation of the Commandant of the Marine Corps, must certify to the Committees on Armed Services and Appropriations of the Senate and the House of Representatives that the winning system satisfies the Marine Corps anti-armor requirements.

(c) The provisions of the preceding sections may be exercised only if the Army simultaneously commences and conducts a full scale engineering development program for the Fiber Optic Guided Missile (FOG-M) system developed by the Army Missile Command, Huntsville, Alabama, for anti-armor and air defense variants of FOG-M.

The CHAIRMAN pro tempore. Under the rule, the gentleman from Oregon [Mr. AUCOIN] will be recognized for 5 minutes and a Member in opposition will be recognized for 5 minutes.

Mr. DICKINSON. Mr. Chairman, I oppose the amendment.

The CHAIRMAN pro tempore. The gentlemen from Alabama [Mr. DICKINSON] will be recognized for 5 minutes.

The Chair now recognizes the gentleman from Oregon [Mr. AUCOIN].

Mr. AUCOIN. Mr. Chairman, I yield to the chairman of the Armed Services Committee, the gentleman from Wisconsin [Mr. ASPIN].

AMENDMENT OFFERED BY MR. ASPIN AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. AU COIN

Mr. ASPIN. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. ASPIN as a substitute for the amendment offered by Mr. AUCOIN: At the end of title II of division A (page 68, after line 4), add the following new section:

SEC. 215. ADVANCED ANTI-ARMOR WEAPON SYSTEM.

(a) FEASIBILITY DEMONSTRATION OF CANDIDATE SYSTEMS.—Of the funds authorized in section 201 for the Army, $48,735,000 is authorized to be appropriated for the Advanced Anti-Armor Weapon System Medium (AAWS-M) program, but funds may be obligated for such program only if—

(1) the Secretary of the Army begins a prototype feasibility demonstration of not more than three candidate systems for such program, including a true fire-and-forget, launch, and leave candidate;

(2) the feasibility demonstration for such a system is capable of being completed within 24 months after the date of the enactment of this Act;

(3) the authority for test planning and evaluation for the feasibility demonstration is the Director of Test and Evaluation of the Department of Defense; and (4) the actual conduct of the feasibility demonstration is carried out jointly by the Army and the Marine Corps.

(b) REQUIREMENT FOR SATISFACTION OF SERVICE ANTI-ARMOR REQUIREMENTS.—The Secretary of Defense may not authorize the initiation of full-scale engineering development of the winning AAWS-M candidate until—

(1) the Secretary of the Army certifies to the Committees on Armed Services and Appropriations of the Senate and House of Representatives that the winning system meets the anti-armor requirement of the Army; and

(2) the Secretary of the Navy, upon recommendation of the Commandant of the Marine Corps, certifies to such Committees that the winning system meets the anti-armor requirement of the Marine Corps.

Mr. ASPIN (during the reading). Mr. Chairman, I ask unanimous consent that the amendment offered as a substitute for the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. DICKINSON. Reserving the right to object, Mr. Chairman, I do not do so for the purpose of objecting, but if it is in order, I would like to make a parliamentary inquiry.

Mr. CHAIRMAN pro tempore. The gentleman will state his parliamentary inquiry.

PARLIAMENTARY INQUIRY

Mr. DICKINSON. Mr. Chairman, my parliamentary inquiry is that I had a small objection to the amendment offered by the gentleman from Oregon [Mr. AUCOIN] which allows me to rise in opposition and reserve my time.

I did not hear nor do I understand the amendment offered by my chairman, the gentleman from Wisconsin [Mr. ASPIN] and I do not know whether I should object in order to reserve my time or not.

Could I tentatively say that I rise in opposition to the amendment?

The CHAIRMAN pro tempore. The Clerk was in the process of reading when the gentleman from Wisconsin made unanimous consent to dispense with further reading of the amendment.

Mr. DICKINSON. Mr. Chairman, I will reserve my right, then, to oppose the amendment.

The CHAIRMAN pro tempore. The gentleman from Alabama [Mr. Dickinson] will be entitled to 5 minutes in opposition to the amendment offered by the gentleman from Oregon [Mr. AUCOIN].

Mr. DICKINSON. Mr. Chairman, I withdraw my reservation of objection to dispensing with the reading of the amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The CHAIRMAN pro tempore. The gentleman from Wisconsin [Mr. ASPIN] is recognized for 5 minutes.

Mr. ASPIN. Mr. Chairman, I would like to help explain to the gentleman from Alabama the amendment offered by the gentleman from Oregon.

Mr. Chairman, what this amendment does is that it perfects the amendment of the gentleman from Oregon. In fact, it decouples two issues which we were dealing with in the amendment of the gentleman from Oregon. One is the AAWS-M and the other is the FOG-M. These are two different systems which were coupled in the gentleman's original amendment.

What this does is that it makes clear that it decouples these two and conforms the language to make clear that it applies to research and development.

Mr. AUCOIN. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Oregon.

Mr. AUCOIN. Mr. Chairman, I agree with the statement that the gentleman from Wisconsin has just made. It is a decoupling amendment. It does decouple two very important antiarmored systems and it does take care of a drafting error which makes it clear that this is an amendment to title II, rather than title I.

Mr. DICKINSON. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Alabama.

Mr. DICKINSON. Mr. Chairman, I think we are in accord.

There are two things that I am very much interested in. I am interested in supporting the FOG-M, the fiber optic guided missile, and also the SPIKE. I am supportive of both these programs. They could be a part of this. One of them is.

As I understand, is this supportive of both, would the gentleman from Wisconsin say?

Mr. ASPIN. Mr. Chairman, the answer is yes.

Mr. DICKINSON. To both?

Mr. ASPIN. To both.

Mr. DICKINSON. Well, then I have no objection.

Mr. ASPIN. I yield further to the gentleman from Oregon.

Mr. AUCOIN. Mr. Chairman, I would like to use this time to explain just very briefly the primary amendment, and I think it also clarifies the need for this colloquy.

It is a zero-fund amendment, Mr. Chairman. It does not add any new authorization to the bill. It addresses an urgent need for our land forces to have an antitank weapon that can be carried by one man, can penetrate an enemy tank coming head on, and will not endanger the operator. That is critical.

We do not have this capability in the field today, but we have two technologies that potentially can do it for us in the future. One is the fire-and-forget tank breaker which I think is the ideal medium antitank weapon, and the other is the very versatile fiber-optic link, which the gentleman from Alabama just mentioned. Each system serves a different purpose. Both are going to be terrifically useful once they are in the field. The question is how to do it in the quickest way possible.

Initially, it had seemed to me and the committee that by cutting out the AAWS-M competition and going directly to advanced development on the most promising candidate, and that would be the fire-and-forget tank breaker, was the best way to do it. It turns out, however, as events have unfolded, that the best course seems to be to restore the AAWS-M competition, but to insure that it is fair and not drawn out longer than necessary, so this amendment does do this, as perfected by the perfecting amendment of the gentleman from Wisconsin.

In doing so, it restores the administration's original request.

I would hope we can also see to it that the fiber-optic weapons system the gentleman from Alabama mentioned goes ahead well on its own, but at this point it is best, I think, not to link it to the tank breaker.

I believe this is the view of the committee and I would ask the chairman of the Armed Services Committee if it is not in fact the committee's view?

Mr. ASPIN. Mr. Chairman, let me just answer the question of the gentleman from Oregon and then I will be happy to yield further.

The answer to the gentleman's question is yes. The gentleman is also aware of the committee's strong interest, as witnessed by the gentleman from Alabama, in the fiber-optic guided missile. We would like to accept the gentleman's amendment. In fact, we were considering putting it into our package, but we are accepting the amendment on this side, provided the gentleman will continue to commit his support for the FOG-M and I hope the Army recognizes our interest in the Armed Services Committee in the FOG-M and conforms to our direction.

□ 2100

Mr. AUCOIN. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Oregon.

Mr. AUCOIN. I appreciate the gentleman's yielding.

Mr. Chairman, I thank the chairman of the Committee on Armed Services. The main thrust of my amendment is to ensure a fair AAWS-M competition, but I do strongly support the fiber-optic family of weapons, and I assure the chairman and the ranking member that I will continue to give them my active support.

I would like to ask the gentleman from Wisconsin one further question, if I may, in this colloquy: Am I correct that the committee feels that the highest priority should be given to competing the AAWS-M competition and moving rapidly through engineering development to the production of the winning candidate?

Mr. ASPIN. Yes.

Mr. DICKINSON. Mr. Chairman, I yield 3 minutes to the gentleman from California [Mr. BADHAM].

Mr. BADHAM. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I appreciate the gentleman's great concern for moving systems into the field to get them in the hands of our troops quickly. I really appreciate that.

I believe that I heard in the gentleman's comments earlier that he was skipping a chapter in the development of this system, is that correct, moving more rapidly from development into——

Mr. AUCOIN. Mr. Chairman, will the gentleman yield?

Mr. BADHAM. I am happy to yield to the gentleman from Oregon.

Mr. AUCOIN. I would say to the gentleman that we are not skipping a step in the process, but instead we are moving back to the administration's original request, which was to go foward with a competition rather than designating what the buy will be and moving toward rapid development.

Mr. BADHAM. Maybe I misheard the gentleman. He is moving ahead with the competition rather than designating.

Mr. AUCOIN. That is right; that is exactly right, I say to the gentleman.

Mr. BADHAM. I thank the gentleman, and I commend him for his action.

Mr. DICKINSON. Mr. Chairman, I yield back the balance of my time.

Mr. AUCOIN. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The question is on the amendment offered by the gentleman for Wisconsin [Mr. ASPIN] as a substitute for the amendment offered by the gentleman from Oregon [Mr. AUCOIN].

The amendment offered as a substitute for the amendment was agreed to.

The CHAIRMAN pro tempore. The question is on the amendment offered

by the gentleman from Oregon [Mr. AUCOIN], as amended.

The amendment, as amended, was agreed to.

AMENDMENT OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. GARCIA: At the end of title I of division A (page 33, after line 17) insert the following new section:

SEC. 128. SET-ASIDE FOR ENTERPRISE ZONES.

(a) REQUIREMENT.—Of the total amount appropriated for fiscal year 1987 for procurement by the Department of Defense, not less than 5 percent shall be spent (through prime contracts or subcontracts) in enterprise zones designated or established by the Secretary of Housing and Urban Development pursuant to a law described in subsection (b) enacted after August 1, 1986.

(b) LIMITATION.—Subsection (a) shall not apply if legislation is not enacted during the second session of the 99th Congress providing for the establishment or designation of enterprise zones by the Secretary of Housing and Urban Development.

The CHAIRMAN pro tempore. Under the rule, the gentleman from New York [Mr. GARCIA] will be recognized for 20 minutes, and a Member opposed will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. GARCIA].

Mr. GARCIA. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this amendment calls for a 5-percent set-aside of fiscal year 1987 Department of Defense procurement funds to be spent in the 100 enterprise zones to be designated by the U.S. Department of Housing and Urban Development as outlined in H.R. 1. This 5-percent requirement can be met by prime contractors and subcontractors.

Recently, during consideration of H.R. 1, the housing bill, this House, by an overwhelming margin passed an amendment which I sponsored to designate 100 areas throughout the Nation as enterprise zones, with one third of enterprise zones to be located in rural areas.

With the recent passage of that amendment, we created a framework which can be further developed with such amendments as this one. My colleagues, I believe that this 5-percent requirement of DOD procurement for enterprise zones will not only serve our national interests by providing quality service and products for our Nation's defense, but at the same time it will provide jobs and other economic stimulants to some of our Nation's most depressed areas.

There may not be a great deal of prime contractor capability presently existing within these areas. On the other hand, however, I am sure that more than enough subcontractor capability exists within possible future zones.

Many of the businesses located and/or which will locate in these areas would provide the nuts and bolts operations for prime contractors. Moreover, no health, safety, wage, paperwork or other regulatory requirements may be waived for those businesses located within enterprise zones which contract or subcontract with the Department of Defense.

According to the Armed Services Committee, H.R. 4228 authorizes $81.8 billion for procurement. I believe it to be reasonable that just over $4 billion should be targeted for the 100 enterprise zones.

As you may know, the other body has yet to pass a Housing bill for fiscal year 1987. I anticipate that the enterprise zones package will be a part of that body's bill as well. If the Housing bill fails to become law before the end of the 99th Congress, this 5-percent provision will no longer apply.

In closing Mr. Chairman, I would like to reiterate that enterprise zones are working well in 31 States, and a recent survey conducted by the American Association of Enterprise Zones shows that enterprise zones have resulted in a reduction of barriers to investment properties in less desirable areas. The influx of DOD related business into enterprise zones will do much to revitalize and bring pride and great potential back to many of our Nation's depressed areas.

The CHAIRMAN pro tempore. The Chair recognizes the gentleman from Alabama [Mr. DICKINSON].

Mr. DICKINSON. Mr. Chairman, I yield 2 minutes to a very distinguished Member, the gentleman from Georgia [Mr. RAY].

Mr. RAY. Mr. Chairman, I rise in opposition to the amendment offered by the gentleman from New York [Mr. GARCIA].

Mr. Chairman, let me explain just a little bit about what this amendment involves. First of all, it is legislation which would create enterprise zones which have been referred to the Committees on Banking, Judiciary, and Ways and Means.

Second, it would require that 5 percent of the defense budget be spent in enterprise zones. Enterprise zones are proposed to be an area with a population of 4,000 or more meeting specified unemployment and poverty requirements, at least 25 percent of which must be in a rural area.

Since this legislation is not yet adopted, there is no way to tell with certainty where these enterprise zones will be. There is a bill, H.R. 1, which has already passed the House, which provides for the establishment of enterprise zones to be determined by the Secretary of HUD. A companion bill in the Senate is expected to pass next session.

It would have an adverse impact because it requires awards to such contractors even if they are not offering the lowest price for the best-quality products. It could adversely impact the Small Business Program by requiring awards to contractors which may be large but in an enterprise zone. It is in contravention of the Maybank amendment which states that no price differential may be paid for the purpose of relieving economic dislocations.

Mr. Chairman, I serve on the Small Business Committee, and I am very much concerned about minorities and small-business people, and was a small businessman for 25 years myself, and know the problems that we all face. I have worked and helped. many minority businesses to become 8(a) contractors, and I know that this bill is offered in the best interests by Mr. GARCIA, but it would be disastrous. It would be disastrous to defense, it would be disastrous to small business, and I urge its defeat.

Mr. GARCIA. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would just like to try to respond to that very briefly.

First of all, I want to make it very clear to my colleagues that as far as I am concerned, one of the biggest problems for those of use who have been fighting for and supporting enterprise zones over these many years has been to try and put people back to work. It seems to me that if we look over the historic nature of many of us who come out of areas that are the depressed areas in country, especially America's urban centers, one of the biggest problems that we have is trying to put people to work.

It has been a very difficult period for us, because the fact is, we are not getting the housing and other social programs that are absolutely essential for America's poor to give them a hand to help themselves to come up.

□ 2110

When it comes to employment, all we saying is we want to put people to work.

I think if we are able to come foward by putting people to work in these areas, I think we will get a heck of a lot more done in this Chamber as it relates to many of us who never support defense because the contractors are in southern California and other parts of the country. I cannot blame my colleagues from those areas.

All I am saying is that to those people who are in depressed areas where enterprise zones will be of help, let us put people to work. This it the biggest, the largest appropriation of any dealing with agencies within the U.S. Government, and I think those

people want to work. I think you will find they will prove themselves to be capable workers. That is why I am asking for a yes vote on this amendment.

Mr. DICKINSON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me say to my distinguished colleague, the gentleman from New York [Mr. GARCIA], the proponent of the amendment, I subscribe to and support everything the gentleman has articulated as to the reason for putting forth this amendment. I believe in putting people to work. I believe in giving them a chance to work. If there is one basic concept in my life, I would much rather give a hand up than a hand out.

I oppose this amendment not because of the concept of wanting to help people or help people help themselves in depressed areas. But there are three good reasons.

One is I know probably what the mood is on the House floor tonight. People are going to vote emotionally and say yes, that is fine, help the underprivileged, and rush through with it, not really knowing what we are doing.

What we are doing is this: The gentleman's amendment would require awards to contractors even if they are not offering the lowest price for the best quality products. What we are saying is you do not have to be competitive under this philosophy, and we are telling the Department of Defense in the defense bill to cut spending, cut spending, cut spending. But when you go out to secure business, you do not have to give it to the lowest bidder in an enterprise zone.

Second, what the gentleman from Georgia [Mr. RAY] says, is correct. We have three committees of this Congress already dealing with this subject. I think a bill will pass probably in the other body putting in place a bill defining this. But at the present time, we do not ever know what the definition of an enterprise zone is. Roughly it says perhaps it will be over 4,000 people, or more, meeting specific unemployment and poverty requirements, and at least 25 percent must be in rural areas. So we do not know the definition, but we are going to say that you have got to comply with it.

This is really an antismall business amendment or could be.

Also, if this were put in place it would allow, require the Department of Defense to give contracts, and this is possible, although I do not know that it would happen in very many instances, to a business that is not a small business, that would be otherwise qualified. But this could be a large business in the "enterprise zone."

As has been pointed out by my distinguished colleague from Georgia, it is in contravention of the Maybank amendment that states no price differential may be paid for the purpose of relieving economic dislocation.

So I think the concept is noble. I would be glad to work with the gentleman, but you cannot take this in isolation. We had another amendment last year for 10 percent on R&D. This year we passed that out of the committee with 5 percent. But really the Defense Department and our defense bill is not the place for social programs, and this is one that has not even been adequately defined.

I think it is a good idea, but not at this place and at this time.

Mr. GARCIA. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I am happy to yield to the gentleman from New York. However, he has plenty of time to close debate.

Mr. GARCIA. Mr. Chairman, I would just like to state to my colleague from Alabama a couple of things that are important I think that we make very clear.

First I would like to address the question of relocation. No. 1, this is not a relocation bill. Enterprise zone is very specific and very clear. Under no set of circumstances in those zones will we permit people to relocate for the sole purpose of relocation. We have made that clear from the beginning.

The second part of that, and I think it is important we understand, is the question of bidding. The gentleman talks about subcontractors and contractors who are large corporations. We are not talking about large corporations. We are talking about very small corporations who will be coming into these enterprise zones. So I think that is important to understand.

So in summing up, because the hour is late and I know people would like to leave, I just want to say that under no set of circumstances is this to replace social programs. The people who live in this area are as capable as in any other part of this country. We are not looking for a handout, I want to make that clear, because part of the statement by the gentleman from Alabama was that it is not a social program. I agree with the gentleman. Defense should not be made part of any social program.

All we are saying is that in those areas there are people as capable as in any other place in this country.

Mr. DICKINSON. I thank the gentleman. I reluctantly oppose this for the reasons set out, and certainly think that the purpose is noble.

I yield back the balance of my time.

Mr. GARCIA. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The question is on the amendment offered by the gentleman from New York [Mr. GARCIA].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. GARCIA. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 120, noes 279, not voting 32, as follows:

□ 2130

The Clerk announced the following pair:

On this vote:

Mr. de la Garza for, with Mr. Morrison of Connecticut against.

Mrs. BOXER and Messrs. DELLUMS, MARKEY, MOAKLEY, and FISH changed their votes from "aye" to "no."

Mrs. MARTIN of Illinois, Mr. MARKEY, and Mr. HOYER changed their votes from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mr. ASPIN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, let me, if I might, take a minute and explain to the House where we are with tonight's schedule. The proposal, after discussion with the minority member leadership and the leadership on the Democratic side, what we thought we would do is two more things tonight. One thing is a unanimous consent request that we consider en bloc a number of amendments that the Committee on Armed Services is willing to accept among the various amendments that have been offered by various Members.

Both sides of the aisle, it has been cleared by everybody. The gentleman from Alabama can attest that it has been cleared on his side.

This is a packet of amendments which, if we do not spend a lot of time, we should be able to dispense with in a matter of 5 minutes. We would then complete one other piece of business which gets us to the end of title I.

We have made very good progress on the Defense bill tonight. We need to do one more thing for the end of title I. That is an amendment offered by the gentleman from New York, Mr. WEISS, to strike the money for the D-5 missile. If all the time is taken on that amendment, and that is a 40-minute amendment, 20 minutes for and 20 minutes against, and may be less, but we would have a vote on that and quit for the night.

So it is one unanimous-consent request, one more amendment and then finished for the night depending upon how long the gentleman from New York's amendment, and we may be out of here in half an hour or 45 minutes.

Mr. DICKINSON. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Alabama [Mr. DICKINSON].

Mr. DICKINSON. I thank the chairman for yielding.

Mr. Chairman, I have had some inquiries and I just wanted to know how the Chair would propose to handle them. If someone wanted to get on the RECORD to say something in support of one of the packaged amendments, would they just have to revise and extend, or would they be given an opportunity to speak?

Mr. ASPIN. The unanimous-consent request would allow them to insert in the RECORD immediately following this presentation any comments that they might have on their amendments.

Mr. DICKINSON. Well, we are going to read those.

AMENDMENTS AS MODIFIED, OFFERED BY MR. ASPIN

Mr. ASPIN. Mr. Chairman, I offer amendments, and I wish to make a unanimous-consent request at this time, if I might.

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The gentleman is recognized.

Mr. ASPIN. Mr. Chairman, pursuant to the order of the House of today, I ask unanimous consent that I may offer amendments en bloc composed of amendments numbered 19, 32, 37, 39, 40, 42, 47, 49, 51, 55, 56, and 57 made in order under the rule, including modifications in the text of amendments numbered 19, 40, 51, and 55, that no amendment to such amendment en bloc be in order, that such amendment en bloc not be subject to a demand for a division of the question, that such amendment en bloc be debatable for not to exceed 30 minutes, to be equally divided and controlled by myself and the gentleman from Alabama [Mr. DICKINSON], that the original proponents of amendments included in such amendment en bloc may have their statements inserted in the RECORD immediately before the disposition of the amendment en bloc, and that the reading of the amendment as modified be dispensed with.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The CHAIRMAN pro tempore. The Clerk will designate the amendments.

The following amendment to H.R. 4428, as reported, offered by Mr. Aspin contains the following amendments as printed in House Report 99-766:

Amendment number 19 by Representative Denny Smith of Oregon on Upgrade of A-10 (as modified);

Amendment number 32 by Representative Carr of Michigan on Coordination of technical data;

Amendment number 37 by Representative Leath of Texas on Prohibition of joint use of Gray airfield with civil aviation;

Amendment number 39 by Representative Panetta of California on U.S. agriculture products in commissaries;

Amendment number 40 by Representative McCollum of Florida on striking Afghanistan assistance; (as modified)

Amendment number 42 by Representative Bennett of Florida on VHA recapture;

Amendment number 47 by Representative Borski of Pennsylvania on a study of chaplain balance;

Amendment number 49 by Representative Robinson of Arkansas on extension of mandatory retirement for medical officers;

Amendment number 51 by Representative Schroeder of Colorado on HHG transportation for certain members (as modified);

Amendment number 55 by Representative Mavroules of Massachusetts on USMTS centers (as modified)

Amendment number 56 by Representative Hutto of Florida on prohibiting contracting out of firefighters and

Amendment number 57 by Representative McCurdy of Oklahoma on limiting implementation of project IMPRINT.

The text of the amendments is as follows:

Amendments as modified, offered by Mr. ASPIN:

Page 21, after line 14, insert the following new section:

SEC. 114. UPGRADE OF A-10 WEAPONS DELIVERY SYSTEM.

(A) Authority For Upgrade Program.—The Secretary of the Air Force may provide for an upgrade of the weapons delivery

system of the A-10 aircraft for all in-service A-10 aircraft.

(b) SPECIFICATIONS.—The upgrade of a weapons delivery system under subsection (a) shall—

(1) include a flight control modification to improve stability during gun firing,

(2) enhance the accuracy of target strafing,

(3) provide for tactical training against moving targets,

(4) provide an accurate lateral toss-capable bombing capability, and

(5) provide for effective self-defense against likely air threats.

Title 2 Division A add a new section:

SEC. 215. PURPOSE.

(1) It is the purpose of this Act to strengthen coordination among Department of Defense research facilities and other organizations in the Department of Defense.

FINDINGS

(2) The Congress finds that centralized coordination of the collection and dissemination of technological data among research facilities and other organizations within the Department of Defense is necessary (1) to ensure that personnel of the Department are currently informed about emerging technology for defense systems, and (2) to avoid unnecessary and costly duplication of research staffs and projects.

DEFINITIONS

(3) For purposes of this Act:

(A) The term "Defense research facility" means any Department of Defense facility which performs or contracts for the performance of (A) basic research, or (B) applied research known as exploratory development.

(B) The term "milestone 0 decision" means a decision made within the Department of Defense that there is a mission need for a new major weapon system and that research and development is to begin to meet such need.

(C) The term "milestone I decision" means a selection by an appropriate official of the Department of Defense of a new major weapon system concept and a program for demonstration and validation of such concept.

(D) The term "milestone II decision" means approval by an appropriate official within the Department of Defense for the full-scale development of a new major weapon system.

COORDINATION OF DEPARTMENT OF DEFENSE TECHNOLOGICAL DATA

(4) The Secretary of Defense shall—

(A) promote, monitor, and evaluate programs for the communication and exchange of technological data—

(B) among the Defense research facilities, combat forces, and other organizations that are involved in developing for the Department of Defense the technological requirements for new items for use by combat forces; and

(1) among Defense research facilities and other offices, agencies, and bureaus in the Department that are engaged in related technological matters; and

(2) ensure, to the maximum extent practicable—

(C) that Defense research facilities are assigned broad mission requirements rather then specific hardware needs;

(D) that appropriate personnel of such facilities are assigned to serve as consultants on component and support system standardization;

(E) that the managers of such facilities have broad latitude to choose research and development projects;

(F) that technology position papers prepared by Defense research facilities are readily available to all military commands and to contractors who submit bids or proposals for Department of Defense contracts; and

(G) that, in order to promote increased consideration of technological issues early in the development process, any position papers prepared by Defense research facilities on technological issues relating to a major weapon system and any technological assessments made by such facilities in the case of such components are made a part of the records considered for the purpose of making milestone 0, I, and II decisions.

REPORT

(5) The Secretary of Defense shall submit to the Congress, within one year after the date of the enactment of this Act, a written report containing a description of (1) the actions taken by the Secretary for the purpose of implementing this Act, and (2) any other action taken by the Secretary for the purpose of improving the management and utilization of Defense research facilities.

At the end of title III of division A (page 85, after line 12), add the following new section:

SEC. 314. PROHIBITION ON JOINT USE OF GRAY ARMY AIRFIELD WITH CIVIL AVIATION.

The Secretary of the Army may not enter into an agreement to allow joint use of the Robert Gray Army Airfield at Fort Hood, Texas, with civil aviation.

At the end of title III of division A (page 85, after line 12), add the following new section:

SEC. 314. PREFERENCE FOR UNITED STATES AGRICULTURAL PRODUCTS IN COMMISSARY FOOD PURCHASES.

(a) PREFERENCE REQUIREMENT.—The Secretary of Defense shall require that, when acquiring food products through the use of competitive procedures for resale through commissary stores located in the United States, the Department of Defense gives preference to United States companies that use United States agricultural commodities in the products sold to the Department of Defense.

(b) GUIDELINES.—The Secretary shall develop guidelines to implement the preference required by subsection (a). Such guidelines shall be developed and implemented not later than 60 days after the date of enactment of this Act. The Secretary shall transmit a copy of the guidelines to the Committee on Armed Services of the Senate and House of Representatives as soon as they are developed.

(c) REPORT.—The Secretary shall, not later than 120 days after the date of the enactment of this Act, submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of this section.

Page 83, strike out line 18 and all that follows through page 84, line 5 (and redesignate the succeeding subsection accordingly).

Page 84, line 7, insert "(1)" before "Section".

Page 84, after line 17, add the following new paragraph:

(2) There is hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1987 the sum of $9,000,000 to carry out section 2547 of title 10, United States Code.

Page 104, after line 15, insert the following:

SEC. 603. REPORT ON VARIABLE HOUSING ALLOWANCE RECAPTURE PROVISION.

Not later than February 1, 1987, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and House of Representatives a report on the impact of the variable housing allowance recapture provision enacted in the Department of Defense Authorization Act, 1986 (Public Law 99-145). The report shall address—

(1) the cost of administering the variable housing program;

(2) the total cost of the variable housing program; and

(3) levels of regular military compensation (as defined in section 101 of title 37, United States Code) among members of the armed forces in the same pay grade and locality.

Page 93, after line 13, add the following new section:

SEC. 507. STUDY OF REPRESENTATION OF RELIGIOUS FAITHS IN THE ARMED FORCES.

(a) FINDINGS.—The Congress finds that an imbalance exists in the representation of various religious faiths among chaplains of the Armed Forces compared to the representation of those faiths among members of the Armed Forces as a whole. While recognizing that much of this faith imbalance may be attributable to an overall shortage of clergy in the United States among religious faiths that are underrepresented among military chaplains, Congress finds that the Department of Defense has not taken sufficient steps to alleviate the existing faith imbalance.

(b) STUDY.—The Secretary of Defense shall carry out a complete study of the causes and conditions of the existing faith imbalances in the Armed Forces. The study shall include the following:

(1) A list of all religious denominations represented in the Armed Forces and the goals set by the Secretary or the Secretary concerned for the number of chaplains to serve each such religious denomination; a comparison of such goals and the actual number of chaplains for each such religious denomination for fiscal year 1987; an analysis of how such goals and the actual number of chaplains compares to the demographic representation of religious denominations in the United States at the time of the study; and recommendations on how the number of chaplains in the Armed Forces in the future can better reflect current and future demographic representation of religious denominations in the United States.

(2) An analysis of all policies, procedures of operation, and standards affecting personnel requirements of all branches of the Corps of Chaplains, and an analysis of all means to alleviate existing faith imbalances, including the use of grade retentions, continuation boards, and standby tours of duty for reserve chaplains from underrepresented faiths.

(3) A roster of chaplains for all branches and, for the purpose of establishing the number of clergy on duty and ready for mobilization, personnel data for all active duty chaplains, reserve duty chaplains, inactive reserve duty chaplains, and contract clergy.

(4) An analysis and comparison of retentions in grade and age waivers as in effect for physicians in the Armed Forces and clergy in the Armed Forces. The analysis shall include an examination of the rationale and purpose of such policies as they

apply to physicians versus as they apply to clergy in the Armed Forces.

(5) The names, faiths, salaries, and places of work for all contract clergy for all branches of the Armed Forces.

(c) REPORT TO CONGRESS.—Not later than 4 months after the date of the enactment of this Act, the Secretary shall submit a report on the findings of the study conducted under subsection (b) to the Committee on Armed Services of the Senate and the House of Representatives. The report shall address the effects of personnel policies, releases, and retentions in grade on existing faith imbalances in the Corps of Chaplains and shall include recommendations on how to alleviate the existing faith imbalances.

At the appropriate place in title V (personnel policy) insert the following new section:

SEC. 507. EXTENSION OF MANDATORY RETIREMENT AGE FOR MEDICAL OFFICERS.

(a) GENERAL RULE.—Section 1251 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) Unless retired or separated earlier, each regular officer of the Army, Navy, or Air Force who is a medical officer shall be retired on the first day of the month following the month in which the officer becomes 67 years of age.".

"(b) CONFORMING AMENDMENTS.—

(1) Section 1251(a) of such title is amended by inserting "a medical officer or" after "other than".

(2)(A) Chapter 36 of such title is amended by inserting after section 636 the following new section:

**"§ 636a. Exception to mandatory retirement for medical officers**

"Sections 633, 634, 635, and 636 of this title do not apply to medical officers.".

(B) The table of sections at the beginning of subchapter III of such chapter is amended by adding at the end the following new item:

"636a. Exception to mandatory retirement for medical officers.".

Page 110, after line 8, add the following new section:

SEC. 616. TRANSPORTATION FOR DEPENDENTS AND HOUSEHOLD EFFECTS OF CERTAIN MEMBERS.

(a) TRANSPORTATION OF DEPENDENTS.—Paragraph (2)(A) of section 406(a) of title 37, United States Code, is amended to read as follows:

"(2)(A) Except as provided in subparagaph (B) of this paragraph, a member who—

"(i) is separated from the service or released from active duty; and

"(ii) on the date of his separation from the service or release from active duty, has not served on active duty for a period of time equal to at least 90 percent of the period of time for which he initially enlisted or otherwise agreed to serve.

may be provided transportation under this subsection for his dependents only by transportation in kind by the least expensive mode of transportation available or by a monetary allowance that does not exceed the cost to the Government of such transportation in kind.".

(b) TRANSPORTATION OF HOUSEHOLD EFFECTS.—The first sentence of section 406(h) of title 37, United States Code, is amended to read as follows: "(1) If the Secretary concerned determines that it is in the best interests of a member described in paragraph (2) or his dependents and the United States, he may, when orders directing a change of permanent station for the member concerned have not been issued, or when they have been issued, but cannot be used as authority for the transportation of his dependents, baggage, and household effects—

"(A) authorize the movement of the member's dependents, baggage, and household effects at the station to an appropriate location in the United States or its possessions or the country of the dependents' origin, in the event the dependents are foreign nationals, and prescribe transportation in kind, reimbursement therefor, or a monetary allowance in place thereof (as the case may be), plus a per diem, as authorized under subsection (a) or (b) of this section; and

"(B) in the case of a member described in paragraph (2)(A), authorize the transportation of one motor vehicle owned by the member or for his or her dependents' personal use to that location by means of transportation authorized under section 2634 of title 10.".

(2) Section 406(h) of such title is further amended by adding at the end the following new paragraph:

"(2) A member referred to in paragraph (1) is a member who—

"(A) is serving at a station outside the United States or Hawaii or Alaska;

"(B) receives an administrative discharge under other than honorable conditions; or

"(C) is sentenced by a court-martial to be confined for a period of more than 30 days, to receive a dishonorable or bad-conduct discharge, or to be dismissed from a uniformed service, if the sentence is approved under section 860(c)(2) of title 10.".

Page 107, strike out lines 15 through 17 (and redesignate paragraph (5) as paragraph (4)).

At the end of title X of division A (page 239, after line 5), add the following new section:

SEC. 1033. REPORT ON HEALTH CARE FOR CERTAIN ABUSED DEPENDENTS.

(a) The Secretary of Defense shall submit a report to the Congress no later than December 31, 1986 on the desirability of establishing a program to provide one-year of medical (including mental health) and dental care to the dependents of military members who are discharged or who voluntarily leave the service, who abused their dependents while in the service, and whose dependents require medical or dental care as a result of the abuse.

(b) The report shall include (1) data on the cost and the estimated number of persons that would be eligible for medical and dental care under subsection (a), and (2) a plan to implement such a program.

At the end of part B of title VIII of division A (page 158, after line 13), insert the following new section:

SEC. 814. USE OF PUBLIC HEALTH SERVICE HOSPITALS AS FACILITIES OF THE UNIFORMED SERVICES.

Subsection (e) of section 1252 of the Department of Defense Authorization Act, 1984 (42 U.S.C. 248d(e)), is amended in the first sentence by striking out "December 31, 1987" and inserting in lieu thereof "December 31, 1988".

At the end of part A in title VIII of division A (page 142, after line 8), add the following new section:

SEC. 807. PROHIBITION ON CONTRACTS FOR PERFORMANCE OF FIREFIGHTING AND SECURITY FUNCTION.

(a) PROHIBITION.—Chapter 159 of title 10, United States Code, is amended by adding at the end the following new section:

**§ 2693. Prohibition on contracts for performance of firefighting and security function**

(a) Except as provided in subsection (b), funds appropriated to the Department of Defense may not be obligated or expended for the purpose of entering into a contract for the peformance of firefighting or security-guard functions at any military installation or facility.

(b) The prohibition in subsection (a) does not apply—

(1) to a contract to be carried out at a location outside the United States (including its commonwealths, territories, and possessions) at which military personnel would have to be used for the performance of the function described in subsection (a) at the expense of unit readiness;

(2) to a contract to be carried out on a Government-owned but privately operated installation; or

(3) to a contract (or the renewal of a contract) for the performance of a function under contract on September 24, 1983.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2693. Prohibition on contracts for performance of firefighting and security function.".

At the end of part B of title VIII of division A (page 158, after line 13), insert the following new section:

SEC. 814. LIMITATION ON IMPLEMENTATION OF HEALTH CARE REFORM INITIATIVE.

(a) LIMITATION.—

(1) IN GENERAL.—The Secretary of Defense may not obligate or expend funds appropriated or otherwise made available to the Department of Defense for purposes of implementing the health care reform initiative of the Department of Defense commonly known as Project Imprint until—

(A) the Secretary completes the study required by subsection (b)(1) and submits the report required by subsection (b)(2); and

(B) a period of 30 days of continuous session of Congress elapses after the Secretary submits such report.

(2) COMPUTATION OF TIME PERIOD.—For purposes of this paragraph, the continuity of a session of Congress is broken only by an adjournment of the Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such 30-day period.

(b) STUDY OF HEALTH CARE ALTERNATIVES.—

(1) IN GENERAL.—The Secretary shall conduct a study of—

(A) methods to guarantee the maintenance of competition among providers of health care to persons under the jurisdiction of the Secretary;

(B) the merits of the use of a voucher system or a fee schedule for provision of health care to such persons;

(C) methods to guarantee that community hospitals are given equal consideration with other health care providers for provision of health care services under contracts with the Department of Defense.

(2) REPORT.—The Secretary shall submit to Congress a report discussing the matters evaluated in the study required by paragraph (1) before the end of the 60-day period beginning on the date of the enactment of this Act.

The CHAIRMAN pro tempore. The gentleman from Wisconsin [Mr. ASPIN] will be recognized for 15 minutes, and the gentleman from Alabama [Mr. DICKINSON] will be recognized for 15 minutes.

Mr. DENNY SMITH. Mr. Chairman, the amendment I offer today, amendment No. 19, would authorize the Air Force to take advantage of a unique opportunity to modify the A-10 close air support fighter.

The Air National Guard, which flies the A-10, has proposed several improvements to the plane's weapons delivery system which would provide a quantum increase in A-10 close air support effectiveness. The proposed modifications are a result of testing, proving, and flying experience on the part of the Guard, and show careful consideration of immediate needs as well as future expandability.

Any upgrade of the A-10 weapons delivery system must affect several improvements in order to make the expenditure worthwhile and cost effective. My amendment establishes modification parameters to guarantee that the upgrade package selected by the Air Force meets the needs outlined by the Air National Guard.

These parameters include: First, a flight control modification to improve stability during gun firing; second, enhancement of target strafing accuracy; third, a capacity for tactical training against moving targets; fourth, an accurate, lateral toss-capable bombing capability; fifth, an effective self-defense against likely air threats; and sixth, an altitude hold, flight path hold autopilot capability.

The Air Force has already tested—TAC Project 85A-035F—and earmarked money for a system which does not meet these basic improvement criteria. To proceed with these present Air Force A-10 modification plans would be shortsighted and wasteful. If this amendment is adopted, it would effectively prohibit the Air Force from making this hasty procurement, while establishing the minimum requirements for an effective furture procurement.

The Air National Guard is preparing to run tests on off-the-shelf systems capable of meeting its baseline criteria for A-10 modernization. These tests demonstrate the Guard's commitment to the concept of side-by-side operational testing that I support. The Guard will continue to use their own statement of need and comparative tests to guide their search for an A-10 improvement, thus assuring that we will buy the best available system.

Let me close by saying that I am encouraged by the thoroughness and foresight of the Guard in pursuing this improvement. They have proceeded with a clear sense of their mission and a realistic vision of the hardware it will take to complete that mission. Their efforts should be supported.

Mr. PANETTA. Mr. Chairman, I am pleased that the House has adopted as a part of this package an important amendment. Amendment No. 39 by myself and Chairman DE LA GARZA, requires the Department of Defense [DOD], when acquiring food products for resale through commissaries located in the United States, to give preference to U.S. companies that use American agricultural commodities in their final food products. My amendment would require the Department to issue guidelines on the implementation of this policy within 60 days of enactment of this act.

I recognize that commissaries are very important to military patrons and are intended to operate similarly to commercial stores. I understand that commissaries now purchase goods primarily from American companies. However, my concern is that American farmers are not benefiting under this policy since an American firm can use foreign commodities in its final products and still get the preference. My amendment would require commissaries located in the United States to alter their purchasing practices to give preference to U.S. companies whose food products use commodities grown in this country.

My amendment is limited to commissaries located in the United States, where the bulk of commissary sales are made; it would not apply to commissaries located in foreign countries. In fiscal year 1985, commissary sales totaled $4.8 billion, $4 billion of which were sold in the United States. Food product purchases accounted for about 75 to 85 percent of total sales.

For specific products, commissaries usually carry "budget" brands and "name" brands. Companies compete at one of these levels to place their products on commissary shelves. My amendment would not end this system. It would require only that commissaries, in determining which products to use for each category, give preference to U.S. companies using American-grown commodities. It is also my intent that the American terminal market system would be utilized for the purchase of specific products that are unavailable in the United States.

American farmers are under severe financial stress, greater than any encountered since the Great Depression. More than one-third of our Nation's commercial-sized family farms continue to experience serious financial problems. Not only are our farmers in for another dismal year, but farm banks are increasingly more vulnerable—as more and more farmers are unable to service their debt. The FDIC reported that net loan losses at agricultural banks nearly tripled over the past 2 years and that about 40 percent of the Nation's problem banks are farm banks. This year, about 70 farm banks are expected to fail—the highest number of failures since the Depression. Communities throughout the Nation are experiencing the effects of this crisis as many are faced with a loss of population and declining property values, tax revenue, and public services.

A combination of a sharp decline in farm exports and a rising flood of agricultural imports is forcing American farmers out of their traditional markets and pushing many farmers into bankruptcy. In May and June, $420 million more in farm products was imported into the United States than exported, the first monthly agricultural trade deficits reported since 1959.

But the steady rise in food imports is not always apparent to the American consumer. Fresh fruits and vegetables rarely carry labels of origin, and frozen and canned foods sold under American labels frequently contain foreign commodities. Lower production costs in Mexico and other Latin American countries have prompted a growing number of American food companies to set up food production facilities abroad and enter into contracts with foreign farmers, according to a recent New York Times article. The text of this article follows my statement.

I am also concerned that the American consumer may be exposed to pesticide residue levels that exceed the stricter standards imposed in this country. The inspection of imported raw commodities and processed food products is far from adequate. In addition, certain pesticides banned for use in this country, such as EDB and DDT, may be used legally on imported food products. All food imports should have to meet the same standards as those required for American-grown products. This would be one step toward restoring fair competition for our American farmers.

These conditions have wreaked havoc with American farmers. In the Salinas area, which is located in my congressional district, seven large farms and food companies closed between April 1985 and February 1986. These closures resulted in the loss of 3,090 jobs.

A recent case in my district illustrates the need for this preference requirement. Shaw's Frozen Foods, a frozen food processing facility, announced this year that it was going to buy raw produce only from American growers. Mr. Shaw explains that he initiated this policy because he was frustrated at buying less and less of his vegetables from local farmers, and more and more from Mexican or Guatemalan farmers. The reason was price. He wanted to support American farmers and help reverse the severe depression in the local farm economy. Mr. Shaw went a step further and set up a non-profit organization to identify and promote the purchase of American-grown farm products. This organization developed a "Save Our Farmers—By American" logo to alert the American consumer to products grown and processed in the United States.

Shaw's Frozen Foods was operating under a purchase agreement with DOD for commissary sales. But, earlier this year, DOD dropped its agreement with Shaw's and instead entered into an agreement with a United States food company that gets most of its raw products from Mexico and Guatemala. It makes no sense at all to penalize American companies that are promoting the products of American farmers.

In conclusion, while I am pleased that DOD now gives preference to American food companies, it does not assure that their products originate with American farmers. The rising flood of imported commodities hurts American farmers and American food processing companies that operate under "buy American-grown" policies, exacerbates U.S. trade deficits, and exposes U.S. consumers to frequently unknown risks from excessive amounts of pesticides.

I recognize the budget constraints faced by all agencies as we work to reduce the Federal deficit. We must work to ensure that each Federal program is targeted to achieve the greatest good for this country. I believe it is in the best interests of this country to extend this "American-grown" preference, and thus reward U.S. companies that assist American farmers.

Mrs. SCHROEDER. Mr. Chairman I rise in support of my amendment, amendment No.

51, to authorize transportation for the dependents and household effects of a member of the uniformed service who receive a punitive discharge, is dismissed from service, or is sentenced to a certain period of confinement, and to authorize a study to report on how much money certain medical and dental benefits would cost for these dependents.

I would like to inform the House that this amendment passed the Senate and is supported by the Senate Armed Services Committee.

This bill corrects a serious problem suffered by a small but significant population—military dependents who have been physically or sexually abused by a member of the military who is then discharged from the service. Military families deserve to know that if their spouse or parent violates the law, they will not be abandoned. This legislation will ensure that such families are able to move back to their homes, where they can resume their lives.

While the Senate bill would provide for certain medical and dental benefits to be provided for the dependents of the military spouse, I only ask in my amendment for a study to look at what type of benefits would be needed.

It does not seem fair to deny benefits to dependents because they have been victimized by the military member. The family member has made personal sacrifices in support of their country. We should not turn our backs on them in their time of need.

Mr. MAVROULES. Mr. Chairman, I rise in support of my amendment to extend the earliest date on which the uniformed services treatment facility [USTF] designation of the former Public Health Service hospitals may be terminated for an additional year—until December 31, 1988.

Unfortunately, the President's fiscal year 1987 budget request contained an ill-advised proposal to terminate the USTF status. The House Armed Services Committee, however, rejected that proposed termination and instead reduced the authorized funding level in order to account for the savings assumed in the budget.

I want to make clear that there is no statutory provision for automatic termination of the USTF status. Section 1252(e) of the Department of Defense Authorization Act, 1984, provides that the Secretary of Defense in an order issued jointly with the Secretary of Health and Human Services may terminate the USTF status of any facility at any time after December 31, 1987; however, both the facility and Congress must be notified 6 months prior to the effective date of the termination. In other words, Congress has 6 months to act to block any attempt by the Department of Defense to terminate the USTF designation of any facility.

The basic concept embodied in the USTF's is sound. They are in tune with the increasing popularity of HMO's [health maintenance organizations] in the private sector. Unlike traditional methods of health care delivery, HMO's emphasize prevention as well as treatment of illness. The USTF's are an important component of the health care capability of the Department of the Defense and are doing an outstanding job of providing top quality service to beneficiaries of the military health care system.

The Department of Defense has raised a number of concerns about cost growth for the USTF Program over the past few years. There is currently not sufficient cost data on which to make a decision on the relative cost of USTF's in comparison to other alternatives like CHAMPUS. By this time next year, however, we should have the results of a Booz-Allen evaluation, as well as an independent review by the General Accounting Office. Based on the results of those studies, the Armed Services Committee can then hold comprehensive hearings and propose any fine tuning to the current statute that may be required to ensure the continued operation of these outstanding facilities on a basis that works to the mutual advantage of the Government, the USTF's, and—most importantly—the beneficiaries seeking care.

Mr. HUTTO. Mr. Chairman, the basic purpose of my amendment, amendment No. 56, is to make permanent the existing prohibition on contracting out the functions of firefighters and security guards at military installations and facilities.

In my view, there is no clearer example than firefighting and base security of an "inherently governmental activity," that should not be contracted out because its responsibilities are so closely related to that of the military commander—to provide for the safety and security of the people and facilities of the military installation. I am firmly convinced that these functions are absolutely essential elements in the ability of the base commanders to both perform and preserve the overall mission of our installations.

Firefighters and security guards are highly trained specialists and have to meet strict standards to perform their duties where highly complex, unique, and dangerous military related facilities and equipment are involved. Contract personnel may not have such specialized training, and lower standards could pose a serious threat to safety and readiness.

Contract firefighters and security guards could strike, whereas Federal employees are not prohibited by law from doing so. A strike at a military installation poses a serious threat to safety, military operations, and readiness.

It would seem to me that in view of the renewed threat of terrorism through the world and here in the United States, that to contract out base functions would be totally inconsistent with our efforts to enhance our counterterrorist programs. This prohibition against contracting out of firefighters and security guards does not, and will not under my amendment, apply to a contract to be carried out at a location outside the United States, including its Commonwealth's terrorities and possessions, at which military personnel would have to be used for the performance of these functions at the expense of unit readiness. The prohibition would not apply to a contract to be carried out at a Government-owned, but privately operated installation, or to a contract, or the renewal of a contract, for the performance of a function under contract on September 24, 1983.

Many of you will recall, that the Congress has twice previously extended a 1982 prohibition on contracting for the performance of firefighting and security functions. My amendment would make this moratorium on the contracting out of firefighters and security functions a permanent prohibition.

In 1983, after consideration of the fiscal year 1984 Defense Authorization bill, Congress approved an amendment whereby funds appropriated to the Defense Department may not be obligated or extended before October 1, 1985, for the purpose of entering into a contract for the performance of firefighting or security guard functions at any military installation or facility. This prohibition was later extended to September 30, 1986.

The prohibition language contained in the 1983 low, Public Law 98-94, which was then extended for another additional year by Public Law 99-145, required the Secretary of Defense to submit to Congress a written report containing an assessment of the special needs of the Defense Department with respect to firefighting and base security and an assessment of how both needs are met by both Federal employees and contract personnel. The reports were to be prepared in consultation with the U.S. Fire Administrator of the Federal Emergency Management Agency [FEMA].

Mr. Chairman, the Defense Department's written reports in response to the 1983 and 1985 requirements fall considerably short of assessing how the special needs of the Department for firefighting and security guards are being met by both Federal employees and contract personnel. The report was accomplished with little or no input from FEMA. The Director of FEMA has indicated on several occasions that a more detailed study should be accomplished, especially the development of valied and detailed standards that should be applied in consideration of the development of the job performance statement for the contractor.

Experience has shown that the Secretary of Defense is not always on top of matters involving contracting out. For several years now, the Secretary of Defense has been unable to identify core logistics functions despite the strong and detailed recommendations of his commanders in the field. Likewise, he may not have the latitude to identify and exempt from contracting out readiness-essential firefighting and security guard functions without statutory guidance.

While I support the basic objectives of cost effectiveness under OMB Circular A-76, I strongly favor the firefighting and security guard functions staying under direct control of the base commander.

In summary, my amendment would prohibit the contracting out of firefighter and security guards at military installations.

Mr. Chairman, this body, back on May 6, 1986, passed the Coast Guard authorization bill, that contained a provision against the contracting out of firefighting functions at U.S. Coast Guard installations and facilities. I believe that this body approved the contracting-out amendment offered by Hon. MARIO BIAGGI, the chairman of the Subcommittee on Merchant Marine, House Committee on Merchant Marine and Fisheries, because of the belief that any contracting out would inhibit the timely performance of Coast Guard missions in behalf of the security, safety, economic, and environmental well-being of the

United States. Clearly, the same concern should be ample justification for prohibiting the contracting out of firefighters and security guards at other military installations and facilities.

With this in mind, I urge support of my amendment.

Mr. ASPIN. Mr. Chairman, I have no requests for time. I urge adoption of the amendments, and I yield back the balance of my time.

Mr. DICKINSON. Mr. Chairman, I have one request. I yield to the distinguished gentlewoman from Connecticut.

PERSONAL EXPLANATION

Mrs. JOHNSON. Mr. Chairman, I was detained off the Hill for rollcall vote No. 322. Had I been here, I would have voted in the affirmative.

Mr. DICKINSON. Mr. Chairman, I have no requests for time, and I yield back the balance of my time.

The CHAIRMAN pro tempore. The question is on the amendments, as modified, offered by the gentleman from Wisconsin [Mr. ASPIN].

The amendments, as modified, were agreed to.

The CHAIRMAN pro tempore. Under the rule amendment No. 20 of the gentleman from Pennsylvania [Mr. MURPHY] is in order. The gentleman from Pennsylvania [Mr. MURPHY] declines to offer the amendment.

AMENDMENT OFFERED BY MR. WEISS

Under the rule, the gentleman from New York [Mr. WEISS] is recognized to offer his amendment.

Mr. WEISS. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. WEISS:

At the end of title I of division A (page 33, after line 17), add the following new section:

SEC. 128. TRIDENT MISSILE PROGRAMS.

(a) PROHIBITIONS ON EXPENDITURES FOR TRIDENT II PROGRAM.—None of the funds appropriated or otherwise made available for procurement of weapons for the Navy for fiscal year 1987 may be obligated or expended for the Trident II missile program.

(b) FUNDS AVAILABLE FOR TRIDENT I PROGRAM.—Of the amount authorized in section 102(b) for weapons (including missiles and torpedoes) for the Navy for fiscal year 1987, $1,429,100,000 is available for the Trident I missile program.

Under the rule, the gentleman from New York [Mr. WEISS] is recognized for 20 minutes, and a Member in opposition will be recognized for 20 minutes. The Chair will recognize the gentleman for Alabama [Mr. DICKINSON] for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. WEISS].

Mr. WEISS. Mr. Chairman, the amendment I am offering will transfer all procurement funds for the Trident II or D-5 missile into an account for continued production of the Trident I or C-4 missile. The amount that would be transferred is $1.4 billion.

The amendment does not affect the Trident submarine program. The amendment does not cut the fiscal year 1987 defense budget. Although it ultimately will save at least $10 billion, the amendment simply offers a choice between the Trident I missile and the Trident II missile.

In the nuclear age, there is only one way to make such a choice. That is to determine which of these two missiles will best deter a nuclear war. And once you look carefully at both of these missiles, the answer is clear: we ought to cancel the Trident II Program and stick with the existing Trident I.

The first eight Trident submarines already carry the Trident I missile. Each of these submarines can attack 192 separate targets with a warhead that has an explosive yield of 100 kilotons. That means that each submarine equipped with Trident I missiles has more explosive power aboard than has been expended in the history of humanity. These missiles can destroy airfields, submarine ports, industrial facilities, governmental centers, and cities. The Trident I offers a secure retaliatory deterrent. It helps to prevent a Soviet nuclear attack.

The Trident II missile, by contrast, is a dangerously destabilizing addition to our nuclear arsenal. With a yield of 475 kilotons and an accuracy of about 400 feet, the Trident II is capable of digging Soviet missiles out of their underground silos. The Navy plans to deploy a force of about 480 such missiles, carrying almost 4,000 warheads. This means that the Trident II will be the first weapon that has the qualitative and quantitative features required to destroy all of the Soviet Union's land-based forces.

The President has stated that the United States does not seek a first-strike capability. But the Soviets will not be satisfied with Presidential pronouncements. They will look at our military capabilities. They will realize that the Trident II gives us a first-strike capability. Their response will be to abopt a policy of launch on warning.

Launching nuclear missiles on warning is extraordinarily dangerous under any circumstances. But it will become even more perilous if we deploy the Trident II. Compared to land-based missiles, which take up to ½ hour to reach their targets, the sea-based Trident II will be able to reach its targets in as little as 15 minutes. This means that the Soviets will have less than 15 minutes to distinguish between a human or computer error and an actual nuclear attack. The risk of accidental nuclear war will be greatly enhanced. And in a time of crisis, the Soviets might even be tempted to launch a preemptive strike. The conclusion is unavoidable: the Trident II will significantly increase the risk of nuclear war and dramatically decrease the security of our Nation.

Further, we must be sensitive to the high cost of this new missile. The Navy currently estimates the cost of the Trident II program at $35 billion. This figure is certain to go higher, because it only includes missiles for 18 of 20 planned submarines. But the Congressional Budget Office has just released an extensive study of the Trident II Program. The study concludes that cancelling the Trident II Program and instead continuing production of the Trident I missile would save the taxpayers between $9.6 billion and $11.3 billion.

The study notes that there would be substantial costs associated with reopening the Trident I production line. We would have to requalify contractors, refurbish and replace tooling, redesign parts and test those new parts. These activities would cost between $3.5 billion and $5.2 billion, according to CBO. But the important fact remains that, even when these costs are taken into account, a decision to cancel the Trident II missile and stick with the Trident I will save between $9.6 billion and $11.3 billion.

In the age of Gramm-Rudman and in the age of declining military budgets, these are figures we cannot afford to ignore. A decision to favor the Trident I over the Trident II will not only enhance our national security, but it will make a dramatic contribution to our current deficit reduction efforts.

Now is the time to demonstrate our concern about the Trident II Program. This is the first year that we are actually procuring Trident II missiles. Next year, we will begin the first flight tests. And in 1989, we will begin to deploy Trident II missiles. So this is the appropriate moment to redirect our policy and to take advantage of the $10 billion in cost savings that will accrue from that change.

It is instructive to pause for a moment and think about why the Trident II missiles has escaped extensive criticism in Congress. After all, it is strikingly similar to another weapon which remained in the spotlight for years and was eventually capped by Congress: the MX missile. Like the MX, the Trident II has high explosive yield and pinpoint accuracy. Like the MX, it will give us the capacity to destroy hardened targets in the Soviet Union.

But lawmakers have pointed to vulnerability as a key difference between the MX and the Trident II. The MX is unpopular because it is a sitting duck in fixed silos. But the Trident II has managed consistent support because the submarine leg of the triad is viewed as invulnerable.

There can be no doubt: it is important for Congress to support invulner-

able weapons. Our submarine weapons are not threatened by the Soviet Union and therefore contribute to deterrence. But there is simply no good reason to place destabilizing Trident II missiles aboard those submarines when we have a perfectly secure retaliatory weapon in the Trident I. The Trident I is a formidable weapon. It is extremely powerful. It has the same range as the Trident II. In fact, it can do absolutely everything that the Trident II can do, except destroy hardened targets.

So I urge all of my colleagues to support an invulnerable weapon. Support the Trident I. But do not go along with the Navy in its headlong rush for a first-strike capability. The Trident II is every bit as destabilizing as the MX and more so, because the size of the envisioned force is much larger and the missiles can reach the Soviet Union much more quickly. If it is deployed, it will lead us down the path toward a nuclear confrontation.

On the other hand, sticking with the Trident I will enhance the security of our Nation and provide a bonanza of $10 billion to the Treasury. I urge my colleagues to make the right choice. Eliminate the Trident II. Stick with the Trident I. Vote for this amendment.

□ 2145

Mr. DICKINSON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in opposition to this amendment, because what we are doing here would undo the work of many years of the committee.

I think everyone agrees that if we have a secure deterrent in the theater or in an international nuclear exchange, it is in our Trident submarine force.

Mr. BENNETT and others who have very grave misgivings about the efficacy of the MX agree, and there is very little disagreement, if any, that this is the most secure and the most formidable leg of the triad.

What this amendment would propose to do is to say we have spent several billions of dollars to produce these weapons systems. It is stealthy and it cannot be located. By giving it this extra hard-target kill capability, it is more of a threat than a deterrent than ever.

Now what the author of the amendment would do is to say, well it is fine to build the Trident submarine, but do not put our newest missiles in them, and make them use the missiles that are 20 years older in technology.

I think it makes no sense. I would certainly hope that the Members of this body will recognize it for what it is, a back-door attempt to do away with our nuclear capability at sea, and would vote "no" when the opportunity arises.

Mr. Chairman, I reserve the balance of my time.

Mr. WEISS. Mr. Chairman, may I inquire of the Chair how much time I have remaining?

The CHAIRMAN pro tempore (Mr. GRAY of Illinois). The gentleman from New York [Mr. WEISS] has 13 minutes remaining.

Mr. WEISS. Mr. Chairman, I yield 3 minutes to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Chairman, I think it is significant that in a recent Atlantic Monthly article, former Defense Secretary Robert McNamara, along with George Kennan and McGeorge Bundy, recommended the elimination of the Trident II or D-5 Program because of the inherent dangers of developing a first-strike capability.

I think it is time we started looking at how our policy of building ever more accurate nuclear weapons may affect our strategic balance of power.

I believe the Weiss amendment works to preserve the delicate nuclear balance that now exists between the United States and the Soviet Union, and it will save billions of dollars.

There are two very important advantages to Mr. WEISS' proposal. First, there is the question of whether or not we are buying more national security by investing in the Trident II. I think we are not. The second question is one of cost. As we just learned, the deficit picture is worse than ever. The pressure to reduce that deficit by cutting spending remains a compelling issue of our legislative agenda. The amendment before us give us the opportunity to reduce some of that fiscal pressure without hurting our national security.

Let me address myself first to the issue of national security and deterrence. As I stated a year ago during the debate on this issue, I am extremely concerned about the accuracy of this weapon. That may sound odd to be going against accuracy, for as military reformers, accuracy and reliability are qualities we demand in our conventional weapons. But in the nuclear arena, there may be a potentially deadly trade-off for accuracy. That is the instability such accuracy engenders. It increases the threat to the Soviets that they will be incapable of defending themselves against a first-strike.

We must believe our President when he tells us that the United States does not seek a first-strike capability. Nevertheless, we are dealing with the very inexact science of psychology. The problem is what the potential recipient of our weapons believes. I share the concern of my colleague that if the Soviets perceive we are capable of striking first, in a crisis, they may launch first and ask questions later.

Producing more Trident I's will provide us with a credible, retaliatory force, without the destabilizing effects of the Trident II.

The Congressional Budget Office estimates a savings of about $10 billion over the life of the program.

Mr. Chairman, let us support this amendment in the interest of national security, fiscal responsibility and world peace.

□ 2155

Mr. DICKINSON. Mr. Chairman, I yield 2 minutes to the gentleman from Missouri [Mr. SKELTON].

Mr. SKELTON. I thank the gentleman for yielding me this time.

Mr. Chairman, because of the lateness of the hour I will not use but just a few moments. The argument against this particular missile is that it is too good and that it is too accurate. Plus the fact of should it be stricken and should this amendment carry it would end up costing us in the neighborhood of some $2 billion because of the expense and because what we have already invested in it.

I do not doubt the sincerity of the gentleman from New York nor the gentlewoman from California, and I understand their concern. But you know in making and preparing and working on any weapons system, whether it be a rifle or whatever it may be, for instance, we do not make rifles to shoot in a crooked direction. We make them to be accurate, and that is what this weapons system is.

It is a system that will cause the Soviets to come to the bargining table. It is one that will cause the Soviets to understand that we mean business, and that they can come and talk with us because it does stand for a strong deterrence. Strong should be the case with retaliatory capability. It is something that we must keep, and I do respectfully oppose the amendment of the gentleman from New York.

Mr. WEISS. Mr. Chairman, I yield 3 minutes to the gentleman from Ohio [Mr. FEIGHAN].

Mr. FEIGHAN. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the amendment offered by the gentleman from New York, Mr. WEISS.

And I think it's appropriate as we consider this important amendment to recall the words of the moving force behind this Nation's submarine program—Admiral Hyman Rickover. In one of his final appearances before Congress, he called the nuclear arsenal that he had helped to create a "necessary evil." But he added that we could not continue on the path we had set of adding ever more—and ever more powerful—weapons to that arsenal. If this didn't stop, he warned, "the human race is going to wreck itself * * *. It's important that we get control of this horrible force and try to eliminate it."

None of us need be reminded of the inherent evil of nuclear weapons. And we also know that they are necessary, that in an imperfect world an armed peace is the only possible peace, that deterrence is a fact of life. Until we can create a world free forever from the threat of nuclear war, a nuclear peace based on secure, second-strike and survivable deterrent forces is our only choice.

That is why so many of us who support a nuclear freeze, who support a comprehensive test ban, who support "no-first-use", also support the Trident submarine force. These strong, speedy and silent boats present the most certain obstacle to any Soviet plans for a lightening strike attack against our Nation. They are the most invulnerable leg of our strategic triad, and they deserve our support.

What we must not support—and what the amendment offered by the gentleman from New York seeks to prevent—is the attempt to turn this deterrent force into a destroyer force, a first-strike force.

But first-strike is what the D-5 missile is all about. It transforms the most secure and stabilizing weapon in our strategic arsenal into a dangerous and destructive threat that will increase the threat of war just as it increases the Federal deficit. Both are costs we cannot well afford.

Make no mistake about it: replacing the C-4 with the D-5 is not simply a matter of "modernizing" our submarine force. The D-5 is a silo-buster. It's far more accurate and five times more explosive than the C-4. It's designed to strike Soviet missiles before they ever leave their silos, and it will be deployed in such large numbers that we will have the ability to destroy nearly all land-based Soviet missiles—the keystone of their deterrent forces—with less than 15 minutes warning.

Faced with this new danger—on top of the one already posed by our MX missile force—the Soviets will have no choice but to adopt a launch on warning policy. That means the risks of nuclear war by accident, or miscalculation, or simple fear, will skyrocket. MX plus D-5 is double jeopardy.

And if the D-5 is bad for defense, it's even worse for our federal deficit. The D-5 Program is the most expensive nuclear weapon system that our Nation has ever produced—bar none. The current defense plan calls for an outlay of nearly $35 billion, but that figure doesn't include missiles for all of the submarines planned. When you add those in, the cost climbs to at least $50 billion. And we haven't even begun to consider the inevitable overruns, delays and hidden costs.

Cancelling the D-5, while continuing production of the C-4, is safe defense policy and sound fiscal policy. The C-4 gives us the best of both worlds: the stability that comes with a secure, second-strike submarine force, and the savings that flow from stopping a new weapons system before it develops a life of its own.

Listening to the arguments on the other side of the aisle, one would think that we were arguing for unilateral disarmament, that we were proposing to send our Tridents to sea with empty silos. That's nonsense. The C-4 is a solid missile, a proven missile, and it has a range equivalent to that of the D-5. Deploying the C-4 in place of the D-5 does not, therefore, imply a decrease in survivability, which means that there will be no decrease in strategic stability.

But there will be a decrease in our Federal deficit—and this must be emphasized. The Congressional Budget Office estimates that canceling the D-5, and building more C-4's in its place—will save approximately $10 billion.

Mr. Chairman, the case for the C-4 is clear and compelling. It is relatively safe. It is relatively stabilizing. It is relatively cost effective. As Admiral Rickover reminded us, nuclear weapons are by now a necessary evil. But there is no need to compound our past mistakes with ever more powerful missiles. It's important for us to get control of this horrible force. It's important for us to pass this amendment.

Mr. MARKEY. Mr. Chairman, will the gentleman yield?

Mr. FEIGHAN. I yield to the gentleman from Massachusetts.

Mr. MARKEY. I thank the gentleman for yielding me this time and rise in support of the amendment.

I agree with the distinguished gentlemen from New York that our Nation would be far better off if it did not deploy the D-5 missile, and kept the C-4 production line open.

I suspect that many of my colleagues have voted against efforts to cancel the D-5 in the past, not because they wanted the United States to have a first-strike capability, but because they thought the D-5 would have a longer-range and thus make our subs more survivable.

That was the Pentagon's original justification for the D-5. Its old argument in favor of a longer range missile was very simple. With a longer range missile, our subs could patrol a much wider area of the ocean while still remaining ready to fire their missiles. The Soviets would have a much harder time trying to find and destroy these subs, and the survivability of our sea-based deterrent would be assured.

If you voted for the D-5 based on this understanding of the missile's capabilities, I have some bad news for you: The Pentagon has played a bait and switch game with the Trident II missile. You may have paid for increased survivability, but what you have gotten for your money is a killer.

A few years ago, the Pentagon decided to use the D-5 to dig Soviet missiles out of their silos. They were now going to deploy it with a new, and much more powerful warhead.

This warhead is reported to have a yield of up to 475 kilotons—some 34 times as powerful as the Hiroshima bomb. In contrast, the Trident I missile has a warhead with a reported yield of about 100 kilotons.

The combination of this new high-yield warhead and the improved accuracy of the D-5 makes it a silo buster.

But this same combination also reduces the maximum range of the D-5. Since the high-yield new warhead is much heavier, the D-5's range will be about the same as that of the existing C-4 missile—about 4,000 miles according to Vice Admiral Thunman, the Navy's Deputy Chief of Naval Operations for Submarine Warfare.

As direct result of the Pentagon's decision to build a Silo-busting D-5, we have ended up with a missile that will have the same range and survivability as its predecessor.

All that we have gotten for our money is a missile whose chief capability runs against the grain of our policy never to launch a disarming first strike against the Soviet Union.

Some may ask, what's wrong with having the capability to dig Soviet missiles out of their silos, even if we never intend to use it? Wouldn't threatening to do so stop the Soviets from ever trying to attack us?

There is a fundamental flaw in this argument. In a crisis, the Soviets aren't going to depend on our peacetime promises—they are going to look at our capabilities. When they see that the D-5 can kill their land-based missiles, they are going to be under tremendous pressure to launch them first.

We all know that there is no point in destroying empty Soviet silos. Why then are we giving the Soviets an incentive to launch their missiles quickly during a crisis?

We have to ask ourselves, do we really want to spend some $9.6 to $11.3 billion more for a D-5 missile with a highly destabilizing first-strike capability? Are we really looking for a survivable retaliatory weapon?

If you support a silo buster, vote for the D-5 missile. But you should realize what it is you are supporting. The D-5 is not a longer range missile. It is not more survivable. It is a hard-target killer.

If you are looking for a secure retaliatory capability, you should vote against the D-5, and in favor of continuing the Trident I missile production line.

Mr. DICKINSON. Mr. Chairman, I yield 2 minutes to the gentleman from Georgia [Mr. RAY].

Mr. RAY. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to the Weiss amendment. If we have a success story in our military arsenal, it is in our unfailing reliability of our submarine fleet, better known as Admiral Rickover's Black Submarines.

Mr. Chairman, the Tridents are sea based, they do not draw fire on the U.S. proper or require the Soviets to have more strategic nuclear missiles to neutralize them. Because they are survivable sea nucleared ballistic missiles [SLBM's] do not present the U.S. decisionmaker with a "use-them or lose-them" choice in a crisis. The retaliato-

ry capability inherent in SLBM's such as the D-5 assures the United States that we can inflict damage unacceptable to an adversary even after being subjected to attack.

The D-5 missile will contribute to enhanced stability because any enemy planning a preemptive attack will know that the D-5 missile can hold at risk the full range of targets. This means that the Soviets have less incentive and less to gain by a preemptive strike against our land-based ICBM's or our cruise missile carrying bombers. In effect, the survivability of the D-5, a hard-target capable weapon, increases stability and the security of the land-based legs of the triad by removing incentives to attack these forces.

Without the Trident II D-5 missile, a stabilizing deterrent force would be much harder to achieve. Continued modernization of the sea-based leg of the U.S. strategic triad with a deployed D-5 capability must continue.

I urge the defeat of the Weiss amendment.

Mr. WEISS. Mr. Chairman, I yield 1 minute to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. I thank the gentleman for yielding me this time.

Mr. Chairman, I think we might find it interesting to get a slightly different perspective on this issue, one given by Gen. Brent Scowcroft, formerly National Security Adviser to President Ford. At a luncheon last week, here is what he had to say about the D-5. He said:

> It's never likely to be able to do the job it was intended to do.
>
> I am not so worried about the D-5's accuracy; but I have grave doubts that the communications can ever be such that the D-5 can replace the ICBM as the weapon which could be able to attack Soviet silos * * *. Submarines now are our secure reserves. If you want to use them to attack missile silos, you have a real two-way communication problem: submarine commanders simply won't be able to respond, won't be able to manage the battle.
>
> My real problem is with the Trident Submarine itself. It's too big. Any time you put 200 warheads in the same place, you give the Soviet Union a terrible incentive in a time of crisis to go after them.

So much for one of our outstanding military thinkers who would agree with the gentleman that we are much better putting our emphasis on the traditional Trident I.

Mr. WEISS. Mr. Chairman, I yield 4 minutes to the gentleman from California [Mr. DELLUMS].

Mr. DELLUMS. I thank the gentleman for yielding me this time.

Mr. Chairman, I might preface my remarks by pointing out that I think it is a great tragedy that we are debating this particular issue at this time of night. This is a terribly important and vital question that should be dealt with with great seriousness.

Having said that, I would like to make three points.

□ 2205

One of the opponents of this amendment stated that we do not purchase rifles that do not shoot straight. I understand that; but Mr. Chairman, we are not talking about nuclear weaponry with the capacity to destroy all life on this planet and it defies logic, Mr. Chairman, to try to associate a straight-shooting rifle with a silo-busting nuclear weapon that has that enormous capacity to kill. We are talking about something much more important here.

Second, the opponents point out that this is a bargaining chip to pressure the Soviet Union to the table. We have been down this road before, Mr. Chairman, on the MX missile, a multibillion-dollar program, and on many other multibillion-dollar programs. Here is the next bargaining chip, a $10 billion bargaining chip; but I would assert, Mr. Chairman, that a bargaining chip ceases to be a bargaining chip when you deploy it. We are talking about deploying $10 billion worth of very deadly weapons.

Finally, this amendment points up the great tragedy of how we even bring the military authorization bill to the floor. The great promise in this Congress was that we would debate national policy, that we would talk about where we go with respect to the issue of nuclear weapons, what policy would guide us through this frightening and dangerous era, but we have not debated policy here. We engage in fragmented discussions of weapons systems.

Even some of my liberal colleagues on this side of the aisle say, "Ron, I can only go against one weapons system at a time," because our brains cannot comprehend policy.

What American people understand is that only a psychotic mind believes that we can actually fight a nuclear war, which leads me to this point, Mr. Chairman. One of the policy assumptions that in my estimation is falacious that this administration has built the most unprecedented escalation in armaments in our lifetime is based on the notion that we must move beyond the concept of nuclear deterrence to the concept of nuclear war fighting.

Who can fight a nuclear war? Scientists have pointed out that all we are going to do is destroy life. So what is our flimsy argument here for a very dangerous first-strike nuclear weapon? It is that we have a new submarine. We want to put new missiles on it. We want it to fire straight, but we have not thought through logically and intelligently and cogently what does this do with respect to endangering life on this planet.

I would argue, Mr. Chairman, that the gentleman from New York has done us a great service by bringing this amendment to the floor, but at 10 o'clock at night when we are all chatting with each other, and I make no moral judgment because I chat, too, at 10 o'clock at night; but the point is that this is not an amendment upon which we ought to be chatting. This is an amendment that may determine the future for our children and our children's children.

This amendment is extremely important. It is not just some procurement that we wipe off. We have had a few of them tonight. Whose ox is gored, this corporation or that corporation, is it built in this State or that State? But that is not what this amendment is about.

I would say to my colleagues that it is not a rifle. It is not a bargaining chip. It is a weapons system that will take us down the road toward nuclear disaster.

I would argue and I would plead, Mr. Chairman, that my colleagues listen carefully to this amendment and understand the enormous and frightening and dangerous implications. Join my colleague, beat back the notion that we must move beyond deterrence to war-fighting capability and bring peace to our children and our children's children.

Mr. WEISS. Mr. Chairman, I am pleased to yield 1 minute to our distinguished friend, the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Chairman, I rise as one who strongly supports the Trident submarine program as a necessary addition to our Nation's military strength and defense capabilities, but you do not necessarily have to go out and buy a brandnew missile system to go in this new submarine. We have the Trident I missile, which has served us efficiently and effectively and can continue to provide the kind of deterrent force that we need. The expense of the D-5 for the Trident II submarine cannot be justified. On strategic grounds, it cannot be justified.

This amendment is well-crafted. It tells us that while we go forward with the Trident submarine, it is a wiser investment to redirect those funds to the production of additional Trident I missiles, rather than spending them on a new and unnecessary Trident II missile.

Mr. Chairman, I support the amendment and urge its adoption.

Mr. DICKINSON. Mr. Chairman, if I might, I would like to speak briefly in closing.

The CHAIRMAN pro tempore. (Mr. GRAY of Illinois). Without objection, the gentleman from Alabama [Mr. DICKINSON] is recognized, since he yielded back his time.

There was no objection.

Mr. DICKINSON. Mr. Chairman, let me try to put this very briefly in perspective, if I might.

We have now underway or under construction 13 Trident submarines. Of these, eight are built to use the C-4 missile. The others that are under construction are built and are being built to use the D-5 missile.

Now, those are at sea that have already been built or about to be completed with the building that are using the C-4 cannot use the D-5 and the five that are already being built to accommodate the D-5 cannot use the older missiles. It would cost billions of dollars to go back and try to retrofit those already at sea, and there is no intention to do this.

So we have built a weapons system that will accommodate the C-4 up to a point. Since then, we have started building and our building five more that will accommodate a new missile system that will not fit into the old ones that are at sea.

What is the difference? I can only say this, and this is from the Department of Defense and I think it is unrefuted. The new missile system, the D-5, which the gentleman would like to deny to the submarines that are presently being built, but cannot use the old system, which means they would be useless unless we retrofitted them, the D-5 would be twice as accurate as the C-4. The D-5 will have four times more warhead yield than the C-4. It will have 50 percent more payload capability and will provide a durable and survivable hard target kill capability that the C-4 does not have.

So really, it is ridiculous to spend the money that we are spending, over a billion dollars per Trident, to give it a standoff capability, a deterrent capability with increased accuracy against a hardened target, and say, well, we have got the best going, but we are not going to give you the best missile. Use the old missile, whose technology is about 20 years old.

So it really makes no sense to build a new submarine and say use 20-year-old technology, when we are already underway building a new one.

I would hope that the Members would vote no on the amendment, and let us go home.

Mr. WEISS. Mr. Chairman, with all the cost factored in for restarting the production line of the Trident I for retrofitting, you would still save $10 billion. Now, there are a lot of people around here apparently who think $10 billion is not a lot of money, but as you start seeing military programs being cut back, I would think you would appreciate how much money that is.

The Trident I can do everything that the Trident II can do, except that it cannot kill hardened silos. That is the only thing it cannot do.

One submarine today with 192 Trident missiles and warheads can destroy more than all the prior war power and military explosive power the world has ever seen.

Save money, save the future, vote for this amendment for the Trident I.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from New York [Mr. WEISS].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. WEISS. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 94, noes 306, not voting, 31 as follows:

□ 2230

The Clerk announced the following pair:

On this vote:

Mr. LaFalce for, with Mr. Darden against.

Mr. YATRON changed his vote from "aye" to "no."

Messrs. FRANK, BEDELL, and FOGLIETTA changed their votes from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mr. DYSON. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. STALLINGS] having assumed the chair, Mr. GRAY of Illinois, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 4428) to authorize appropriations for fiscal year 1987 for the Armed Forces for procurement, for research, development, test, and evaluation, for operation and maintenance, and for working capital funds, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, had come to no resolution therein.

## FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate insists upon its amendment to the bill (H.R. 4151) "An act to provide enhanced diplomatic security and combat international terrorism, and for other purpose," disagreed to by the House agrees to the conference asked by the House on the disagreeing votes of the two Houses thereon, and appoints Mr. LUGAR, Mr. HELMS, Mr. MATHIAS, Mrs. KASSEBAUM, Mr. PELL, Mr. BIDEN, and Mr. SARBANES. For consideration of sections 702, 703, 711, 713, and 714 of the Senate amendment, Mr. GRASSLEY, Mr. DENTON, Mr. SPECTER, Mr. DECONCINI, and Mr. LEAHY. For the consideration of section 702, of the Senate amendment, Mr. MATHIAS and Mr. EAGLETON. For the consideration of sections 706 and 707 of the Senate amendment, Mr. DANFORTH and Mr. HOLLINGS to be the conferees on the part of the Senate.

## REGULATING THE MANUFACTURE, IMPORTATION AND SALE OF ARMOR-PIERCING AMMUNITION

Mr. HUGHES. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3132) to amend chapter 44, of title 18, United States Code, to regulate the manufacture, importation, and sale of armor-piercing ammunition, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment and the House amendment to the Senate amendment as follows:

Senate amendment: Strike out all after the enactng clause and insert:

That section 921(a)(17) of title 18 of the United States Code is redesignated as section 921(a)(17)(A), and a new subparagraph (B) is added to section 921(a)(17) to read as follows:

"(B) The term 'armor-piercing ammunition' means solid projectiles or projectile cores constructed from tungsten alloys, steel, iron, brass, bronze, beryllium copper, or depleted uranium which may be used in a handgun. The term shall not include shotgun shot required by Federal or State environmental or game regulations for hunting purposes, frangible projectiles designed for target shooting or any projectile which the Secretary finds is primarily intended to be used for sporting purposes. The term shall not include any other projectiles or projectile cores which the Secretary finds are intended to be used for industrial purposes, including, but not limited to, charges used in oil and gas well perforating devices. The term 'solid' in the first sentence of this subparagraph means made entirely from one or more of the substances specified therein, but may include the presence of trace elements of other substances.".

SEC. 2. Section 922(a) of title 18 of the United States Code is amended—

(a) by striking out "and" at the end of paragraph (5);

(b) striking out the period at the end of paragraph (6) and inserting in lieu thereof a semicolon; and

(c) by adding after paragraph (6) the following:

"(7) for any person to manufacture or import armor-piercing ammunition, except that this paragraph shall not apply to—

"(A) the manufacture or importation of such ammunition for the use of the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof;

"(B) the manufacture of such ammunition for the purpose of exportation; and

"(C) any manufacture or importation for the purposes of testing or experimentation authorized by the Secretary; and

"(8) for any manufacturer or importer to sell or deliver armor-piercing ammunition, except that this paragraph shall not apply to—

"(A) the sale or delivery by a manufacturer or importer of such ammunition for use of the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof;

"(B) the sale or delivery by a manufacturer or importer of such ammunition for the purpose of exportation;

"(C) the sale or delivery by a manufacturer or importer of such ammunition for the purposes of testing or experimenting authorized by the Secretary.".

SEC. 3. Subparagraph (A) of section 923(a)(1) of title 18 of the United States Code is amended to read as follows:

"(A) of destructive devices, ammunition for destructive devices or armor-piercing ammunition, a fee of $1,000 per year;".

SEC. 4. Subparagraph (C) of section 923(a)(1) of title 18 of the United States Code is amended to read as follows:

"(C) of ammunition for firearms, other than ammunition for destructive devices or armor-piercing ammunition, a fee of $10 per year.".

SEC. 5. Subparagraphs (A) and (B) of section 923(a)(2) of title 18 of the United States Code are amended to read as follows:

"(A) of destructive devices, ammunition for destructive devices or armor-piercing ammunition, a fee of $1,000 per year; or

"(B) of firearms other than destructive devices or ammunition for firearms other than destructive devices, or ammunition other than armor-piercing ammunition, a fee of $50 per year.".

SEC. 6. The first sentence of section 923(e) of title 18, United States Code, is amended by striking out "under this section" and all that follows through the end of the sentence and inserting in lieu thereof the following: "under this section, if the holder of such license—

"(1) being a licensed dealer, willfully transfers armor-piercing ammunition manufactured or imported after the effective date of this section; or

"(2) violates any provision of this chapter or any rule or regulation prescribed by the Secretary under this chapter,".

SEC. 7. Section 923 of title 18, United States Code, is amended by adding at the end thereof the following:

"(k) Licensed importers and licensed manufacturers shall mark all armor-piercing projectiles and packages containing such projectiles for distribution in the manner prescribed by the Secretary by regulation. The Secretary shall furnish information to each dealer licensed under this chapter defining which projectiles are considered armor-piercing ammunition as defined in section 921(a)(17)(B).".

SEC. 8. Section 929 of title 18 of the United States Code is amended to read as follows:

"Whoever, during and in relation to the commission of a crime of violence, which may be prosecuted in a court of the United States, including a crime of violence which provides for an enhanced punishment if committed by the use of a deadly or dangerous weapon or device, uses or carries a firearm and is in possession of armor-piercing ammunition capable of being fired in that firearm shall, in addition to the punishment provided for the commission of such crime of violence, be sentenced to a term of imprisonment for not less than 5 years. Notwithstanding any other provision of law, the court shall not suspend the sentence of any person convicted of a violation of this subsection, nor place the person on probation, nor shall the terms of imprisonment run concurrently with any other terms of imprisonment, including that imposed for the crime in which the armor-piercing ammunition was used or possessed. No person sentenced under this subsection shall be eligible for parole during the term of imprisonment imposed herein.".

SEC. 9. The amendments made by this Act shall take effect on the date of enactment of this Act, except that sections 3, 4, and 5 shall take effect on the first day of the first day of the first calendar month which begins more than ninety days after the date of the enactment of this Act.

SEC. 10. For purposes of section 921(a)(17)(B) of title 18, United States Code, as added by the first section of this Act, "handgun" means any firearm including a pistol or revolver designed to be fired by the use of a single hand. The term also includes any combination of parts from which a handgun can be assembled.

House amendment to Senate amendment:

In the first section of the matter proposed to be inserted by the Senate amendment to H.R. 3132, strike out "The term 'armor' "

and all that follows through "elements of other substances." and insert in lieu thereof "The term 'armor piercing ammunition' means a projectile or projectile core which may be used in a handgun and which is constructed entirely (excluding the presence of traces of other substances) from one or a combination of tungsten alloys, steel, iron, brass, bronze, beryllium copper, or depleted uranium. Such term does not include shotgun shot required by Federal or State environmental or game regulations for hunting purposes, a frangible projectile designed for target shooting, a projectile which the Secretary finds is primarily intended to be used for sporting purposes, or any other projectile or projectile core which the Secretary finds is intended to be used for industrial purposes, including a charge used in an oil and gas well perforating device.".

In section 6 of the matter proposed to be inserted by the Senate amendment to H.R. 3132, strike out "The first sentence" and all that follows through the end of such section 6, and insert in lieu thereof the following: Section 923(e) of title 18, United States Code, is amended by inserting after the first sentence the following: "The Secretary may, after notice and opportunity for hearing, revoke the license of a dealer who willfully transfers armor piercing ammunition.".

In section 8 of the matter proposed to be inserted by the Senate amendment to H.R. 3132, strike out "amended to read" and all that follows through "Notwithstanding", and insert in lieu thereof the following: amended—

(1) in subsection (a)—

(A) by striking out "violence including" and inserting "violence (including" in lieu thereof;

(B) by striking out "device for" and inserting "device) for" in lieu thereof;

(C) by striking out "uses or carries any handgun" and all that follows through "subsection (b)" and inserting in lieu thereof "uses or carries a firearm and is in possession of armor piercing ammunition capable of being fired in that firearm";

(D) by striking out "nor more than ten"; and

(E) by striking out the last two sentences; and

(2) so that subsection (b) reads as follows: "(b) Notwithstanding

In section 8 of the matter proposed to be inserted by the Senate amendment to H.R. 3132, strike out "subsection" each place it appears and insert "section" in lieu thereof.

In the matter proposed to be inserted by the Senate amendment to H.R. 3132, strike out "armor-piercing" each place it appears and insert "armor piercing" in lieu thereof.

Mr. HUGHES (during the reading). Mr. Speaker, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. MCCOLLUM. Mr. Speaker, reserving the right to object, I do not object, but I would like to point out this is an excellent bill. It is now to the point where it is ready to go to conference, and I am very pleased to join with the distinguished gentleman from New Jersey, chairman of the subcommittee, in this unanimous-consent request.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3132

Mr. HUGHES. Mr. Speaker, I ask unanimous consent that the House insist on its amendment to the Senate amendment, and request a conference with the Senate thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey? The Chair hears none and, without objection, appoints the following conferees: Messrs. RODINO, HUGHES, MAZZOLI, MORRISON of Connecticut, FEIGHAN, SMITH of Florida, STAGGERS, FISH, MCCOLLUM, LUNGREN, SHAW, and GEKAS.

There was no objection.

## PERMISSION FOR COMMITTEE ON THE JUDICIARY TO SIT ON WEDNESDAY, AUGUST 13, 1986, DURING THE 5-MINUTE RULE

Mr. HUGHES. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be permitted to sit on Wednesday, August 13, 1986, while the House is reading for amendment under the 5-minute rule.

The purpose of this request is to mark up some major drug legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

## REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 4972

Mr. KOLTER. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 4972.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

## NATIONAL WEEK OF THE AMERICAN TAXPAYER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. PANETTA] is recognized for 5 minutes.

Mr. PANETTA. Mr. Speaker, I am introducing today a resolution authorizing the President to designate the week of April 12–18, 1987, as "National Week of the American Taxpayer."

This, of course, is the week in which April 15 falls, which is the time by which most Americans are required to file their income tax returns. It is an appropriate time to pay recognition to the American taxpayer, on whose shoulders rests the burden of paying for Goverment and on whose hard work the vitality and security of this Nation depend.

It is estimated that the taxpayers of this Nation will pay more than $1.258 trillion during 1986 in Federal, State, and local taxes. This is some 30 percent of our entire gross national product. Clearly, the costs of Government at all levels have combined to impose an enormous weight on the American people.

What makes this tax burden particularly onerous to so many people is the perception that it falls disproportionately on those who are least able to afford it—middle- and low-income taxpayers. The tax reform effort which is nearing a conclusion here in Congress is a response to the unfairness and irrationality of our current Tax Code. Taxpayers do not feel burdened just because of the amount of taxes they pay. They resent the fact that some taxpayers, particularly wealthy and corporate taxpayers, are able to exploit loopholes in the Tax Code to avoid paying their fair share of taxes. Of course, the average taxpayer who cannot take advantage of special tax provisions must make up the difference.

And still, despite the unfairness and despite the level of taxation, the Federal Government each year falls $200 billion short of paying its bills.

Mr. Speaker, this resolution will not reform the Tax Code. Nor will it ease the tax burden in this country. But I do believe it will let the American taxpayer know that Congress and the entire Federal Government recognize there would be no government without his and her hard work and sacrifice. I hope my colleagues will join me in sponsoring this resolution.

Following is the text of my resolution:

H.J. RES. 703

Joint resolution to authorize and request the President to designate the week beginning April 12, 1987, as "National Week of the American Taxpayer"

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the President of the United States is authorized and requested to issue a proclamation designating the week beginning April 12, 1987, as "National Week of the American Taxpayer" and calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

## THE FEDERAL EMPLOYEES GROUP LIFE INSURANCE ACT OF 1986

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. BARNES] is recognized for 5 minutes.

Mr. BARNES. Mr. Speaker, on August 8, I introduced H.R. 5364, the Federal Employees Group Life Insurance Act of 1986.

Earlier this year, Congressman VIC FAZIO and I asked the General Accounting Office to compare the FEGLI Program to life insurance programs offered by private companies. As we expected, the GAO confirmed that FEGLI benefits did not measure up to what private sector employees receive.

The typical private basic life insurance plan provides coverage equal to double an employee's salary. The private employer normally pays all premiums. In contrast the Federal Government's basic employee life insurance requires employees to pay for two-thirds of

premiums and coverage equals double the employee's salary only if the employee is under the age of 35. Employees age 45 or older may purchase basic coverage equal to their basic salary plus $2,000. Those employees between the ages of 35 and 45 may purchase coverage equal to basic salary plus one-tenth of 1 percent of salary for each year they are under age 45.

The GAO strongly recommended that Congress take steps to return the FEGLI Program to parity with the private sector. Their report also suggested that, in the event that Congress could not enact legislation requiring the Government to pay all premium costs, other measures, without cost, could enable the Office of Personnel Management [OPM] to reduce premiums.

We have incorporated the GAO's recommendations in our bill as follows:

By doubling the basic life insurance amount for all employees over the next 5 years by equal increments each year; by continuing such additional coverage after retirement and limiting the overall amount by which retirees' coverage may be reduced after age 65; by requiring the investment of FEGLI funds in special securities also used by the Civil Service Retirement System; and by requiring the Government to amortize the fund's existing unfunded liability over a period of 100 years.

The GAO has also recommended that OPM reduce premiums by 7.5 percent by using actuarial assumptions consistent with those currently used by the Civil Service Retirement Program. I was very pleased to learn that OPM, on its own initiative, made this change. However, clearly, we must do a good deal more to realize our goal of comparability in the area of life insurance. This bill takes us most of the way toward that goal.

In recent memory, Congress has found it nearly impossible to enhance Federal employee benefits. As we well know, limitations on Federal pay have made a shambles of the Federal pay comparability system. Fiscal concerns have limited Congress' ability to repair the pay comparability system. In the case of life insurance, however, we find ourselves in a position to expand benefits in a way that actually helps reduce the deficit.

Modest additional premiums needed to purchase additional coverage will come directly from agency appropriations for salaries and expenses. The GAO assures us that the amounts involved will not threaten jobs by adding strains to already limited agency budgets. We offset the small amount needed to amortize the program's unfunded liability with additional contributions from the Postal Service. Since such contributions will come from an off-budget entity, the Postal Service, we actually enhance revenues.

The bill describes the coverage we add as a "supplemental" basic benefit. It would piggyback the supplemental benefit on top of the basic coverage. This supplemental coverage carries over into retirement along with the original basic coverage. At age 65, original basic coverage is reduced by a factor of 2 percent a month until the retiree is left with 25 percent of the original coverage. We reduce the supplemental benefit by the same formula. But Members will note that the result is a significant increase in coverage for retirees after age 65. Prohibitive costs prevent us from applying this additional benefit retroactively, however.

Mr. Speaker, with the HAY Associates—a leader in the compensation field—warning Congress that in total compensation the Federal Government lags, on average, 15.7 percent behind the private sector, it has become imperative that we take every possible step to begin to narrow the gap. The FEGLI Act of 1986 is a fundamental step in this process.

The text of the bill follows:

H.R. 5364

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Employees' Group Life Insurance Act of 1986."

SEC. 2. INCREASED COVERAGE.

(a) IN GENERAL.—Section 8704(a) of title 5, United States Code, is amended as follows:

"(a) (1) An employee eligible for insurance is entitled to be insured for an amount of group life insurance equal to the sum of—

"(A) the product of—

"(i) the employee's basic insurance amount, multiplied by

"(ii) the appropriate factor determined in accordance with the following schedule:

| "If the age of the employee is | The appropriate factor is: |
|---|---|
| 35 or under | 2.0 |
| 36 | 1.9 |
| 37 | 1.8 |
| 38 | 1.7 |
| 39 | 1.6 |
| 40 | 1.5 |
| 41 | 1.4 |
| 42 | 1.3 |
| 43 | 1.2 |
| 44 | 1.1 |
| 45 and over | 1.0; and |

"(B) an additional amount determined under paragraph (2) of this subsection.

"(2)(A) The additional amount of insurance referred to in paragraph (1)(B) of this subsection shall be equal to the product of—

"(i) the employee's basic insurance amount, multiplied by

"(ii) the factor under subparagraph (B) of this paragraph.

"(B)(i) The factor to be applied in a computation under subparagraph (A) of this paragraph for an employee shall be determined as follows:

| "For the policy year beginning in calendar year | The appropriate factor is the product of the incremental factor under clause (ii), multiplied by |
|---|---|
| 1987 | 0.2 |
| 1988 | 0.4 |
| 1989 | 0.6 |
| 1990 | 0.8 |
| 1991 or following | 1.0 |

"(ii) The incremental factor under this clause shall be equal to—

"(I) 2.0 minus

"(II) the appropriate factor determined for the employee under paragraph (1)(A)(ii) of this subsection based on the employee's age.".

(b) COVERAGE AFTER SEPARATION FROM SERVICE.—(1) Section 8706(b)(3) of title 5, United States Code, is amended by adding at the end the following:

"This paragraph applies only with respect to that portion of the employee's life insurance which is referred to in section 8704(a)(1)(A) of this title. In computing a percentage of the 'face value' or of the 'amount' of an employee's life insurance for purposes of any reduction in coverage under this paragraph, the computation shall be performed using only that portion of the employee's life insurance which is referred to in such section 8704(a)(1)(A).".

(2) Section 8706(b) of title 5, United States Code, is amended by adding at the end the following:

(5) With respect to that portion of an employee's life insurance referred to in section 8704(a)(1)(B) of this title, coverage continued under paragraph (1) or (2) of this subsection shall be subject to reduction at the rate of 2 percent of face value for each full calendar month after the date the employee becomes 65 years of age and is retired or is receiving compensation for disease or injury. Reductions shall continue until 25 percent of the face value of the life insurance in force before the first reduction remains. Any reference to the 'face value' of life insurance in this paragraph shall be considered to be a reference to the face value of that portion of the employee's life insurance which is referred to in section 8704(a)(1)(B) of this title.".

(c) EMPLOYEE CONTRIBUTIONS; GOVERNMENT CONTRIBUTIONS.—(1) Section 8707 of title 5, United States Code, is amended by adding at the end the following:

"(e) In determining an employee's share of the cost of group life insurance, only insurance under section 8704(a)(1)(A) of this title shall be considered.".

(2) Section 8708 of title 5, United States Code, is amended—

(A) in subsection (a)—

(i) by striking "For" and inserting "Except as provided in subsection (b), (c), or (d) of this section, for"; and

(ii) by inserting ", annuity, or compensation" after "withheld from the pay"; and

(B) by adding at the end the following:

"(d) The sum required by subsection (a) of this section on behalf of an employee retired on an immediate annuity, or receiving compensation under subchapter I of chapter 81 of this title, shall be paid from annual appropriations which are authorized to be made for that purpose and which may be made available until expended.

"(e)(1) In addition to any amounts otherwise required under this section, Government contributions shall be made to cover the full cost of providing insurance under section 8704(a)(1)(B) of this title.

"(2)(A) Contributions under this subsection on behalf of an employee (other than an employee described in subsection (d) of this section) shall be made from the same appropriation or fund as applies with respect to such employee under subsection (a), (b), or (c) of this section, as the case may be.

"(B) The sum required by paragraph (1) of this subsection on behalf of an employee described in subsection (d) of this section shall be paid from annual appropriations which are authorized to be made for that purpose and which may be made available until expended.".

SEC. 3. INVESTMENTS.

Section 8714(b) of title 5, United States Code, is amended to read as follows:

"(b)(1) The Secretary of the Treasury shall invest in obligations of the United States issued under paragraph (2) of this subsection any amounts in the Fund not immediately required for payments from the Fund. The income derived from these investments constitutes a part of the Fund.

"(2)(A) The Secretary of the Treasury may issue interest-bearing obligations of the United States for purchase by the Fund.

"(B)(i) Obligations issued under this paragraph shall have maturities fixed with due regard for the needs of the Fund, and shall bear interest at a rate equal to the average market yield (computed by the Secretary of the Treasury on the basis of market quotations as of the end of the calendar month next preceding the date of issue of such obligations) on all marketable interest-bearing obligations of the United States then forming a part of the public debt which are not due or callable earlier than 4 years after the end of such calendar month.

"(ii) Any average market yield computed under clause (i) of this subparagraph which is not a multiple of one-eighth of 1 percent shall be rounded to the nearest multiple of one-eighth of 1 percent.".

SEC. 4. UNFUNDED LIABILITY.

Section 8714 of title 5, United States Code, is amended by adding at the end the following:

"(d)(1) For the purpose of this subsection, the term 'unfunded liability' shall have, with respect to the program under this chapter, a meaning comparable to that provided under section 8401(27) of this title for the term 'supplemental liability', as it relates to the Federal Employees' Retirement System.

"(2) There is authorized to be appropriated to the Fund such sums as may be necessary to finance, in 100 equal annual installments, the unfunded liability, as determined by the Office as of January 1, 1987.

"(3) The Office shall prescribe regulations to carry out this subsection.".

SEC. 5. EFFECTIVE DATE.

(a) IN GENERAL.—This Act shall take effect on January 1, 1987, but shall have no effect in the case of an employee whose date of death or retirement precedes the effective date of this Act or an employee whose entitlement to compensation under subchapter I of chapter 81 of title 5, United States Code, commences before such effective date.

(b) SPECIAL RULE.—Notwithstanding subsection (a), the amendments made by section 2(c)(2) (excluding section 8708(e) of title 5, United States Code, as added by such section)—

(1) shall apply with respect to periods beginning on or after the effective date of this Act; and

(2) shall apply, in the case of any employee, without regard to such employee's retirement date or the commencement date of any compensation payable to such employee under subchapter I of chapter 81 of such title.

(c) DEFINITION.—For the purpose of this section, the term "employee" means an employee under chapter 87 of title 5, United States Code.

---

□ 2240

## TORT REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. LUNGREN] is recognized for 60 minutes.

Mr. LUNGREN. Mr. Speaker, thanks in large part to a Philadelphia woman who sued a hospital after losing her "psychic powers," America has awakened to the issue of "tort reform." Unfortunately, a barrage of claims and counterclaims has obstructed the ability of the public and the Congress to acquire a realistic view of the liability system, either from the litigation or insurance standpoint.

In recent weeks, empirical research has allowed interested Americans to raise serious questions about the fundamental characteristics of tort litigation in this country. Does the tort system exact too high a cost from our economy? Is it an efficient method of responding to the concerns of consumers? Does it dampen productivity and innovation? Does it even threaten public health standards? The raising of these questions, as well as their scope, demand a thorough and objective investigation of the interaction between our society and the tort system.

On July 29, I chaired a hearing of the Joint Economic Committee's Subcommittee on Productivity and Economic Growth. The hearing concerned the costs of the tort system. Experts from the Rand Corp., the research firm of Tillinghast, Nelson & Warren, and New York University testified. According to their studies, the costs and inefficiency of the tort system have reached mountainous proportions.

Robert W. Sturgis, managing principal of Tillinghast's Risk Management and Casualty Insurance Division, reached precisely those conclusions. He found that the tort system cost $68.2 billion in 1984. Yet present costs, huge though they may be, are not as disturbing as the rate of increase in costs over the past 30 years. Mr. Sturgis found that the increase in tort costs roughly paralleled those of the gross national product from 1933 to 1950. From 1950 to 1984, tort costs rose by an astonishing 4,000 percent, or 37 times, while the gross national product increased by a small 13 times. Clearly, the eruption of litigation in this country cannot be considered in the same context as other sectors of the economy.

As Mr. Sturgis noted, it may be more appropriate to think of the tort system in the context of public assistance and the redistribution of wealth. Due to the "social justice" concerns of New Deal jurists and the "enterprise liability" concepts of liberal judges in the 1960's, liability and fault have frequently parted ways in the past 30 years. Within the framework of "enterprise liability," plaintiffs merely need prove that a product caused injury. The need not worry about rebutting evidence that the manufacturer did all he or she could to make the product safe, or disproving any contentions that the product was misused. If anything goes wrong with a product, the manfacturer may have to compensate those who suffered as a result.

The advent of "joint and several liability" has worsened this scenario. In the simplest terms, "joint and several liability" means that defendants with even the most minimal responsibilities, 1 percent, may be assessed the greatest burden of the settlement, 100 percent—providing that those defendants have the greatest resources. One disturbing example of the "Deep pockets" phenomenon appeared in the May 16 edition of the Wall Street Journal. In this case, 9-year old Todd Alperstein, of Chicago, suffered brain damage when he almost drowned in a pool at a private party. He will receive a settlement worth between $7 million and $28 million, but that money will not come from the host of the party. The money will not come from those who own the pool. Rather, the plaintiffs will collect most of their funds from Chicago Osteopathic Medical Center. The plaintiffs' attorney argued that the hospital should pay because "the host of the party was a department head, the party was for his staff and the hospital benefited through higher employee moral." Although such an example may be extreme, it is consistent with the principal of joint and several liability.

As Yale law professor George Priest has observed, principles such as "enterprise liability" and "joint and several liability" have created a form of national insurance, an entitlement system that provides everyone with compensation whenever they suffer an injury or feel that their concerns have been mishandled by a professional. Statistics compiled by Mr. Sturgis support such analogies, while the costs of the tort system vastly outstripped the GNP, they kept pace with other entitlements, inflation adjusted costs for the tort system have risen some 8.7 times since 1950. Public welfare costs have increased by some 9.3 times, and government health care by 12.5 times.

Although the tort system has maintained a growth proportionate to that of entitlements, its efficiency has not been proportionate. As Mr. Sturgis observed in his testimony, "It is my observation that with respect to cost [the tort system] has behaved in a manner similar to entitlement systems in this country, but with a far lower rate of efficiency * * *. While 63 percent of the insured tort costs go directly to third party claimants, much of that goes for plaintiffs' expenses and legal cost * * *. Only 25 cents of every dollar goes to compensate economic losses." In contrast, 85 cents of every dollar spent on health insurance goes to compensate economic loss, while 70 cent of every dollar spent of workers' compensation does the same. Plainly, the present tort system has serious flaws not only as a system of justice—where one is sometimes penalized regardless of fault—But as an entitlement mechanism. In that context, one is entitled to much less than one would be in other compensation mechanisms.

Research by Dr. James Kakalik of the Rand Corp. and Prof. Andrew

Schotter of New York University also leads to doubts about the efficiency of the tory system. Dr. Kakalik observed that on average, plaintiffs receive 45 percent of the cost of a tort lawsuit. The remaining percentage goes to the defendants' fees and legal expenses, court expenditures, claims processing, the cost of the defendants' and plaintiffs' time, and plaintiffs' legal fees and expenses. The latter occupies some 21 percent of the total cost of the lawsuit. While the percentages for actual compensation of plaintiffs are higher in Dr. Kalalik's study than in Mr. Sturgis', they still compare unfavorably with other entitlement programs in our society.

Professor Schotter based his doubts about the efficiency of the tort system on its absolute costs. He used six factors in his study to estimate the total "administrative" costs of the tort system: First the costs of insurance companies in handling and litigating claims; second, cost of plaintiff lawyers; third, the governmental cost of administering These cases including the costs of judges, bailiffs, stenographers and the rental of court rooms; fourth, the foregone income of jurors; fifth, the cost of expert witnesses; and sixth, the time lost by the litigants themselves. The combination of these factors led the professor to conclude that tort administrative costs alone have reached $10 to $27 billion in 1984. Such costs, if they rise at a conservative growth rate of 6 percent may reach $38 billion per year by 1990. Putting the statistics in a broader context, Schotter argues that the United States could be spending a massive $199 billion from 1984 to 1990 to resolve disputes. Commenting on the enormity of these figures, Professor Schotter stated in his testimony: "Society must consider what it thinks it is getting by spending between $10 and $27 billion a year on administering the current tort system and must consider what it could consume with those resources . . . it would seem to me that we might want to search for other less costly methods of dispute resolution." In an era of extreme competitiveness among global economies, as well as $200 billion budget deficits, such arguments—if they are based on accurate data—have an inescapable logic. America cannot afford a multibillion-dollar draining of its economic resources.

Of course, qualifications abound in any hearing on a matter of this degree of complexity. All three witnesses stressed the importance of further studies, with Professor Schotter calling specifically for a "one industry analysis which estimates both the allocative and administrative costs of the tort system." Dr. Kakalik strongly emphasized his unwillingness to delve into the policy implications of the Rand Corp. study. Nevertheless, Messrs. Schotter and Sturgis raised serious doubts about the ability of the present tort system to coexist with innovation and productivity in our economy. When asked by Congressman HAL DAUB if there was indeed a liability problem in America, Mr. Sturgis replied in the affirmative. He went on to express his concerns that the costs of litigation or of liability insurance may be inhibiting the productivity of businesses, and thereby limiting the market choices available to consumers. Professor Schotter suggested that fears about litigation or about difficulties in obtaining insurance may discourage innovation in the marketplace I underscore, innovation for worthy products in the marketplace. Given that a company may be held liable for a product's malfunction even if everything humanly possible was done to prevent such a malfunction, businessmen may have an understandable reluctance to introduce new products. Unfortunately, caution is precisely the one quality that America's international merchants do not need.

In his testimony, Professor Schotter expressed his concerns about the injection of such inefficiency into medicine. "By allocative costs," he stated, "we mean the costs society bears because its resources are being misallocated. One obvious example is the medical profession. As jury awards in malpractice cases increase, the premiums that doctors pay will also increase. The extent that these premium increases do not reflect increases in the riskiness of medical procedures but rather the misplaced judgements of jurors, is the extent to which the system is sending the wrong price signals to doctors through their insurance premiums. Only when premiums reflect the expected damage of a medical practice can doctors correctly weigh the benefits and costs of performing medical procedures. When premiums increase for the wrong reasons, the behavior or doctors is distorted. This leads them to overprescribe diagnostic tests and in some instances to change areas of specialization in order to avoid the risk of being sued and having their premiums increased.

□ 2250

As a result of these behavioral changes we get a misallocation of doctors across fields of specialization and misallocations are costly and, to my knowledge, have been measured."

In a May 1986 study entitled "A Sick Tort System Endangers U.S. Health Care," The Heritage Foundation provided illustrations of Professor Schotter's arguments:

A 1983 study, for instance, discovered that 41 percent of physicians surveyed ordered additional diagnostic tests, 27 percent provided additional treatment procedures, 36 percent spent more time with patients explaining medical details, and 57 percent maintained more detailed records—all primarily as a defense against a potential claim. They were not necessary in medical terms, Overall, the American Medical Association estimates that needless defensive medicine costs $15 billion per year.

Typical of defensive medicine is the increased use of Caesarean section to deliver babies, which requires major abdominal surgery. Plaintiffs have been suing doctors by claiming that various birth defects could have been avoided if Caesarean delivery had been used, Consequently, doctors now deliver more than 20 percent of all babies by this very costly and more dangerous method, compared with 5 percent in 1970.

As another example of "defensive medicine," the article mentions x rays.

Because this procedure seems so logical to laymen, doctors feel they have to order it to avoid liability on any potential claim. But medical research establishes that the treatment would be the same in virtually all cases regardless of what the x-ray might show, and that in the few cases where special treatment is warranted the need for such treatment could generally be determined by routine examinations.

In sum, the apparent inefficiencies of the tort system may introduce excessive costs and inappropriate treatments into a health care system already burdened by soaring expenses. Obviously, such effects would harm the ordinary physician and his patients. But they form a particulary severe challenge to the Medicare system, were the costs of expensive procedures-especially those involving new technology—already generates intense debate.

Unfortunately, the inefficiencies that the tort system apparently brings to the economy as a whole may have already arisen within the litigation system. In May, the Wall Street Journal conducted a five-part investigation of the inner dynamics of litigation that revealed these inefficiencies. The analysis noted that the rise of contingency fees has boosted the number of lawsuits filed. "Underlying any debate over plaintiffs' lawyers," the Journal stated, "is the contingent fee system, under which a client is charged nothing if he loses, but up to 50 percent of any award won. The arrangement is intended to help people who can't afford to sue. But critics say expanded plaintiffs' rights and fatter juryawards make the prospect of a big fee too attractive. So plaintiffs' lawyers sue more often, and for more money."

The article continues:

Stephen Case, a Washington, DC, Bankruptcy attorney, cites the plaintiffs' lawyers who, he says, had an interesting attitude toward trying cases alleging health damage from danger to asbestos. Mr. Case says the lawyer figured that he might lose 9 out of every 10 decisions, but that the odds were good that he would win the 10th, collect a $1 million fee and still come out ahead. "It's like playing the lottery," says Mr. Case.

Like the lottery, this method of litigation may engender bad habits. To insure healthy profits for their firm, attorneys may seek the big cases, like the Agent Orange and A.H. Robbins

suits. Yet the big cases require big expenses in investigations and expert testimony. One Dallas firm profiled in the Wall Street Journal has more than $2 million in pending advances on cases. Obviously, such expenses necessitate the undertaking of even more cases to insure a large bankroll for case preparation.

In addition, some firms have initiated tactics to cover these pretrial expenses that undercut the availability of justice that contingency fees are designed to provide. The Journal states:

All this strikes some people as a kind of assembly-line justice. They are also bothered by some block settlements of cases, under which plaintiffs' lawyers will negotiate a single sum of money for a large group of clients. The money is then allocated among the individual plaintiffs, often by the lawyers, sometimes with little regard to the relative value of each case.

The article continues:

Proponents say that such settlements are an efficient way to get money for clients without litigating for years and maybe getting nothing. But a 1985 study by the Rand Corporation's Institute for Civil Justice saw some conflicts of interest in asbestos-case settlement. It said a lawyer might be tempted to settle claims of a 100 client group for, say, $5 million, securing a fee for himself of about $1.7 million, even though individual asbestos recoveries average much more than each client would receive as his own share from such a block settlement. With large fees there for the taking, the study concluded, a lawyer has less incentive "to bargain as hard as possible in each individual case."

Despite these developments, tort attorneys continue to resist the enactment of limits on damage awards and fees. They contend that such restrictions would discourage attorneys from taking risky cases. That may be true, but it may also be true attorneys would choose only the strongest cases, where fault is clearest.

The Journal's fourth article on the "litigation explosion" concerned the role of juries. According to John Scully, an attorney for Texas oil companies that recently lost a $64 million judgment, "the jury system has run amok." Jurors in that particular case indicated to the Journal that they decided on the $64 million decision because, first, huge sums are the only kind that businesses understand; second, emotions run strong in personal injury cases; and third, jurors feel that attorneys and fees will subtract so much from the plaintiff's award that massive amounts are necessary to ensure that the plaintiffs gets a fair sum. While little can be done to change the very human reactions referred to in first two instances, it is by no means clear that juries should continue to provide multimillion dollar awards because lawyers take large portions of those awards. The administration has proposed legislation that would not eliminate contingency fees, but establish caps on the fees that attorneys extract from awards.

As a matter of fact, this is the exact approach that is used in my own State of California in terms of medical malpractice cases. And the limit on contingency fees is on a percentage under a sliding scale. The larger increments of funds as you go up the scale, the smaller percentage of contingency fee that the lawyer receives. So there is no incentive for him to hold out, from a conflict-of-interest standpoint, for a larger and larger award or the possibility of larger and larger awards because his amount of money in terms of his fee based on the contingency fee is limited and goes down on a sliding scale.

In the course of my own consideration of the issue of attorneys' fees, I have explored the payment of those fees under what has become known as the American rule. Under this approach, each party pays the fees of his or her own counsel. Under the English rule, the losing party is forced to pay the winning party's legal fees. This obviously reduces any incentive to bring frivolous lawsuits—since a leap of faith in the courtroom can cost you the other side's legal fees as well as your own. The English rule might also be fairer to poor litigants in that they would not have to pay any legal fees with respect to a strong case. While I have not endorsed the English rule, it and the issues subsumed under it merit further discussion.

It seems to me one possibility in torts cases, if at the time of trial a plaintiff's attorney has not allowed out those defendants against which he has any real evidence of a case, at the conclusion of the case, the trial attorney on the winning side might be able to bring an action before the judge who heard the case, in which case the judge would make a decision as to whether it was frivolous. And if he found it to be frivolous at the time the trial was to start or just begin if they had pre-trial conference, he would then be able to award attorneys fees and expenses to the prevailing side. As I say, while I do not totally endorse this approach, it seems to me to be one we ought to approach, we ought to look at in terms of reforming the system. It does the least violence to the idea of the contingency fee system, it does the least violence, it seems to me, to the possibility of a malpractice case being brought against the attorney himself or herself. Yet at the same time it gets rid of the problem of the defendent who really does not have much of a case against him. In my own situation I happend to practice trial work in California courts and Federal courts for a number of years before I came to this body, and I might say I tried a number of medical malpractice cases representing doctors in hospitals in almost every instance, and I do not know, the most upsetting thing that occurred during the time I tried cases was when I was representing someone who clearly was not a real defendent in the case, and as we were approaching the trial time, in fact sometimes as we were beginning the trial, sometimes even after we started trial, the judge would call us into his chambers and suggested that I could have my client let out of the case because there did not seem to be much of a case if any against us, and then the suggestion by the plaintiff's attorney was how much money was my insurance company, who was insuring my client, willing to put up for the privilege of getting out of the case. In a sense it was legal blackmail. And yet that will continue to be allowed unless we make some changes such as the one that I suggested in terms of getting attorneys fees and costs at the conclusion of the trial.

Unfortunately, it is by no means clear that reforms such as these will be quickly accepted by the constituents of the legal system. Indeed, it is a hallmark of the inefficiency of the present tort system that it neglects moves toward efficiency. Although only 10 of the Nation's 94 Federal judical districts have adopted arbitration of smaller claims, those that have have experienced quicker decisions and reductions in cost. Referring to the eastern district of Pennsylvania, The Wall Street Journal commented.

Before abritration, it took 14 months to get the average complaint resolved in court. Abritration has whittled that to 5 months, even though the total number of cases filed in the district has nearly tripled since 1971. Arbitration has freed judges to concentrate on more difficult litigation, especially criminal cases, which now also get tried faster. "It disposes of all cases at an earlier date," says Eastern District Judge Raymond J. Broderick.

Turning to a more general consideration of arbitration, the Journal states.

Other federal courts have turned to arbitriation, too. It was worked successfully in the northern district of California, which instituted it about the same time as the Pennsylvania district did. The big Eastern District of New York city and its Long Island suburbs joind the roster this year.

Cases typically arbitrated involve personal injury and contract disputes with asserted damages of $100,000 or less. In Pennsylvania's Eastern District, the limit is $75,000, up from $50,000 when arbitration began in 1978.

Concluding the case for arbitration, the Journal observes:

Arbitration saves the courts a lot of money. Judges and juries are unnecessary, as are written legal decisions. An average civil trail in Federal court lasts about 4 days and costs the court about $2,700 a day, according to the administrative office of the U.S. Courts in Washington, DC. Administrators of Eastern District Courts figure that the average arbitration costs only $47.

Litigants save money by relying on depositions and others reports rather than courtroom testimony. A court reporter may

charge $200 to take down a 1-hour deposition, and exert witnesses may charge $350 or more for a written report. But fees for expert witness testifying in court can run as high as $1,000 a day.

In sum, alternative dispute mechanisms such as arbitration have demonstrated repeatedly that they provide cost-effective and fair decisions. Moreover, they permit an overburdened Federal Judiciary system to devote more time to the pressing criminal cases that so many of us are concerned about at this time. Despite these facts, and despite the fact arbitration was first initiated on the Federal level 8 years ago, arbitration has yet to win widespread acceptance in the Federal courts. The inability to adopt cost-effective innovations in procedure is yet another symptom of an ailing tort system.

Tragically, an ailing tort system may lead to ailing Americans. Many critics of the present litigation framework, both inside and outside of medicine, believe that that framework threatens the availability of physicians and the vaccines that are essential to the health of Americans. The Wall Street Journal publicized the latter problem in December of 1985, when it observed that a "litigation storm" had threatened access to whooping cough vaccine. On May 23 of this year, The Washington Post reported: "Lederle Laboratories, one of the two commercial manufacturers still producing the the whooping cough vaccine, has just announced that it is raising its price from $4.29 a dose to $11.40. The reason, Lederle explains, is that it has lost its liability insurance for this vaccine and will now have to insure itself. Of the new price, it says, $8 will in effect be an insurance premium against damage verdicts that are getting larger and more unpredictable. Three years ago the price was around 70 cents." I'm sorry to say that both these stories revealed only the proverbial tip of the iceberg.

In May of this year, the Institute of Medicine, a division of the National Academy of Sciences, issued a report on "Vaccine Supply and Innovation". The study concluded that fear of litigation imperils the availability of essential vaccines. It established three principal grounds for this assertion. Traditionally, courts have held that vaccines that are properly prepared and carry correct directions and warnings are not, as the American Law Institute said in 1965, "unreasonably dangerous." However, recent court decisions have moved in the direction of the duty-to-warn doctrine. According to the Institute of Medicine's Report, "some courts have ruled that the duty to warn rests with the manufacturer, even though the manufacturer is not involved in administering the vaccine and has complied with the requirements of proper production and labeling." Needless to say, such rulings have left vaccine manufacturers uncertain and uncomfortable about their legal obligations. The Committee of Public-Private Sector Relations in Vaccine Innovation, which prepared the study for the Institute of Medicine, has noted that the recent emergence of the possibility of punitive damages has exacerbated this uncertainty.

In a chapter entitled "Consequences of Uncertainty over Liability Laws," the committee argues that the motives behind litigation may also imperil vaccines. "Causation is difficult, if not impossible, to determine with certainty in specific cases. Consequently, litigation is usually the only option for injured individuals seeking compensation.

□ 2305

In the committee's judgment, this has led to a situation in which jurors and judges may be inclined to view tort awards as a means of providing compensation, irrespective of misconduct or scientific considerations. As an aside, I should observe once again that it is precisely this conception of the tort system as "national insurance" that has led, in the view of Gordon Crovitz and George Priest, to the explosion in litigation and astronomical awards.

The study elaborates on the consequences of National Insurance for the vaccine industry.

For the manufacturer of a vaccine known to pose a small but unavoidable risk of injury, this means a gamble with very large stakes. With claims averaging several million dollars for each case and increasing number of courts imposing liability, manufacturers face the prospect of incurring enormous costs. The only way to eliminate the threat of such heavy losses is to discontinue vaccine production. If a firm chooses to continue marketing a vaccine, its only options are to attempt to settle claims, a strategy that could produce a general expectation of liability, or to resist claims in litigation, with the risk that unfavorable outcomes could establish liability. The cost of either strategy would be high, even if claims are defended successfully, and would have to be passed on to consumers through price increases.

One thing should be crystal clear in all this, one thing that we should understand when we are talking about the problem of national vaccine in this country, and that is that we are not talking about a situation in which a pharmaceutical house has done a poor job, has a bad batch on the market, has not followed all the procedures.

We are talking about a case of where they have gone through all the FDA procedures, they have a proven vaccine, but with every vaccine there is always the possibility of an adverse reaction, even if it is one in a million or 1 in 2 million. In those cases where the lawsuit takes place, and really the finding is not based on any fault on the part of the manufacturer, but rather on the fact that someone suffered. That cost is borne by everybody who wishes to use that vaccine. As the cost increases, the incentive for manufacturers to continue producing the vaccine is decreased and decreased and decreased.

So what we have is the possibility of vaccines that save millions of lives being taken off the market because of the tremendous liability of one reaction, even though that reaction is recognized as a possibility, the warnings are available and the doctor has advised the patients receiving the vaccine.

While the committee's discussion is hypothetical, the litigators' onslaught has in fact begun. According to a 1984 Institute of Medicine survey of four key vaccine manufacturers, the manufacturers had accumulated $3.8 million in legal costs over the previous 10 years—leaving aside the salaries and expense of in-house counsel. As of the spring of 1984, the four firms faced a total of 166 lawsuits. When the institute conducted a followup survey in the spring of 1985, it discovered that an additional 65 suits had been filed. Furthermore, some of the manufacturers experienced legal costs of several million dollars for that intervening period alone. In other words, vaccine manufacturers may be facing multimillion-dollar headaches from the tort system, and those headaches appear to grow exponentially in their severity.

As the institute's study describes, these financial pressures have placed vaccine supplies on a precipice.

Over the past two decades, pharmaceutical companies have been withdrawing from vaccine manufacturing and marketing. The liability situation and the resultant costs and difficulty in securing insurance are increasingly prominent factors in decisions to discontinue various vaccine operations. These decisions that current or anticipated expenses from liability for vaccine-related injury are seen as an unreasonable burden or an unacceptably risky financial gamble when compared with the revenue potential of vaccines.

The future behavior of the courts and the responses of manufacturers cannot be predicted with certainty. The committee is concerned, however, that manufacturers' apprehensions engendered by the current state of legal confusion will further exacerbate the well-documented problems that jeopardize vaccine supply and innovation. Withdrawals from the market left the nation, in 1984 and early 1985, dependent on one manufacturer for polio and DTP vaccines, and on another for measles, mumps, and rubella vaccines (subsequently a DTP manufacturer rejoined the one that was transiently sole distributor). Should these manufacturers conclude that the risk of litigation is unreasonably high and decide to halt production, vaccine shortages could lead to a resurgence of these serious diseases. In addition, the same fears that threaten to interrupt vaccine supply serve as a deterrent to the development of new vaccines or improving existing ones. Moreover, uncertainty over liability

litigation is likely to discourage new or foreign vaccine manufacturers from entering the U.S. market.

While many opponents of tort reform have alleged that such legislation would aid big corporations, it remains true that failure to enact such reform may lead to a curtailment of services that all Americans require. In the view of the Institute of Medicine, fears about litigation have already provided the United States with skeletal protection against disastrous diseases. Many Americans do not recall the days when vaccines for illnesses such as polio were not available. It is imperative that Americans recognize that with only one firm producing many of these vaccines, the recurrence of those days—and specifically the recurrence of those diseases—is a very real, very tangible possibility. In my view, the gravity of such a possibility in and of itself mandates a thorough reconsideration of the tort system.

Along with access to vaccines, one must consider a curtailment of access to medical specialists a particularly dangerous consequence of alleged failings in the tort system. In a previous special order, I spoke of the exit of obstetricians from their practices due to expensive malpractice insurance.

One of the examples I gave at that time was the fact that women who are pregnant and on the verge of giving birth on the island of Molokai have to fly to Oahu because there are no longer any obstetricians available on their island. Why? Basically because of the risk of lawsuits and the increasing price of medical malpractice premiums.

Tonight, I will only remind my colleagues that malpractice lawsuits against physicians doubled between 1979 and 1983, and tripled for obstetricians and gynecologists. According to Peter Ferrara of the Heritage Foundation, physicians faced 40,000 malpractice claims in 1983; this year, they will probably encounter over 50,000. In Mr. Ferrara's view, this proliferation of litigation has compelled insurance companies to sharply increase malpractice premiums. In "A Sick Tort System Endangers U.S. Health Care," he notes:

> Doctors nationwide already pay an average of more than $10,000 per year for medical malpractice insurance. But the cost is far higher for some specialties. From 1982 to 1984, for instance, the average premium increase for obstetricians nationwide was $10,000, bringing the average obstetrician's premium to about $27,000 in 1985. In New York State, the average premium was over $51,000—or about one-fourth of total obstetrican fees * * *. In Washington, DC, and New York State, neurosurgeons pay annual premiums over $100,000 per year.

Obviously, many medical specialists may feel that the litigation storm threatens their careers. It is logical to assume that hundreds of thousands of dollars in insurance costs and incessant legal confrontations will continue to exhaust the enthusiasm of those physicians for their professions. Given the importance of specialists to health care in America, such circumstances would seriously obstruct the ability of patients to obtain the treatment they need.

Fortunately, Congress and many State legislatures have begun to respond to the danger signs in the medical professions, in the business community, and in the courts themselves. Members of the House and the other body have introduced 17 measures to reform the tort system in some way. Congressman HAMILTON FISH has introduced H.R. 4766, embodying the administration's proposals on product liability. The bill calls for eight key reforms: First, a cap on noneconomic damages of $100,000; second, a return to fault-based standards of liability except in defect cases when strict liability would apply; third, caps on contingency fees for attorneys of 25 percent for the first $100,000, 20 percent for next $100,000, 15 percent for the third $100,000, and 10 percent for everything over $300,000; fourth, periodic payments for future medical expenses and lost wages; fifth, elimination of joint and several liability unless companies acted in concert; sixth, support of settlement procedures; seventh, the basing of causation on credible scientific and medical evidence and opinions; and eighth, reductions in awards by collateral sources such as workers' compensation and health benefits paid by the employer for the same injury. As a cosponsor of the bill, I must remark that it represents an intelligent if imperfect attempt to grasp the complexities of the litigation morass.

Perhaps not all elements of those are the appropriate ones, but I certainly think that the large bulk of the recommendations made in that bill are worthy of not only consideration, but passage.

According to the National Conference on State Legislatures, more than 1,000 bills were proposed in State legislatures this year to seek changes in the structure of tort law. Thirteen States enacted caps on noneconomic damages. Kansas and South Dakota approved $1 million caps on general damages, including economic losses. And eight States have revised their laws on joint and several liability.

□ 2315

Mr. Speaker, objective analyses of our present litigation system have raised serious doubts about the effect that system has on our society. Will American children have the vaccines they need to stay healthy? Will businesses have the freedom and confidence they need in order to innovate and be productive? Will they be able to compete with overseas competitors? Will plaintiffs and defendants alike find justice in a system which seems to encourage lengthy lawsuits and yet mainly rewards attorneys in some instances.

Clearly, the answers to these questions affect the most vital concerns: Public health, the confidence and justice that in large part upholds our democracy, and the ability of America to compete in a brutal international marketplace.

If there is a possibility that any of these questions might be answered in the negative, Mr. Speaker, Congress has no alternative but to completely reevaluate the fundamentals of the tort system and pass legislation that corrects its failings.

By no means do I mean to suggest that in each and every instance those who follow the tort system and attorneys who represent people in the tort system, even on a contingency fee basis, are doing something that is improper. It is certainly proper under the law. In some cases contingency fee contracts in my judgment provide the only means by which certain potential clients will have an opportunity to go to the court room and protect their interests.

I do think that we have seen that there are excesses throughout the system. Excesses of such a great degree that we must have some changes in the system before the system falls in on itself of its own weight.

I do not know if the suggestions I made are the only suggestions or in fact they are the proper suggestions. But it seems to me that we as a body have an obligation to look at those suggestions, to look at other suggestions, and to work as State legislatures are now working to see if we can respond to the problem that is presently facing the United States in the area of tort liability.

Maybe there is a problem with the way the insurance companies are operating within this system. I suspect that is not the major problem. I suspect that the system itself needs to be revamped. Maintaining its strengths but trying to eliminate its weaknesses and to ameliorate the problems that ensure within the system itself.

So, Mr. Speaker, I would hope that if we cannot do it in the remaining days of this Congress, although I would hope that we would be able to do that, but if that is not possible, that this might be a priority in this Congress in the next year.

It is something that needs to be done; it is something that cries out for attention; it is something that has to be attacked on all levels as I have said before. The State legislatures have begun to act; it is time for the Congress to act.

## THE FIGHT AGAINST DRUG TRAFFICKING

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. OWENS] is recognized for 60 minutes.

Mr. OWENS. Mr. Speaker, there is a groundswell in the neighborhoods and local communities all across America calling for action. There is a groundswell of indignation and anger which demands that effective steps be taken to end the drug trafficking and the drug abuse epidemic associated with this drug trafficking.

In New York City, neighborhoods are conducting marches and protests. Some vigilante groups have actually stormed places where crack was being sold, and the crack epidemic has brought to a climactic point the whole drug abuse problem in our Nation and particularly in our big cities.

All kinds of actions have been taken. They have demanded more action by the police. They have demanded more action by the courts and there has been a response from public officials. Suddenly we have discovered that actions or procedures which we thought were in effect before are an effective law endorcement apparatus which we assumed was in place before, and it was not there. We found that in a city as large as New York only 500 policemen were assigned to deal with drug abuse and narcotics. Only 500 out of a police force of 28,000.

We also found that the courts are so backlogged, that there are so many cases that a defendant charged with some kind of narcotic sale charge would usually get a fine of $100 or $200 which was just a licence to continue selling these very profitable drugs.

So the groundswell of activity by the citizens, the indignation, the demands for actions has led to some action. We have increased the police who are responsible for drug abuse and narcotics from 500 to 1,000 in New York City. Perhaps that is not enough, but that increase has taken place. Just today the New York Times carries an article which says that the number of judges will be increased by 40. Forty additional judges will be added to the New York State Supreme Court, primarily to handle narcotics abuse cases.

There is a very real epidemic and the damage is very real. None of the press accounts really have exaggerated what is actually going on. It is as bad as any articles have stated. It is as bad as anything you have read about. It is as bad as anything you have seen on television or heard on radio.

There are actually mothers who have been murdered by their children in the quest of the children to get funds to buy crack. The drug epidemic has led to a great increase in crime throughout all of our, in all of our large cities. It has been estimated at about 75 percent of all street crime is related to drugs. People trying to get money to buy more drugs. So it is a very real epidemic. People have good cause to be upset and demanding action. It is to the credit of public officials that they have finally awakened and responded to the call of the people for reelection.

Our President has recognized the problem. They have recognized that there is a need to do more than just have a good public relations program related to drug awareness or related to an attempt to curb the drug trafficking in our cities and to stop the drugs from coming across our borders.

The President has recognized it, there are some proposals in the works from the White House. We hope that it is not just another glorified public relations gimmick. We hope that it is a very real response that we can expect from the White House to deal with drug abuse and drug trafficking.

The House of Representatives is now considering a comprehensive package, a comprehensive bill to deal with drug abuse, drug prevention education, to take a look at the problem from every angle and to come forward with solutions as proposed by a variety of different committees.

We welcome this comprehensive approach. It is very much necessary and we hope that it does not degenerate into a theoretical exercise. We hope that we do not come forward with a piece of legislation which has all of the best that we can offer in terms of approaches and potential solutions, but no one is willing to put any dollars behind it.

Here is a problem which calls for immediate action. Our Nation's cities are very much caught up in a crime epidemic as a result of the drug epidemic. Our children are threatened. Not only children in poor neighborhoods, not only areas which have for some time had the problem of drugs, but every type of neighborhood at every level. It is at the junior high school level; it is at the college level; it is at the high school level. Everywhere we find this all pervasive problem of drug abuse. It must be assigned a priority.

If it is assigned a priority, that means that we are going to have to put some dollars behind it. We are going to have to look upon it as if it were as pressing as the need to find the funds for a new *Challenger*, for new efforts in our space program. We are going to have to see it as much of a priority as any one of our defense expenditures.

Indeed, we cannot allow our youth, we cannot allow the very fabric of our society to be torn apart and expect to have a secure America. So this will have to be assigned a great priority. We hope that that priority means that there will be dollars and not just public relations gestures.

There are no simple solutions, but every suggestion made by every one of the committees considering the comprehensive drug abuse bill will be very important. I think that some very necessary elements of that solution could be gleaned from some bills that have already been introduced. For example, I introduced a bill, H.R. 5195, which merely calls for the correction of a loophole in the present law.

□ 2325

Current law does not take cocaine seriously. It is not surprising that we have an epidemic now which is heightened by the appearance of a purified form of cocaine which is called crack, because the law has never taken cocaine that seriously. Whereas the law requires stiff penalties for other narcotics, the law does not require very stiff penalties in the case of the possession of a considerable amount of cocaine.

So H.R. 5195 is an attempt to make just one little correction. I hope that in the process of the development of the comprehensive bill this will be taken into consideration.

The cocaine preparation called crack is smoked and unpredictably high doses of this drug are absorbed directly into the bloodstream into the lungs. This sometimes has lethal effects. Death by cardiac arrest occurs often and has occurred in some dramatic cases related to some sports celebrities recently.

Current law provides for stiffer penalties for the importation, the manufacturing, the distribution, the dispensing, the sale or possession of over 100 grams of a narcotic drug other than cocaine. Cocaine is made an exception. Cocaine is classified as a schedule I narcotic. Cocaine, you can have much more of that and not receive a stiff penalty.

My amendment provides for stiffer penalties for the possession of cocaine. If there are five or more grams of cocaine, the penalties should be as stiff as they are for other narcotics.

The original exemption became law at a time, unfortunately, when cocaine was viewed as a recreational drug. It is a drug of the white collar set, a drug of the college set. There was an unfortunate assumption made there, an unfortunate view was taken of the drug cocaine. It would seem to be less dangerous than opiates like heroin.

This view was always mistaken, as it has long been known that cocaine produces excess activity, including violent activity, as opposed to the opiates which are nervous system depressants.

The fact that unpredictably high doses of cocaine are also killers makes it all the more imperative that possession and dealing with this deadly drug be dealt with severely.

There is no substitution for effective enforcement of our drug laws at our borders. This includes the importation of cocaine.

One other thing that my bill does, it defines what cocaine really means, the kind of cocaine which becomes crack. The law is very general, current law is very general and there is really no working definition of what they mean.

My bill defines 5 grams or more of cocaine, its salts, optical and geometric isomers, or a substance chemically identical thereto.

These few words are the only words found anywhere in the law which really deal with what pure cocaine is. The existing current law is far too general and automatically it is an escape valve for any person seeking to avoid prosecution.

There is no substitution for a strong enforcement provision at the border. The compromise bill that we are about to deal with must include stronger action taken at our borders by the Immigration and Naturalization Service or by the Army or by some other force.

The problem as the Federal Government is involved, the problem must be dealt with beginning with the borders.

It is also imperative that we do not continue to give more permissible treatment to any aspect of the handling of cocaine. This message should be clear and consistent. We should make clear that everybody takes steps to guarantee that everybody understands that cocaine is a killer and that this killer, we will not continue to take a permissible attitude toward this killer.

Mr. Speaker, I yield to my colleague from the Sixth Congressional District in Queens, the gentleman from New York [Mr. WALDON].

Mr. WALDON. Mr. Speaker, The madness which is crack has no respect for social, professional, or economic status. Crack usage is the evidence that our society may in fact be losing control of itself. For those of us who are black this self-inflicted pain is the worst oppression we have known since slavery. All young Americans must decide to make a choice to do something meaningful with their lives. We as Representatives must ensure their opportunity for productive lives.

I am advised that Gramm-Rudman cut $14 million for intercepting planes parachuting drugs into the State of Florida. This should not have happened.

I am alarmed by the presence of all types of drugs in and near our schools. In New York alone more than 3,750 individuals were arrested for selling drugs in the vicinity of public schools. More than one-half of those arrested were near elementary schools. Seventy-nine percent of the people arrested were over 20 years of age.

Children as young as 8 and 9 years old have been introduced to crack. What this means is that adult drug dealers for their own personal economic gain are seducing children into a life of drug dependency. We must educate our children to the dangers of drug abuse in general, but especially we must inform and educate them as to the deadly substance "crack."

It is imperative that Congress move rapidly on pending drug abuse legislation. Swift congressional action will send a clear message to the administration that our constituents are demanding action in this area. I ask your support for the following measures.

H.R. 526, the State and Local Narcotics Control Assistance Act which would authorize $750 million per year for the next 5 fiscal years to assist State and local governments in narcotics enforcement and drug abuse prevention activities.

H.J. Res. 631, the White House Conference on Narcotics Abuse Control Resolution of 1986. This resolution requires the President to convene a White House conference on drug abuse trafficking within 6 months of its enactment. This conference would call together the best minds in the country to evaluate and improve our present national strategy to combat drug abuse in this country.

Tomorrow, Mr. Speaker, the Committee on Education and Labor, on which I am very proud to serve, will mark up the Drug Abuse Education and Prevention Act of 1986. This bill will direct the Secretary of Education to establish a program of Federal grants to States for drug abuse education in elementary and secondary schools. The bill will authorize $350 million over 3 years to carry out this program and is primarily aimed at grades K through 12.

In the Sixth Congressional District I have declared a crackdown on crack. I have been in communication with several community and civic leaders and we all agree that there is a problem. We must work with our police commissioner as he uses all of his resources to assist our communities in eradicating this plague called crack. We are calling upon all our people to reveal to law enforcement personnel those individuals who are selling the crack. This past Saturday 12 ministers joined me to lead an all out frontal assault against people who sell crack to our children. These 12 ministers, who comprise my "Ministerial Conference Against Crack," are: Rev. Roy Foots, Evangelist David L. Sutton, Col. Civet Kristof, Minister Richard Lewis, Rev. Marvin Mills, Rev. Ben Gibson, Dr. Leo Hamilton, Rev. Herbert B. Jones, Bishop Sessions, Rev. William Johnson, Bishop Staton, and Rev. Solomon Roberts.

My colleagues, this is a sad period in the history of America when we hear of young people who are in the prime of their lives, as were Len Bias and Don Rogers, having their lives snuffed out by this human destroyer which is crack. The use of drugs is no longer an inner-city problem. It is so devastating and destructive that nothing short of a declaration of all out war will suffice.

I firmly believe and have consistently stated that drugs are the scourge of today's society. Let us use all of our power to save the children of this generation. Crack is so extremely addictive that it only takes one time to get hooked. Let us, Mr. Speaker, pledge to crack down on crack.

Mr. OWENS. Well, Mr. Speaker, I thank the gentlemen for his very significant remarks.

I would like to ask the following question. We represent districts which are similar in many ways, but my district, the 12th Congressional District of New York, is the 10th poorest district in America. We rank 10th among the poorest districts in America. The Sixth Congressional District, which the gentleman represents in New York, is quite different.

It has been generally understood that the problems of poverty that are prevalent in my district, high unemployment, high welfare rate, a large amount mental illness, there are numerous problems which have been associated with the tendency toward drug addiction; but the gentleman's district is quite different economically.

I think that the point needs to be made, and I am asking, does the gentleman really find that in a more middle class setting, in a setting where there are people who are generally better educated and generally the rate of employment is higher, is the drug problem really significant in the gentleman's district?

Mr. WALDON. It is extremely significant in our area. In fact, it is so significant as to be creating, in my opinion, hysteria among the parents. Our area is an area which is primarily compromised of homes which range from $100,000 and up, except for certain pockets of poverty in Jamaica and South Jamaica and perhaps in a small way in the Rockaways. Most of the people are very middle class oriented, but they see their children opting for a way of life and a lifestyle that is contra to all they value. It is a severe problem and one which has caused us to come together with the law enforcement personnel, with those members of the clergy who are very helpful in this regard, and with the schools as well.

I am baffled and confused by how such a devastating disease, if you will, as drugs could become so involved and enmeshed in our area, but it is true that it is there and it is a problem.

Mr. OWENS. Mr. Speaker, would the gentlemen agree that if there is any problem which might unite Americans across economic lines, across educational lines, across racial lines, if there is any one problem at this point in our history that would bring us together and that we all would assign a priority to, it would be this problem of drug addiction and drug trafficking?

Mr. WALDON. Unquestionably the gentleman from Kings County is absolutely, as the expression goes, on the money. All parents value the greatest resource that they have and the greatest gift that they can give to humanity, which is their children. We see the children falling like flies in certain areas.

There was an example brought to my attention 2 weeks ago of a third grader who was playing in the streets. Someone walked up to him and gave him crack in a vial. He did not know what it was and he did not comprehend the danger of ingesting it. He chewed it and he is still in a comatose state.

I believe when there is an understanding of what crack can do in terms of destruction of the human mind and to the human body that America will raise up and begin to attack crack, because it is not respective of any social class. It is not respective of any community and it is extremely devastating and just a killer of all people.

Mr. OWENS. As the gentleman heard, I am proposing a very tiny adjustment in the current law which would help in the enforcement of law with respect to the sale of cocaine. I certainly do not offer improved law enforcement as the only approach to solving this very horrendous problem.

The gentleman is an ex-police officer. The gentleman is very knowledgeable about the field of law enforcement. What does the gentleman think the limitations are, how far can we go with enforcement, and is enforcement the only answer?

Mr. WALDON. Well, naturally, enforcement is not the only answer, but certainly I believe that we must take a harder line of approach to enforcement. When we see so many children dying and the purveyors of this death are in a turnstile justice system, if you will, meaning that after they are arrested they are often on the streets before the police officer can finish the paperwork in court, then something is wrong.

I think we look at mandatory sentencing in regard to those who deal in death.

I think we should look at making sure that just the possession of a small amount, but when we see a series of actions of the sale of these drugs that these people should be subject to felony punishment and should be prosecuted to the fullest extent of the law.

We are talking about losing a generation of people, not one or two children in Cambria Heights, not three or four children in the Rockaways. We are talking about nationwide losing a generation of children.

I do not think there is any step we can take that is too swift, too timely, too severe in correcting this evil that is pervasive in America.

□ 2340

Mr. OWENS. I think that the gentleman might be interested to know that the drug enforcement effort of the Federal Government, as inadequate as it may be, has actually increased under the Reagan administration. The amount of money spent from fiscal year 1981 to fiscal year 1985 jumped from $707.6 million to $1.2 billion in fiscal year 1985. This is too small an amount for such an enormous problem, but at least it is a 70-pecent increase.

It is noteworthy that there is an increase under the Reagan administration in the amount of money put into drug enforcement efforts. The Drug Enforcement Agency did have their budget increased. They were shielded from Gramm-Rudman by their Department. There was an increase in the amount of money spent.

On the other hand, at the same time, the drug abuse prevention and treatment programs were cut drastically; from the small amount of $404 million in 1981 they were cut to $252.9 million in 1985. That is a 40-percent cut in programs, and usually the local governments and the State governments have not picked up the difference, and they are not capable of financing the kind of treatment programs that are out there. The stricter enforcement of the law sort of squeezes everybody, and a large number of people who in the face of strict enforcement would like to get themselves cured and are seeking relief are becoming members of a very long waiting list.

Recently the drug prevention agency in New York State ordered all of the drug treatment agencies to not turn anybody away, to accept everybody who comes for treatment. That order was quite profound and dramatic in one sense. On the other hand, it was ridiculous in view of the fact that the resources that the drug treatment agencies have do not allow them to just accept all the people who need to be accepted. So there must be, concomitant with a stricter enforcement effort, more money for drug abuse prevention and treatment.

During the period, for example, when the Federal Government was increasing its drug enforcement efforts, and they climbed 70 percent, the amount of cocaine consumed in this country, or the amount of cocaine estimated to have been consumed in this country, went up 40 percent. The amount of heroin consumed went up 55 percent. It is obvious that the enforcement effort is needed. We need a greater enforcement effort. But it is obvious that that is not going to cure the problem, that the treatment must be there, and also with the treatment, there must be a massive education program to prevent young people from getting involved with drugs.

Probably if we had to separate the effort and create priorities, the first priority should go to a drug abuse preventive education program, the kind of program which the Education and Labor Committee will be discussing and finalizing tomorrow as a part of a comprehensive package to deal with drug abuse that will be presented by the entire House.

I think that we must note the fact that in our schools very little time is assigned to the effort to educate young people with respect to drugs. We must also note the fact that a great deal of misinformation is available in the textbooks or the various materials that are available to teachers.

We had a person testify before the Education and Labor Committee last week who pointed out that there have been numerous books written where they insist that marijuana is not a harmful or addictive drug. There have been others that have followed the trend of describing cocaine as a recreational kind of drug, a plaything. We must start with just the preparation of decent educational materials, the preparation of textbooks and various materials that might be used in the schools, and continuing through the whole chain of the media from print to radio to television to the need for a massive educational effort.

I hope that since the gentleman mentioned a number of churches that have been involved in the present effort to deal with the present crisis that there will be a continuing effort beyond the time when the drama of this present epidemic is over of the churches as well as the schools to provide this kind of educational program.

I think that it is incumbent upon all of us to spread the word, and if there are successful examples of churches and special agencies that have been able to make some unusual headway in providing the kind of effective preventive education that is needed, they should be also recorded and become a part of the record of what we are trying to do here in the House.

I know of some programs that exist in New York City. The Phoenix House Program is celebrated all over the city. The Daytop Village Program is a celebrated program. They are all full of people already, and they have long waiting lists. I do not know whether the gentleman knows of any other ex-

amples of churches or other organizations that have also been successful.

Mr. WALDON. My colleague, the gentleman from Kings County, triggered a thought. This morning I participated in a press conference with Monsignor Bryant from Daytop Village and the comptroller of the city of New York, Harrison J. Golden. I learned at that press conference that last year, $23 million was allocated for Daytop to do what it has to do in terms of trying to save young people who have become involved in drug abuse. This year that budget was cut back to $19 million. The monsignor pointed out to us that they have waiting now in the State of New York about 5,000 young drug abusers trying to get into a program. The comptroller went out to Rikers Island, interviewed 32 or more young criminals, and asked how they had become involved in the criminal justice system. All of them—almost—said that they had either been using alcohol or hard drugs, and that was what precipitated their involvement with the criminal justice system. Of the 28 who admitted to drug abuse, 21 stated that they had gone out after being rejected by a treatment facility—meaning the facility just did not have enough beds to take them in when they got to a point in time where they were willing to say, "I've had enough; I want to change my lifestyle. Someone please help me." And there was no place at the inn. These 21 young people went back to the streets and to committing crime to support their habits.

The monsignor pointed out that the average heroin addict steals about $13,000 worth of goods from his friends and neighbors in order to sustain his habit on an annual basis.

I agree that we have to reset—and I think that that is the point that the gentleman was making—we have to reset or reorient our priorities regarding the treatment of these young addicts. We have to recognize that it is not only the education of the young people, but the education of their parents so their parents will, first, perhaps change their behavior which is precipitating some of the behavioral patterns of their children, and also so that the parents will recognize the symptomologies of drug abuse so that someone can intercede at an early enough time and perhaps save some of these lives from going down the tube.

Mr. OWENS. I thank the gentleman from the sixth district, and would like to conclude by saying that our point is that the people are demanding action. They have made it clear that they are tired, they are fed up, they have had enough, they would like to see some real action, and we would like for this effort that the Government—both the White House and the Congress—is initiating not to degenerate into just a public-relations effort.

We have very serious problems with large amounts of drugs coming in from Mexico, from Southwest Asia, from Turkey, from Iran, from Afghanistan, from Pakistan. All of these countries are not our enemies, they are our allies. They are not Communist countries. There is no great friction between us. They are our allies, and they are often receiving a great deal of aid from us. Surely we can do more to stop the flow of drugs from those countries into this country—Burma, Laos, Thailand, in the Western Hemisphere Colombia, Bolivia, Peru, all of these countries are friendly countries receiving aid from the United States. There should be a way to interdict and prevent a greater quantity of drugs from coming into this country.

We are speaking today about the problem of drug abuse. It has reached epidemic proportions. Crack has entered the picture and made the price for each use of a drug for a person seeking this kind of gratification cheaper. The volume therefore allows them to sell more of it. It is more widespread. It has become the drug of choice for the people who have little money, as well as the drug of choice for the affluent people who drive about poor neighborhoods in high-priced cars and make purchases of these drugs.

□ 2350

In the case of New York City, it has begun to respond, and in other towns and cities across the Nation there has been a response. But it will have to be followed by the Federal Government having a very real response with dollars behind it.

Foreign aid restrictions requiring that countries where illegal drugs are grown must implement crop control measures are welcome at this time. However, our ability to influence the internal affairs of other countries has its limits. The second step of importation is within our control and yet we fail miserably to stop the drugs at our borders. We must do more to stop the drugs at our borders. This is, in large measure, a failure to insist that there be sufficient Coast Guard and Immigration and Naturalization inspectors, and if necessary, greater use of our Armed Forces. Indiscriminate budget cuts have definitely been a problem. They have decreased the control of resources at a time when the importation of drugs has greatly increased.

The ease which drugs come into this country is a national scandal. At this time, for example, Colombia, a major cocaine producer, has done such a good job in limiting the acetone and ether needed to process cocaine that it is being shipped into this country in larger amounts in a raw form, and it is being refined here. The simple step that our Government could take to also limit the amount of acetone and ether that is available to assist in the processing of cocaine would also greatly limit the amount of cocaine available. More attention must be paid to the fact that we have to control every aspect of the drug problem. We owe it to our children, we owe it to the fabric of our total society which will continue to be afflicted by higher and higher rates of crime, greater and greater loss of productivity, and many other very serious problems if we do not take steps to guarantee that this problem is eliminated.

We must put a real effort behind the programs that we are proposing. We must not allow the war against drugs to generate into a war of press releases.

Mr. Speaker, I yield back the balance of my time.

## LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mrs. HOLT (at the request of Mr. MICHEL), for today, on account of a necessary absence.

Mr. YATES (at the request of Mr. WRIGHT), until 4 p.m., on account of illness in the family.

## SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. HOYER) to revise and extend their remarks and include extraneous material:)

Mr. NEAL, for 5 minutes, today.

Mr. PANETTA, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. BARNES, for 5 minutes, today.

Mrs. COLLINS, for 60 minutes, today.

Mr. RAY, for 30 minutes, on August 13 and 14.

## EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. MCCOLLUM) and to include extraneous matter:)

Mr. JEFFORDS.

Mr. DORNAN of California.

Mr. LAGOMARSINO.

Mr. FRENZEL.

Mr. HENRY.

Mr. YOUNG of Alaska.

Mr. DAUB.

Mr. MILLER of Washington.

Mr. CRANE.

Mr. KEMP.

Mr. TAYLOR.

Mr. YOUNG of Florida in two instances.

(The following Members (at the request of Mr. HOYER) and to include extraneous matter:)

Mr. ANDERSON in 10 instances.

Mr. GONZALEZ in 10 instances.
Mr. BROWN of California in 10 instances.
Mr. ANNUNZIO in six instances.
Mr. JONES of Tennessee in 10 instances.
Mr. BONER of Tennessee in five instances.
Mr. YATES.
Mr. FAZIO.
Mr. SOLARZ.
Mr. DYSON.
Mr. MURTHA.
Mr. ROYBAL.
Mr. DANIEL.
Mr. FLORIO.
Mr. RODINO.
Mrs. SCHROEDER.
Mr. MARTINEZ.
Mr. BARNES.
Mr. TORRICELLI.
Mr. OBEY.
Mr. JACOBS.
Mr. MOODY.
Mr. HAWKINS.

## BILL PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, a bill of the House of the following title:

H.R. 4184. An act to authorize appropriations to the National Science Foundation for the fiscal year 1987, and for other purposes.

## ADJOURNMENT

Mr. WALDON. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 11 o'clock and 53 minutes p.m.), under its previous order, the House adjourned until tomorrow, Tuesday August 12, 1986, at 10 a.m.

## EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4024. A communication from the Director, Office of Management and Budget, transmitting a cumulative report on rescissions and deferrals of budget authority for August 1986, pursuant to 2 U.S.C. 685(e) (H. Doc. No. 99-256); to the Committee on Appropriations and ordered to be printed.

4025. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a listing of contract award dates for the period September 1, 1986 to October 31, 1986, pursuant to 10 U.S.C. 139(b); to the Committee on Armed Services.

4026. A letter from the auditor, District of Columbia, transmitting a copy of his report entitled "District of Columbia Statehood Constitutional Convention and Statehood Commissions," pursuant to D.C. Code section 47-117(d); to the Committee on the District of Columbia.

4027. A letter from the auditor, District of Columbia, transmitting a copy of his report entitled "Review of the Use of General Obligation Bond Proceeds During Fiscal Year 1985," pursuant to D.C. Code section 47-117(d); to the Committee on the District of Columbia.

4028. A letter from the Secretary of Health and Human Services, transmitting a draft of proposed legislation to amend the Black Lung Benefits Act to provide for the rounding down to the next lower 10 cents at each intermediate stage of benefit computation, and rounding down to the next lower dollar of the actual benefit amount payable; to the Committee on Education and Labor.

4029. A letter from the Chairman, Interagency Committee on Cigarette and Little Cigar Fire Safety, Consumer Product Safety Commission, transmitting a report on the technical and commercial feasibility and economic impact of developing cigarettes and little cigars with a minimum propensity to ignite furniture and mattresses, pursuant to 15 U.S.C. 2054 nt.; to the Committee on Energy and Commerce.

4030. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

4031. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

4032. A letter from the Deputy Assistant Secretary of Defense, transmitting notification of a proposed new records system submitted by the Department of the Navy, pursuant to 5 U.S.C. 552a(o); to the Committee on Government Operations.

4033. A letter from the Deputy Assistant Secretary of Defense, transmitting notification of a proposed new records system submitted by the Defense Intelligence Agency, pursuant to 5 U.S.C. 552a(o); to the Committee on Government Operations.

4034. A communication from the Clerk, U.S. House of Representatives, transmitting a quarterly report of the Clerk of the House of Representatives covering receipts and expenditures appropriations and other funds for the period April 1, 1986 through June 30, 1986, pursuant to 2 U.S.C. 104a (H. Doc. No. 99-255); to the Committee on House Administration and ordered to be printed.

4035. A letter from the Deputy Associate Director for Royalty Management, Department of the Interior, transmitting notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

4036. A letter from the Deputy Associate Director for Royalty Management, Department of the Interior, transmitting notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

4037. A letter from the Deputy Associate Director for Royalty Management, Department of the Interior, transmitting notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

4038. A letter from the Secretary of the Interior, transmitting the 20th Anniversary Report on the National Historic Preservation Act, consisting of three parts: The Secretary of the Interior's Purposes, Goals and Objectives; Program Initiatives and Recommendations; and a Section-by-Section Analysis of the National Historic Preservation Act, pursuant to 16 U.S.C. 470w-6(a), (b); to the Committee on Interior and Insular Affairs.

4039. A letter from the general counsel, Federal Emergency Management Agency, transmitting a draft of proposed legislation to amend the Disaster Relief Act of 1974; to the Committee on Public Works and Transportation.

4040. A letter from the U.S. Trade Representative, transmitting the semiannual report of reviews and hearings on complaints of unfair trade practices by foreign governments, pursuant to 19 U.S.C. 2416, 2413; to the Committee on Ways and Means.

4041. A letter from the Secretary of Labor, Chairman of the Board, and Kathleen P. Utgoff, Executive Director, Pension Benefit Guaranty Corporation, transmitting the 11th Annual Report of the Pension Benefit Guaranty Corporation covering fiscal year 1985, which includes the Corporation's financial statements as of September 30, 1985, pursuant to 29 U.S.C. 1308; jointly, to the Committees on Ways and Means and Education and Labor.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. HAWKINS: Committee on Education and Labor. H.R. 3102. A bill to strengthen the technological literacy of the Nation through demonstration programs of technology education; with an amendment (Rept. 99-778). Referred to the Committee of the Whole House on the State of the Union.

Mr. DINGELL: Committee on Energy and Commerce. H.R. 4426. A bill authorizing natural gas and hazardous liquid pipeline safety programs for fiscal year 1987, and for other purposes; with amendments (Rept. 99-779, Pt. I). Ordered to be printed.

## REPORTS OF COMMITTEES ON PRIVATE BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. GLICKMAN: Committee on the Judiciary. H.R. 1755. A bill for the relief of David Butler, Aldo Cirone, Richard Denisi, Warren Fallon, Charles Hotton, Harold Johnson, Jean Lavoie, Vincent Maloney, Austin Mortensen, and Kurt Olofsson; with an amendment (Rept. 99-780). Referred to the Committee of the Whole House.

Mr. GLICKMAN: Committee on the Judiciary. H.R. 2574. A bill for the relief of the survivors of Christopher Eney (Rept. 99-781). Referred to the Committee of the Whole House.

Mr. GLICKMAN: Committee on the Judiciary. H.R. 3896. A bill for the relief of Marlboro County General Hospital Charity, of Bennettsville, South Carolina (Rept. 99-

782). Referred to the Committee of the Whole House.

## SUBSEQUENT ACTION ON A REPORTED BILL SEQUENTIALLY REFERRED

Pursuant to clause 5 of Rule X the following action was taken by the Speaker:

Referral of H.R. 3653 to the Committee on Energy and Commerce extended for a period ending not later than September 9, 1986.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 5, of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. HAWKINS (for himself, Mr. FORD of Michigan, Mr. GAYDOS, Mr. CLAY, Mr. BIAGGI, Mr. MURPHY, Mr. KILDEE, Mr. WILLIAMS, Mr. MARTINEZ, Mr. OWENS, Mr. HAYES, Mr. PERKINS, Mr. WALDON, Mr. SOLARZ, Mr. DYMALLY, and Mr. ATKINS):

H.R. 5378. A bill to establish a program of Federal grants to States for drug abuse education and prevention in elementary and secondary schools, and for other purposes; to the Committee on Education and Labor.

By Mr. BATEMAN:

H.R. 5379. A bill to authorize the Secretary of Transportation to release restrictions on the use of certain property conveyed to the Peninsula Airport Commission, VA, for airport purposes; to the Committee on Public Works and Transportation.

By Mr. HUGHES:

H.R. 5380. A bill to require the Administrator of the Environmental Protection Agency and the Administrator of the National Oceanic and Atmospheric Administration to conduct a joint study of the adverse effects that the pollution of the environment caused by discarding or dumping of plastics on land and in the waters have on the environment, including the effects on fish and wildlife, and to make recommendations for eliminating or lessening such adverse effects; jointly, to the Committees on Science and Technology, and Merchant Marine and Fisheries.

By Mr. HUNTER (for himself, Mr. ROBINSON, Mr. ARMEY, Mr. BLILEY, Mrs. BENTLEY, Mr. DIOGUARDI, Mr. DORNAN of California, Mr. GEKAS, Mr. GINGRICH, Mr. RUDD, Mr. WALKER, and Mr. WORTLEY):

H.R. 5381. A bill to require the use of the Armed Forces for interdiction of narcotics at U.S. borders; jointly, to the Committees on Armed Services and the Judiciary.

By Mr. LEVINE of California (for himself and Mr. MILLER of Washington):

H.R. 5382. A bill to amend the Federal Election Campaign Act of 1971 to adjust certain contribution limits for elections for the House of Representatives, to provide for public financing for general election campaigns for the House of Representatives, and for other purposes; to the Committee on House Administration.

By Mr. MADIGAN (for himself and Mr. MICHEL):

H.R. 5383. A bill to revoke prior authorization to import liquefied natural gas through certain facilities; to the Committee on Energy and Commerce.

By Mr. MADIGAN (for himself and Mr. MICHEL):

H.R. 5384. A bill declaring as against public policy certain restrictions in natural gas pipeline tariffs; to the Committee on Energy and Commerce.

By Mr. MOORHEAD (for himself and Mr. DREIER of California):

H.R. 5385. A bill to authorize the appropriation of sums necessary to provide for a 50-percent increase in border patrol personnel; to the Committee on the Judiciary.

By Mrs. SMITH of Nebraska:

H.R. 5386. A bill to amend the Commodity Credit Corporation Charter Act to require the Corporation to make loans to grain needing storage facilities on their farms; to the Committee on Agriculture.

By Mrs. SMITH of Nebraska:

H.R. 5387. A bill to amend the Agricultural Act of 1949 to require the Secretary of Agriculture to allow early and direct entry into the producer reserve program for the 1985 and subsequent crops of wheat and feed grains; to the Committee on Agriculture.

By Mr. TAYLOR (by request):

H.R. 5388. A bill to amend title 5, United States Code, to establish a simplified management system for Federal employees, and for other purposes; to the Committee on Post Office and Civil Service.

By Mr. YOUNG of Alaska:

H.R. 5389. A bill to withdraw certain public lands in the State of Alaska for military purposes, and for other purposes; jointly, to the Committees on Interior and Insular Affairs, and Armed Services.

By Mr. ROYBAL:

H.J. Res. 700. A joint resolution to designate the week of October 26, 1986 through November 1, 1986, as "National Adult Immunization Awareness Week"; to the Committee on Post Office and Civil Service.

By Mr. GEJDENSON (for himself, Mr. SAXTON, Mr. DORGAN of North Dakota, Mr. BILIRAKIS, Mr. GREEN, Mr. DWYER of New Jersey, Mr. TOWNS, Mr. WALDON, Mr. HOYER, Mr. FROST, Mr. CHANDLER, Mr. MRAZEK, Mr. DAVIS, Mr. PORTER, Mr. WHEAT, Mr. SILJANDER, Mr. HAYES, Mrs. BOXER, Mr. HUGHES, Mr. FORD of Michigan, Mr. MORRISON of Washington, Mr. OWENS, Mr. MCCLOSKEY, Mr. KILDEE, Mr. SABO, Mr. WISE, Mr. STAGGERS, Mr. BRYANT, Mr. GINGRICH, Mr. WEAVER, Mr. WIRTH, Mr. SHELBY, Mr. WOLPE, Mrs. SCHROEDER, Mr. WILSON, Mr. KEMP, Mr. MACK, Mr. DICKS, Mr. SOLOMON, Mr. THOMAS of California, Mr. ROBERT F. SMITH, Mr. LEVINE of California, Mr. ERDREICH, Mr. MONTGOMERY, Mr. NICHOLS, Mr. LAGOMARSINO, Mr. GUNDERSON, Mr. BLAZ, Mr. STRATTON, Mr. BENNETT, Mr. BEILENSON, Mr. LOWRY of Washington, Mr. SISISKY, Mr. FOLEY, Mr. DURBIN, Mr. HAWKINS, Mr. GRAY of Illinois, Mr. HALL of Ohio, Mr. DELLUMS, Mr. LEACH of Iowa, Mr. CARPER, Mr. WATKINS, Mr. SCHUMER, Mr. FRANK, Mr. GEPHARDT, Mr. GONZALEZ, Mr. GILMAN, Mr. BADHAM, Mr. DICKINSON, Mr. FOGLIETTA, Mr. LUNGREN, Mr. MACKAY, Mr. CHAPPIE, Mr. LEHMAN of California, Mr. MCEWEN, Mr. BATES, Mr. COLEMAN of Texas, Mr. ROTH, Mr. ORTIZ, Mr. ROYBAL, Mr. REID, Mr. SHAW, Mr. FIELDS, Mr. HENRY, Mr. MONSON, Mr. COBEY, Mr. STRANG, Mr. MCMILLAN, Mr. DENNY SMITH, Mr. BOULTER, Mr. TAUKE, Mr. BEDELL, Mr. ECKART of Ohio, Mr. GARCIA, Mr. MANTON, Mr. RAHALL, Mr. EDWARDS of Oklahoma, Mr. DORNAN of California, Mr. LIGHTFOOT, Mr. TORRICELLI, Mr. ROWLAND of Connecticut, Mr. SOLARZ, Mr. GAYDOS, Mr. MARKEY, Mrs. MEYERS of Kansas, Mr. ROBINSON, Mr. FRANKLIN, Mr. LIPINSKI, Mr. CHENEY, Mr. TRAFICANT, Mr. GALLO, Mr. ROBERTS, Mr. MOAKLEY, Mr. DYMALLY, Mr. BROWN of California, Mr. JONES of North Carolina, Mr. MOODY, Mr. HERTEL of Michigan, Mr. SCHEUER, Mr. MCCAIN, Mr. GUARINI, Mr. BRUCE, Mr. ASPIN, Mr. CHAPMAN, Mr. COELHO, Mr. MOLLOHAN, Mr. TORRES, Mr. GORDON, Mr. MCKINNEY, Mr. DYSON, Mr. THOMAS of Georgia, Mr. SIKORSKI, Mr. STOKES, Mr. ACKERMAN, Mr. RANGEL, Mr. FEIGHAN, Mr. SMITH of Florida, Mr. KLECZKA, Mr. BROOKS, Mr. ATKINS, Mr. BIAGGI, Mr. DONNELLY, Mr. EARLY, Mr. JONES of Tennessee, Mr. MINETA, Mrs. LONG, Mrs. BOGGS, Mr. VENTO, Mr. MITCHELL, Mr. FORD of Tennessee, Mr. RITTER, Mr. MOLINARI, Mr. CARNEY, Mr. MCGRATH, Mr. LOWERY of California, Mr. AUCOIN, Mr. DASCHLE, Mr. HYDE, Mr. WEBER, Mr. EMERSON, Mr. WHITTAKER, Mr. NELSON of Florida, Mr. SPENCE, Mr. CLINGER, Mr. HENDON, Mr. ANDREWS, Mr. LIVINGSTON, Mr. PURSELL, Mr. KASTENMEIER, Mr. JEFFORDS, Mr. SHUSTER, Mr. LOTT, Mrs. SMITH of Nebraska, Mr. LEHMAN of Florida, Mr. APPLEGATE, Mr. DANNEMEYER, Mr. CALLAHAN, Mr. NATCHER, Mr. WHITEHURST, Mr. WALKER, Mr. SKEEN, Ms. SNOWE, Mr. MCKERNAN, Mrs. ROUKEMA, Mr. FASCELL, Mr. MICA, Mr. YOUNG of Missouri, Mr. VOLKMER, Mr. SUNDQUIST, Mr. DE LUGO, Mr. ROGERS, Mr. MARTIN of New York, Mr. SNYDER, Mr. OXLEY, Mr. COATS, Mr. BLILEY, Mr. MILLER of Washington, Mr. OBERSTAR, Mrs. MARTIN of Illinois, Mr. BARTON of Texas, Mr. HOPKINS, Mr. STUMP, Mr. ROEMER, Mr. RALPH M. HALL, Mr. BARNARD, Mr. TAUZIN, Mrs. LLOYD, Mr. FAZIO, Mr. MAVROULES, Ms. OAKAR, Mrs. KENNELLY, Mr. STARK, Mr. BOLAND, Mr. PRICE, Mr. SHARP, Mr. ROE, Mr. PERKINS, Mr. SKELTON, and Mr. CARR):

H. J. Res. 701. A joint resolution to designate October 6, 1986, as "National Drug Abuse Education Day" to the Committee on Post Office and Civil Service.

By Mr. GONZALEZ:

H.J. Res. 702. A joint resolution to amend the Constitution to provide for statehood for the District of Columbia; to the Committee on the Judiciary.

By Mr. PANETTA:

H.J. Res. 703. A joint resolution to authorize and request the President to designate the week beginning April 12, 1987, as "National Week of the American Taxpayer"; to the Committee on Post Office and Civil Service.

By Mr. SMITH of Florida:

H. Con. Res. 379. A concurrent resolution concerning human rights violations in Nicaragua; to the Committee on Foreign Affairs.

## ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 93: Mr. DORNAN of California, Mr. LAGOMARSINO, Mr. WEBER, Mrs. BENTLEY, Mr. SMITH of New Hampshire, and Mr. PORTER.

H.R. 1295: Mr. MRAZEK.

H.R. 1769: Mr. OBEY.

H.R. 1877: Mr. GALLO and Mr. DE LUGO.

H.R. 1902: Mr. WHITEHURST.

H.R. 2952: Mr. GEKAS.

H.R. 3024: Mr. STRATTON, Mr. RAY, Mr. SPENCE, Mr. MATSUI, Mr. SIKORSKI, Mr. WATKINS, Mr. JENKINS, and Mr. FRANKLIN.

H.R. 3040: Mr. FROST.

H.R. 3661: Mr. FISH.

H.R. 3894: Mr. DELAY.

H.R. 3989: Mrs. BOXER, Mr. GILMAN, Mr. OBEY, Mr. PANETTA, and Mr. SAXTON.

H.R. 4336: Mr. PACKARD, Mr. DEWINE, and Mr. SILJANDER.

H.R. 4338: Mr. GRAY of Illinois, Mrs. BOXER, Mrs. BURTON of California, Mr. MARLENEE, and Mrs. SCHROEDER.

H.R. 4412: Mr. WISE.

H.R. 4591: Mr. BRUCE, Mr. WEBER, Mr. LEHMAN of California, and Mr. SKELTON.

H.R. 4682: Mr. ATKINS.

H.R. 4709: Mr. DYSON.

H.R. 4714: Mr. CRAIG and Mr. LEACH of Iowa.

H.R. 4738: Mr. MARTINEZ.

H.R. 4761: Mr. THOMAS of Georgia, Mr. CHANDLER, Mr. KOLBE, Mr. WOLPE, and Mr. EVANS of Illinois.

H.R. 4763: Mr. ARMEY.

H.R. 4871: Mr. DONNELLY.

H.R. 4872: Mr. DWYER of New Jersey.

H.R. 4922: Mr. PANETTA, and Mrs. BENTLEY.

H.R. 4936: Mr. CLINGER.

H.R. 5060: Mr. BARNES, Mr. HYDE, Mr. HANSEN, and Mr. SHUMWAY.

H.R. 5064: Mr. SAXTON, Mr. KLECZKA, Mrs. MARTIN of Illinois, and Mr. DIOGUARDI.

H.R. 5065: Mr. SAXTON, Mr. KLECZKA, Mrs. MARTIN of Illinois, and Mr. DIOGUARDI.

H.R. 5066: Mr. GRAY of Illinois.

H.R. 5145: Mr. ECKART of Ohio, Mr. MCCAIN, Mr. WALDON, Mr. MINETA, and Mr. UDALL.

H.R. 5156: Mr. PACKARD, Mr. MITCHELL, and Mr. FEIGHAN.

H.R. 5179: Mr. ACKERMAN, Mr. BERMAN, Mrs. BOGGS, Mr. BORSKI, Mr. BOUCHER, Mrs. BURTON of California, Mr. BUSTAMANTE, Mr. COELHO, Mr. COYNE, Mr. EVANS of Illinois, Mr. FASCELL, Mr. FEIGHAN, Mr. FRANK, Mr. FUSTER, Mr. GARCIA, Mr. HOYER, Mr. HUGHES, Mr. KASTENMEIER, Mr. LEHMAN of Florida, Mr. LEVIN of Michigan, Mr. LEVINE of California, Ms. MIKULSKI, Mr. MINETA, Mr. MRAZEK, Mr. OBERSTAR, Mr. OWENS, Mr. RANGEL, Mr. RICHARDSON, Mr. ROYBAL, Mr. SAVAGE, Mr. SISISKY, Mr. TORRES, Mr. VENTO, Mr. WEISS, Mr. WHEAT, and Mr. WOLPE.

H.R. 5189: Mr. KOLBE, Mrs. BENTLEY, Mr. TALLON, Mr. APPLEGATE, Mr. THOMAS of Georgia, and Mr. ROGERS.

H.R. 5195: Mr. LOWERY of California, Mr. MORRISON of Connecticut, Mr. DAUB, Mr. MRAZEK, Mr. SCHUMER, Mrs. BOXER, Mr. REID, Mr. CROCKETT, Mr. WEISS, Mr. RINALDO, Mr. DIXON, Mr. MITCHELL, Ms. KAPTUR, Mr. GARCIA, Mr. MCDADE, and Mr. NIELSON of Utah.

H.R. 5209: Mr. MITCHELL, Mr. HORTON, Mr. YOUNG of Alaska, and Mr. WEBER.

H.R. 5214: Mr. TAUKE, Mr. GINGRICH, Mr. THOMAS of Georgia, and Ms. OAKAR.

H.R. 5275: Mr. MCDADE, Mr. MITCHELL, Mr. HILER, and Mr. JACOBS.

H.R. 5305: Mr. TOWNS, Mr. STUDDS, Mr. AKAKA, Mr. CROCKETT, Mr. RANGEL, Mr. STARK, and Mr. MITCHELL.

H.R. 5306: Mr. FUSTER, Mr. ROYBAL, and Mr. FRANK.

H.R. 5326: Mr. MONSON, Mr. DE LA GARZA, Mr. CHANDLER, and Mr. SWIFT.

H.R. 5328: Mr. STAGGERS, Mr. MURPHY, Mr. MARTINEZ, Mr. TALLON, Mr. STALLINGS, Mr. SYNAR, Mr. PARRIS, Mr. GRAY of Illinois, and Mr. KOSTMAYER.

H.R. 5329: Mr. MILLER of Ohio.

H.R. 5350: Mr. PENNY, Mr. MCCLOSKEY, Mr. SCHUETTE, and Mr. COLEMAN of Missouri.

H.R. 5371: Mr. BARNARD.

H.J. Res. 346: Mr. COBLE and Mr. SUNDQUIST.

H.J. Res. 379: Mr. BURTON of Indiana.

H.J. Res. 417: Mr. EDGAR, Mr. EDWARDS of California, Mr. BOEHLERT, and Ms. MIKULSKI.

H.J. Res. 438: Mr. FRANK, Mr. HANSEN, Mr. MCMILLAN, Mr. MANTON, Mr. FOGLIETTA, Mr. RODINO, Mr. ROBERT F. SMITH, Mr. HENRY, and Mrs. KENNELLY.

H.J. Res. 552: Mr. BATEMAN, Mr. HALL of Ohio, Mr. MAVROULES, Mrs. VUCANOVICH, Mr. FASCELL, Mr. KANJORSKI, Mr. GUARINI, Mr. AUCOIN, Mr. STRANG, and Mr. ATKINS.

H.J. Res. 564: Mr. LEWIS of California, Mr. MILLER of Ohio, Mr. PORTER, Mr. CHAPPIE, Mr. HARTNETT, Mr. HANSEN, Mr. PARRIS, Mr. MCEWEN, Mr. WHITTAKER, Mr. RITTER, Mr. BATEMAN, Mr. WEBER, Mr. BILIRAKIS, Mr. PACKARD, Mr. BROWN of Colorado, and Mr. YOUNG of Alaska.

H.J. Res. 583: Mr. WILSON, Mr. SKELTON, Mr. SUNIA, Mr. LELAND, Mr. DAVIS, Mr. ANTHONY, Mr. PERKINS, Mr. WAXMAN, Mr. ERDREICH, Mr. WALGREN, Mr. DERRICK, Mr. TAUZIN, Mr. WYDEN, Mr. JONES of North Carolina, Mr. PORTER, Mr. LUKEN, Mr. TRAXLER, Mr. CARNEY, Mr. BOUCHER, Mr. PEPPER, Mr. NEAL, Mr. MURPHY, Mr. MCDADE, Mr. LIGHTFOOT, Mr. KLECZKA, Mr. PICKLE, and Mr. FEIGHAN.

H.J. Res. 584: Mr. FRANK, Mr. PASHAYAN, Mr. FISH, Mr. SAXTON, Mr. AKAKA, Mr. OLIN, Mr. RANGEL, Mr. WEAVER, Mr. BONIOR of Michigan, Mr. MOAKLEY, Mr. HALL of Ohio, Mr. CALLAHAN, and Mr. DANNEMEYER.

H.J. Res. 611: Mr. GEJDENSON, Mr. ACKERMAN, Mr. MURTHA, Mr. WHEAT, Mr. SISISKY, Mr. GARCIA, Mr. LEHMAN of California, Mr. BARNES, Mr. BRYANT, Mr. CHAPMAN, Mrs. LONG, Mr. MARKEY, Mr. MCGRATH, Mr. HAWKINS, Mr. TRAXLER, Mr. KILDEE, Mrs. LLOYD, Mr. REID, Mr. ROWLAND of Connecticut, Mr. MCCOLLUM, Mr. MAVROULES, Mrs. BOGGS, Mr. LEWIS of California, Mr. FUQUA, Mr. HENDON, Mr. DREIER of California, Mr. MCCLOSKEY, Mr. BOEHLERT, Mr. CARNEY, Mr. MICHEL, Mr. MOODY, Mr. SABO, Mr. FOLEY, Mr. MCHUGH, Mr. HAMILTON, Mr. NATCHER, Mr. WHITTEN, Mr. GREGG, Mr. COATS, Mr. HILER, Mr. MILLER of California, Mr. JEFFORDS, Mr. AUCOIN, Mr. SLAUGHTER, Mr. DELAY, Ms. SNOWE, Mr. WOLPE, and Mr. KOLTER.

H.J. Res. 639: Mr. ORTIZ, Mr. CROCKETT, Mr. LUNDINE, Mr. BARTLETT, Mr. FUSTER, Mr. CARNEY, Mr. EVANS of Iowa, Mr. HAYES, Mr. KOLTER, Mr. ATKINS, Mrs. BURTON of California, Mr. BUSTAMANTE, Mr. PURSELL, Mr. WOLPE, Mr. GRADISON, Mr. STENHOLM, Mr. RALPH M. HALL, Mr. SUNIA, Mr. TRAXLER, Mr. WIRTH, Mr. FLIPPO, Mr. BROOMFIELD, Mr. EVANS of Illinois, Mr. LIGHTFOOT, Mr. MANTON, Mrs. LLOYD, Mr. WALKER, Mr. ROGERS, Mr. APPLEGATE, and Mr. ANDERSON.

H.J. Res. 685: Mr. ANDERSON, Mr. WORTLEY, Mrs. BENTLEY, Mr. ROE, Mr. KOSTMAYER, Mr. LAGOMARSINO, Mr. HORTON, Mr. FAZIO, Mr. LUKEN, Mr. OWENS, Mr. PASHAYAN, Mr. DYMALLY, Mr. FAUNTROY, and Mr. HUGHES.

H. Con. Res. 208: Mr. JEFFORDS.

H. Con. Res. 306: Mr. GARCIA, Mr. EDGAR, and Mr. ZSCHAU.

H. Con. Res. 359: Mr. KILDEE, Mr. VENTO, Mr. FISH, and Mr. ACKERMAN.

H. Con. Res. 378: Mr. HYDE, Mr. SMITH of Florida, and Mr. WILSON.

H. Res. 373: Mr. WALDON.

## DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 4972: Mr. KOLTER.

## PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

458. By the SPEAKER: Petition of the Stated Clerk, Office of the General Assembly, Presbyterian Church (U.S.A.), relative to Contra aid; to the Committee on Foreign Affairs.

459. Also, petition of the Chairman, the Suquamish tribe, Suquamish, WA, relative to the imposition of Federal income taxes on Tribal commercial fisherman; to the Committee on Ways and Means.

460. Also, petition of the Executive Director, Commission on Nuclear Projects, Carson City, NV, relative to the site selection process for nuclear waste; jointly, to the Committee on Energy and Commerce and Interior and Insular Affairs.

## AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 1309

(Amendment in the Nature of a Substitute)

By Mr. PETRI:

—Strike out all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Occupational Hazard Communication Act of 1986".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) potentially harmful substances and physical agents are in wide industrial and commercial use in the United States;

(2) workers may suffer disability or death or both from occupational diseases caused by hazardous occupational exposures;

(3) protecting occupational safety and health facilitates interstate commerce and promotes the general welfare;

(4) early notification of exposure to harmful substances and physical agents often permits medical intervention in the biological process of disease to either prevent or, by early detection, successfully treat some disease conditions;

(5) workers should be informed of exposure to an occupational hazard and the risks of contracting an occupational disease from such exposure;

(6) there is a need for increased research to identify the causes of occupational diseases; and

(7) prevention and early detection of occupational disease may reduce the costs of medical treatment and care in the United States.

(b) PURPOSES.—It is the purpose of this Act—

(1) to establish a Federal program to require employers to notify workers that they are at risk because of a hazardous occupational exposure; and

(2) to establish a set of worker protections against discrimination on the basis of notification of occupational health hazards.

SEC. 3. RESEARCH.

The Secretary shall, primarily through the National Institute for Occupational Safety and Health, conduct research into improving the means of surveillance of employees exposed to occupational health hazards, and research into improved means of medical monitoring and treatment of employees exposed to occupational hazards. Such research shall include but not be limited to the following areas—

(1) studying the etiology and development of occupationally related diseases, and the development of disabilities resulting from such diseases;

(2) developing means of medical surveillance of employees exposed to occupational health hazards;

(3) examining the types of medical treatment available to workers exposed to occupational health hazards, and the means of medical intervention to prevent the deterioration of the health and functional capacity of employees disabled by occupational diseases;

(4) studying and developing medical treatment and allied social services to be made available to employees exposed to occupational health hazards; and

(5) developing educational programs designed to advise employers, employees, and employees' families to take measures which ameliorate the effects of those hazards and diseases.

SEC. 4. HAZARD COMMUNICATION STANDARD.

(a) REQUIRED STANDARD.—Not later than six months after the date of enactment of this Act, the Secretary shall amend the hazard communication standard contained in section 1910.1200 of title 29 of the Code of Federal Regulations so that such standard—

(1) applies, notwithstanding section 4(b)(1) of the Act, to all employers, including manufacturing, mining, construction, and transportation;

(2) requires that employers provide information and training to current employees concerning health hazards to which employees are exposed in the employees' work areas;

(3) requires that employers make available to former employees, upon request, a list of the health hazards that were present in the employees' work areas during their employment and of which they were not previously informed;

(4) provides that the Secretary will, by means of public service announcements, inform former employees of their right to request such lists; and

(5) requires that training of employees with respect to hazards emphasizes the chronic and acute health effects associated with such hazards in a manner which promotes early detection and treatment.

(b) COOPERATIVE AGREEMENTS.—The Secretary may enter into cooperative agreements with other Federal agencies for the purpose of implementing and enforcing the standard amended in accordance with subsection (a).

(c) USE OF NOTICE.—Notice given under subsection (a)(3) of the presence of a health hazard in the workplace shall not be used as evidence that an employee was exposed to that hazard in any judicial or adminstrative proceeding.

SEC. 5. EMPLOYEE DISCRIMINATION.

(a) DISCRIMINATION PROHIBITED.—No employer shall discharge or in any manner discriminate against any employee because such employee has filed any complaint or instituted or caused to be instituted any proceeding under or related to this Act or has testified or is about to testify in any such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act.

(b) REINSTATEMENT.—Any employee who is determined to have been discriminated against in violation of this section shall be restored to his or her employment and shall be compensated for any lost wages (including fringe benefits and seniority).

(c) REVIEW OF DISCRIMINATION COMPLAINTS.—Any employee who believes he or she has been discriminated against by any employer in violation of subsection (a) of this section, may, within 30 days after such violation occurs, file a complaint with the Secretary alleging such discrimination. Any such complaint shall be reviewed in the same manner as a complaint filed under section 11(c) of the Act.

SEC. 6. ENFORCEMENT AUTHORITY.

(a) IN GENERAL.—Except as provided in subsection (c), the hazard communication standard amended by the Secretary in accordance with section 4 of this Act shall be treated as a standard prescribed by the Secretary pursuant to section 6 of the Act. Except as provided in subsections (b) and (c), such standard shall be administered and enforced under the Act in the same manner as a standard prescribed pursuant to section 6 of the Act (but without regard to section 4(b)(1) of the Act).

(b) PENALTIES.—Except as provided in subsection (c), a violation of such hazard communication standard shall, for purposes of section 17 of the Act, be treated as a violation of a standard prescribed pursuant to section 6 of such Act, except that—

(1) the failure of an employer—

(A) to make a hazard determination,

(B) to have a written hazard communication program,

(C) properly to label or use other warnings,

(D) to record on a material safety data sheet the information required with respect to any chemical, or

(E) to establish and conduct an employee training and information program,

shall be treated as a serious violation under section 17(k) of such Act;

(2) any employer who willfully violates such standard, if there is substantial probability that death or serious physical harm could result, shall, upon conviction, be punished by a fine of not more than $25,000, except that if the conviction is for a violation committed after a first conviction under this paragraph, the employer shall be punished by a fine of not more than $50,000;

(3) any employer who willfully violates such standard, if the violation results in death, shall also be subject to section 17(e) of the Act; and

(4) any employer who knowingly makes a false statement in the material safety data sheet with respect to any health hazard required by such standard shall be subject to section 17(g) of the Act.

(c) ENFORCEMENT IN COAL AND OTHER MINES.—(1) For purposes of any coal or other mine (as such terms are defined in section 3(h) of the Federal Mine Safety and Health Act of 1977), the hazard communication standard as amended by the Secretary in accordance with section 4 of this Act shall be treated as a mandatory standard prescribed by the Secretary pursuant to section 101 of the Federal Mine Safety and Health Act of 1977. Such standard shall be administered and enforced under such Act in the same manner as a standard prescribed under section 101 of such Act. Such standard shall, not later than six months after the date of enactment of this Act, be modified by such regulations as the Secretary may determine to be necessary to carry out the purposes of this subsection.

(2) A violation of such hazard communication standard at such a coal or other mine shall, for purposes of section 110 of such Act, be treated as a violation of a standard prescribed pursuant to section 101 of such Act.

SEC. 7. EFFECTS ON OTHER LAWS.

(a) STATUTES OF LIMITATIONS.—The notification of an employee under the standard prescribed pursuant to this Act shall not commence the tolling of any statute of limitations with respect to any legal claim, except as may be specifically provided by State law.

(b) PREEMPTION OF STATE AND LOCAL LAW.—Notwithstanding section 506 of the Federal Mine Safety and Health Act of 1977 or any other Federal law, the hazard communication standard prescribed pursuant to this Act shall preempt any State or local law pertaining to evaluation of hazards associated with substances present in the work place and communication of chemical identities with respect to such potential hazards.

SEC. 8 DEFINITIONS.

As used in this Act—

(1) the terms "Secretary", "employer", and "employee" have the meanings given by section 3 of the Act; and

(2) the term "the Act" means the Occupational Safety and Health Act of 1970.

# EXTENSIONS OF REMARKS

## HYPOCRISY FILLETED AT UNITED NATIONS

**HON. ROBERT J. LAGOMARSINO**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. LAGOMARSINO. Mr. Speaker, following the visit to the United Nations by Sandinista Leader Daniel Ortega, U.S. Ambassador to the United Nations Vernon Walters responded to the Nicaraguan United Nations Ambassador's charge that an earlier statement Walters made was filled with lies. Ambassador Walters' reply provides a useful summary of the abuses and indignities perpetrated by the Sandinista regime in Nicaragua. I urge my colleagues to read what Ambassador Walters has to say.

[From the Washington Times, Aug. 7, 1986]

HYPOCRISY FILLETED AT U.N.

(By Vernon Walters)

Of the many countries who have criticized the United States for its alleged failure to accept the judgment of the International Court of Justice, it is interesting to note that only one of them accepts the compulsory jurisdiction of the court, and that country has carefully excluded from its acceptance any possibility of being brought before the court on claims such as those at issue here today.

It is a fascinating and odd experience to be lectured on justice and respect for law by the representative of Cuba, a country which has been for more than 25 years a vast concentration camp where liberty is crushed and unknown thousands are tortured and in prison. One has only to read Armando Valladares's book on his 22 years in Castro's jails to know what happens there. I will not dignify the vituperous personal insults that he addressed to me. He speaks of recent injustice. It is well that he does not speak of truth. Two million people have fled his country to escape scientific terrorism. The same can be said for the representative of Vietnam who followed him. Four million people have fled from these two paradises.

The American people find it instructive to see who the Sandinistas have chosen to speak on their behalf: Cuba, Vietnam—countries not known for their respect for human rights and dignity. The United States is not isolating itself from the rest of the world. Millions are trying to get into the United States. Who is trying to immigrate to Nicaragua, Cuba, or Vietnam? Anyone who wants to leave my country is free to do so without fear of being shot by the border guards or put in prison.

I might add, not many want to, even though we have heard how evil it is here today. When the Polish representative talked about a big power motivated by ideological prejudices intervening in the affairs of a neighboring state, I wondered to which country he was referring.

Recently, the representative of Nicaragua stated that a presentation I had made earlier had been filled with lies. I would be interested in knowing just what lies she was talking about.

I described the Sandinstas' betrayal of the 1979 revolution. Is it a lie that former junta member Alfonso Robelo was harassed by the Sandinistas and forced into exile? Perhaps the Nicaraguan representative should look at a photograph of Robelo's home and car after they had been vandalized by the turbas divinas. These turbas are "divine mobs" (it is an interesting terminology)—controlled by Department F-8 of the Sandinistas' secret police—that are sent to intimidate opponents of the regime.

Is it a lie that Violeta Chamorro has also been maligned and harassed? Is it a lie that La Prensa has been shut down? I suggest that the Nicaraguan representative read Mrs. Chamorro's poignant letter in [a recent issue of] The New York Times.

Is it a lie that former junta member Arturo Cruz tried to run for president in 1984 but was denied the conditions of a fair election? Perhaps the Nicaraguan representative would like to see a photograph of Mr. Cruz after he had been attacked by the turbas during the campaign. I should point out that Mr. Cruz is in exile now because last year the Sandinistas refused to allow him to reenter Nicaragua because he was carrying a peace plan from the democratic resistance.

Is it a lie that the Sandinistas have sought to destroy the democratic labor movement? If the representative of Nicaragua does not choose to believe the International League of Human Rights, I suggest she read "Sandinista Deception Reaffirmed: Nicaragua Coverup of Trade Union Repression," an August 1985 study by the American Institute for Free Labor Development which provides detailed information on 39 cases of Sandinista repression of labor organizations. AIFLD is the Latin American arm of the AFL-CIO, an organization which I can assure the Nicaraguan representative is not controlled by the current U.S. administration.

Is it a lie that the Sandinistas have sought to crush Nicaragua's private sector? Did not the secret police gun down prominent businessman Jorge Salazar in November 1980? Were not several leaders of the umbrella organization COSEP jailed in October 1981, including an initial period of solitary confinement in which they were locked up nude in cold, dark dungeons? What heinous crime had these respected businessmen committed? They had the temerity to write Commandante Ortega protesting the Sandinistas' Marxist economic policies which were leading to economic ruin.

I could go on, describing for example how they have confiscated the property of current COSEP head Enrique Bolanos, or how they seized Ramiro Gurdian's property because of his comments on the reduction of Nicaragua's sugar quota, or how they tricked prominent industrialist—and former Red Cross president—Ismael Reyes to leave the country and then took over his property and arrested his son.

Is it a lie that the Sandinistas have replaced the Somocistas as the elite who exploit the Nicaraguan people? I suggest that the Nicaraguan representative look around the next time she returns to Managua and see for herself who lives in the nice homes, who drives the fancy cars, who shops at the exclusive dollar store. Perhaps then she will realize what the Sandinistas have done to Nicaragua.

Is it a lie that the Sandinistas have repressed the church? The representative of Nicaragua should read the letter delivered earlier this year from Cardinal Obando y Bravo to Secretary-General Perez de Cuellar of his May letter in *The Washington Post.* She should also read what Pope John Paul II said about the banishment of Bishop Vega and Monsignor Carballo. I also recommend she review the moving testimony by Jimmy Hassan of the Campus Crusade for Christ about his treatment at the hands of the Sandinista secret police. I would welcome the Nicaraguan representative's explanation of why that country's only synagogue was confiscated and turned over to the Sandinistas' children's organization.

For that matter, I would like to learn the grounds on which the Nicaraguan Government confiscated so many things—the Somoza newspaper, both television stations, several radio stations, countless buildings and other properties—and turned them over to the Sandinista party and its puppet organizations.

Is it a lie that the Sandinistas have persecuted the Miskito Indians? Perhaps the Nicaraguan representative should travel to the refugee camps in Honduras or Costa Rica and hear for herself the shocking details of Sandinista abuses.

Is it a lie that the Sandinistas have a secret police 10 times the size of Somoza's, and that they subject thousands of prisoners to multiple forms of abuse? Does the Nicaraguan representative mean to tell us that now Nicaragua will allow respected international organizations to visit the prisons of the secret police?

Is it a lie that the Sandinistas have, with massive Soviet and Cuban assistance, built the largest military machine in the history of Central America? Is it a lie that the draft is highly unpopular, that thousands of Nicaraguan youths have fled the country or gone into hiding to escape service in the army of the Sandinista party, and that antidraft riots have been ruthlessly repressed?

Is it a lie that the Sandinistas have attempted to export their Communist revolution? Would the Nicaraguan representative like to look at a photograph taken in 1980 of aircraft at Papalonal which were involved in the arms trafficking? What is her explanation for the Lada vehicle captured in Honduras last year which had been loaded in Nicaragua by the secret police with munitions, communications gear, and other material for the Salvadoran guerrillas?

Is it a lie that the Sandinistas have attacked their neighbors with their regular military forces? We all recall last March when the Nicaraguan representative told us that this was a lie, only to have Comandante Ortega later admit the incursion.

What is a lie is the Sandinistas' claim that they want a negotiated settlement. They

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

have consistently rejected all proposals for a dialogue with their opposition, ignoring the specific call for democracy and national reconciliation in the Contadora 1983 Document of Objectives. They scorned the church in 1984 when it proposed national reconciliation. They spurned the united appeal for a dialogue in January 1985 by Nicaragua's political parties who stated that the elections had done nothing to solve the country's deepening crises. They rebuffed the offer in March of last year by the democratic resistance for a dialogue. They are but a few of the calls for dialogue the Sandinistas have rejected.

We recall that in March of this year, Salvadoran President Duarte offered to resume negotiations with his armed opposition when the Sandinistas started negotiations with their armed opposition. The Central American democracies supported this plan and urged Nicaragua to agree; Nicaragua refused.

The Nicaraguan representative has distorted the position of my government, asserting that the United States was not interested in negotiations. I reiterate that the United States supports the regional peace process and will abide by a comprehensive, verifiable, and simultaneous implementation of the 1983 Contadora Document of Objectives. We are prepared to resume bilateral talks with Nicaragua in support of the regional peace process as soon as the Sandinistas initiate a simultaneous dialogue with their own opposition.

I call on the Nicaraguan representative to tell us now whether the Sandinista leadership is ready to dialogue with its opposition? Are the Sandinistas ready to sit down and talk seriously about peace? When could such talks begin? What are the conditions they require for such talks? If they are not willing to negotiate with their opposition, let them tell us now. Let them explain why they endorse peace talks in El Salvador, but reject them in Nicaragua. Let them tell us how the World Court was right on other issues, but somehow was wrong about the independent nature of the resistance. Let them tell us, so that we can all see how hollow is their professed desire for peace.

## DRUG TESTING OF FEDERAL EMPLOYEES

### HON. PATRICIA SCHROEDER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mrs. SCHROEDER. Mr. Speaker, the debate over mandatory drug testing of Federal employees reached near frenzy last week, as top administration officials rushed to volunteer for urinalysis tests to prove themselves drug free. Apparently the President doesn't believe the word of Federal employees who "just say no" to drugs—he wants independent proof.

Yet, after all the hoopla over the Pesident's urinalysis ends, the facts remain: drug testing has serious problems. In its report "Alcohol and Drugs in the Workplace," the Bureau of National Affairs notes that "while the tests have a 'high degree of reliability' under 'optimal conditions,' the tests can produce, in certain cases, 30 percent false positive rates." That's nearly 1 in 3 samples incorrectly identified as containing drugs.

The threat of mandatory drug testing diverts attention away from the administration's action to cut funding for drug treatment centers and the effect of Gramm-Rudman on law enforcement efforts. It also assumes that the Bill of Rights is primarily a hindrance, protecting those who abuse drugs as well as those who don't. The editors of the Philadelphia Inquirer and the Washington Post tackle these issues in the editorials attached below.

Finally, lest we lose our perspective on the subject, I attach "Jar Wars."

The articles follow:

[From the Washington Post, August 8, 1986]

BAD JOKE

The White House announced yesterday with a certain amount of pride that the president, vice president and 78 senior presidential aides will give urine samples to Navy doctors Monday in a mass drug test intended as an example to the rest of America. The announcement produced a predictable rush of bad jokes. The true bad joke is the idea itself.

Deputy press secretary Albert Brashear said the president accepted the suggestion of his drug policy adviser Dr. Calton Turner and domestic policy adviser John Svahn because "he believes all federal employees deserve a drug-free environment and that federal employees should set the example." He presumably meant in part the example of submitting to tests. There have been various calls within the administration for stepped-up drug testing of all federal employees, and the issue is said to be under consideration. The president's crime commission suggested systematic testing of workers in the private economy as well.

The theory is that testing will be a deterrent to use and demand; that the government has fought the drug trade mostly on the supply side up to now, and mostly failed; and that only by attacking demand does it have a chance to succeed. Mr. Brashear was industriously questioned by the White House press corps about the rules that would govern the testing. What if someone refused to submit? (No penalty, but his supervisor would of course note it.) What if someone tested positive? (A second test to make sure, then he would be asked to take counseling.)

There is a more basic question to be asked. A long time ago this society learned there was more to be gained than lost by assuming innocence before proof of guilt. The standard of probable cause embodies this lesson. Here, in a form of vigilantism, that standard is trampled. The White House says it would be a voluntary program, but it is only marginally less coercive than if required by law. We yield to none in abhorrence of drugs or desire to purge the society of their terrible influence. But the regimen to which this points will in the long run sap the society even more.

It is not just ludicrous, but invasive, the more destructive of the privacy and presumptions on which the society is based because it pretends not to disturb them. Call it off.

[From the Philadelphia Inquirer, Aug. 6, 1986]

CRUSADE AGAINST DRUGS, BUT USE REASON, NOT FORCE

President Reagan's decision to crusade personally against the blight of drug abuse is welcome. Americans abuse drugs alarmingly more than do the people of any other industrial nation. Millions suffer directly from broken health and broken lives. Tens of millions more suffer indirectly from the crime and corruption that drug trafficking spawns, from the personal tragedies borne by relatives and friends of loved ones lost to drugs, and from the economic inefficiency of drugged-out workers.

Leading the charge against such social blight is the obligation of political leadership, and Mr. Reagan is especially gifted at effectively using the "bully pulpit" of the White House to focus public attention. Equally welcome is his recognition that the war against drug abuse cannot be won at the borders and in the jungles of Latin America. As he says in an interview in the current edition of Newsweek, "The main thrust has got to be to get the people themselves to turn off to it."

There is a right way and a wrong way to go about that, and Mr. Reagan's policies embrace elements of both. The right way is to work to change public attitudes, to make drugs unhip, uncool and unpopular. Education, persuasion, reason and truth are the tools for that job. Such efforts have been under way for some time, but Mr. Reagan's commitment to energize them further will help. He recognizes that this is not something the federal government can do alone successfully. It requires involvement of each community's schools, governments and workplaces. It requires visible leadership not only by authority figures, but by cultural trend-setters such as stars from the worlds of sports and entertainment.

Education and persuasion can work, as recent declines in tobacco and alcohol consumption show. To be effective however, education campaigns must be truthful. Crude propaganda, such as the government's 1936 anti-marijuana film "Reefer Madness," only reinforce disbelief and dismissal of all warnings. Each popular illegal drug poses dangers, but the dangers differ. Distinctions must be made. Marijuana is not heroin. Alcohol ruins more lives than cocaine, heroin, PCP and marijuana combined.

Beyond education, the right way to fight drugs is to provide better rehabilitation services. That takes money. Mr. Reagan promises no new funds before fiscal 1988. A bipartisan campaign building in the House would beef up funding immediately. Clearly it's worth the expense, even in the Gramm-Rudman era. Scrap a missile, save some addicts.

The wrong way to fight drugs is excessive emphasis on authoritarian enforcement. Mass mandatory drug testing goes too far. Individuals should be presumed innocent unless probable cause exists to suspect that substance abuse is interfering with job performance. Due process must be respected. Even for offenders, the emphasis should be on rehabilitation.

Mr. Reagan appears not to sufficiently appreciate such concerns. Similarly, while tough enforcement against traffickers is necessary, overreliance upon the military must be guarded against. Zeal to fight a real problem must be restrained, lest it degenerate into overreaction that ultimately menaces civil liberties even more than the drug epidemic.

[From the Washington Post, Aug. 7, 1986]

GUILTY 'TIL PROVEN CLEAN?

In case you were worried about their on-the-job performance, President Reagan, Speaker O'Neill and Secretary of State

Shultz all volunteered this week to submit to drug tests. The president also said he's sure all the members of his Cabinet would be similarly cooperative. We'd guess that this list, plus a few other elected and appointed officials, would make up the total number of federal employees who are willing to put up with this intrusive and offensive procedure on a routine basis.

The idea of requiring all federal employees to provide urine samples at the office first surfaced last March when the President's Commission on Organized Crime made this crazy suggestion. There were predictable—and deserved—howls from employee unions, congressional committees and a lot of citizens who quickly say the civil liberties implications of this kind of testing. Even Attorney General Meese was cool to the plan, stating simply that the Justice Department "would review the proposal" at some unspecified time in the future.

But after all this battering, the idea does not yet appear to be dead and buried. We're not talking about tests for individuals whose conduct gives rise to reasonable suspicion that they are under the influence of drugs or even to a few sharply limited groups of employees—e.g., airline pilots and controllers—whose alertness is essential to the physical safety of others and who thus may be subject to stricter testing requirements than most. What is outrageous is the notion of the compulsory testing of all employees, a reversal of the presumption of innocence that requires a group of workers regularly to prove that they have not broken the law.

When President Reagan announced a new administration effort to combat drug use this week, he indicated that it was not his intention to require drug testing of all federal employees. His proposals have not yet been detailed, but their goal should be to limit testing to occasions where there is probable cause to believe an employee is an abuser or when safety and national security considerations are truly compelling.

Drug tests for all federal workers would be intrusive, humiliating and unfair. The idea should be buried once and for all.

[From the Washington Post, Aug. 8, 1986]

JAR WARS: TOP THIS, DEMOCRATS

(By Curt Suplee and Eric Hubler)

Not since Jimmy Carter toted his own baggage a few yards had citizens witnessed such a bold yet perplexing symbolic gesture.

The White House announced yesterday that President Reagan and Vice President Bush would submit urine samples for drug testing on Monday to set an example for the rest of the country.

It may be the smallest political donation of all time.

In a further display of the administration's commitment to a drug-free workplace, it was also announced that 78 members of the White House senior staff will be invited to join the leaders of the free world in "volunteering" urine specimens, to be examined for traces of heroin, marijuana, cocaine, PCP, some kinds of amphetamines and barbiturates.

Asked if the Senate was planning to match the collective effort of 80 White House donors, a spokesman for Senate Majority Leader Robert Dole said yesterday that "as far as I know, nobody's made any statement to that effect. But if it gets into a competition . . . well, we've got a hundred senators."

"Of course, these two guys don't use drugs," observed comedian Mark Russell. "Their idea of a psychedelic experience is looking at a Norman Rockwell painting."

Many saw the initiative as agreeing with Reagan's longstanding preference for privatization, while others regarded the act as emblematic of the president's attitude toward American farmers.

Still others spoke darkly of "sending a message to the Soviets." Speculation on the historic and metaphorical significance of the gesture continued to run riot at press time, though it was generally conceded to be a watersned in American history.

The inevitable line was provided by Mike Fernandez, press secretary to Sen. Ernest Hollings (D-S.C.): "There they go again with those government leaks."

Several suspiciously anonymous reports arrived at this office in the wake of yesterday's disclosure.

A venerable historian who insisted that he was ashamed to have his name mentioned said, "As 'an example to the rest of the country,' it is not among the most endearing in the history of the Republic. Think of Washington fording the Delaware or Lincoln at Gettysburg and you'll get a sense of what I mean."

Nonetheless, there were reports that by 5 p.m. yesterday, 114 noted portrait artists had applied to immortalize the event in oil.

A celebrated economist who asked that her name not be used praised the effort. "In this period of record trade deficits, industrial lethargy and titanic national debt, any display of federal liquidity is a welcome sign."

A placard-bearer in Lafayette Park remarked, "I like a man who's willing to stand up for what he believes in."

## FALLOUT IN NEW JERSEY FROM INSOLVENT INSURERS

---

## HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. FLORIO. Mr. Speaker, I recently placed in the RECORD (E 2460) articles summarizing my subcommittee's hearing on insurance company insolvencies. I am adding here an article from the Star-Ledger detailing the impact of such insolvencies in my own State of New Jersey. The article describes the ominous strain placed on the capacity of the State's guaranty fund, which is supposed to pay claims filed against involvent insurers. Members from other States will likely find similar problems in their own States. Mr. Speaker, this is a very troubling matter that we cannot afford to ignore.

[From the Star-Ledger, July 27, 1986]

INSURANCE WOES LEAVE SPECIAL JERSEY FUND HOLDING A $56 MILLION BAG

(By Vincent R. Zarate)

Twelve out-of-state commercial insurance companies licensed to do business in New Jersey have gone bankrupt and three others went under conservatorship in the last year because of the liability insurance crisis, leaving $56 million in potential unpaid claims.

Those claims will have to be paid from a special fund created 12 years ago to handle the debts of bankrupt companies.

Although the fund has $70 million on hand, the amount could shrink quickly in the next two or three years if insolvencies continue.

In fact, if all the claims of the 12 insolvent companies as well as previous ones are paid by the fund, the total will be $61.2 million, leaving only $8.8 million to handle future claims.

But State Insurance Commissioner Kenneth Merin said it is unlikely a surcharge would be reimposed in the near future. He conceded, however, it depended on how many more companies went bust and how much in claims they owed.

Jack Conover, assistant insurance commissioner in charge of the department's finance examination and liquidation section, said, "If the insolvencies continue then maybe one or two years from now we will have to reimpose the surcharge" on all property casualty insurance policies to replenish the fund.

Merlin said the insolvencies are a reflection of a national liability insurance problem. He said that some companies went bankrupt because they "underpriced their product or went under because of inefficiency."

He said the companies writing liquor liability and long distance trucking policies were in extreme difficulty because the lossers were much higher than the premium charged.

The Commissioner said the 12 companies that went bankrupt in the past year and the three that are in conservatorship are "symptomatic of the financial problems faced in general by companies who charged low rates to get ready cash for high investments several years ago, and went insolvent because they did not have enough money to pay their claims."

Merin said none of the bankrupt companies is New Jersey based, but most wrote commercial liability insurance for taverns, businesses and commercial vehicles.

The property casualty guaranty fund was created 12 years ago to make good outstanding claims unpaid by bankrupt companies.

Under the law, the fund got its money from a surcharge of one half percent of the total premium paid by each property casualty policyholder. The surcharge was imposed on policies covering cars, homes, professional liability, commercial vehicles, stores, businesses and industries.

When the fund reached $65 million in 1981, the then-commissioner, James Sheran, cancelled the surcharge because the fund had enough money to pay claims, limited to $300,000 to each policy holder.

Since then, the fund has been beefed up by investment income and easily handled the payment of outstanding claims.

But now that the number of companies "going under" nationwide is increasing, the fund is bound to be reduced and if the trend of insolvencies continues, and outstanding claims increase, the surcharge might have to be reactivated.

According to the National Association of Insurance Commissioners (NAIC), 501 of the 2,424 property casualty companies were in either immediate need of rehabilitation or "targeted attention" because of financial difficulties.

Two property casualty companies in New Jersey are "being carefully monitored" for their financial condition by the insurance department, according to Thomas Hooper, a department spokesman. The two were not identified because Hooper said the companies were still solvent and to disclose their names probably would only trigger cancellation of existing policies and exacerbate the financial problems.

The 12 insolvent companies collectively handled about $56 million worth of the $3.4 billion-a-year commercial insurance business in New Jersey.

But because of the state's property casualty guaranty fund, any New Jerseyan with a claim against any of the insolvent companies could be paid up to $300,000.

Many of the outstanding claims are less than that figure, and payments are not made until the claim is investigated thoroughly.

The insurance department said the companies that did business in New Jersey and since went bankrupt or placed in conservatorship are:

Midland Insurance Co. of New York, with $137.7 million worth of business nationwide, $3 million worth in New Jersey, but with potential unpaid claims in New Jersey at $18.7 million.

Allied Fidelity Insurance Co. of Indiana, which wrote liquor liability and once had premium volume of $98.1 million nationwide, and $6.8 million worth of business in New Jersey. When it "went under" it had unpaid claims to New Jersey policyholders of $957,000.

American Consumer Insurance Co. of New York which wrote $8.5 million nationwide, and $5,321 in New Jersey, with no outstanding claims to New Jersey policyholders at the lastest report.

American Druggists Insurance Co. of Ohio, in rehabilitation since March, which had written $4.7 million worth of business nationwide and $4,424 in New Jersey, with no outstanding claims in the state as of the latest filing.

American Fidelity Fire Insurance Co. of New York, which wrote $19.9 million worth of business nationwide, and $1.1 million worth of New Jersey business, with unpaid claims of $917,506 to New Jersey policyholders.

Carriers Insurance Co. of Iowa, which wrote $46 million worth of business nationwide, and $1.5 million worth in New Jersey, with unpaid claims for New Jersey policyholders at $1 million.

Enterprise Insurance Co. of California, placed in conservatorship last November when it was writing $119.8 million worth of business nationwide, with $154,000 worth in New Jersey and unpaid New Jersey claims of $96,000.

Great Global Assurance Co. of Arizona, writing $59.7 million worth of business nationwide, and $597,000 worth in New Jersey, with unpaid New Jersey claims at $102,000.

Ideal Mutual Insurance Co. of New York, writing $200 million worth of business nationwide, $4.9 million worth in New Jersey and with unpaid claims in New Jersey worth $7.9 million.

Mission Insurance Co. of California now under conservatorship. It had written $311 million worth of business nationwide, $6.6 million worth in New Jersey and unpaid New Jersey claims of $415,000.

Mission National Insurance Co. of California, now in conservatorship. It had written $220 million worth in the nation, and $6.7 million in New Jersey, with unpaid New Jersey claims of $10.5 million.

Transit Casualty Co. of Missouri, writing $227 million worth of business in the nation, and $9.5 million worth in New Jersey, with unpaid New Jersey claims of $13.6 million at the latest report.

Union Indemnity Insurance Co. of New York, writing $68 million worth of business nationwide, with $3.7 million in New Jersey and unpaid New Jersey claims of $2 million.

## COOPER EVANS

### HON. LEON E. PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, August 7, 1986*

Mr. PANETTA. Mr. Speaker, I rise today to join my colleagues in congratulating COOPER EVANS on his retirement from Congress at the end of the year. It has been a great experience working with COOPER over the past 6 years, and he will surely be missed by Members on both sides of the aisle.

COOPER and I have served together on both the Agriculture Committee and the Select Committee on Hunger. On the Agriculture Committee, he has effectively represented his farm constituents and has been a unifying force for bipartisanship. I have found COOPER particularly helpful as we have worked to address the enormous credit crisis facing members of the farm community throughout the country. His genuine concern and creativity have been vital to the committee's efforts in this area.

On the hunger issue, COOPER has been a strong voice of compassion on behalf of the hungry in this country as well as those overseas.

Mr. Speaker, COOPER EVANS will truly be missed by me, by members of our committees, and by the House. I know my colleagues join me in wishing him the best of luck in the years ahead.

## COMPREHENSIVE CAMPAIGN FINANCE REFORM ACT

### HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. LEVINE of California. Mr. Speaker, today my colleague from Washington Representative JOHN MILLER and I are introducing legislation known as the Comprehensive Campaign Finance Reform Act. This measure is designed to increase public participation in the electoral process by providing for taxpayer financing of House general election congressional campaigns and by imposing strict, new spending, and contribution limits on political action committees. Unlike other campaign reform measures, this bill not only further restricts the amount which a PAC can give to a single candidate, but also limits the total amount a PAC can contribute to all Federal candidates in an election cycle. I am confident that if this legislation is enacted, it will make elected officials more accountable to the entire public and less beholden to a few money special interest groups.

I believe that the vast majority of my colleagues share my concern about the recent proliferation of PAC's and their disproportionate role in congressional contests and legislative activities. In the 1974 election, 608 PAC's contributed $12.5 million to congressional candidates. A decade later, 4,000 PAC's gave over $100 million to congressional candidates. This trend is even more troubling in light of the fact that the increase in PAC receipts has been accompanied by a relative decrease in contributions from individual citizens. Individual contributions have dropped from three-fourths—73 percent—of total House receipts in 1974 to less than half—47 percent—in 1984.

I am not so much disturbed by the existence of special interest groups as I am by the disproportionate influence they wield. What distinguished a powerful interest group is not necessarily its membership or popularity, but rather its wealth. During the last decade, annual PAC expenditures have increased tenfold. Their capacity to influence the legislative process has grown accordingly. Yet, I am not convinced that these special interest groups are championing the interests of the public any more effectively today than they were 10 years earlier. What is clear is that enormous pressures have been placed on representatives to accommodate the interests of these well-heeled lobbying organizations.

I am also disturbed by the growth of independent groups which can spend unlimited money for or against a candidate. Because of such groups, candidates for Congress find themselves having to run against both an opponent and a formidable and unaccountable political action committee. It is no wonder that the average cost of campaigning for the House has tripled since 1974.

In order to promote equal balance between the role of PAC's and individual contributors in elections, I would like to see the House adopt the Comprehensive Campaign Reform Act of 1986. This measure limits the amount of money a congressional candidate may accept from a PAC to $100,000 per election cycle. PAC contributions to individual candidates will be reduced from $5,000 to $2,500. Unlike a number of other campaign finance reform proposals, my legislation does not raise individual contribution limits. Raising the $1,000 individual limit will affect a very small percentage of the electorate and will do nothing to give voice to the millions of Americans who already feel shut out of political process.

In order to limit the overall influence of the most active PAC's, my legislation provides that a special interest group may only contribute up to $500,000 to all candidates in an election cycle. This novel provision would force the top PAC's to curb their spending habits and perhaps limit their ability to influence the legislative process. While placing a limit on overall spending by an individual PAC is an unprecedented legislative recommendation, it is based on the well-established notion that while PAC's themselves may be useful, there is something alarming about the excessive amounts of campaign money that flow from very few PAC organizations. Consequently, limited number of special interest groups have disaproportionately dominated the attention of members and the legislative process itself.

In order to make House candidates and Members more accountable to the public at large, the Comprehensive Campaign Reform Act proposes public financing for House general elections similar to the system utilized in the Presidential primary race. If participating candidates agree to abide by various spending limits, including an overall $350,000

spending ceiling, and the acceptance of small in-State contributions, then they may receive up to $100,000 in matching funds for $100 or less in-State contributions. If one candidate does not abide by these limits, then his opponent can receive an unlimited amount of matching funds for additional small contributions raised. Although this $350,000 spending ceiling may appear to be quite high, it was carefully chosen. This spending limit is high enough to ward against protecting incumbents, and low enough to encourage active competition without excessive campaign spending.

Finally, in order to protect candidates unlimited attacks by independent organizations, my legislation provides candidates with matching funds equal to the amount that is spent in independent advertising—in excess of $5,000—against them or for their opponents. Unlike other legislation, I have not proposed providing candidates with an equal amount of air time utilized by independent committees. Such a provision would chill the interests of broadcasters to air independent political advertising. Additionally, proposals which only provide matching air time to counter independent advertising are ineffective in countering independent advertising in newspapers and direct mail.

Running for, and remaining in, Congress is an expensive proposition. We should do all we can to ensure that elected offices cannot be bought and sold and that the public does not have such a perception of our political process. If we allow campaign costs to rise continually, Members and prospective candidates will only become more dependent on the support of a few moneyed interests. We have never supported a plutocratic form of government in this country and we never should. If government is to remain by the people and for the people, then Members of Congress must look for campaign support from all the people. Adoption of the Comprehensive Campaign Reform Act will help us return to that way of governing.

## COMPREHENSIVE CAMPAIGN FINANCE REFORM ACT

### HON. JOHN MILLER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. MILLER of Washington. Mr. Speaker, today I am joining with my distinguished colleague from California, Mr. LEVINE, to introduce the Comprehensive Campaign Finance Reform Act of 1986. This bill would limit campaign spending and restore the balance between PAC [political action committees] and individual participation in congressional elections. This measure would increase public participation in House general elections by providing Federal matching of individual contributions through expansion of the voluntary campaign checkoff system on Federal tax returns. The bill also would impose new and stricter spending and contribution limits on PAC's.

There is an urgent need for comprehensive reform of our campaign finance laws. Campaign spending has skyrocketed out of control, making it more and more difficult to run without enormous "war chests." With the enormous cost of campaigns has come an increasing reliance on PAC's to supply these great sums of money. At the same time, individual contributions have dropped significantly.

In its recent analysis, the Democratic Study Group found that contributions from individuals dropped from 73 percent of total House campaign receipts in 1974 to only 47 percent in 1984. According to the Congressional Research Service, PAC contributions to House candidates from 1974 to 1984 increased from 17 percent of total receipts to 37 percent for all candidates and from 19 percent to a 43 percent for incumbents. The average House winner spent $289,000 in 1984, compared with $87,000 in 1976. House winners in close races in 1984 spent an average of $498,000 with successful challengers spending an average of $514,000.

As a result of these trends in campaign finance practices, the typical Member of Congress is spending more and more time with PAC's and less and less time with Dick and Mary Mainstreet. Mr. Speaker, we are not trying to eliminate the role of PAC's, we are trying to preserve the role of the individual.

The public is losing confidence in our political system and rightly so. I have been receiving an increasing number of constituent letters questioning the influence of PAC's on House Members. Our ability to represent our districts is diminished when so much time and effort must be devoted to fundraising for the next election.

The bill we are introducing today is based on concepts developed in earlier proposals for public financing of general elections and on the PAC and other restrictions found in the Boren proposal. To this structure we have added some provisions never before—to the best of our knowledge—included in reform legislation of this kind.

The public financing system we propose is both constitutional and fair. While the 1976 Supreme Court decision in Buckley versus Valeo ruled against spending limits in congressional races, it specifically allowed spending limits in Presidential elections if a voluntary public funding system was in place. Thus, public financing provides a method of controlling overall campaign costs while also encouraging small individual contributions and discouraging reliance on PAC's. It also promotes more equal access to the political arena for all candidates, thus countering the trend toward relying on personal wealth and/or interest groups as a prerequisite for political office.

The new system would allow a maximum of $100,000 in individual contributions to be matched. Taxpayer financing would be triggered when the candidate has received $10,000 in small contributions—defined as contributions under $100. The system would be financed by increasing the current voluntary taxpayer checkoff on individual tax returns, the source of public financing currently provided in Presidential elections. Money raised after January 1 of an election year up to election day would be eligible for matching. This would give sufficient leeway to candidates with late primary dates to meet their eligibility requirements by the time they are nominated.

An overall spending limit of $350,000 would be imposed for the general election. This figure was chosen with a great deal of care aftrer reviewing the available data. We believe it represents a realistic spending figure which will help mitigate against incumbent protection. Personal and immediate family campaign expenditures would be limited to $20,000 per candidate in the general election.

The bill adopts several important limits on PAC contributions. House candidates could accept up to $100,000 in contributions per election cycle from all political action committees. PAC's could contribute a maximum of $2,500 per election, as opposed to the current $5,000 limit. We have also added a new provision which would limit the total amount of money which can be contributed by a PAC to all candidates in an election cycle to $500,000. While PAC's have their place in election financing, we want to make sure that the role of individual citizens is preserved—there must be a balance.

The legislation includes a provision to address the growing problem of independent expenditures. If a candidate is the target of advertising through an independent expenditure in excess of $5,000 made either against that candidate or in support of his opponent, additional taxpayer financing would be triggered. This additional financing would equal the amount of the independent expenditure beyond $5,000.

The Supreme Court decision in Buckley versus Valeo made limits on independent expenditures unconstitutional. By allowing additional public financing to counter independent expenditures, the candidate whom spending is directed against will have the opportunity to respond to it, and the incentive for this type of campaign expenditure will be reduced.

Finally, the bill would address the "soft money" problem by requiring the reporting of money which crosses State lines in excess of $1,000, even money which is given to State and local committees and candidates.

The term "soft money" refers to election-related money raised or spent outside the parameters of the Federal election laws. In recent elections, the national political parties have played an increasing role in directing money which could not be spent in national elections—either because the PAC or individual had reached the maximum limit or because it was corporate or labor money which is prohibited in Federal elections—to State and local political parties and campaigns where such funding is permitted, thereby undermining the spirit of the Federal election laws. Although this money is spent by State parties and campaigns, there is at least an indirect impact on Federal elections.

This spending has become a new loophole without limits. Since "soft money" is a new phenomenon, we have limited our reform to uniform, centralized disclosure; however, further data may suggest other methods for addressing this new loophole.

Mr. Speaker, we believe this bill will go a long way toward correcting many of the abuses and potential for abuse in our current campaign financing system. As more and more PAC's contribute more and more money to congressional candidates and incumbents,

the individual, small contributor is losing influence to group interests that all too often focus on a single issue. When this happens, we all lose. For example, over the years Members of Congress have too often voted not to benefit the general public interest of the taxpayers, but to benefit groups or interests. This is one of the major contributing factors to our $200 billion annual budget deficit. If we want to reduce the deficit we should make sure that Members of Congress are less dependent on contributions from special interest groups and more dependent on campaign contributions from the general public. In fact, I believe with the exception of Gramm-Rudman, this proposal would do more to reduce the deficit than any other measure introduced in this Congress. Mr. Speaker, I believe that it is important to listen to the PAC's and the single interest groups, but it is just as important to listen to Joe and Mary Mainstreet. This legislation will restore some much needed balance to campaign financing and rein in the ever increasing costs of campaigning for Congress.

COMPREHENSIVE CAMPAIGN FINANCE REFORM ACT OF 1986

PAC LIMITATION

Limits the amount of money a candidate for the House of Representatives may accept from political action committees to $100,000 per election cycle, plus an additional $25,000 in the event of a run-off election and $25,000 if the candidate is opposed in both a primary and general election (there is no limit under current law).

Limits the amount of money which can be contributed by a PAC to a federal candidate to $2,500 per election (the current limit is $5,000).

Limits the total amount of money which can be contributed by a PAC to all federal candidates in an election cycle to $500,000 (there is no limit under current law).

Closes the loophole for conduit or bundled contributions by requiring the contributions to count toward the limit of the agent (e.g. a PAC) collecting the funds, instead of only the limit of the individual writing the check, as in current law.

CAMPAIGN SPENDING LIMITS

These limits are constitutional only under a system of voluntary taxpayer financing.

Limits the amount of personal and immediate family campaign expenditures to $20,000 per candidate in the general election (there is no personal spending limit under the current law).

Limits overall spending by a House candidate in a general election to $350,000 (there is no overall spending limit under current law).

TAXPAYER FINANCING

Taxpayer financing for House general elections is to be provided by the voluntary income tax check-off (triple the current amount). Public financing for congressional races is not a part of current law.

If both candidates agree to abide by the limits contained in the bill, a one-to-one match of their $100 or less contributions would take place. For every $100 in contributions, the candidates receives $100 in taxpayer financing.

A maximum of $100,000 in such contributions may be matched.

Taxpayer financing is triggered when the candidate has received $10,000 in small contributions (defined as contributions under $100) and is to be dispersed in increments of $10,000. A candidate can be eligible for taxpayer financing only if at least two candidates qualify for the ballot.

Money raised after January 1 of an election year up to election day is eligible for matching (to address the late primary dates in some states). To ensure an effective matching system for the general election for all states, it is envisioned that the Federal Election Commission would draft regulations requiring candidates to keep separate accounts for the primary and general elections.

Contributions of only $100 or less from individuals can be matched, and all of these contributions must be provided by residents of the state in which the election is held.

If one candidate agrees to abide by the limits and his or her opponent does not, then two things happen. The first candidate is released from the overall spending limit and the $100,000 limitation on total public funds. That candidate would still receive a 1-1 match in taxpayer financing.

INDEPENDENT EXPENDITURES

Allows a candidate to be provided additional taxpayer financing when the candidate is the target of advertising through an independent expenditure. The additional taxpayer financing would equal the amount of independent expenditures in excess of $5,000, even if this means exceeding the public funding limit.

Independent expenditures are made by individuals or groups on campaign activities, such as the purchase of TV or newspaper advertisements, without coordination or consultation with any candidates.

SOFT MONEY

Requires the reporting to the Federal Election Commission of any money which crosses state lines in excess of $1,000, even money which is given to state and local committees and candidates (there is no current provision providing this reporting).

"Soft money" refers to election-related money raised or spent outside the parameters of the federal election laws. This loophole has allowed money which could not be spent in national elections (either because the PAC or individual had reached the maximum limit or because it was corporate or labor money which is prohibited in federal elections) to be directed to state and local political parties and campaigns where such funding is permitted. Although this money is spent at the state level, there is at least an indirect impact on federal elections, yet there is no centralized system of disclosing such expenditures.

## SHIRLEY COLETTI—A NATIONAL LEADER IN OUR BATTLE AGAINST DRUG ABUSE

### HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. YOUNG of Florida. Mr. Speaker, drug abuse education and prevention has been of particular concern throughout our Nation this summer, as well it should. However, for Shirley Coletti, a friend and constituent of mine from St. Petersburg, FL, the battle against drug abuse goes back more than 20 years.

It was in 1964 that Shirley first suggested the need for drug education programs to her Pinellas County friends and neighbors. At the time, the thought of children using drugs was shunned by parents.

Despite the initial cool response to her suggestion, Shirley continued to voice her concerns to community leaders, who over time began to understand the need for drug and alcohol education programs. By 1971, her efforts culminated in the founding of Operation PAR [parental awareness and responsibility], a program to raise parents' understanding and knowledge about the use of drugs and alcohol by children.

Today Shirley Coletti is executive director of Operation PAR. She also serves as president of the National Federation of Parents for Drug-Free Youth.

Her work to educate children and parents about the dangers of drug and alcohol abuse have received national attention. This summer she was honored for her efforts by President and Mrs. Reagan during a White House ceremony. She also has been appointed by the President to serve on the Caucus on International Narcotics Control.

Following my remarks, I would like to include for my colleagues, a story from the July 15, 1986, St. Petersburg Evening Independent, which provides more detail about Shirley's work. Despite a society that was slow to accept her words of warning about the use and abuse of drugs and alcohol by our youth, Shirley persevered. Her role as national leader in this difficult battle has finally been recognized. More importantly though, her efforts have met with success as thousands of children throughout our country and our Nation better understand the threat to their health and safety caused by drugs and alcohol.

[From the Evening Independent, July 15, 1986]

PINELLAS ANTIDRUG CRUSADER GAINS NATIONAL RECOGNITION

(By Phyllis Winfield)

Twenty years ago, parents wouldn't discuss the possibility that their children were using drugs, says the executive director of Operation PAR, Pinellas County's parental education and drug-prevention program. At least, says Shirley D. Coletti, that's the way it was in her St. Petersburg neighborhood.

When two of Coletti's children began wearing flamboyant clothing and acting unusually rebellious, the mother of five wondered if they were smoking marijuana. And since she also noticed similar changes in the dress and behavior of their friends, Coletti decided to discuss her suspicions with parents in the neighborhood.

The year was 1964, and many middle-class parents in Pinellas County believed the only children who experimented with drugs lived in New York City or came from low-income families, Coletti says.

"None of them wanted to talk about it," says Coletti, 51. "It was like, 'Listen, lady, that's your problem. We don't have that kind of problem in our home.' When I was trying, in my neighborhood, to find other parents who thought their kids were experimenting with drugs, I was met with a tremendous amount of denial. When I brought it up that their kids might be involved, that's when they hung up the phone. And, unfortunately, a couple of the kids in our community went to prison and one had to go into treatment (for drug offenses)."

Undaunted by lack of community support, Coletti approached government officials

with the idea of starting a drug and alcohol prevention program to educate parents. Her efforts resulted in the birth of Operation PAR (Parental Awareness and Responsibility). It was founded in 1971 by former Pinellas County Sheriff Don Genung and Pinellas-Pasco State Attorney James T. Russell. Last year, Operation PAR served 26,000 Pinellas County residents.

In addition to increasing parental awareness of drug abuse, Coletti has reaped other rewards for her crusade against drugs. The Reagan administration recently appointed her to the Senate Caucus on International Narcotics Control, a panel established by the U.S. Senate to study drug-prevention programs around the world. Seven senators and five private citizens appointed by the President make up the caucus suggested by Sen. Paula Hawkins, R-Fla.

Coletti will be sworn in to her volunteer position on the panel this month. Toward the end of the month, she will head for Washington, D.C. to attend an organizational meeting of the caucus.

Coletti has already begun considering goals for the international caucus. "I'd like to see the white-collar investors put in jail," she says. "As long as there is the kind of profit motive that there is now (for drug traffickers), with millions of dollars to be made, things won't change."

She also hopes to persuade government offficials to channel money and property confiscated from drug dealers into drug rehabilitation and prevention programs. Another goal is to help secure the return of drug money deposited in Swiss bank accounts to the United States. Switzerland has agreed to investigate bank accounts held by suspected traffickers, but the Swiss will reap the benefits if officials discover the money was earned through drug sales, she says. "I'd really like to see that money returned to the U.S.," Coletti says.

Coletti also is president of the National Federation of Parents for Drug-Free Youth, an organization that consists of about 8,000 parent awareness groups in the United States. PAR is a member and affiliate of the organization. The national organization is funded by corporate and private donations and membership fees.

Coletti, who joined the national drug-prevention group in 1980, was among the members invited to the White House in 1982. They discussed with Nancy Reagan how the first lady could boost national awareness of escalating drug abuse. And President Reagan has visited Operation PAR and other drug-prevention centers in the county, she says.

The Kentucky native attributes her career successes to the encouragement of her mother, Geneva Mattes. "She taught me that I can really be in control of my own destiny, and that I can really bring about change," Coletti says.

A former registered nurse, Coletti moved to Pinellas County 26 years ago. She relocated after her first marriage ended so that she could live near her mother.

Coletti says she feels Pinellas parents need to do much more to boost their children's knowledge about the dangers of drug abuse. Communication is the key to solving drug-related problems, Coletti says. She advises parents to start discussing illegal drugs with their children when they are 3 years old.

You're not protecting your kid if you don't talk about drugs," Coletti says. "As parents, we have to work with our kids. Parents have to be knowledgeable about drugs. As an aware parent, we need to be aware of behavior changes, changes in their peer group. Because when they're 15 or 16, it's too late."

When she suspected her own children were experimenting with drugs, she never discussed her worries with them, she says. That was a mistake, she says, even though those children later abandoned drugs. "I'd have raised all my children differently if I'd known what I do now," Coletti says.

But she did talk more with her youngest son, 17-year-old Billy about drugs. "At age 13, I took him to every drug-abuse conference I attended," Coletti says. "And he is a non-smoker and a non-drug abuser."

Coletti believes her experience as a mother and former volunteer will add a less political touch to the Caucus on International Narcotics Control. Even though she's rubbed elbows with well-known politicians, she says, "I've never felt like a politician. I think that the fact that I'm a non-politician serving with equal status of senators will provide a grass-roots viewpoint of a national tragedy."

## "WE THE PEOPLE" CALENDAR TO BE OFFICIAL CALENDAR FOR OBSERVANCE OF BICENTENNIAL OF CONSTITUTION

### HON. BILL FRENZEL

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. FRENZEL. Mr. Speaker, House Concurrent Resolution 375 was passed by the Committee on House Administration on August 7. This resolution, sponsored by Representatives PICKLE, BOGGS, CRANE, OAKAR, GINGRICH, FOLEY, LOTT, and myself, will be brought before the House shortly. I urge its support.

House Concurrent Resolution 375 makes the 1987 edition of the U.S. Capitol Historical Society annual calendar the official calendar for our national observance of the Bicentennial of the Constitution. This edition has been carefully annotated to reflect events occurring in 1787. This legislation has the full support of the congressional members of the Commission on the Bicentennial of the United States Constitution.

The "We the People" calendar is only one of many fine efforts the U.S. Capitol Historical Society continues to undertake. Since its inception under the dedicated and tireless leadership of our former colleague, Fred Schwengel, the society has provided educational programs and historical seminars, published scholarly works and, perhaps the most noticeable of all, enhanced our Capitol Building through the beautiful historic murals of Allyn Cox. Another undertaking of great merit is the Commemorative Medal Program.

The gentleman from Texas, Mr. JAKE PICKLE, a member of the society's executive committee, joins me in presenting the following explanations of four ongoing programs to better acquaint you with the endeavors of the society. Please note that the first article regards the 1987 edition of the society calendar—the Bicentennial Calendar. When House Concurrent Resolution 375 is passed, the official designation of the 1987 U.S. Capitol Historical Society Calendar is not only a gesture appropriate to the bicentennial, but also it shows our appreciation for the fine work of the society over the years.

THE U.S. CAPITOL HISTORICAL SOCIETY ANNOTATED BICENTENNIAL CALENDAR

For almost twenty years, the United States Capitol Historical Society, in coordination with the Congress, has published an annotated calendar focused on bicentennial commemorations.

Generally, the commemorative annotations are drawn from the Revolutionary War era as a whole, with an intermixture of citations from the 1750's, 60s, 70s, and 80s. Now, however, in recognition of the Bicentennial of the U.S. Constitution, the calendar is being prepared on a strict bicentennial basis with every annotation referring to an occurrance of two hundred years ago exactly.

Next year's calendar will constitute one of the most comprehensive "time lines" for tracing the events of 1787, including not only the day-by-day events at the Constitutional Convention but also the broader context of public events that preceded the Convention as well as the aftermath in the efforts toward ratification.

The central challenge of the calendar project is to render historical data with brevity—as dictated by space constraints—while retaining substance. Research for the calendar, performed each summer by interns, is supervised by the Chief Historian of the United States Capitol Historical Society.

The basis for the calendar research is a bibliography of primary and secondary sources which the Chief Historian has certified as reliable. This bibliography is an invaluable resource for research in the mid-to-late 18th century. Moreover, calendar annotations produced in accordance with this procedure are being compiled by the United States Capitol Historical Society for possible future use in a comprehensive datebook of historical events in the Revolutionary War era.

Finally, the widely-praised pictorial component of the calendar has established a tremendous national audience for the calendar. The Society receives countless letters of acclaim for the calendar, especially from primary and secondary school educators. The Congress has always played an important role in maintaining the suitability and quality of the pictures. Economies of scale have made it possible for the United States Capitol Historical Society to produce the calendar at costs sufficiently low to sustain an annual distribution in the millions. Truly, the United States Capitol Historical Society's annotated bicentennial calendar is yet another tribute to the vision and hard work of the employees and officers of the Society.

WE THE PEOPLE—THE STORY OF THE U.S. CAPITOL

"We The People—the Story of the United States Capitol," first published by the United States Capitol Historical Society in 1963, is one of the most unique historical books in our land. It tells the dramatic story of the founding and building of the United States Capitol Building and it briefly outlines the work and responsibilities of the Congress of the United States from the early days to the present time. This history book, now in its 13th Edition, has sold over 5.5 million copies. In addition to English it is available in French, German, Spanish and

Japanese. The book was made possible by the close cooperation and association between the United States Capitol Historical Society and the National Geographic Society

Many of the photographs of the House of Representatives and the Senate of the United States in session could not have been possible without the approval, and in the case of the official photographs of the House and Senate by actual Resolutions of each House. "We The People" is authored by Lonnelle Aikman, senior writer for the National Geographic Society. It contains hundreds of photographs in full color and 144 pages of historical text.

The "We The People" book is often one of the first items sought by visitors who arrive to tour the Capitol Building. Since the book has been published in so many editions since 1963, many individuals, from all walks of life, are familiar with this book from their days as young tourists and students visiting the Capitol. Each Edition is brought up-to-date with changes and certain new photographs, as required, with the changing of the certain offices in the Congress.

It is due, in large measure, to the acceptance and success of the "We The People" Book that the United States Capitol Historical Society is able to undertake worthwhile research and other projects such as the Art Program in the Capitol to increase the beauty and decorative motif of the most significant building in the nation. Our Capitol, depicted by the We The People Book is best described by Allan Nevins in his introduction to the book as he said:

"The Capitol is History; it is the Major Symbol of the Nation, full of minor symbols; but above all it is a Mighty Engine, tended and kept throbbbing by the indefatigable efforts of a select assemblage which represents far more of our national strengths than of our national weaknesses."

---

THE SPEAKERS OF THE U.S. HOUSE OF REPRESENTATIVES: A BIBLIOGRAPHY, 1789-1984

This bibliography was the result of President Schwengel's directive to the History Department of the Capitol Historical Society to prepare a bibliography to assist scholars and students in researching the history of the speakership. The seed he planted took root as research, and preparation of the manuscript proceeded for nearly a decade.

The bibliography is divided into four sections representing the historical development of the office. The first, 1789-1814, traces the evolution of the Speakership from the first Speaker, Frederick Muhlenberg, through the consolidation of power in the hands of Henry Clay. The second section surveys the turbulent legislative period prior to the Civil War. The postbellum development of the office is followed to 1911, culminating in the revolt against Speaker Joseph Cannon. The final section covers the Speakership from 1911 to the present.

A biographical sketch begins the chapter on each Speaker. Bibliographic entries are categorized according to: works written by the Speaker; profiles, eulogies, and genealogies; works on state and local history and politics; works on political or other public figures associated with the Speaker; and works on the Speaker's congressional career and other specific topics relating to his life. This unique and exhaustive reference will provide invaluable research assistance to historians, political scientists, journalists, and others studying Congress.

Prepared under the editorship of Associate Historian Donald R. Kennon and published by The Johns Hopkins University Press in 1985, the bibliography has won wide-ranging praise. The Speaker of the U.S. House of Representatives, Thomas P. O'Neill, Jr., has called the bibliography: "A remarkable piece of diligent research and scholarship . . . This bibliography will open the door to further research into the history of the Congress and contribute to a better understanding of the Office of the Speaker and the Congress itself."

*Library Journal* in the May 1, 1986 issue refers to the book as "a long overdue major contribution to the study of the institution of Speaker of the House," and "an invaluable research tool; highly recommended to academic and public libraries." The warm reception the bibliography has received is testimony to the careful planning of the society and the scholarship of its employees.

---

THE COMMEMORATIVE MEDAL PROGRAM OF THE U.S. CAPITOL HISTORICAL SOCIETY

Since 1978, the United States Capitol Historical Society has carried out a nationally acclaimed Commemorative Medals Program to call attention to the coming of the Bicentennial of the United States Constitution. The Program now includes nine medals—all by skilled and nationally respected sculptors.

The 1987 Medal will be a unique memento to mark the celebration of the 200th anniversary of the Constitution. The 1987 Bicentennial of the Constitution Medal, and each of the other medals in the Society's series of medals, has been designated by the Commission on the Bicentennial of the United States Constitution as "an Official Medal of the Commission."

The 1987 Medal is the work of Marcel Jovine in cooperation with the Society's Medals Advisory Committee. Mr. Jovine is a talented and experienced sculptor, with many medals and works of art to his credit. He has been chosen by the Medallic Art Company of Danbury, Connecticut to undertake many of their most prestigious and difficult medallic assignments. His creations include the Lake Placid Winter Olympics Medallion, the 1980 issue of the Society of Medalists.

Jovine was the winner of the competition for the American Numismatic Society's 125th anniversary medal. As "a dream come true" in his own words, Marcel Jovine in 1985 accepted the coveted American Numismatic Society's J. Sanford Saltus Award in ceremonies at the American Numismatic Society Museum in New York, thereby joining an elite list of 32 world-famous sculptors. He is the Vice President of the National Sculpture Society. Born in Naples, Italy, Mr. Jovine works in his studio-home in Closter, New Jersey.

The obverse side of the medal will feature the conception and adaptation by Artist Jovine of the famous paintings by Howard Chandler Christy of the Scene of the Signing of the Constitution. The medal officially marks the Bicentennial dates and contains the official imprimaturs of the Commission on the Bicentennial of the United States Constitution and the United States Capitol Historical Society.

The reverse side of the medal emphasizes the creation of the Three Branches of the Federal Government, as established by the Constitution, and under which the American people have governed themselves in a Government of "We The People . . ." On the border of the medal the historic significance of Articles I, II and III of the Constitution is heightened by the artist's use of the actual historic wording taken from the Constitution itself.

The 1987 Bicentennial of the Constitution Medal, an official medal of the Commission on the Bicentennial of the Constitution and issued by the United States Capitol Historical Society, will be available in early 1987 in offerings of 1½" Bronze Antique, 2½" Bronze Antique, 3" Bronze Antique, 1½" Sterling Silver proof, 3" Silver Art, and 5/16" 18 Karat Gold.

## ENVIRONMENTAL CRISIS IN AFRICA

---

### HON. JAMES H. SCHEUER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. SCHEUER. Mr. Speaker, one of the more severe problems facing Africa today is that of environmental destruction. Overpopulated and underproductive, Africans have begun to cultivate near desert, steep hillsides, and other less arable lands. Due to ignorance of proper farming techniques, these newly cultivated lands produce little food but much environmental destruction: widespread deforestation, erosion, and desertification. Deforestation also occurs as Africans seek firewood that serves as fuel for Africa.

Africans recognize that they have an environmental crisis. But as we in the industrialized countries know too well, environmentalism has a stiff price. Many suggest that Africa has too few funds to worry about the niceties of the environment. Africa, they say, must develop first, and then it can address the environmental destruction that accompanies development. But as we in the industrialized countries also know, cleaning up and rehabilitating destroyed ecosystems costs far more than prevention. Thus, I have included a splendid speech by Edward Ayensu of Ghana, who addressed this question in his talk at the All-Africa Conference on Population and Development in Harare, Zimbabwe.

POPULATION, ENVIRONMENT AND DEVELOPMENT IN AFRICA: A COMMENTARY

(By Edward S. Ayensu)

INTRODUCTION

Our concern with the impact of human activity on the African environment has led to numerous assessment studies during the past two decades. Both conservationists and developers have participated because each group has a practical interest in the ecological balance which involves human and animal populations, the natural resource base, and the carrying capacity of the continent. One clear cord which has been struck again and again: rapid population growth, coupled with the careless handling of the biosphere, contributes significantly to the rising levels of environmental degradation being experienced in Africa today. The population factor per se is not to blame, only the distressing ways in which it is channeled and focused. Unequal access to good farmlands, unsatisfactory livelihood security among the rural and urban poor, and the unconscionable greediness of big-time exploiters—both domestic and foreign—have driven growing numbers of people into mar-

ginal lands, and forced them to open up new forest lands. The pattern repeats itself over and over again. The cumulative impact of such movement brings deforestation, soil degradation, pollution of meagre useable water resources, limitation of energy supply, reduction of food and nutritional security among many African families. In some instances, human conflict arises.

Those who so often refer to the enormous size of Africa, and talk of plenty of room for the expansion of human habitation, delude themselves. Our continent does not have limitless carrying capacity. Those who think it does, fail to realize that 44 percent of the land surface is arid, semi-arid and desert, 18 percent of extremely low fertility, and 22 percent water-logged and of shallow depth. Only 16 percent of the land can be considered quite satisfactory. Faced with this last fact, and the excessive rate of population growth in many African countries, government planners (and especially those who continue to follow inappropriate policies) should turn increasing attention to the achievement of a balance between development and conservation.

Paradoxically, the widespread use of wonder drugs such as antibiotic's, vaccines for mass immunization of man and animal, and the application of DDT and other insecticides, have brought considerable gains in life expectancy, especially in the developing countries of Africa. It seems clear that if present trends continue, the poor populations will swell to unmanageable limits and place even more severe stress on the natural resource base. I see only one way out of this dilemma in the long term; to develop the kinds of policies that will raise living standards among the great majority of Africa's rural and migratory populations. But in the short term education at all levels, including a systematic programme for young adults on planned parenthood, should play a major role. And as President A. W. Clausen of the World Bank noted at the Population Conference on 7 August 1984 in Mexico City, the curbing of population growth "must be contained through policies and programs that are humane, noncoercive, and sensitive to the rights and dignity of individuals."

DEFORESTATION

Close scrutiny of the causes of deforestation indicates that population growth should not be singled out as the culprit. It takes only a few major timber consessionists to lay waste several thousand hectares by clear-felling within a year: and only after such commercial interests have been fulfilled do the rural poor use bush fires to complete the job. Very often timber consessions lie in close proximity to buffer zones of forest reserve establishments. Soon after the consessions are cleared of their vegetation, including parts of the buffer zones, rural populations move in to start farming. After only a few years of farming the soils lose their fertility, and process of shifting cultivation begins all over again.

Due to rapid population growth in rural areas, the general practice of allowing the soil to rest and thus develop a vegetation cover, is becoming a thing of the past. Hence the productivity of several thousand hectares is spoiled annually. Such patterns of land use and misuse are becoming the accepted way of life in far too many places. It is also important to note that our knowledge of the African soils is generally poor. Some basic classification studies were undertaken in the 1950s and 1960s. Most countries, however, have not really begun to maintain analytical facilities for the kinds of local soil studies which will enable farmers to manipulate their fields under conditions of expansive inputs and amendments. We should not lose sight of the fact that generally the new high yielding crop varieties remove substantial quantity of nutrients from the soil.

SOIL EROSION

It is an irrefutable fact that soil degradation in many parts of Africa progresses at an alarming rate because of indiscriminate use of the land and water resources. Furthermore, in areas where human and animal population growth is increasing, the land is usually already farmed beyond its carrying capacity. It is likely that soil degradation will be further accelerated by wind erosion, water erosion, and salinisation. The rate of soil erosion directly affects the speed with which irrigation and water development schemes become silted. To reverse both erosion and siltation, planners can use any of several practical technologies. Such efforts can pay off with increased food and agricultural production and rehabilitation.

DISRUPTION OF HYDROLOGICAL CYCLE

The subject of climate as it relates to population, environment and development, has both engaged and confused the experts. Recent climate changes in Africa have certainly contributed to the erosion of the natural resource base and, without doubt, have injected an atmosphere of uncertainty into the development process. While no detailed quantitative studies have been undertaken to demonstrate the extent to which actions of man can influence climate, there is a general feeling among many scientists that the conversion of tropical forests to cropland dramatically alters the hydrological cycle.

Recent studies indicate that local conditions in the tropics affect local weather and climate more than they do in temperate regions. Along this line, studies in Latin America, particularly in the Amazon, show conclusively that when rain falls on an undisturbed tropical rainforest, just about one-fourth runs off into the ocean while three-fourths re-enters the immediate atmosphere. When the rain forest is removed by clear cutting or conversion into cropland, the ratio reverses, with three-fourths of the rainfall running off into the ocean while only one-fourth evaporates to recharge the rain clouds.

There is little question in my mind that if present deforestation processes continue, Africa will also experience a definite alteration of the hydrological cycle—that is, if the process is not already in motion.

ENERGY SECTOR ANALYSIS

Of course, the same factors which apply to climate and weather alteration have farther ramifications. For instance, deforestation and energy requirements are closely and significantly related in the African population equation. In terms of world energy usage, fuelwood plays a minor role, accounting for a little over 10 percent. The major fuels—oil, coal and natural gas—make up the rest. However, within the African context fuelwood plays a major role. For example, in oil-rich Nigeria, fuelwood accounts for over 80 percent of the domestic energy consumption. In countries such as Chad, Ethiopia, Mali and Somalia the consumption is more than 90 percent.

With rising populations, the poor people of cities or on the land will find it increasingly difficult to obtain enough grasses and sticks to cook a simple meal. While attempts are being made to plant suitable trees, national planners are worried. Because of the fuelwood crisis, they see no hope that the plantations will be given a chance to mature. Within the Sahel, for instance, more than 160 million U.S. dollars was spent on fuelwood plantations between 1975 and 1982. Today we find only a few pockets: very little plantation left to show. The pressure on existing forests and even on new plantings rises at an alarming rate when too many people move in too fast. The trees do not stand a chance.

LIVESTOCK SYSTEM

The dramatic increase in livestock in Africa can be seen as a direct consequence of human population growth. As rural and urban populations increase, the demand for meat has become a business proposition that attracts investors. As people with cash, even the government civil servants who are trying to earn extra money become involved. In fact, the rearing of livestock has become so profitable that many urban centers are becoming feeding lots for cattle. However, no where has the increase in the number of herds and in herd size become so dramatic as in the Sahelian—Sudano regions. The growth rate is estimated 5 percent a year—2 percent more than the human population increase, and this has been quite noticeable since 1980. While the establishment of ranches by some international organisations has helped to inject professionalism into the African cattle ranching activity, this new business has inadvertently driven local pastoralists into more marginal lands. In some places, they are being forced to open up forested lands.

WATER SUPPLY

The daunting task of meeting Africa's water requirements, in the face of high population growth, is a subject of highest concern. This applies not only to households and agriculture authorities, but to the health and nutrition agencies. Firstly, let us remember that only a small fraction of the total estimated water resources of the world ($1.4 \times 10^9$ Km$^3$) is actually available to mankind. Of this total, 95 percent is saline, 4 percent frozen and only one percent in a fresh liquid state. Of this small percentage almost 98 percent is ground water, leaving only two percent at the surface. Within the African context, an estimated 4,200 billion cubic metres of fresh water flow out into the ocean every year. The means required to catch some of this otherwise wasted water simply are not available. Even simple water harvesting has not been instituted, let alone the kinds of irrigation schemes which could help to offset the erratic rains experienced by the African farmer. FAO has reported that by the year 2000 only two percent of the arable land in Africa will be irrigated. Compare this to Asia's estimate of 34 percent under irrigation. It should be obvious that the rapidly increasing population of the continent will be hard pressed if systematic steps are not taken now to ensure the availability of water in the years immediately ahead.

CONCLUSION

I find a cause for concern about population growth; and it seems obvious to me that the primary reason for the dislocation of life among African nationals is poor planning and mismanagement throughout our socio-economic sectors. The pursuit of appropriate policies by our governments will enable us to control our population growth and achieve a certain measure of stabilisation. Ultimately our national leaders will be able to take credit for fulfilling their re-

sponsibility for the proper utilisation of the natural resources and environment of our peoples. The truly bright hope for the future is that our population growth has not yet run out of control. We still have a large and rich resource base, especially so in minerals and other extractives of the non-renewable type. And if properly handled—I mean with due consideration for human dignity—the human resources can be our greatest resource.

Thus, I dare say that within the African continent, putting all the problems on population growth alone is unrealistic and indeed a distortion of the facts. If and when the appropriate measures are taken, I have little doubt that there will be a major decrease of stress on the environment, and the depletion of natural resources will also abate. A more judicious increase in the energy consumption of the peoples of our continent will lead to greater prosperity in both arid and rainy regions. And above all, the quality of life for all Africans will be much improved when we can work together to incorporate reasonable population increases into national development programmes which really succeed. This way we can achieve important advances in life expectancy, for more and better years.

(Professor Edward S. Ayensu of Ghana is Chairman of the African Biosciences Network, and President of E.S.A. Associates Ltd. This commentary was presented at the All-Africa Parliamentary Conference on Population and Development in Harare, Zimbabwe on 12-16 May, 1986.)

## A TRIBUTE TO LA PLATA, MD

### HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. DYSON. Mr. Speaker, I would like to bring to your attention an article published in the August 4, 1986 edition of Newsweek that praises the community spirit of La Plata, MD. The article, entitled "La Plata's Cheerful Quotient", was written by the distinguished journalist George Will. In his article Will effectively illustrates the importance of community pride and cohesion—a trait which still thrives in La Plata amid the largess of nearby Metropolitan Washington and Baltimore.

It is important that we in Congress not forget the traditional roots of America that are embodied in small towns across this land. Accordingly, I think it fitting to read to you George Will's important article celebrating La Plata and the traditions it represents.

[From Newsweek, Aug. 4, 1986]

LA PLATA'S CHEERFULNESS QUOTIENT

(By George F. Will)

To get from Washington, D.C., to La Plata, Md., you drive about an hour southeast, until you strike America. In that village of a few thousand souls, folks raise tobacco and soybeans and children. And a bumper crop of pickup trucks. Tonight a covey of pickups is backed up to the outside of the centerfield fence at American Legion Field where the local heroes—Southern Charles County Little League All-Stars—are lying in wait for some city slickers from the D.C. Metropolitan Police Boys and Girls Club. A clash of cultures as well as athletes, right? Wrong. What is going on here is childhood and other pleasures that illustrate the continuities and common denominators of American life.

There are, of course, particularities of places. The pickups are being used for what is known, even in the toniest circles, as tailgating. But La Plata tailgating is not what is done with Volvo station wagons at the Yale-Harvard game, where the Perrier flows like water, washing down pâté. La Platans are knocking back RC Cherry Cola and getting outside of hot dogs. Americans scarf down 50 million hot dogs on an average summer day. Trivia time: At which place are the most hot dogs consumed in a year? A particular ball park? No, 2 million at O'Hare airport. But at American Legion Field the ladies sweltering in the cinder-block concession stand are doing their level best to keep La Plata hot on the heels of O'Hare.

The first game this evening was broadcast on the local radio station but by the time the nightcap begins at 8:30 p.m. the station is off the air. This is a good community to grow up in: the children are playing later than the radio station. Tonight the clay of the all-skin infield looks mustard yellow under the lights, which are enveloped in a swirling snow of moths. The boys go through pregame rituals of being introduced and reciting the Little League pledge that addresses all the large questions of life (God, country, law, sportsmanship). The national anthem is sung ("No more of this Memorex stuff," says the PA announcer. "Live tonight") by a man of strong voice and even stronger opinions. He says La Plata should have a taste of the anthem's tangy fourth stanza. Dispensing with the dawn's-early-light business, he begins: "Oh! Thus be it ever, when freemen shall stand/Between their loved home and the war's desolation!"

More ardor than artistry: A baseball game is necessary to lighten things up after any stanza of our somber anthem, and any boy worth his salt knows all the game's liturgical moves. He taps his bat against his shoes to knock the dirt out of his spikes—the dirt that would be in the spikes if his shoes had spikes. If he is a pitcher he only half-wears his warm-up jacket, draping it over his shoulder and putting his pitching arm in a sleeve, not that a 12-year-old arm needs such pampering. It is all part of our national manner. At the culminating moment of my misspent youth I helped an East Berliner escape through the wall. He was going to stroll in a U.S. military uniform past the East German police. I told him I would teach him to walk like an American, meaning with the gait of a relief pitcher ambling in from the bullpen. He was a natural. Now he lives in West Germany.

As is occasionally the case when 10-, 11- and 12-year-old boys start flinging a baseball around, the game this night has more ardor than artistry. In the big leagues there is a lively argument about whether the ball is livelier than it was last year. Home runs are flying off the bats of some unlikely players and out of parks at an unusual clip. (The manufacturer concisely denies any change: "Same cows, same standards." Yes, Virginia, the old horsehide isn't. It has been cowhide for years.) In La Plata each team had one of those ragged innings Little Leaguers occasionally have, when the ball suddenly seems livelier because of the way it is bouncing off infielder's gloves.

Brisk and orderly: The city boys won the six-inning game 13-10. A major-league outfielder, who did not talk like one, once said: "To a pitcher, a base hit is the perfect example of negative feedback." There was a lot of that this night. But the game was brisk and orderly and all the boys had fun, thanks to four middle-aged men who had put in full days at work and then donned black trousers and blue shirts, and black caps and umpired the night away. They are nice symbols of a nice fact: the American habit of pitching in is alive and well.

In 1981, when tax rates were cut and thus the tax benefit of charitable giving declined, people predicted a sharp decline in charitable giving. What happened? Giving increased more than 50 percent in four years. Economic facts, such as an increase of disposable income, help explain this. But volunteerism, the giving of time, also increased. That suggests, agreeably, that community spirit is not primarily a matter of economic calculation. It varies a lot with society's Cheerfulness Quotient. La Plata's CQ is high.

Joseph Epstein has written that growing up is often understood to be a misery, and that insecurity, angst, midlife crises and decay are the fate of grown-ups. Therefore, "We can figure on roughly 35 to 40 minutes of enjoyment in a normal life span." The players and spectators at American Legion Field used up their shares, and about four other persons' shares, in one night. Epstein notes that happiness can be barely described, let alone analyzed, whereas unhappiness can be analyzed to a fare-thee-well. Besides, unhappiness implies criticism of the world. This is why intellectuals are so happy when they are miserable. Epstein wrote this in an essay titled "The Crime of a Happy Childhood." That title describes La Plata's only crime wave.

It is, of course, a journalist's duty to dwell on bad news, but the only bad news from La Plata is that all the fun the children are having bodes ill for American literature. Hemingway said the first requisite for a writer is an unhappy childhood. The world of letters will have to fend for itself, looking for no help from the boys of the summers on American Legion Field.

## A NEW APPROACH TO THIRD WORLD DEVELOPMENT

### HON. JAMES M. JEFFORDS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. JEFFORDS. Mr. Speaker, over the years this Congress has often grappled with the complex problems associated with economic development, especially among the poorest countries. Despite many changes in direction and only scattered successes, the United States has maintained its commitment to helping the Third World with the challenges of economic development.

I would like to share with my colleagues a letter that I recently received from one of my constituents, Mr. John McVickar. Mr. McVickar has had the opportunity to observe these problems first-hand during his employment by the U.S. Foreign Service in Asia, South America, and the Soviet Union. I hope my colleagues will have a chance to reflect upon the contents of this letter:

JOHN A. MCVICKAR,
*Stowe, VT, June 17, 1986.*

Hon. JAMES JEFFORDS,
*Rayburn House Office Building,*
*Washington, DC.*

DEAR JIM: I would like to offer a theory that I have developed on what is involved in "progress", "development", and political and economic maturation. I believe that "development" requires different "levels" of ingredients and that these ingredients can be said to be universal, that is they apply in this country and around the world:

I. It requires both Will and Leadership. The Will comes from some deep cultural orientation, but it can probably also be learned, and may be latent and emergeable. The Leadership is probably fortuitous, but must also come from some cultural, or perhaps even genetic, source. It is probably potential in all peoples.

II. On a slightly more practical level, is required Imagination, Cooperation and Work. There must be the Imagination to adapt one's own situation to the lessons learned by others, and to conceive of new approaches, innovations for the competition with the rest of the world. There must be Cooperation of many kinds, plain getting on with ones fellows, good communication, having a positive attitude towards neighbors of all kinds, and good internal political institutions, allowing working together and sound resolution of disputies. And all must be willing to put in the necessary effort, Work, to achieve what is required and wanted.

III. Then, on a level where wealthier and wise neighbors, like the USA, can help, we have Infrastructure, Education and Markets. To you, this requires little amplification. We have been helping in these areas, and we can do more One suggestion: the further completion of the Inter-American Highway (known as the Pan-American Highway in Central America)—connect Panama and Colombia and make it an Interstate level structure. It would be responded to fully by all along its route, and it would do much to peacefully integrate the Americas in many ways. The Peace Corps is another excellent means. The Caribbean Basin Initiative is along those lines.

IV. Savings and Investment. Again, little explanation needed. Wealth must be created and accumulated, and then put to work. Money is the best, though not the only, means of doing that. Again, we can help, through wise loan policies, which perhaps don't make a "god" out of rates of interest!

V. Time. None of the above can be done overnight. There are no Quick Fixes. But we can help those countries to help themselves and to speed up the process The Communists can provide none of the above, but we North Americans can, and to some extent have already, provided some of them, but not enough and not with a sufficiently long-term policy-view.

All of the above, in my opinion, should be taken in the context of the essential communality of the American Hemisphere. We have a great deal in common all the way from the Northwest Territories of Canada and Alaska to Tierra del Fuego. Not that we should be one country, but we should recognize our "brotherhood" and accept certain Hemispheric responsibilities. I'd say, for example, that the Panama Canal and the Inter-American Highway should be responsibilities shared by all of the Hemispheric countries, and not just by those who built them or who are immediately geographically affected. Idealism? No. A practical interpretation of the essential spirit of the Monroe Doctrine, and a possible example to the rest of the world.

We should also be aware of the blizzard of Communist propaganda, which is substantially focused on our country and on its decision-making processes. Bayard Acre's (one of the Sandinista Commandantes) speech to the Nicaraguan Socialist Party, somehow obtained, and published by the State Dept., clearly shows that they feel confident that they have means to manage US public opinion!

In my opinion, the above are parts of the relevant reality that should be taken into account in addressing the problem of the Sandinistas in Nicaragua, the Castro regime in Cuba, and the general Soviet effort to assert its geopolitics in this Hemisphere and by so doing undermine, weaken, and eventually defeat this country and democracy in this world. Communism, the rule by elite-clique, imposing its policies on all matters on everyone else by propaganda, deceit and coercion, is the antithesis of Democracy, a reaction to Democracy, which I view as the great world accomplishment of the Second Millenium.

Sincerely yours,

JOHN A. MCVICKAR.

## ALBERTA HARDY PERRY, OUTSTANDING EDUCATOR

### HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. FLORIO. Mr. Speaker, I would like to pay tribute to a highly respected community leader residing in the First Congressional District, Alberta Hardy Perry.

Alberta Hardy Perry is a native of Mickleton, Gloucester County, NJ. She began her education at the historic Little Red School, Mickleton, and graduated as valedictorian from Swedesboro High School. Two years of higher education were completed at Glassboro Normal School. She received a bachelor of science degree in elementary education later from Glassboro State College.

In 1955 Mrs. Perry graduated with a masters in education degree from Temple University with a major in speech pathology and secondary education.

In pursuit of further learning, she studied at the University of Pennsylvania, Rutgers of New Brunswick and Trenton State College. From the U.S. Department of Education, she received grants to continue in the specialized field of speech pathology at Adelphi University, Long Island, NY, and espohogeal speech at the University School of Medicine, Miami, FL.

Alberta Perry was awarded the certificate of clinical compentency in speech pathology by the American Speech and Hearing Association, Washington, DC, which is the highest achievable certificate.

During World War II, she went to Los Angeles, CA, with her husband, John Perry. Because of her background in physics, she was employed by the U.S. Signal Corps and was sent to the University of California, Los Angeles, to complete training as an electrician, grade 11.

For 45 years Mrs. Perry has worked with children from kindergarten through 12th grades. She taught in Woodbury, Deptford Township, and Swedesboro, where she was an elementary teaching principal. Mrs. Perry retired from the West Deptford school system after serving 13 years there as a speech pathologist.

Her community affiliations are extensive. She has served as a Girl Scout leader, been associated with Campfire Girls and also the YWCA in Camden, NJ. Mrs. Perry has served on the evaluation review committee of the Visiting Nurse Home Care and Health Service of Gloucester County.

Mrs. Perry was appointed by the Gloucester County Board of Freeholders to the feasibility study committee for Gloucester County College. After concluding the county needed a community college, and the voters approved the concept in a nonbinding referendum, the freeholders named Mrs. Perry one of the charter members to the board of trustees, a position she held for 12 years. Upon serving as vice chairperson for 7 years, Mrs. Perry was elected chairperson. At that time, Mrs. Perry was the only woman chairperson of either a 2- or 4-year public college board of trustees in the State of New Jersey.

She has conducted workshops for the American Association of College Trustees [AACT] in Washington, DC, in Atlanta and New Orleans. Additionally, Mrs. Perry served in numerous capacities at the AACT national convention at Miami, Portland, St. Louis, and Vancouver, Canada.

Among the honors bestowed on her are: Honorary member of the American Speech and Hearing Association, Washington, DC; 1978—Distinguished Alumni Award, Gloucester State College; 1975—South Jersey Woman of the Year, Gloucester County Branch NAACP; 1977—Medallion Award for Community Service, Gloucester County College; 1976—Outstanding Community Service Award for the Women's Progressive Club of Swedesboro; 1976—Certificate of honor for the New Jersey Federation of Women's Clubs; 1976—Centennial Medallion Carter Woodson Association for Study of Afro-American Life and History. On July 16, 1986, the New Jersey Federation of Colored Women's Clubs presented her with the outstanding citizen award for education. She was also selected as the outstanding woman of Gloucester County during National Women's History Week by Glassboro State College. Prof. Richard Ambacher, head of the Communications Department of Glassboro State College, submitted her biographical sketch for National Women's Week, and was awarded first place.

Mrs. Perry was one of the founders of Links, Inc., a service group that has grown into a national organization helping blacks through scholarship programs, farm labor support and affirmative action efforts. She has held every office of Links, Inc., except treasurer. As a tribute to her contributions, her fellow members have established a scholarship in her name at Gloucester County College.

Listed among here organization affiliations are: membership in the NEA; New Jersey Retired Teachers; Gloucester County Retired Teachers; New Jersey Speech and Hearing Association; Gloucester County Historical Society; the First Baptist Church of Deptford

Township, and the Woodbury Old City Restoration Committee.

Mrs. Perry is a former member of the AAUW of Gloucester County and the national sorority, Phi Delta Kappa, ETC Chapter, Camden.

Her husband, John Perry, Sr., and son, John Perry, Jr., are owners of John's Auto Transmission Service, Inc., located in Woodbury. She has four grandchildren.

I salute Alberta Hardy Perry for her contribution to the quality of life for the people of the First Congressional District, the State and the Nation.

## BERKLEY BEDELL

### HON. LEON E. PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, August 7, 1986*

Mr. PANETTA. Mr. Speaker, I want to join my colleagues in paying tribute to BERKLEY BEDELL, who is retiring from Congress at the end of the year. It has truly been a pleasure working with BERKLEY over the past decade.

BERKLEY and I have served together on the Agriculture Committee during that period, and there is no other member of that committee who has proven himself more effective or dedicated worker on behalf of American agriculture and the American farmer. BERKLEY's hard work, intelligence, and strong beliefs have helped him to make an enormous contribution to the committee, to Congress, and to his country. I have personally appreciated his wise counsel. His advice has always been helpful to me in my own work on the committee.

Mr. Speaker, BERKLEY entered the House with a number of standout Members. Even among that class, he emerged as one of the most productive. I know my colleagues join me in wishing BERKLEY well in his retirement. I will miss him personally, and we all will miss his major contributions to the work of the House.

## PERSONAL EXPLANATION

### HON. JOHN MILLER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. MILLER of Washington. Mr. Speaker, last Thursday evening and Friday I was granted a leave of absence to attend a memorial service. Had I been present, I would have voted as follows on the following rollcalls:

Rollcall No. 308: "Aye," passage of H.R. 5081—aid to the Philippines.

Rollcall No. 309: "No," to consider H.R. 531—Defense authorization rule.

Rollcall No. 310: "No," passage of H.R. 531—Defense authorization rule.

Rollcall No. 311: "Aye," approval of Journal.

Rollcall No. 312: "Aye," Spratt amendment to reduce defense outlays.

Rollcall No. 313: "No," Dickinson-Courter amendment.

Rollcall No. 314: "No," Aspin test ban proposal.

## CLEARING UP THE CONFUSION OVER DEDUCTING POINTS PAID TO REFINANCE MORTGAGES

### HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. YOUNG of Florida. Mr. Speaker, an IRS ruling last May has left the American taxpayers confused about the deductibility of points paid when refinancing mortgages.

The IRS ruled that homeowners could deduct points in the year they were paid on a mortgage to purchase or improve a home. However, taxpayers were told that points paid to refinance a mortgage must be deducted over the life of the loan.

Legislation I have cosponsored, H.R. 4849, would clear up this confusion and inequity by overturning the IRS ruling and enable homeowners who refinance their mortgage to deduct points in the year they are paid just as if they were paid to purchase a new home or for a home improvement.

The American people who were penalized by the exceeding high interest rates of the late 1970's and early 1980's should not be penalized for taking advantage of our economic recovery which has brought interest rates to the lowest level in many years.

Congress intended with the passage of the tax reform bill of 1976 that points be considered as prepaid interest to be deductible in the year paid, regardless of whether the home was newly purchased or refinanced. It's my hope Mr. Speaker, that the Ways and Means Committee will clear the way for the expedient consideration of this legislation so that we can prevent the thousands of taxpayers who have refinanced their mortgages this year from being penalized when filing their 1986 income tax returns.

## TRIBUTE TO CLAYTON J. RHYLANDER

### HON. HAL DAUB

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. DAUB. Mr. Speaker, serving as mayor in a small community is a difficult and demanding challenge in today's tight fiscal environment but for the last 14 years, Clayton J. Rhylander has served with distinction as the mayor of Plattsmouth, NE.

An outstanding leader, Clayton has been a dedicated public servant. First elected to the Plattsmouth City Council in 1968, Clayton has been the mayor since 1972.

Currently the dean of my Second Congressional District mayors, Clayton Rhylander leaves with an impressive record of accomplishments. To quote the biweekly newspaper, the Plattsmouth Journal:

Under Rhylander's administration, the city of Plattsmouth was successful in a series of major federal and state grant applications.

Over some initial protesting, Rhylander forged ahead on a $2 million community development block grant [CDBG] which has successfully revitalized the Wintersteen Hill section of town. New street paving, storm sewer and utility improvements plus housing renovation in the late 1970's halted deterioration of the district. Today, new homes are under construciton as the neighborhood is expanding.

Plattmouth's recreational and habitat area has increased since the 1970's. West Memorial Park was purchased, a 25-acre tract adjacent to the Memoral Park was purchased and just recently, the former Burlington Shops tract was bought by the city.

To date, the city has been successful in obtaining one grant, from the Nebraska Game and Parks Commission for improving the property. Application has been made through the Lower Platte South Natural Resources District [NRD] for flood control work and the city has announced it will resubmit its application for a major CDBG grant to build the park plus the surrounding neighborhood in a 13-block area. The new water treatment plant and $2 million sewage wastewater facility were completed under the Rhylander era as was the paving of Maiden Lane from Maine Street to Fourth Avenue.

Other accomplishments include two major revisions of the Plattsmouth city codebook, bringing local ordnances, housing and building codes up to standard, providing for orderly growth and long-term planning.

Along with his wife, Margaret, and their three children, Carl, David, and Julie, and their one grandchild, the Rhylander's are Plattsmouth's first family, his record of achievement stands as a lasting tribute to his years of public service to our region.

It is indeed a privilege to call to the attention of my colleagues the outstanding career of this impressive public servant and fine gentleman.

## WILLIAM R. PITTS, JR., THE REPUBLICAN MINORITY'S HOUSE KNOW-IT-ALL

### HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. CRANE. Mr. Speaker, Billy Pitts is himself an institution in one of the most venerated institutions in the free world. My friendship and respect for Billy go back to 1969, when I first came to Congress and he worked in the Republican Cloakroom.

He has given generously of his time and talent to assist all of us in our legislative battles, and I am pleased to see him recognized in a feature article in today's Washington Post.

Mr. Speaker, I also want to take avantage fo this opportunity to extend congratulations and best wishes to the newlyweds, Billy and Mary.

WILLIAM R. PITTS, JR., THE REPUBLICAN MINORITY'S HOUSE KNOW-IT-ALL

(By Margaret Shapiro)

(NOTE.—*Background:* Aide to House Minority Leader Robert H. Michel (R-Ill.), considered chief GOP floor strategist for past five years. Also serves as chief liaison between minority leader and speaker of the House. Studied pre-med at Georgetown University, but followed William R. Pitts Sr.—a former aide in Republican whip's office—into Congress.)

A few paces from the House chamber in the Capitol, a marble hallway leads to a warren of offices that is a command center of sorts for the House GOP.

Here presides William R. Pitts Jr., a stocky, 39-year-old strategist for House Minority Leader Robert H. Michel (R-Ill.), keeping tabs on bills, amendments, schedules, rumors, committee actions, the Senate, the White House, GOP squabbles and just about anything else he must know to help his boss and House Republicans navigate in the constantly turbulent political waters of the Democratic-controlled House.

"He's our genius," said Rep. Dick Cheney (R-Wyo.), one of the House's top-ranking Republicans, "More than anybody else, including members, he helps shape Republican strategy in the House. . . . If we didn't have him we'd have to invent him."

In an age when many congressional aides view the House as a stepping stone to more lucrative employment, Pitts is a true insider, a creature of the legislature who has been working the rule book—and the House floor—for as long as he has been working.

Following in the footsteps of his father, William R. Pitts Sr., who worked the House for 40 years until his retirement as aide to the Republican whip in 1972, Pitts (known as "Billy" or Professor Pitts") became a congressional page at age 16. After graduation from Georgetown University as a pre-med major, he took what he thought would be just a temporary job in the Republican cloakroom.

But Pitts fell in love with the House, and soon moved into the minority whip's office.

For the last five years he has been the primary floor strategist in the minority leader's office, playing a key role in the major Republican battles of the last few years, from passage of the Reagan administration budget cuts in 1981 and 1982 to approval of military aid for Nicaraguan counterrevolutionaries this year.

While many aides exert their influence by pushing a particular political ideology, Pitts' influence comes through sheer knowledge of the institution, its rules and the players on both sides of the aisle. When the House is in session, Pitts is always there, hovering around the speaker's table, wandering around the Republican side, keeping an eye on the Democrats.

"He has been here so long that he knows everything about everybody," said a Republican colleague. "And he knows that up here, information is power."

Pitts, who is loath to divulge the details of his activities, said recently, "I try to be invisible. I try to find out what's going on and then I relay it to [Michel] and let him decide what to do."

By following his father's advice and studying the House rule book, Pitts has become recognized by Republicans and Democrats alike as an expert on parliamentary procedure. He was the top staff parliamentarian at the 1984 GOP national convention.

For Republicans, outnumbered in the House by 72 seats, a detailed knowledge of the rules is their only protection.

"You've got to play the rules to the hilt to get what little you get," said Republican Leader Michel.

Pitts is known for dredging up arcane rules or little-used maneuvers to help the GOP even the score. Often, he doesn't win in these skirmishes (after all, the Democrats have their own parliamentary experts), but frequently he helps accomplish the second-best alternative: buying time to force the Democrats to give a little.

For instance, in 1983, then-Budget Committee Chairman James R. Jones (D-Okla.) tried to rush through a Democratic budget by getting the Democratic-controlled House Rules Committee to waive a requirement that budget resolutions be held up for 10 days to give all sides time to examine it.

The Republicans, taken by surprise, were unprepared to offer an alternative budget. But Pitts noticed that the Democrats had forgotten to waive another rule requiring an additional three-day delay. This allowed the Republicans to raise an objection to immediate consideration of the Jones budget, and gave them time to come up with a strategy.

In 1984, when the Democrats brought a spending bill to the House floor with a rule allowing several unrelated Democratic-inspired amendments to be added to it, Pitts saw an opening for a group of conservative Republicans to offer a White House-backed anticrime package that otherwise would have been ruled out of order because it was not "germane" to the spending bill.

The anticrime bill was brought up and, to the disappointment of the Democrats, found approval in the House.

"He was the one who kept on pressing when the others said, 'Enough,'" recalled conservative Rep. Robert S. Walker (R-Pa.), who acts as the official Republican "objector" on the floor of the House and thus regularly consults with Pitts.

In a tacit acknowledgment of Pitts' efforts at parliamentary manipulation, House Speaker Thomas P. (Tip) O'Neill Jr. (D-Mass.) once presented him with a leather-bound copy of the rule book, with Pitts' name embossed in gold, and told him to study hard.

Inside, the pages all were blank but for an inscription by O'Neill: "Too bad you don't have more to work with," the speaker wrote, in an apparent reference to the Republicans' beleaguered minority status.

Along with a collection of oriental rugs and two 1950s Hudson cars, the O'Neill gift is a prized possession.

But Pitts' impact has been broader in scope than the rule book. In 1981, when President Reagan was determined to cut the federal budget and reverse years of spending on social programs, Pitts not only figured out the necessary floor maneuvers to halt Democratic efforts to stall Reagan's budget, but also helped guide White House officials to Democratic votes.

"In 1981 he played an essential role as the chief tactician on the Republican side of the aisle," said Kenneth M. Duberstein, who was then the White House lobbyist on Capitol Hill and remembers talking to Pitts on the telephone "three or four times" each day through 1981 and 1982.

"He understood the critical linkage with the boll weevils [conservative Democrats who backed Reagan's budget] and how to reach out to the gypsy moths [moderate Republicans who opposed many Reagan cuts]," Duberstein said.

More recently, Pitts helped Michel and the GOP stall the tax bill put together by the House Ways and Means Committee and supported by the White House, but disliked by many House Republicans.

Then, after winning a few minor concessions from the White House and Ways and Means Chairman Dan Rostenkowski (D-Ill.), Pitts helped round up enough Republican votes to ensure the tax bill's passage.

For all the skirmishing with the Democrats, Pitts is not a particularly partisan person; in this, he reflects the style of his boss, Michel. Pitts avoids political campaigning and was "like a fish out of water" when he went to Peoria to campaign for Michel in a particularly tough race Michel had in 1982, a Michel staffer said.

Pitts has many ties to Democratic staffers and often works the Democratic side of the aisle for the White House.

He is also Michel's chief liaison with the speaker's office, carefully crafting agreements with O'Neill's aides on how to disagree.

"While he's certainly a Republican and he's loyal, he's willing to talk to anyone," said former O'Neill staffer Ari Weiss, who met with Pitts regularly to "try to assure that there were some rules to the game of war, that the war was civilized and not barbaric. * * * It takes some institutionally minded people, like Billy, to get the things done that need to be done."

It was of little surprise, therefore, that when Pitts got married yesterday, this quintessential insider took his vows in the House minority leader's office, with Michel as best man.

## WELCOME TO ORANGE COUNTY MR. OJEDA

### HON. ROBERT K. DORNAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. DORNAN of California. Mr. Speaker, I rise today to welcome a distinguished gentleman to my district who hails from our friendly neighbor to the south, Mexico. Don David Ojeda Ochoa, an elected official from Ensenada, Baja California, is the municipal president of his district.

Mr. Speaker, I think that it is valuable to bring to the attention of my colleagues the constructive accomplishments of individuals like Don Ojeda. His efforts to improve the quality of life for local citizens has positive side benefits for Californians traveling to the area and helps to diminish the push factors in the illegal alien equation. Don Ojeda has been able to spur investment in his community, ultimately manifesting itself in vastly improved water resources, sewage treatment, and communication systems.

Perhaps more importantly though Mr. Speaker, has been Don Ojeda's crucial involvement in the transformation of the Port of Ensenada into a highly efficient shipping and docking facility. The spill-over benefits of international commerce will be felt throughout southern California because our economies are so closely intertwined.

Finally, Mr. Speaker, I am compelled to extend my warmest welcome to Don Ojeda and take this opportunity to congratulate him

on his exemplary performance as an elected official of Mexico. Don Ojeda, thanks for the responsible leadership!

## THE WRONG TIME TO CUT GOVERNMENT SPENDING

### HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. OBEY. Mr. Speaker, Dr. Herbert Stein, former Chairman of the Council of Economic Advisers, recently made some very pragmatic and thoughtful comments about fiscal policy and Gramm-Rudman. They are well worth reading by every Member.

[From the Washington Post, July 31, 1986]

THE WRONG TIME TO CUT GOVERNMENT SPENDING

(By Herbert Stein)

Grown men with responsible positions stand up before television cameras and make this statement: Since the economy is rising less than expected earlier in the year, and inflation is also lower than expected, federal revenues will be less than expected and it is therefore necessary to cut federal expenditures below the level planned previously.

I do not understand it. Why are we punishing ourselves in this way? Does the slowdown in the U.S. economy mean that the Russians are weaker or more amiable and the buildup of our military strength is therefore less urgent? Is the need to look after the poor and homeless diminished? (Is the ebbing tide lifting all the boats?) Whatever was the previous justification for spending $30 billion on aid to agriculture—is that justification now weaker? Obviously not.

With both less output and less inflation than we previously forecast are we now less able to afford those things we previously thought we needed? Surely the answer to that is no. On the contrary, there will now be more unutilized productive capacity with which to meet the government's requirements, and less risk of inflation. The answer would be different if the economy were lagging behind previous forecasts because output was bumping up against a ceiling of capacity, but that does not seem to be the case.

Is our revulsion against the economics of Keynes so great that we not only deny what he said but assert with confidence that the opposite is true? That is, do we now think that cutting government expenditures is a reliable way to stimulate a sluggish economy or prevent a threatened recession?

The question may be put more concretely: In the past year output increased by 2.7 percent, which is probably somewhat below our potential growth rate, and unemployment was fairly steady at around 7 percent. Now there is an expectation that output will rise in the next year at about the same rate, or possibly less. In these circumstances, is it prudent to cut expenditures below the president's budget level in order to reduce the deficit from $210 billion in fiscal year 1986 to $144 billion in fiscal year 1987? (That figure, $144 billion, is the Gramm-Rudman target for the 1987 deficit. Because of the peculiarities of Gramm-Rudman accounting, it appears that about $25 billion of taxes collected in 1987 will not be counted and about $15 billion of expenditures will not be counted. Thus, if the "Gramm-Rudman deficit" is $144 billion the "real" deficit may be $134 billion.)

My pre-Keynesian and anti-Keynesian professors knew better than that. Even Herbert Hoover knew better than that. A thorough-going classicist or monetarist might deny that increasing government expenditures would have even a short-run stimulating effect on the economy. He would not say that cutting expenditures would have a short-run stimulating effect on the economy, so that it was necessary to cut otherwise worthwhile expenditures in order to fend off a recession.

What leads to the present foolish talk about the budget is Gramm-Rudman. But even Gramm-Rudman does not imply that cutting expenditures is a good prescription for dealing with economic sluggishness. The Gramm-Rudman law provides that if the real GNP rises at less than an annual rate of 1 percent for two consecutive quarters the deficit limits are suspended for the current and following fiscal year.

This is recognition that cutting spending does not cure recessions. Once the GNP growth rate falls below 1 percent for two consecutive quarters the ceiling on the deficit is off. But as long as the growth rate remains at 1.1 percent—as it was in the second quarter of 1986—or higher, the targets must be met. They must be met even if, with the economy sluggish and revenues rising slowly, that requires holding expenditures below levels that are worthwhile, that are well within the economy's capacity, and that are not harmful but possibly helpful to the health of the economy.

Sophisticated people to whom I express my concerns about the idea of cutting expenditures to meet a shortfall of revenue tell me not to worry. The government will not really meet the Gramm-Rudman targets. All Gramm-Rudman requires is that at the beginning of fiscal 1987 there should be an official estimate that the deficit will not exceed $144 billion for the year. The law does not require that the deficit actually be less than $144 billion.

This solution is unsatisfactory for two reasons:

First, the government should not pretend to do what it does not intend to do. This is more than a moral injunction. It has pragmatic significance. The credibility of the government is an asset—more valuable as it becomes scarcer—and it should not be wasted.

Second, while a sharp reduction of expenditures in response to the slowdown of the economy would be unwise, to destroy completely the expectation that the size of the deficit will be brought under sufficient restraint to prevent continued increase in the size of the federal debt relative to the GNP would also be unwise. That could cause an increase in long-term interest rates that would be harmful to economic growth. The de facto abandonment of Gramm-Rudman, without the establishment of any substitute rule of fiscal policy, will destroy all hope of deficit restraint. We find ourselves in a position where we can't live with Gramm-Rudman and can hardly live without it.

We need a fiscal policy that will limit the long-run growth of the deficit and the debt while not enforcing inefficient and probably destabalizing change of government expenditures in response to fluctuations of the economy. Fifty years ago people talked about balancing the budget over the business cycle as a solution to this problem. Forty years ago the Committee for Economic Development proposed the policy of balancing the budget at high employment for the same purpose. Even a few years ago people were talking about the difference between the "structural" deficit and the actual deficit, which was a way of distinguishing between our long-run position and our cyclical position.

The attractive nuisance of Gramm-Rudman diverted attention from all that, but our present situation shows the urgency of returning to the problem of reconciling our long-run and short-run fiscal requirements.

## REMEMBERING THEODORE BIDDLE

### HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. MURTHA. Mr. Speaker, I want to take a moment to honor Dr. Theodore Biddle, former president of the University of Pittsburgh at Johnstown, and note his death at the age of 80 on August 2.

Dr. Biddle was the former dean of men at Pitt, and the first president of the Johnstown campus. Following retirement, he became president emeritus.

Dr. Biddle helped so very many students during his illustrious career that it is correct to say that his efforts live on in the lives of thousands of productive graduates.

Moreover, in our area, the University of Pittsburgh at Johnstown has become a key academic center, an attraction to industry considering locating in the area, and a major economic force in the community. Johnstown is one of the university's most able and beneficial branch campuses, and that is not surprising given the start that it received under Dr. Biddle's leadership.

Dr. Biddle's was a constructive life, well lived. I enjoyed the chance to work with him and know him, and I hope we can join in continuing the strong tradition he has laid down at Pitt.

## CIVIL SERVICE SIMPLIFICATION ACT OF 1986

### HON. GENE TAYLOR

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Monday, August 11, 1986*

Mr. TAYLOR. Mr. Speaker, at the request of the administration, I am pleased to introduce the Civil Service Simplification Act of 1986. This proposal establishes a simplified management system for Federal employees in an effort to enhance management flexibility and employee incentives to better motivate the Federal work force while improving employee morale.

The current personnel system, which had its origins more than 60 years ago, stresses administrative procedure at the expense of management flexibility and opportunities to reward employee productivity. In 1978, Congress un-

dertook the first leg of an arduous journey in improving the Federal work force when we passed the Civil Service Reform Act. It is now time we complement that legislation with consideration of proposals focusing on the shortcomings of the current personnel system.

As Congress grapples with this issue we must remember that many Federal agencies have found themselves at a competitive disadvantage in efforts to recruit and retain highly skilled employees. The hiring system is excessively regulated and time consuming. The compensation system is rigid and lags behind comparable private sector pay in key fields. The job classification system is cumbersome and excessively involved with paperwork. Congress finds itself duty bound to solve these problems or the Federal work force could grind to a halt under such an antiquated system.

We have seen what can be accomplished when we reform the system. Under demonstration projects conducted at the Naval Weapons Center and the Naval Ocean System Center in California (commonly known as "China Lake") these military laboratories have seen a dramatic improvement in civilian employee productivity and morale. The 18-grade general schedule system was replaced by four to six pay bands to provide managerial flexibility. This system was designed to respond to market forces to allow competition for quality personnel in hard-to-fill occupations. Pay was linked to performance to an extent not possible under the current GS system. Additionally, the system has proven administratively simply thereby greatly reducing the effort and costs associated with the current Federal personnel management.

This simplified system has now been in operation for 6 years and has involved thousands of employees in a wide variety of occupations. Because of its success, the project has many supporters. For example, the President's blue-ribbon Commission on Defense Management, headed by David Packard, recommended extension of this successful system to acquisition personnel in the Department of Defense. Several bills have been introduced in the Congress which would established personnel systems, inspired to some extent by the Navy project, for other segments of the work force.

Mr. Speaker, in exploring solutions to these problems we must carefully balance the need for fiscal responsibility against our need for quality employees. It is in the national interest to fairly compensate our employees in light of the important functions which this work force performs.

My colleague from the other body, Mr. STEVENS of Alaska, has introduced similar legislation to further facilitate this important discussion. If the laws of this Nation are to be fully executed and enforced, we must ensure that this important job is carried out by a highly skilled and competent work force. I urge all my colleagues to enter this important discussion.

## SENATE COMMITTEE MEETINGS

**Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.**

**As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.**

**Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.**

**Meetings scheduled for Tuesday, August 12, 1986, may be found in the Daily Digest of today's RECORD.**

### MEETINGS SCHEDULED

### AUGUST 13

9:00 a.m.
Labor and Human Resources
Aging Subcommittee
Business meeting, to mark up proposed legislation to provide health services research on Alzheimers' disease and related disorders.
SD-430

9:30 a.m.
Banking, Housing, and Urban Affairs
Business meeting, to mark up Title I, to strengthen the Federal deposit insurance funds by reducing the cost of handling failing depository institutions, and Title II, to establish authority for the Federal Deposit Insurance Corporation to vary the level of assessments on insured banks according to the risk of each bank's activities and establish a uniform depositor preference system for paying the claims of all federally insured banks that fail, of S. 2592, proposed Deposit Insurance Reform and Competition Enhancement Act, and proposed legislation to set forth provisions concerning the registration and regulation of Government securities brokers and dealers, and other pending calendar business.
SD-538

Energy and Natural Resources
To hold hearings on H.J. Res. 17, to consent to an amendment enacted by the legislature of the State of Hawaii to the Hawaiian Home Commission Act, 1920.
SD-366

Finance
To hold hearings on S. 1871, relating to imports which threaten to impair the national security (incorporated in S. 1860 as Title X).
SD-215

Select on Intelligence
To hold closed hearings on intelligence matters.
SH-219

10:00 a.m.
Governmental Affairs
To hold hearings on the nomination of John Agresto, of the District of Columbia, to be Archivist of the United States.
SD-342

Judiciary
Security and Terrorism Subcommittee
To resume hearings on S. 2044, to establish the United States Marshals Service as a bureau within the Department of Justice.
SD-226

2:00 p.m.
Judiciary
To hold hearings on pending nominations.
SD-226

Select on Indian Affairs
Business meeting, to mark up S. 1452, Gay Head Wampanoag Indian Claims Settlement Act, S. 2118, to provide for the distribution of funds appropriated to pay a judgment awarded to the Sisseton and Wahpeton Tribes of Sioux Indians, S. 2564, to provide for the proper administration of justice within the Salt River Pima-Maricopa Indian Reservation by granting jurisdiction to the Salt River Pima-Maricopa Indian Community Court over certain criminal misdemeanor offenses, H.R. 1344, Ysleta del Sur Pueblo and Alabama and Coushatta Indian Tribes of Texas Restoration Act, H.R. 1920, Indian Gaming Regulatory Act, and H.R. 3554, Klamath Indian Tribe Restoration Act.
S-205, Capitol

2:15 p.m.
Select on Intelligence
